

JINGZHANG OPEN STUDIO

ONE PACT · THREE STUDIOS · TWO WINGS · TWELVE LENSES

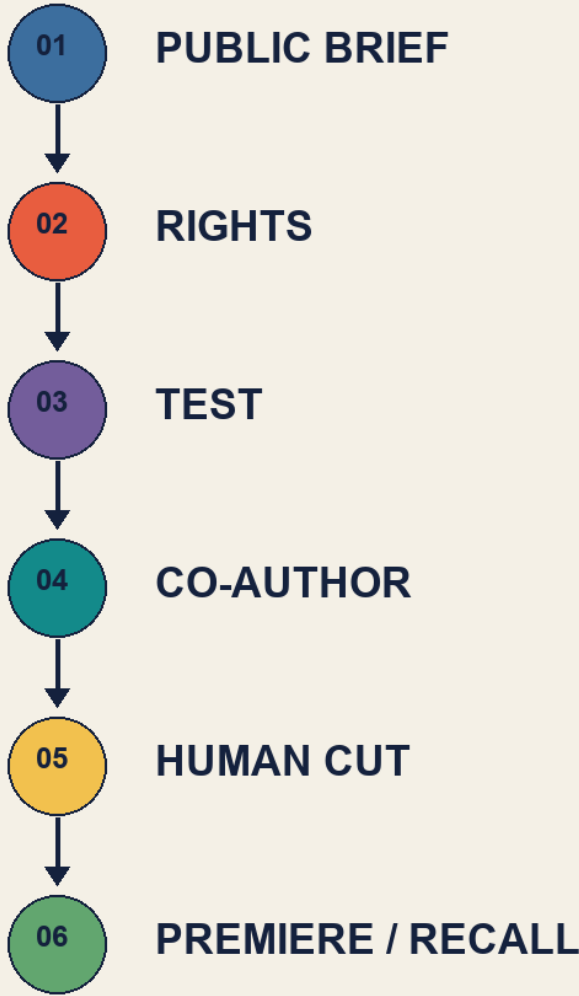

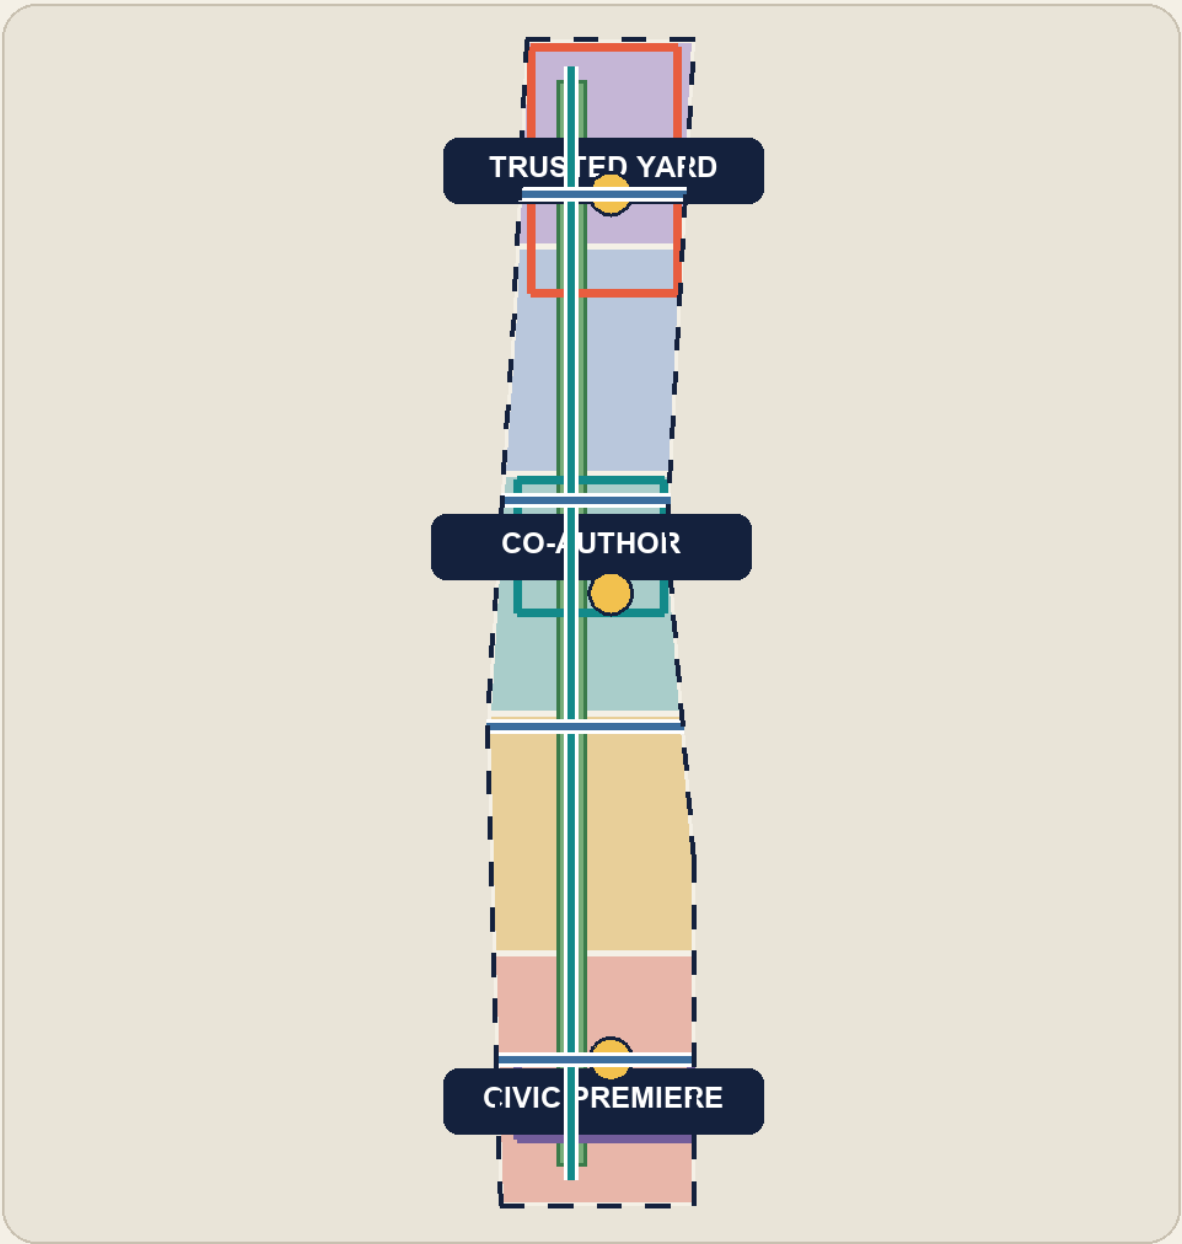

Rights-cleared, credited, human-final-cut, and recallable.
The city is not a free film set; residents are not default extras; AI
is not the final author.

OS / 01

OPEN STUDIO: EVIDENCE & RELEASE GATES

A recallable production chain links source, rights, space, and named human review before any certainty claim.

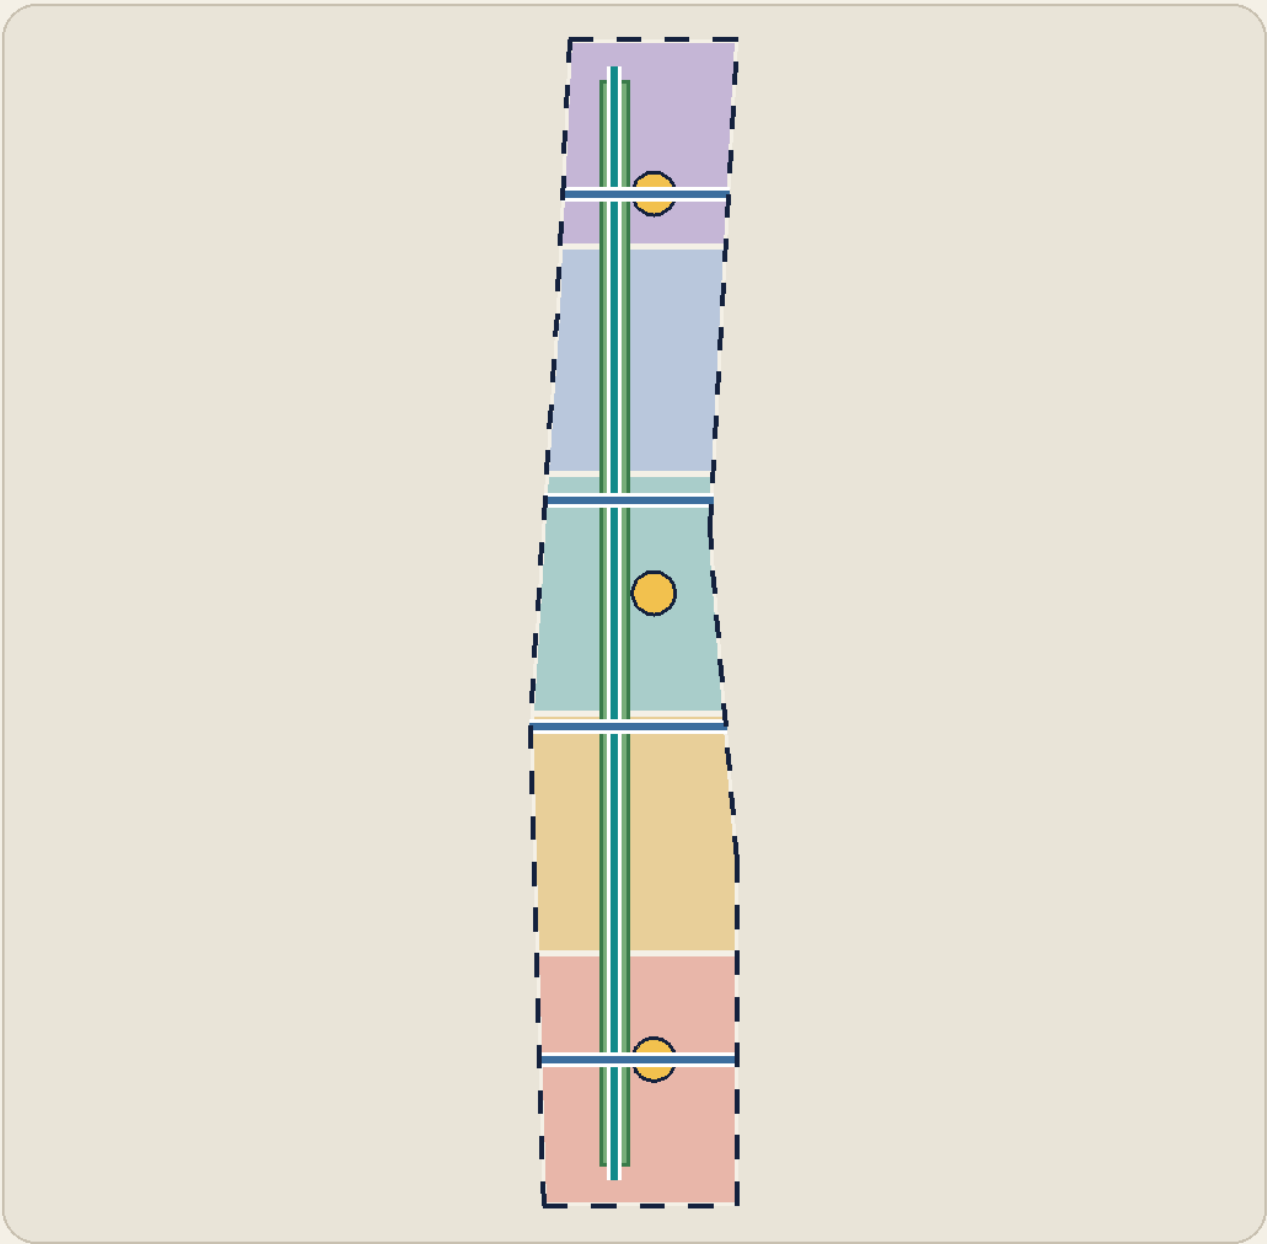

OFFICIAL POLYGON → REGENERATE THE CHAIN

Sources: official announcement, Agent taskbook, repository provisional geometry, and Issue #846. Dashed envelope is not a redline or precision/control/engineering basis.

OS / 02

ONE PACT · THREE STUDIOS · TWO WINGS · TWELVE LENSES

Five gap-free placeholders encode production order; verified controls may rearrange space but not rights or human review.

05 MODEL + EMBODIED TEST

04 LEARNING + CO-CREATION

03 OPEN R&D + TESTING

02 RIGHTS + RELEASE

01 PREMIERE + PUBLIC RELEASE

← ZHONGGUANCUN: RIGHTS BACKLOT

XIAOYUE: LOCATION + FEEDBACK →

Codes use the repository-registered MNR subset. Diagram is agent-generated design, not existing or proposed statutory zoning.

OS / 03

THREE STUDIOS ARE VERSION GATES, NOT THREE SHOWROOMS

Test reports, co-author records, and public feedback are the legitimate hand-offs between areas.

01 ZHONGZHIYUAN

TRUSTED PRODUCTION YARD

virtual production / synthetic performers / robot camera / red team

GATE: TECH + RIGHTS + TAKEOVER

02 AI ORIGIN

CO-AUTHOR STUDIO

open story / rights clinic / accessible localization / community co-making

GATE: CLEARED CUT + CO-AUTHOR RECORD

03 DAZHONGSI

CIVIC PREMIERE GROUND

public rough cut / named final cut / timed premiere / recall

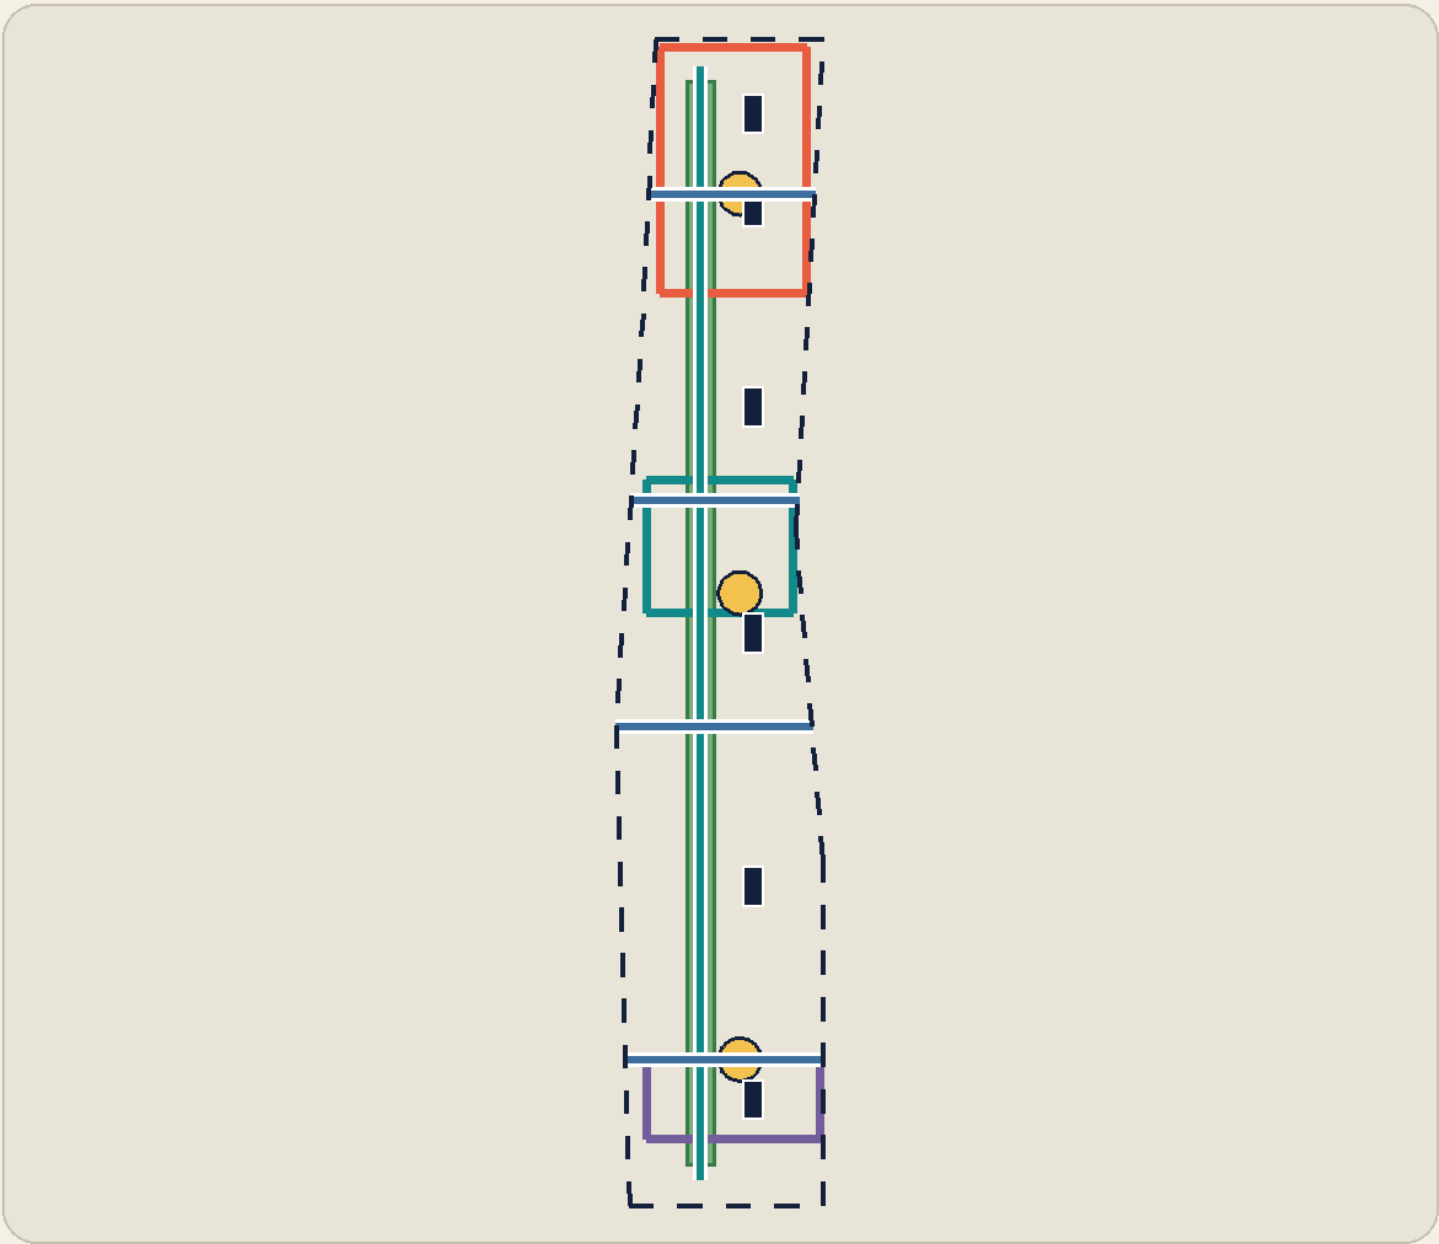

GATE: VERSION + TERM + ACCOUNTABILITY

All three polygons are provisional rough geometry. Confirm official limits, heritage, ownership, buildings, transport, and operators before detailed design.

OS / 04

EVERYDAY PASSAGE HAS FIRST RIGHT OF WAY

Filming, loading, queues, lighting, and robots yield to accessible movement and can retreat indoors or into closed tests.

OPEN STUDIO WALKING SPINE
accessible walking + cycling + daily park use

QUIET BLUE-GREEN COMMONS
habitat, shade, and quiet first

FOUR CROSS LINKS
desired links, not bridge/tunnel claims

THREE PUBLIC ROOMS
visible status, access, complaint, recall

LOGISTICS + ROBOT EXIT GATE
off-peak, low speed, stop, bypass

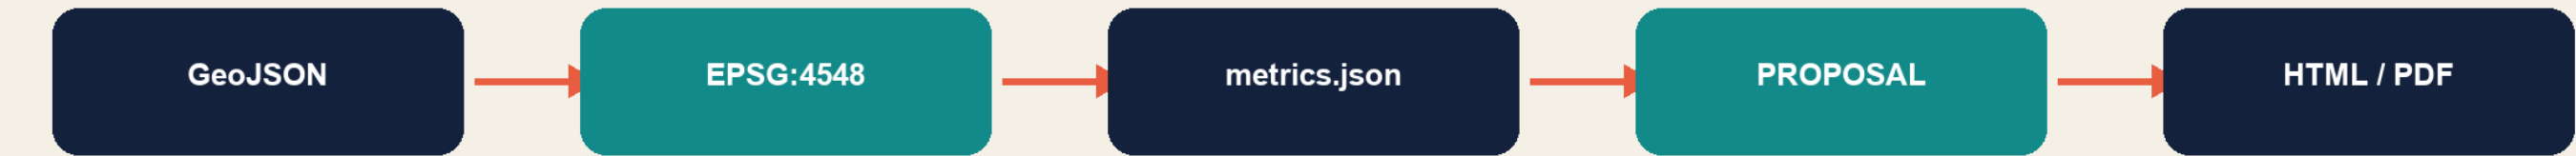

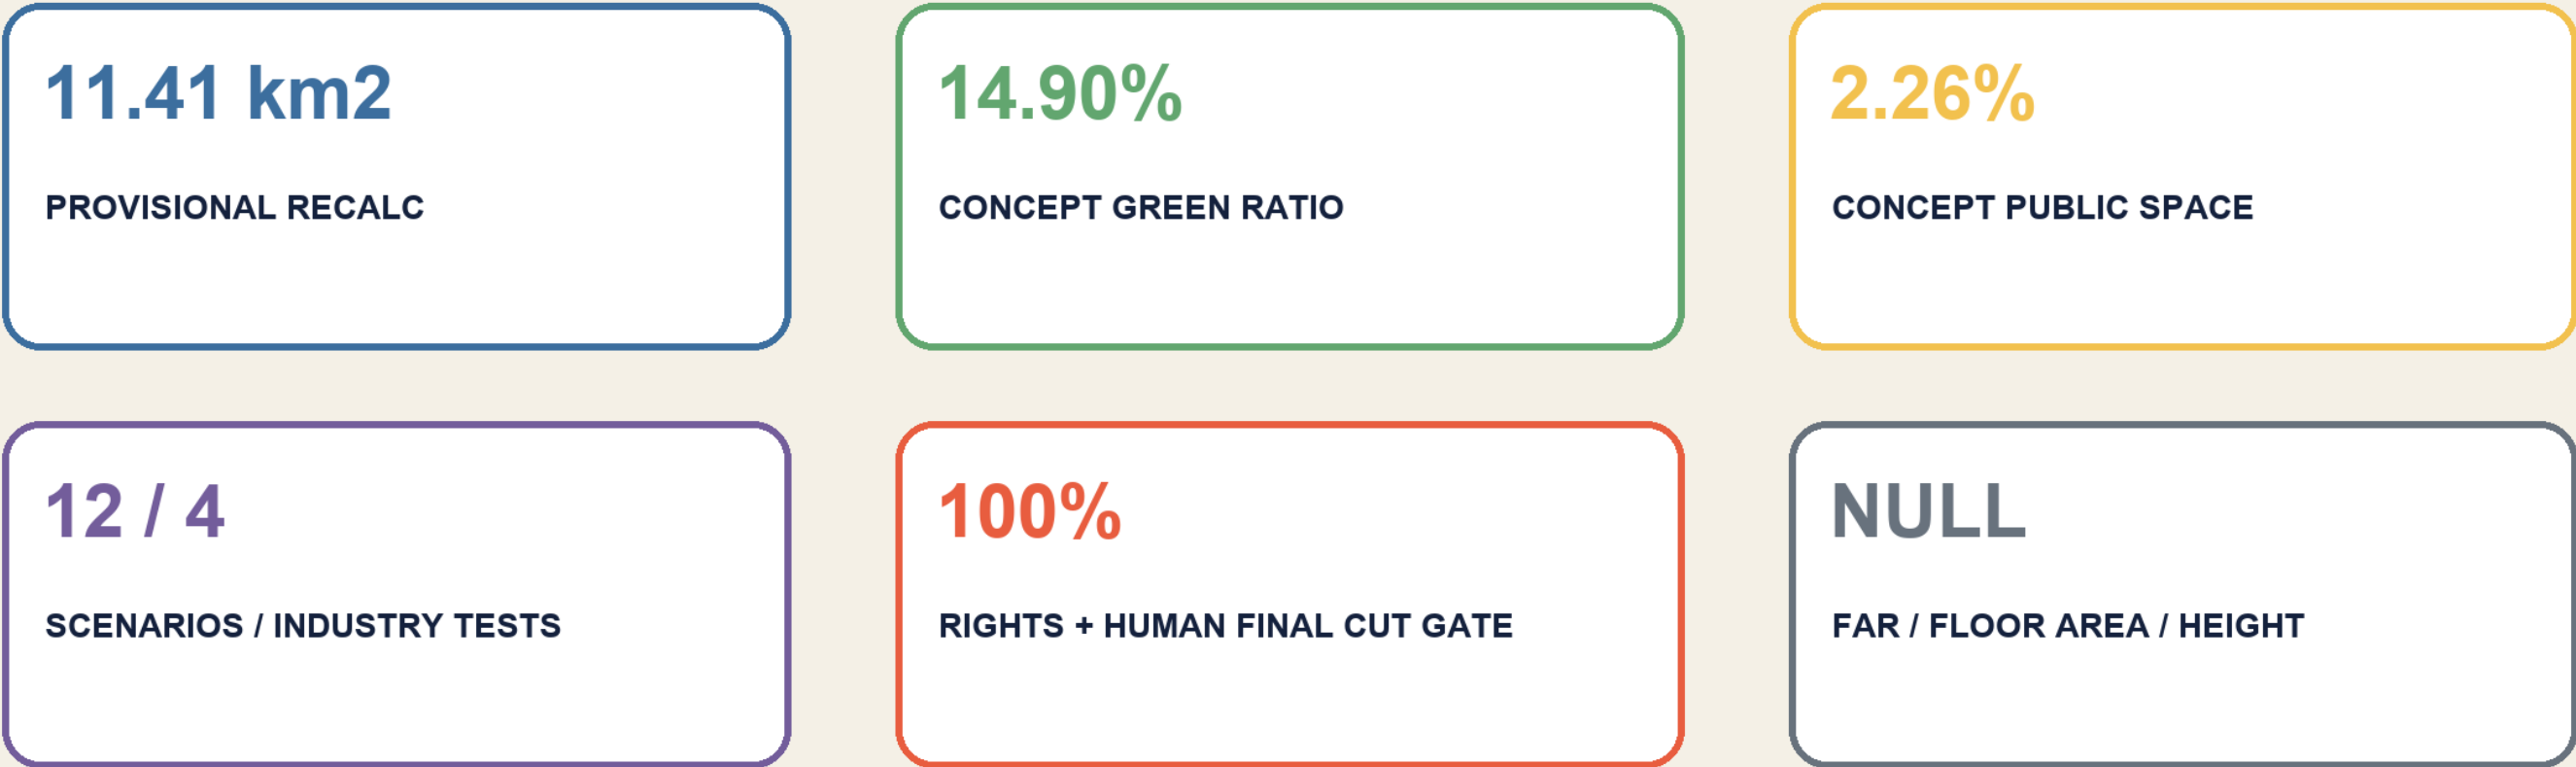

NO REDLINE / BRIDGE / TUNNEL / STATION CLAIM

Road, rail, flow, parking, utilities, sound/light, ecology, and heritage data are missing; every route and interface is conceptual.

OS / 05

THREE KINDS OF NUMBER: RECALCULATED, HARD GATE, UNKNOWN

Low-confidence spatial values test internal consistency; governance hard gates control public release; missing controls stay blank.

Spatial calculations use EPSG:4548; every displayed metric matches metrics.json. Official geometry triggers full-package regeneration.

12 SCENARIOS · 4 INDUSTRY TESTS · 6 PERSONAS
