

BELT IDENTITY • OVERALL STRUCTURE • LAND USE

One real mark, three spatial proofs, five functional bands and five open regional interfaces.

01 / BELT IDENTITY + OPEN INTERFACES

One line, three spatial proofs

A real brand, distinct prototypes and five non-binding regional collaboration interfaces.

PROVISIONAL CONSTRAINT · NOT AN OFFICIAL REDLINE

THE LISTENING LINE

JING-ZHANG · OPEN REPAIR MARK

THREE PLACE-SPECIFIC PROOFS

P3 ACCOUNTABLE WATER EDGE

asset + ecology + offline fallback

P2 QUIET TRANSLATION COURT

heritage + quiet + accessible interpretation

P1 FOUR-QUADRANT PATCH

access audit + option comparison + closure

OPEN INTERFACE · NO ENDORSEMENT / COMMITMENT

v1.3 · provisional geometry · 3 spatial prototypes · 5 regional interfaces · all implementation requires authorization

02 / LAND-USE + THREE-LEVEL TRANSMISSION

Five functional bands, one shared boundary

A complete provisional partition for discussion; statutory use and development controls remain pending.

PROVISIONAL CONSTRAINT · NOT AN OFFICIAL REDLINE

05 GLOBAL EXCHANGE / INDUSTRY SERVICE

urban AI-native services and public response

07 TALENT LIFE / COMMUNITY

work-life-social-learning integration

08 OPEN EDUCATION / TRANSLATION

near-campus explanation, transfer and review

0802 R&D TEST / VALIDATION

full-stack R&D, limited trial and failure archive

14 ECOLOGICAL PUBLIC ACTIVITY

heritage line, water-edge interface and quiet use

KNOWN 11.413 km² · 100% partition coverage · 0 overlaps

UNKNOWN FAR · height · BCR · statutory land use

v1.3 · [metric|land_use_area_total_sqm] · topology-complete provisional partition · not statutory planning

LAND-USE EVIDENCE

05 exchange/service

07 talent/community

08 education/translation

0802 R&D/validation

14 ecological public space

KNOWN 11.413 km² · 100% partition · 0 overlaps

UNKNOWN FAR · height · BCR · statutory use

THE LISTENING LINE

JING-ZHANG · OPEN REPAIR MARK

3 / 5 / 10

spatial prototypes / open interfaces / E3 artifacts

P3 water edge

P2 quiet court

P1 four-quadrant patch

THREE KEY AREAS • THREE PLAN-SECTION LANGUAGES

Visible parts, first field evidence, receiving professionals and pause conditions.

03 / THREE SPATIAL PROTOTYPES

Three sites, three plan-section languages

Each prototype has physical components, a professional handoff and an auditable first field-evidence path.

P3 ZHONGZHIYUAN | ACCOUNTABLE WATER EDGE

ACCOUNTABLE WATERSIDE SECTION

parts: eco-buffer / path / accountability cabinet / offline basics

first evidence: real asset-dependency-accountability register

handoff: asset, water/ecology, electrical/network, procurement, data

pause: no owner / takeover failure / ecological or safety risk

E3 START-READY • NOT FIELD-PROVEN

P2 AI ORIGIN | QUIET TRANSLATION COURT

QUIET TRANSLATION COURT

parts: heritage trace / quiet edge / translation table / multimodal access

first evidence: device-content-rights-quiet-conflict map

handoff: acoustics, heritage/oral history, access, rights, operations

pause: uncleared rights / forced exposure / no human explanation or off switch

E3 START-READY • NOT FIELD-PROVEN

P1 DAZHONGSI | FOUR-QUADRANT PATCH

FOUR-QUADRANT ACCESS LOOP

parts: four-quadrant loop / repair porch / physical signs / resting points

first evidence: 30 role-task walks and option matrix

handoff: transport, rail, parks, accessibility, safety, community

pause: unsafe route / unclear authority / no non-smartphone path

E3 START-READY • NOT FIELD-PROVEN

AI-NATIVE DECISION • E3 START PACK • AUDIT

Four Agents structure evidence; named humans decide; field outcomes remain unknown.

05 / AUDITABLE START PACKAGE

Move from E2 to E3 without inventing E3

Ten commissioning artifacts, four human gates and explicit unknown field outcomes.
