

THE ORDINARY LINE STAYS GREEN

One civic rule becomes three places people can understand, use and stop

T1
Tsinghua Yuan | Parallel Heritage Platform

Heritage interpretation and AI trials run in parallel; equipment never cuts the ordinary visit.

T2
Line 15 arrival | Braided Knowledge Crossing

Two agent proposals cross, while the public keeps one continuous and reversible task line.

T3
Dazhongsi | One-Queue Three-Exit Fan

One arrival queue fans to ordinary service, staffed review and optional AI; tasks survive outage.

3

independent sites

5

public release locks

48

synthetic trials

PUBLIC PROMISE

If AI stops, the same public task and ordinary route remain.

THREE ANCHORS, NOT ONE CEREMONIAL WALK

Amap routing snapshots support three independently useful arrivals

ONE HERITAGE SPINE, THREE NODES AND TWO OPEN WINGS

Spatial structure is tied to submitted geometry and recomputable area metrics

RECOMPUTABLE SUBMITTED-GEOMETRY METRICS

11.413 km2 submitted site area	1.409 km2 green space
0.836 km2 public space	12.34% green ratio
7.33% public-space ratio	0.311 km2 building footprint

DESIGN RELATION

- heritage spine = ordinary public continuity
- three nodes = independent public tasks
- two wings = open ecosystem interfaces
- all areas recalculate when official geometry arrives

ONE KIT, THREE DIFFERENT PLAN RELATIONSHIPS

The spatial answer changes with heritage, knowledge exchange and daily transfer

T1

Tsinghua Yuan | Parallel Heritage Platform

H = ordinary / staffed route

24 x 12 m

prototype	24 x 12 m
clear route	2.4 m
reversible bays	2 x 3 x 3 m
summer shade proxy	67%
winter unshadowed	81%

G0 field verification required

T2

Line 15 arrival | Braided Knowledge Crossing

H = ordinary / staffed route

30 x 15 m

prototype	30 x 15 m
clear route	2.2 m
reversible bays	2 x 3 x 4.5 m
summer shade proxy	73%
winter unshadowed	78%

G0 field verification required

T3

Dazhongsi | One-Queue Three-Exit Fan

H = ordinary / staffed route

32 x 18 m

prototype	32 x 18 m
clear route	2.4 m
reversible bays	2 x 3 x 6 m
summer shade proxy	70%
winter unshadowed	75%

G0 field verification required

Tsinghua Yuan | Parallel Heritage Platform

Heritage interpretation and AI trials run in parallel; equipment never cuts the ordinary visit.

PLAN RELATION

H = ordinary / staffed route

PROTOTYPE SECTION

PUBLIC TASK

Paper guide, staffed interpretation and optional two-agent comparison

BOX

24 x 12 m

CLEAR

2.4 m

BAYS

2 x 3 x 3 m

TURN

1.5 m

Line 15 arrival | Braided Knowledge Crossing

Two agent proposals cross, while the public keeps one continuous and reversible task line.

PLAN RELATION

H = ordinary / staffed route

PROTOTYPE SECTION

PUBLIC TASK

University-question translation, public comparison and named human decision

BOX

30 x 15 m

CLEAR

2.2 m

BAYS

2 x 3 x 4.5 m

TURN

1.5 m

Dazhongsi | One-Queue Three-Exit Fan

One arrival queue fans to ordinary service, staffed review and optional AI; tasks survive outage.

PLAN RELATION

H = ordinary / staffed route

PROTOTYPE SECTION

PUBLIC TASK

Daily transfer service, staffed counter and bounded AI consultation

BOX

32 x 18 m

CLEAR

2.4 m

BAYS

2 x 3 x 6 m

TURN

1.5 m

THREE ARRIVALS, ONE RIGHT TO REFUSE

Every journey works through the ordinary or staffed line before AI is offered

Older visitor

No registration, face recognition or smartphone is required for the ordinary task.

Student / researcher

No registration, face recognition or smartphone is required for the ordinary task.

Commuter / family

No registration, face recognition or smartphone is required for the ordinary task.

FIVE RELEASE LOCKS + ACCESSIBILITY PROXIES

- L2 named human
- L3 rights + scope
- L4 legible evidence
- L5 recovery ready

min clear 2.2 m | turning circle 1.5 m | summer shade proxy min 67% | field accessibility audit required

BUILD THE ORDINARY SERVICE FIRST

Three phases bind scope, owner, cost band, permit and stop condition

EVIDENCE SUPPORTS A DECISION; IT DOES NOT REPLACE ONE

What is measured, what is provisional, and what experts still decide

A PLACE BECOMES A CIVIC INSTITUTION THROUGH OPERATION

Annual events, public memory and review keep the corridor alive after construction

SIX AGENT TASKS BECOME ONE PUBLIC STORY

The monument records verified contribution, not promotional presence.

FOUR ROOTS ENTER; ONLY ONE PASSES THE HARD GATES

Selection is traceable; a proxy score never replaces design review

R4 / CIVIC INTERLOCKING YARDS

Only root with continuous ordinary service, visible human responsibility, reversible AI area and ≤25% flow-conflict proxy.

FORTY-EIGHT TRIALS; FAILURE IS A DESIGNED OUTPUT

Twelve city scenarios × four fixtures create hash-addressed route cards

48

Synthetic fixtures test the design contract; they are not field outcomes or safety certification.

3 M INFORMATION PLATFORM MOCK-UP

A reversible section for shade, access, human takeover and public evidence

SEVEN RIGHTS ARE THE ACCEPTANCE TEST

If one right is absent, the pilot cannot pass G2

	Families	Mobility-impaired	Students & faculty	Developers	Maintainers	Visitors
No-device access	PASS	PASS	PASS	PASS	PASS	PASS
Anonymous question	PASS	PASS	PASS	PASS	PASS	PASS
Data withdrawal	PASS	PASS	PASS	PASS	PASS	PASS
Human review	PASS	PASS	PASS	PASS	PASS	PASS
Status notice	PASS	PASS	PASS	PASS	PASS	PASS
Appeal	PASS	PASS	PASS	PASS	PASS	PASS
Accessible baseline	PASS	PASS	PASS	PASS	PASS	PASS

G2 RELEASE RULE

ordinary route + named human owner + appeal + accessible recovery + dated exit

THREE INDUSTRY TEST CONTRACTS

Health, education and commerce share one public release protocol

HEALTH

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- triage explanation
- minimal data
- clinician takeover
- misdirection drill

EDUCATION

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- teacher-defined task
- minor protection
- teacher takeover
- bias drill

COMMERCE

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- recommendation basis
- no dark pattern
- human complaint
- withdrawal drill
