

JINGZHANG, PRESENT

A future city needs more than systems online. It needs everyone present.

ONE LINE · FOUR STITCHES · THREE GROUNDS · TWO WINGS

A future city needs more than systems online. It needs everyone present.

01 TECHNOLOGY PRESENT — Zhongzhiyuan

02 KNOWLEDGE PRESENT — AI Origin Community

03 EVERYDAY LIFE PRESENT — Dazhongsi

04 ENABLING RESOURCES / PUBLIC EXPERIENCE

05 14 accountable scenarios · 9 publics

JINGZHANG, PRESENT

An open co-creation proposal. Conceptual reference for professional development; not statutory planning or an approved government decision.

THE PRESENCE CONTRACT

Write accountability before technology enters the city.

THE PRESENCE CONTRACT

A future city needs more than systems online. It needs everyone present.

01PUBLIC PURPOSE

03AI ROLE

05EQUIVALENT SERVICE

07ACCOUNTABLE OPERATOR

02DATA BOUNDARY

04HUMAN AUTHORITY

06FAILURE PATH

08PUBLIC REVIEW

JINGZHANG, PRESENT

A scenario without human stop authority, an equivalent non-AI service and a named accountable operator cannot enter real-city testing.

THREE GROUNDS · TWO WINGS

Technology present · knowledge present · everyday life present.

THREE GROUNDS, ONE TRUSTED CONVERSION CHAIN

A future city needs more than systems online. It needs everyone present.

- 01 ZHONGZHIYUAN — publish boundaries, failures and governance
- 02 AI ORIGIN COMMUNITY — co-produce domain knowledge
- 03 DAZHONGSI — make responsible AI legible in daily life

JINGZHANG, PRESENT

The two wings make enabling resources and public experience present. Together they form one trusted conversion chain.

Auditable evidence moves; implied commitments do not.

FIVE EXTERNAL INTERFACES · ONE AUDITABLE METHOD

A future city needs more than systems online. It needs everyone present.

- 01 NORTH LATITUDE COMMUNITY — founder and small-team needs
- 02 FUTURE SCIENCE CITY — research and engineering validation
- 03 HUAIROU SCIENCE CITY — basic science and expert review
- 04 BEIJING E-TOWN — manufacturing reliability and product passports
- 05 BEIJING-TIANJIN-HEBEI — cross-city retesting and open components
- 06 No partnership, funding, procurement or facility access is implied

JINGZHANG, PRESENT

Proposed interfaces connect North Latitude Community, Future Science City, Huairou Science City, Beijing E-Town and the Beijing-Tianjin-Hebei network. No partnership, funding, procurement, policy or facility access is implied.

Four industry tests and ten public-life scenarios for nine publics.

FOURTEEN ROLL CALLS

A future city needs more than systems online. It needs everyone present.

- | | | | | | | | | | |
|----|-------|------------------------|---|--|----|-------|---------------------|---|--|
| 01 | TV-01 | INDUSTRY TEST | — | Open Model–Boundary Test Field | 02 | TV-02 | INDUSTRY TEST | — | Embodied AI Shared–Path Sandbox |
| 03 | TV-03 | INDUSTRY TEST | — | Transparent Edge–Compute and Thermal Station | 04 | TV-04 | INDUSTRY TEST | — | Data and Domain–Knowledge Co–Lab |
| 05 | CS-05 | PUBLIC SERVICE | — | Co–Verified Accessible Route | 06 | CS-06 | AI + PUBLIC SERVICE | — | Multilingual Public–Service Desk |
| 07 | CS-07 | AI + EDUCATION | — | Campus–Community Problem Table | 08 | CS-08 | AI + HEALTH | — | Community Health and Referral Guide |
| 09 | CS-09 | AI + EDUCATION | — | Learning Methods and Digital Literacy Lab | 10 | CS-10 | AI + DAILY SERVICES | — | Shared Last–100–Metre Interface |
| 11 | CS-11 | AI + COMMERCE | — | Responsible AI Product–Passport Street | 12 | CS-12 | AI + CULTURE | — | Centennial Jingzhang Co–Narration Desk |
| 13 | CS-13 | AI + LEGAL INFORMATION | — | Public Legal–Information Signpost | 14 | CS-14 | URBAN OPERATIONS | — | Night–City Handover Station |

JINGZHANG, PRESENT

Health and legal scenarios explain information and routes only. Worker data cannot become hidden performance monitoring.

RIGHTS MADE VISIBLE

Fixed information, human help and digital augmentation run in parallel.

01

NORTH-SOUTH CONTINUITY — culture, walking and help

02

EAST-WEST STITCHES — four interfaces, engineering pending

03

QUIET COMMONS — no purchase, device or account required

04

REST + REPAIR BAYS — infrastructure for people who keep the city running

PUBLIC SPACE MAKES RIGHTS VISIBLE

A future city needs more than systems online. It needs everyone present.

JINGZHANG, PRESENT

Eight open components turn fallback, rest, accessibility, appeal and version history into physical interfaces.

A complete conceptual partition, never a demolition instruction.

A future city needs more than systems online. It needs everyone present.

- JINGZHANG, PRESENT

京张在场 · 07

90 DAYS · GO / HOLD / STOP

Prove the accountability chain before scaling technology.

RECALCULABLE, NEVER FALSELY PRECISE

A future city needs more than systems online. It needs everyone present.

- 01 11.41 km² — provisional submitted geometry
- 02 16.7% — design green-space ratio
- 03 9.8% — design public-space ratio
- 04 FAR / HEIGHT / CAPACITY — UNKNOWN pending official controls

JINGZHANG, PRESENT

Co-define; run AI and non-AI services side by side; cross-review failures; then decide Go, Hold or Stop. Scale-up requires a new review.
