

JING-ZHANG CIVIC INTELLIGENCE LOOP

One heritage spine, three cores, two wings, twelve auditable scenarios

CONCEPTUAL / PROVISIONAL GEOMETRY

Not an official redline or approval basis. Recalculate when official data is released.

LAND-USE STRUCTURE

Six linked bands along the heritage walking spine

STRUCTURE

A continuous north-south public spine links research, services, commons, community, heritage and daily life.

EVIDENCE

land_use.geojson
green_space.geojson
public_space.geojson
metrics.json

Land-use categories and controls remain conceptual until statutory planning

CONCEPTUAL / PROVISIONAL GEOMETRY

Not an official redline or approval basis. Recalculate when official data is released.

THREE KEY AREAS

Distinct roles, operating boundaries and professional deepening tasks

01 ZHONGZHIYUAN AI ACCELERATION AREA

192.1 ha - provisional

- Open testing green loop
- Model evaluation and red-team block
- Low-speed embodied-AI route
- Low-carbon compute workshop

Human review and site-specific approval remain mandatory.

02 AI ORIGIN COMMUNITY OPEN INNOVATION DISTRICT

104.3 ha - provisional

- Open-source release hall
- Civic deliberation loop
- Learning commons
- Privacy-preserving sensing sandbox

Human review and site-specific approval remain mandatory.

03 DAZHONGSI AI INDUSTRY CLUSTER

72.0 ha - provisional

- Station-city walking loop
- Human-assisted public services
- Health and legal navigation
- Talent landing services

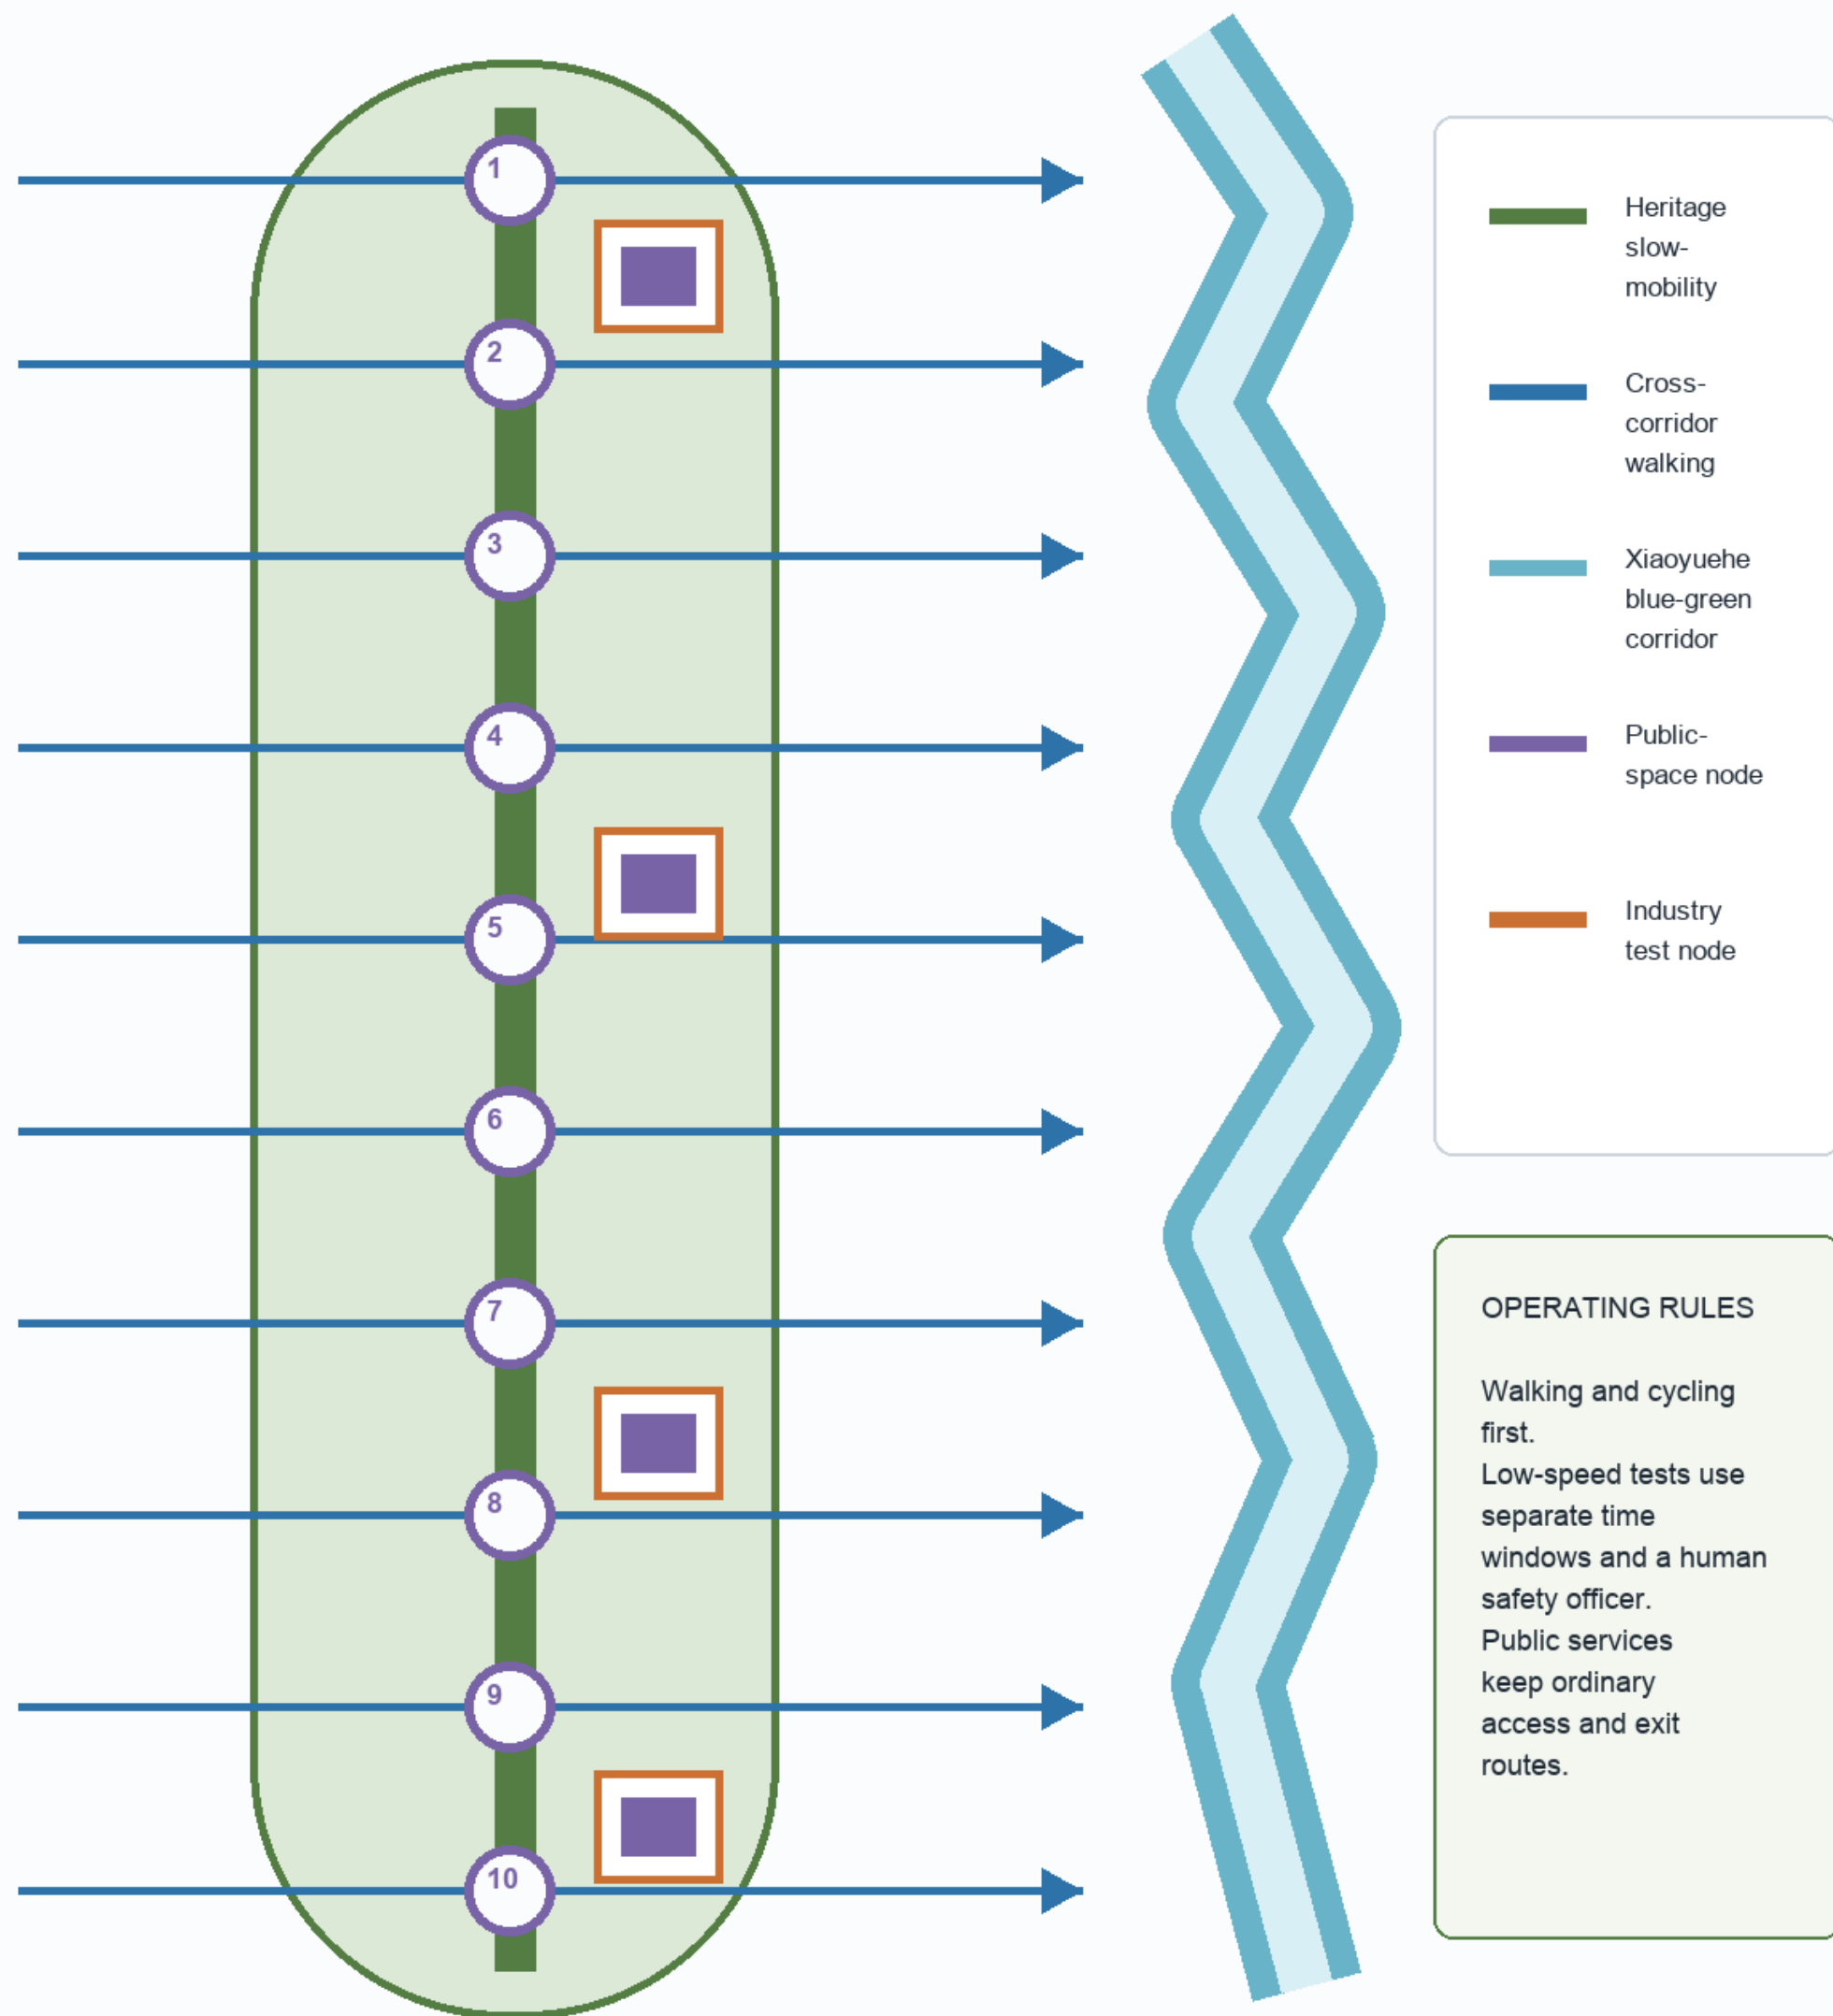

Human review and site-specific approval remain mandatory.

CONCEPTUAL / PROVISIONAL GEOMETRY

Not an official redline or approval basis. Recalculate when official data is released.

SLOW MOBILITY + BLUE-GREEN COMMONS

Walking first, test routes time-separated, human services retained

CONCEPTUAL / PROVISIONAL GEOMETRY

Not an official redline or approval basis. Recalculate when official data is released.

CORE METRICS + EVIDENCE CHAIN

Recalculated from provisional geometry; not statutory planning indicators

11.41 km²

Provisional design area
