04 Stop

05 Review

WHY HANDOVER?

- Prototype □ service
- Machine □ human
- Day □ night
- Build □ operate
- Pilot □ retire

If no one receives responsibility, the scenario does not enter public space.

TWELVE SCENARIO CARDS

Every scenario has a receiver, a stop condition, and a human doorway

05

- 01 **01–03 Industry validation: model safety, embodied accessibility, edge maintenance**
- 02 04–06 Learning and innovation: AI literacy, open-source relay, enterprise service
- 03 07–09 Everyday service: health navigation, safe walking, low-speed delivery
- 04 10–12 Culture and operation: heritage guide, night event, civic adoption
