

Jing-Zhang NeuroRail

A Self-Auditing AI-Symbiotic Innovation Belt

Jing-Zhang AI Innovation Belt · Urban Design (A3 Booklet)

Core idea: Scenario-as-Infrastructure

Spine · Ganglia · Synapse · Wings

Tracks: AI Origin Community · Jing-Zhang heritage narrative · civic-agent governance

Fig.1 · Overview: NeuroRail Spatial Structure & Evidence Chain

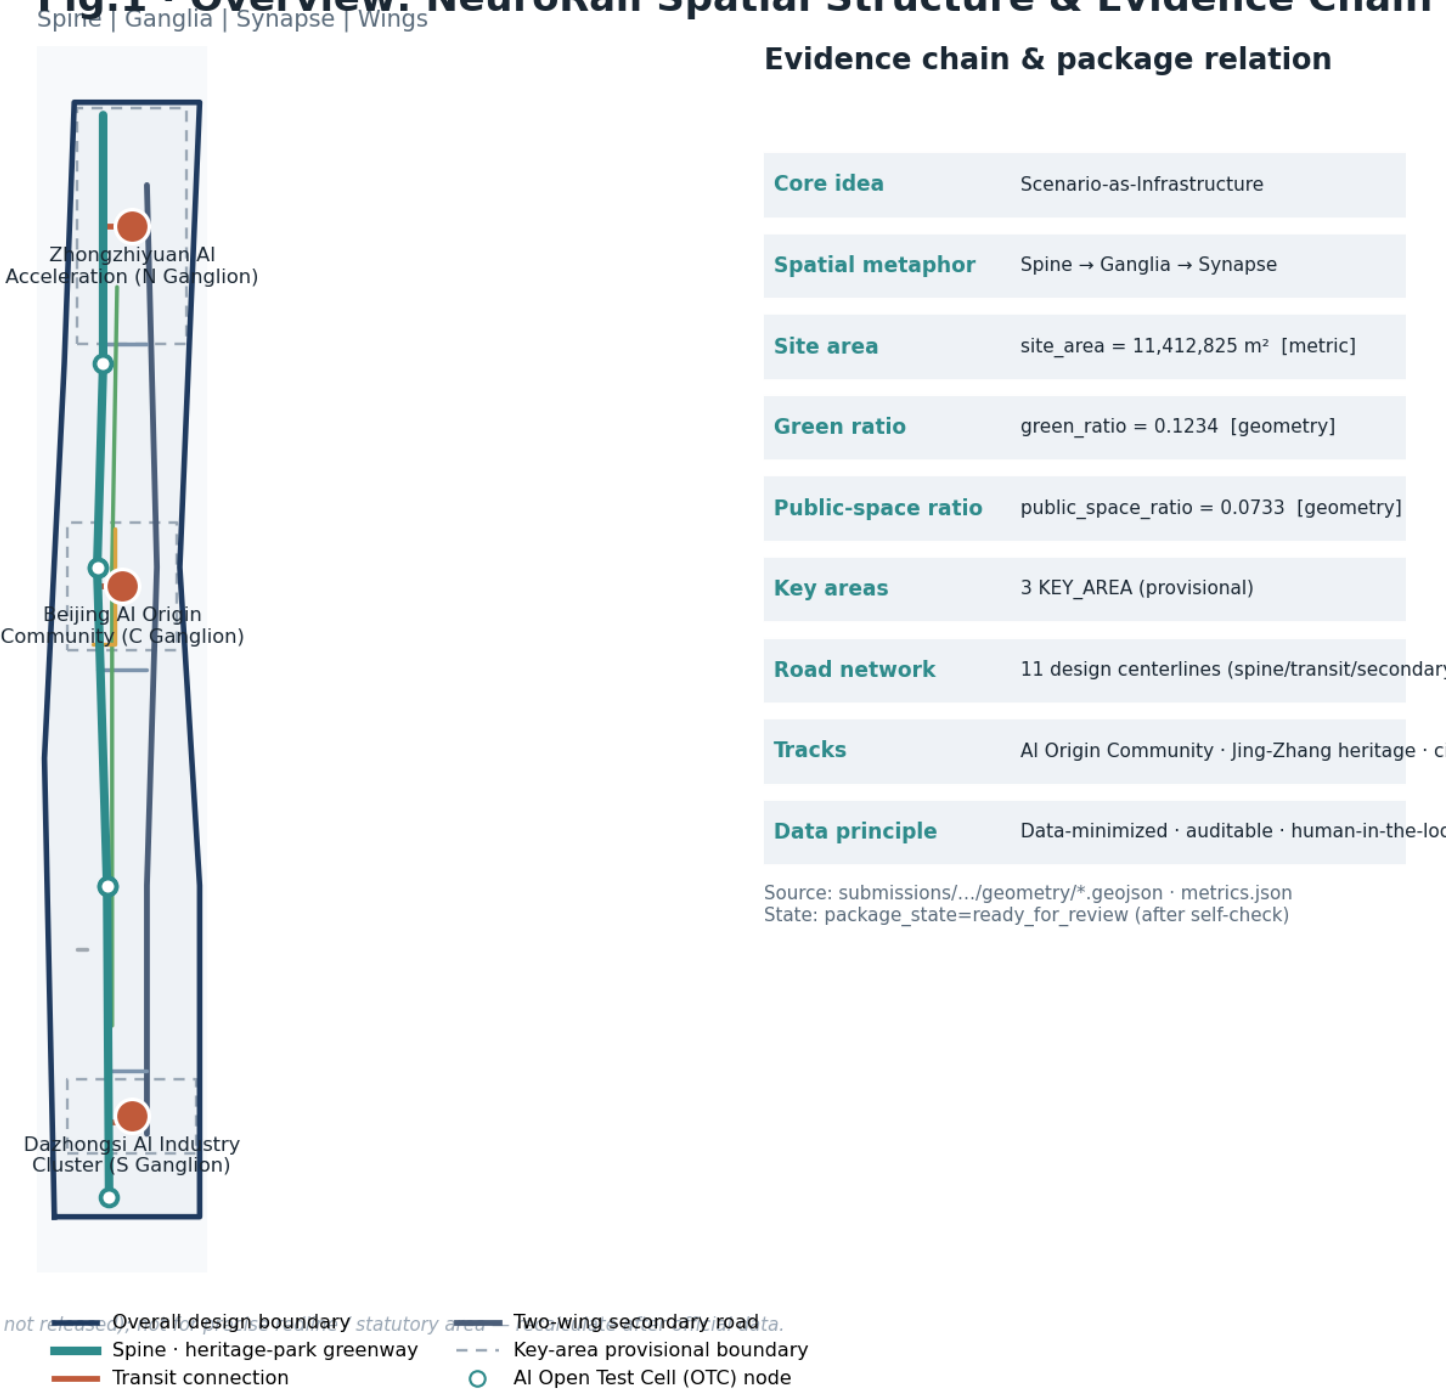

Fig.1 · Overview Map · Spatial Structure & Evidence Chain

Source: geometry/*.geojson · metrics.json (machine-readable files are authoritative)

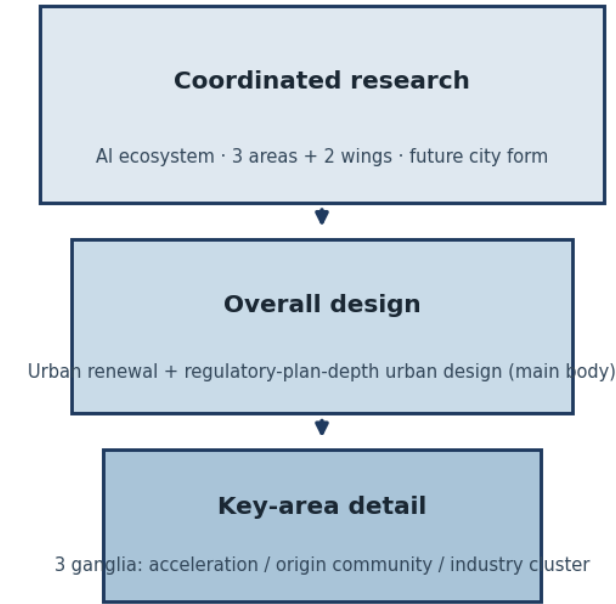

Fig.2 · Three-Level Scope & Land-Use Structure

Coordinated research → overall design (regulatory-plan depth) → key-area detail

Dashed: phase-1 discussion extent (conceptual, not statutory phasing)

Three-level scope framework

Recalc basis: EPSG:4548 projection
land_use is a seamless full partition (no gaps/overlaps)

Boundaries are provisional_rough (orgaData: find_land_use.geojson re-arrange redlin to calculate after official data.
Research 0802 Commercial 05
Park Green 1401 Culture/Sports 0702

Fig.2 · Three-Level Scope & Land-Use Zoning

Source: geometry/*.geojson · metrics.json (machine-readable files are authoritative)

Fig.3 · Three Key Areas (Ganglia): Index & Design Tasks

aries are provisional_rough (organizer official redline not released); not for precise redline / statutory area — recalculate after official data.

Fig.3 · Three Key Areas · Ganglia Detailed Design

Source: geometry/*.geojson · metrics.json (machine-readable files are authoritative)

The heritage-park vitality belt is the Spine, linking transit connections, Synapse connector branches, cycleways, pedestrian galleries and public interfaces.

Fig.4 · Walkable Transport & Blue-Green Public-Space Composit

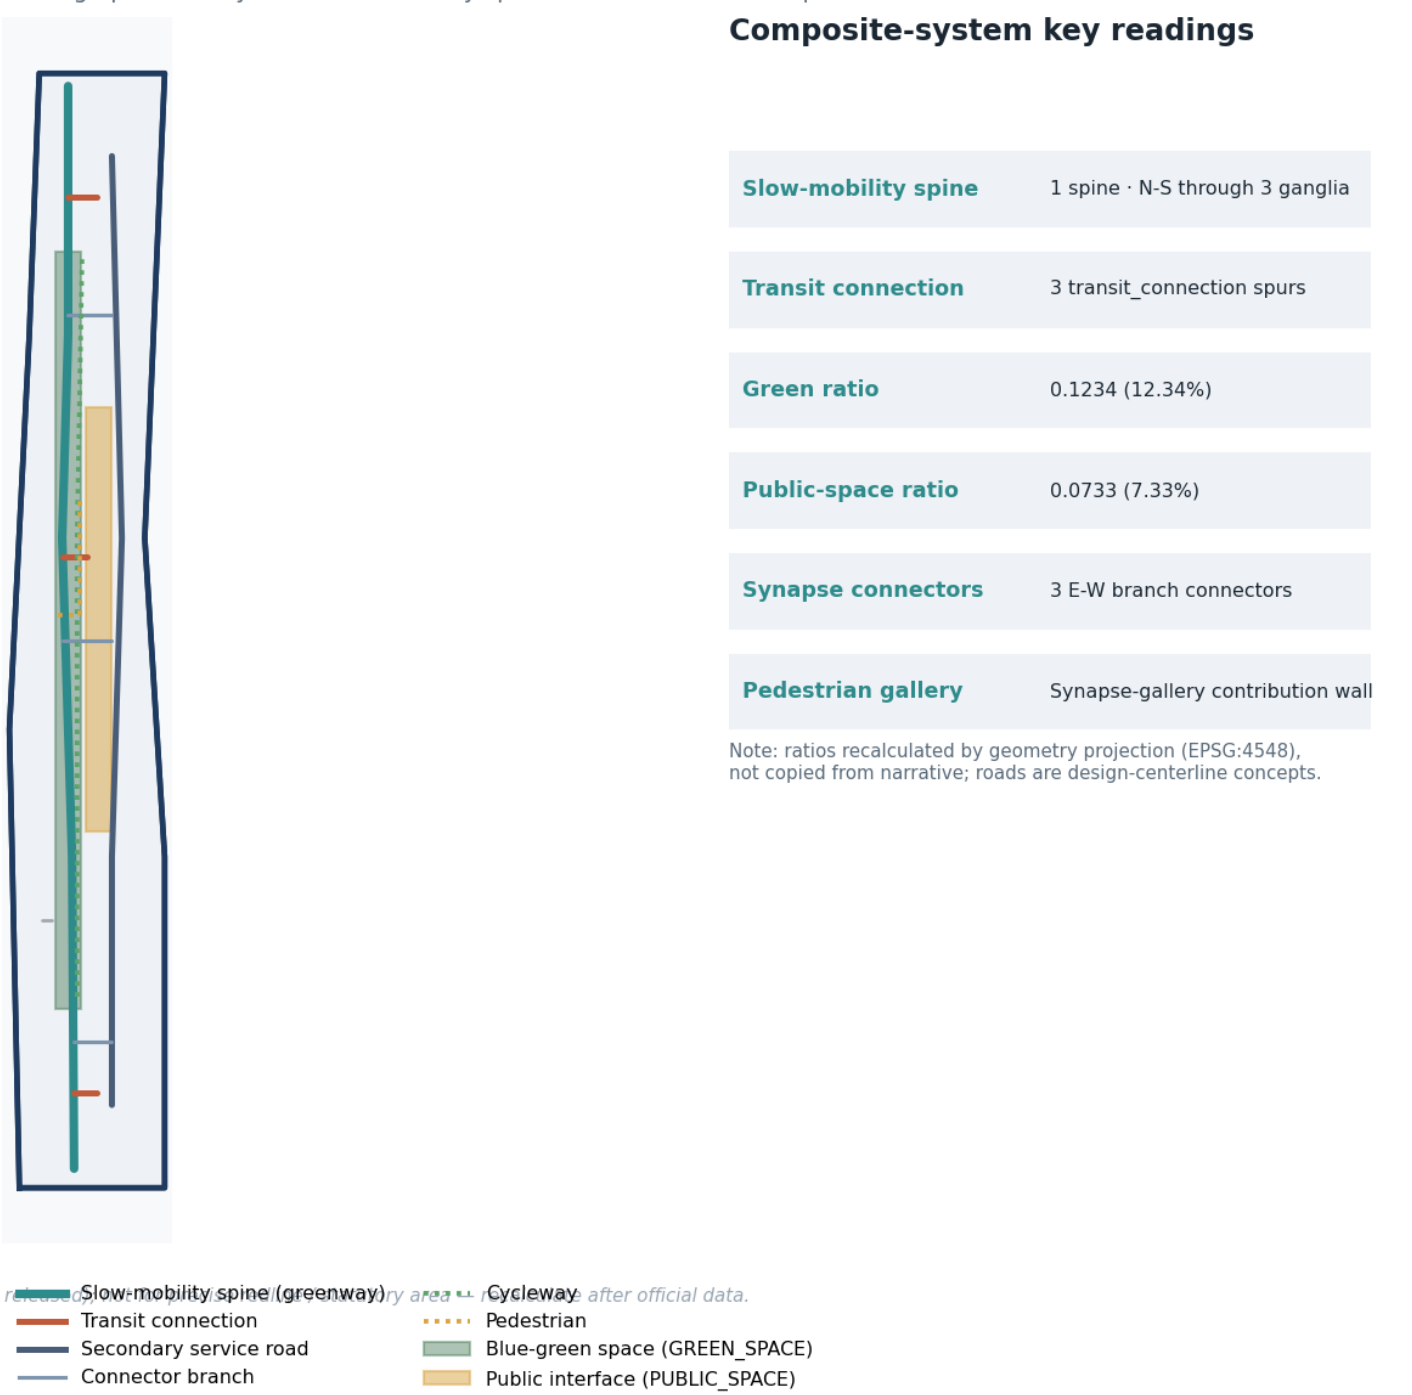

Fig.4 · Walkable Transport & Blue-Green Public Space

Source: geometry/*.geojson · metrics.json (machine-readable files are authoritative)

Fig.5 · Core-Metric Recalculation & Evidence Chain

Each metric tagged status / formula / source, recalculable from geometry; unknowns explicitly marked

Fig.5 · Core-Metric Recalculation & Evidence Chain

Source: geometry/*.geojson · metrics.json (machine-readable files are authoritative)

Metric evidence table

Metric	Status	Value	Formula
site_area_sqm	known	11,412,825.386 m2	polygon_area(site_boundary)
building_footprint_area_sqm	known	310,807.184 m2	sum polygon_area(buildings)
green_ratio	known	0.123423	green_area / site_area
public_space_ratio	known	0.073281	public_area / site_area
key_area_count	known	3	count(KEY_AREA)
floor_area_ratio	unknown	— (regulatory plan not released)	total_floor / site_area

Agent taskbook coverage

- agent.1 Master concept: three positionings · five functions · three-areas-two-wings loop
- agent.2 Naming & logo: Jing-Zhang NeuroRail brand identity system
- agent.3 Ecosystem cases: 7 global AI-innovation ecosystem case summaries
- agent.4 Scenario cards: 12 OTC scenario cards (4 TEST) + 6 personas
- agent.5 Pilgrimage landmarks: Zero-Point Plaza · Centennial Signal Tower · Synapse-Gallery wall
- agent.6 Long-term operation: annual event system · developer community · scenario-open operation (concept)
