

One evidence line, four care ribs, three yards and five handover-ready city layers

Make every layer of intelligence visible, handover-ready and reversible—and return value to everyday city life.

Jing-Zhang Civic Stack translates the railway's verification ethos into an urban evidence chain. Innovation moves from research to bounded tests, public trials, human decisions and reversible retirement, with one geometry-and-metrics source.

CONCEPT URBAN DESIGN | PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE

11.41 km²

PROVISIONAL AREA

17.27%

DESIGN GREEN UNION

3.06%

PUBLIC SPACE UNION

12 / 4

SCENARIOS / TESTS

6 / 4

PERSONAS / LANDMARKS

Four tests are marked *; every spatial line is a conceptual service logic.

Public sources enter the evidence chain; unknown controls remain outside

PERSONAS / LANDMARKS

01 OFFICIAL NOTICE

Approx. 43.6 km² research, 11.4 km² overall design and 368.4 ha across three key areas

02 REPOSITORY TASKBOOK

Three positions, five functions, three areas/two wings, agent.1—agent.6 and design depth

03 REGISTERED SOURCES

Government and case-owner pages; no map tiles, peer proposals or third-party artwork copied

04 DESIGN DERIVATION

Provisional geometry, EPSG:4548 recalculation, assumption split, human review and exit

1

PUBLIC SOURCE

2

PROVISIONAL GEOMETRY

3

EPSG:4548 RECALCULATION

4

METRIC / ASSUMPTION SPLIT

5

HUMAN REVIEW / RETIRE

No cleared exact polygon is available; official data triggers full replacement, recalculation and new hashes.

Research, overall design and key-area prototypes pass evidence downward

43.6 km²

COORDINATED RESEARCH

Innovation ↔ public benefit

11.4 km²

OVERALL DESIGN

Evidence line, care ribs, civic units

368.4 ha

THREE KEY AREAS

Three distinct yard prototypes

1 + 4 + 3 + 2

EVIDENCE LINE | CARE RIBS | YARDS | LOOPS

A regional coordination method—not new statutory corridors.

FIVE CITY LAYERS

HERITAGE / GROUND

Evidence + public edge

preserve / walk / interpret

MOBILITY / CARE

Phone-free + accessible

access / human handover

ENERGY / COMPUTE

Bypass, meter, retire

bypass / meter / repair

DATA / SCENARIO

Minimum purpose + window

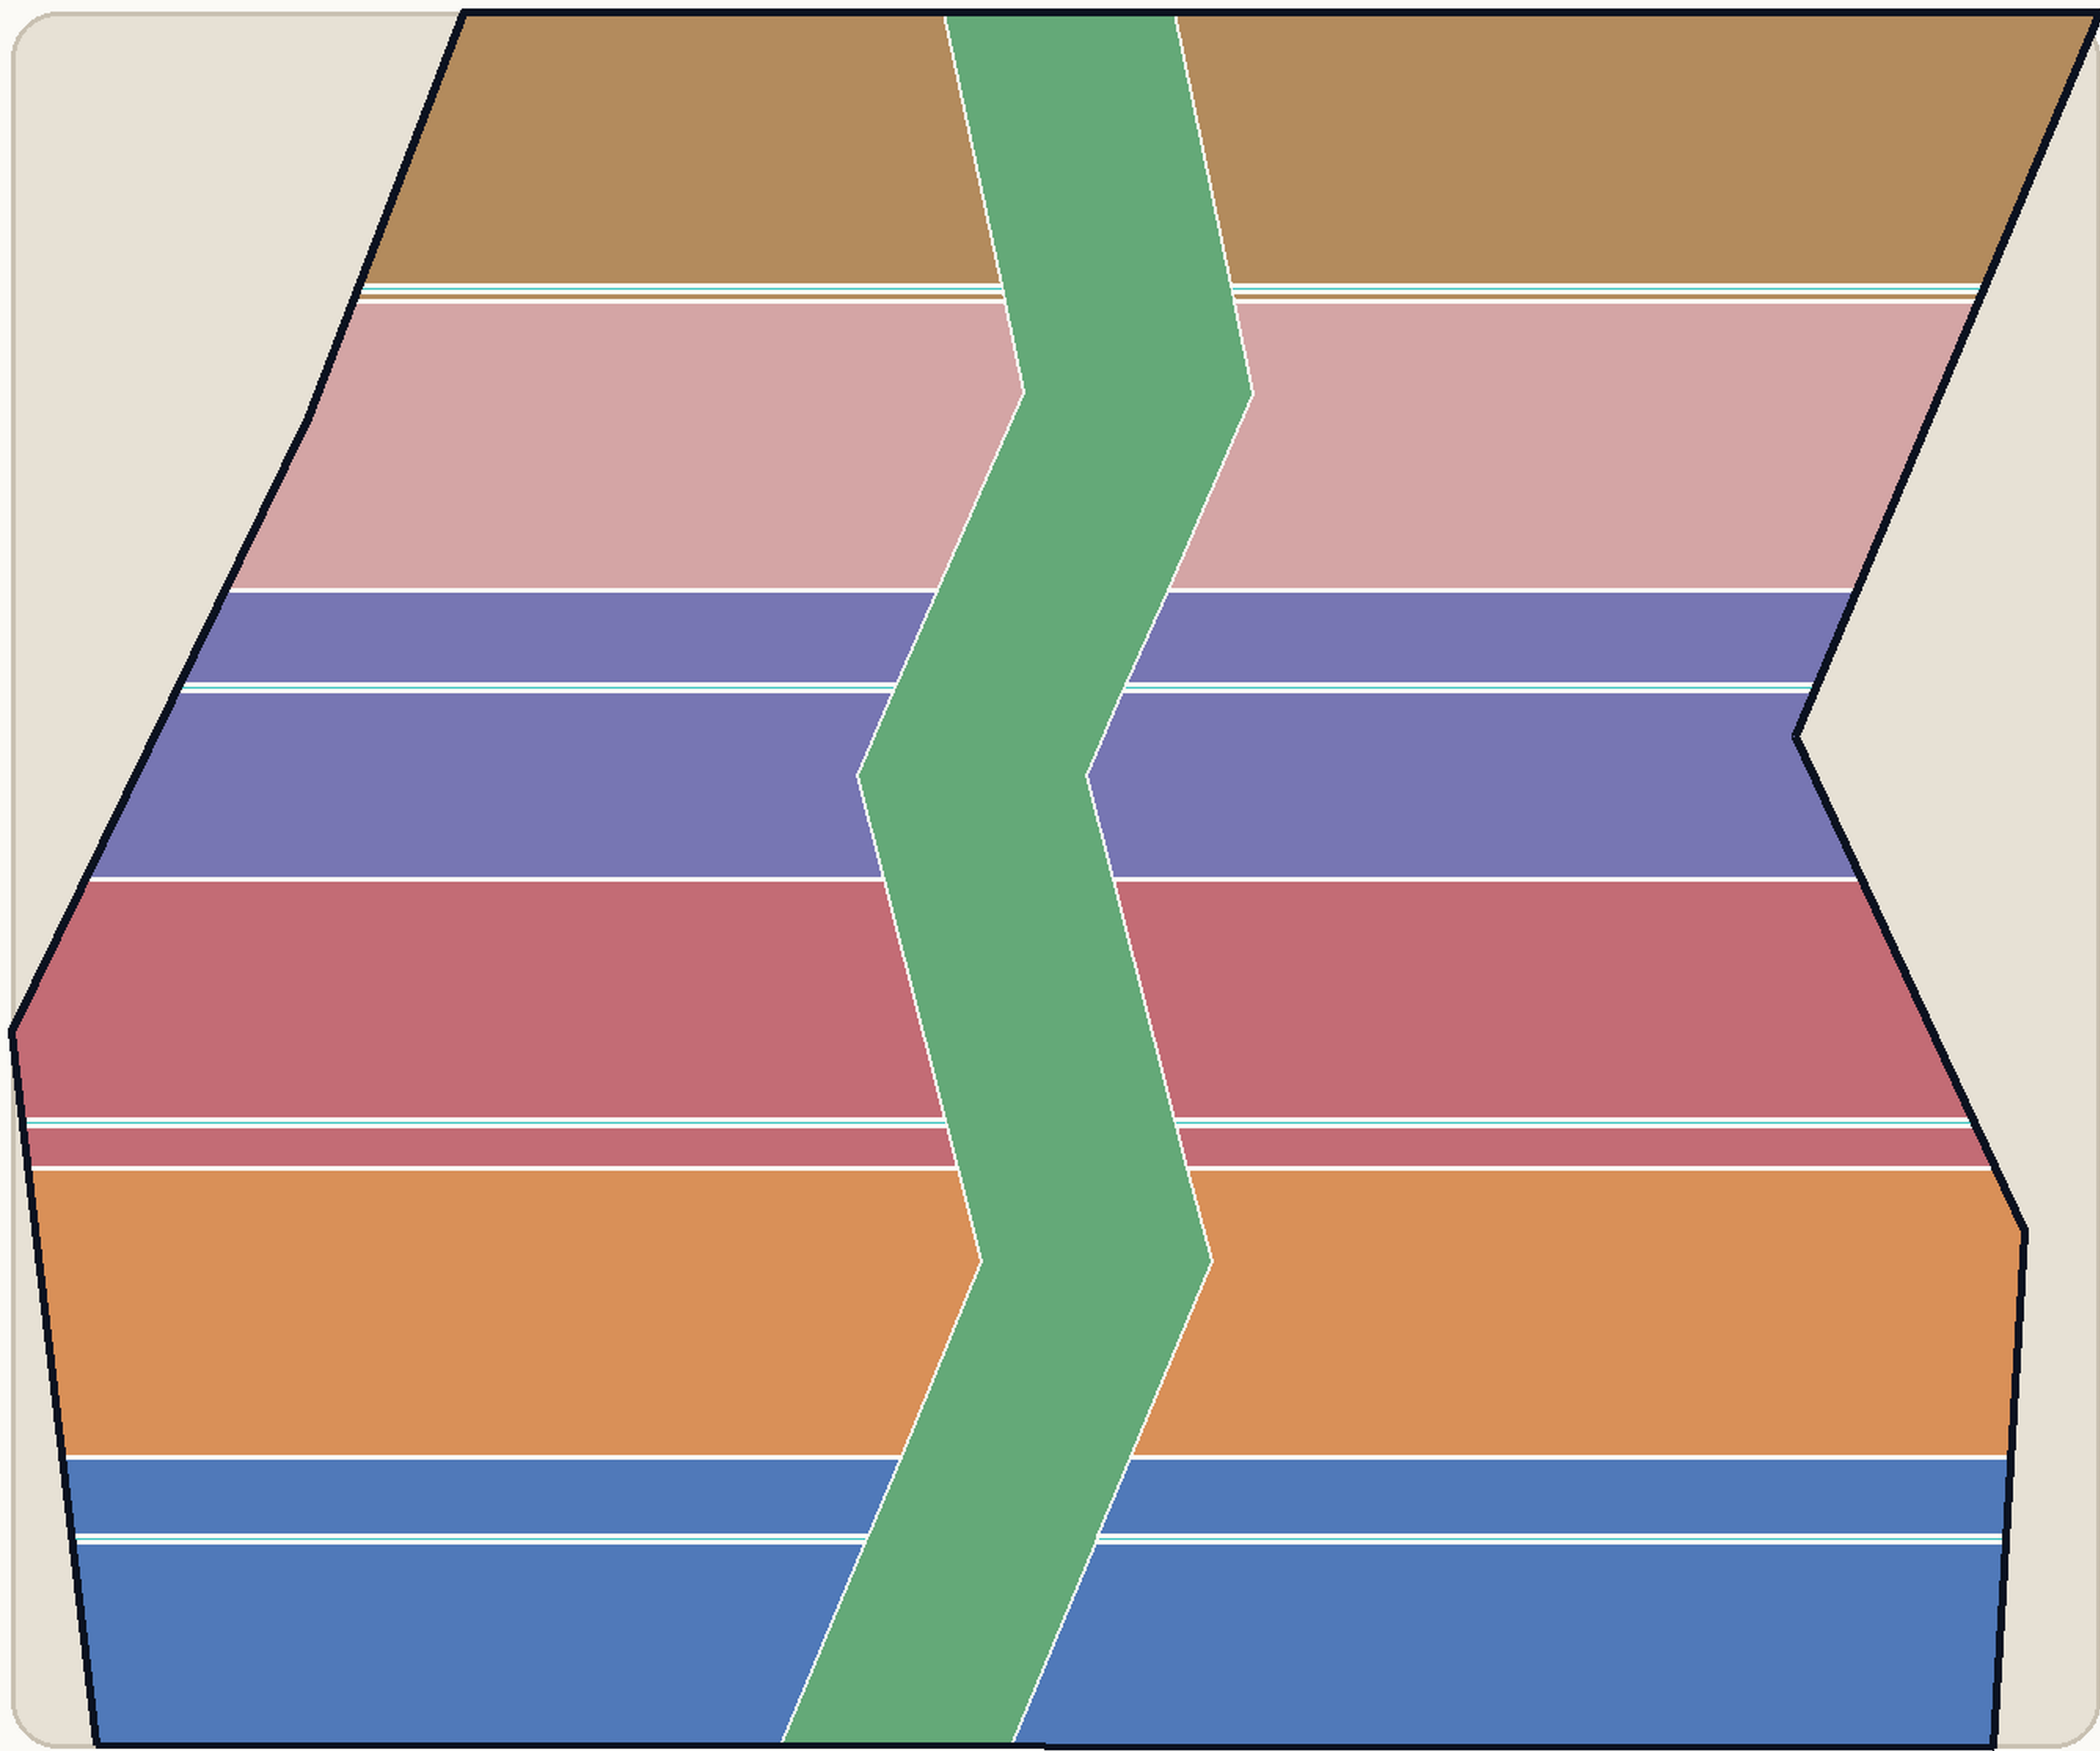

minimum data / deletion

GOVERNANCE / MEMORY

Duty, appeal, handover

duty / appeal / retirement

One evidence line, four care ribs, three yards and two return loops

DESIGN READING

ONE EVIDENCE LINE

Railway heritage + public evidence

FOUR CARE RIBS

Phone-free, accessible, maintainable

THREE STACK YARDS

Validation, transfer, daily service

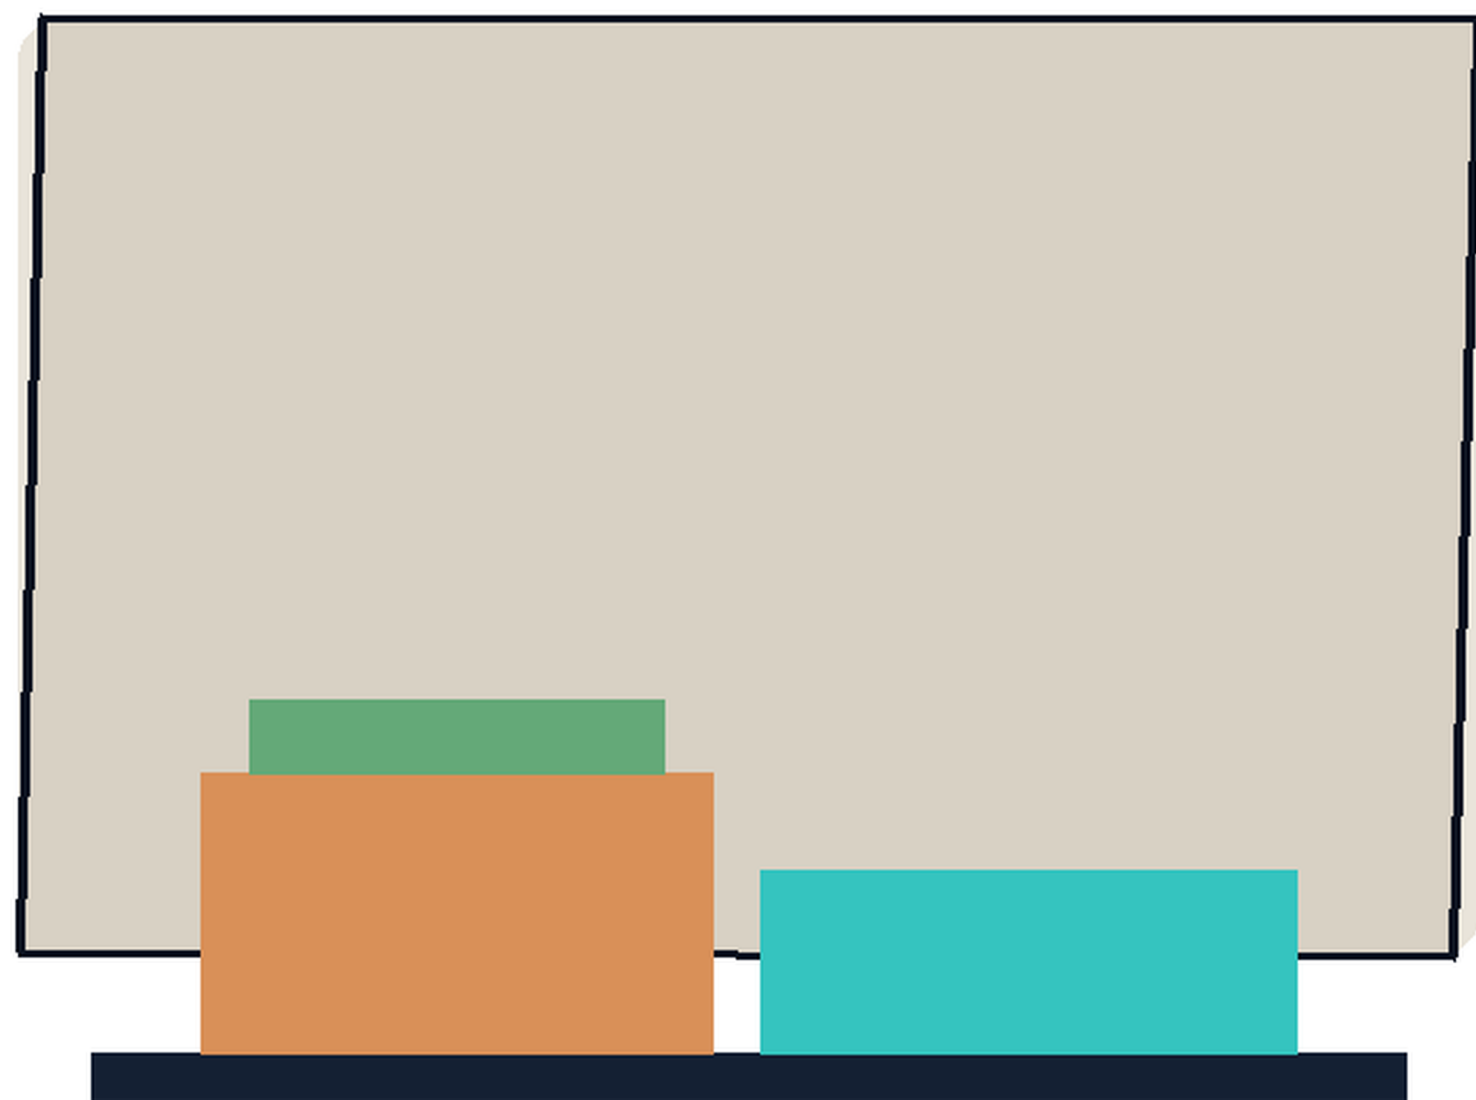

TWO RETURN LOOPS

Tech services + blue-green feedback

Functions and lines express design logic; they do not replace ownership, statutory planning or road redlines.

One passport; different prototypes, users and stop conditions

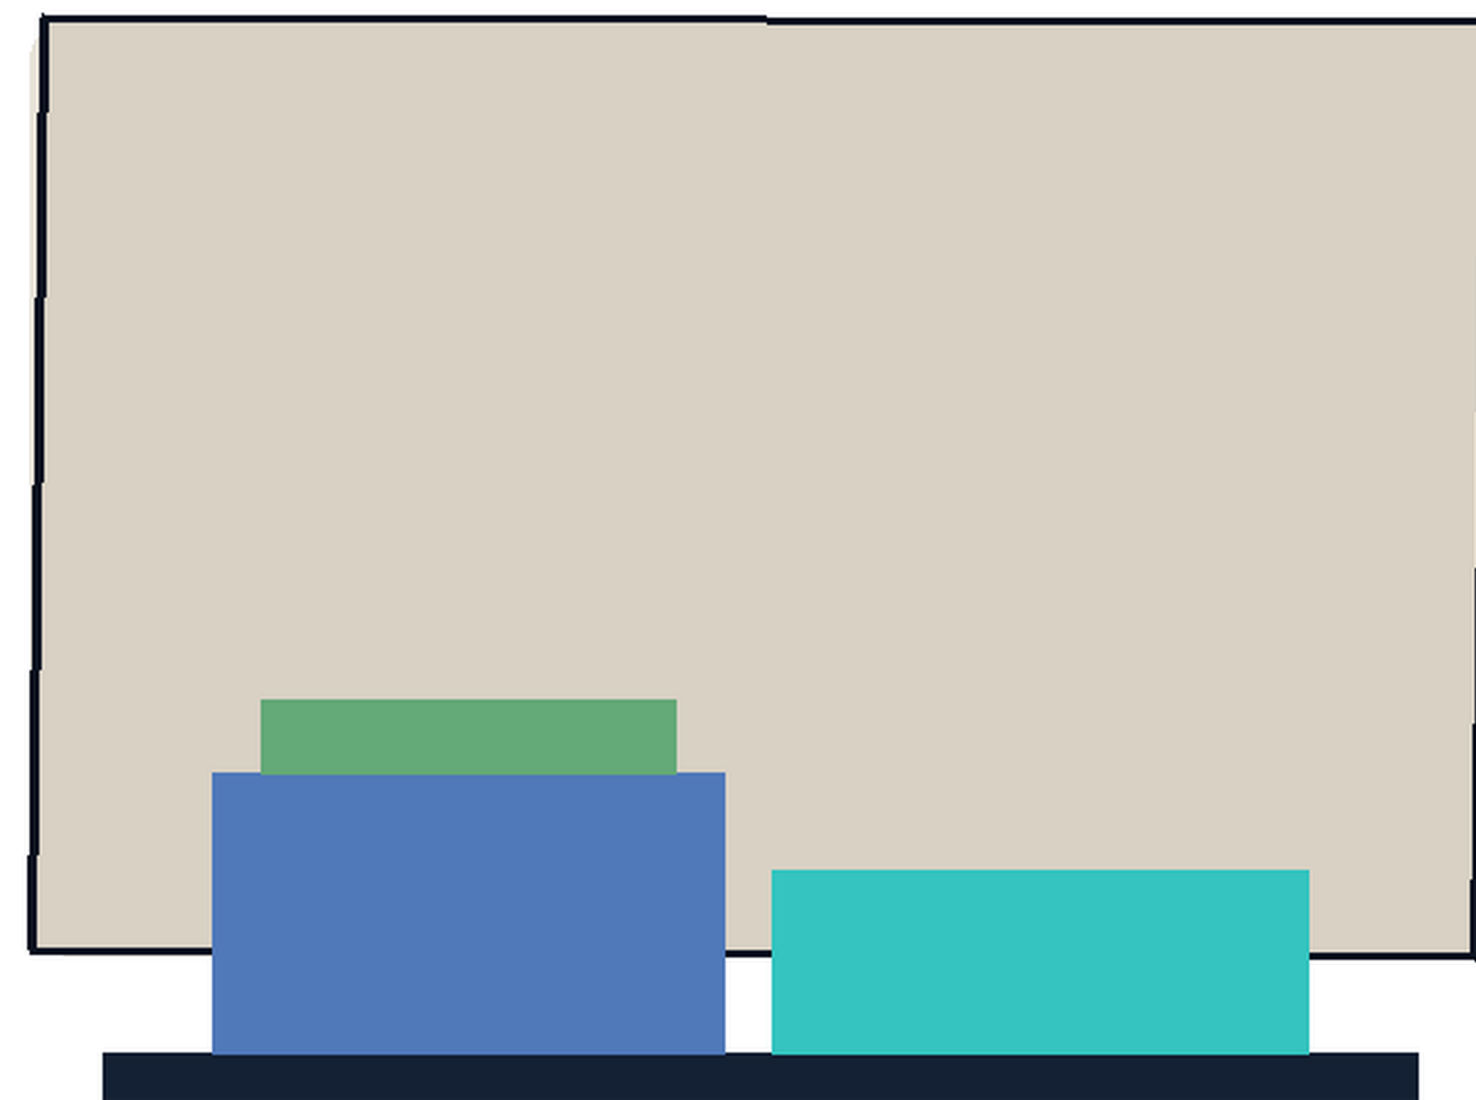

ZHONGZHIYUAN | VALIDATION GARDEN

GREENHOUSE—TEST YARD—QINGHE EDGE
VISIBLE BYPASS + METERING
MAINTAINERS FIRST; FAILED PILOTS EXIT

192.1 ha | announced approx.; polygon provisional

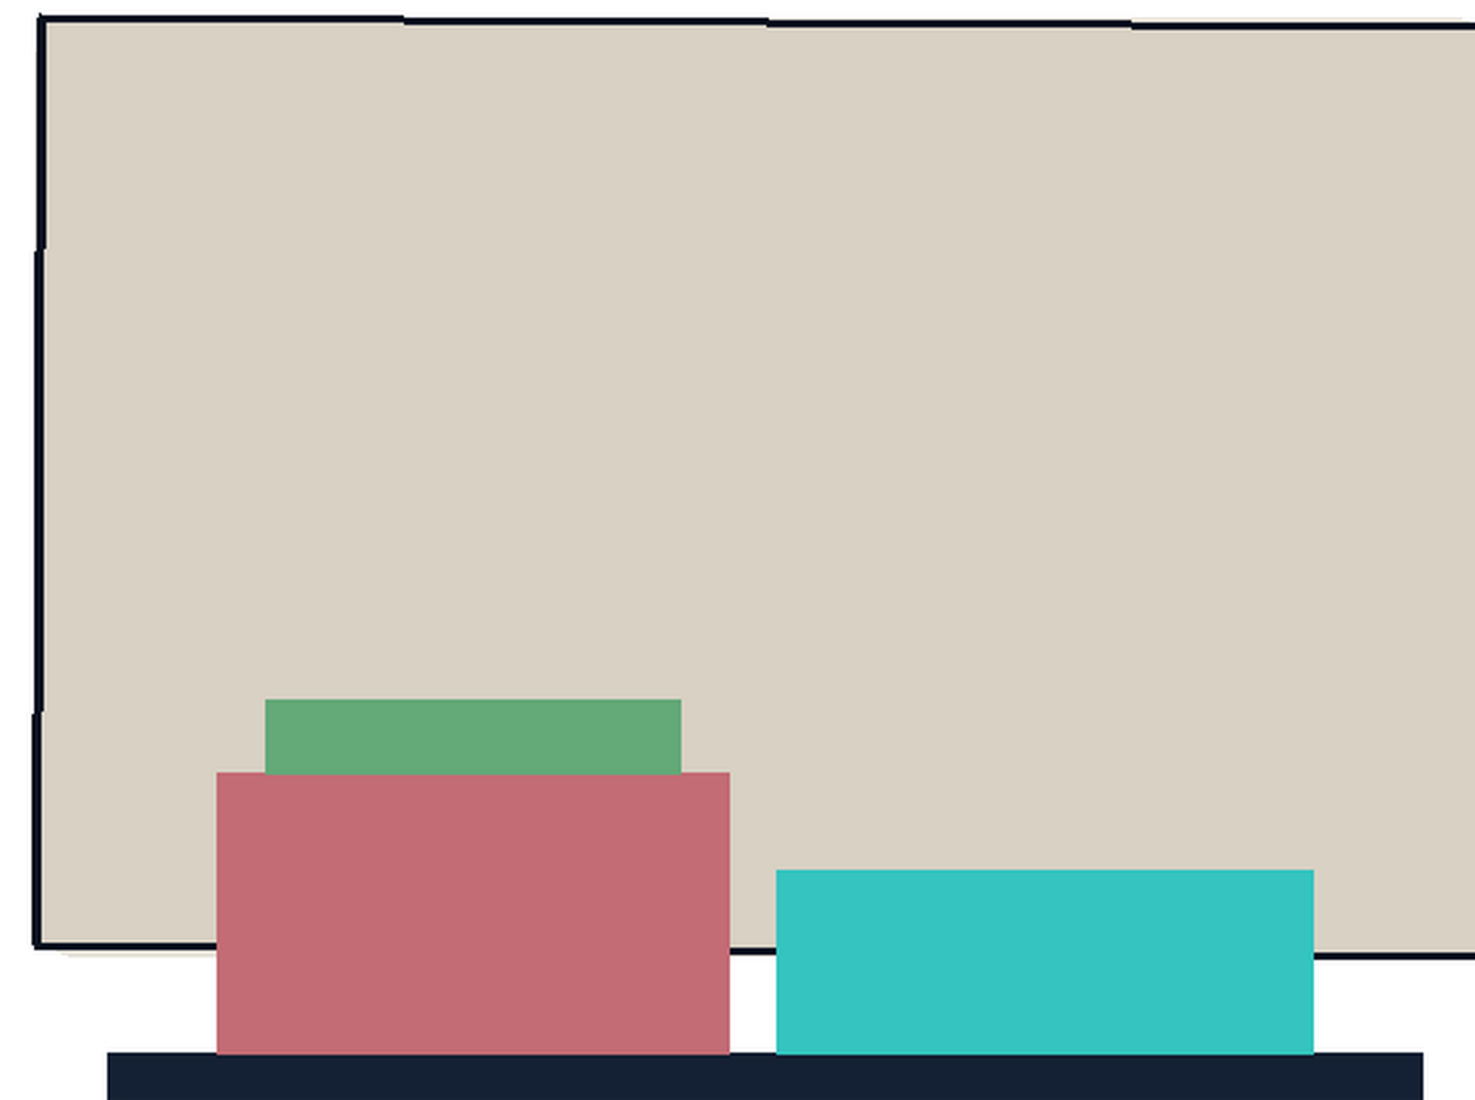

AI ORIGIN | TRANSFER COMMONS

TRANSFER HALL—WORKSHOP—CARE STREET
WALK-IN HUMAN CLINIC + AFFORDABLE SPACE
CODE/IP/DATA/RETIREMENT IN ONE PACK

104.3 ha | announced approx.; polygon provisional

DAZHONGSI | LIVING MARKETPLACE

STATION PORCH—MARKET—RIGHTS WINDOW
SMALL FIRMS + REPAIR + NIGHT WORK
BEACON SHOWS DUTY, NOT AD RANK

72.0 ha | announced approx.; polygon provisional

DESIGN READING

ZHONGZHIYUAN

Validation Garden

AI ORIGIN

Transfer Commons

DAZHONGSI

Living Marketplace

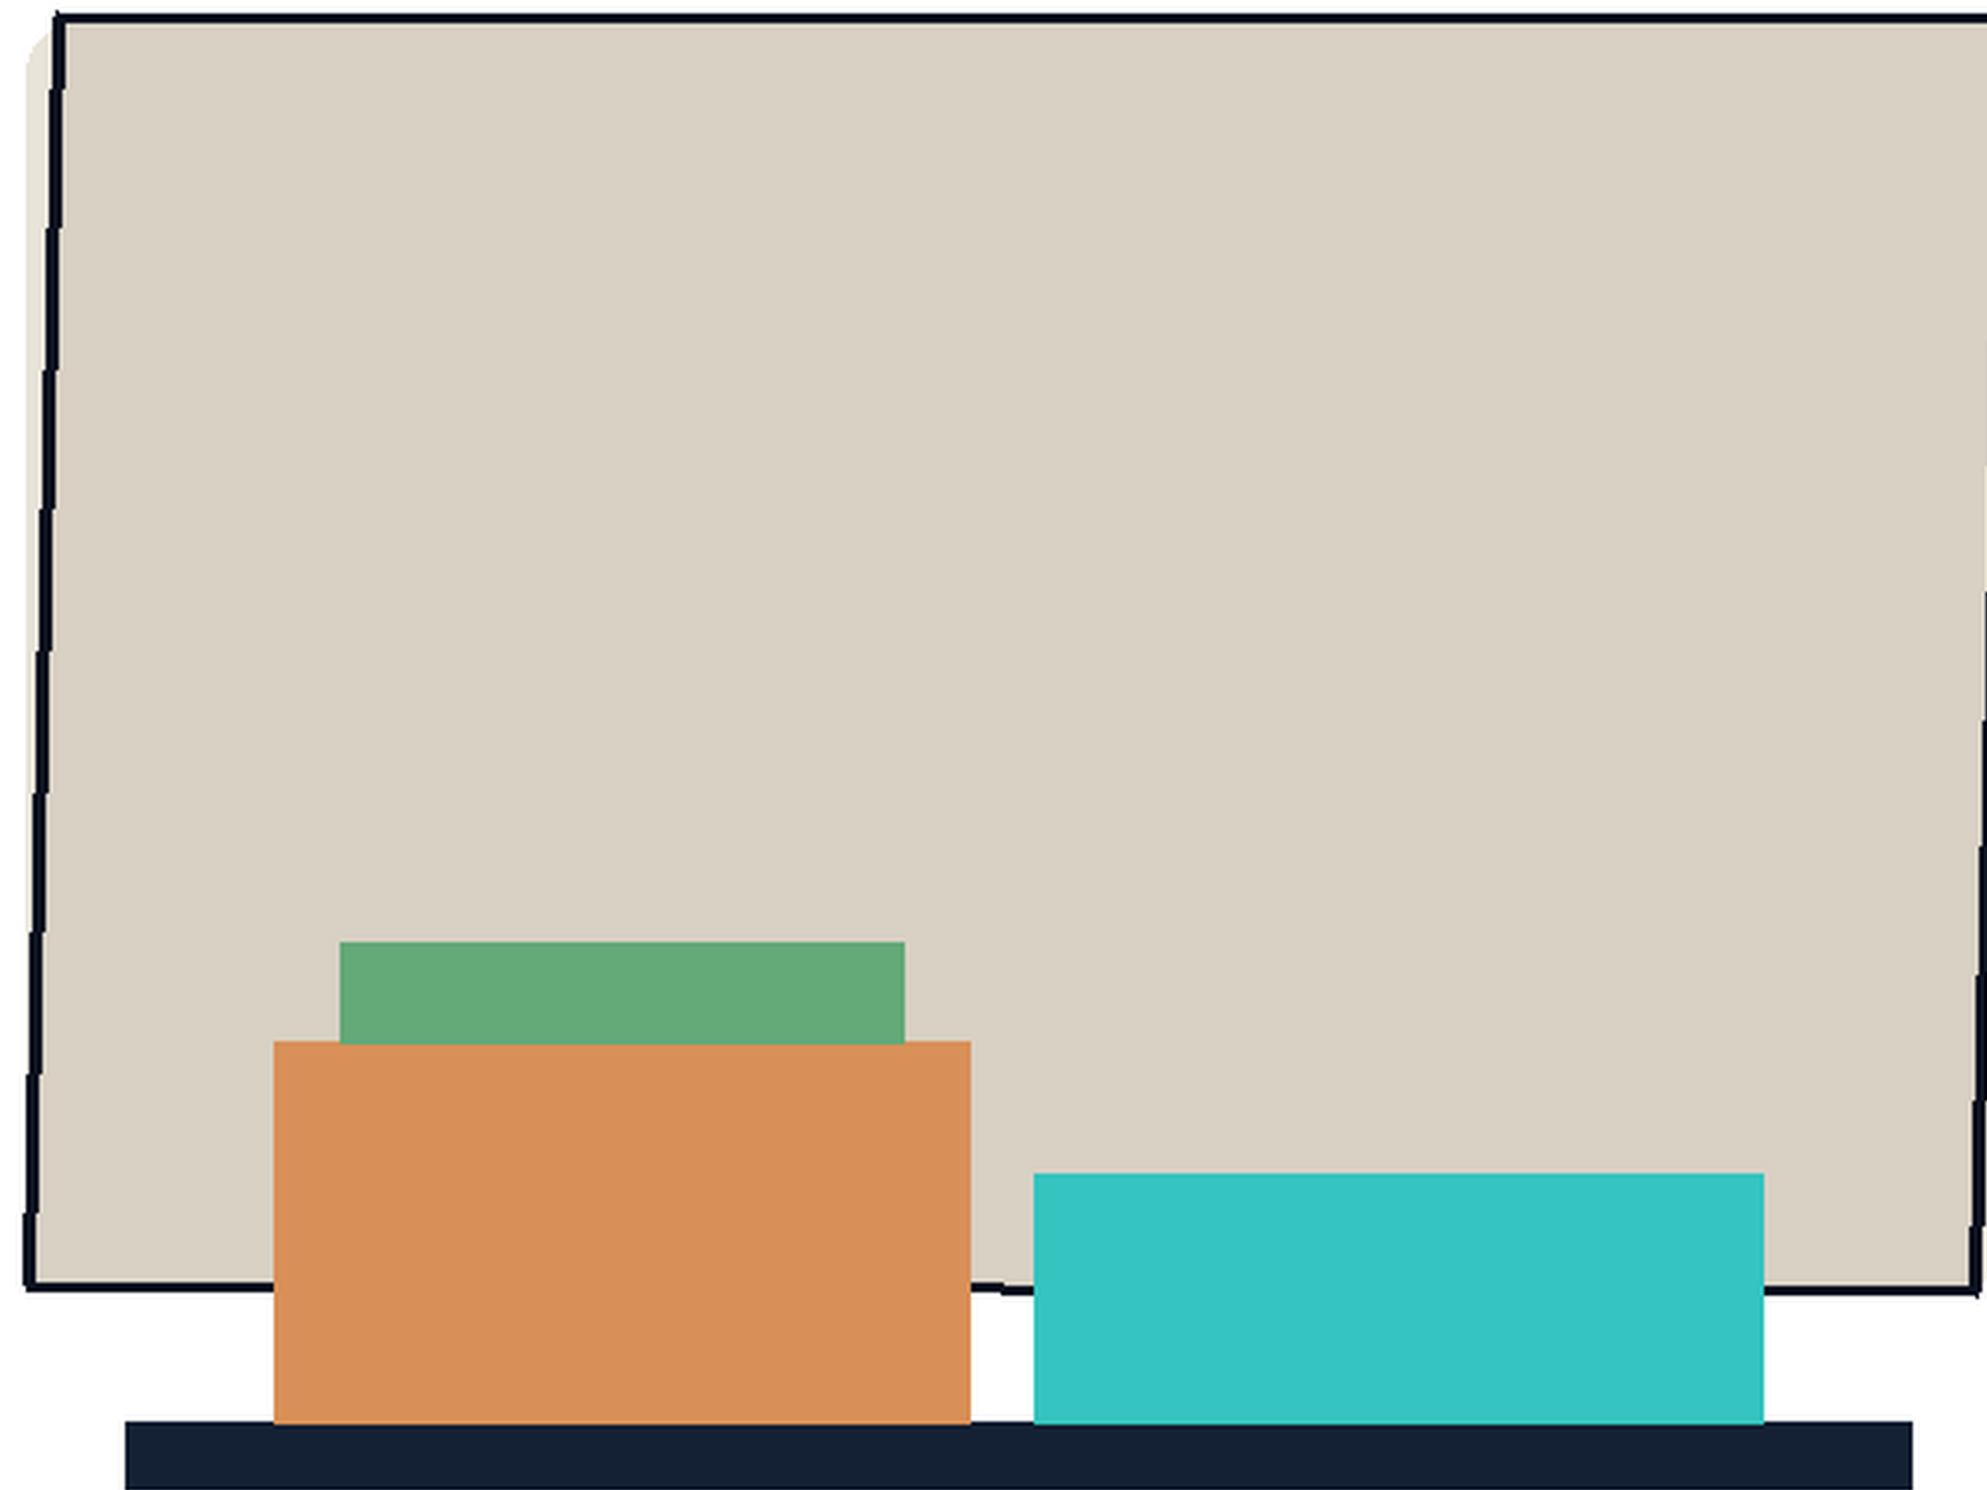

CIVIC STACK PASSPORT

Baseline—pass—stop—exit

Functions and lines express design logic; they do not replace ownership, statutory planning or road redlines.

Detachable greenhouse, public test yard and Qinghe green interface

ZHONGZHIYUAN | VALIDATION GARDEN

GREENHOUSE—TEST YARD—QINGHE EDGE
VISIBLE BYPASS + METERING
MAINTAINERS FIRST; FAILED PILOTS EXIT

192.1 ha | announced approx.; polygon provisional

Not a closed showroom: safety, energy, rainwater, noise and human bypass are exposed to public verification.

MAINTAINERS | WALKERS | SMALL RESEARCH TEAMS

SPATIAL MOVES

1 Detachable greenhouse + spine

2 Test yard + Qinghe green edge

3 Failed equipment returns to lab

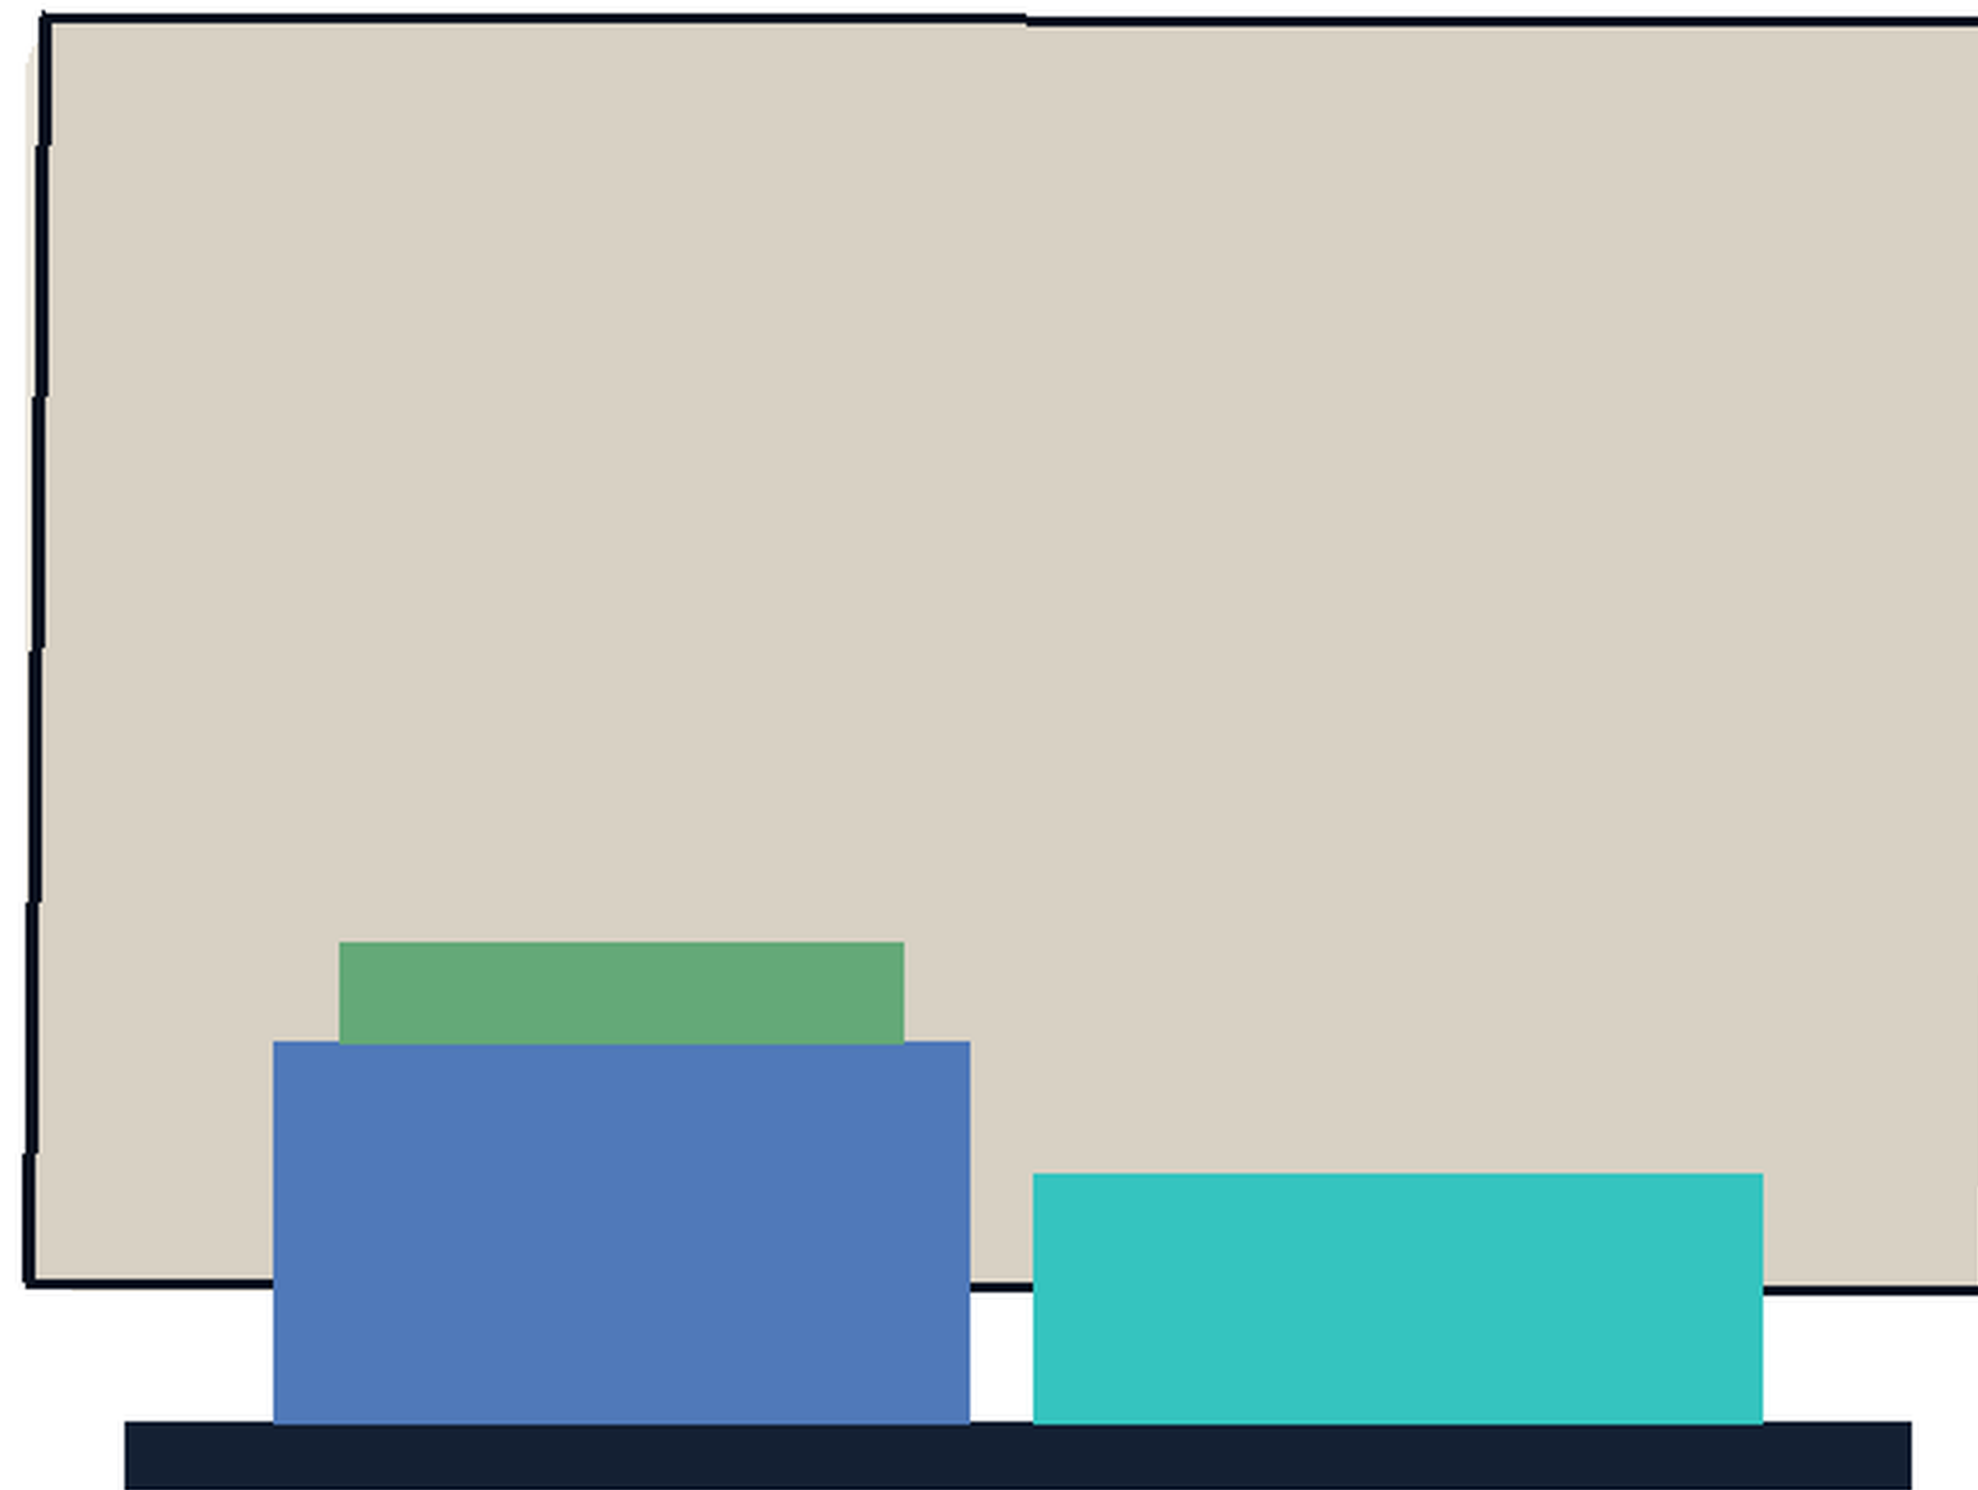

STOP GATE

Entry requires an operator, insurance, baseline, stop threshold and recovery plan.

Provisional key-area geometry organizes content only; official data triggers relocation.

Transfer hall, shared workshops, talent services and a care street

AI ORIGIN | TRANSFER COMMONS

TRANSFER HALL—WORKSHOP—CARE STREET
WALK-IN HUMAN CLINIC + AFFORDABLE SPACE
CODE/IP/DATA/RETIREMENT IN ONE PACK

104.3 ha | announced approx.; polygon provisional

Not another headquarters tower: one low-threshold commons assembles code, IP, model cards, data permission, pilot and retirement clauses.

DEVELOPERS | START-UPS | CAREGIVERS

SPATIAL MOVES

1

Shallow transfer hall

2

Shared workshops + talent desk

3

Walk-in human clinic + care street

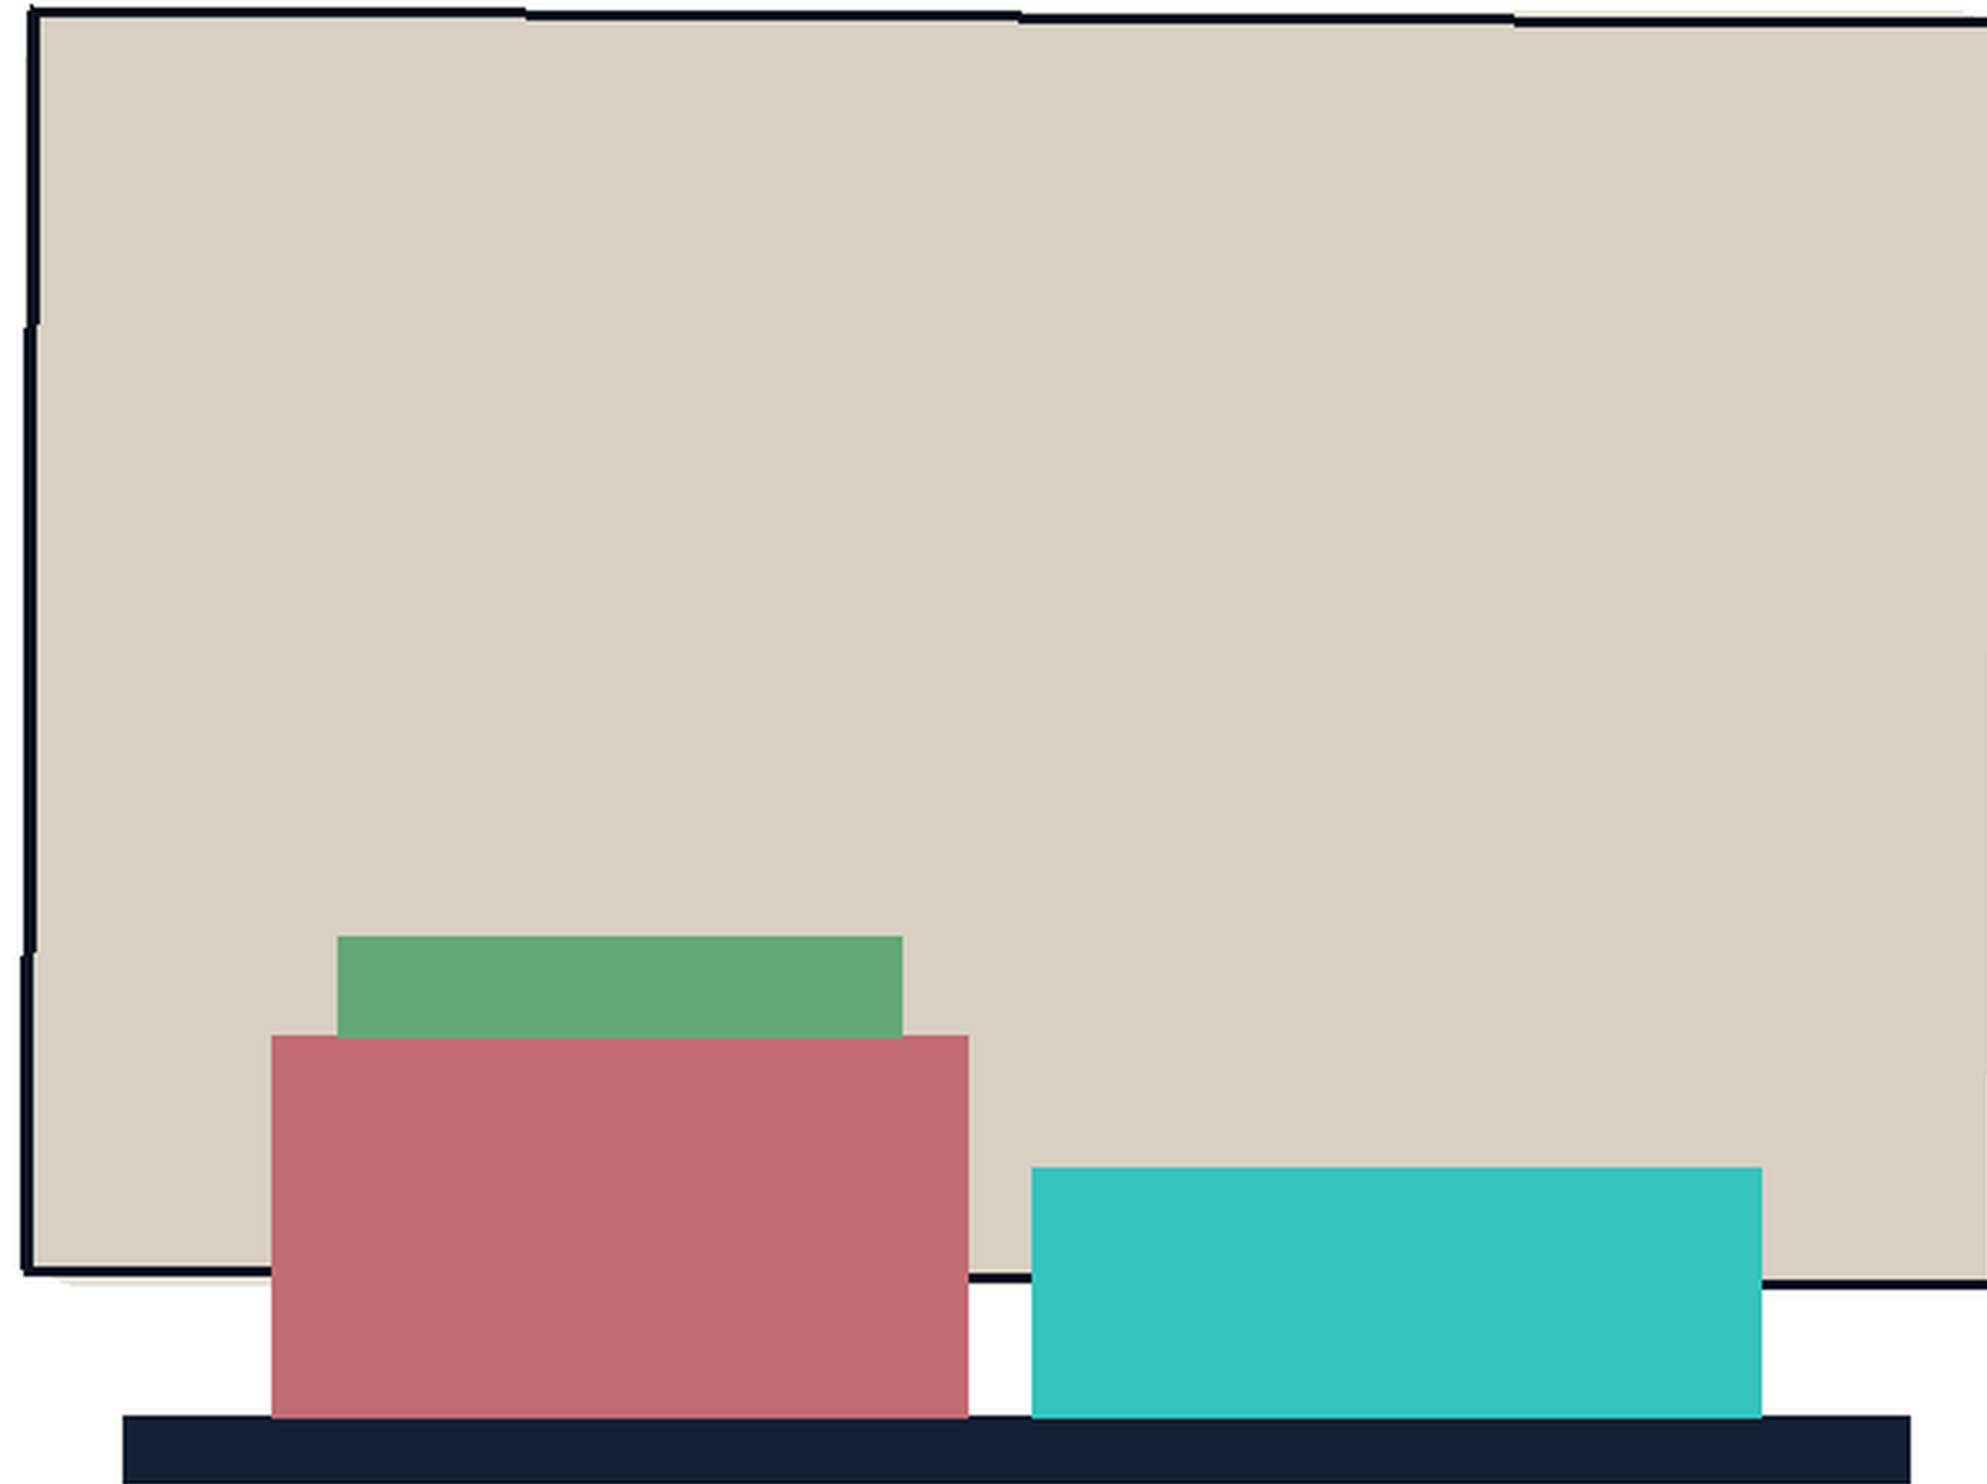

STOP GATE

No everyday student tracking; stop on conflicts or unqualified advice.

Provisional key-area geometry organizes content only; official data triggers relocation.

Station porch, divisible market, data rights and night-worker services

DAZHONGSI | LIVING MARKETPLACE

STATION PORCH—MARKET—RIGHTS WINDOW
SMALL FIRMS + REPAIR + NIGHT WORK
BEACON SHOWS DUTY, NOT AD RANK

72.0 ha | announced approx.; polygon provisional

Not an advertising-led AI center: small merchants, repair, culture, exchange, data rights and night work share an everyday market.

RESIDENTS | SMALL MERCHANTS | NIGHT WORKERS | VISITORS

SPATIAL MOVES

1

Weather-protected station porch

2

Divisible living marketplace

3

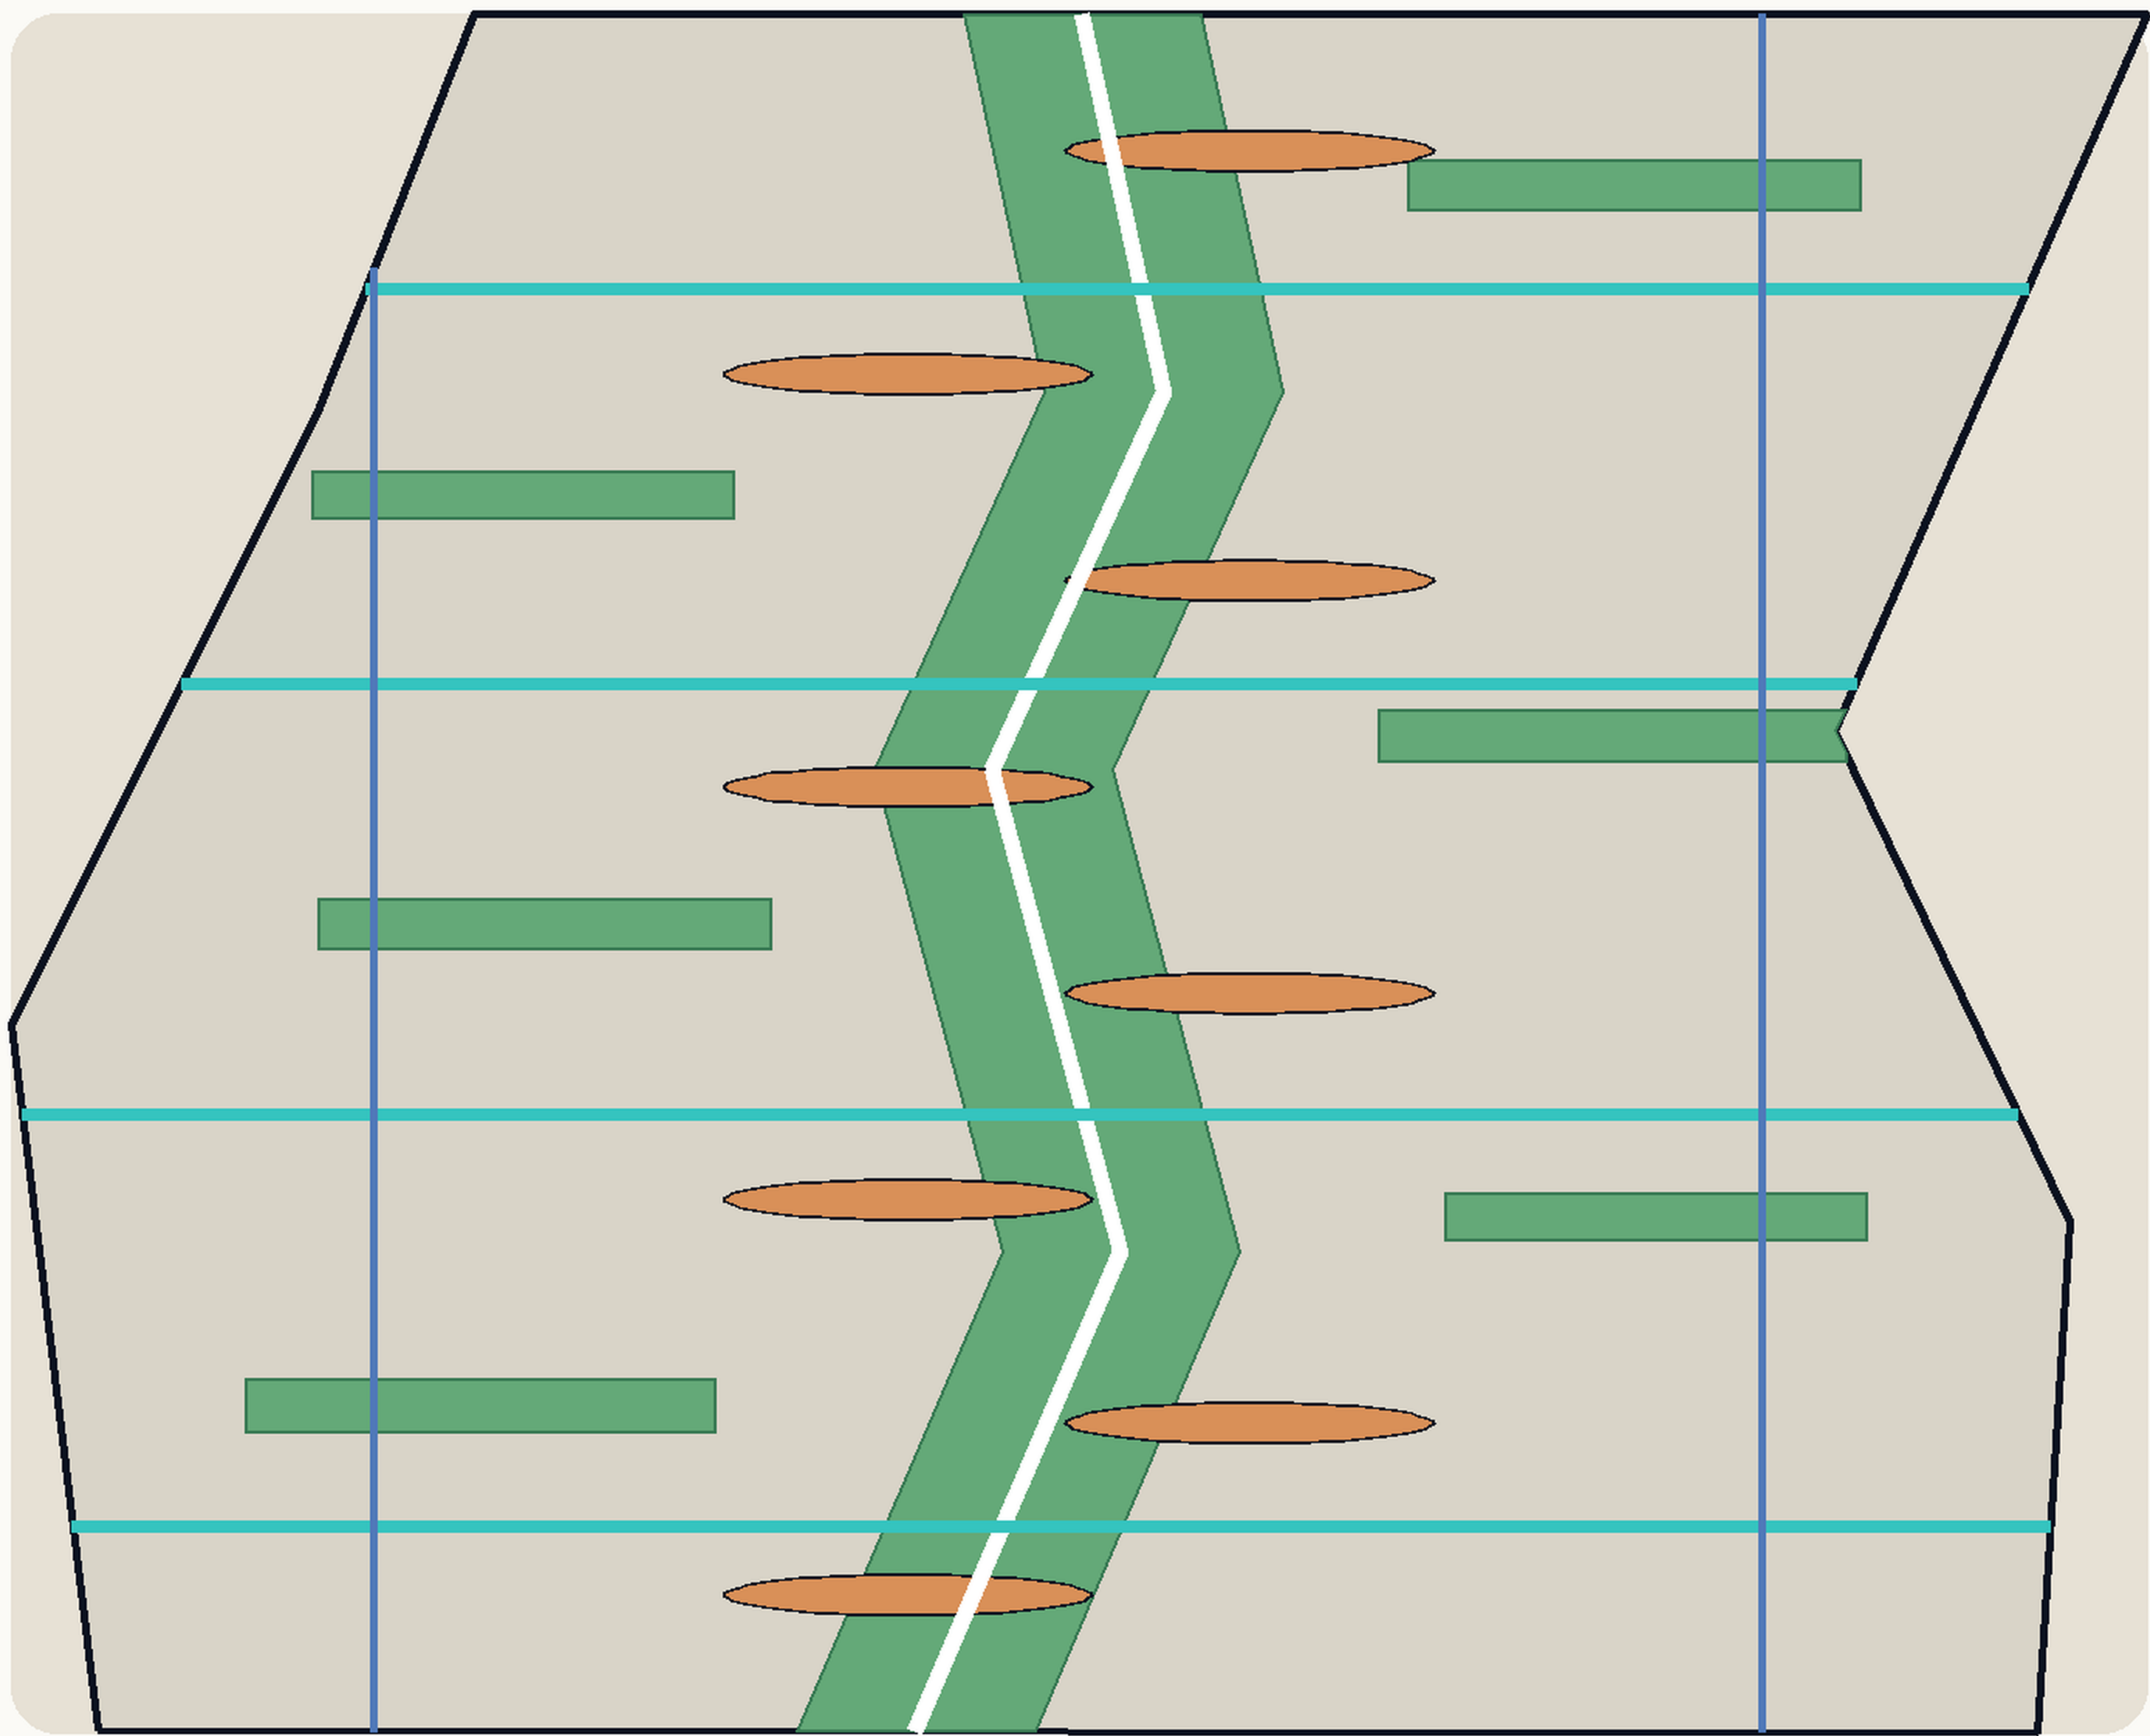

Rights window + Civic Stack Beacon

STOP GATE

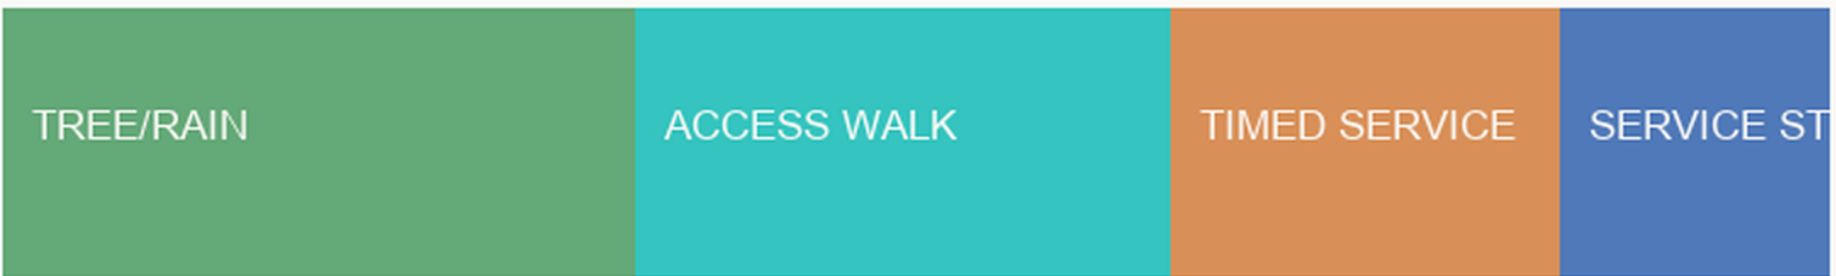

Wait for official boundaries and station data; the provisional diagram cannot guide construction.

Provisional key-area geometry organizes content only; official data triggers relocation.

Slow mobility first, bypass before connection, visible maintenance

MAINTAINABLE STREET SECTION

HUMAN HANDOVER ≤10 MIN OFFLINE

LOW-SPEED DELIVERY: STOP ON NEAR MISS

RAIN COURT: MANUAL BYPASS

HEAT: CONNECT ONLY AFTER METERING

32.4 km CONCEPT ROUTES | NOT ROAD REDLINES

DESIGN READING

Walking / cycling / wheelchairs first

Four east-west care ribs

Human handover within 10 minutes

Manual bypass at rain courts

Functions and lines express design logic; they do not replace ownership, statutory planning or road redlines.

09

TWELVE SCENARIOS + SIX PERSONAS

Every scenario has a baseline, window, pass, stop and retirement route

TWELVE CIVIC STACK PASSPORTS

01

Phone-free commute*

BASELINE | PLACE/WINDOW | MIN DATA
PASS/STOP | HUMAN ROUTE | RETIRE

02

Accessible walking

BASELINE | PLACE/WINDOW | MIN DATA
PASS/STOP | HUMAN ROUTE | RETIRE

03

Night handover drill*

BASELINE | PLACE/WINDOW | MIN DATA
PASS/STOP | HUMAN ROUTE | RETIRE

04

Delivery quiet window*

BASELINE | PLACE/WINDOW | MIN DATA
PASS/STOP | HUMAN ROUTE | RETIRE

05

Stormwater control*

BASELINE | PLACE/WINDOW | MIN DATA
PASS/STOP | HUMAN ROUTE | RETIRE

06

Compute-heat exhibit

BASELINE | PLACE/WINDOW | MIN DATA

SIX PRIORITY PERSONAS

Children + caregivers

Older people

Disabled users

Night maintainers

Couriers + small merchants

Developers + start-ups

Nine packages cross evidence gates; phases are not promises

PHASE 1

EVIDENCE + TEST

1

Official base map + evidence room

2

Field audit: evidence line / care ribs

3

Zhongzhiyuan greenhouse

PHASE 2

BUILD + OPERATE

4

Origin transfer hall

5

Dazhongsi living marketplace

6

Eight human-handover nodes

PHASE 3

EXPAND + RETIRE

7

Six rain courts

8

Passport / rights / independent review

9

Annual Jing-Zhang Civic Benefit Week

EVERY PROJECT MUST CROSS SIX GATES

Phases are work groups—not a government schedule, investment promise or construction permit.

Only recomputable claims are known; unknown stays outside; humans approve handover
