

Jing-Zhang REN Belt

Centennial Jing-Zhang AI Innovation Belt Open Call

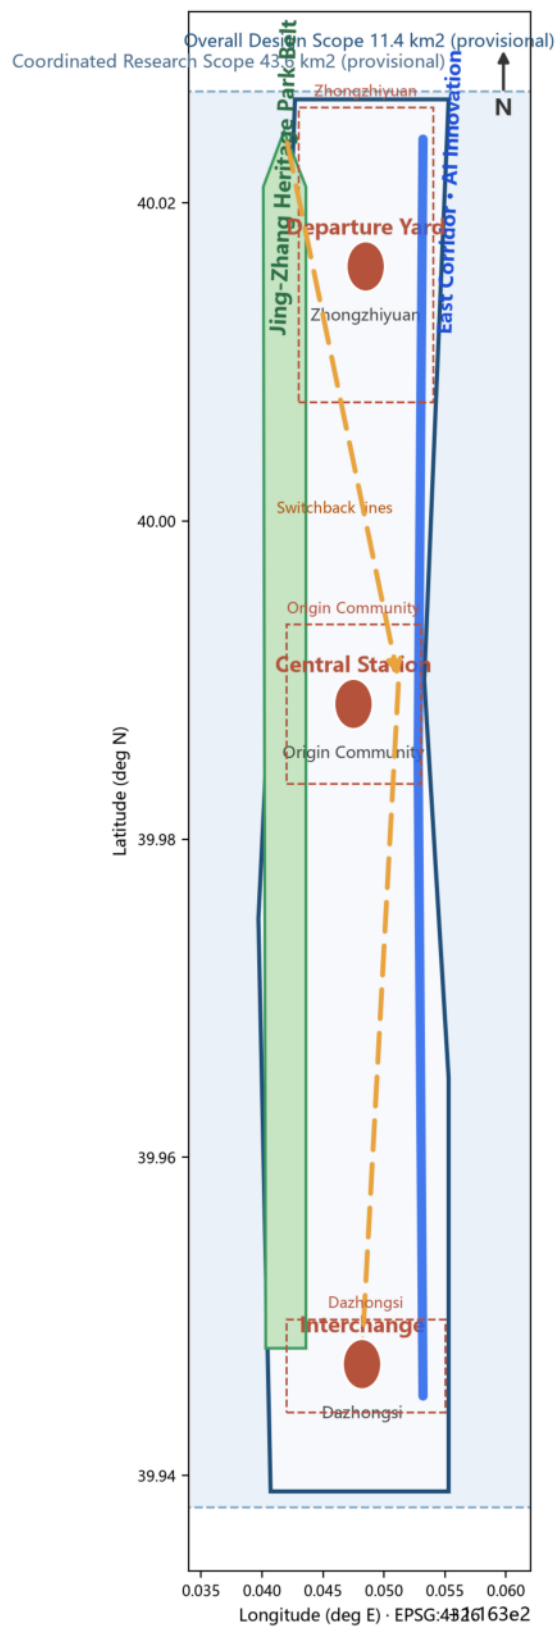

West Corridor: Heritage | East Corridor: Innovation

Departure Yard: Zhongzhiyuan | Central Station: Origin Community | Interchange: Dazhongsi

Contributors: RichardGuan1 (Gorde Minchel)

provisional boundary | conceptual proposal | not statutory planning

Jing-Zhang REN Belt — Master Concept Overview

Source: `brief/site-package/geometry/provisional_boundaries.geojson` (provisional, not official redline) | Concept: RichardGuan1 | Conceptual proposal, not statutory planning

Core concept: switchback ('ren-shaped') spirit

Do not ram the grade: trade space for slope. Innovation factors switch back and climb

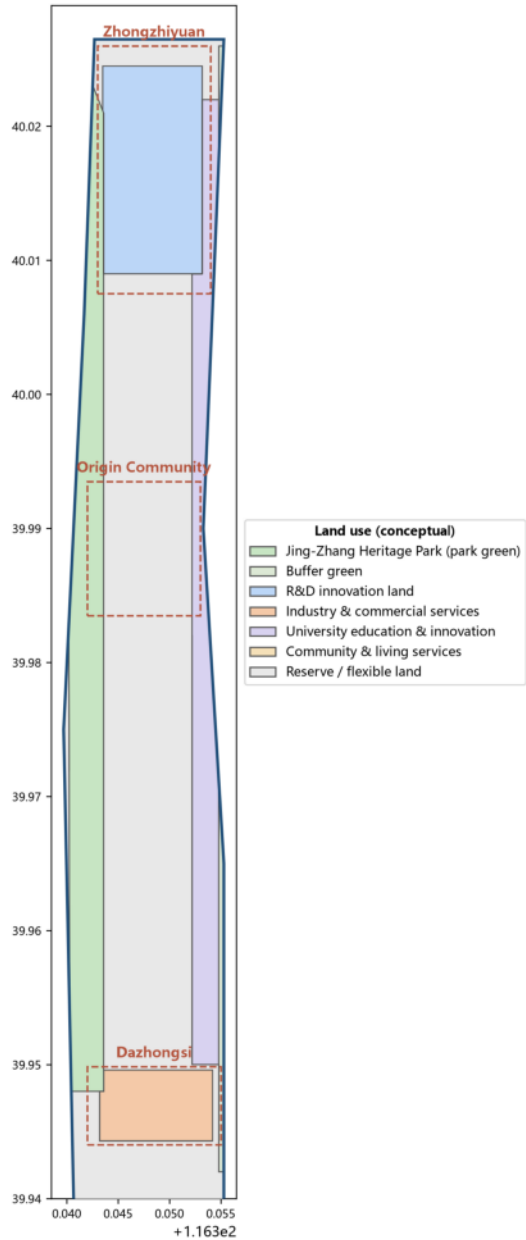

between Zhongzhiyuan, Origin Community and Dazhongsi, rising step by step.

Structure: REN twin corridors (West heritage + East innovation) + three switchback stations + open platform belt

Data: `geometry/site-boundary, key_areas, roads` (provisional) | conceptual

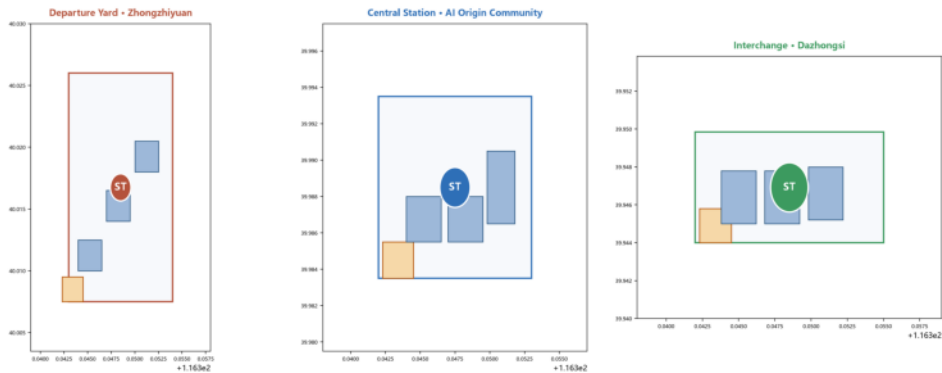

Conceptual framework

REN Belt Land Use Structure — Conceptual Layout

Source: geometry/land_use.geojson (EPSG:4326) | Areas in metrics.json | Conceptual, not statutory land-use plan

Three Switchback Stations — Key Area Detailed Design Index

Source: geometry/key_area.geojson, buildings.geojson, public_space.geojson (provisional + conceptual) | Conceptual mapping, not statutory footprints

Station roles

Departure Yard - Zhongzhiyuan (192.1 ha): basic research -> pilot -> scale-up

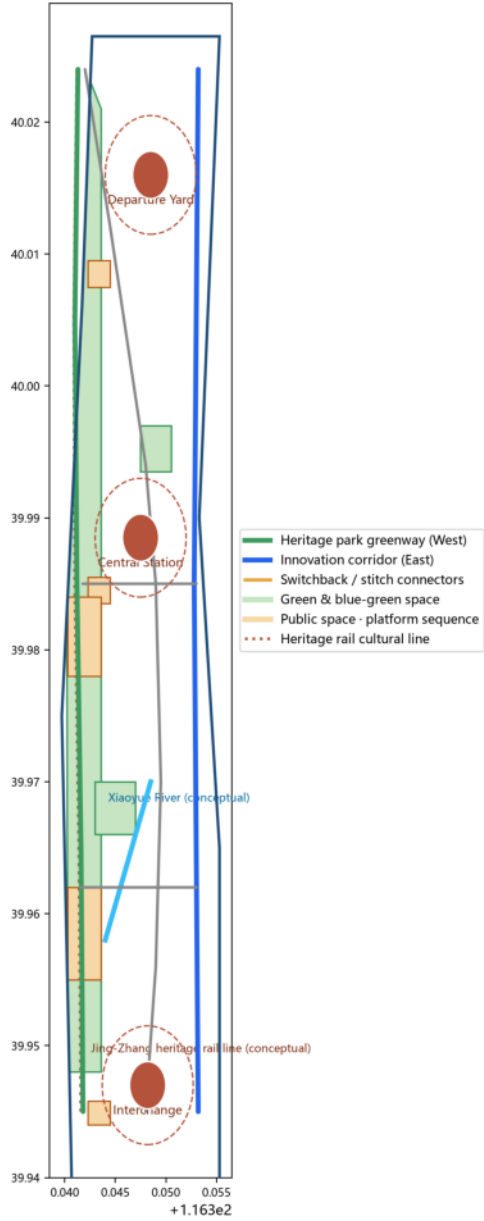

Central Station - Origin Community (104.3 ha): talent density -> co-creation -> incubation

Interchange - Dazhongsi (72.0 ha): industry cluster -> capital -> global links

All based on provisional boundaries (PROV-KEY-001/002/003); recompute after official release

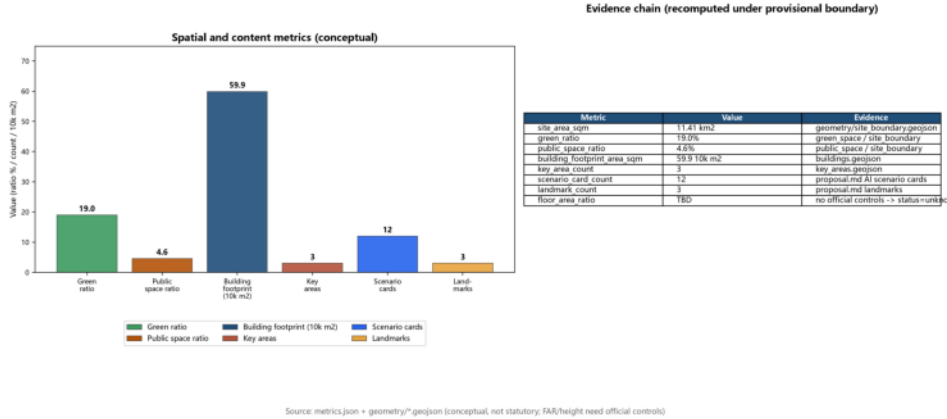

Mobility and blue-green system

Mobility, Slow-Traffic and Blue-Green Public Space System

Source: geometry/roads.geojson, green_space.geojson, public_space.geojson, constraints.geojson (conceptual) | Walk circles are indicative radii, not control lines

Core Metrics Recalculation and Evidence Chain

12 AI scenario cards (3 industry test/verification)

Smart rail shuttle | Digital-twin tour | Rail inspection robot (test) | Interlocking dispatch | Robot delivery | Health kiosk

Hackathon station | OSS signal tower | Low-altitude logistics (test) | AV test field (test) | Gig dispatch hub | AI legal clinic

3 pilgrimage landmarks: Switchback Monument, OSS Signal Tower, Rail Walk | 5 user personas

Source: proposal.md, metrics.json, sources.json | conceptual

Phasing and long-term operation

Annual 'Jing-Zhang Signal Festival': Departure ceremony (Mar) -> Switchback Hackathon (mid) -> Signal Review (Dec)

Developer community + 'Station Passport' public experience route | conceptual, not confirmed government arrangements
