

The Origin Line Grows

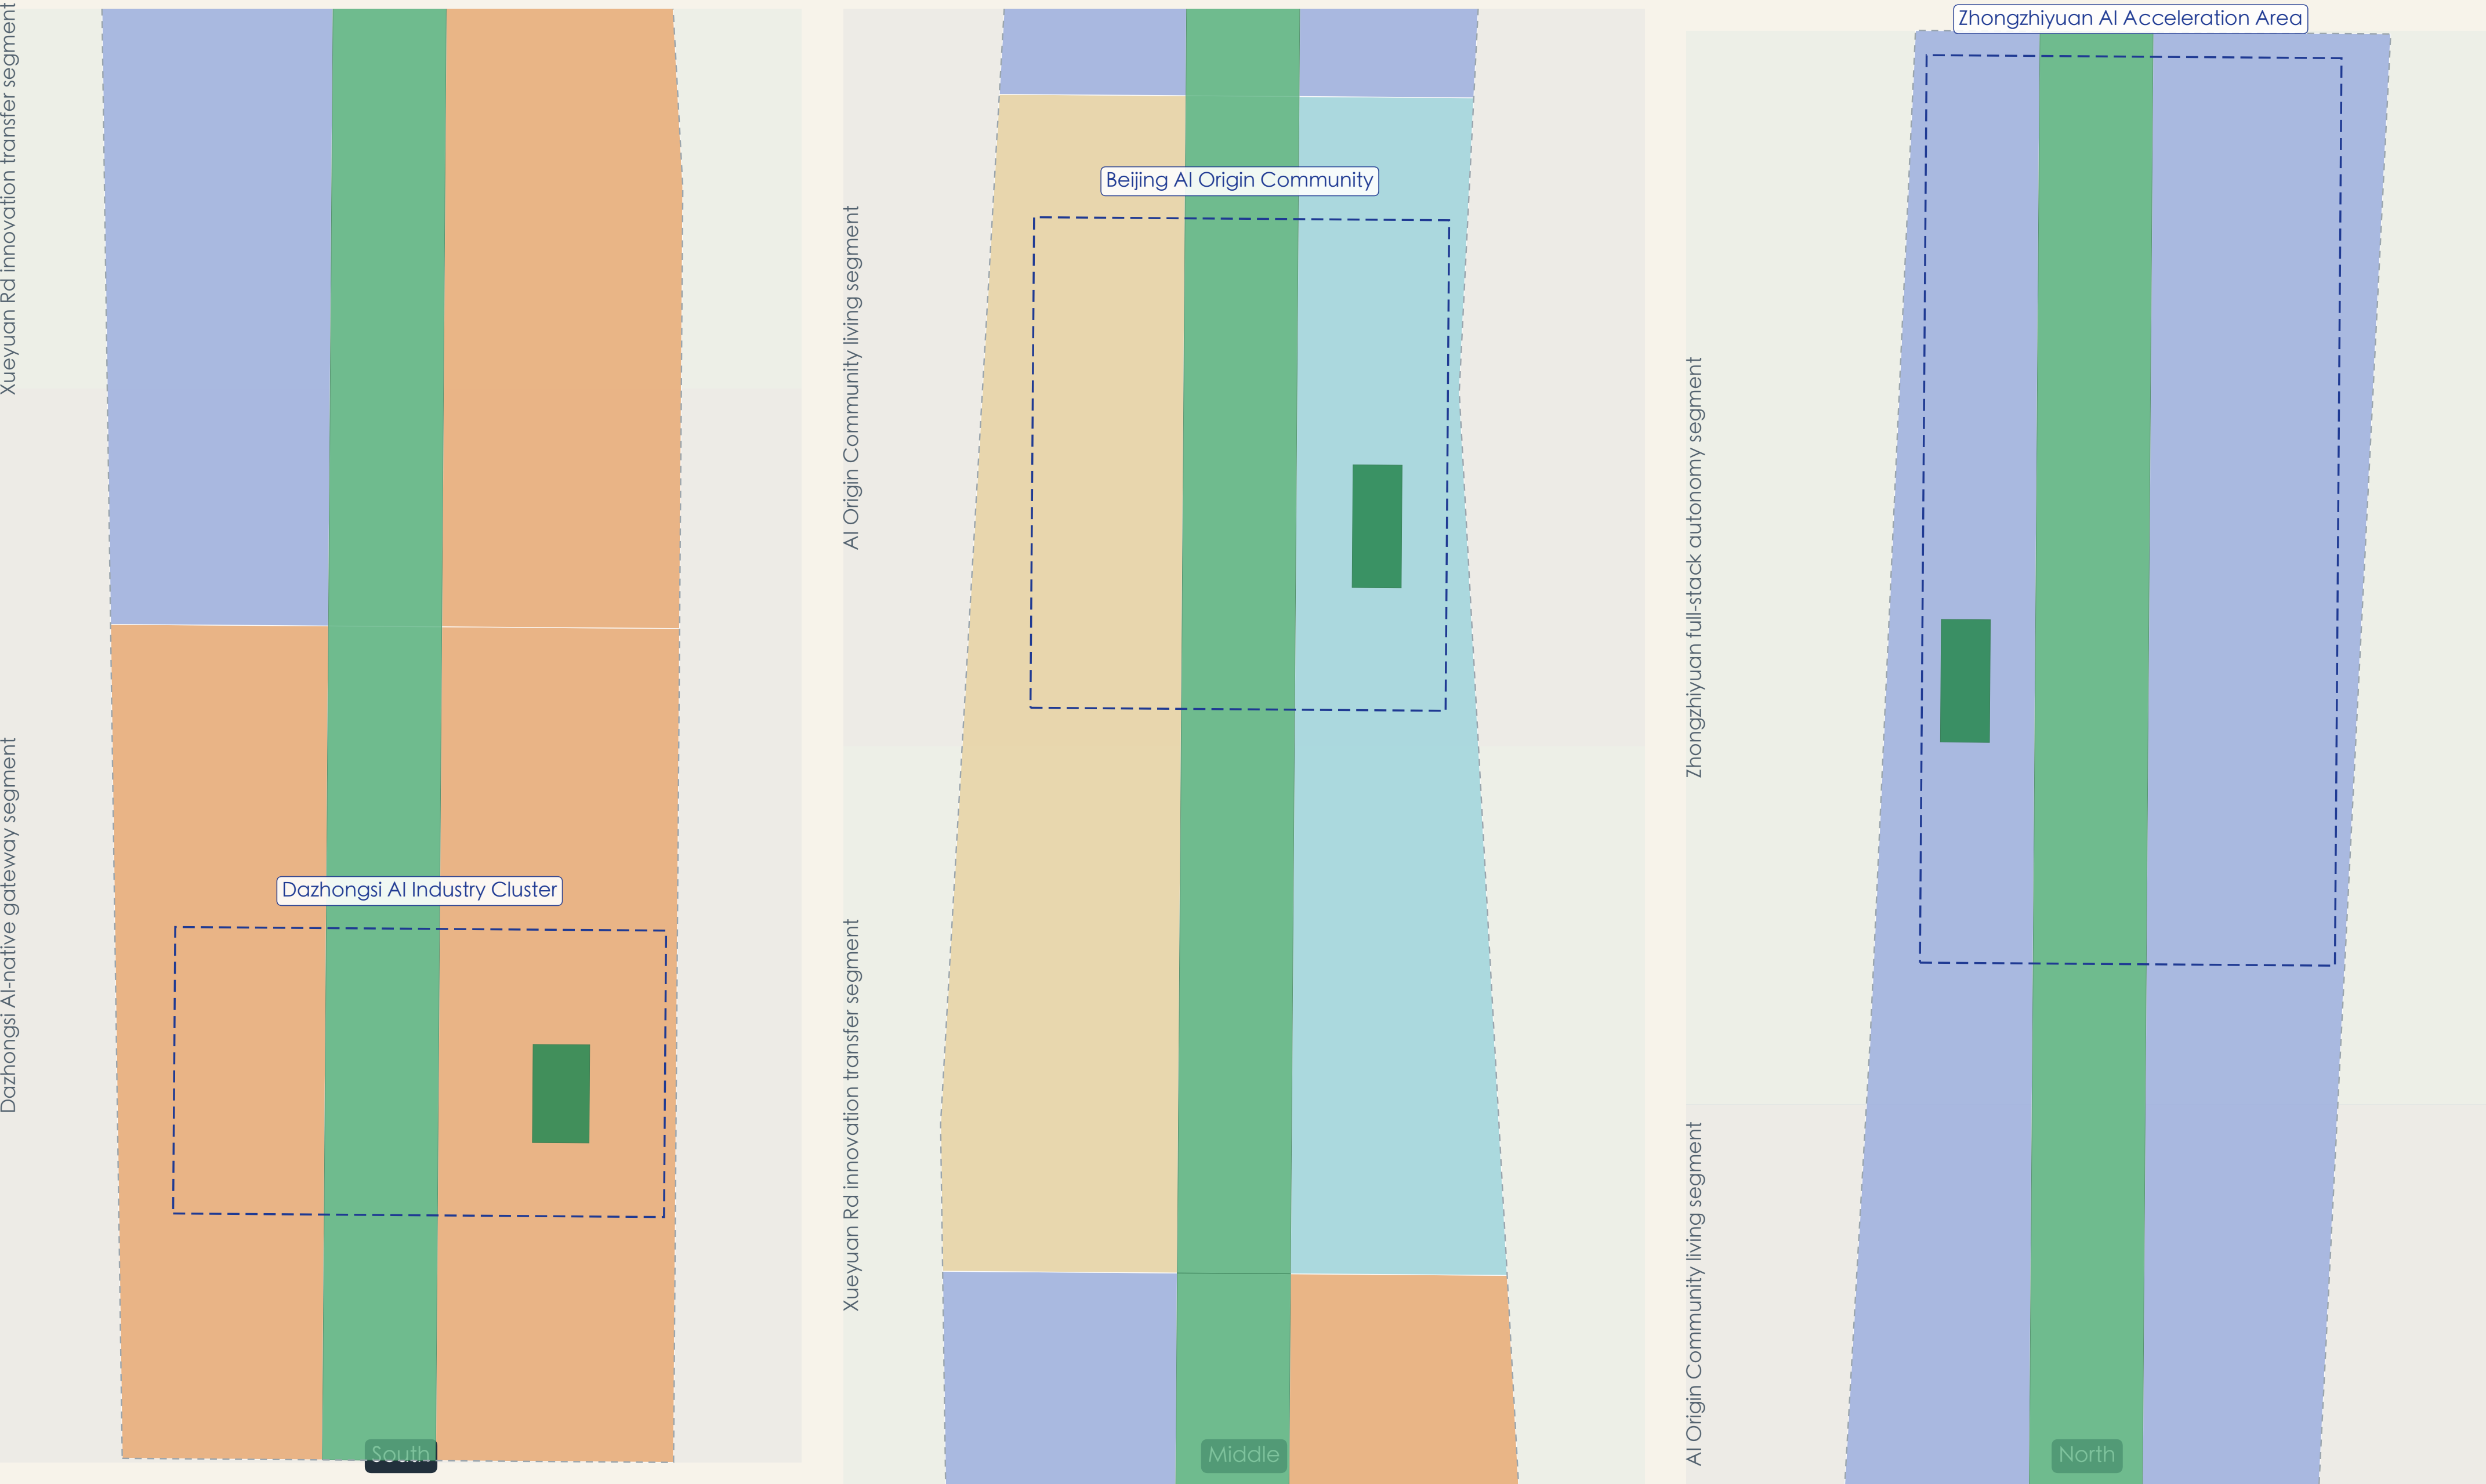

On the centennial alignment: a green spine runs north – south, three key areas anchor the innovation chain, two wings engage urban functions, five Origin Stations serve daily life.

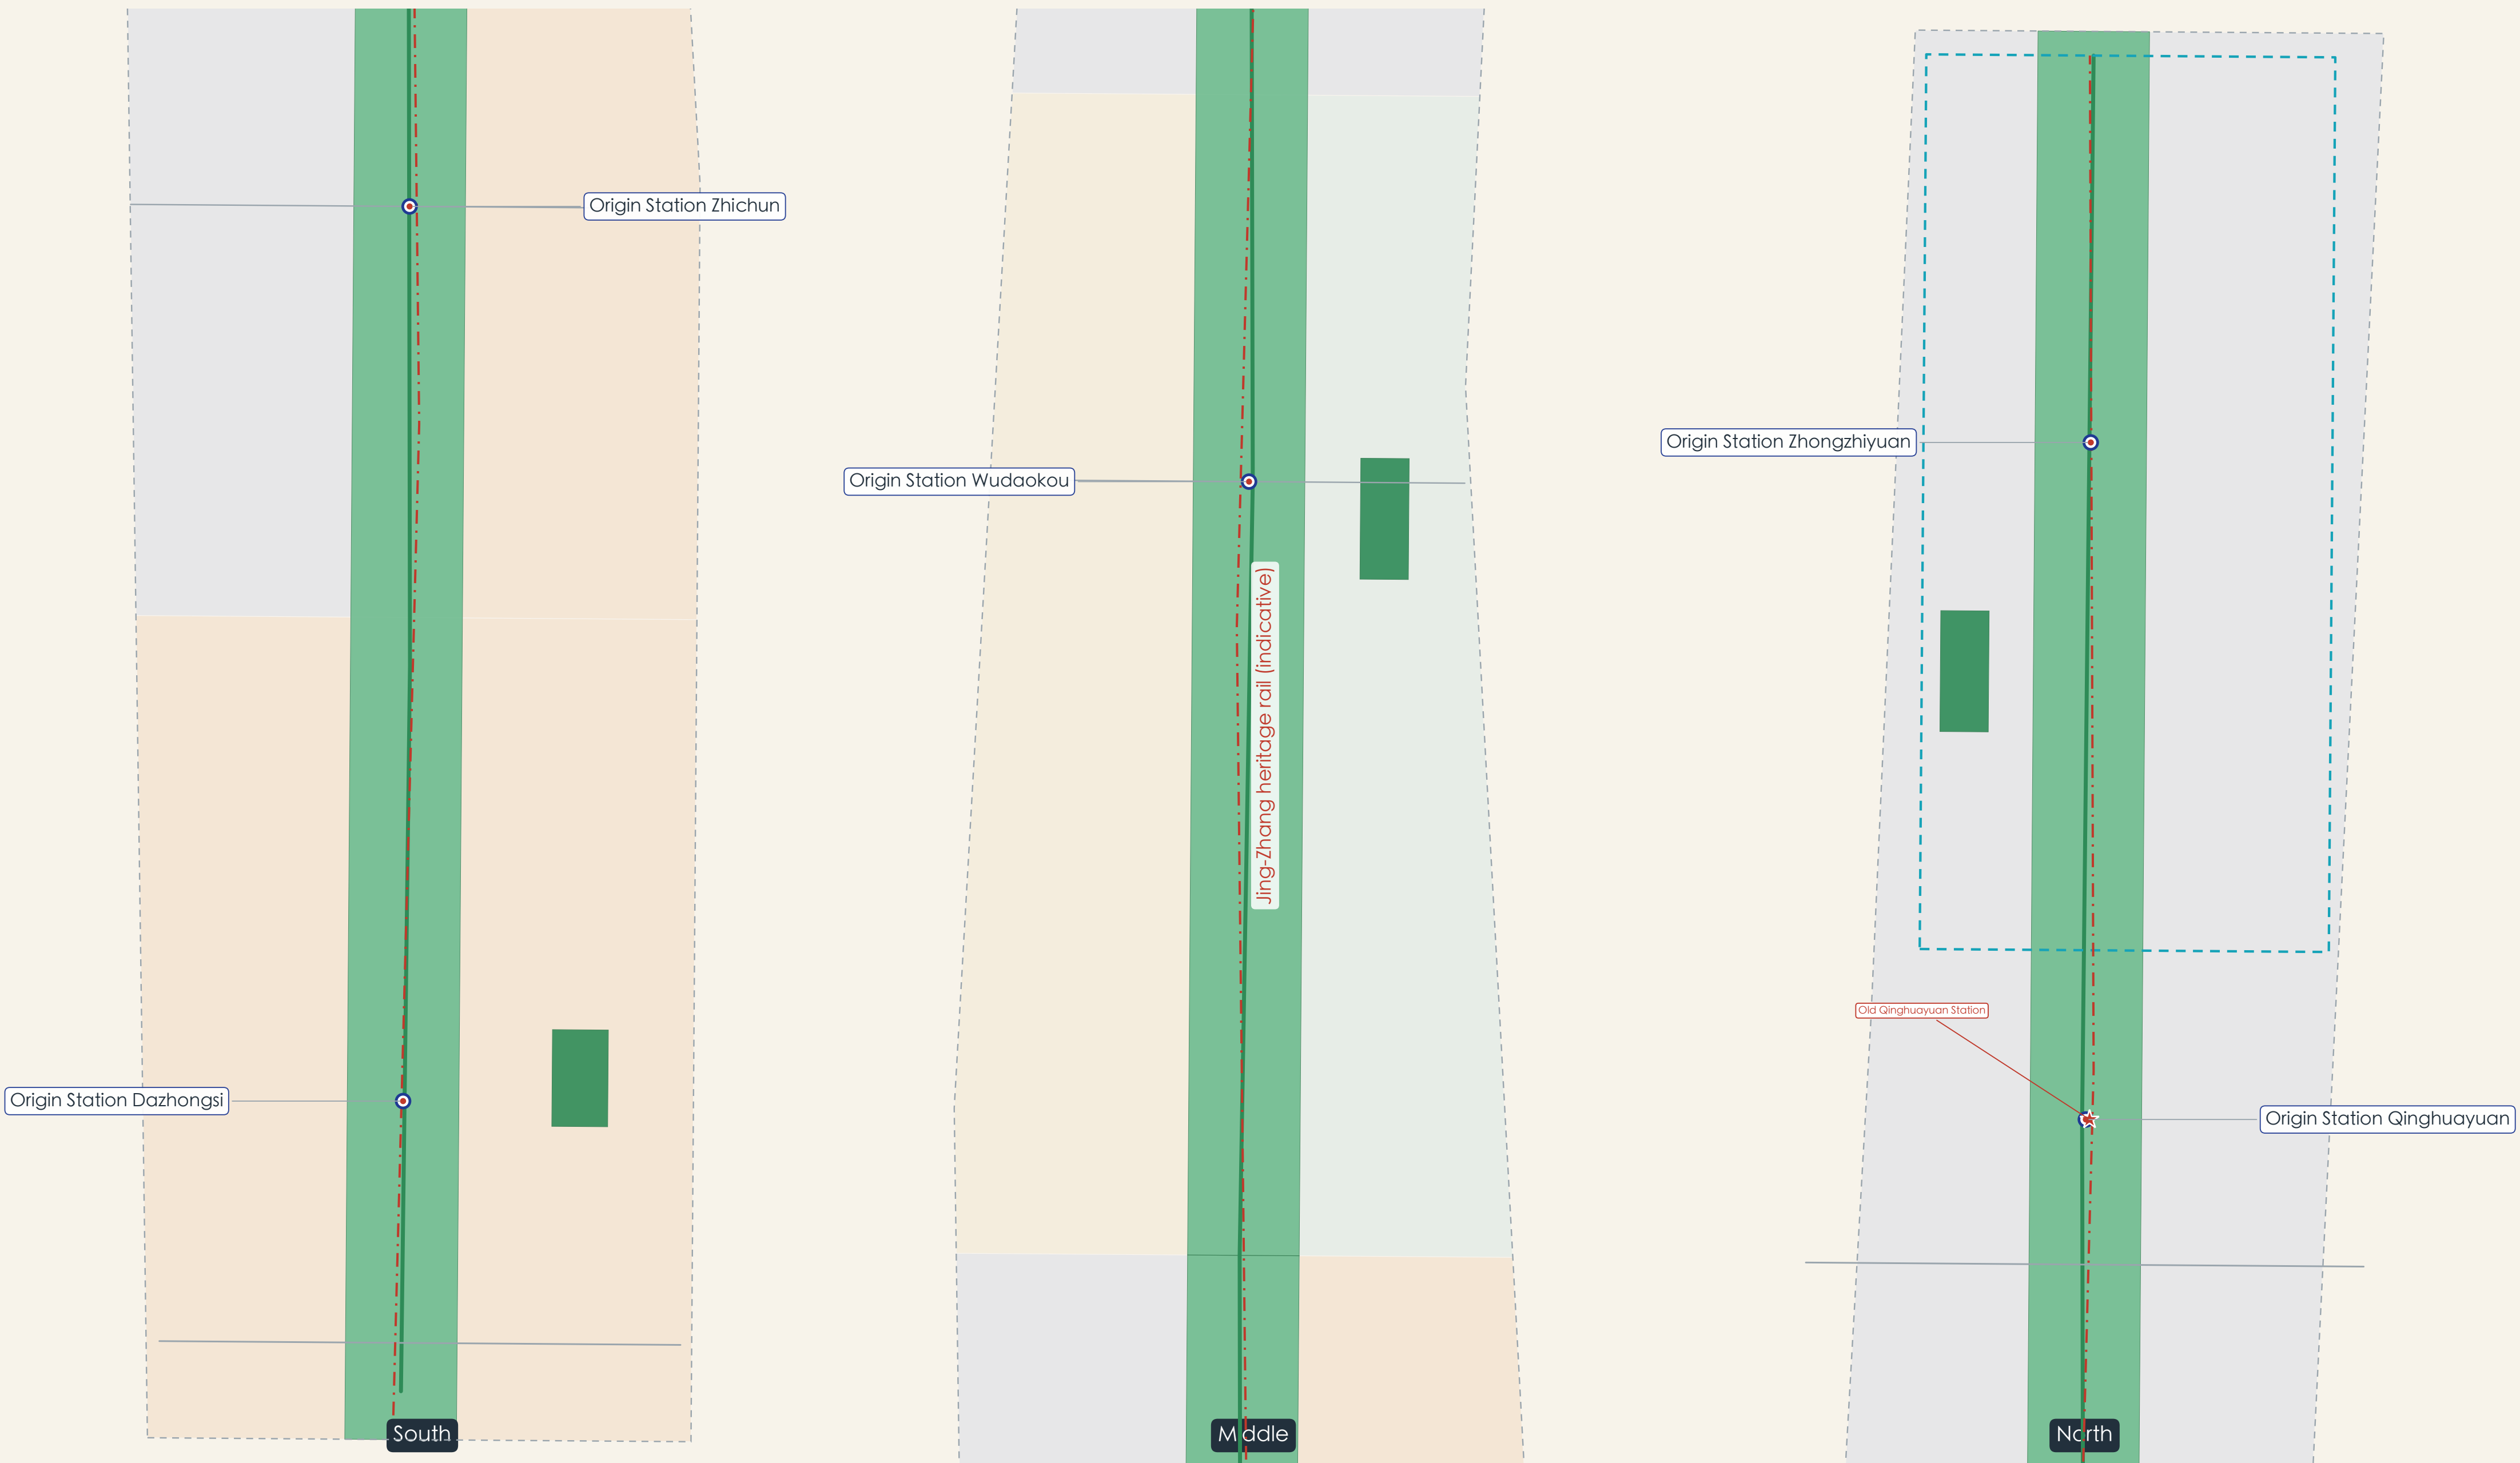

Green spine Key areas Origin Stations Heritage rail (indicative) Provisional boundary

Concept: the heritage green spine as the Line, three key areas, two city wings (Zhongguancun west / Xiaoyuehe east), five Origin Stations.

Land use (concept)

Blue-green & slow mobility (concept)

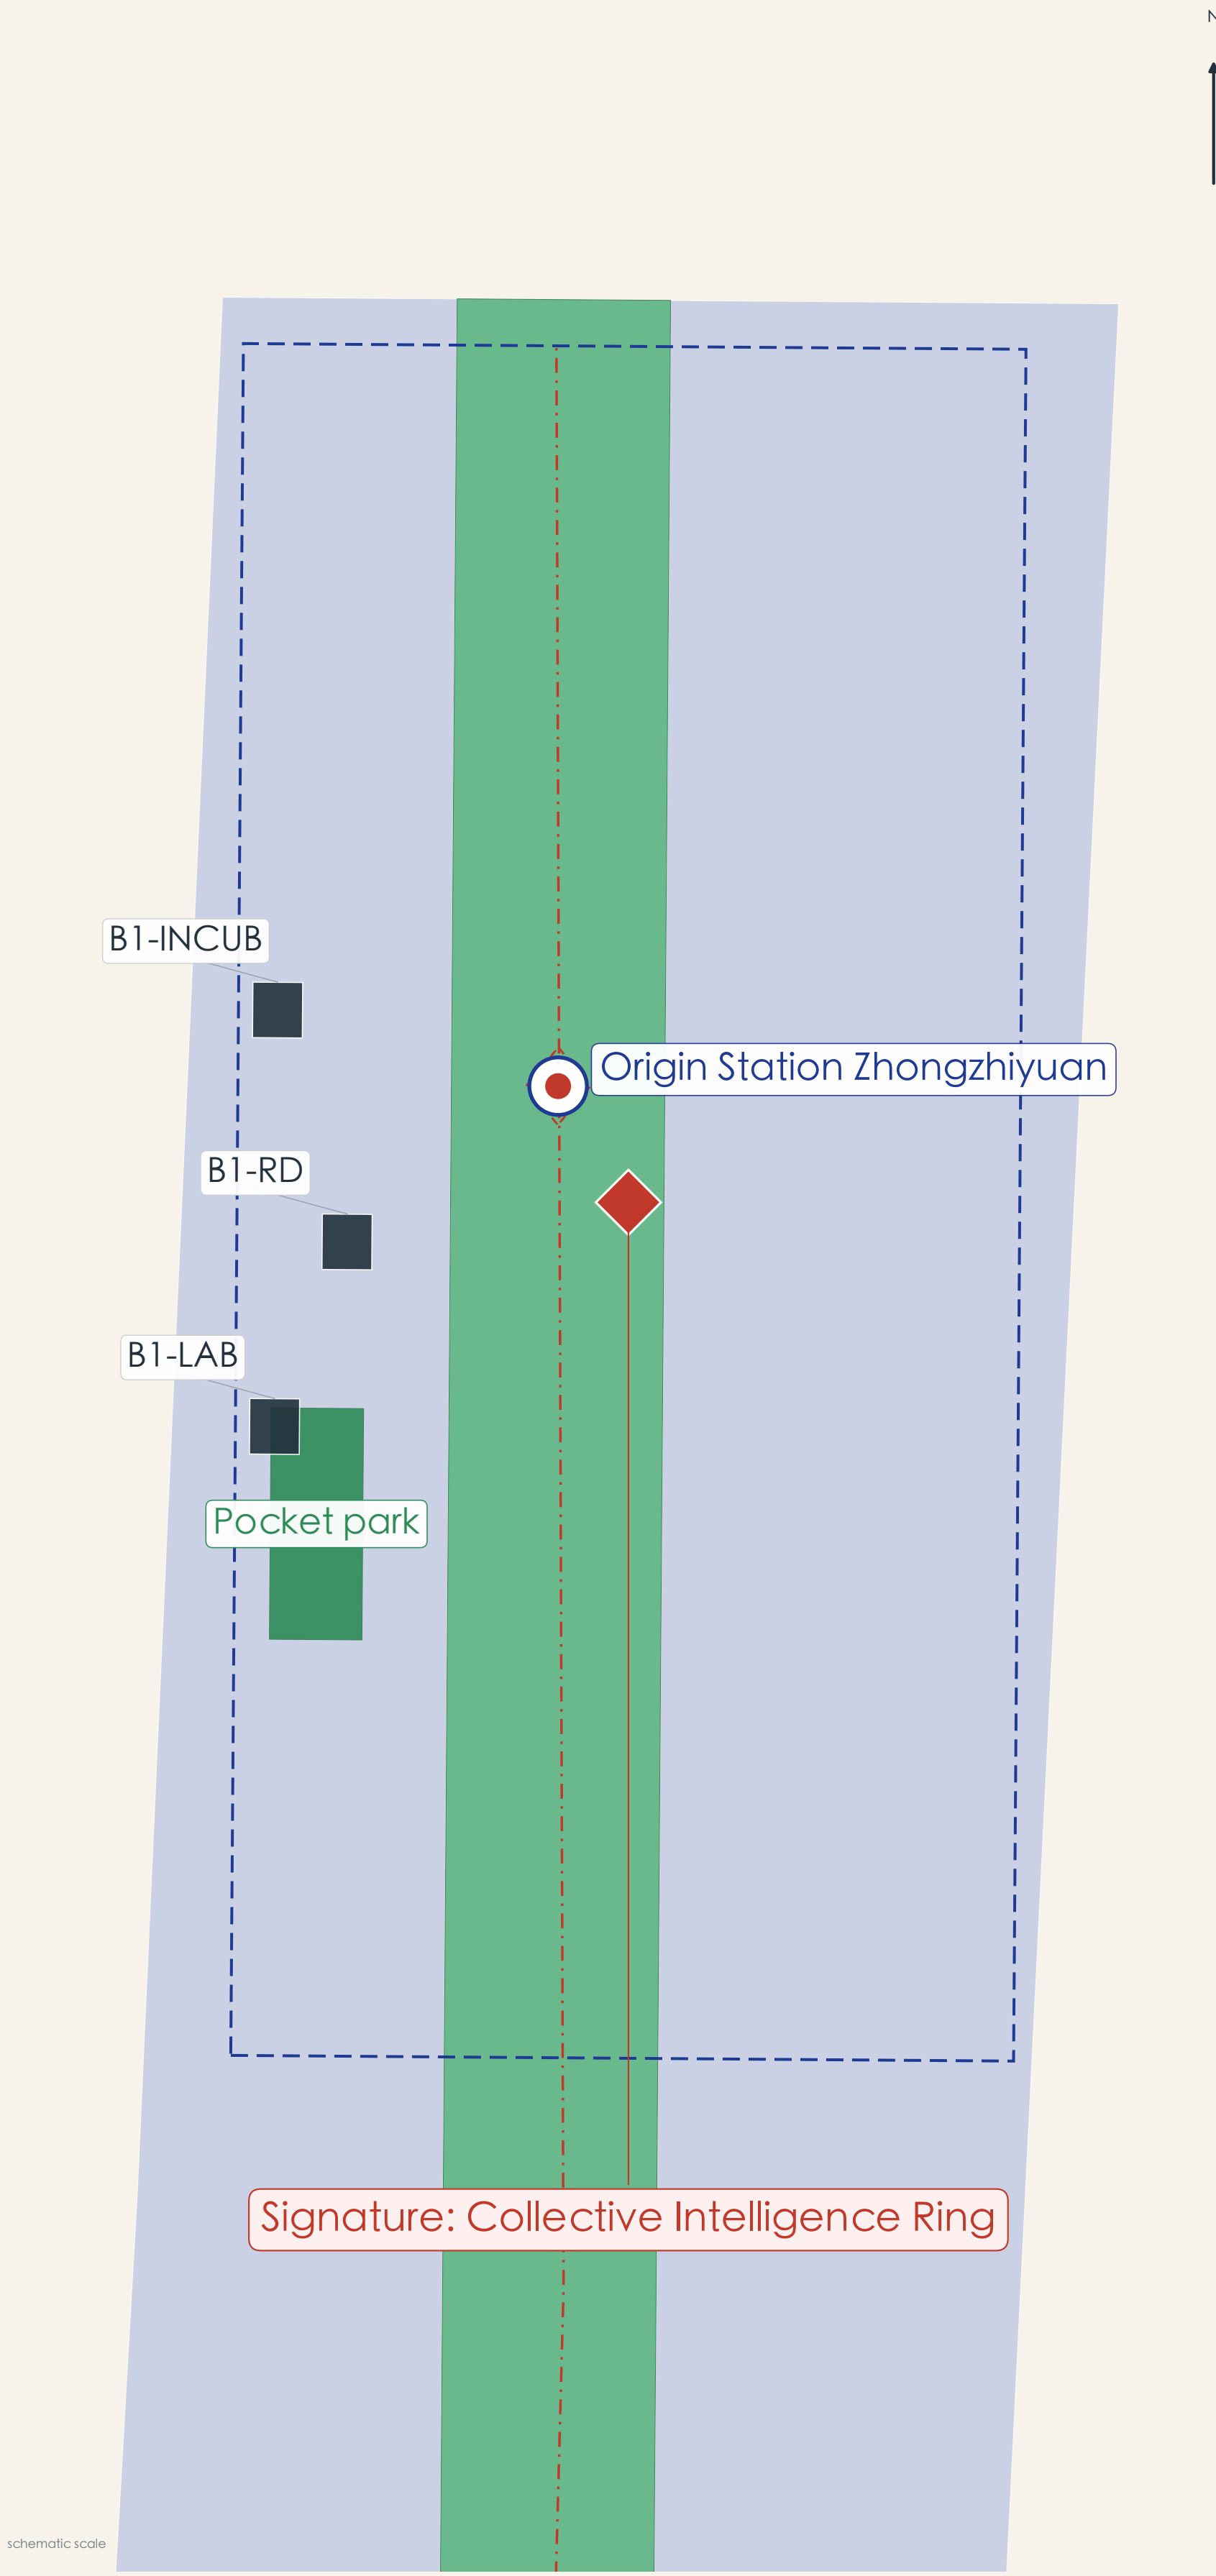

1401 Park green 05 Commercial 0802 Research 0701 Residential 0804 Education

Greenway Connectors Cycle ring Heritage line

Site 11.41 km² | Green 2.58 km² | Green ratio 22.6% (recomputed, provisional)

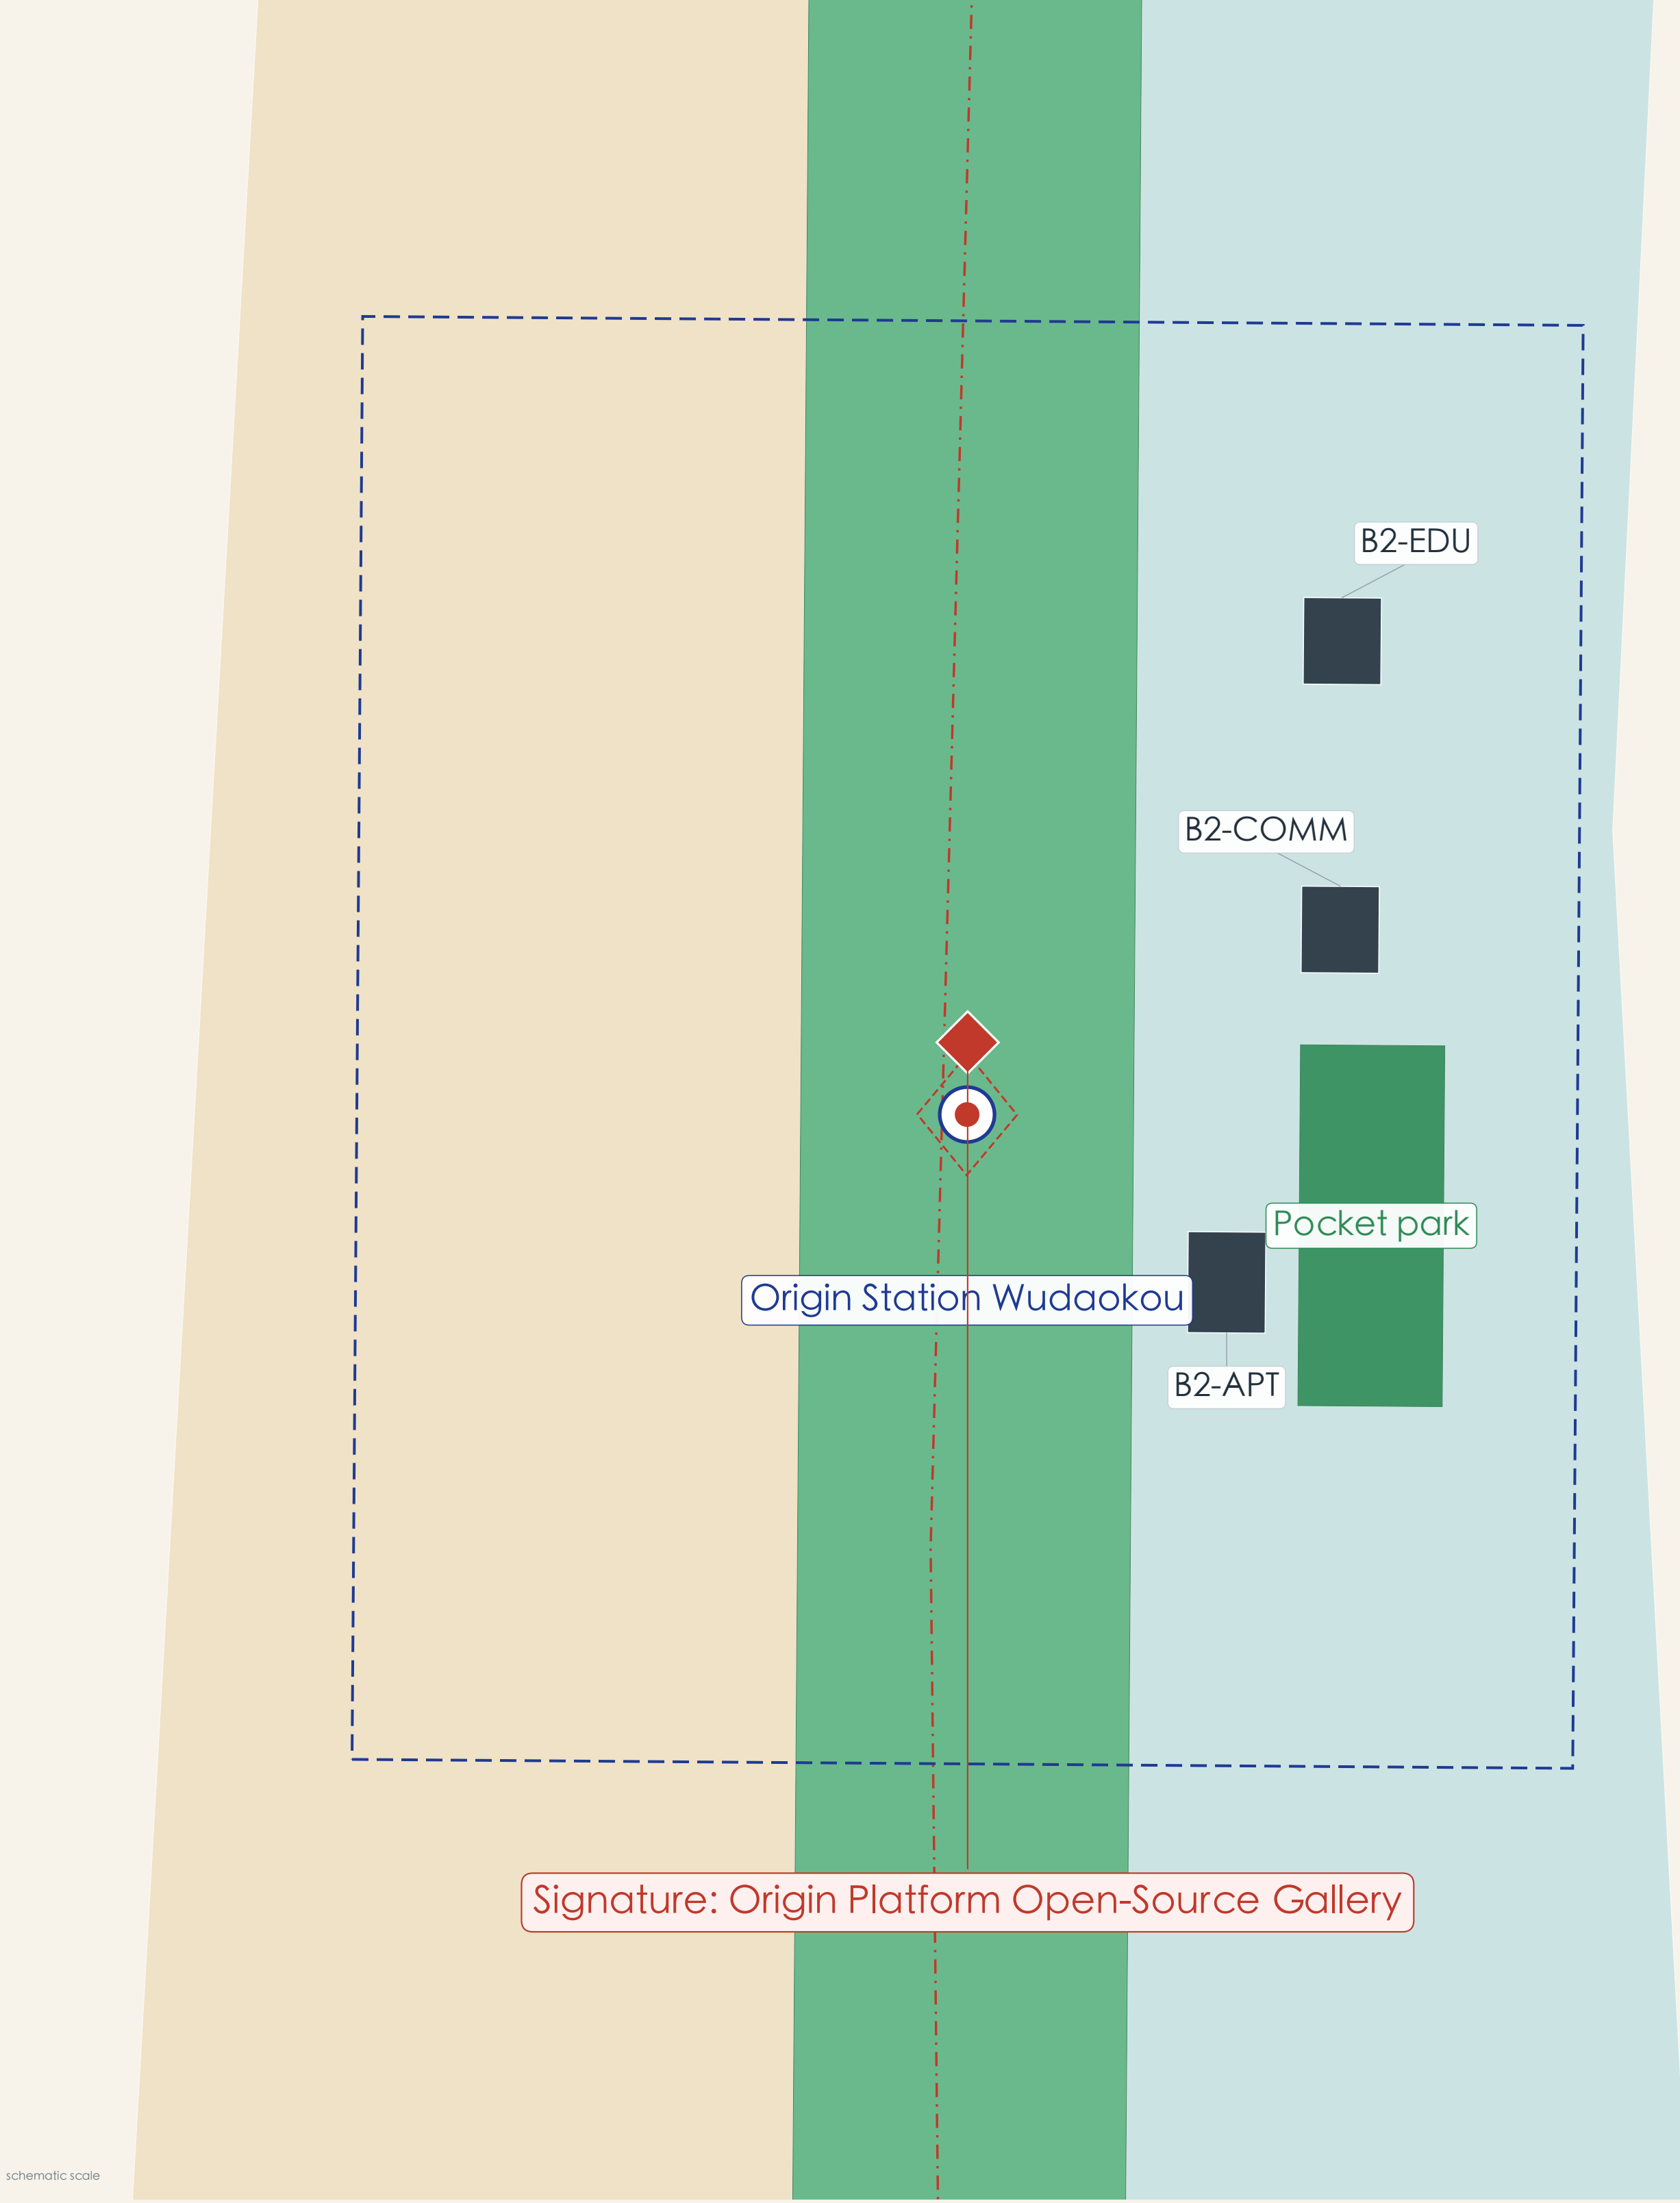

Mixed use unfolds along the spine; the greenway runs through, four connectors stitch east – west, and the Zhongzhiyuan cycle ring completes the network.

Zhongzhiyuan AI Acceleration Area (192.1 ha, announced)

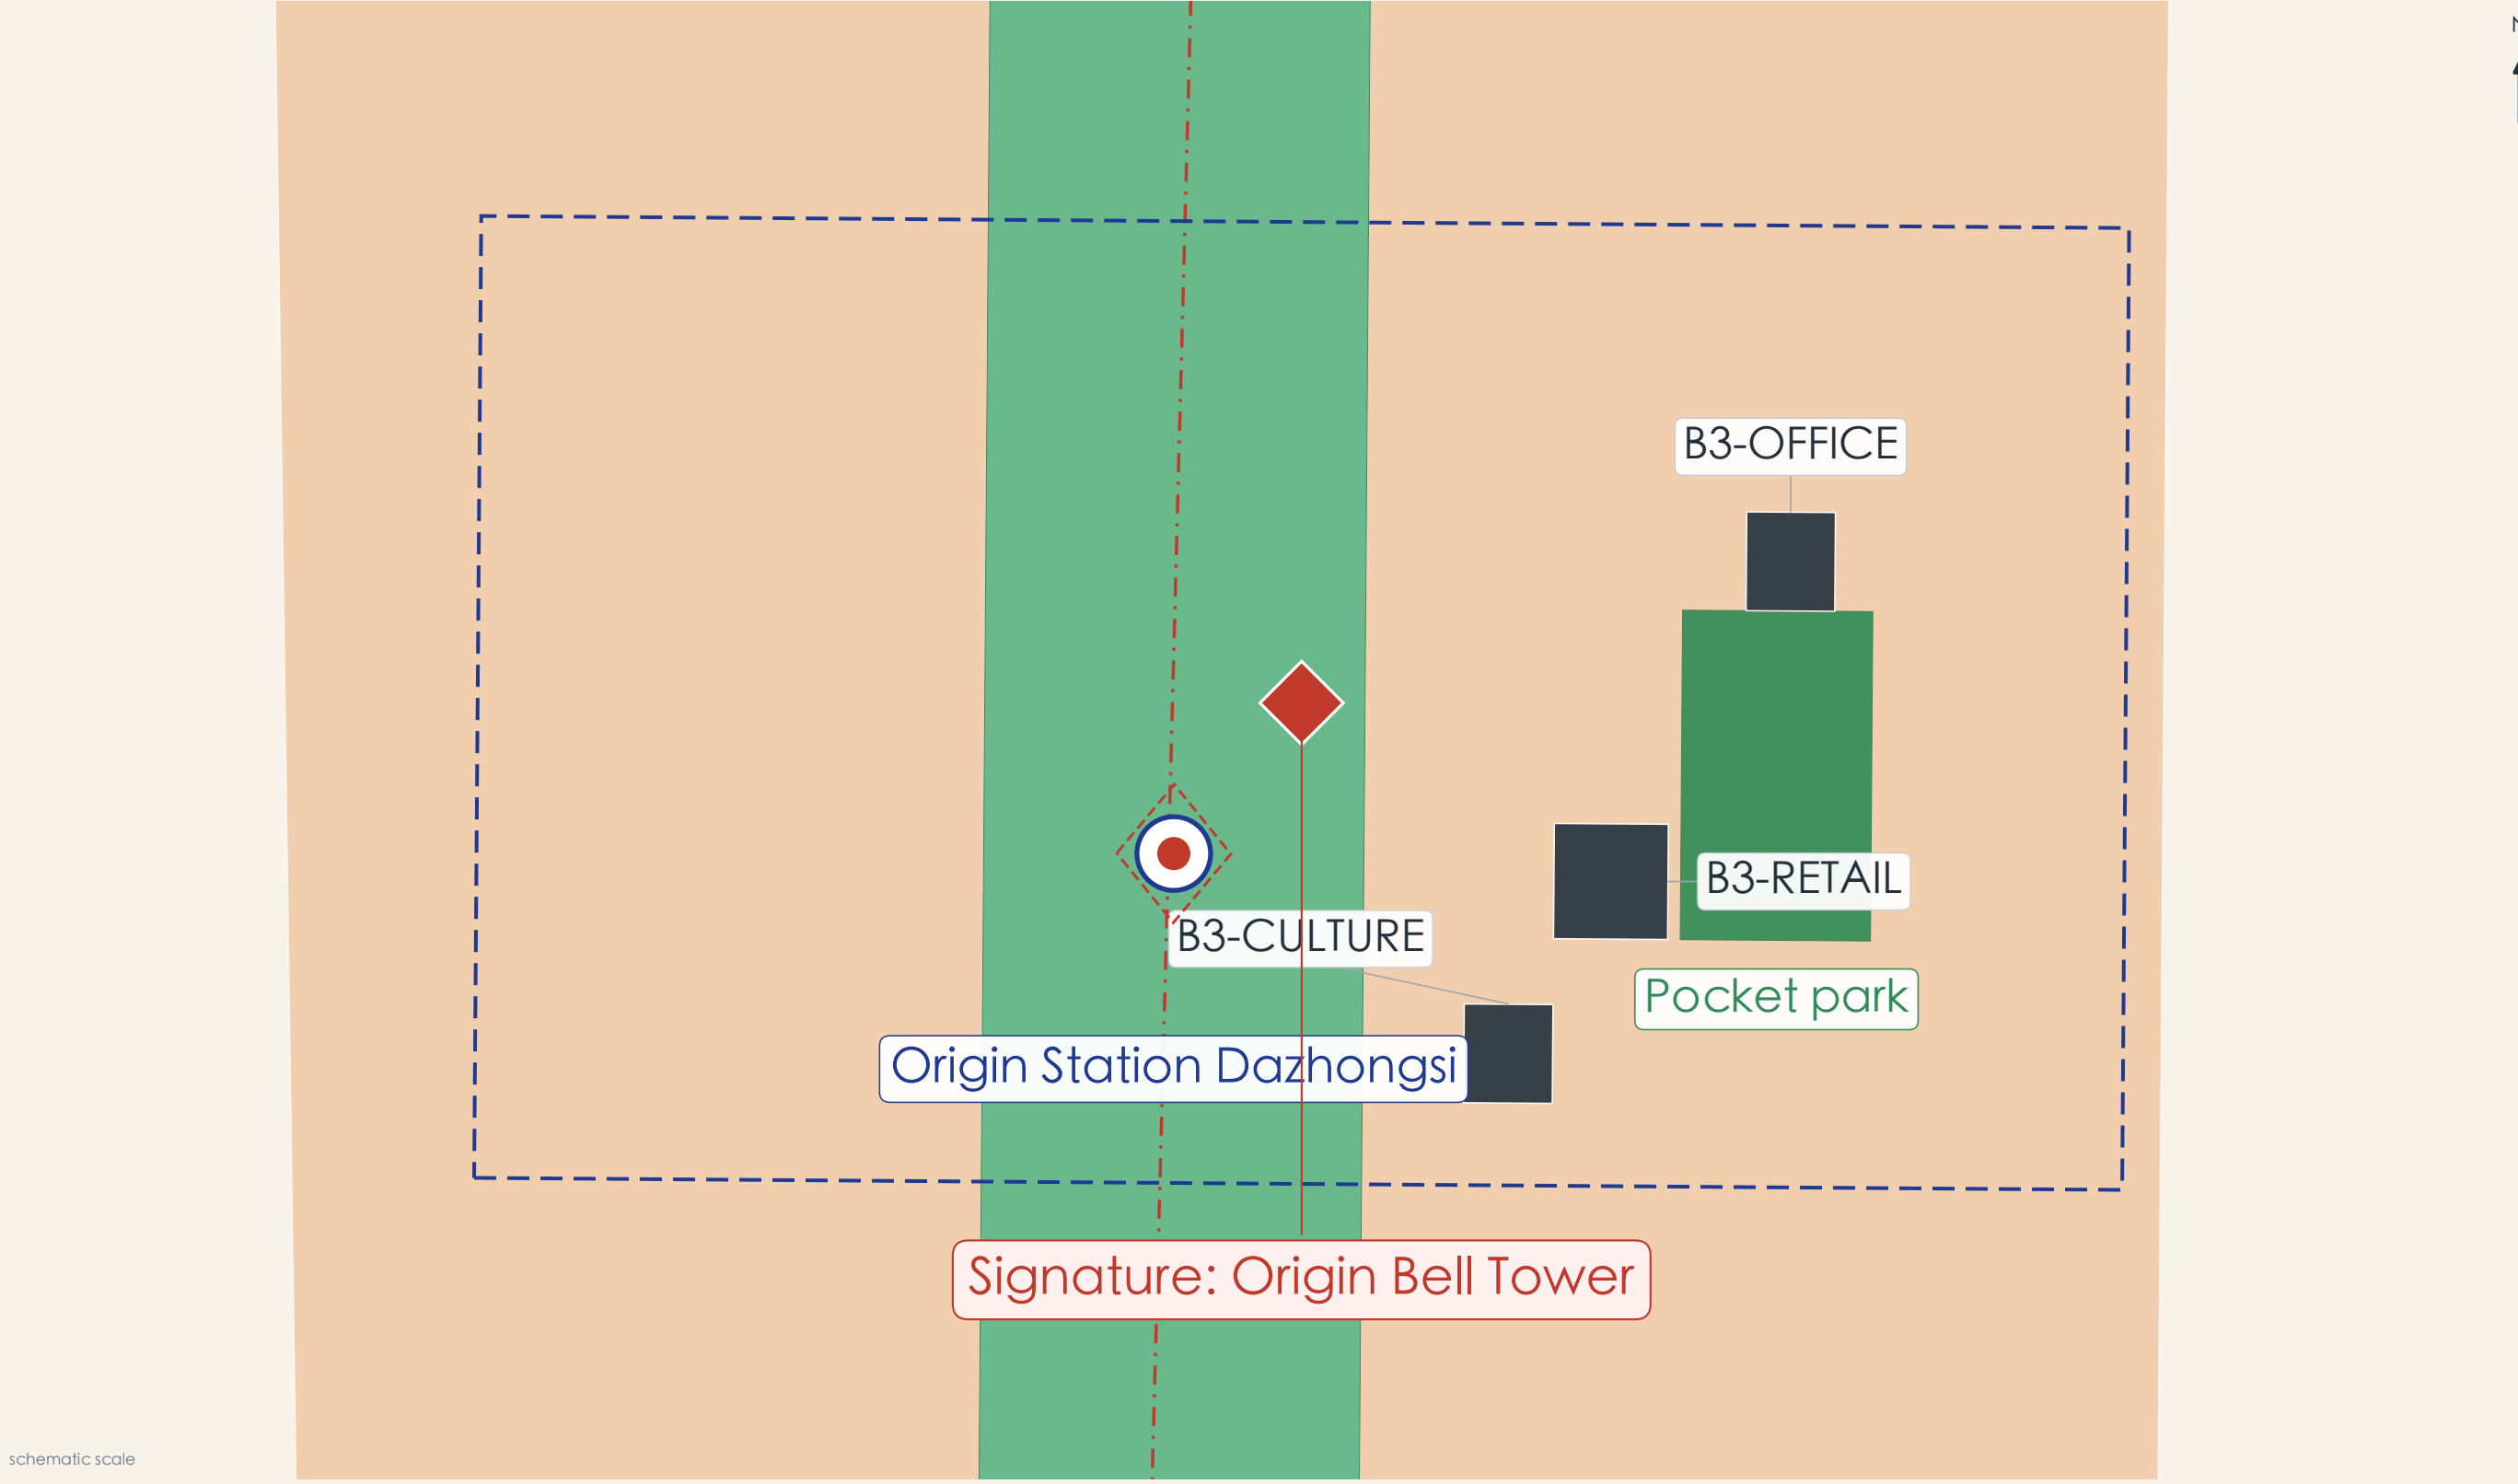

Role: Full-stack AI self-reliance & AI-governance voice. Signature move: Collective Intelligence Ring. Announced area: 192.1 ha (provisional)

Beijing AI Origin Community (104.3 ha, announced)

Role: World-class AI innovation ecosystem. Signature move: Origin Platform Open-Source Gallery. Announced area: 104.3 ha (provisional)

Dazhongsi AI Industry Cluster (72.0 ha, announced)

Role: AI-native new business formats. Signature move: Origin Bell Tower. Announced area: 72.0 ha (provisional)
