

AI OFF, CITY ON

JING-ZHANG CITY ON

AI OFF. CITY ON.

Unplug the AI. The city still works better. Every trial leaves a public asset that works without a model, account or network.

BASE

NO-AI BASELINE

BOOST

BOUNDED BOOST

BLACKOUT

PHYSICAL UNPLUG

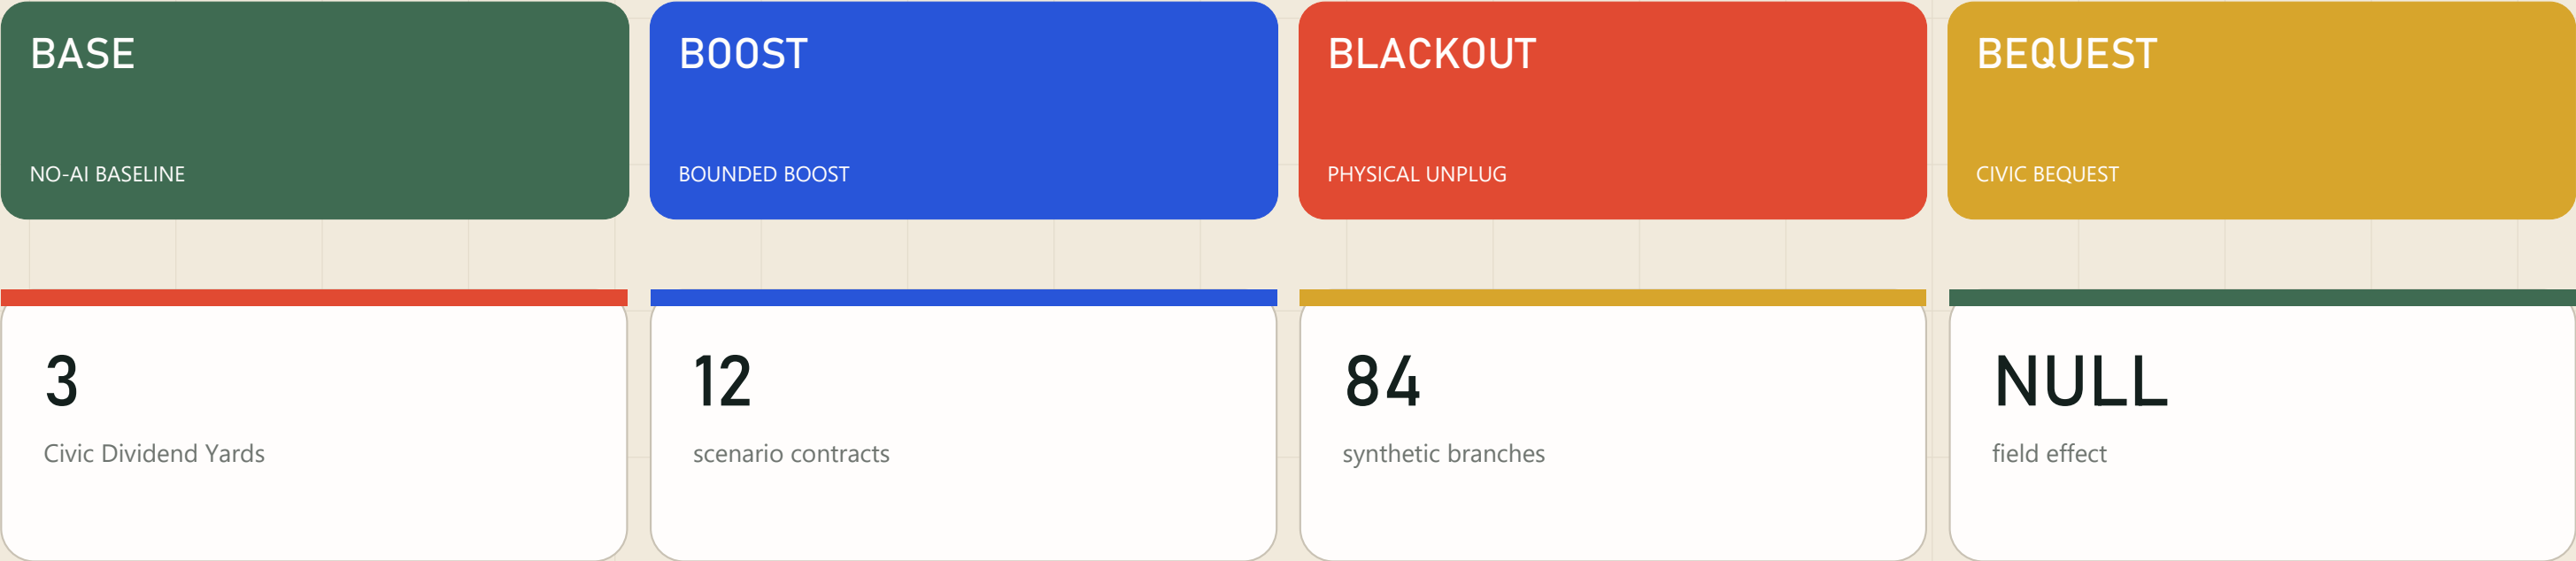

BEQUEST

CIVIC BEQUEST

CONCEPT SUBMISSION · COMMUNITY DISPLAY ONLY · PROVISIONAL GEOMETRY

An urban contract designed to exit

PROVISIONAL · NON-STATUTORY

When the model stops, the vendor leaves and the devices are removed, what exactly does the public keep?

The answer is not permanently online infrastructure. It is tactile maps, staffed directories, open adapters, repair manuals, manual gauges, heritage walks and reusable failure evidence.

CITY ON

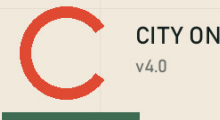

- ordinary route first
- named human can stop
- physical unplug is testable
- bequest has a maintainer

Overall map: spine, yards, seams and components

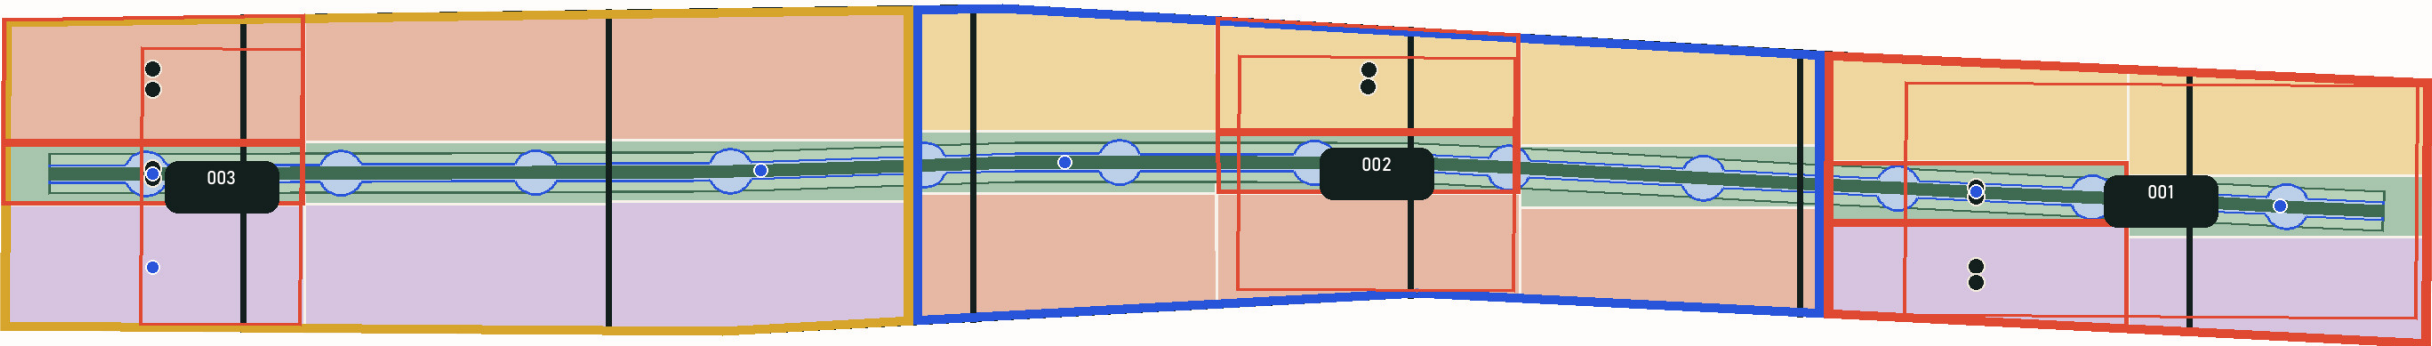

PROVISIONAL · NON-STATUTORY

AI OFF, CITY ON / 01

UNPLUG THE AI. THE CITY STILL WORKS BETTER.

One unbroken civic baseline, three Civic Dividend Yards, twelve scenarios designed to exit.

PROVISIONAL GEOMETRY / DIAGRAM ROTATED FOR LEGIBILITY

01 SAFETY DIVIDEND YARD

safety modules + failure archive

AI OFF > CITY ASSET

02 OPEN DIVIDEND WORKS

open adapters + repair manuals

AI OFF > CITY ASSET

03 EVERYDAY DIVIDEND COMMONS

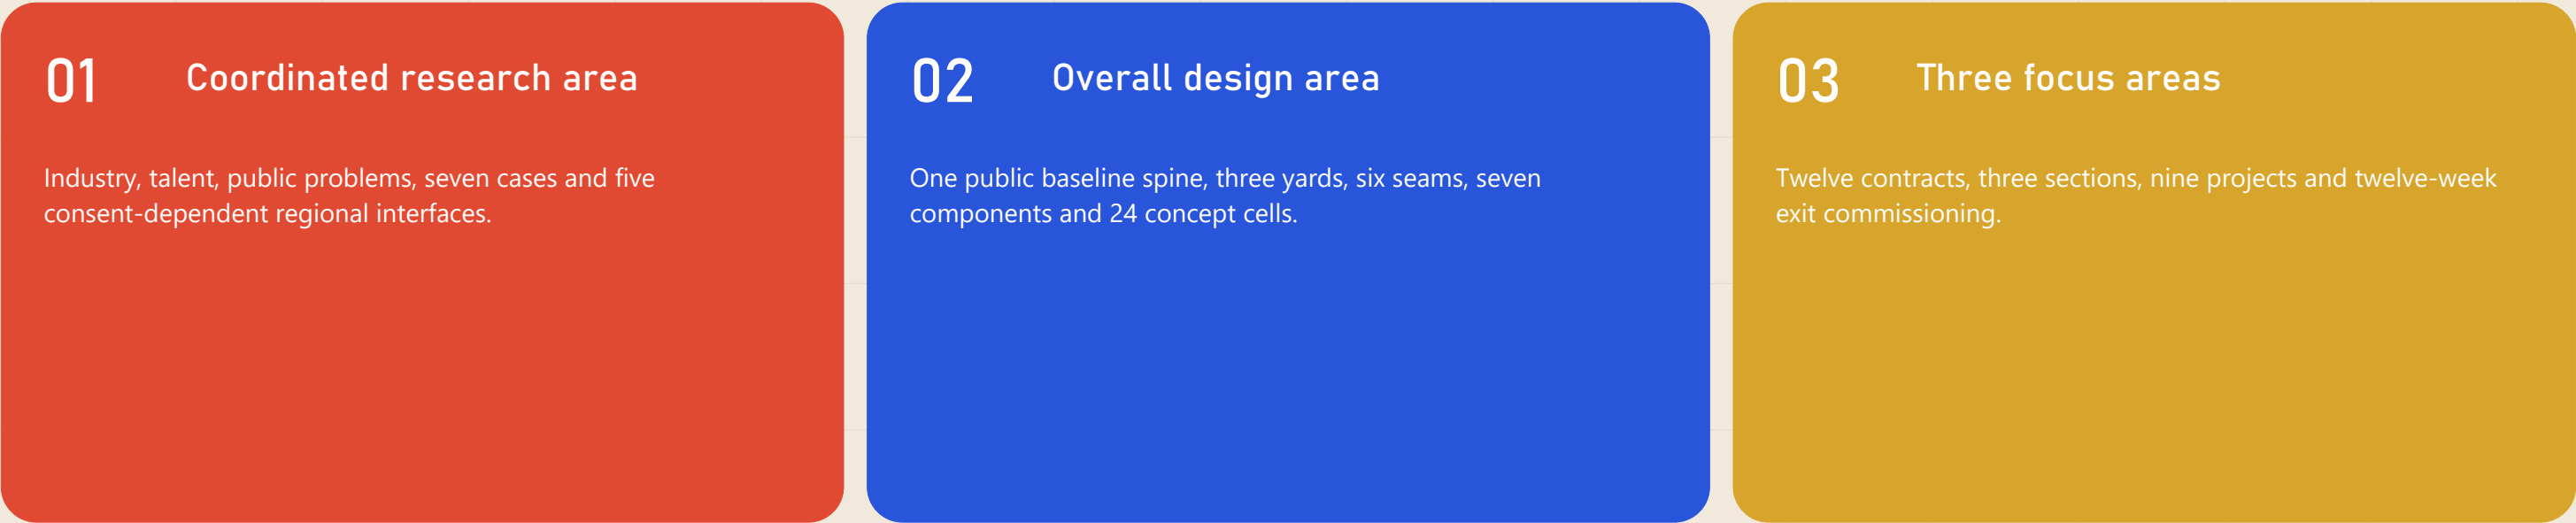

tactile maps + staffed service

AI OFF > CITY ASSET

PROVISIONAL GEOMETRY · ROTATED FOR LEGIBILITY

Three scales, one evidence transmission chain

PROVISIONAL · NON-STATUTORY

Tier	Evidence	Use and boundary
A	Official public information	context, not parcel truth
B	Site package + provisional geometry	reproducible, non-statutory, pending official polygon
C	Concept components + contracts	design declarations, machine-checkable
D	Field effects	currently null, pending permission and independent evaluation

One acceptance sentence: who can still do what without AI; what AI adds; who can unplug; what remains; and who maintains it.

KNOWN / UNKNOWN / DO-NOT-INFER

Design the evidence boundary first

PROVISIONAL · NON-STATUTORY

KNOWN

- Approx. 9 km corridor; approx. 6 km underground HSR in Haidian
- First 2.5 km, 16.8 ha phase is open
- Rails, turnouts, Qinghuayuan Station and sponge landscape form an existing reuse context

UNKNOWN

- Official overall and parcel boundaries
- Buildings, title, fire, heritage and municipal capacity
- Actors, budget, procurement, permit and field performance

DO NOT INFER

- Do not downscale district AI statistics onto the corridor
- Do not infer FAR, height or demolition from concept images
- Do not present synthetic PASS as field success

Sources: Beijing planning, park and Haidian official material; international cases supply mechanisms only.

Seven cases, seven mechanisms, no form copying

PROVISIONAL · NON-STATUTORY

Case / framework	Mechanism	Jing-Zhang translation
Barcelona Decidim	open source + online/offline	paper and digital contracts in parallel
Amsterdam Sensing	freedom, control, privacy	visible purpose + unplug
Punggol	open platform + mixed district	validate–translate–use loop
Seoul Oil Tank	industrial heritage to civic culture	repair and exit become memory
UK ATRS	purpose, human, appeal, retirement	plain dividend + exit record
NIST AI RMF	full-lifecycle risk	BLACKOUT in state machine
UN-Habitat	rights, digital public goods, small pilots	account-free ordinary path first

Explicit refusal: do not copy foreign institutions, investment scale, architectural form or performance values; non-binding guidance is not approval evidence.

THREE ZONES / TWO WINGS / FIVE INTERFACES

From deployable to able to exit without civic debt

PROVISIONAL · NON-STATUTORY

01

SAFETY DIVIDEND

safety, energy, failure and offline evidence

02

OPEN DIVIDEND

open adapters, repair and bilingual explanation

03

EVERYDAY DIVIDEND

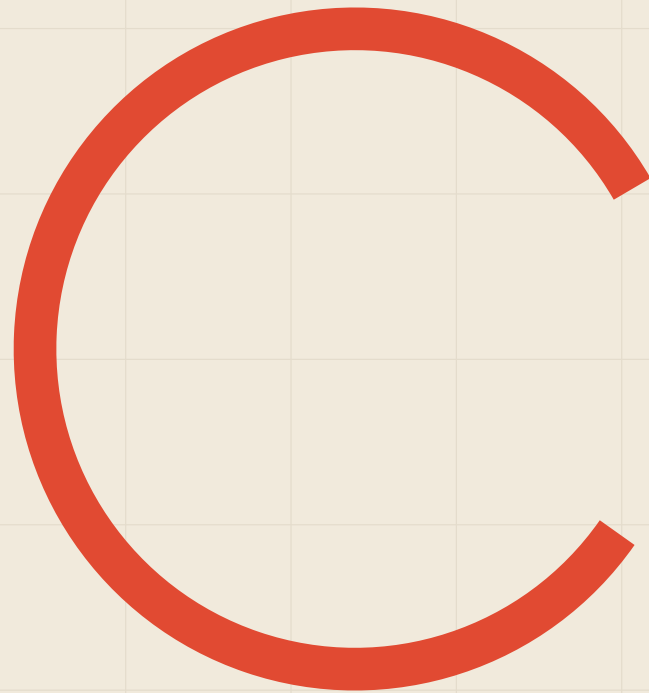

accessibility, public service, heritage and consumer use

PUBLIC PROBLEM □ BASE □ BOOST □ BLACKOUT □ BEQUEST □ PROFESSIONAL ADOPTION

ID	Consent-dependent interface	Candidate input	Shareable output
REG-01	North Latitude community	resident-defined public problem	de-identified problem card and ordinary-service gap
REG-02	Future Science City	test equipment and embodied-AI method	portable unplug-test method and failure envelope
REG-03	Huairou Science City	measurement and calibration method	uncertainty note and reproducible calibration question
REG-04	Beijing E-Town	engineering and manufacturing feedback	repairability, interoperability and recall conditions
REG-05	Beijing-Tianjin-Hebei	cross-city public problem	location-neutral civic-dividend schema and negative-result package
Every interface is proposed: no fabricated partnership, procurement, endorsement or result; coordinates, personal data and approval conclusions do not flow by default.			

A broken technology circle above a continuous civic ground

PROVISIONAL · NON-STATUTORY

CITY ON

Technology can unplug; movement, rest, help, maintenance and memory stay continuous.

01 Tactile baseline board

02 Staffed desk + paper kit

03 Reversible plug rail

04 Rain-shade bench

05 Offline emergency light

06 Red exit gate

07 Civic-bequest archive

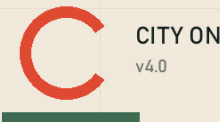

Complete the power-free, network-free and model-free function before attaching intelligence; never occupy accessible clear width, tree pits, fire access or ordinary counters.

Civic baseline first; AI as detachable overlay

PROVISIONAL · NON-STATUTORY

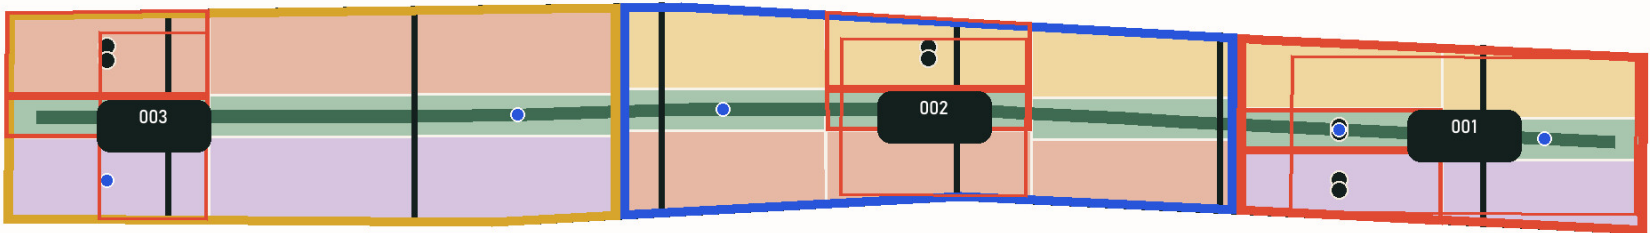

SPATIAL CONTRACT / 02

THE CIVIC BASELINE COMES FIRST. AI IS A DETACHABLE OVERLAY.

Twenty-four concept land-use cells retain their planning codes; seven components work first without power, network or model.

24 CELLS / 3 NON-STATUTORY OVERLAYS

- BASE — unbroken ordinary route
- BOOST — reversible AI pocket
- EXIT — physical red exit gate

07 OFFLINE-READY

- 1 Tactile baseline board
works with AI off
- 2 Staffed desk + paper kit
works with AI off
- 3 Reversible plug rail
works with AI off
- 4 Rain-shade bench
works with AI off
- 5 Offline emergency light
works with AI off
- 6 Red exit gate
works with AI off
- 7 Civic-bequest archive
works with AI off

NO FAR / HEIGHT / DEMOLITION CLAIM

When evidence is insufficient, retain by default

PROVISIONAL · NON-STATUTORY

01

condition, age, structure

02

title, tenancy, fire

03

heritage, ground access,
maintenance

04

retain / repair / reversible reuse /
separate study

Three public ground-floor sections

garden—safety library—test pocket—isolated logistics

no-account porch—repair table—parts wall—controlled room

ordinary route—tactile map—staffed counter—synthetic sandbox

UNKNOWN

FAR · HEIGHT · DENSITY · SETBACK ·
PARKING · UTILITIES · COST · DEMOLITION

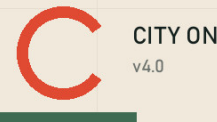

Unknown is neither zero nor a target inferred from a rendering.

Civic ground stays continuous; smart equipment unplugs

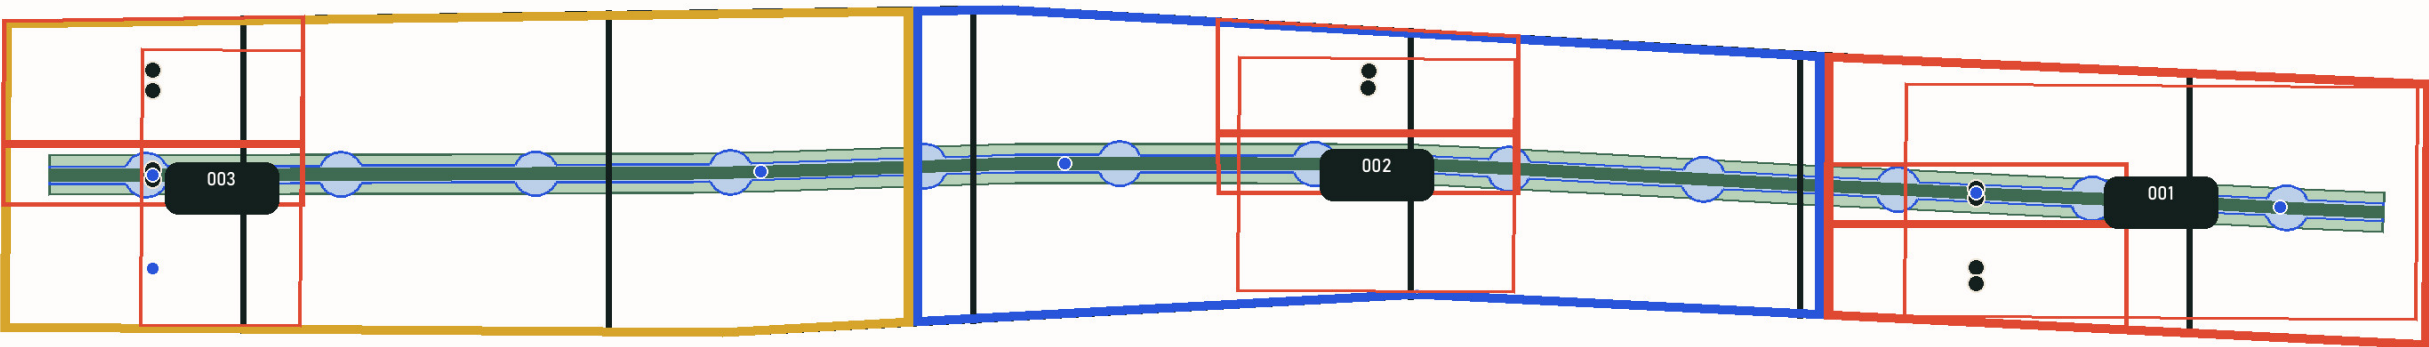

PROVISIONAL · NON-STATUTORY

MOBILITY + BLUE-GREEN / 04

THE CIVIC GROUND NEVER BREAKS. SMART EQUIPMENT CAN UNPLUG.

The baseline spine, six east-west seams, blue-green system and ordinary services come first; robots, sensing and models enter reversible interfaces only.

GREEN = ORDINARY BASELINE · RED = UNPLUGGED SEAM · BLACK DOT = SCENARIO

01

ORDINARY MOBILITY

continuous, account-free, robot never first

02

BLUE-GREEN BASE

manual gauges and repairable rain gardens

03

MUNICIPAL MINIMUM

light, fire and help independent of models

04

PHYSICAL EXIT

power, network, data and actuator returned

The most important civic dividend needs no AI

PROVISIONAL · NON-STATUTORY

13.4%

concept green ratio

7.6%

concept public-space ratio

1909

Jing-Zhang Railway completed

Post-AI civic legacy	Design translation
□□□□□□□□	ordinary shade + rest
□□□□□□□□□□	legible rainwater + manual gauge
□□□□□□□□□□	quiet edge + low-luminance interface
□□□□□□□□□□□□	repairable material + public care card
□□□□□□□□□□□□□□	measurement, repair, handover, sustained operation

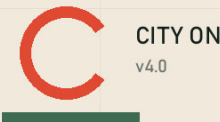

Rails are not a decorative logo. Jing-Zhang culture becomes a spatial institution the public can understand, maintainers can repair and the city retains after technology exits.

Three yards, three capabilities, three civic legacies

PROVISIONAL · NON-STATUTORY

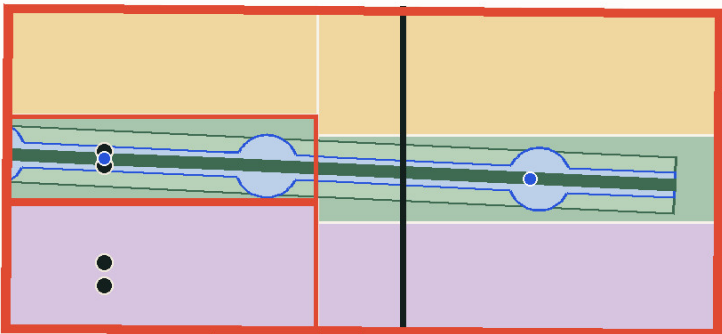

THREE DIVIDEND YARDS / 03

THREE YARDS. THREE CAPABILITIES. THREE POST-AI CIVIC LEGACIES.

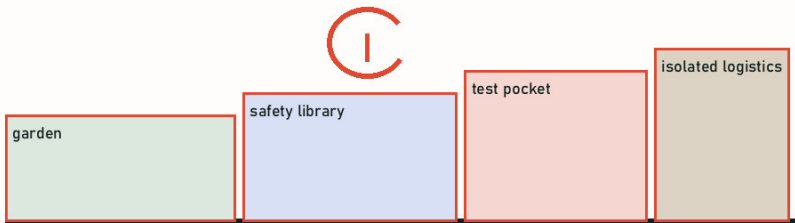

One dividend contract, three distinct spaces: safety validation, open maintenance and everyday civic service each have their own section and stop conditions.

01 SAFETY DIVIDEND YARD

Safety Dividend Yard

PROVISIONAL · NON-STATUTORY

GPT IMAGE 2 BASE · TEXT-FREE · CONCEPT / PRESENTATION ONLY

AI OFF > CITY ASSET

- SCN-01 Embodied-AI unplug drill
Tactile obstacle modules and a printed safety envelope
- SCN-02 Edge energy and offline resilience
A public energy meter and human operating envelope
- SCN-03 Model red-team and failure library
Versioned failure cards and paper risk markers
- SCN-04 Rain sensing and manual gauge
A manual rain gauge and rain-garden care card

A tactile safety-obstacle library, staffed explanation desk, rain-garden maintenance card, and public failure archive

Open Dividend Works

PROVISIONAL · NON-STATUTORY

GPT IMAGE 2 BASE · TEXT-FREE · CONCEPT / PRESENTATION ONLY

AI OFF > CITY ASSET

- SCN-05** Open-source maintenance clinic

A reusable repair manual, issue docket, and parts shelf
- SCN-06** Civic-service interoperability sandbox

An open adapter and paper service workflow
- SCN-07** Bilingual model-label workshop

A plain-language bilingual model-label template
- SCN-08** Youth reverse-mentoring studio

Paper task cards and a tool-lending catalogue

Open adapters, repair manuals, bilingual model-label templates, and account-free learning tables

Everyday Dividend Commons

PROVISIONAL · NON-STATUTORY

GPT IMAGE 2 BASE · TEXT-FREE · CONCEPT / PRESENTATION ONLY

AI OFF > CITY ASSET

- SCN-09 Accessible dual-path wayfinding

A tactile static map and field-audited ordinary route
- SCN-10 Staffed public-service triage

A staffed directory, paper checklist, and telephone route
- SCN-11 Jing-Zhang memory commons

A verified physical timeline and rights card
- SCN-12 Consumer-agent unplug sandbox

A manual comparison board plus refund and appeal routes

Tactile static maps, a staffed service directory, a verified Jing-Zhang heritage walk, and consumer redress routes

12 CONTRACTS / 12 BEQUESTS

Every AI boost owes the city a post-AI asset

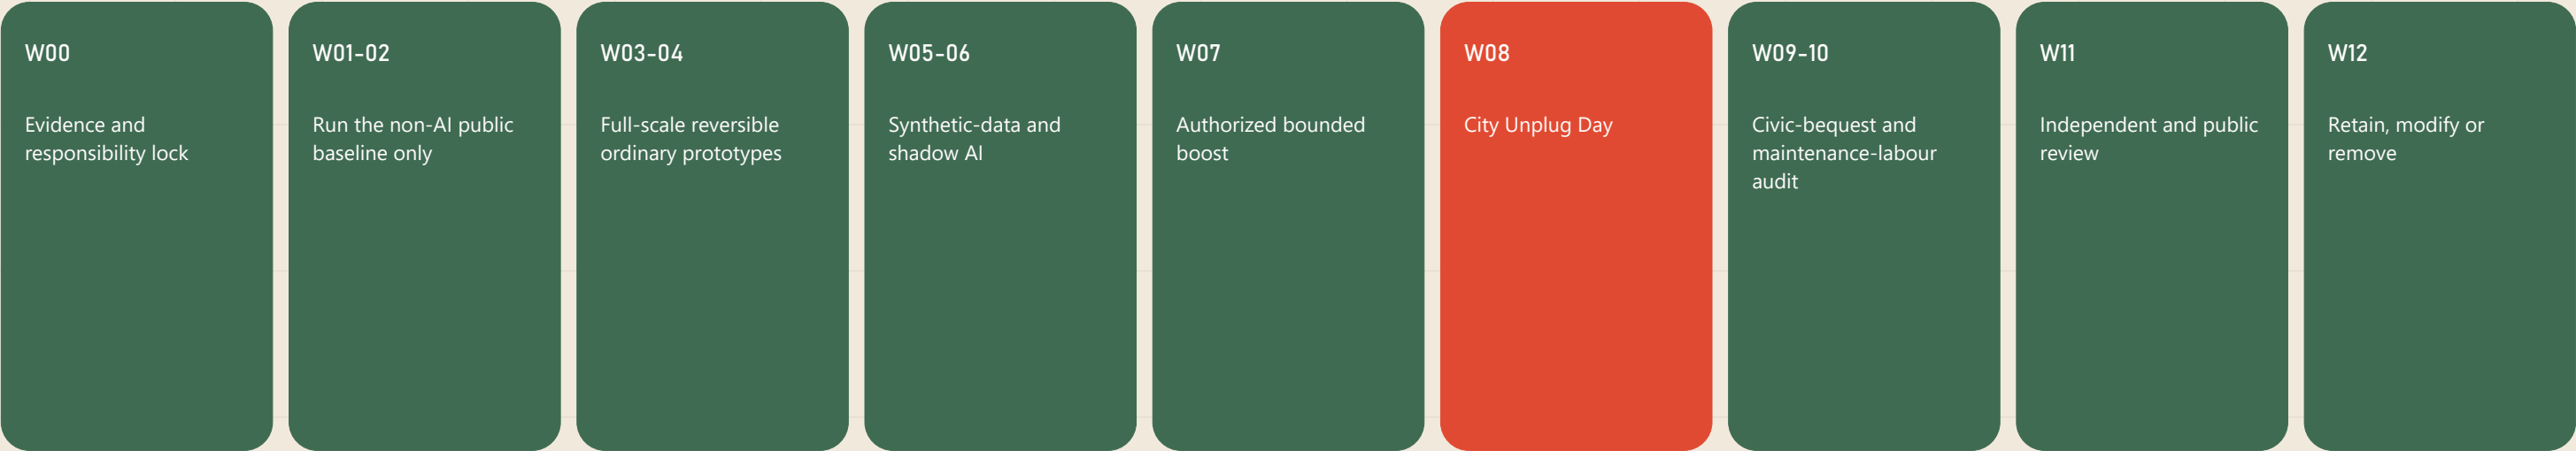

PROVISIONAL · NON-STATUTORY

ID	Scenario	BASE non-AI baseline	BEQUEST civic asset

Each contract also records named humans, permitted/prohibited data, spatial bounds, physical unplug, data deletion, recovery evidence and maintainer.

Week 8 is not an opening. It is City Unplug Day.

PROVISIONAL · NON-STATUTORY

$12 \times 7 = 84$

Sixty paths missing baseline, human, unplug or bequest, or containing prohibited data are blocked; twelve blackout paths enter bequest review.

field_performance = null

NO LEAP

- BASE cannot be skipped
- BLACKOUT is physical
- BEQUEST needs a maintainer
- operator cannot self-audit

The starter, stopper and auditor are not the same actor

PROVISIONAL · NON-STATUTORY

G0—G7

Project maturity: scope, disciplines, resources, operation, maintenance and exit responsibility.

C0—C7

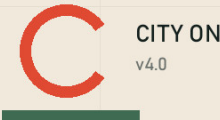

Scenario admission: public purpose, BASE, minimum data, human authority, BLACKOUT and BEQUEST.
