

JING-ZHANG DUAL PATH

Complete the same public service with AI on or off

JING-ZHANG DUAL PATH

Complete the same public service with AI on or off

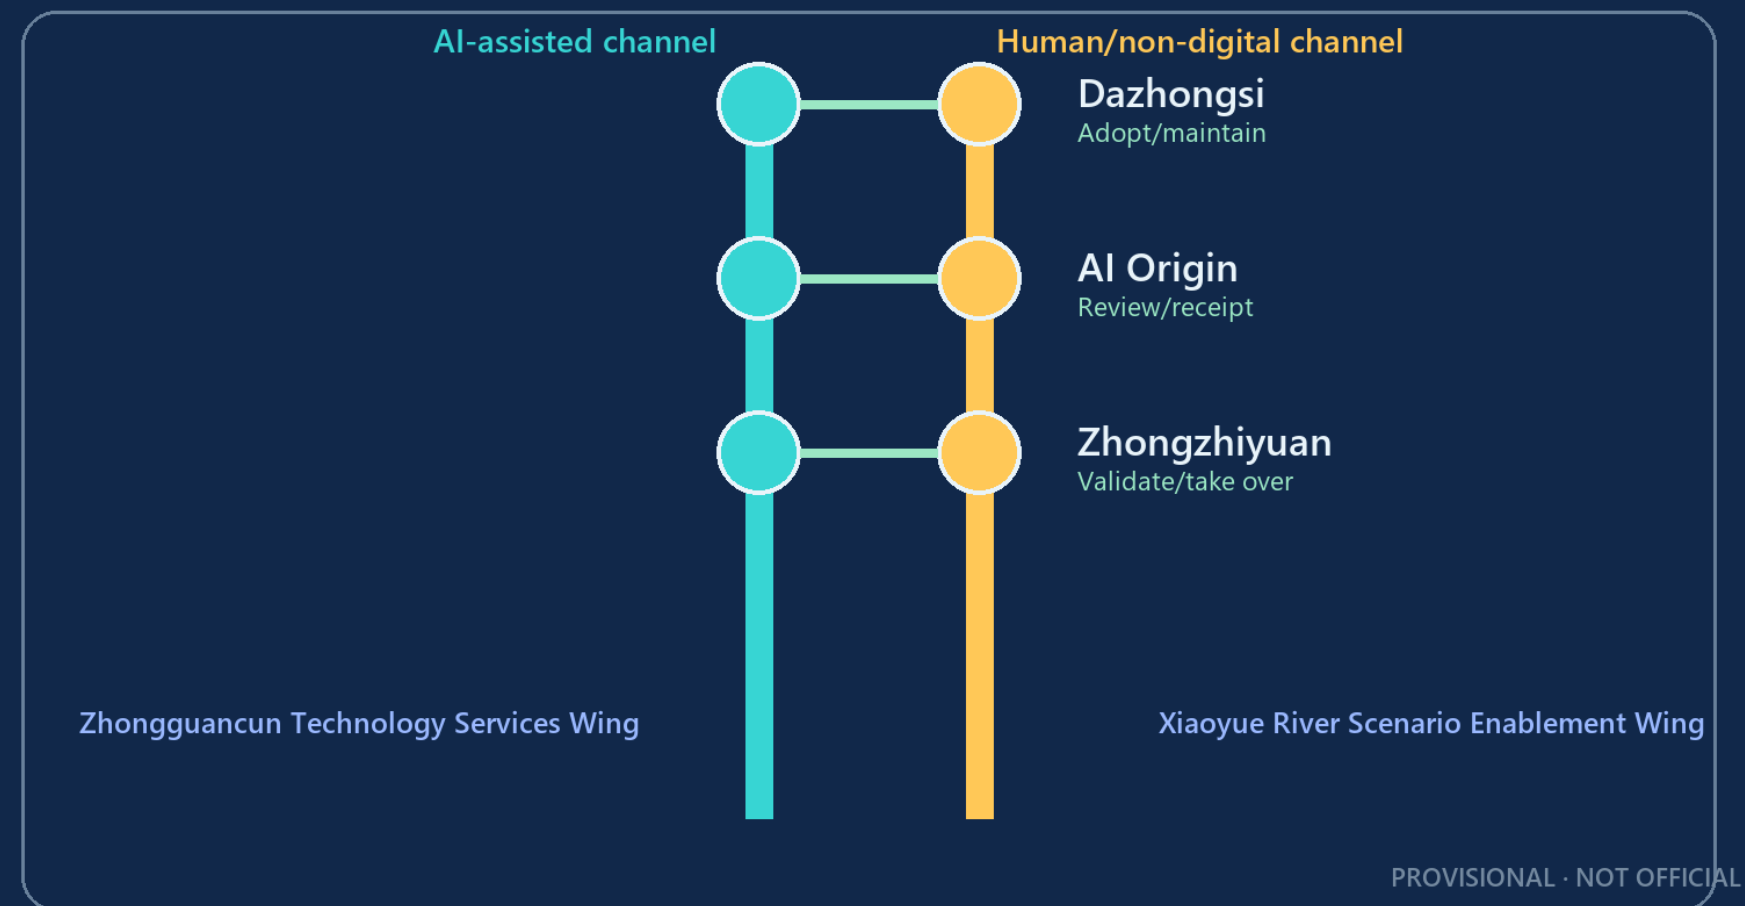

THREE-LEVEL SCOPE + CONCEPT

De-emphasize provisional limits; emphasize responsibility nodes

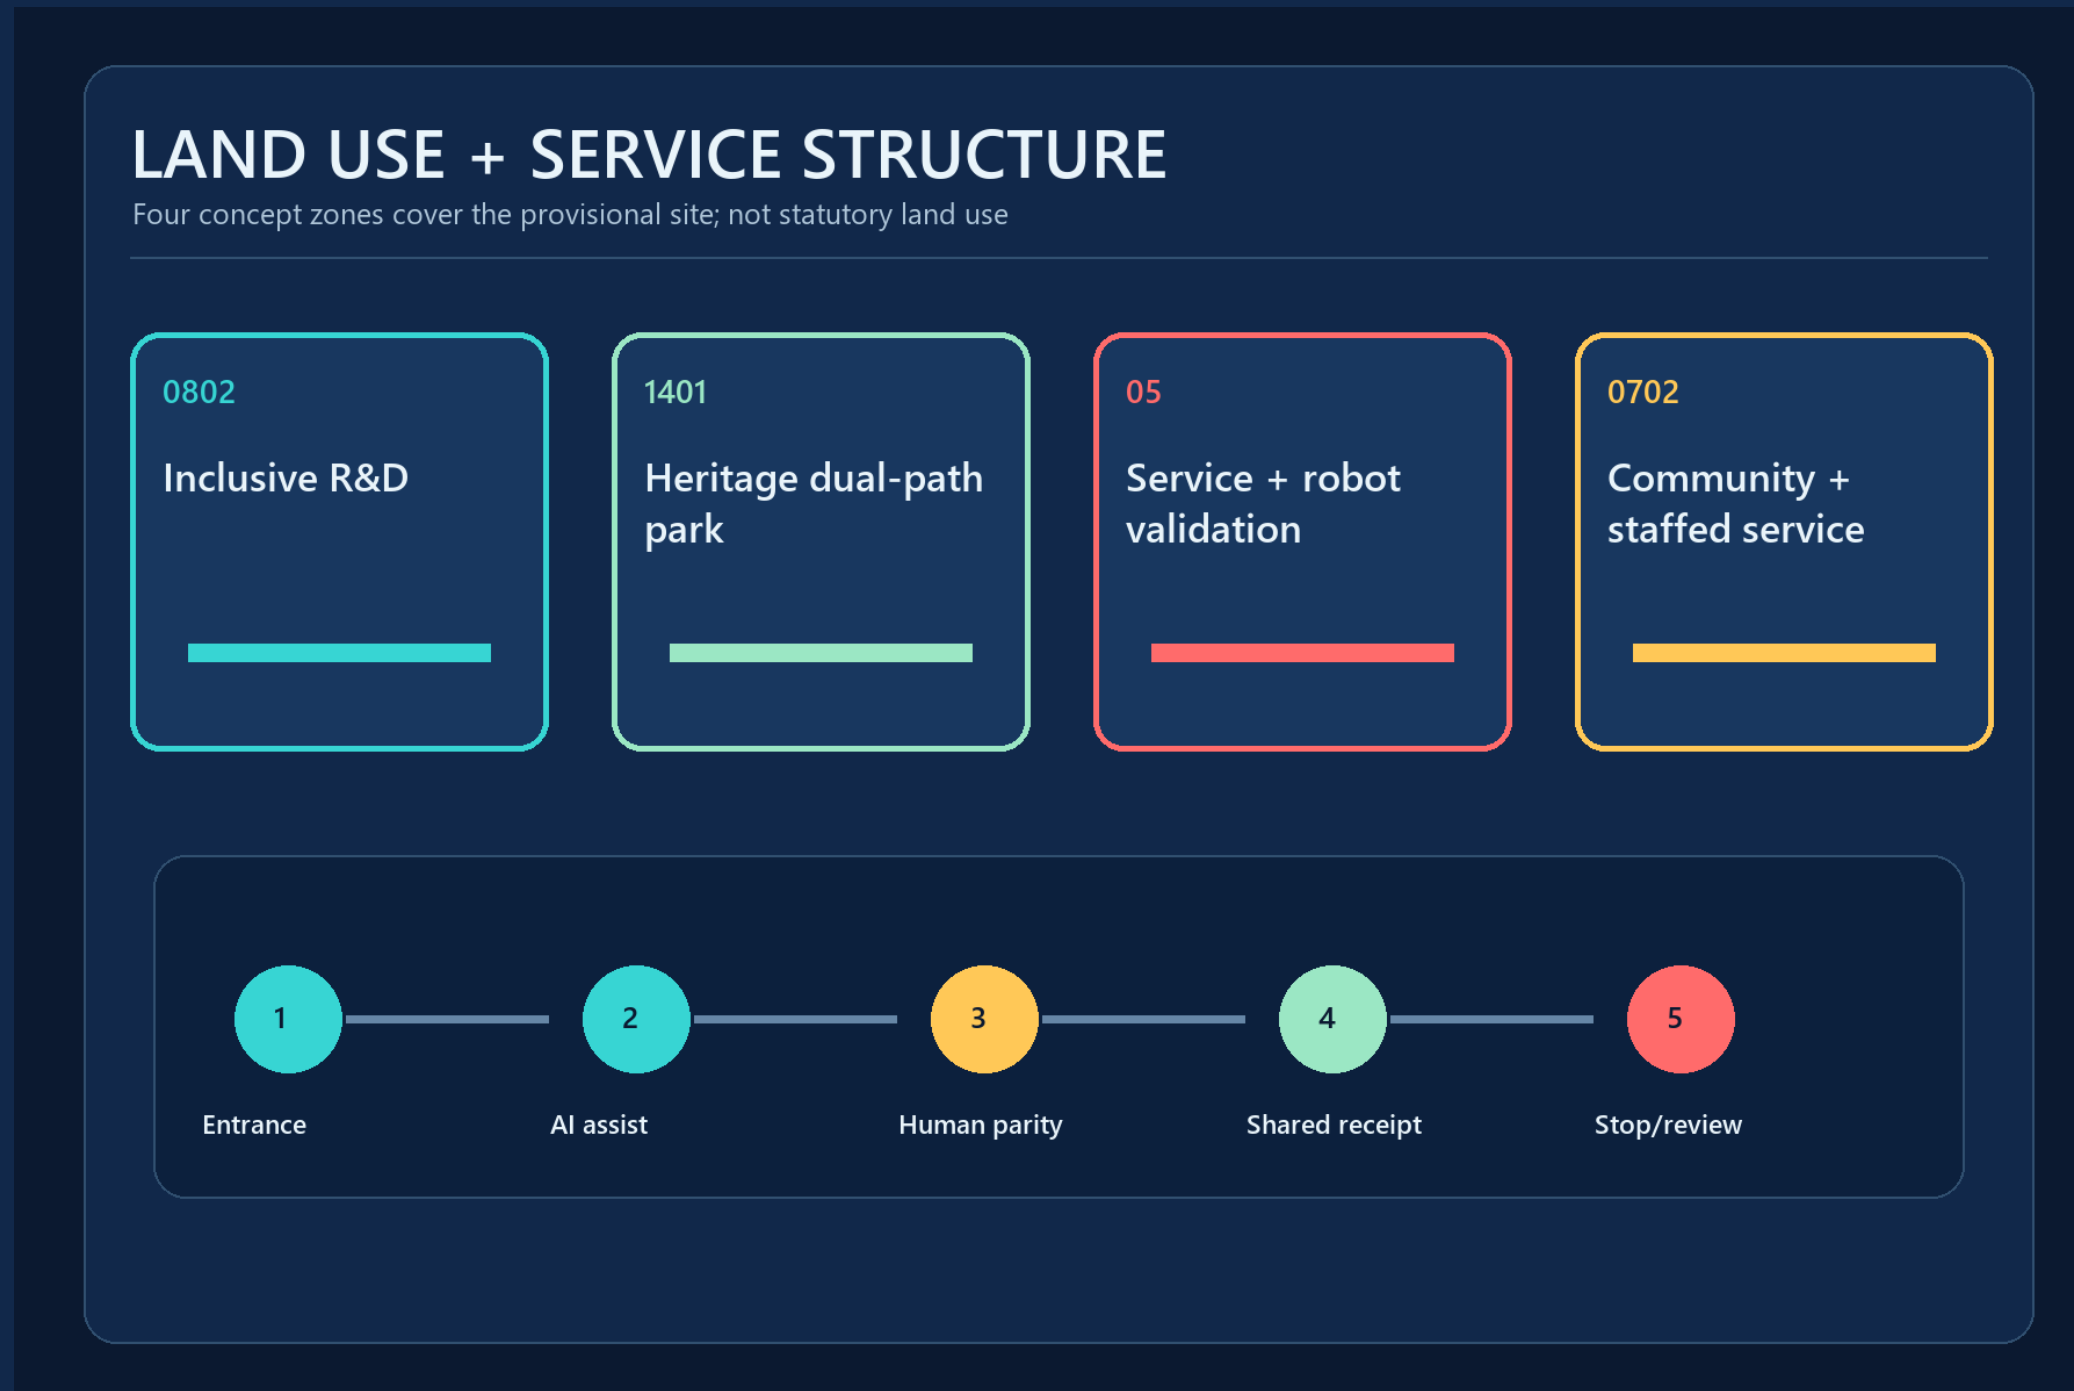

JING-ZHANG DUAL PATH

Complete the same public service with AI on or off

LAND USE + SERVICE STRUCTURE

Four concept zones cover the provisional overall area

THREE KEY AREAS

Zhongzhiyuan validates, AI Origin reviews, Dazhongsi exchanges

THREE KEY-AREA RESPONSIBILITY PROTOTYPES

Validate, review, exchange—each closes a different failure loop

Zhongzhiyuan

Dual Path Test Gate

- Visible boundary
- Takeover owner
- Recovery

AI Origin

Human Review Station

- Same task
- Same receipt
- Same escalation

Dazhongsi

Accessible Exchange Hall

- Four quadrants
- Transfer
- Repair review

MOBILITY + BLUE-GREEN

Shared space without one shared point of failure

MOBILITY + BLUE-GREEN CONTINUITY

Two channels share space without sharing one point of failure

AI-assisted: dynamic advice, never field authority

Human/non-digital: signs, tactile cues, staff, paper receipts

Blue-green commons: rest, yield, assemble, recover

TAKEOVER

TAKEOVER

TAKEOVER

Concept centerlines, not road redlines

METRICS + EVIDENCE

GeoJSON and metrics are authoritative; figures explain

METRICS + EVIDENCE CHAIN

Separate known inventory, concept quantities and missing inputs

FAR / density / road area / field performance: pending official data and authorization

Provisional site 11.413 km² · concept green 17.53% · concept public forecourts 0.88%

TEN SCENARIOS · FIVE PERSONAS · THREE RESPONSIBILITY LANDS

S01 Accessible wayfinding and human accompaniment | Tactile guidance, printed route cards and staff accompaniment

S02 Low-speed autonomous shuttle | Timetabled accessible minibus and on-site dispatcher

S03 Continuous wheelchair and vision-access audit | Scheduled checklist, phone reporting and physical protection

S04 Equivalent station transfer | Staff guidance, fixed accessible detour map and help points

S05 Dual-counter public service | On-site guidance, human handling and paper receipt

S06 Severe-weather and emergency evacuation | Public address, lights, staff and physical assembly points

S07 Multisensory Jing-Zhang heritage guide | Relief maps, braille, plain text and scheduled human tours

S08 Shared-path service robot trial | Human delivery and manual robot recovery

S09 Inclusive employment and training navigation | Advisor interview, telephone and printed course directory

S10 Public-space repair and review | Phone, paper log, service desk and public ticket number

No scenario was run in the field; pilots require authorization, baseline, co-design, takeover and stop rules.
