

JING-ZHANG COMMON GROUND

LET PEOPLE STAY. KEEP THE CITY CONNECTED. LET SYSTEMS ROLL BACK.

Centennial Jing-Zhang AI Innovation Belt Open Call | A3 Professional Design Booklet

43.6 km²

study framework

11.413 km²

provisional overall extent

3 / 12 / 14

key areas / AI scenarios / renewal projects

All geometry is low-confidence and provisional; this is not statutory planning, approval, displacement, or an investment commitment.

SITE OVERVIEW | A COMMON-GROUND SPATIAL CONTRACT

One commons · three civic courts · four safeguards · twelve everyday outcomes

THREE SCALES

43.6 km²

Study area | industry and future-city network

11.413 km²

Overall design | parametric concept geometry

3 / 368.4 ha

Three key areas | announced scale, boundaries pending

DESIGN JUDGMENT

- Secure right-to-remain, care, and daily services first
- Stitch three civic courts with walking and cycling
- Keep human and non-digital channels for every smart service
- Re-anchor and recompute when official data arrives

PROVISIONAL BOUNDARY WARNING: all extents and key areas are low-confidence concept geometry, not official redlines, precise-area, approval, or investment evidence.

Sources: geometry/site_boundary.geojson; geometry/key_areas.geojson; geometry/green_space.geojson; metrics.json

EVIDENCE STATUS

43.6 km²

announced study scale

11.413 km²

EPSG:4548 provisional recomputation

3 / 368.4 ha

key-area names and announced total

- Each scale carries a different decision task; the same map is not merely enlarged.
- Issues #846 and #1029 act as re-anchoring triggers.

LAND-USE STRUCTURE | COMPLETE, RECOMPUTABLE, NON-STATUTORY

Nine parametric units share cut lines; their union equals the provisional site

CONCEPT LEGEND

- 0701 Right-to-remain housing
- 0702 Care/community
- 0802 AI R&D
- 08 Public service
- 1401 Climate commons
- 05 Productive commerce
- 0803 Culture/memory
- 1207 Adaptable streets
- 16 Evidence reserve

TOPOLOGY STATUS

- 9 concept land-use units
- 0.0 m² recorded balance error
- EPSG:4548 area recomputation CRS

STRUCTURE METRICS

9 concept land-use units

0.0 m² recorded topology balance error

15.207% provisional climate-commons ratio

- Land-use polygons completely cover the provisional site without gaps or overlaps.
- Nine units test relationships; they are not approved zoning.

PROVISIONAL BOUNDARY WARNING: all extents and key areas are low-confidence concept geometry, not official redlines, precise-area, approval, or investment evidence.

Sources: geometry/land_use.geojson; geometry/site_boundary.geojson; metrics.json. Codes are concept labels, not approved statutory controls.

KEY AREAS | CIVIC COURTS + PROTOTYPE ENVELOPES

Four candidate envelopes per area; retain-first, without existing/approved-building claims

THREE DISTINCT ROLES

1 Zhongzhiyuan

Visible R&D-test-maintenance chain

Civic landmark: Open-source test depot

2 AI Origin

Learning, care, affordable innovation

Civic landmark: Century-and-tomorrow archive court

3 Dazhongsi

Enterprise, mobility interface, culture

Civic landmark: Common protocol hall

12 envelopes test capacity and adaptability only

PROVISIONAL BOUNDARY WARNING: all extents and key areas are low-confidence concept geometry, not official redlines, precise-area, approval, or investment evidence.

Sources: geometry/key_areas.geojson; geometry/buildings.geojson; geometry/public_space.geojson; proposal.md

KEY-AREA LOGIC

N

R&D-test-maintenance

C

learning-care-affordable innovation

S

enterprise-mobility-culture

- Four candidate prototype envelopes per area, twelve in total.
- Retain first; no demolition/build claim without survey, rights, and professional review.

MOBILITY + BLUE-GREEN PUBLIC SPACE | KEEP THE CITY CONNECTED

Continuous walking/cycling, eight stitches, three key-area links, nine care-rest nodes

NETWORK COMPONENTS

- 13 concept mobility features
- 8 transverse stitches
- 3 key-area concept links
- 9 care-rest nodes
- 3 civic courts

PRIORITY ORDER

- 01 Continuity for the most vulnerable user
- 02 Transit and barrier-crossing access
- 03 Emergency, delivery, and maintenance
- 04 General vehicle efficiency

NETWORK

13 concept mobility features

8 + 3 stitches + key-area links

9 + 3 care-rest nodes + civic courts

- Mobility lines are normalized connection syntax, not existing roads or stations.
- Conventional infrastructure keeps manual operation; digital layers can be switched off, exported, and retired.

PROVISIONAL BOUNDARY WARNING: all extents and key areas are low-confidence concept geometry, not official redlines, precise-area, approval, or investment evidence.

Sources: geometry/roads.geojson; geometry/green_space.geojson; geometry/public_space.geojson. Lines are normalized concepts, not surveyed roads or stations.

TASKBOOK RESPONSE

8

resident, worker, disabled-user, researcher, and other personas

12 / 3

AI scenarios / industry tests

3

civic-institution pilgrimage landmarks

6 / 6

agent open-call tasks mapped

01

Eight personas test benefits and burdens; they are not marketing segments.

02

Every scenario requires human review, appeal, a non-AI alternative, and stop conditions.

FOUR IMPLEMENTATION GATES

METRICS EVIDENCE CHAIN | WHAT IS KNOWN, AND WHAT IS NOT

GeoJSON -> EPSG:4548 recomputation -> metrics.json -> figures / HTML / PDF

11.413 km²

provisional site recomputation

15.21%

climate-commons ratio

3.45%

public-space ratio

9 / 13 / 12

land units / mobility / prototypes

12 + 3

AI scenarios / industry tests

14 / 4

renewal projects / phase gates

KNOWN

task names, announced scales, count requirements

43.6 km² • 3 key areas • 23 tasks

CALCULATED PROVISIONAL

computed from low-confidence geometry; expires on replacement

EPSG:4548 • topology • ratios

TARGET PENDING

set after participation, policy, and professional comparison

access • affordability • response

UNKNOWN

FAR, height, population, rents, ridership, utility capacity

no false precision

PROVISIONAL BOUNDARY WARNING: all extents and key areas are low-confidence concept geometry, not official redlines, precise-area, approval, or investment evidence.

Sources: metrics.json; geometry/*.geojson; assumptions.json; compliance_matrix.json; self_check.json

AUDIT SUMMARY

23 / 23

announcement and agent tasks mapped

12 / 12

current self-check items pass

17

explicit assumptions and data gaps

- All 23 tasks have evidence mappings; mapping completeness is not approval.
- FAR, height, population, rents, ridership, and utility capacity remain unknown.
