

OPEN BAYS JING-ZHANG: AI AT THE URBAN GROUND FLOOR

1 SPINE · 6 CROSS-BAYS · 12 OPEN BAYS

Each bay combines a walk-through public path, a staffed desk, a reversible AI test cell and a visible evidence rail. The three key areas become halls for testing, co-learning and public adoption.

 OPEN BAY ZERO / AI ORIGIN

 CENTENNIAL OPEN GATE / ZHONGZHIYUAN

 CIVIC INTERFACE HALL / DAZHONGSI

PROVISIONAL ENVELOPE · NOT AN OFFICIAL REDLINE · RECALCULATE

THE URBAN GROUND FLOOR: FROM ENCLOSURES TO OPEN THRESHOLDS

THE FOUR-LAYER BAY CONTRACT

- 01 PASSAGE
All-day step-free public route
- 02 PEOPLE
Named operator and staffed desk
- 03 REVERSIBLE
Closable, replaceable AI test cell
- 04 EVIDENCE
Visible purpose, data, owner and exit

Design allocation only; not a statutory land-use plan.

THREE HALLS: TESTING, CO-LEARNING, PUBLIC ADOPTION

01

ZHONGZHIYUAN / CENTENNIAL OPEN GATE

CONTROLLED INDUSTRY TESTING

Interoperability bench, embodied-robot threshold lab, safety review and a low-carbon Qinghe edge.

02

AI ORIGIN / OPEN BAY ZERO

NEAR-CAMPUS CO-LEARNING

Open-source translation clinic, project launches, talent services and a 24-hour learning commons.

03

DAZHONGSI / CIVIC INTERFACE HALL

EVERYDAY ADOPTION

Station links, accessible-terminal tests, neighborhood services, tools for small shops and international demos.

04 / MOBILITY + BLUE-GREEN

OPEN BAYS / 2026

WALKING, BLUE-GREEN SPACE AND HUMAN SERVICE AS ONE PUBLIC SPINE

FIVE DESIGN MOVES

- 01 CONTINUOUS
Jing-Zhang park walking spine
- 02 CROSS
Six step-free east-west bays
- 03 PAUSE
Twelve staffed service and rest nodes
- 04 TRANSFER
Station directions, no invented station works
- 05 CLOSED LOOP
Minimal data, human handoff, stoppable

Conceptual links, not road redlines.

PHASE 1

100 days–1 year: three light halls, four priority bays, operating and safety tickets.

PHASE 2

2–3 years: accessibility, crossing and ground-floor repair along six cross-bays.

PHASE 3

Under official controls and ownership, coordinate blue-green, ground-floor, utility and long-term operations.

All works, scale and timing require official geometry, controls, ownership and professional confirmation.

PROVISIONAL GEOMETRY

Not official redlines; regenerate the full package with official data.

PROFESSIONAL GATES

Buildings, ownership, controls, roads, utilities, fire, flood and heritage remain pending.

PUBLIC AI

Minimum data, human fallback, bounded tests, emergency stop, complaints and public results.

NO SUBSTITUTION

No replacement of planning approval, medical diagnosis, legal advice, emergency command or professional review.
