

01 Site Overview

Jingzhang Neural Spine

Overall Design Area: 11.4 km2

Research Area: 43.6 km2

Key Areas: 368.4 ha

Park Axis: 9 km

Land Use Zones: 18

Concept Buildings: 106

02 Land Use Structure

18 Zones - Full Topological Coverage

AI R&D: 28% (319 ha)
Commercial: 22% (251 ha)
Green Space: 19% (217 ha)
Education: 10% (114 ha)
Culture: 9% (103 ha)
Residential: 8% (91 ha)
Roads: 4% (46 ha)

03 Three Key Areas

Zhongzhiyuan / AI Origin / Dazhongsi

- Zhongzhiyuan AI Acceleration (192.1 ha):
 - Full-stack autonomy, computing, testing platforms
- Beijing AI Origin Community (104.3 ha):
 - Near-campus transformation, open source, talent
- Dazhongsi AI Industry Cluster (72.0 ha):
 - HQ economy, AI-native consumption, intl exchange

04 Mobility & Blue-Green Network

One Spine / Two Loops / Twelve Scenes

N-S Corridors: Park Greenway + Xueyuan Rd + Zhongguancun E Rd

E-W: N5th Ring, Qinghua E Rd, Zhichun Rd, N3rd Ring, Xizhimen Outer St

Green: Jingzhang Park 70ha + Qinghe/Xiaoyuehe + 5 Node Parks

Public: 8 Plazas along the 9km park

05 AI Scenarios & Landmarks

12 Scenario Cards / 3 Pilgrimage Landmarks / 5 Personas

Landmarks:

- 1. Neural Spine Light - Contributor Honor Wall (rail-mounted)
- 2. Open Source Staircase - Public square with OSS timeline
- 3. Zhan Tianyou-Turing Dialogue - Dual installation

Scenarios: AI+Medical, Education, Commerce, Transport,
Culture, Legal, Governance, Environment, Energy,
Robotics, Film, Fintech

06 Implementation Phasing

2026-2035 / Three Phases

Phase 1 (2026-2028): 8 projects - Quick Wins

- AI installations, XR experience, Honor Wall v1,
- Autonomous shuttle pilot, Dazhongsi pioneer zone

Phase 2 (2029-2032): 15 projects - System Build

- Zhongzhiyuan R&D, university joint labs, TOD

Phase 3 (2033-2035): 20+ projects - Full Operation

- Computing expansion, heat recovery, talent housing
