

CENTENNIAL JINGZHANG AI INNOVATION BELT

JINGZHANG LEDGER LINE

A civic AI belt that can be verified, taken over, and restored

1 LINE

3 STATIONS

12 SCENES

6 GATES

Open-source urban design submission · shgdym · 2026

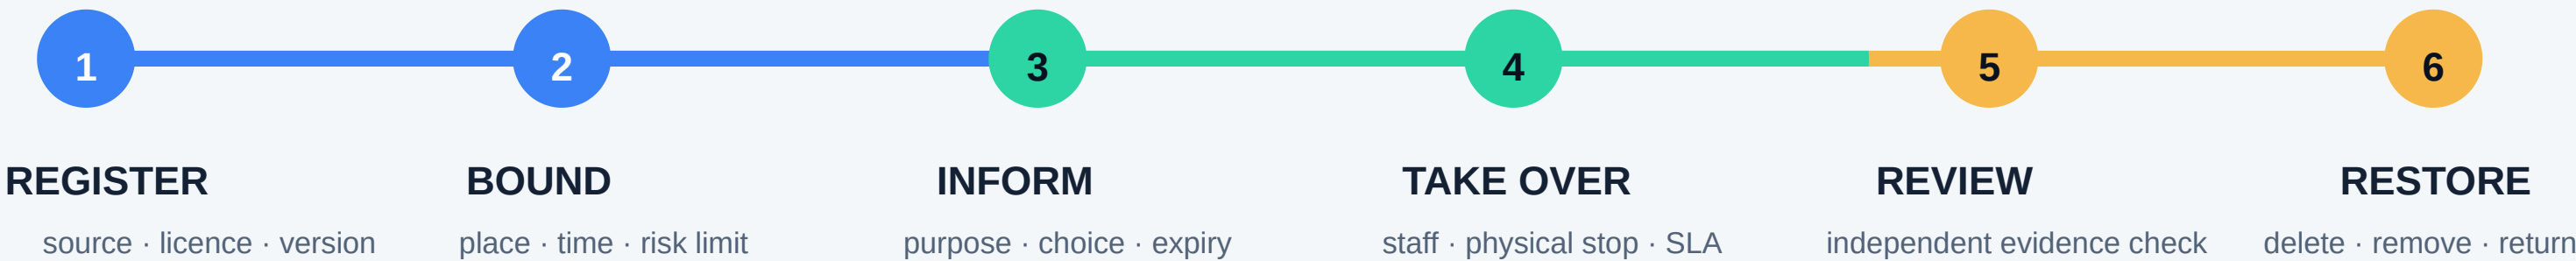

All spatial geometry is provisional and must be recalculated after official data release.

From railway proof to civic AI proof

AI enters the city through six visible gates.

Each gate has an accountable actor, evidence threshold, human takeover and restorative exit.

THE SPATIAL CONTRACT

The equipment may leave. Civic life must remain complete.

Rail traces, shade, walking, rain gardens, staffed service and non-digital access form the permanent public layer.

AERIAL DESIGN KEY | FIVE REVIEWABLE SPATIAL MOVES

The image communicates intent; the index points back to concept layers and exit rules

PROVISIONAL GEOMETRY · NOT A STATUTORY PLAN

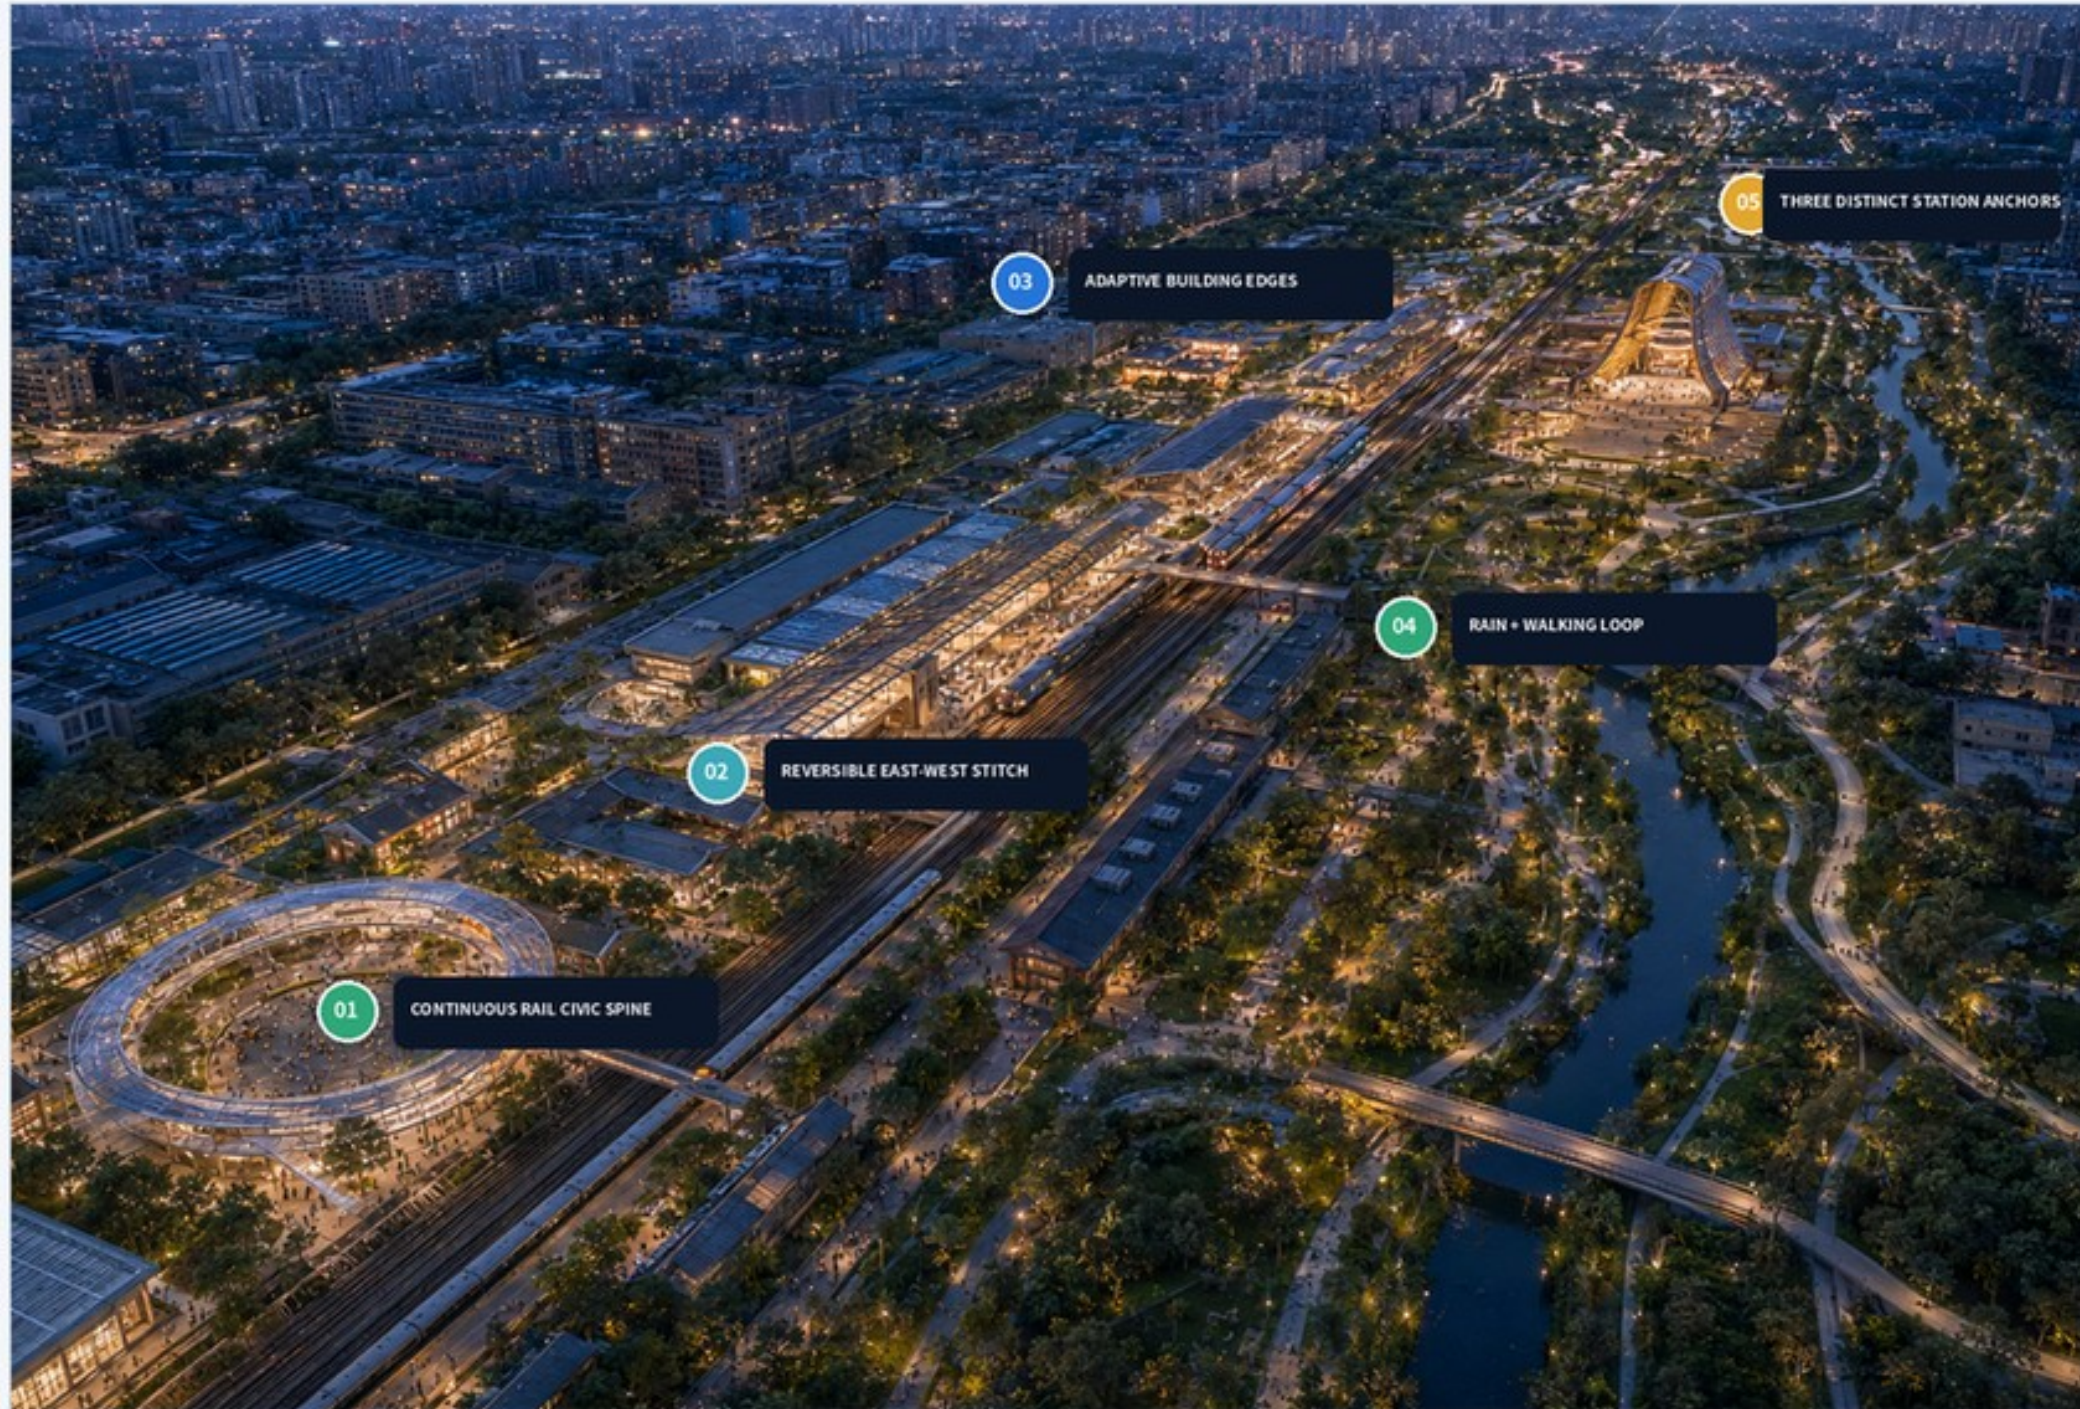

IMAGE-TO-LAYER CROSSWALK

- 01 roads.geojson
spine remains walkable after equipment exits

- 02 roads.geojson
ten stitches start with walking and access audit

- 03 buildings.geojson
retain/update/light-add are concept interfaces

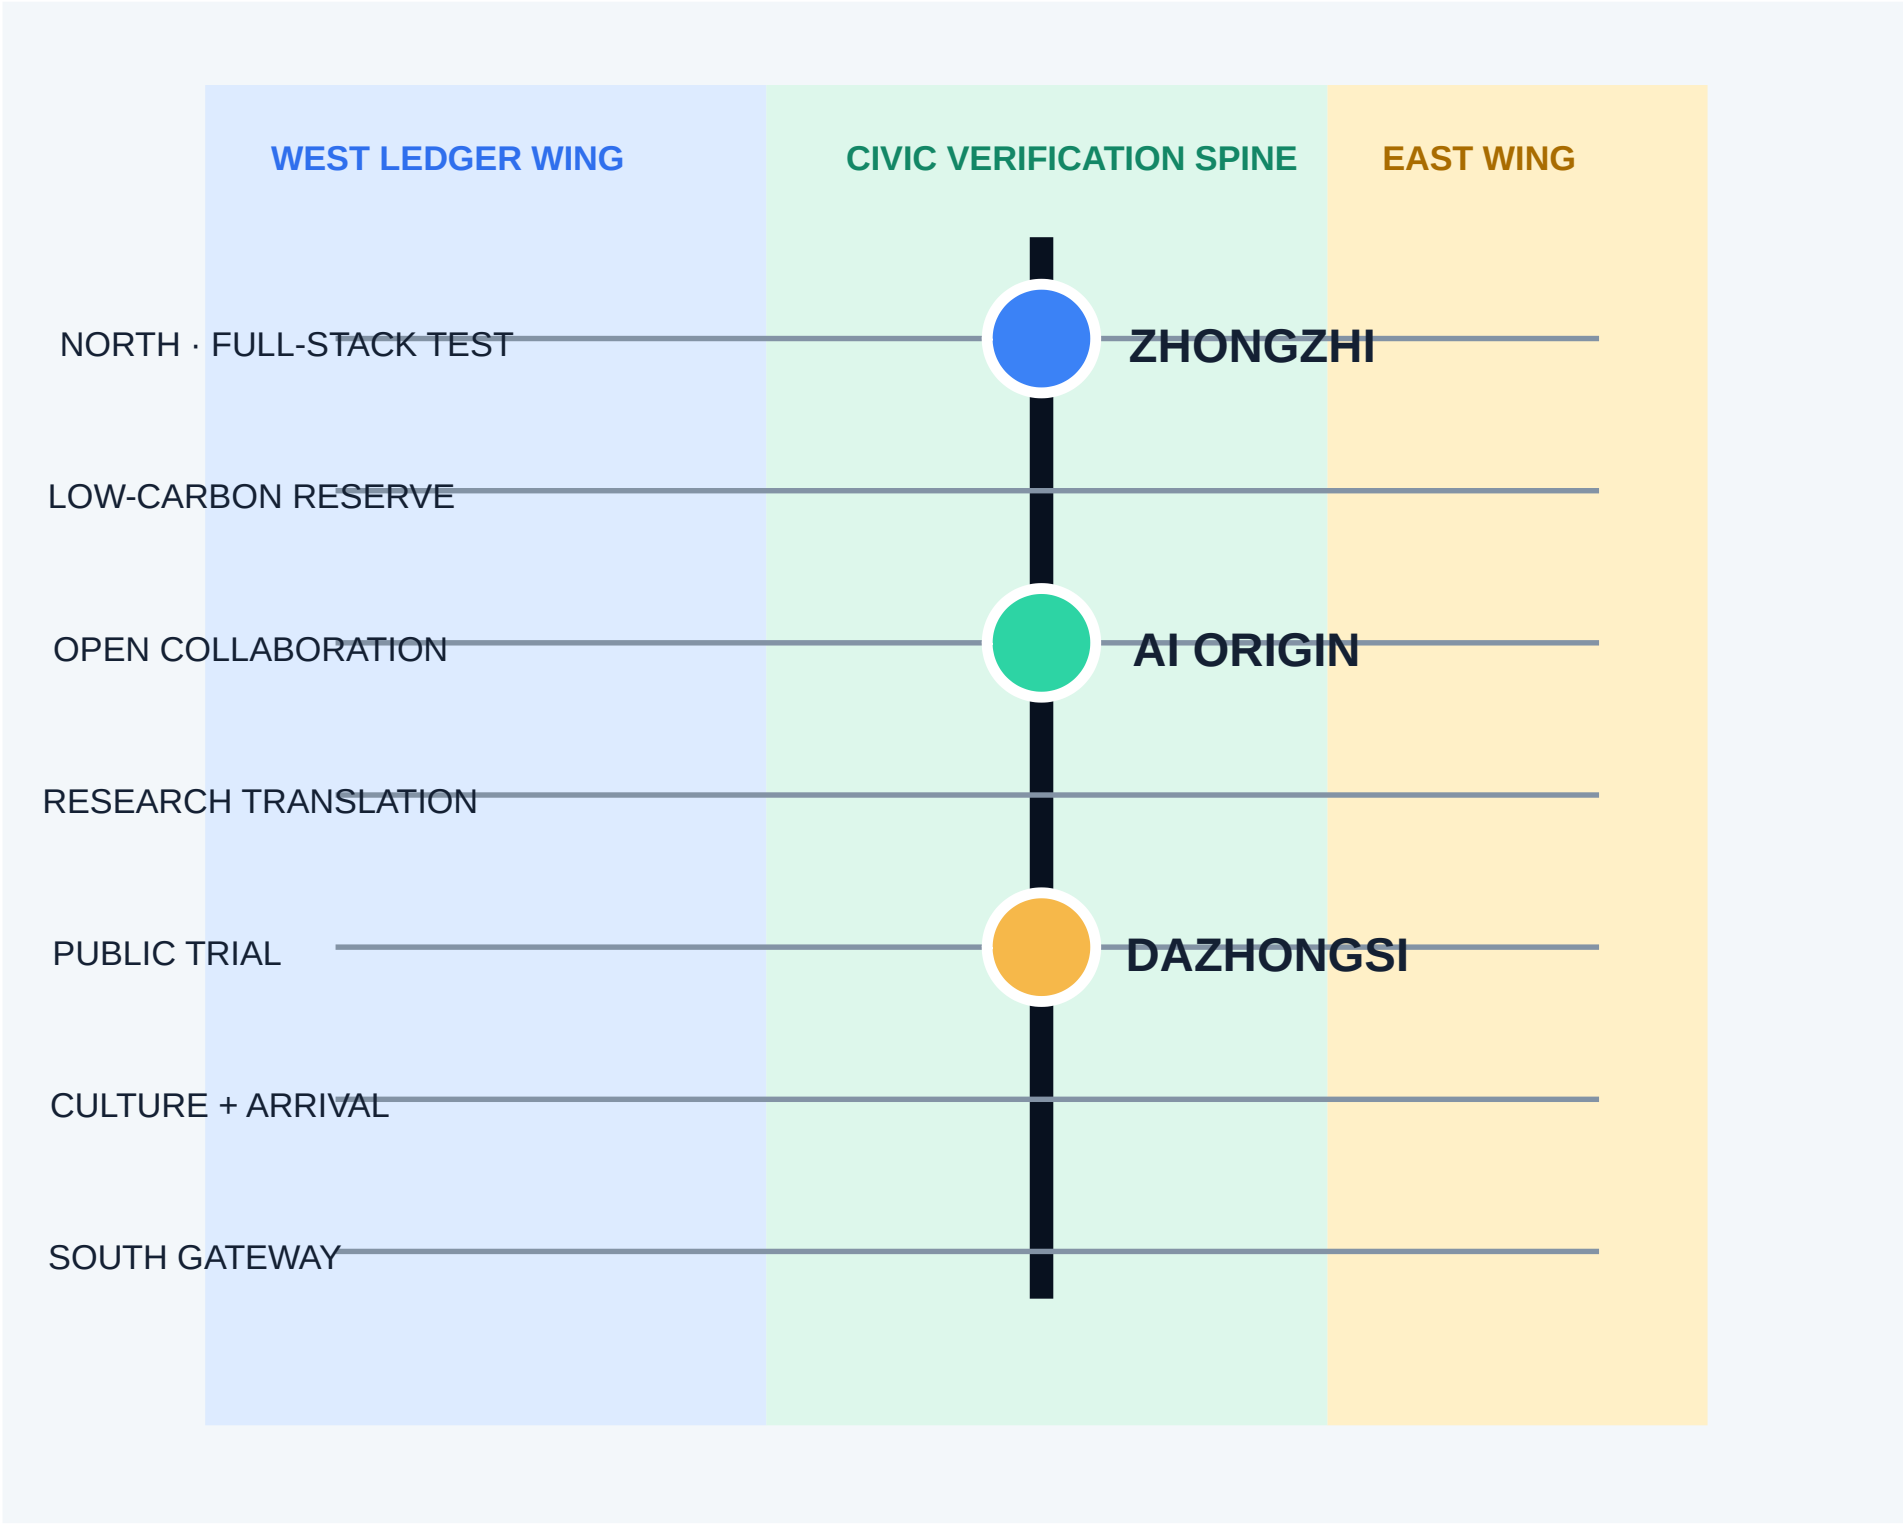

- 04 green_space.geojson
no delivery claim before flood/tree/utility review

- 05 public_space.geojson
test, translation and trial carry distinct duties

The aerial is not masterplan evidence; GeoJSON, metrics and the station atlas govern spatial claims.

One line, three stations, two ledger wings

Seven north-south bands organise fourteen concept cells; ten east-west stitches reconnect both sides.

RECOMPUTABLE FRAME

14 concept land-use cells
10 east-west stitches

12 AI+ scenes with stop logic readiness gates
03

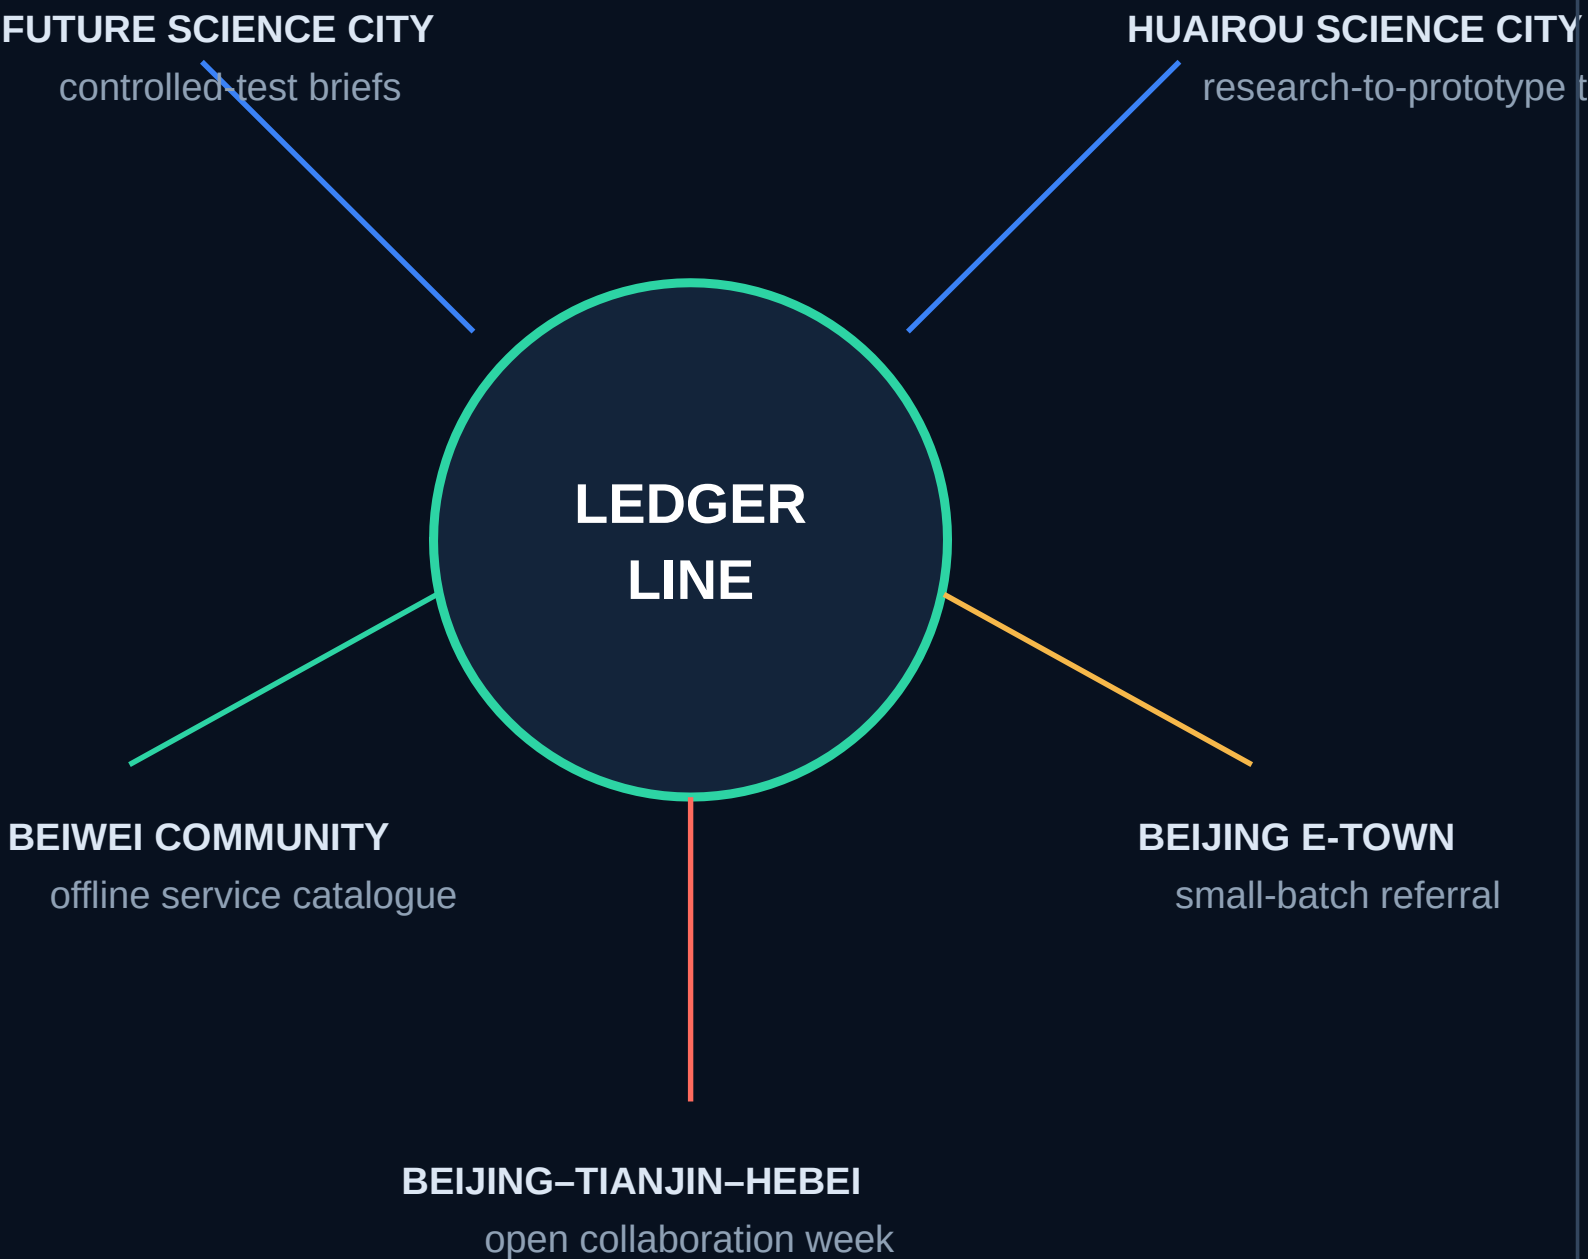

PROVISIONAL BY DESIGN

No official polygon, FAR, height, road redline or ownership claim.

Official data triggers a full-chain rebuild.

Regional interfaces, global mechanisms

Cases transfer operating mechanisms, never imported urban form or performance promises.

8 PRIMARY CASES → 7 LOCAL SAFEGUARDS

CAMBRIDGE · HELSINKI

commercialisation front door · bounded city testing

DECIDIM · AI VERIFY

hybrid participation · neutral assurance sandbox

SEOUL · KNOWLEDGE QUARTER

public experience · cross-institution exchange

BARCELONA 22@ · TORONTO

mixed renewal · resilient long-horizon phasing

LOCAL TRANSLATION

reversible space · accountable scenes · exit reserve
tiered data · energy gates · developer governance

One protocol, three spatial identities

The station is not a logo on a generic plaza; each place performs a different civic verification role.

01 · ZHONGZHI PARK

CONTROLLED TEST

red team · embodied AI · physical stop

02 · AI ORIGIN

OPEN TRANSLATION

rights disclosure · release · public problem table

03 · DAZHONGSI

INFORMED TRIAL

arrival · device trial · non-AI channel

HIGHER-RISK TECHNOLOGY

RIGHTS + EVIDENCE

PUBLIC CHOICE

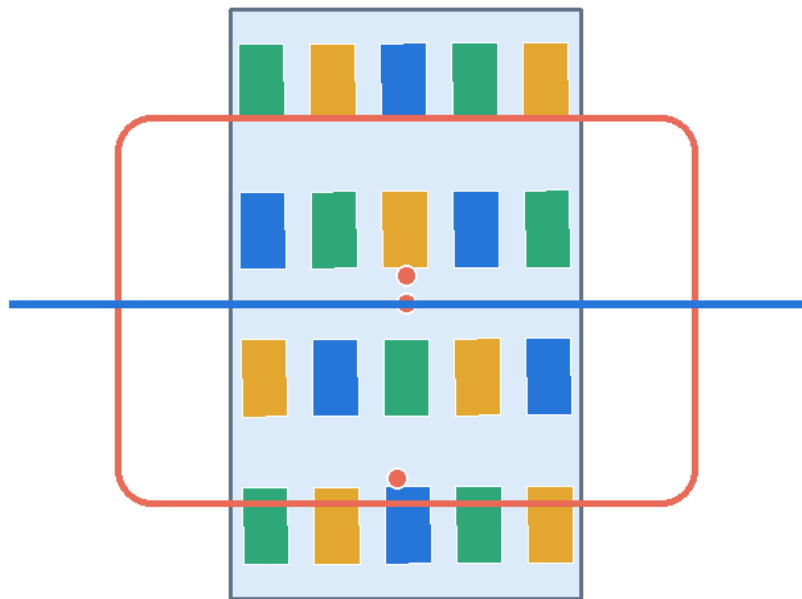

THREE-STATION DESIGN ATLAS | PLAN, SECTION, OPERATION, RESTORE

One verification protocol, three distinct prototypes; dimensions and alignments await official base data

PROVISIONAL GEOMETRY · NOT A STATUTORY PLAN

01 ZHONGZHI

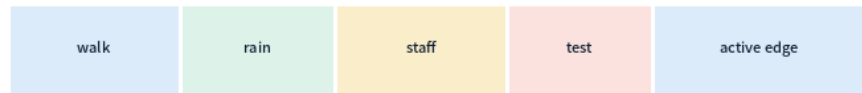

CONTROLLED TEST COURT

SPATIAL PROGRAM

- red-team garden
- embodied field
- physical stop

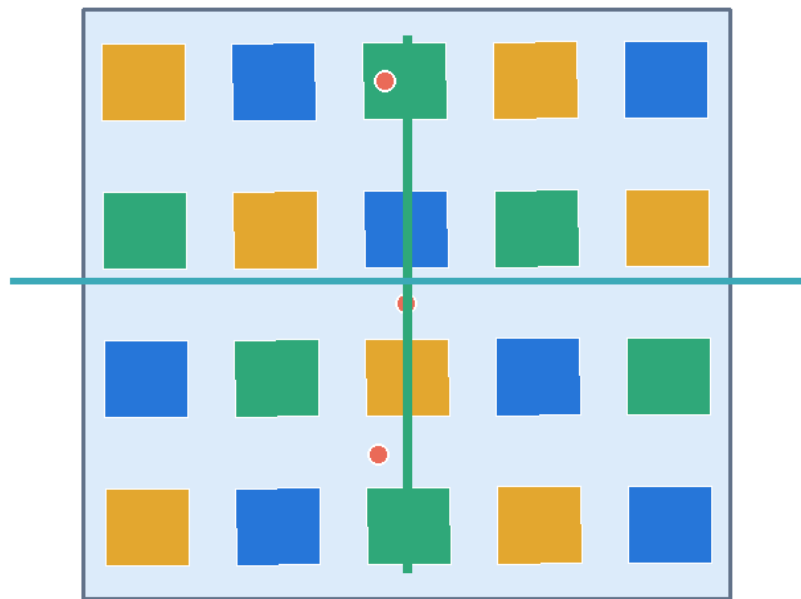

CIVIC SECTION

incident → stop → freeze → remove → civic court

02 AI ORIGIN

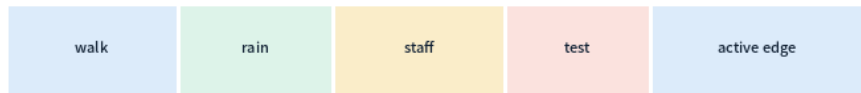

OPEN TRANSLATION BLOCK

SPATIAL PROGRAM

- disclosure desk
- talent court
- rights salon

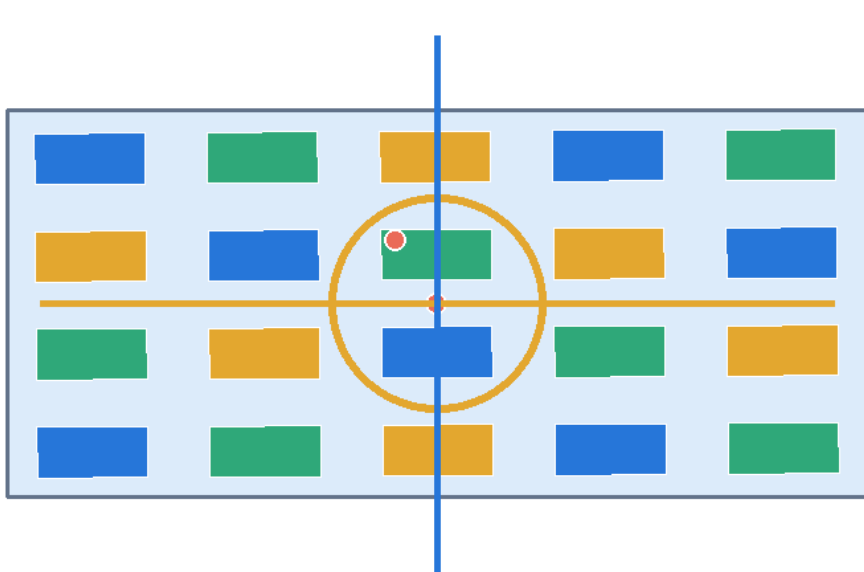

CIVIC SECTION

dispute → withdraw → archive → remove honour display

03 DAZHONGSI

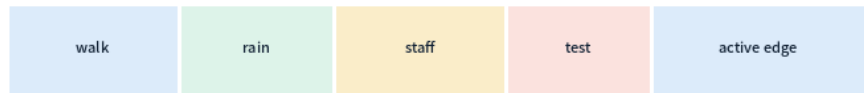

URBAN TRIAL INTERFACE

SPATIAL PROGRAM

- arrival hall
- bounded trial street
- non-AI route

CIVIC SECTION

decline trial → staffed service → complete non-AI route

ZHONGZHI · CONTROLLED VERIFICATION COURT

TEST WITHOUT CAPTURING

Low-speed field · staffed boundary · emergency stop

Exit: remove equipment, freeze data, restore ordinary use

PUBLIC FLOOR AFTER THE PILOT

shade · walking · rain garden · community use

AI ORIGIN · OPEN-SOURCE TRANSLATION BLOCK

RELEASE WITH RIGHTS VISIBLE

Disclosure desk · collaboration ground floor · talent court

Exit: withdraw disputed work and remove honour display

OPEN CONTRIBUTION AFTER THE EVENT

public tables · active edges · quiet residential boundary

TRY IT. QUESTION IT. CHOOSE THE NON-AI ROUTE.

SPATIAL PROTOTYPE

Transit arrival hall

clear notice before trial

Device trial street

limited time, speed and data

Staffed rights salon

appeal, assistance, offline service

HARD BOUNDARY

Trial ≠ purchase

Display ≠ certification

AI Event Week | Blue-Green Mobility Concept

From everyday mobility to global AI event week: safe, explainable, reversible public route

Spatial Anchor

Each AI scenario is tied to a public place and reviewable layer.

Human Review

Services keep human oversight, explanation, and exit paths visible.

Provisional Data

Official geometry will trigger full recalculation.

1 line
public verification

3 stations
focus districts

open data
recalculation

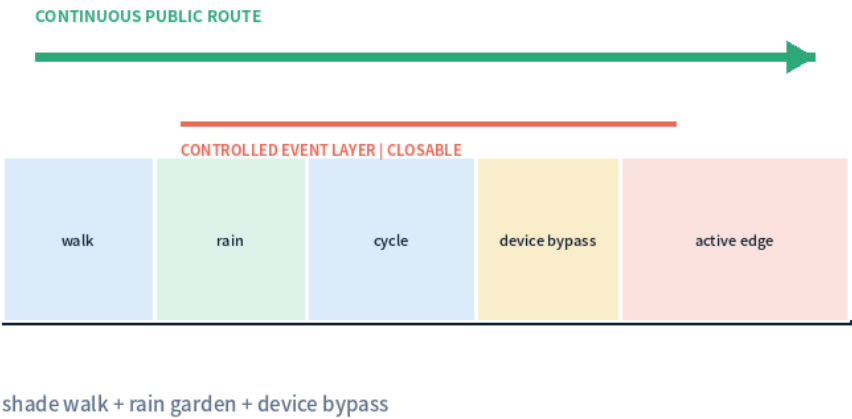

Concept rendering only. Official boundaries, metrics, task coverage and review status remain in package data files.

SECTIONS + CONTINUITY | WALK, REST AND DECLINE FIRST

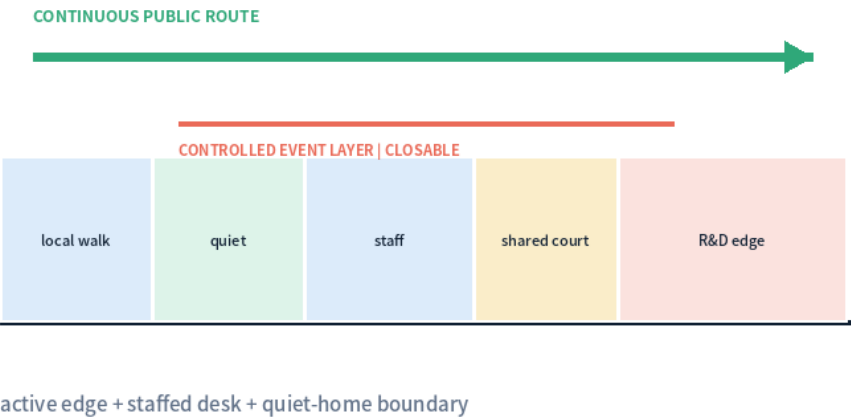

Three stitch prototypes and one accessible continuity chain; no invented road redlines or engineering dimensions

PROVISIONAL GEOMETRY · NOT A STATUTORY PLAN

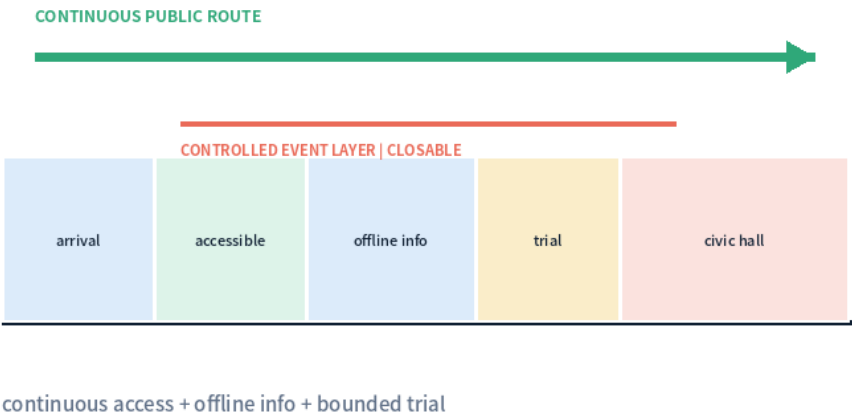

01 WATERSIDE WALKING STITCH

02 CAMPUS-COMMUNITY GROUND FLOOR

03 TRANSIT-ARRIVAL STITCH

CONTINUITY ACCEPTANCE CHAIN

AI is never the accountable actor

Four industrial validation scenes anchor the ecosystem; every scene names operator, data boundary, takeover and exit.

INDUSTRY TEST · 01

MODEL ASSURANCE

red team · version · risk log

STOP severe incident / no reproduction

INDUSTRY TEST · 02

EDGE ENERGY BENCH

power · heat · anonymous load

STOP heat / noise / uncertain supply

INDUSTRY TEST · 03

EMBODIED AI FIELD

telemetry · physical stop <5 sec

STOP breach / collision / complaint

INDUSTRY TEST · 04

INTEROPERABILITY

interface version · third-party test

STOP failed rounds / lock-in risk

05

**OPEN-SOURCE
RELEASE HALL**

rights check

06

**DATA RIGHTS
SALON**

human ruling

07

**ACCESSIBLE
ROUTE STATION**

field audit

08

no tracking

12

**GLOBAL OPEN
WEEK**

cancel if unsafe

COMMON OPERATING FLOOR

ACCOUNTABLE OPERATOR+ PROFESSIONAL APPROVAL + PUBLIC NOTICE + EXIT DRILL

Data minimisation · expiry · deletion · appeal · human takeover · spatial restoration

An open node, not a seal of approval

- TRACK** direction + heritage
- LEDGER** version + evidence
- OPEN NODE** challenge + exit

No enterprise endorsement.
No permanent advertising.

Eight components form the civic floor

- 01

SOURCE SIGN

purpose, owner, expiry
- 02

TEST SIGN

boundary, risk, stop
- 03

STAFFED DESK

human help and appeal
- 04

OFFLINE PANEL

paper and non-AI route
- 05

MOVABLE SEAT

rest and observation
- 06

LOW-GLARE LIGHT

night safety without glare
- 07

SENSOR PLINTH

rain garden, no tracking
- 08

TACTILE MAP

continuous accessible route

EQUITY GATES

100% non-digital service · 100% high-risk takeover coverage

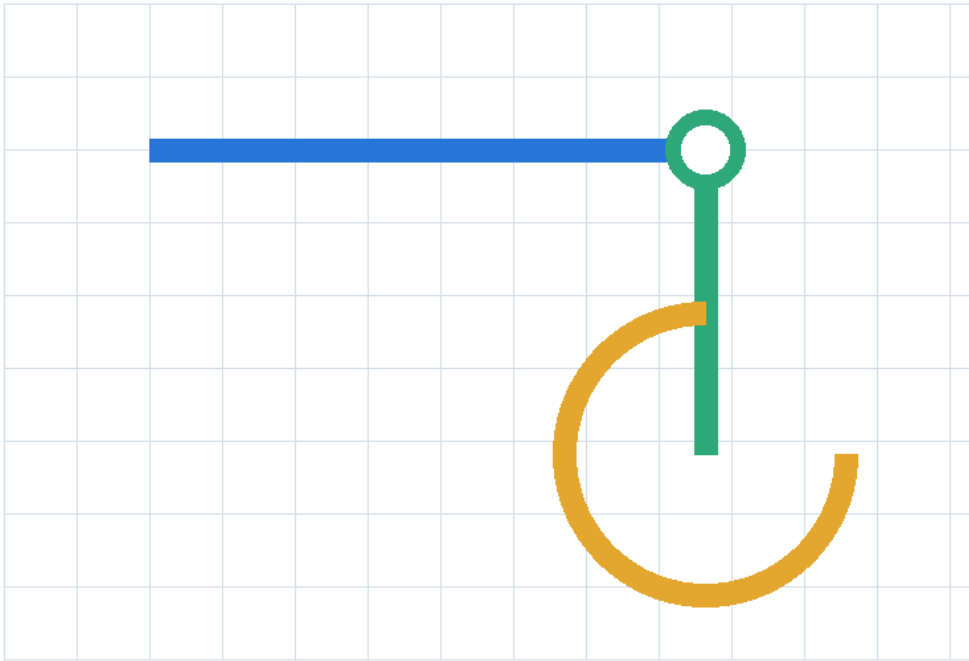

Accessibility closure · user-group completion gap · night complaint response

OPEN IDENTITY STANDARD | A CHALLENGEABLE NODE, NOT APPROVAL

Construction, clearspace, colour, type, hierarchy and misuse rules make the identity deployable

PROVISIONAL GEOMETRY · NOT A STATUTORY PLAN

MARK CONSTRUCTION

2 tracks + 1 open node + 1 exit path

clearspace = node diameter; minimum digital size = 28 px

JINGZHANG LEDGER LINE

VERIFY · TAKE OVER · RESTORE

project name always shares a field with provisional / scene status

JZ-10 landmark kit trial	design+fire	M	removal+restore record	remove and restore surface
JZ-11 community governance	community panel	S/M	cohort equity measure	switch to offline process
JZ-12 annual open week	global programme office	M	public review+archive	cancel and publish reason

● legal owner

● professional approval

● public notice

● human takeover

● non-AI service

● data expiry

● failed restoration

A concept package that knows what it does not know

60

building interfaces

15

public-space nodes

13

concept routes

08

registered risk classes

KNOWN + RECOMPUTABLE

topology · feature counts · internal checks

same provisional envelope across GeoJSON, metrics,
drawings, bilingual text and compliance evidence

NOT A FORMAL CONTROL

rounded values only · full rebuild after official release

UNKNOWN / PENDING

official polygons · FAR · height · ownership

road redlines · existing-condition survey · utilities
fire · heritage · budget · operating cost

TRIGGER

register source → rerun spatial review → record impact

VERIFY. TAKE OVER. RESTORE.

The railway's engineering culture becomes a public operating discipline for AI.
