Centennial Jing-Zhang AI Innovation Belt Open Call · concept proposal · provisional boundary · EPSG:4548

ORIGIN SERVICE DESK · Near-Campus Innovation Service Network

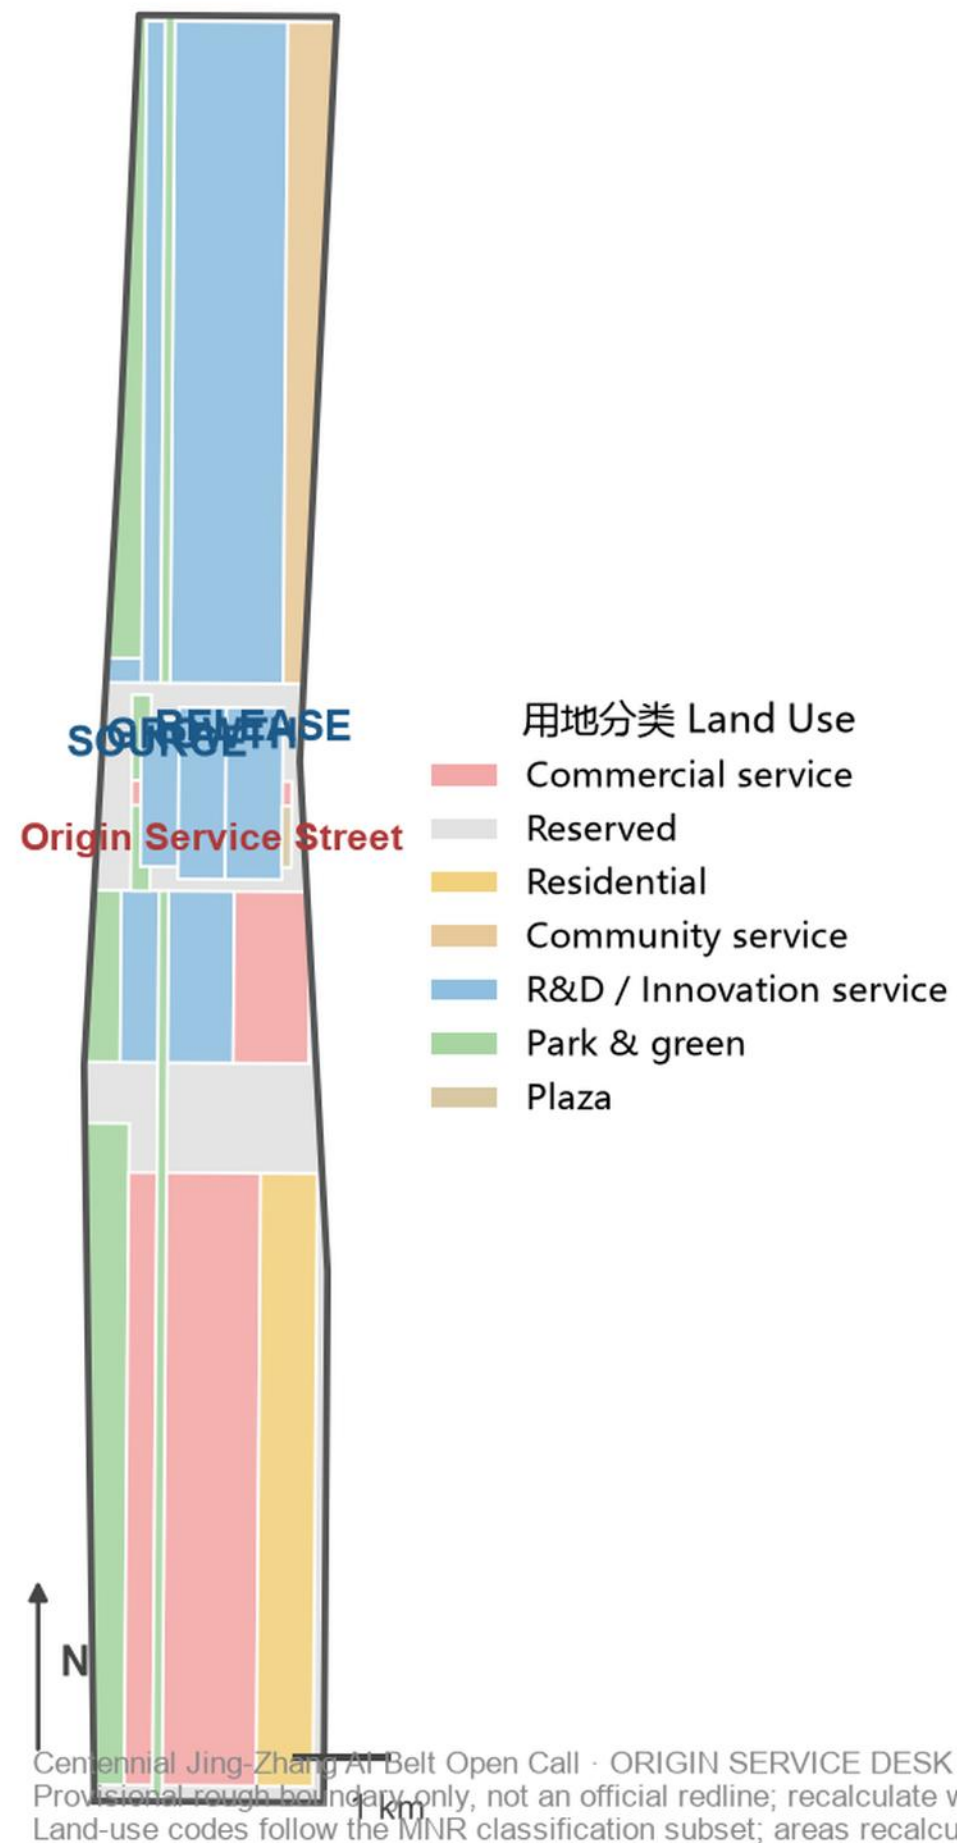

Centennial Jing-Zhang AI Belt Open Call · ORIGIN SERVICE DESK (concept proposal)

Provisional rough boundary only, not an official redline; recalculate when official geometry lands.

One spine (Origin Service Street) · three desks (Source/Growth/Release) · service-window network · heritage park belt

Land-Use Structure: Service-Oriented Organization with One Spine and Three Desks

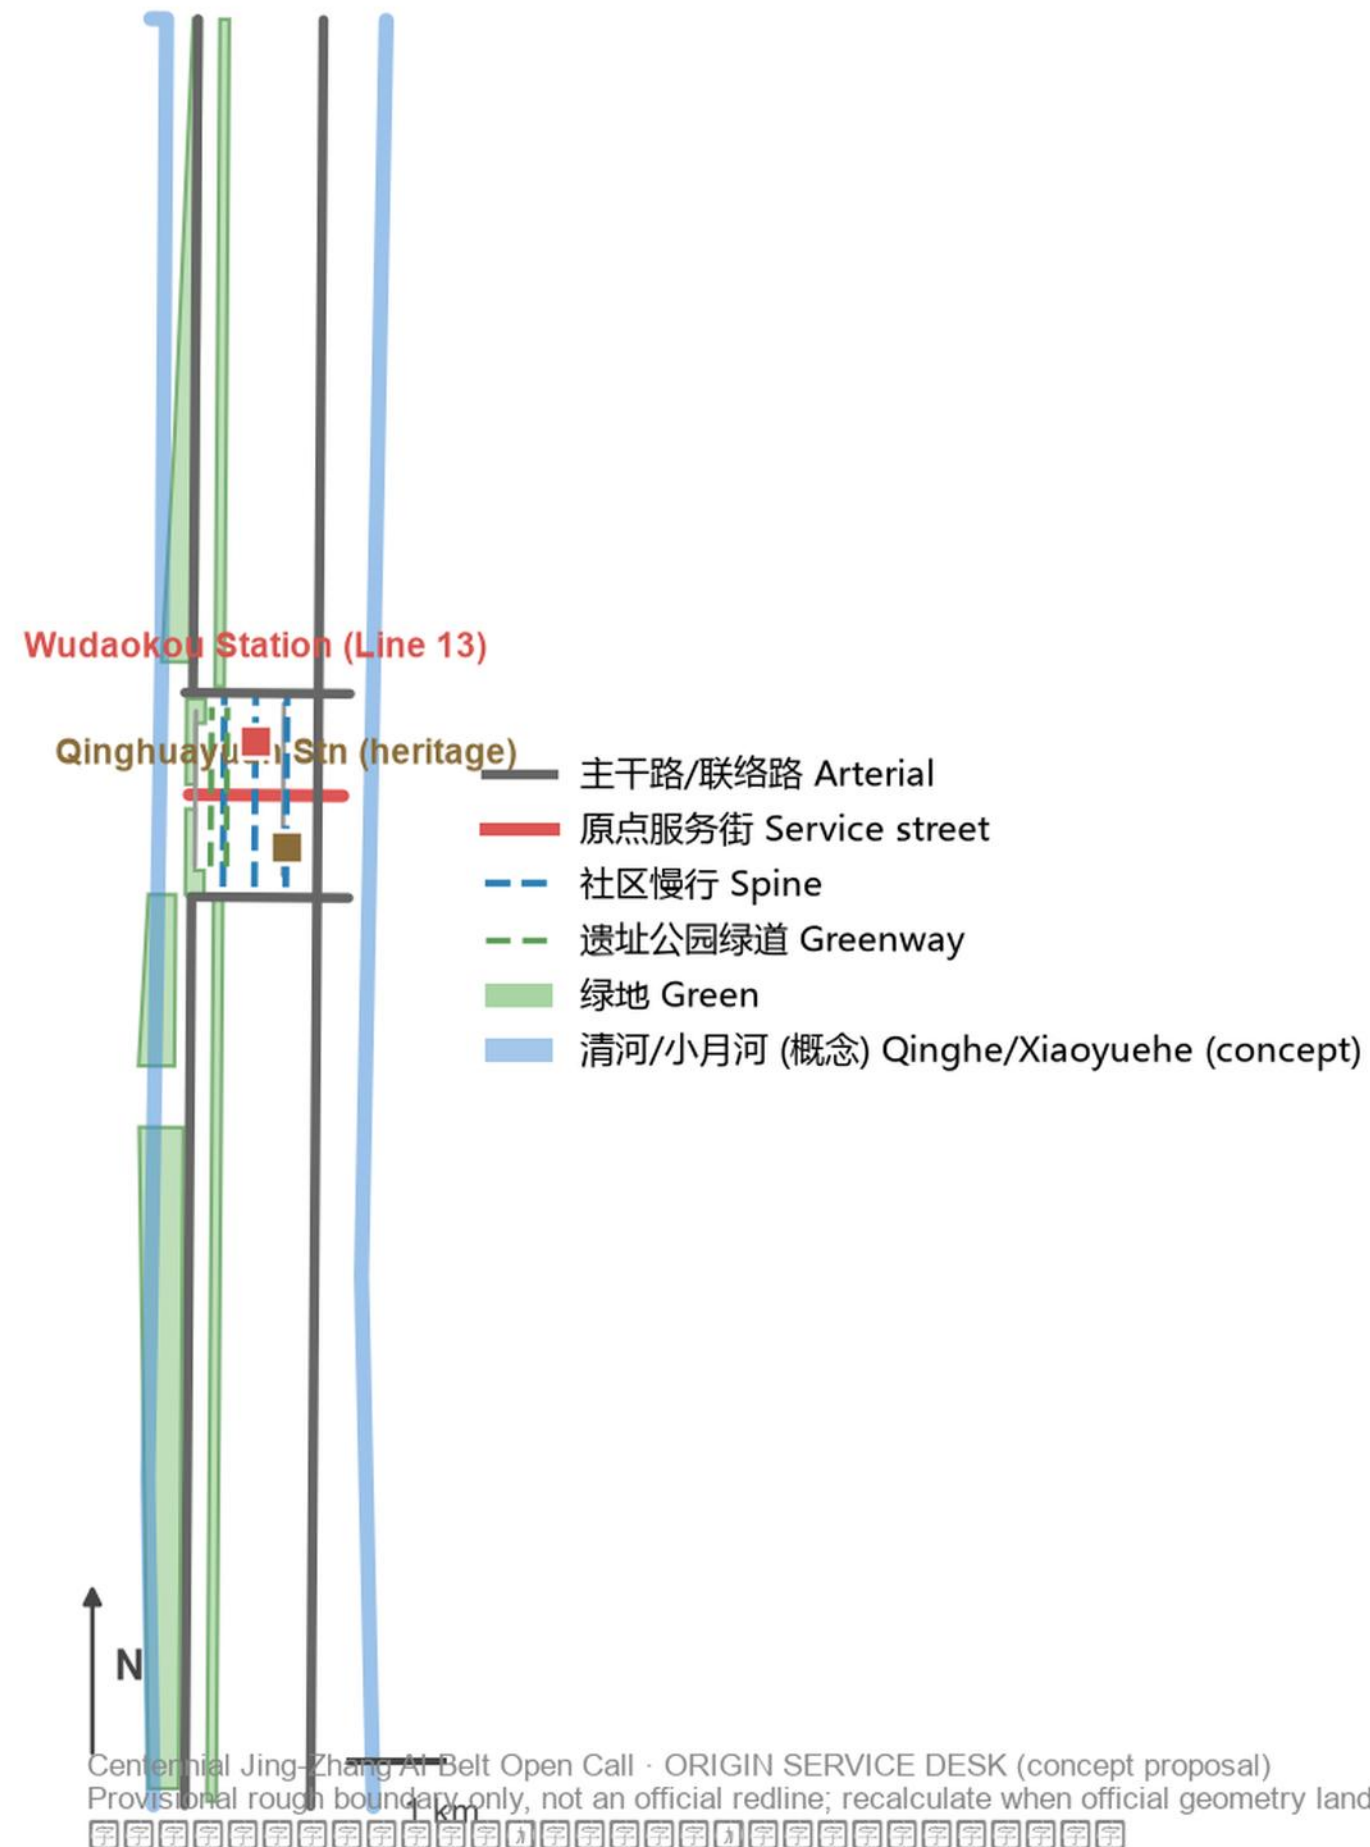

The diagram illustrates the structure of the AI Origin Community, showing three nested layers within a dashed boundary:

- Zhongzhiyuan** (Purple box, top layer)
- AI Origin Community** (Green box, middle layer)
- Dazhongsi** (Orange box, bottom layer)

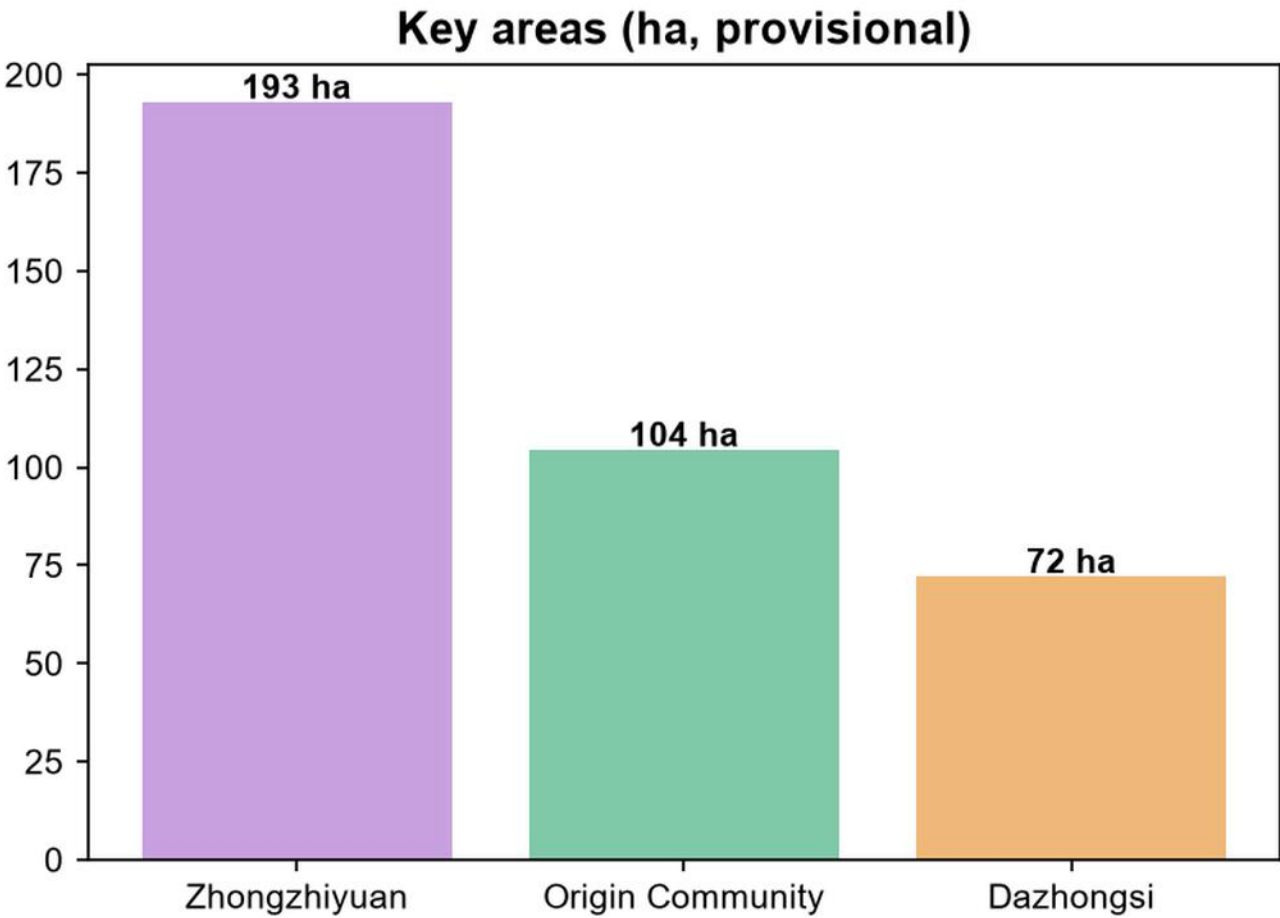

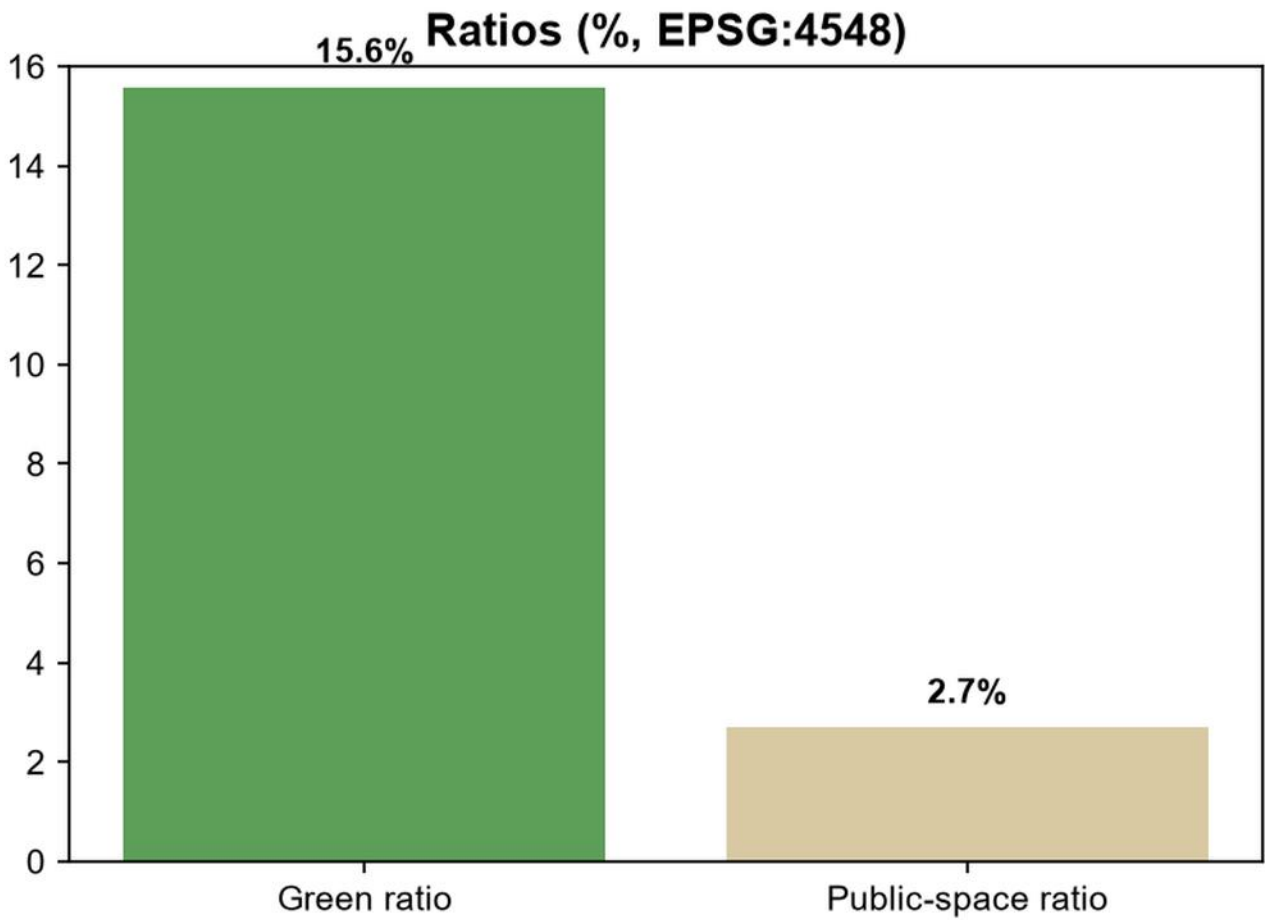

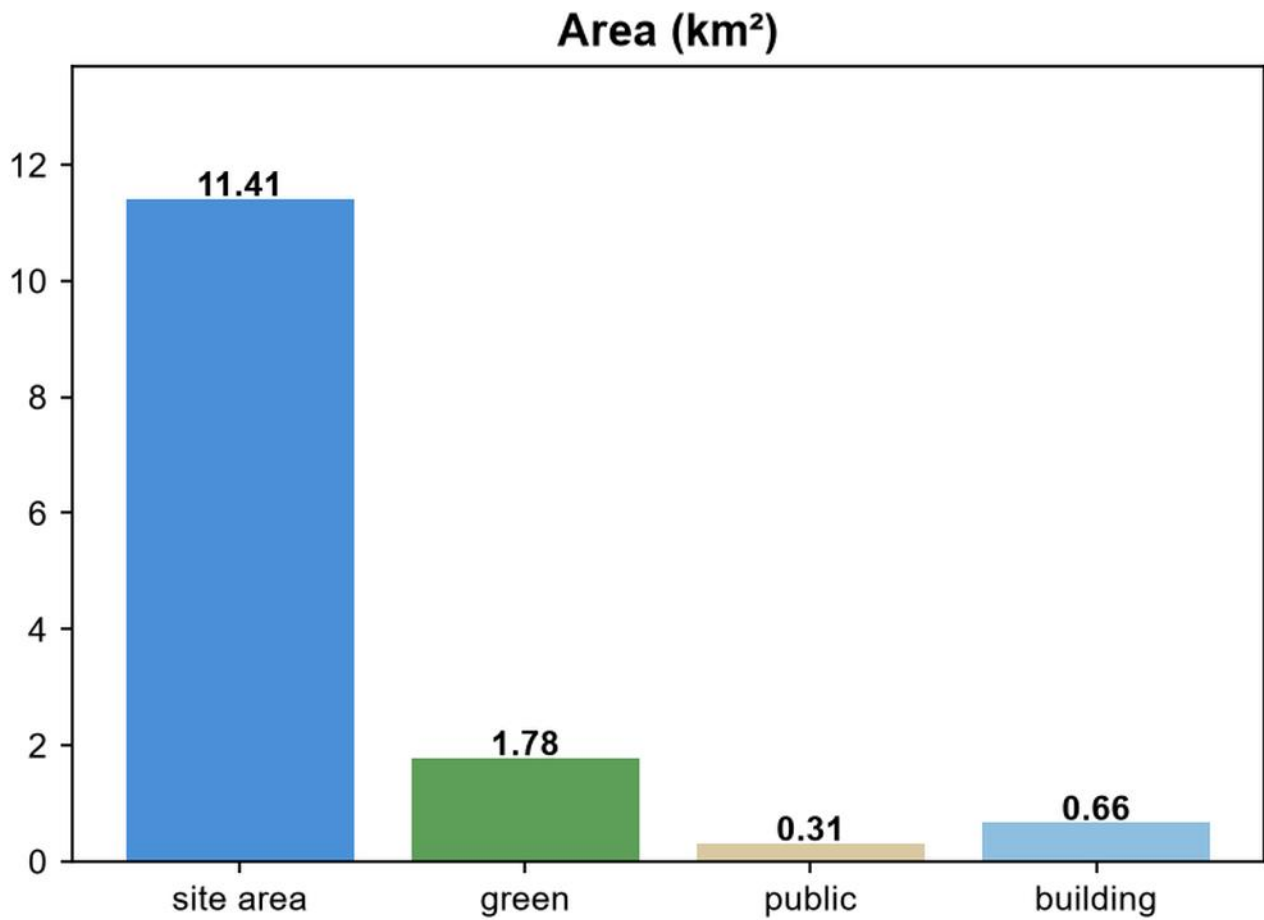

The diagram illustrates a process flow or lifecycle. It features four blue blocks arranged in a row, each with an orange square on top. The blocks are labeled 'SOURCE', 'GROWTH', and 'RELEASE' from left to right. Below these blocks is a red horizontal bar. Underneath the red bar are three green blocks. The text 'Service Street' is centered below the green blocks.

Provisional rough boundary only, not an official redline; recalculate when official geometry lands.

Mobility, Slow Network and Blue-Green System

Key Metrics and Evidence Chain

Recalculation notes

CRS for area ☐ EPSG:4548 (CGCS2000 / 3°GK CM 117E)

Exchange format ☐ GeoJSON, EPSG:4326

Overall design area ☐ 11.4128 km² (announced ~11.4 km²)

Green ratio ☐ 15.58% (concept value)

Public-space ratio ☐ 2.69% (concept value)

Boundary status ☐ provisional constraint, official boundary=false
