

Jingzhang Silver-Age Accessibility Belt

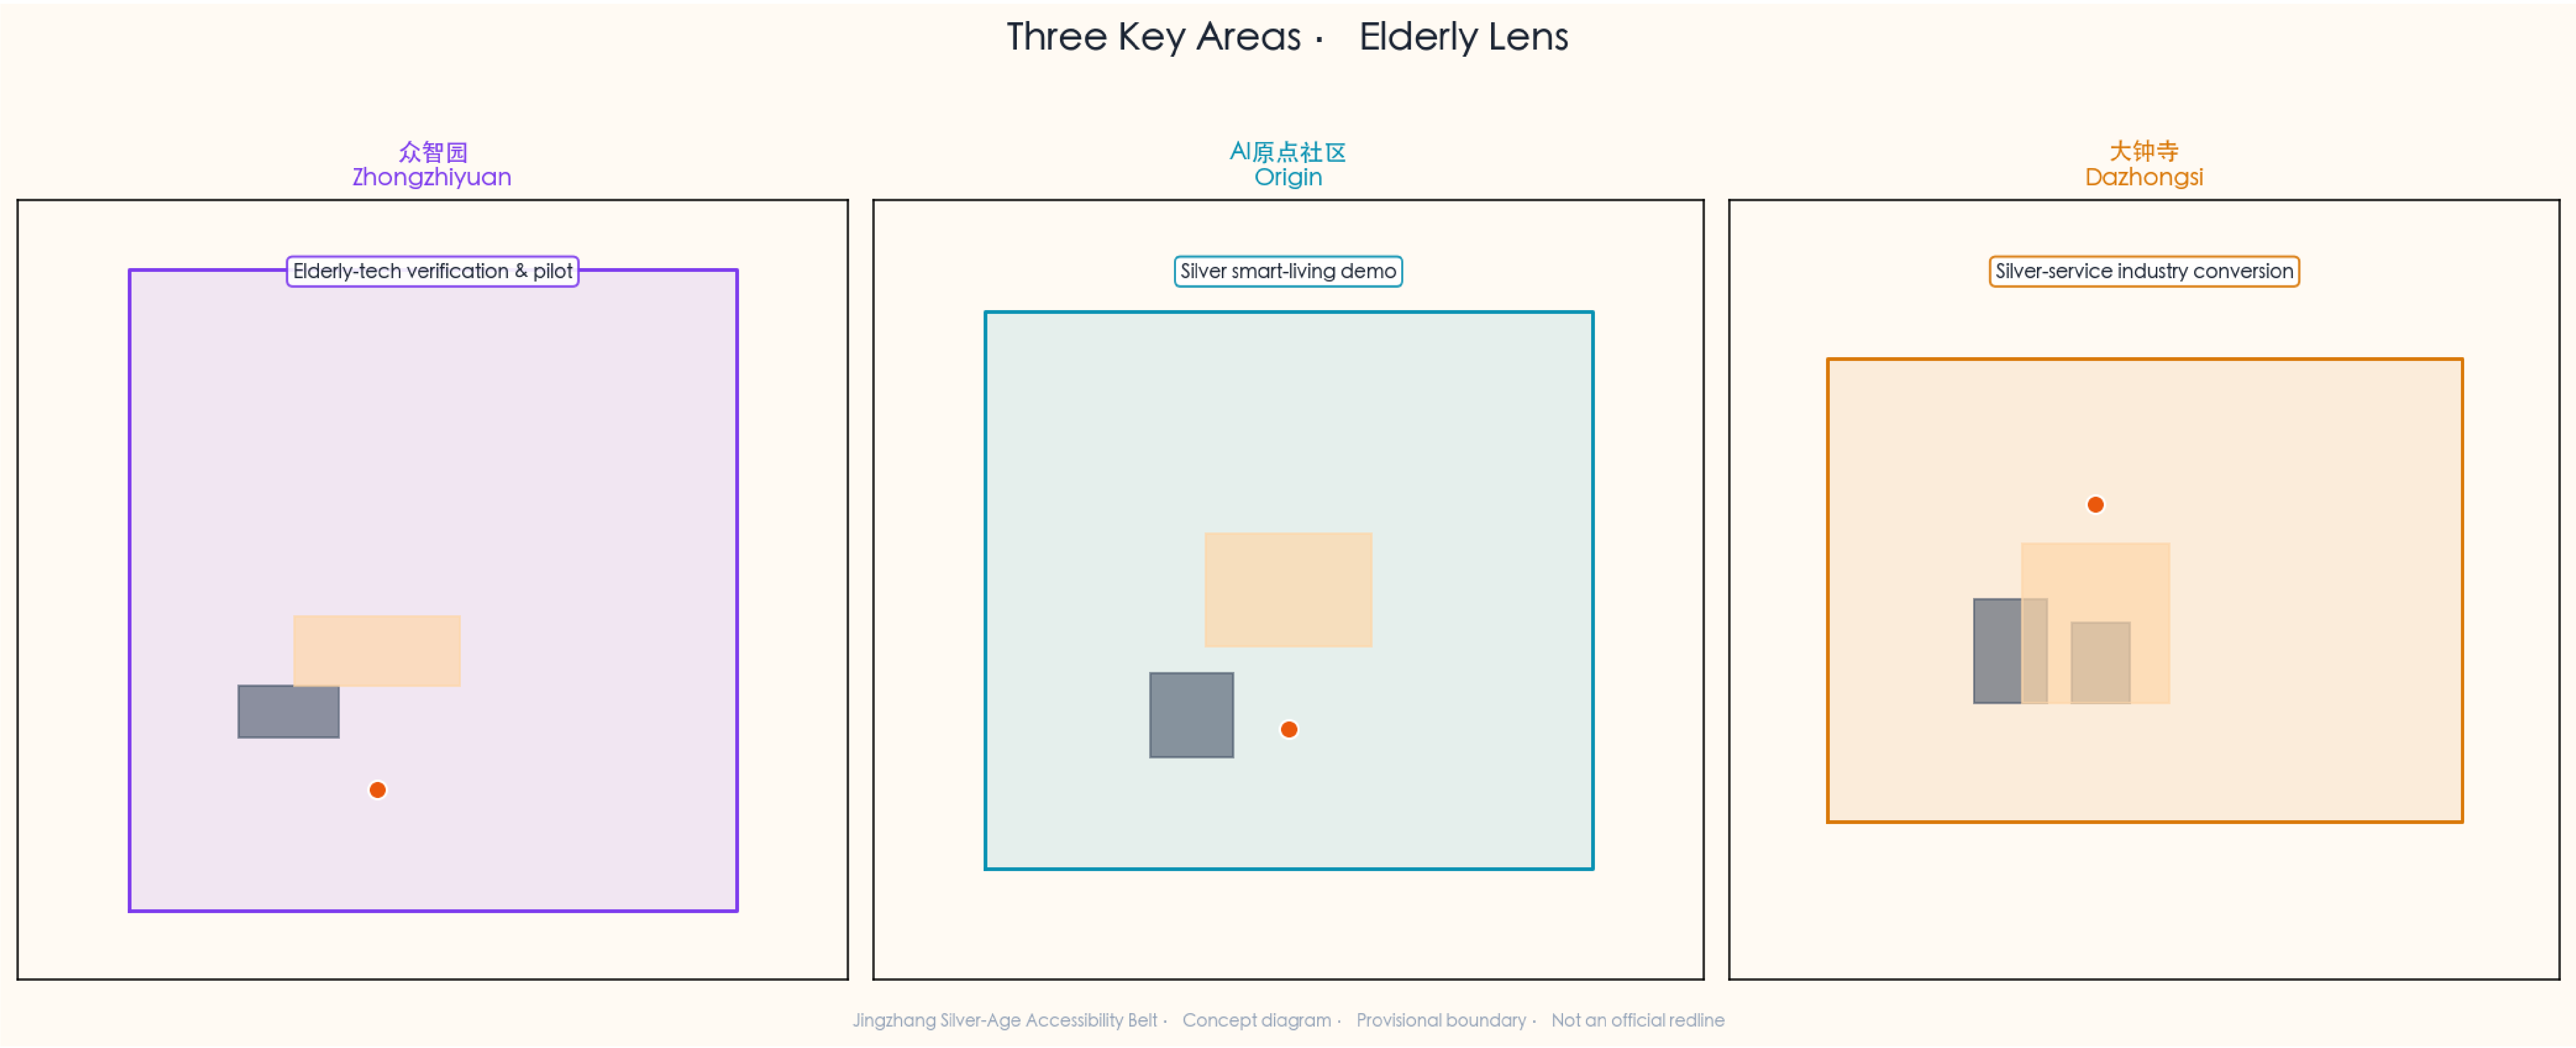

- One spine, three areas, multi-nodes
- 10 AI elderly-service scenario cards (incl. 3 test/validation)
- 5 elderly personas · 3 warmth landmarks
- ~17.3 km barrier-free network · 7 silver service nodes
- Dual tracks: ai-public-services × ai-traffic-walkability
- Key standards: Barrier-Free Law · Elderly Smart-Tech Plan

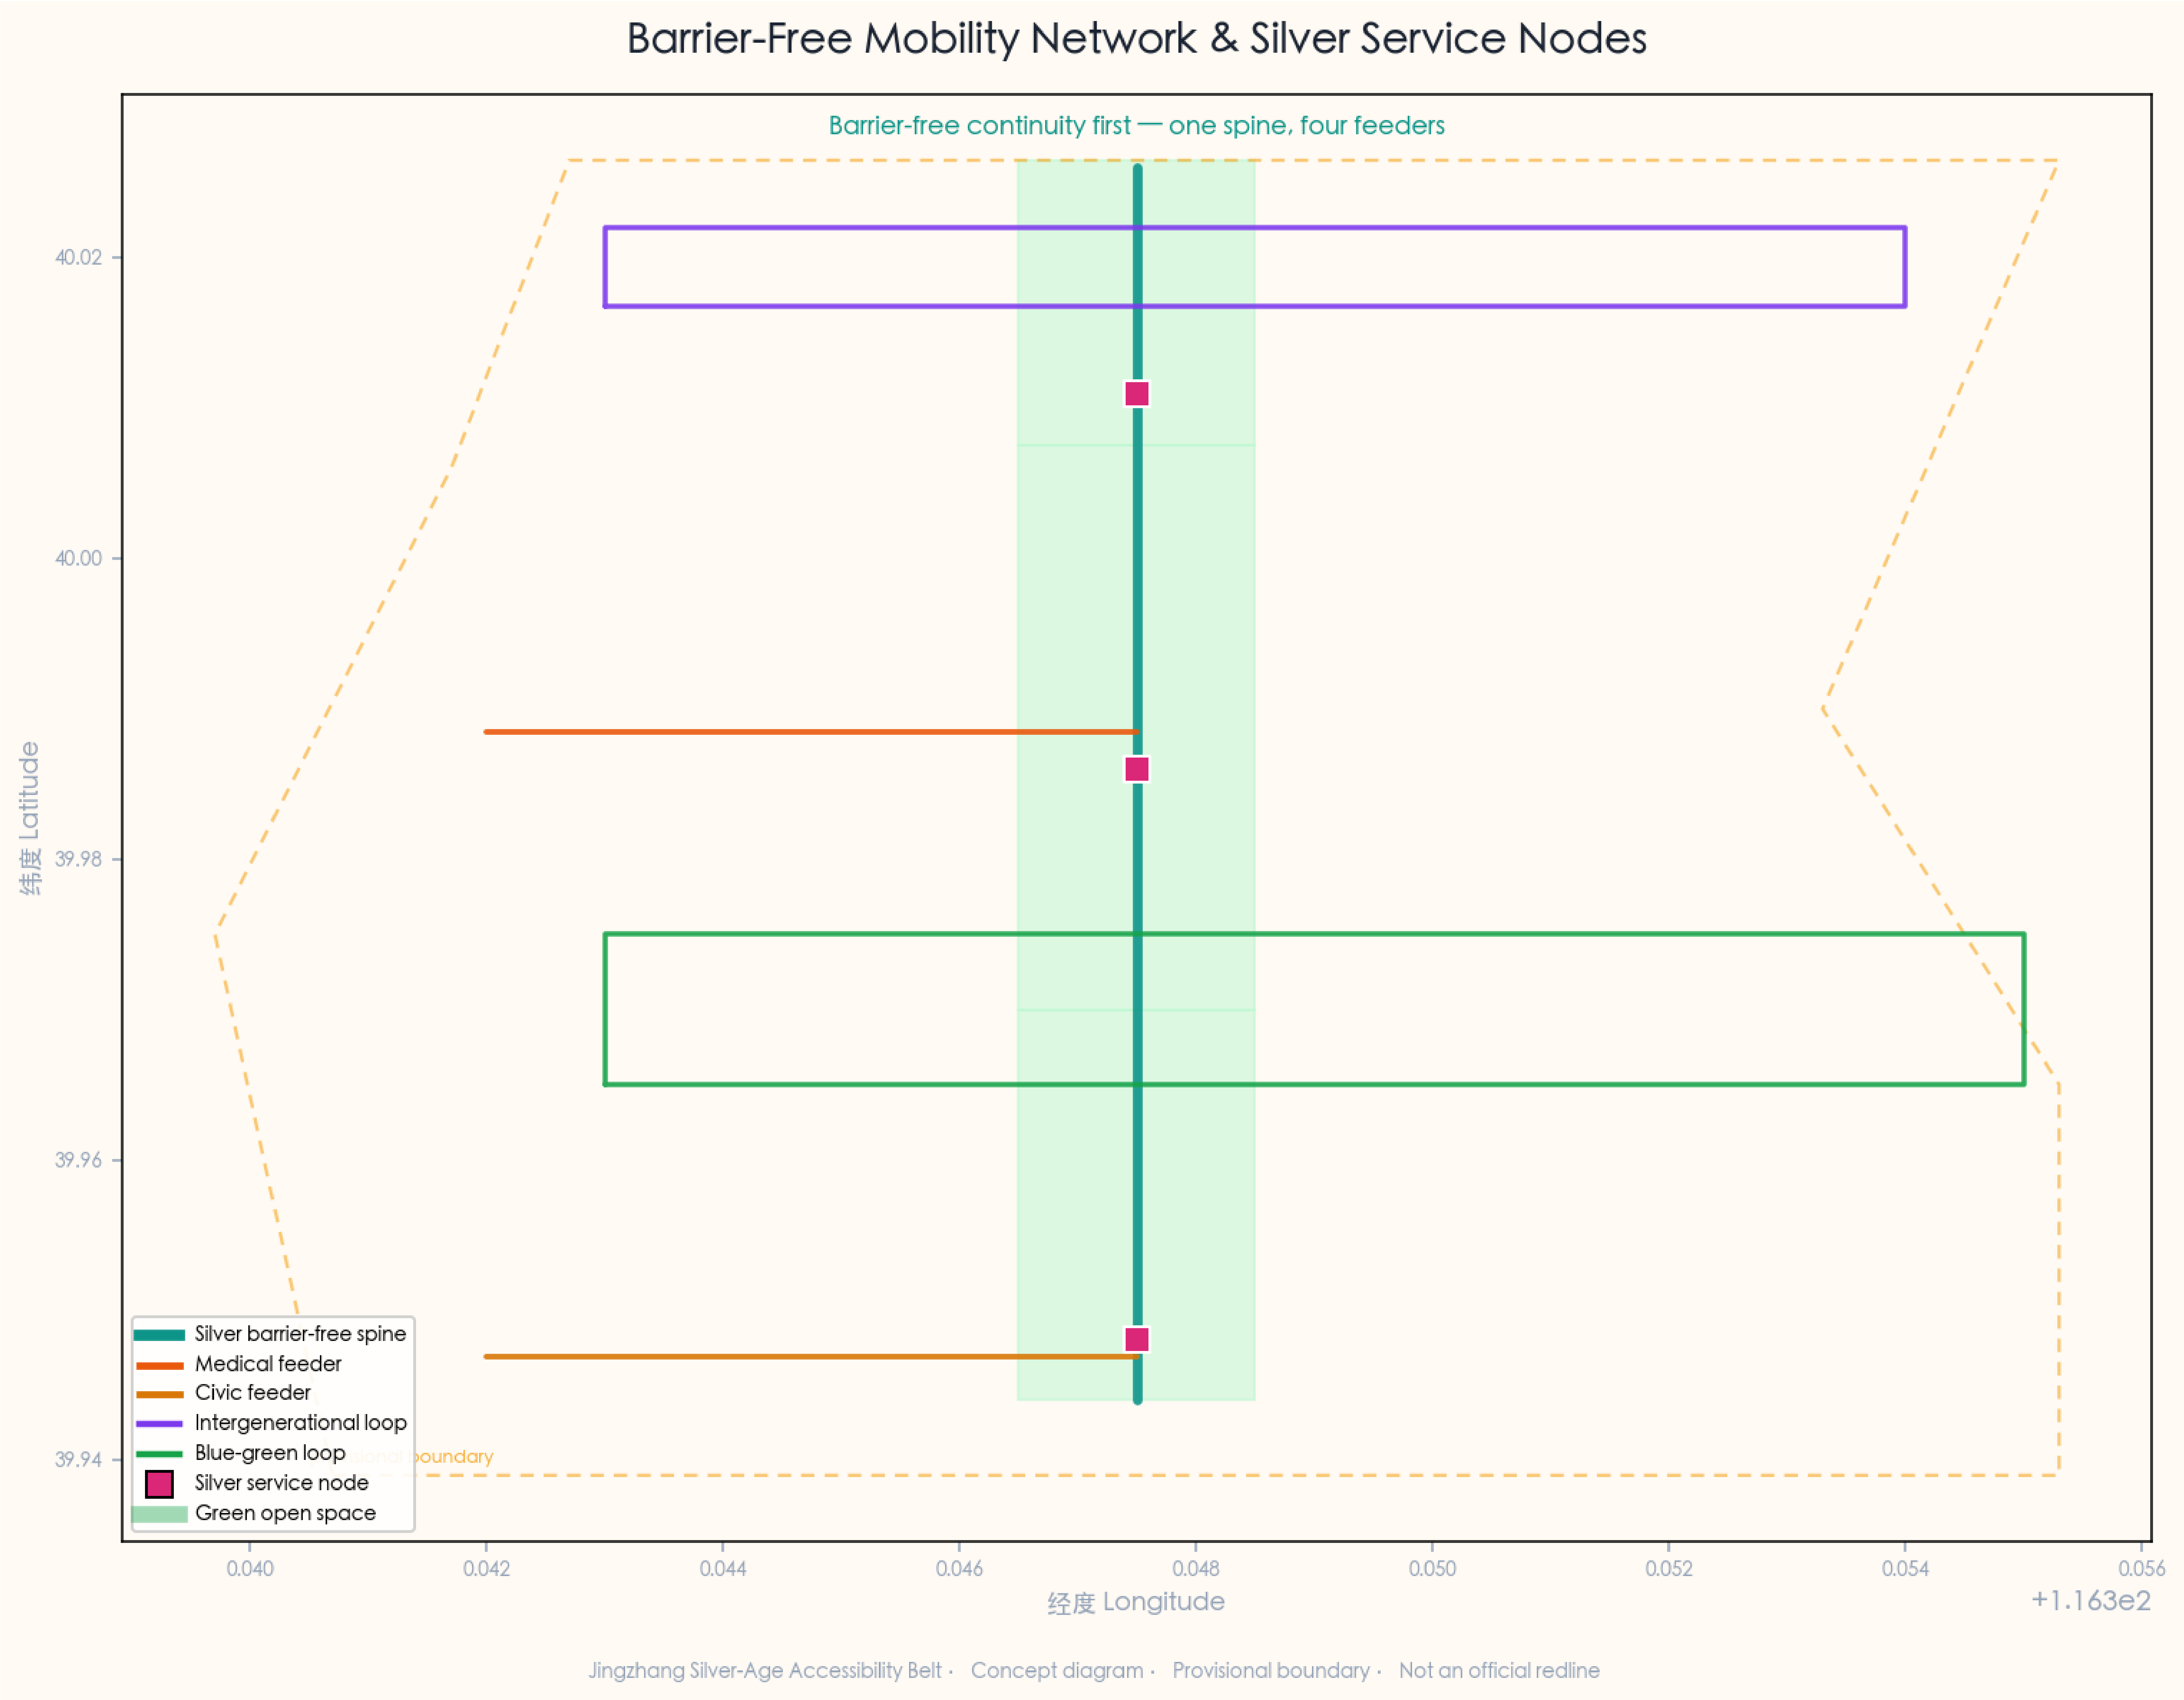

Scope & Elderly-Service Structure

Three Key Areas · Elderly Lens

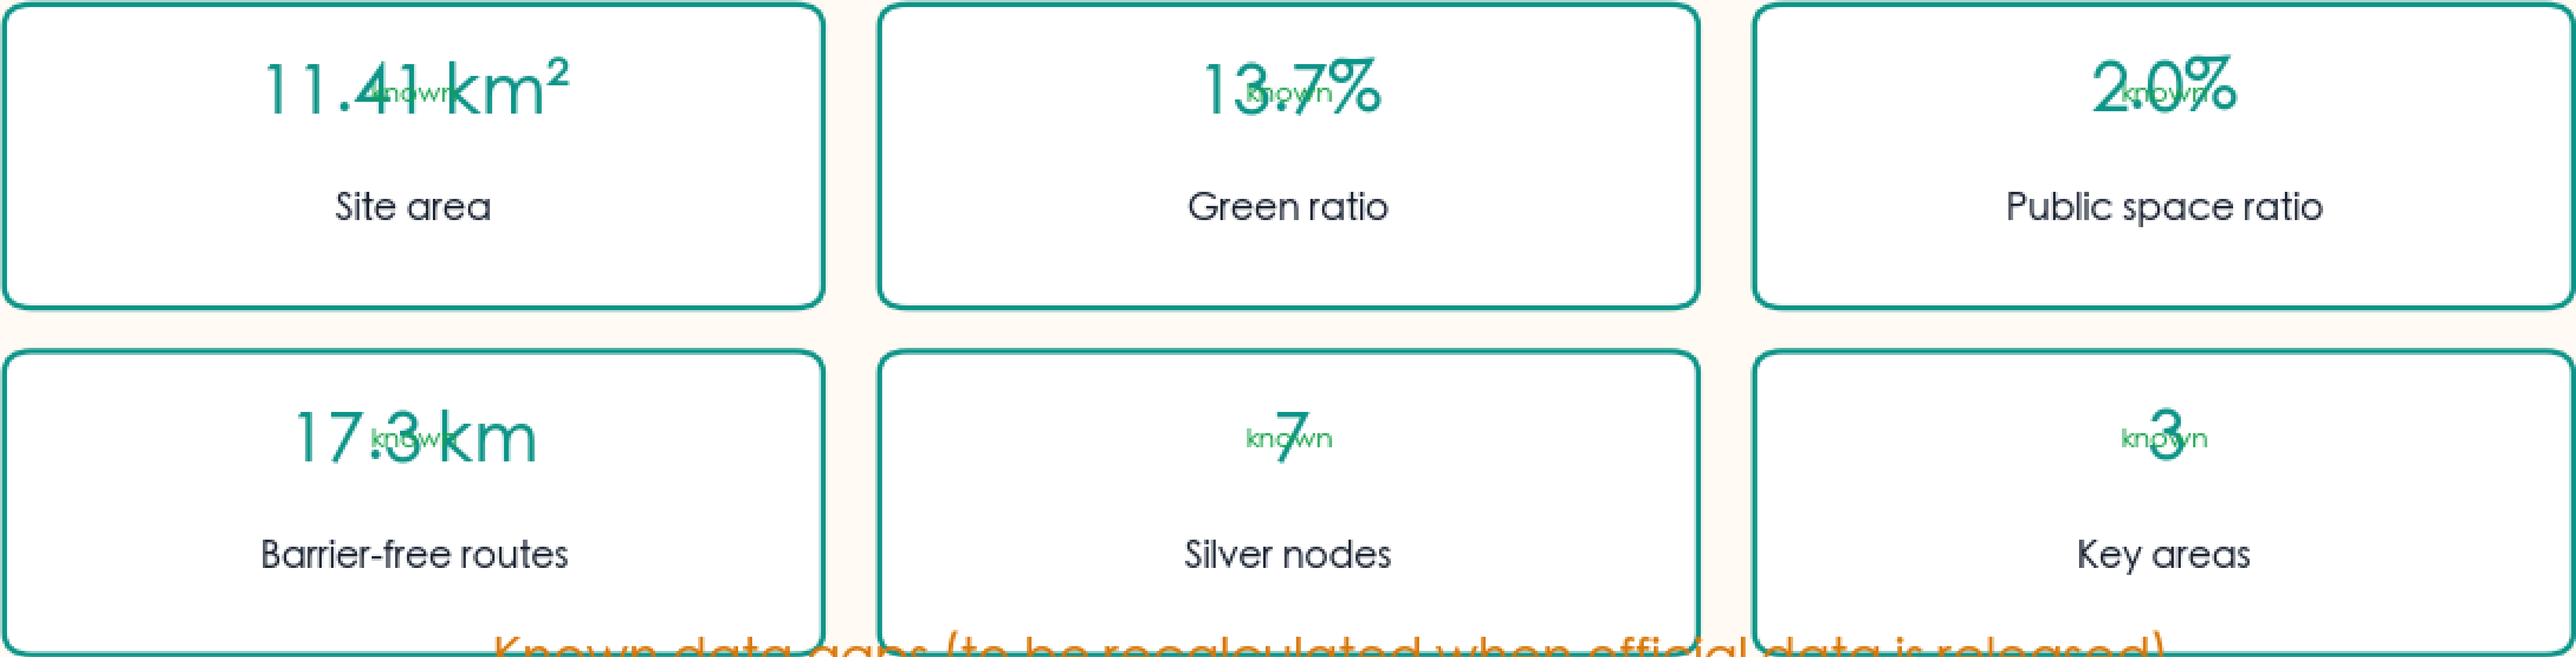

Barrier-Free Network & Service Nodes

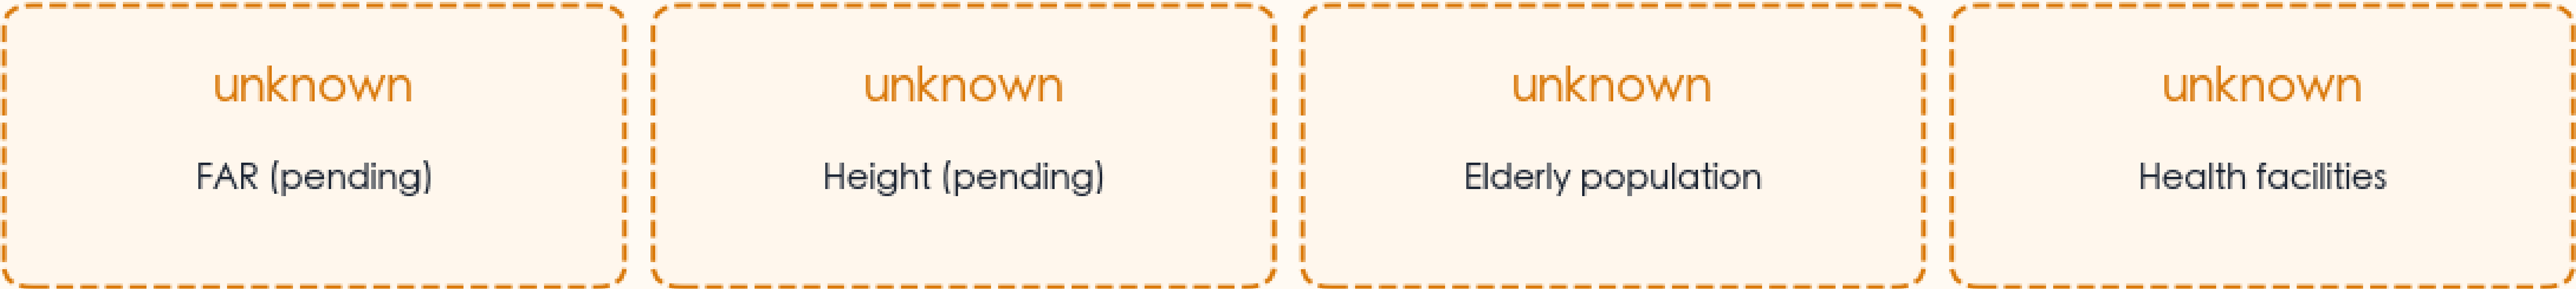

Metrics Evidence & Data Gaps

Metric Evidence & Data Gaps

Known data gaps (to be recalculated when official data is released)

Areas recomputed in EPSG:4548; all layer metrics must be recalculated once the official boundary is released.

Data honesty: no fabricated baselines; quantitative targets are conceptual operational indicators.

4-Gate Self-Check PASS · formal-review-ready
