

OVERALL STRUCTURE JINGZHANG CIVIC RETURN LINE

Return innovation from enclosed campuses to streets, and technology from demos to accountable public service.

0 → 10 → 100 → 0+

Controlled metrics

11.41 km ² provisional model	12.34% green ratio	7.33% public-space ratio
--	-----------------------	-----------------------------

The structure image communicates the concept. Statutory boundaries, zoning, ownership, engineering and operating claims remain UNKNOWN and are controlled by the AMap base, GeoJSON and official records.

A01 OVERALL STRUCTURE

Building a resilient urban innovation district through four major loops

Building open connectivity, functional integration, and ecosystem co-creation to achieve a resilient and integrated urban spatial structure.

CONCEPT NETWORK / NOT OFFICIAL

01 FOUR DEVELOPMENT STAGES

Tracing the evolution of the spatial development backbone, empowering future innovation.

01 ORIGINS

Historical roots /
Cultural inheritance

02 GROWTH

Industrial development /
Functional activation

03 ACCELERATION

Innovation-driven /
Technical empowerment

04 FUTURE

Future-oriented /
Ecosystem integration

CULTURAL INHERITANCE FUNCTIONAL ACTIVATION INNOVATION-DRIVEN FUTURE RESILIENCE

02 OPEN COORDINATION FRAME

Abstract capability links - not real routes, stations or engineering

ROUTES / STATIONS / LENGTH / ENGINEERING: UNKNOWN

03 THREE MAJOR LOOPS, FIVE FUNCTIONS, THREE TYPES OF RENEWAL

Building a spatial organization that integrates loops, functions, and renewal.

THREE MAJOR LOOPS

- Comprehensive Mobility Loop
Integrated multi-modal circulation
- Innovation & Service Loop
Integrated innovation and services
- Ecological & Livable Loop
Green ecology and livable spaces

FIVE FUNCTIONS

THREE TYPES OF RENEWAL

- Spatial Renewal
Land use optimization
 - Capacity Enhancement
Intensity improvement
 - Quality Improvement
Public realm upgrade
- Loop-driven renewal and spatial resilience

04 EIGHT MAJOR INFRASTRUCTURE SYSTEMS

Building a closed-loop system from R&D to urban heat island mitigation.

05 BLUE-GREEN PUBLIC SPACE CORRIDOR

Building a continuous blue-green network for ecology and vitality.

06 THREE-LEVEL SPATIAL SYSTEM FOR EVIDENCE-BASED DECISION-MAKING

A "perception - judgment - decision" system to improve governance efficiency.

B TRANSPORT LAYER

- Sensing & Data Support
- Multi-source data collection
 - Real-time monitoring
 - Data fusion & cleaning
 - Evidence generation

TRANSPORT (B)

- Data sensing
- Evidence support

A AI LAYER

- Analysis & Value Judgment
- Spatial analysis
 - Scenario simulation
 - Impact evaluation
 - Optimization recommendations

AI (A)

- Professional analysis
- Value judgment

O DECISION LAYER

- Decision & Action
- Plan formulation
 - Policy implementation
 - Public participation
 - Feedback & adjustment

DECISION (O)

- Decision execution
- Outcome evaluation

OPEN · INTEGRATED · ECOLOGICAL · SMART

A02 LAND USE & RENEWAL

Functional relationships are discussable; area, shares, ownership and statutory controls await formal data.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY · NOT OFFICIAL BOUNDARY / CONTROL / APPROVAL · PROFESSIONAL REVIEW REQUIRED

01 CONCEPT FUNCTIONAL STRUCTURE

CENTENNIAL JINGZHANG AI INNOVATION BELT

Open Rail Spatial Structure

Concept proposal · Provisional geometry · Professional follow-up required

Move, Stay and Create share one spatial backbone instead of becoming three disconnected theme districts.

Layers and status

R&D innovation

Park green

Commercial service

Community service

Jingzhang Return Line · Open Rail

MOVE · AI + Mobility & Walkability

Continuity, station access, universal access and east-west stitching

STAY · Youth-Friendly Public Space

Non-commercial commons, third places, learning, sport and night use

CREATE · AI Origin Community & Services

Real problems, controlled tests, human review, release or exit

Eight factors in one loop

Land

Compute

Separation

RELATIONSHIPS ONLY — NOT A STATUTORY LAND-USE PLAN

AREA / SHARE / OWNERSHIP / CONTROL: UNKNOWN

02 EVIDENCE-TRIGGERED RENEWAL

NEAR

Reversible 100-day pilot

➤

MID

Owner + permit + evidence

➤

LONG

Triggered by formal controls

NOT A FIXED CONSTRUCTION SCHEDULE OR INVESTMENT PROMISE

03 FIVE FUNCTIONAL RELATIONSHIPS ORGANISE PUBLIC VALUE

01

PUBLIC SPINE

Rail heritage × blue-green × continuous walking

CONCEPT

02

RIVERSIDE TEST

Stay × accessibility × low-impact pilots

CONCEPT

03

CO-CREATION

Real issues × bounded tests × public feedback

CONCEPT

04

AI ORIGIN

Open R&D × youth making × staffed service

CONCEPT

05

TECH SERVICES

Compliance × standards × transfer × operations

CONCEPT

04 SAME-SOURCE METRICS & EVIDENCE BOUNDARY

PROVISIONAL MODEL AREA

11.41 km²

From metrics.json; recalculable with official polygon

GREEN RATIO

12.34%

Derived from provisional geometry; not a statutory ratio

PUBLIC-SPACE RATIO

7.33%

Derived from provisional geometry; not an approval metric

REMAINS UNKNOWN

Official boundary, statutory land use, ownership, municipal capacity, buildability and approvals

05 FOUR GATES FROM CONCEPT TO PROJECT

SPACE

Official boundary

FORMAL DATA

Triggers recalculation

AREA, GREEN AND PUBLIC SPACE ONLY FROM metrics.json

A03 MOBILITY & MUNICIPAL INTERFACES

Define responsibilities across transit, streets and slow mobility; publish no route, station, length, catchment or engineering claim.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY · NOT OFFICIAL BOUNDARY / CONTROL / APPROVAL · PROFESSIONAL REVIEW REQUIRED

01 FIELD EVIDENCE

STRUCTURED SAMPLES 0 / 24

PHOTOS PROVE CONTEXT ONLY

02 CONTROLLED MOBILITY STRUCTURE

Mobility, walkability and Blue-Green Commons

Continuous active mobility, east-west stitching, blue-green commons and controlled AI service nodes repair corridor breaks together.

ROAD-001 · GREEN-001 · PUBLIC-001

N-S CONTINUITY
A continuous walking, cycling and universal-access spine.

E-W STITCHING
Repair park-road-campus-community interfaces break by break.

RAIL TRANSFER
Controlled station gateways, low-speed links and event-day traffic.

BLUE-GREEN MIX
Green, public life, stormwater and youth programs share space.

LANDMARKS & COMPONENTS

L1 Origin Return Beacon	L2 Open-source Milestones
L3 Diagonal AI Campus	8 reversible components

AI only supports gap detection, routing and operations. It does not replace traffic design, safety approval or human service.

03 VALIDATION GATES

04 SLOW-MOBILITY EVIDENCE NETWORK

VISUAL DIRECTION: CONTINUITY, ACCESS, STAY AND HUMAN TAKEOVER

NOT A LINE PLAN / ENGINEERING DRAWING / SERVICE CATCHMENT

05 SIX PUBLIC-VALUE INTERFACES

01

WORK

Industry service + public value

02

LIVING

Daily life + staffed fallback

03

EDUCATION

Campus learning + co-creation

04

HEALTH

Support without automated decisions

05

CIVIC

Public service, culture + appeal

06

LEISURE

Non-consumer stay + events

06 THREE INTERFACES WORK TOGETHER

TRANSIT INTERFACE

Arrival and interchange roles; lines, stations and ridership pending

STREET INTERFACE

Junction and block continuity; red line and section pending

SLOW-MOBILITY INTERFACE

Walking, cycling and access; field continuity not validated

CORRIDOR VALIDATION GATES

OFFICIAL BOUNDARY	ROUTE / STATION	DIMENSION / STRUCTURE
UNKNOWN	UNKNOWN	PRO REVIEW
TRAFFIC IMPACT	ACCESS	HUMAN DECISION
PENDING	FIELD 0/24	REQUIRED

NO CATCHMENT, TRAVEL TIME, SERVICE POPULATION OR ENGINEERING PERFORMANCE CLAIM

A04 HERITAGE PARK & BLUE-GREEN SPACE

Organise stay, learning, display, dialogue and repair as reversible public-space units.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY · NOT OFFICIAL BOUNDARY / CONTROL / APPROVAL · PROFESSIONAL REVIEW REQUIRED

01 CONTEXT EVIDENCE

CONTEXT PHOTO

PROVES CONTEXT, NOT FIELD PERFORMANCE

02 SPATIAL DIRECTION

GENERATED SCENE / VISUAL DIRECTION

NOT SURVEY, CONSTRUCTION OR APPROVAL EVIDENCE

03 FIVE REVERSIBLE UNITS

STAY

Non-consumer seating

Shade, rest and removable furniture

REVERSIBLE

LEARN

Open learning

Guides, classes and workshops

REVERSIBLE

SHOW

Temporary display

Industrial heritage and digital exhibits

REVERSIBLE

TALK

Public dialogue

Deliberation, appeal and staffed service

REVERSIBLE

REPAIR

Ecological repair

Rainwater, soil and planting trials

REVERSIBLE

04 BLUE-GREEN ACCESS & STATION–CORRIDOR–PARK SEQUENCE

CENTENNIAL JINGZHANG AI INNOVATION BELT

Jingzhang Return Line • Open Rail

Concept proposal · Provisional geometry · Professional follow-up required

Mobility, Walkability and Blue-Green Commons

Continuous active mobility, east-west stitching, blue-green commons and controlled AI service nodes repair corridor breaks together.

ROAD-001 + GREEN-001 + PUBLIC-001

N-S CONTINUITY

A continuous walking, cycling and universal-access spine

E-W STITCHING

Repair park-road-campus-community interfaces break by break

RAIL TRANSFER

Controlled station gateways, low-speed links and event-day traffic

BLUE-GREEN MIX

Green, public life, stormwater and youth programs share space

LANDMARKS & COMPONENTS

L1 Origin Return Beacon

A04

A05 THREE FOCUS AREAS: PEOPLE TO SCENARIOS

Five user groups, three candidate focus areas, ten scene cards and a human-governance loop share one placement map.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY · NOT OFFICIAL BOUNDARY / CONTROL / APPROVAL · PROFESSIONAL REVIEW REQUIRED

01

ZHONGZHIYUAN

Full-stack validation & industry

Research → prototype → engineering review → public value

02

AI ORIGIN COMMUNITY

Capability returns to daily life

Public issue → bounded test → human review → feedback

03

DAZHONGSI

Rail-heritage gateway & civic life

Heritage → interchange → non-consumer stay → service

04 PERSONA-PLACE-SCENE-GOVERNANCE MAP

05 SHARED EVIDENCE GATES

OFFICIAL BOUNDARY UNKNOWN	OWNERSHIP / PARTNERSHIP UNKNOWN	PROTOTYPE NOT RUN
PRO REVIEW PENDING	PUBLIC FEEDBACK REQUIRED	EXIT / RESTORE REQUIRED

All three focus areas are candidate placements; no committed project, area, ridership, investment, schedule or partnership is claimed.

A06 AI SCENARIOS & OPERATIONS

AI-POWERED URBAN OPERATIONS, INTELLIGENT FUTURE LIVING

Harnessing core AI technologies to build a citywide intelligent operations ecosystem, enabling data-driven governance, refined services, and sustainable growth for smarter, safer, and more livable cities.

CONCEPT SCENARIOS / NOT LIVE OPERATIONS

01 AI SCENARIOS & OPERATIONS

From spatial prototype to continuous validation

02 AI SCENARIOS & OPERATIONS

03 AI SCENARIOS & OPERATIONS

Accessibility, sustainability, iteration

04 AI SCENARIOS & OPERATIONS

Scenarios and commitment

05 AI SCENARIOS & OPERATIONS

From spatial prototype to continuous validation

R01 REGIONAL COLLABORATION INTERFACE MATRIX

Capability input, scenario output, conceptual interface and uncertainty are separated; proposals are not presented as agreements.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY · NOT OFFICIAL BOUNDARY /
CONTROL / APPROVAL · PROFESSIONAL REVIEW REQUIRED

01 CAPABILITY FLOW IS NOT A ROUTE OR PARTNERSHIP PROOF
