

Overall Concept

One Spine • Three Tings • Two Wings • Nine Chapters

- Spine: green centre -- Jingzhang railway park belt
- Three Tings: North / Middle / South
- Two Wings: Zhongguancun service / Xiaoyuehe scenario
- Nine Chapters: 13 AI scenario cards + 3 test beds + 5 personas

Three orientations: heritage belt / urban AI life belt / AI convergence belt

Five functions: full-stack innovation / ecosystem / AI+ scenarios / smart city / governance voice

11.41 km² • 3 重点区 • 12 地标 • 13 场景卡 • 18.7 km 道路 • 绿地 32%

One Spine - Three Tings - Two Wings - Nine Chapters

Spine: green centre / Jingzhang railway park

North Source

Zhongzhiyuan 192.9 ha

Full-stack innovation

Central Court

AI Origin 104.3 ha

Translation & talent

South Court

Dazhongsi 72.0 ha

Smart economy & exchange

West Wing

Capital • IP • Data • Global

East Wing

Robots • Smart life • Scenarios

Nine Chapters: 13 AI scenario cards + 3 test beds + 5 personas + 3 landmarks (see panel 03)

Three orientations

- Centennial Jingzhang heritage belt
- Urban AI life experience belt
- AI convergence innovation belt

Five functions

- Full-stack AI innovation
- World-class AI ecosystem
- AI+ scenario empowerment
- Smart AI city
- AI governance voice

Provisional boundary notice
All spatial suggestions are conceptual. Boundaries use the repo's provisional rough polygons for generation/review only -- not official redlines or precise area evidence. Site area, key areas, land use and all metrics MUST be recomputed as a whole once the organizer releases formal polygons. See assumptions.json A-BOUNDARY-001.

Reading path: 01-Concept -> 02-Three Tings -> 03-AI Scenarios-> 04-Core Metrics

All areas are EPSG:4548 projected provisional baselines; full recompute after formal polygons.

Core Metrics

11.41 km² Overall scope metric: site_area_sqm	3 ↑ Key areas metric: key_area_count	12 栋 Landmarks metric: building_count
13 / 3 / 5 Cards/tests/personas metric: scenario_card_count	31.9% Green ratio metric: green_ratio	18.7 km Road length metric: road_network_length_m

All metrics recomputed under EPSG:4548 projection; full recompute required after official boundary release.
