

Nine-Chapter Compass - Jingzhang AI Origin

JZC-9C • Centennial Jingzhang AI Innovation Belt Urban Design Open Call

concept spine: One Spine • Three Tings • Two Wings • Nine Chapters

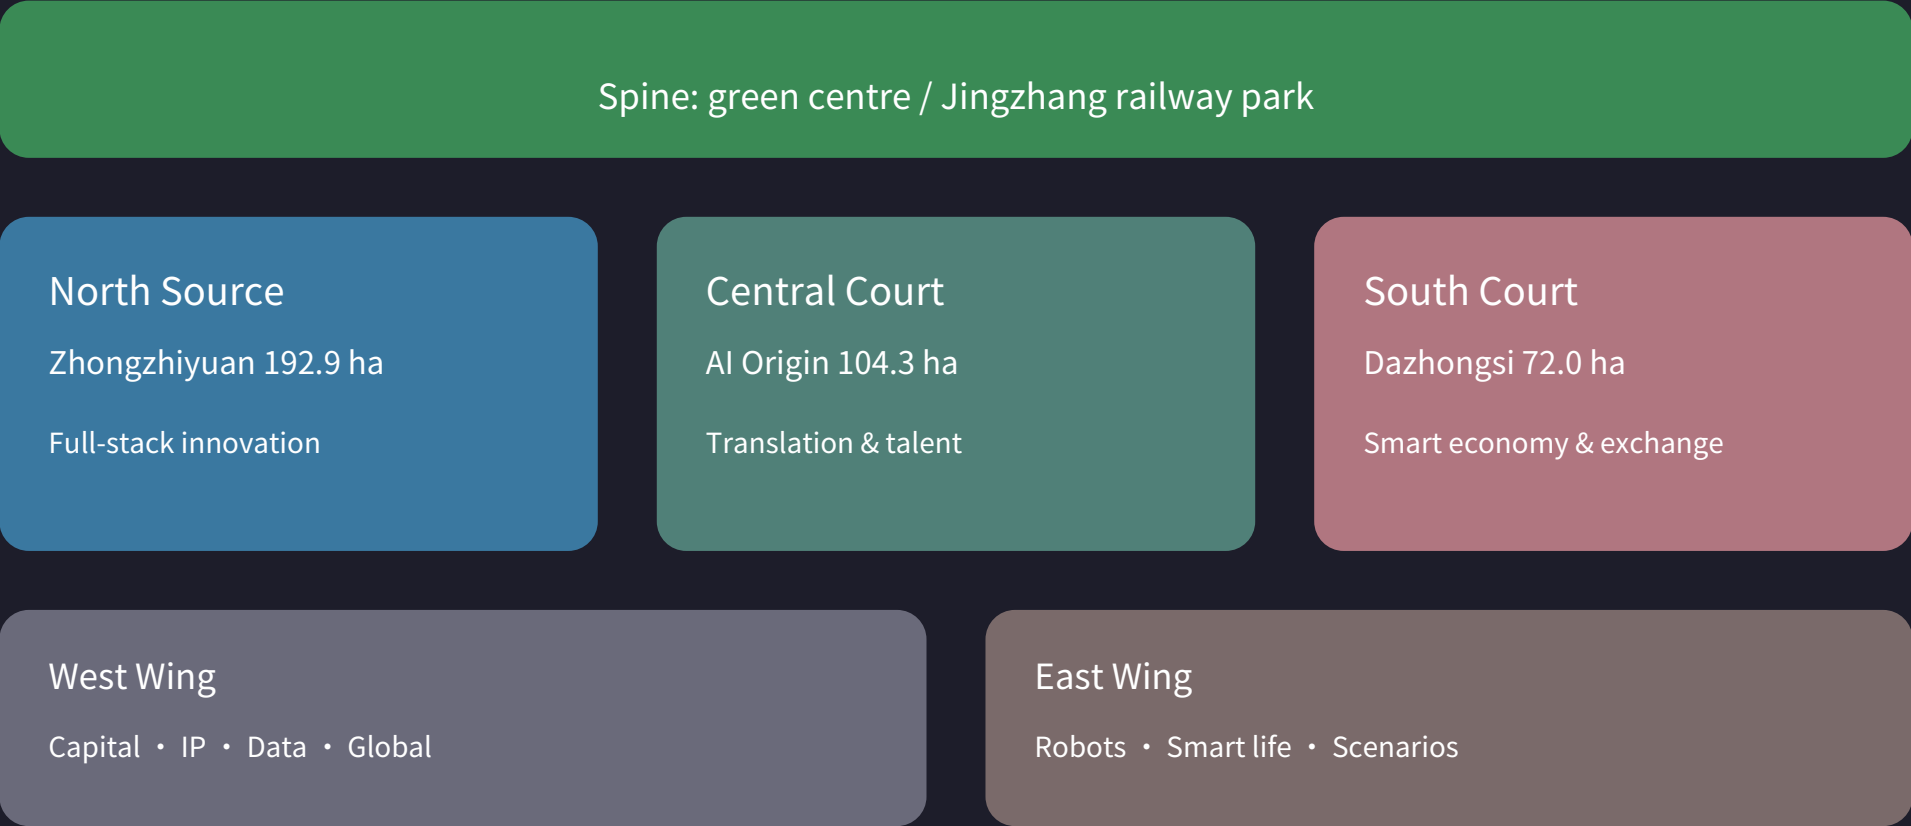

The proposal uses the Nine-Chapter classification logic as its backbone, organising the belt into One Spine (green centre along the Jingzhang railway park), Three Tings (Zhongzhiyuan / AI Origin / Dazhongsi), Two Wings (Zhongguancun service wing / Xiaoyuehe scenario wing) and Nine Chapters (13 AI scenario cards + 3 industrial test beds). It covers AI full-stack innovation, AI+ scenario empowerment, public space, Jingzhang x AI cultural narrative and long-term operations. All spatial suggestions are conceptual, generated on provisional boundaries, pending full recompute.

Provisional boundary notice
All spatial suggestions are conceptual. Boundaries use the repo's provisional rough polygons for generation/review only -- not official redlines or precise area evidence. Site area, key areas, land use and all metrics MUST be recomputed as a whole once the organizer releases formal polygons. See assumptions.json A-BOUNDARY-001.

Core data

Overall design scope site_area_sqm	11,412,825 sqm (≈ 11.41 km²)
Key areas key_area_count	3 (Zhongzhiyuan 192.9 ha / AI Origin 104.3 ha / Dazhongsi 72.0 ha)
Concept landmarks building_count	12
AI scenario cards	13 cards + 3 test beds + 5 personas + 18 nodes
Green / public space ratio	31.9% / 9.4%
Road length road_network_length_m	18.7 km
Phasing areas	Prologue 489.2 ha / Mid 395.9 ha / North 212.5 ha

One Spine - Three Tings - Two Wings - Nine Chapters

Nine Chapters: 13 AI scenario cards + 3 test beds + 5 personas + 3 landmarks (see panel 03)

01 • Overall Concept & Nine-Chapter Layout

一脉三庭两翼九章 • One Spine • Three Tings • Two Wings • Nine Chapters

JZC-9C proposes a One Spine • Three Tings • Two Wings • Nine Chapters structure:

- Spine: green centre -- Jingzhang railway park east-west corridor (culture, ecology, slow mobility)
- Three Tings: North (Zhongzhiyuan) / Middle (AI Origin) / South (Dazhongsi)
- Two Wings: Zhongguancun service wing / Xiaoyuehe scenario wing
- Nine Chapters: 13 AI scenario cards + 3 industrial test beds + 5 user personas

Three orientations: Jingzhang heritage belt / urban AI life belt / AI convergence innovation belt

Five functions: full-stack AI innovation / world-class AI ecosystem / AI+ scenarios / smart AI city / AI governance voice

All spatial suggestions are conceptual; provisional boundaries, missing regulatory and engineering data are disclosed. Full recompute required once formal polygons are released.

Provisional boundary notice

All spatial suggestions are conceptual. Boundaries use the repo's provisional rough polygons for generation/review only -- not official redlines or precise area evidence. Site area, key areas, land use and all metrics MUST be recomputed as a whole once the organizer releases formal polygons. See assumptions.json A-BOUNDARY-001.

02 • Three Key Areas

North • Jiuzhang Pavilion (Zhongzhiyuan / 192.9 ha)

- Role: garden-style full-stack innovation district
- Structure: two belts + one core -- Qinghe eco edge + full-stack R&D belt + innovation plaza
- AI scenarios: Full-stack Pavilion / Governance Sandbox / Biennial Hall / Star Chart Terrace
- Risks: compute energy / utilities / land intensity

Middle • Jiuzhang Origin (AI Origin / 104.3 ha)

- Role: campus-adjacent translation & talent community
- Structure: one hall + one street + one loop -- open-source release hall + translation street + slow loop
- AI scenarios: Open-source Release Hall / Translation Post / Talent Return
- Risks: campus boundary / data authorization / community participation

South • Jiuzhang Market (Dazhongsi / 72.0 ha)

- Role: urban smart-economy & international exchange district
- Structure: one axis + four quadrants -- rail-station axis + walking links
- AI scenarios: Smart Mobility / Smart Consumption / Data Element / Origin Station
- Risks: station integration / commercial renewal / traffic organisation

Provisional boundary notice
All spatial suggestions are conceptual. Boundaries use the repo's provisional rough polygons for generation/review only -- not official redlines or precise area evidence. Site area, key areas, land use and all metrics MUST be recomputed as a whole once the organizer releases formal polygons. See assumptions.json A-BOUNDARY-001 .

03 • AI Scenarios & Industrial Tests

- SC-AI-01 智能出行体验站 / Smart Mobility

SC-AI-03 近校成果转化驿站 / Campus Translation Post

SC-AI-05 智能经济中心 / Smart Economy Center

SC-AI-07 机器人配送体验 / Robot Delivery

SC-AI-09 全栈阁 / Full-stack Pavilion

SC-AI-11 算力驿站 / Compute Post
- SC-AI-02 AI 原点开源发布厅 / Open-source Release Hall

SC-AI-04 智能消费街区 / Smart Consumption

SC-AI-06 数据要素会客厅 / Data Element Salon

SC-AI-08 数据要素服务楼 / Data Service Building

SC-AI-10 安全治理沙盒 / Governance Sandbox

SC-AI-12 京张AI双年会永久会场 / Biennial Hall

SC-AI-SEN 银龄 AI 邻里客厅 / Senior-friendly AI Living Room

3 industrial test beds

- SC-AI-IND-01 工业具身智能测试场 / Industrial embodied AI (西翼 • 中关村)
- SC-AI-IND-02 机器人配送与低速试运营 / Robot delivery low-speed (东翼 • 小月河)
- SC-AI-IND-03 大模型红队与标准研讨 / LLM red-team & standards (北源 • 众智园)

5 user personas • 3 AI pilgrimage landmarks

- 画像 personas: 开源开发者 / 初创团队 / 头部企业访客 / 周边居民 / 高校师生
- 地标 landmarks: 源点站(南庭) / 算法殿(绿脉中枢) / 星图台(北源)

04 • Compliance & Standards

Announcement 1.3 design tasks (11) + agent.1-6 tasks (6) fully covered; 32 compliance requirements.
7 professional standards (incl. WCAG-2.2-AA accessibility); 44 design-depth items complete.
23 assumptions disclosed (data gaps / conceptual / recompute / privacy / copyright / investment / accessibility).
All data from geometry/*.geojson + structured JSON + proposal.md; cross-checked via metrics.json + compliance + standards.

Provisional boundary notice
All spatial suggestions are conceptual. Boundaries use the repo's provisional rough polygons for generation/review only -- not official redlines or precise area evidence. Site area, key areas, land use and all metrics MUST be recomputed as a whole once the organizer releases formal polygons. See assumptions.json A-BOUNDARY-001.

05 • Phasing & Operations

- 01 / Prologue 2026-2028 ≈ 489.2 ha — South + green spine
- 02 / Middle 2028-2032 ≈ 395.9 ha — Middle + two wings
- 03 / North 2032-2035 ≈ 212.5 ha — North full-stack

Annual events

- 京张AI双年会（春秋） / Jingzhang AI Biennial (spring/autumn)
- 开源周 / Open-source Week • 数据治理周 / Data Governance Week
- 机器人节 / Robot Festival • 城市艺术月 / Urban Art Month

Operations

- 开源理事会 + 公共体验小组 + 城市合伙人 / Open-source council + experience group + city partners
- 测试场机制：申请—评估—试点—公开—评估迭代 / Apply-assess-pilot-public-iterate
- 转化路径：近校转化 → 公共发布 → 沙盒 → 试点 → 规模化 / Translation: campus → release → sandbox → pilot → scale

Provisional boundary notice
All spatial suggestions are conceptual. Boundaries use the repo's provisional rough polygons for generation/review only -- not official redlines or precise area evidence. Site area, key areas, land use and all metrics MUST be recomputed as a whole once the organizer releases formal polygons. See assumptions.json A-BOUNDARY-001.
