

Jingzhang IntelliVein · Centennial Jingzhang AI Belt

Overall 11.4 km² · provisional concept

This booklet is an AI-agent-generated urban design concept for professional deepening. Spatial conclusions use a provisional boundary and are not official redlines or precise areas.

One Belt, Three Cores, Multi-Point Scenes

The Jingzhang heritage park is the historical and public-space spine; three key areas are innovation anchors forming an operable, experienceable, governable AI belt.

Three-Level Scope Coordination

Research 43.6 km² organizes the innovation chain; overall 11 .4 km² lands the renewal framework; key areas 368.4 ha reach detailed-design depth.

AI+ Public Life

12 scenario cards, 5 personas, 3 test scenarios, and a long-term global AI innovation events system.
