

JING-ZHANG CIVIC STACK

HANDOVER-READY · CIRCULAR · BENEFICIAL

Urban AI is not a collection of black-box devices. Five interoperable public layers connect spatial structure, three key areas and public-benefit obligations; later pages show evidence, prototypes, scenarios, projects and exits.

01 JING-ZHANG CIVIC STACK

ONE EVIDENCE LINE · FOUR CARE RIBS · THREE STACK YARDS · FIVE HANDOVER-READY LAYERS

- ZHONGZHIYUAN | VALIDATION GARDEN
- AI ORIGIN | TRANSFER COMMONS
- DAZHONGSI | LIVING MARKETPLACE
- GOVERNANCE / MEMORY: DUTY, APPEAL, RETIRE
- DATA / SCENARIO: MINIMUM PURPOSE + WINDOW
- ENERGY / COMPUTE: BYPASS, METER, RETIRE
- MOBILITY / CARE: PHONE-FREE + ACCESSIBLE
- HERITAGE / GROUND: EVIDENCE + PUBLIC EDGE

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

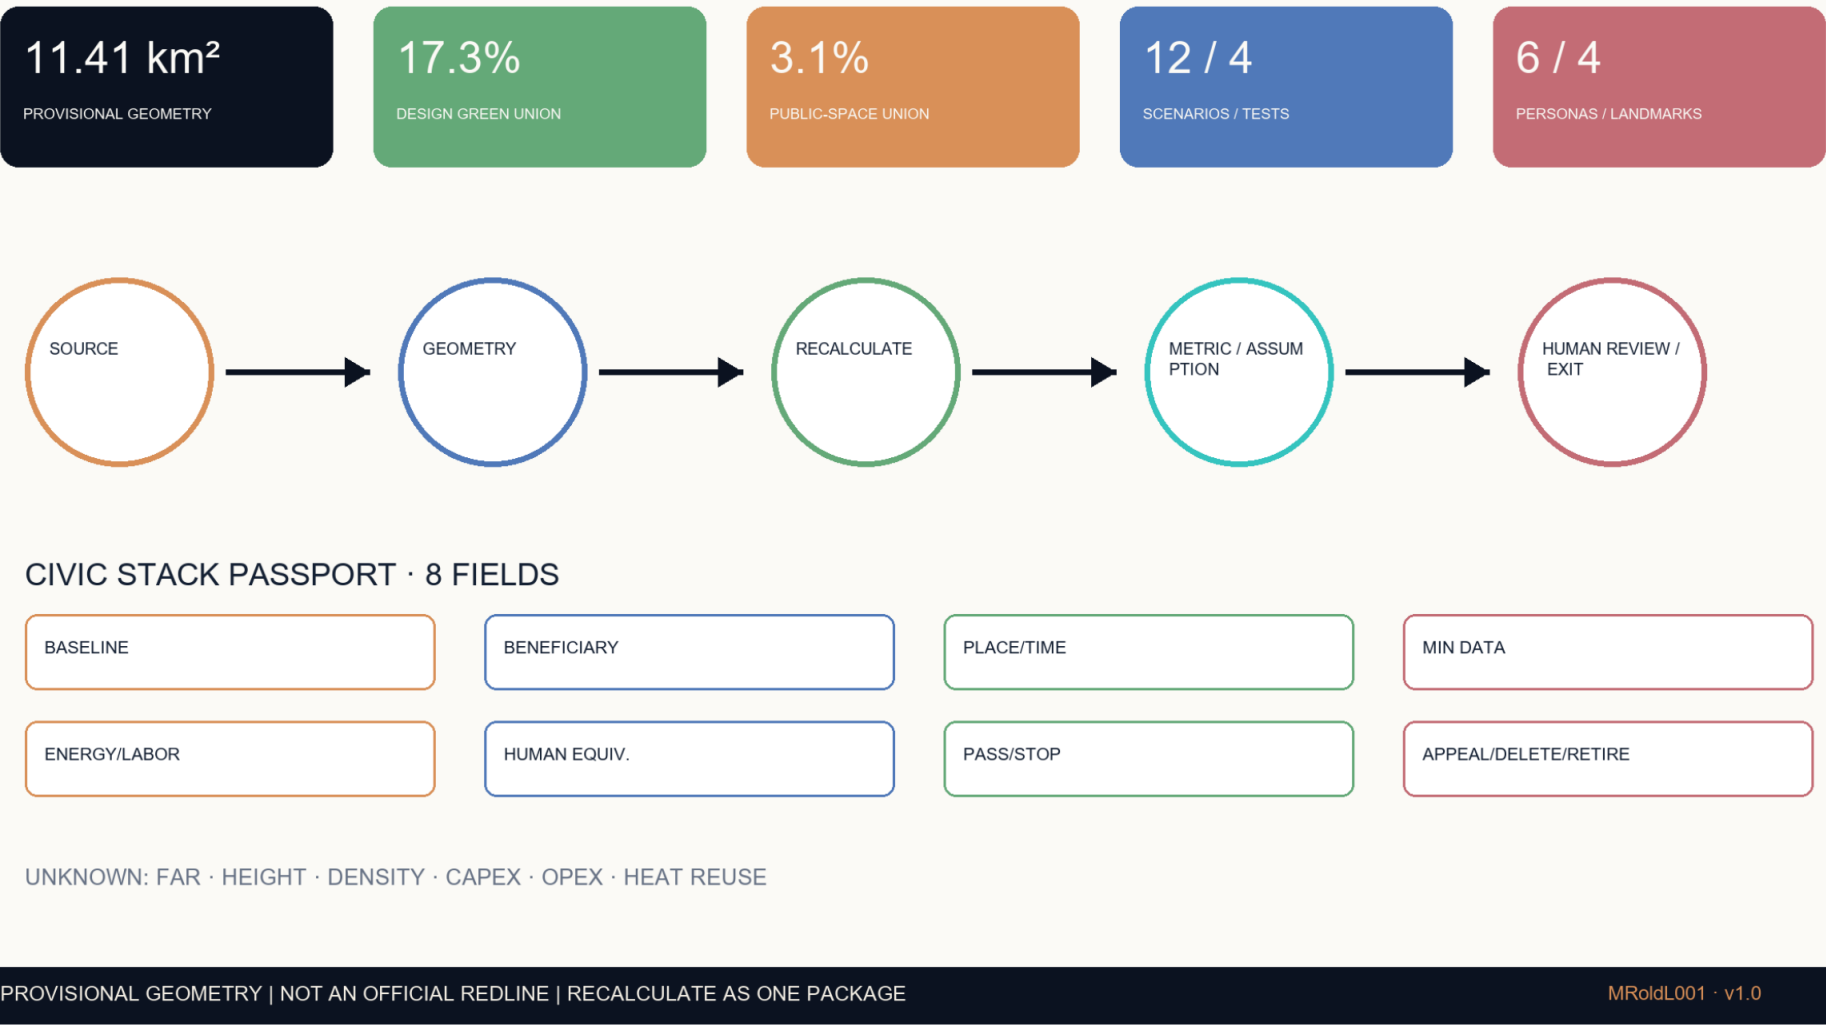

MRoldL001 · v1.0

12 SCENARIOS · 4 TESTS · 6 PERSONAS · 4 LANDMARKS

100% PASSPORT + HUMAN-HANDOVER COVERAGE

05 METRICS + EVIDENCE CHAIN

KNOWN FROM GEOMETRY; UNKNOWN STAYS OUTSIDE THE GATE; EVERY SCENARIO HAS A HUMAN EQUIVALENT + EXIT

Exact official geometry is absent. Every polygon is provisional repository data and every design feature is clipped to it. It is not an official redline, approval, survey or precise-area basis; regenerate the full package after official data arrives.

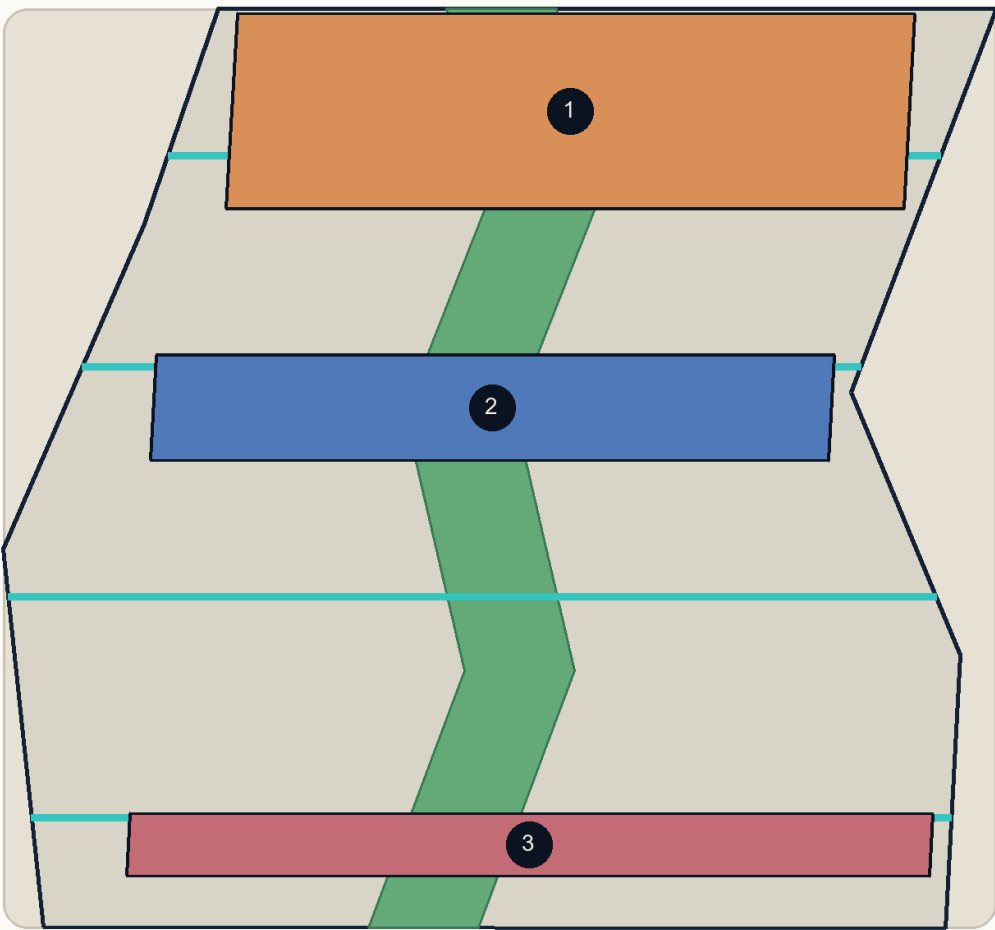

02 THREE SCALES + FIVE CITY LAYERS

One evidence line, four care ribs, three yards, two return loops

The coordinated scale studies innovation and public return; the overall scale stitches an evidence line and care ribs; the detailed scale tests three yards. Layers are heritage/ground, mobility/care, energy/compute, data/scenario and governance/memory.

01 JING-ZHANG CIVIC STACK

ONE EVIDENCE LINE · FOUR CARE RIBS · THREE STACK YARDS · FIVE HANDOVER-READY LAYERS

- ZHONGZHIYUAN | VALIDATION GARDEN
- AI ORIGIN | TRANSFER COMMONS
- DAZHONGSI | LIVING MARKETPLACE
- GOVERNANCE / MEMORY: DUTY, APPEAL, RETIRE
- DATA / SCENARIO: MINIMUM PURPOSE + WINDOW
- ENERGY / COMPUTE: BYPASS, METER, RETIRE
- MOBILITY / CARE: PHONE-FREE + ACCESSIBLE
- HERITAGE / GROUND: EVIDENCE + PUBLIC EDGE

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

MRoldL001 · v1.0

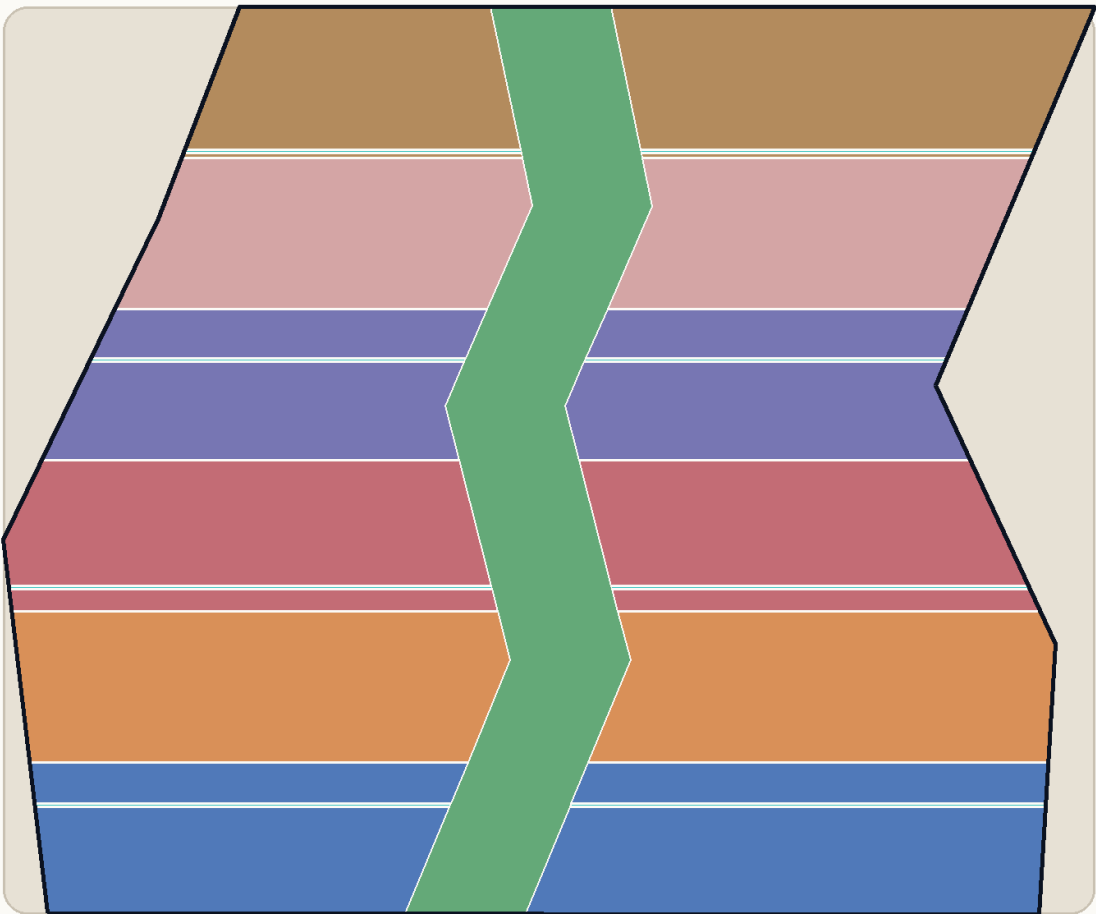

03 OVERALL STRUCTURE

Complete conceptual partition; not ownership or statutory control

Research, services, care, education, housing, culture, mobility and park bands form a complete conceptual partition. Roughly twenty-six footprints test staffed ground floors, workshops, service spines and rain courts only.

02 THREE SCALES + LAND-USE STRUCTURE

A CIVIC-BENEFIT PARTITION, NOT CURRENT OWNERSHIP OR A STATUTORY PLAN

THREE SCALES

- 43.6 km² COORDINATED
INNOVATION + PUBLIC RETURN
- 11.4 km² OVERALL
LINE, RIBS + CIVIC UNITS
- 368.4 ha KEY AREAS
THREE DISTINCT YARDS

- / LEGEND
- / GREEN SPINE
 - / CARE RIBS
 - / VALIDATION R&D
 - / TRANSFER SERVICES
 - / COMMUNITY CARE
 - / EDUCATION
 - / HOUSING
 - / CULTURE

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

MRoldL001 · v1.0

04 THREE DISTINCT STACK YARDS

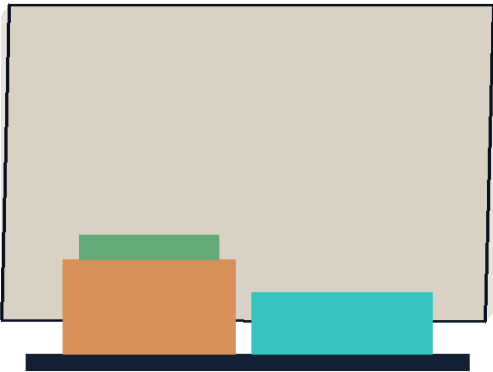

Validation Garden · Transfer Commons · Living Marketplace

The key areas share one Passport while users, section, operation and stop rules differ. Dazhongsi's rough polygon is not moved, avoiding an AI guess being presented as an official location.

03 THREE DISTINCT CIVIC STACK YARDS

VERIFY EQUIPMENT · TRANSFER KNOWLEDGE · SERVE DAILY LIFE

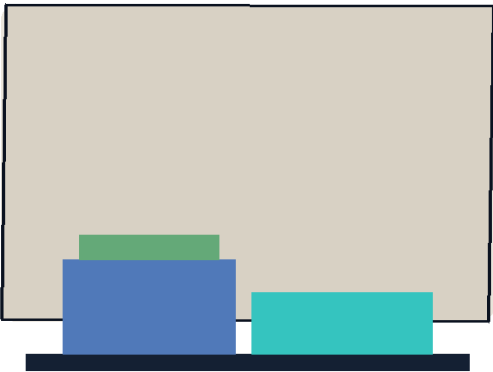

ZHONGZHIYUAN | VALIDATION GARDEN

GREENHOUSE—TEST YARD—QINGHE EDGE
VISIBLE BYPASS + METERING
MAINTAINERS FIRST; FAILED PILOTS EXIT

192.1 ha | announced approx.; polygon provisional

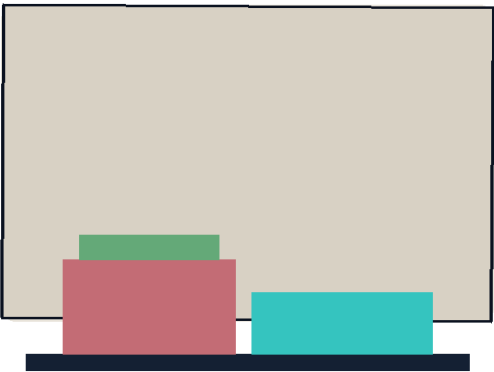

AI ORIGIN | TRANSFER COMMONS

TRANSFER HALL—WORKSHOP—CARE STREET
WALK-IN HUMAN CLINIC + AFFORDABLE SPACE
CODE/IP/DATA/RETIREMENT IN ONE PACK

104.3 ha | announced approx.; polygon provisional

DAZHONGSI | LIVING MARKETPLACE

STATION PORCH—MARKET—RIGHTS WINDOW
SMALL FIRMS + REPAIR + NIGHT WORK
BEACON SHOWS DUTY, NOT AD RANK

72.0 ha | announced approx.; polygon provisional

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

MRoldL001 · v1.0

05 ZHONGZHIYUAN PROTOTYPE

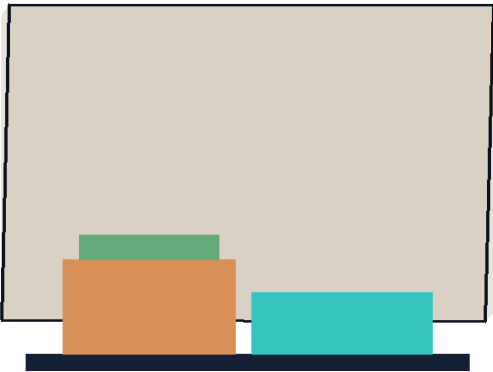

Greenhouse—test yard—Qinghe edge; bypass and exit

A detachable greenhouse exposes energy, rain, safety and human bypass. A test needs an operator, insurance, baseline, stop threshold and recovery plan. Maintenance workers are primary beneficiaries.

03 THREE DISTINCT CIVIC STACK YARDS

VERIFY EQUIPMENT · TRANSFER KNOWLEDGE · SERVE DAILY LIFE

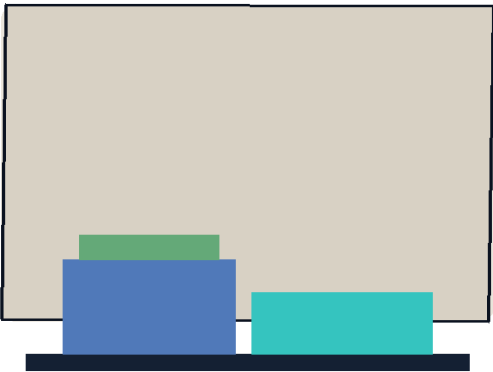

ZHONGZHIYUAN | VALIDATION GARDEN

GREENHOUSE—TEST YARD—QINGHE EDGE
VISIBLE BYPASS + METERING
MAINTAINERS FIRST; FAILED PILOTS EXIT

192.1 ha | announced approx.; polygon provisional

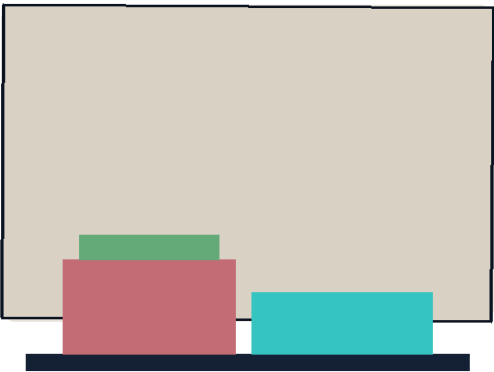

AI ORIGIN | TRANSFER COMMONS

TRANSFER HALL—WORKSHOP—CARE STREET
WALK-IN HUMAN CLINIC + AFFORDABLE SPACE
CODE/IP/DATA/RETIREMENT IN ONE PACK

104.3 ha | announced approx.; polygon provisional

DAZHONGSI | LIVING MARKETPLACE

STATION PORCH—MARKET—RIGHTS WINDOW
SMALL FIRMS + REPAIR + NIGHT WORK
BEACON SHOWS DUTY, NOT AD RANK

72.0 ha | announced approx.; polygon provisional

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

MRoldL001 · v1.0

06 AI ORIGIN PROTOTYPE

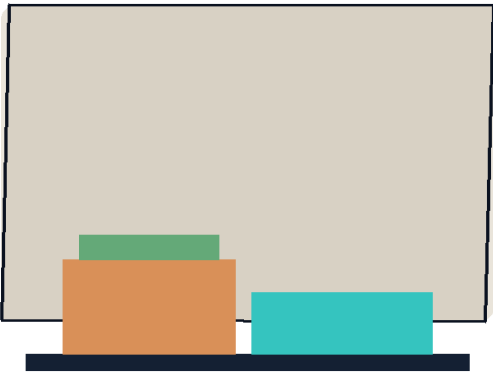

Transfer hall—workshop—care street; walk-in human clinic

An affordable transfer hall packages code, copyright, model cards, data permission, pilot contracts and retirement clauses. Shared workshops and a care street support daily campus-city exchange.

03 THREE DISTINCT CIVIC STACK YARDS

VERIFY EQUIPMENT · TRANSFER KNOWLEDGE · SERVE DAILY LIFE

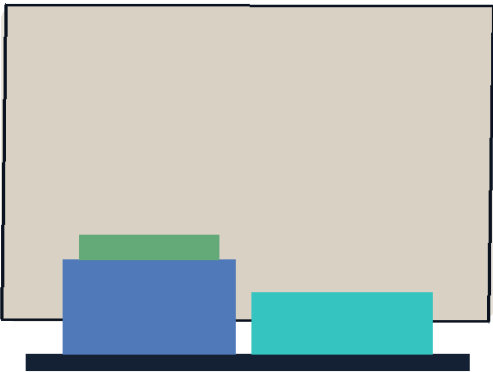

ZHONGZHIYUAN | VALIDATION GARDEN

GREENHOUSE—TEST YARD—QINGHE EDGE
VISIBLE BYPASS + METERING
MAINTAINERS FIRST; FAILED PILOTS EXIT

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

MRoldL001 · v1.0

07 DAZHONGSI PROTOTYPE

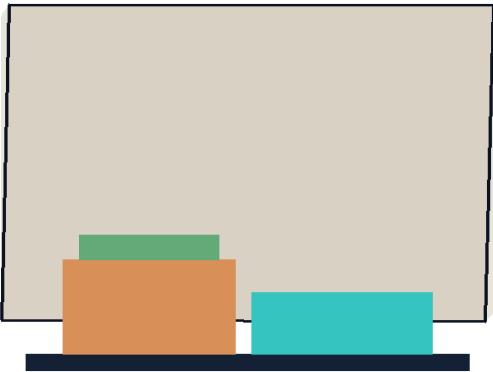

Station porch—living market—rights window; location provisional

A station porch, divisible market, device repair, international exchange, data rights and night-worker service mix together. The Beacon shows duty, service windows and appeal, never advertising rank.

03 THREE DISTINCT CIVIC STACK YARDS

VERIFY EQUIPMENT · TRANSFER KNOWLEDGE · SERVE DAILY LIFE

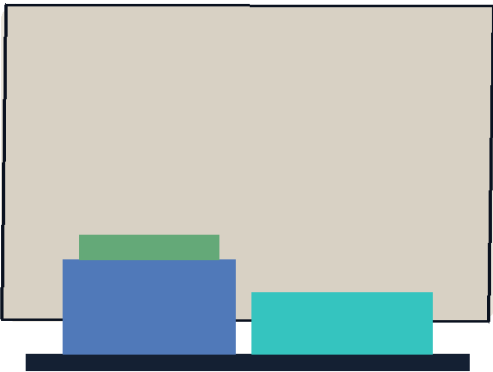

ZHONGZHIYUAN | VALIDATION GARDEN

GREENHOUSE—TEST YARD—QINGHE EDGE
VISIBLE BYPASS + METERING
MAINTAINERS FIRST; FAILED PILOTS EXIT

192.1 ha | announced approx.; polygon provisional

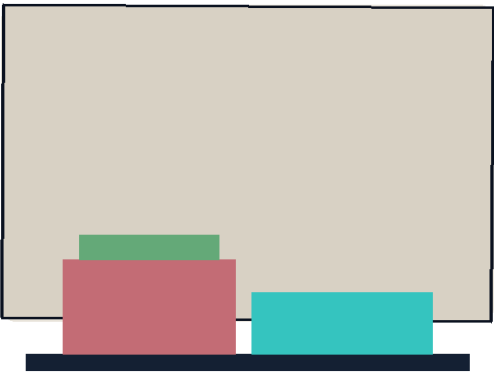

AI ORIGIN | TRANSFER COMMONS

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

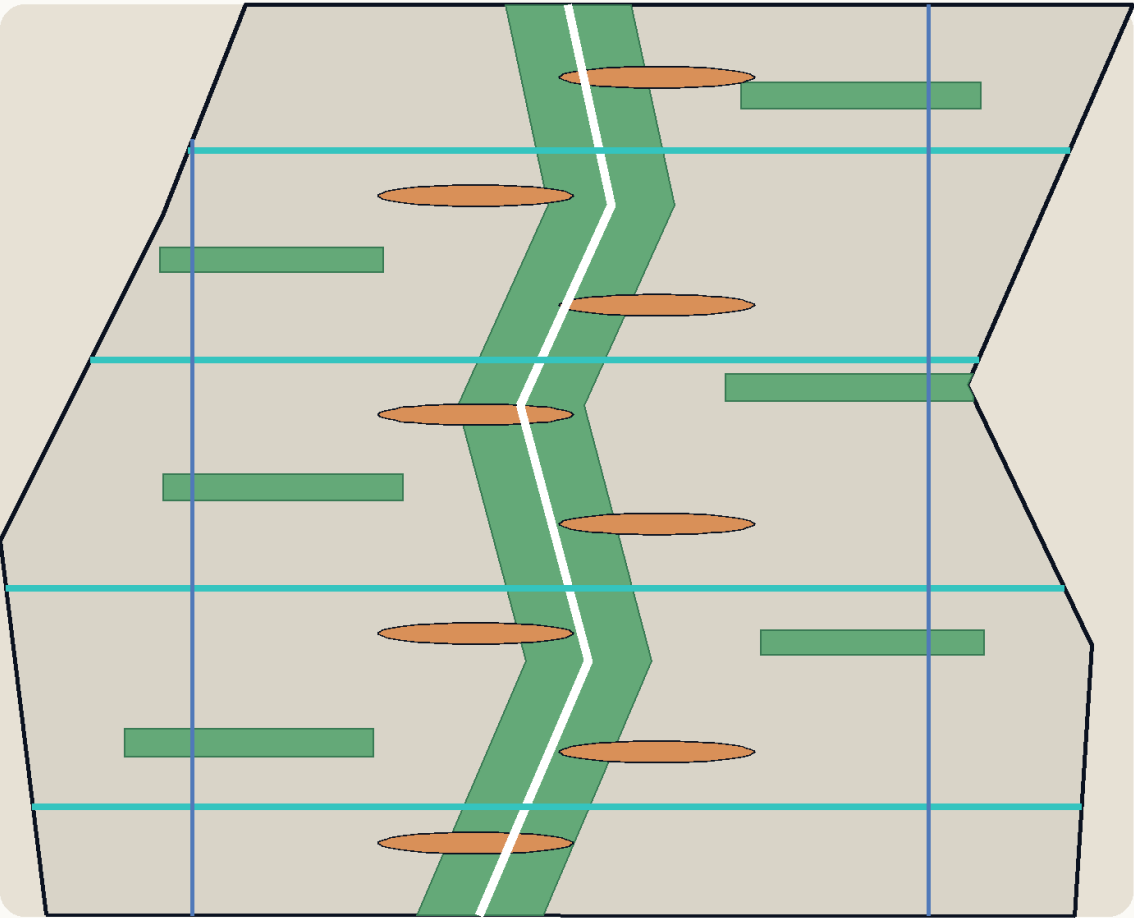

MRoldL001 · v1.0

08 MOBILITY, UTILITIES + BLUE-GREEN

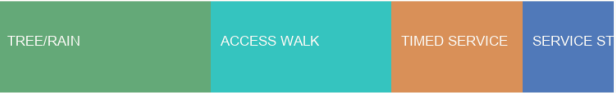

Phone-free, accessible, night-maintainable; bypass before connection

04 MOBILITY + BLUE-GREEN PUBLIC REALM

THE EVIDENCE LINE IS A SLOW-MOBILITY SPINE; CARE RIBS ARE ACCESS + HANDOVER INTERFACES

MAINTAINABLE STREET SECTION

HUMAN HANDOVER ≤10 MIN OFFLINE

LOW-SPEED DELIVERY: STOP ON NEAR MISS

RAIN COURT: MANUAL BYPASS

HEAT: CONNECT ONLY AFTER METERING

32.4 km CONCEPT ROUTES | NOT ROAD REDLINES

The street has clear footway, tactile edge, tree/rain band, timed service and maintainable equipment. Human offline handover, manual rain bypass and conventional heat bypass are acceptance requirements.

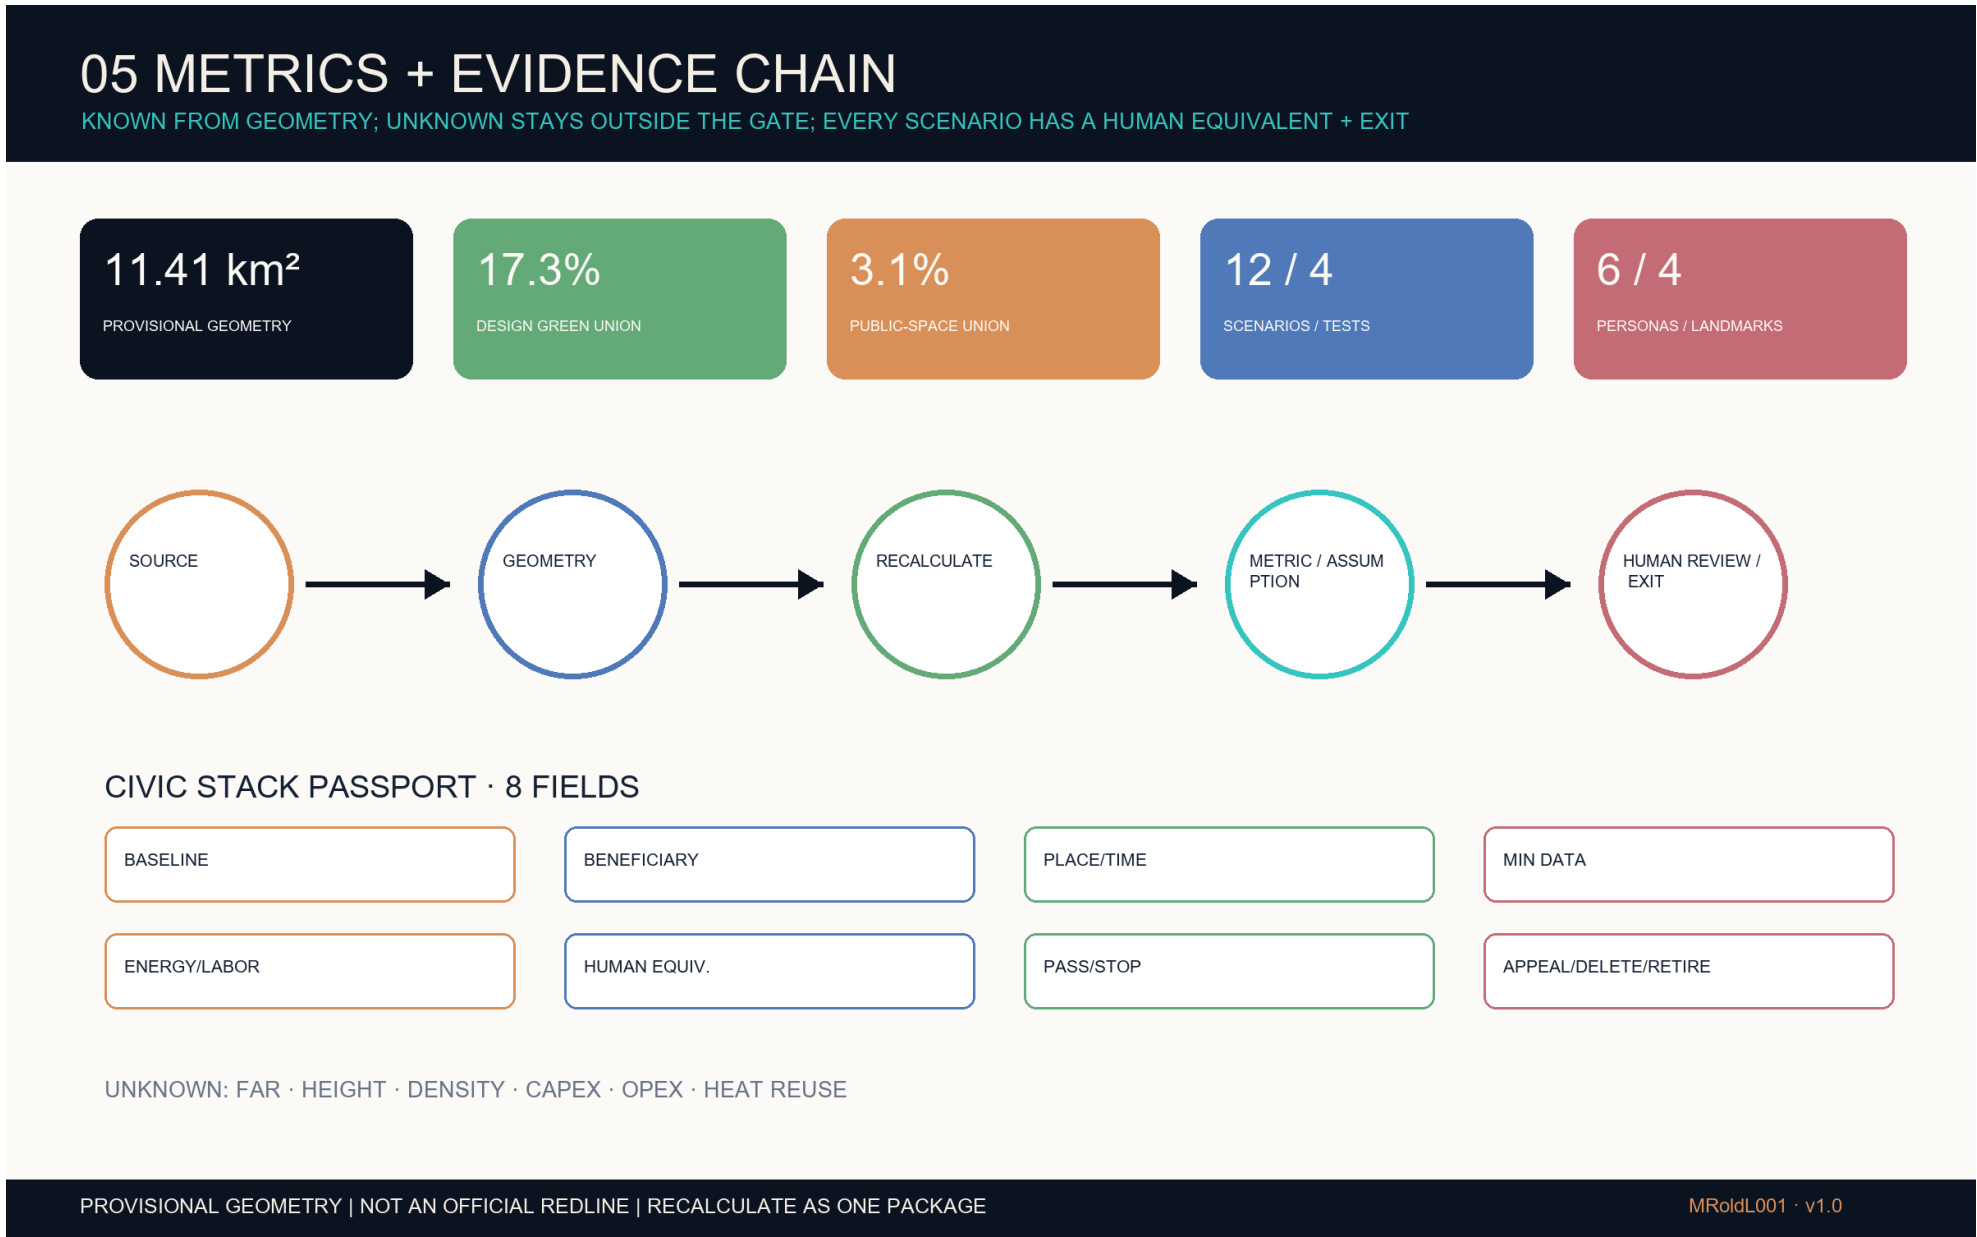

PROVISIONAL GEOMETRY | NOT AN OFFICIAL REDLINE | RECALCULATE AS ONE PACKAGE

MRoldL001 · v1.0

09 TWELVE CIVIC STACK PASSPORTS

Baseline—place/time—data—labor—human equivalent—pass/stop—exit

All twelve scenarios carry a human equivalent and deletion/retirement. Four tests have bounded place, time and stop rules. Six personas prioritize children, older and disabled people, night workers, couriers and small teams.

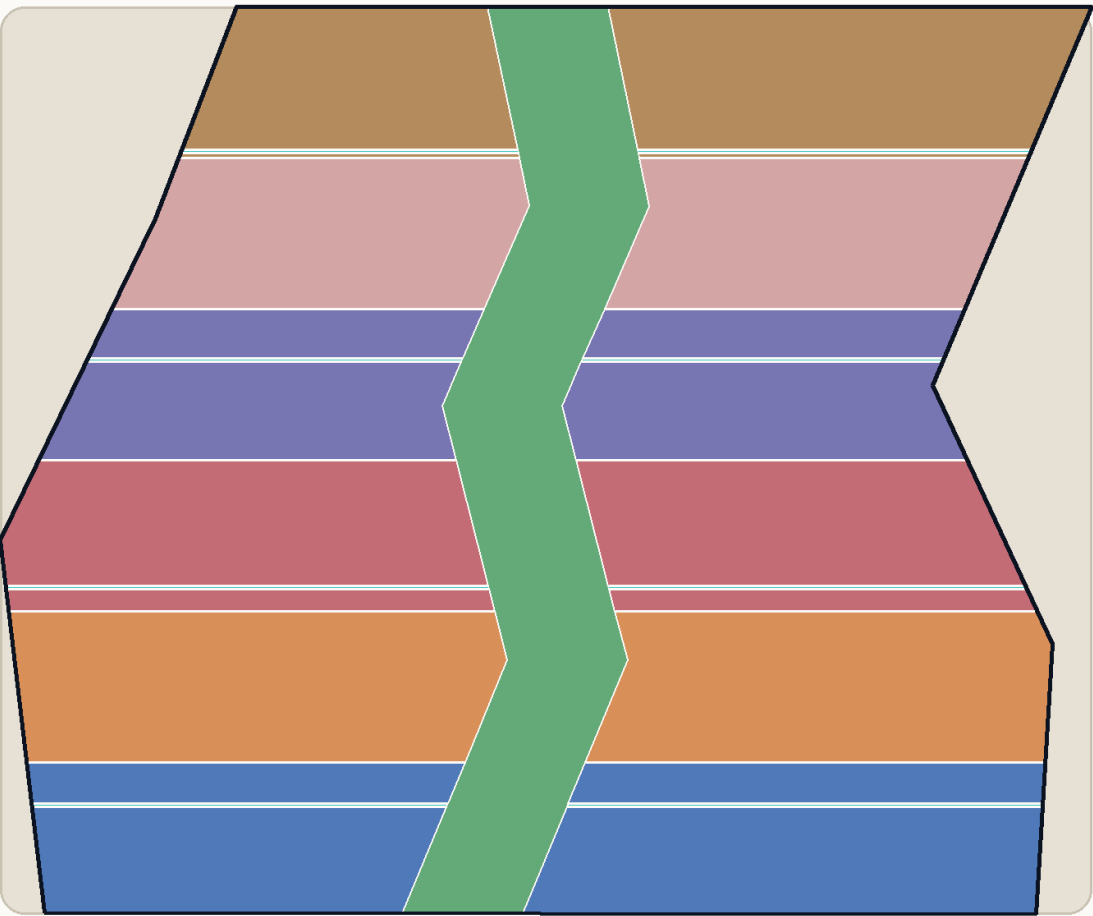

10 PROJECTS + GATES

Evidence and four tests before delivery; CAPEX/OPEX remain unknown

Nine projects cross evidence, funding, design, permit, insurance, maintenance, appeal and exit gates. No owner, property or whole-life cost means no crossing; phasing is not a government timetable.

02 THREE SCALES + LAND-USE STRUCTURE

A CIVIC-BENEFIT PARTITION, NOT CURRENT OWNERSHIP OR A STATUTORY PLAN

THREE SCALES

43.6 km² COORDINATED
INNOVATION + PUBLIC RETURN

11.4 km² OVERALL
LINE, RIBS + CIVIC UNITS

368.4 ha KEY AREAS
THREE DISTINCT YARDS

MRoldL001 · v1.0

11 METRICS, RISK + HANDOVER

Geometry recomputes; unknown stays outside; humans can take over

Provisional area 11.41 km²; design green 17.3%; public space 3.1%; 12 scenarios / 4 tests / 6 personas / 4 landmarks. FAR, height, density, CAPEX, OPEX and heat reuse remain unknown.
