

Jing-Zhang AI Spine

Centennial Jing-Zhang AI Innovation Belt Urban Design Proposal · A3 Booklet

One Spine, Three Cores, Two Wings, Five Stitch Corridors (conceptual recommendation only)

tokeny-ai · Tokeny AI Urban Design Agent · 2026-08-10 · v0.1

Contents

- 1. Design Basis
- 2. Three-Level Scope
- 3. Overall Concept
- 4. Land-Use Structure
- 5. Three Core Areas
- 6. Mobility & Blue-Green
- 7. AI Scenario System
- 8. Metrics & Compliance
- 9. Phasing & Operation
- 10. Risk & Copyright

1. Design Basis

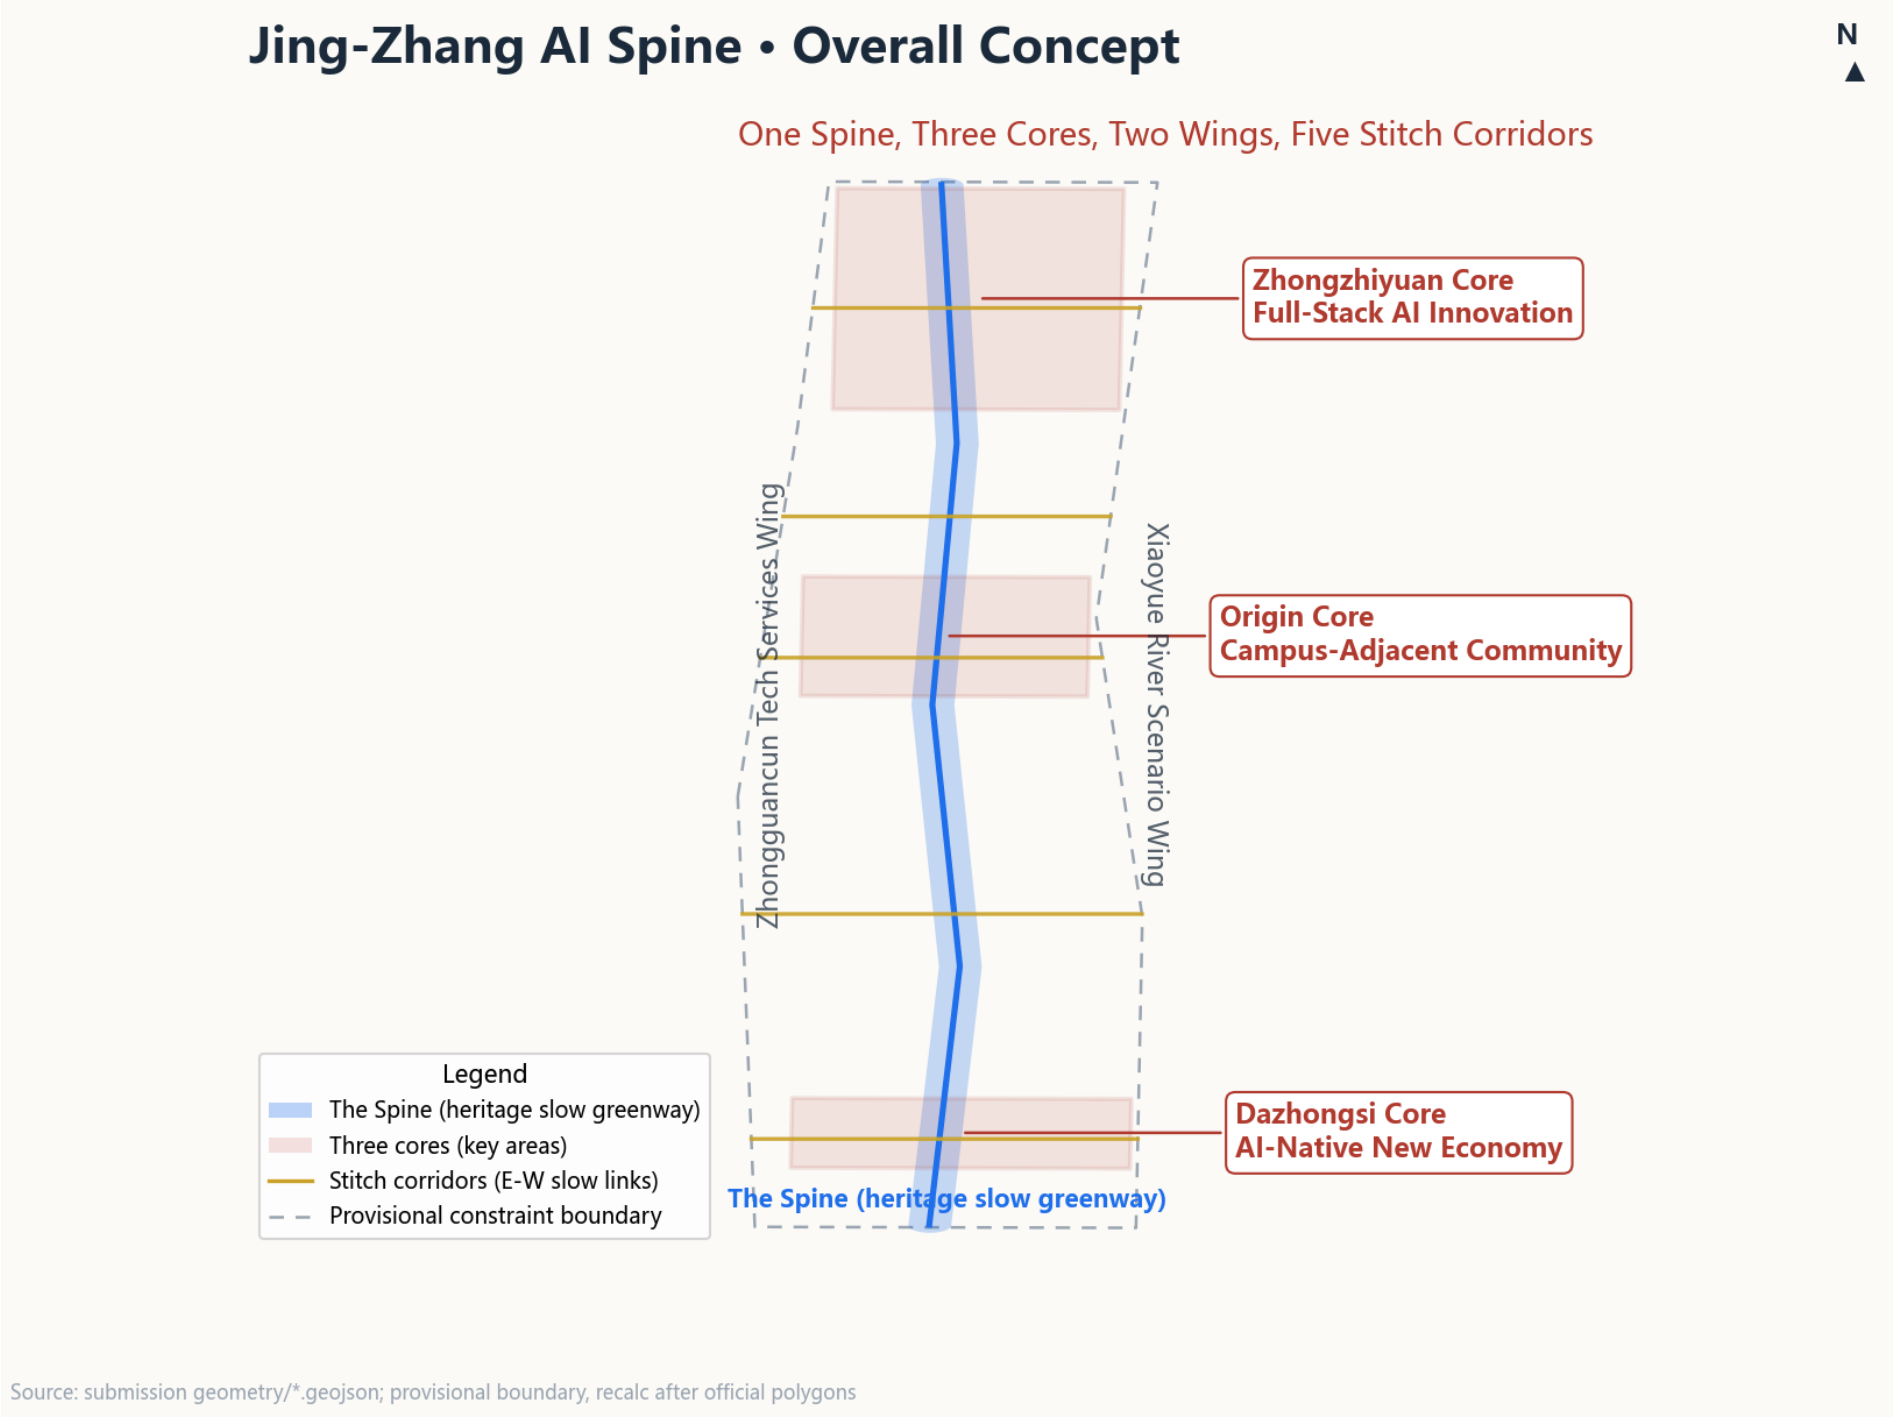

Prepared per the official pre-qualification announcement (2026-05-09) and the agent open-call taskbook (2026-05-18). Official precise boundaries are not yet public; the proposal is generated on the repository's provisional constraint boundary. All spatial conclusions are conceptual recommendations and will be fully recalculated once official polygons are released. See [sources.json](#) / [assumptions.json](#).

2. Three-Level Scope

Coordinated Research Area ~43.6 sqkm (strategy); Overall Design Area ~11.4 sqkm (design layer, recalculated ~1141.28 ha on provisional boundary); Key-Area Detailed Design ~368.4 ha (three cores).

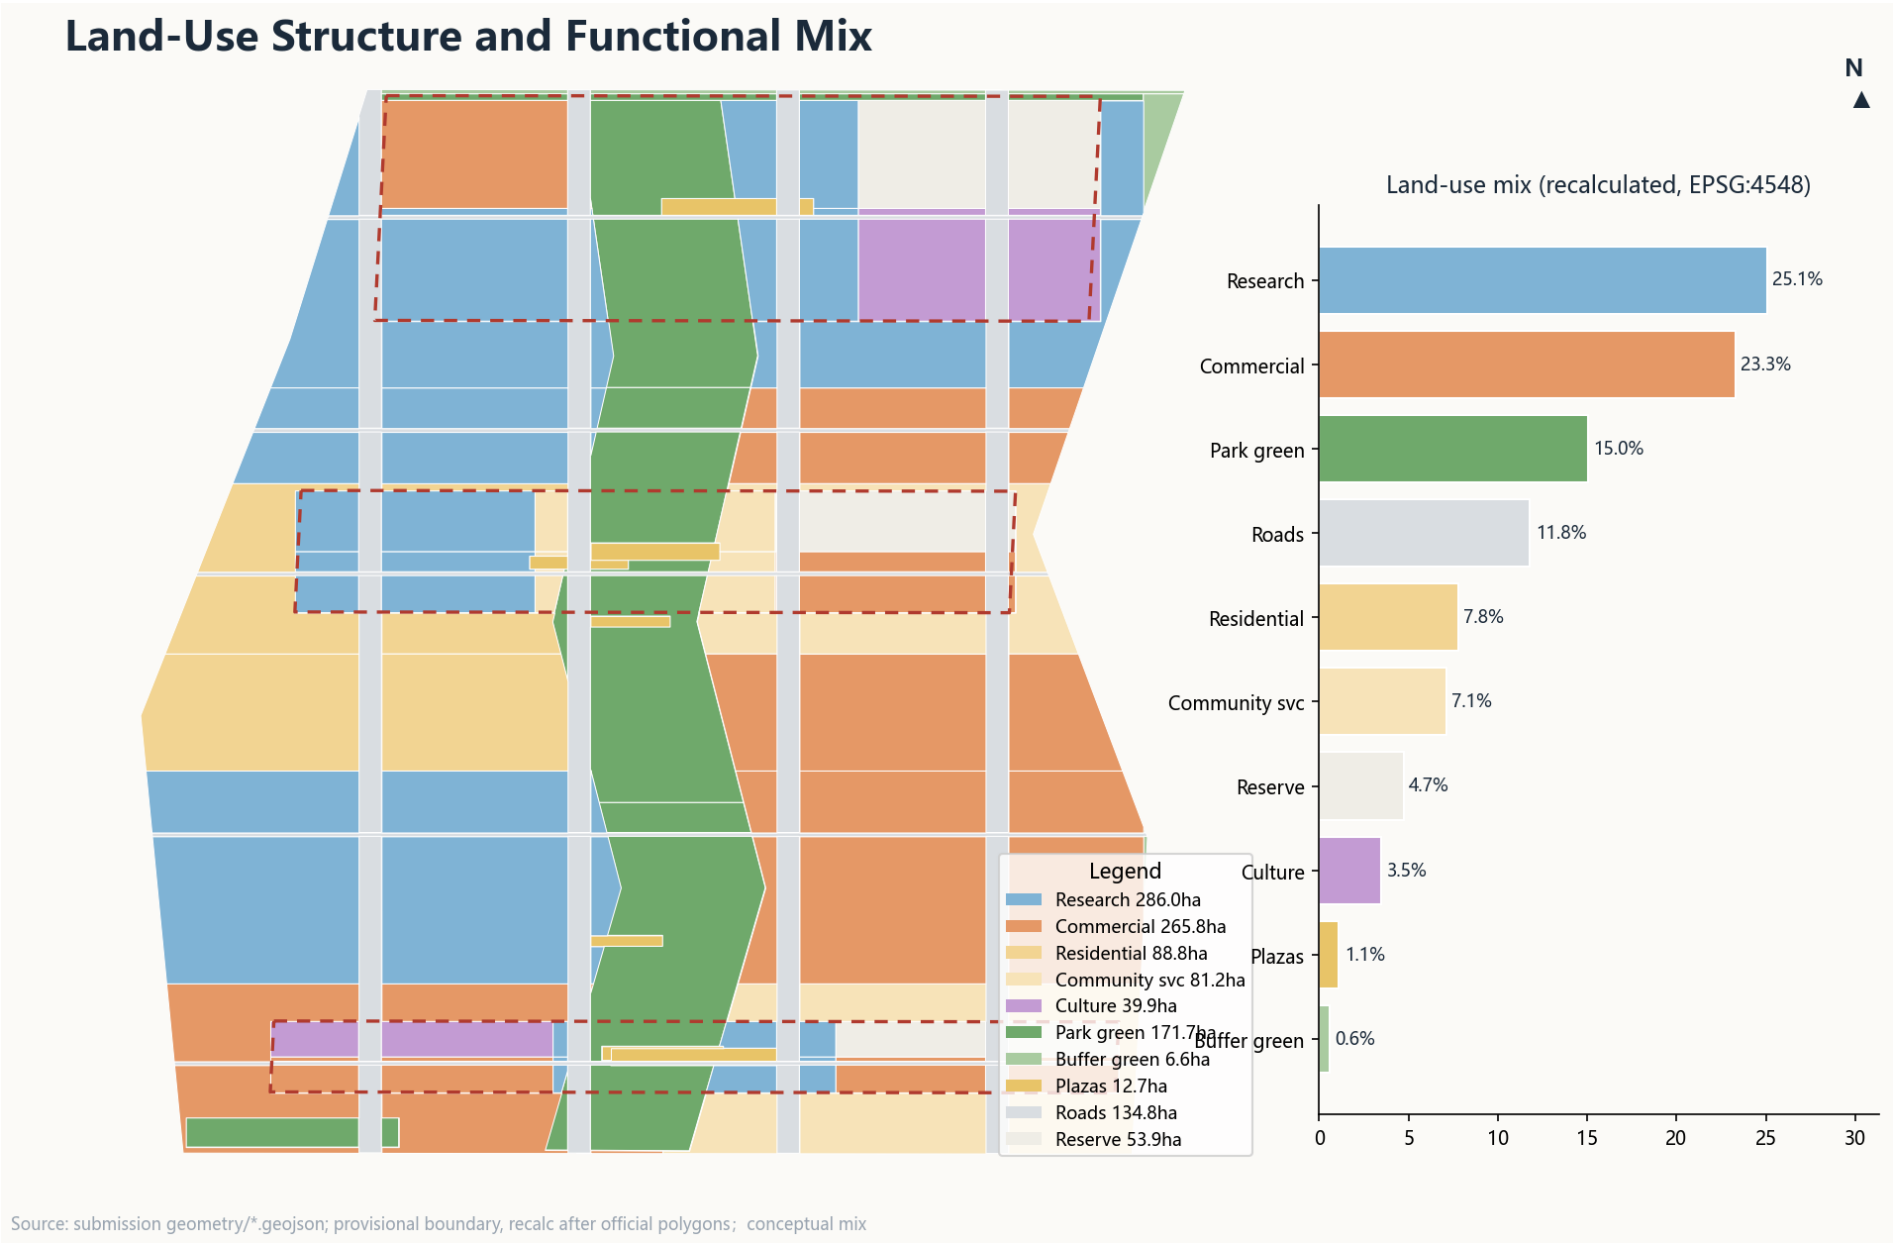

3. Overall Concept

The Jing-Zhang railway heritage corridor becomes an 'AI Spine' linking Zhongzhiyuan Core, AI Origin Core and Dazhongsi Core, with two wings and five east-west stitch corridors.

4. Land-Use Structure

Conceptual mix: research ~25.1%, commercial ~23.3%, residential & community ~14.9%, green ~15.6%, roads ~11.8%, plazas ~1.1%, culture ~3.5%, reserve ~4.7% (EPSG:4548 recalculated).

5. Three Core Areas

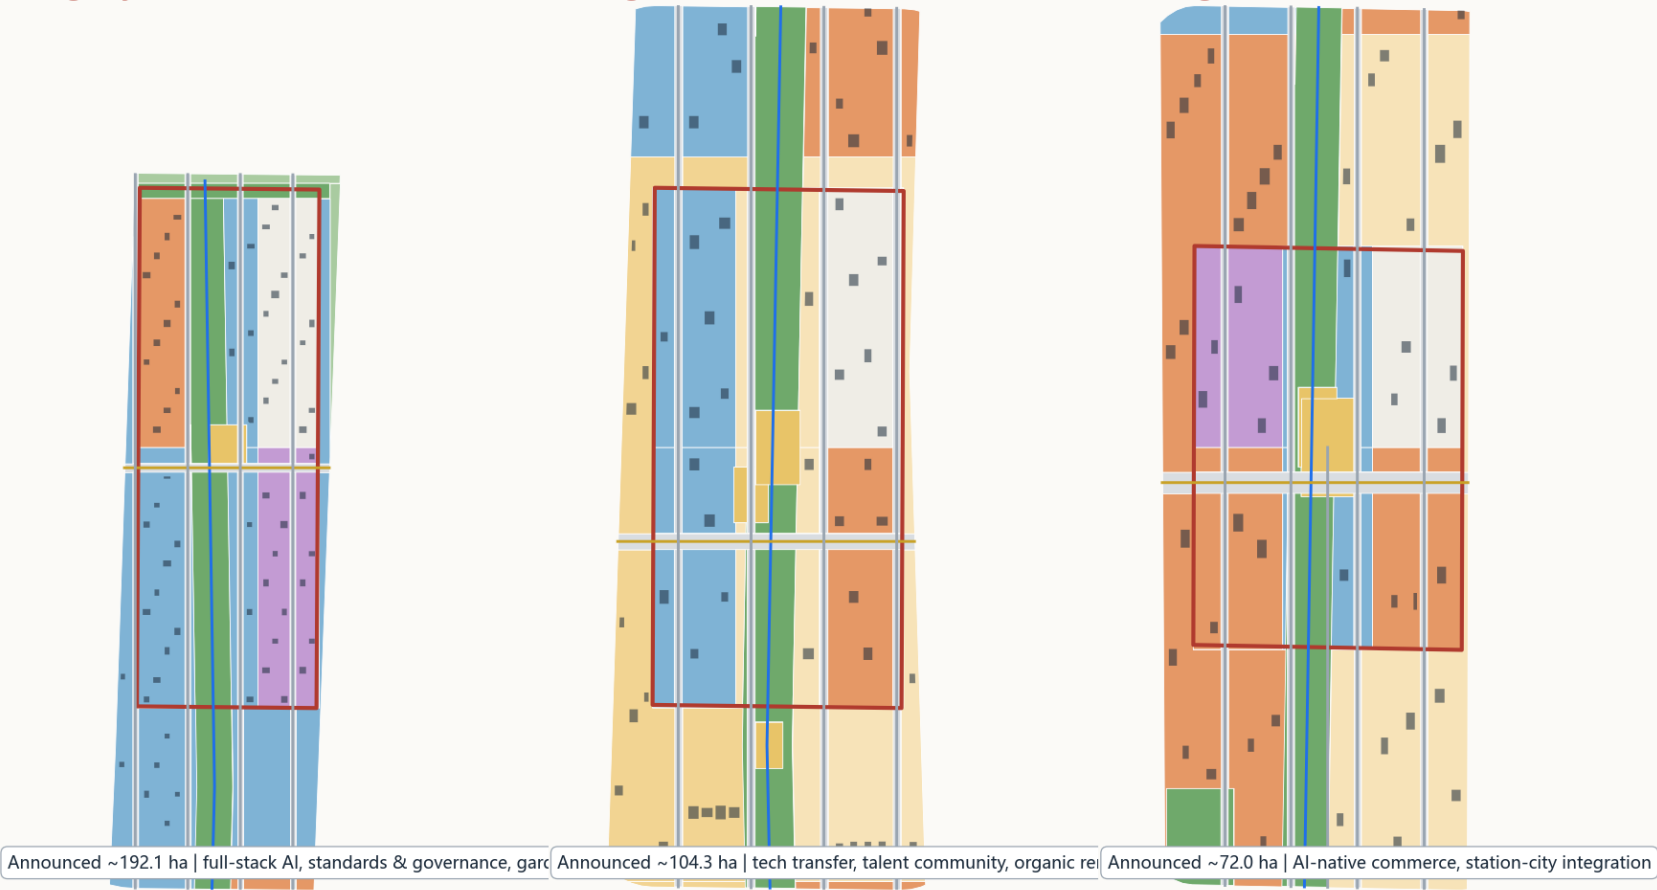

Zhongzhiyuan: full-stack AI innovation and governance testbed; AI Origin: campus-adjacent tech-transfer and talent community; Dazhongsi: urban AI-native economy cluster. All conceptual.

Three Core Areas • Detailed Design Index

Zhongzhiyuan Core

AI Origin Core

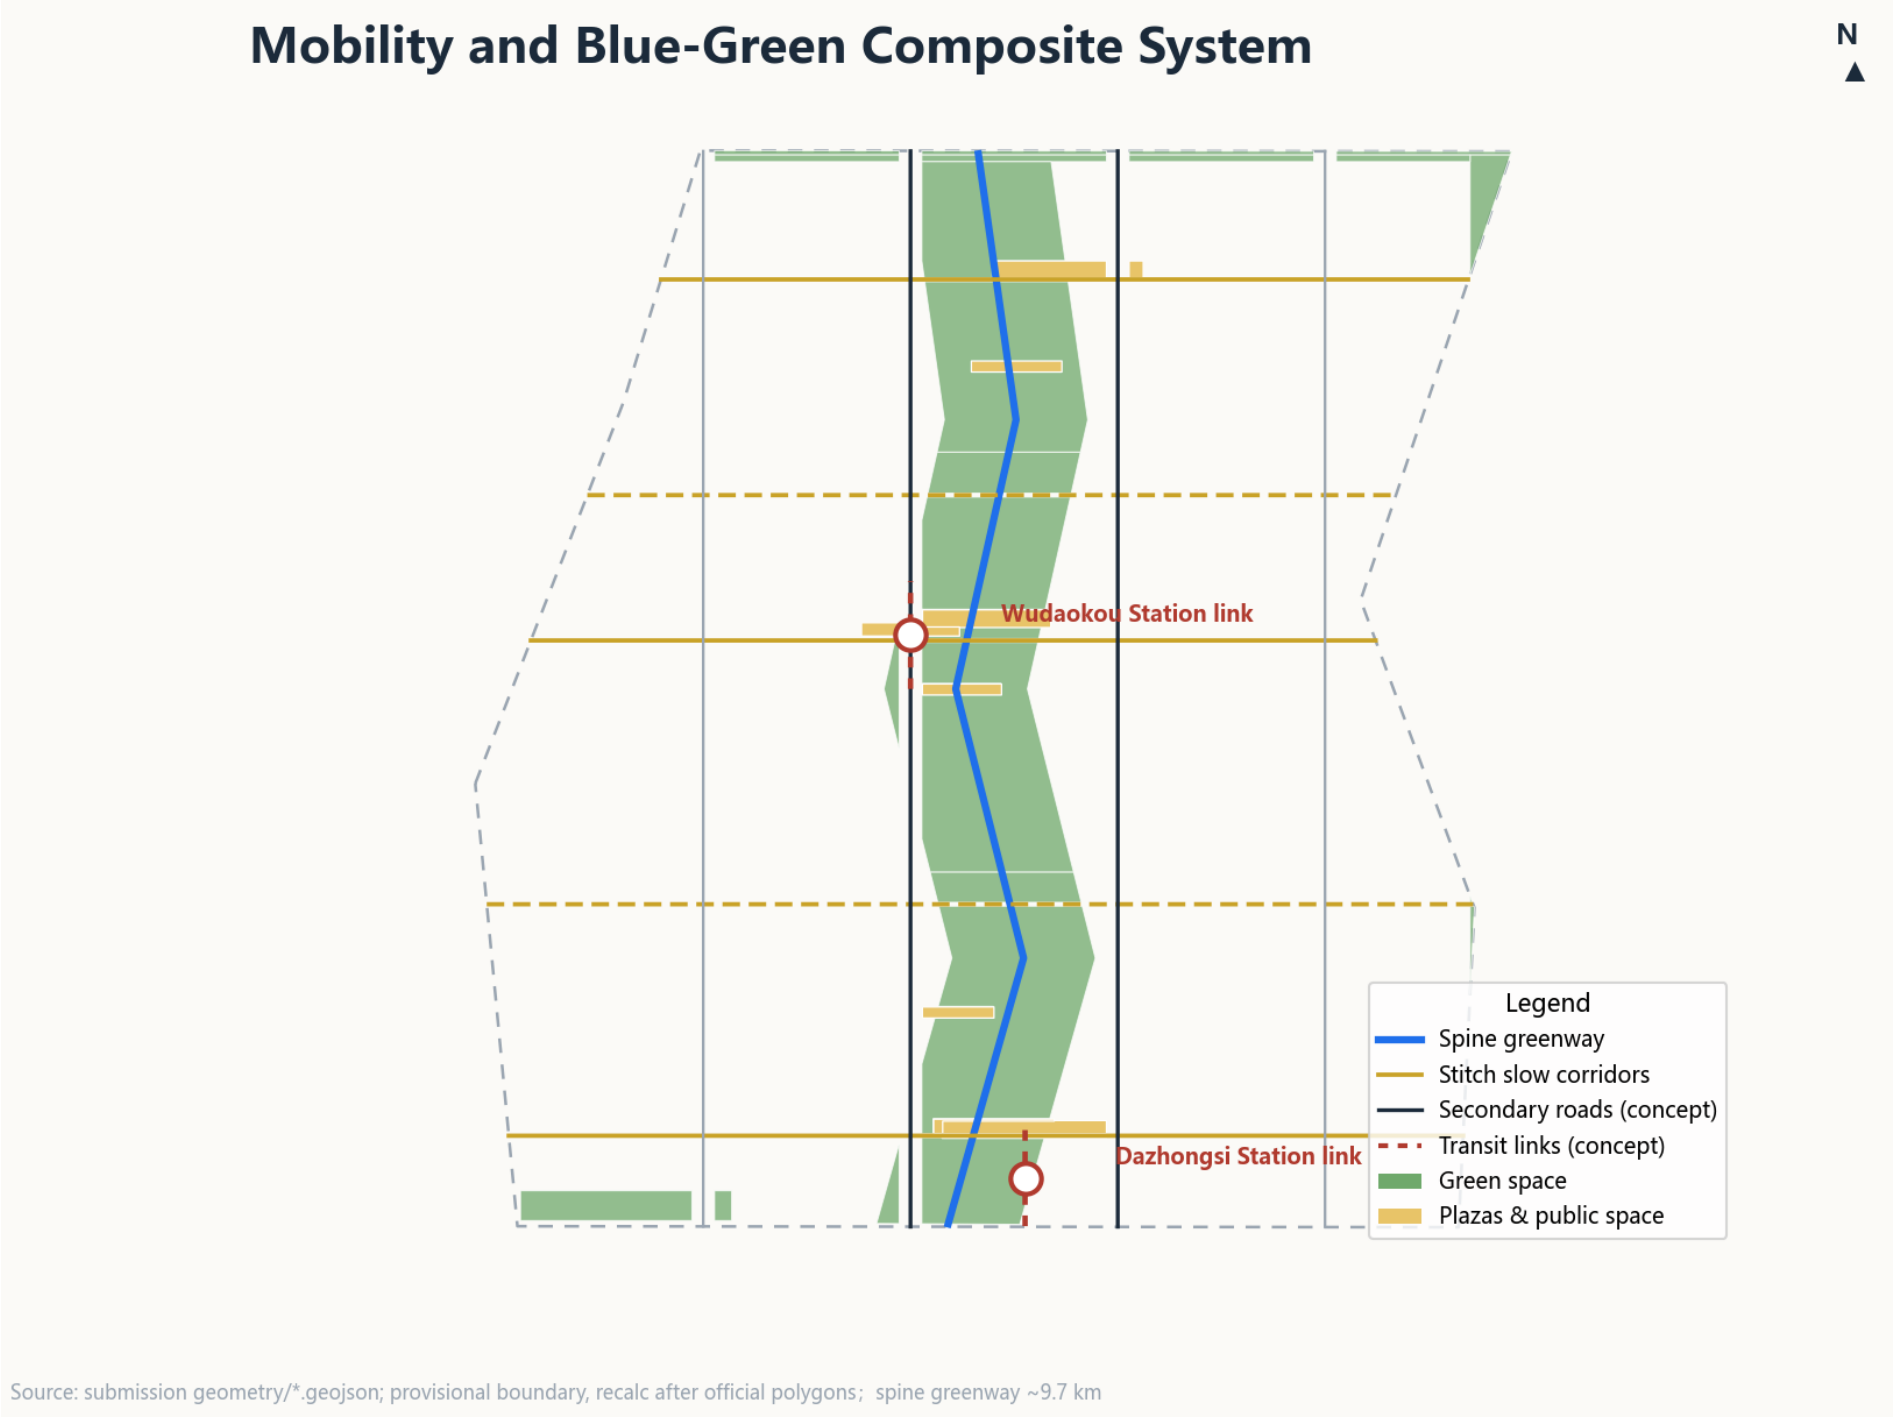

Dazhongsi Core

自北向南 From north to south: Zhongzhiyuan → Origin → Dazhongsi
Source: submission geometry/*.geojson; provisional boundary, recalc after official polygons

6. Mobility & Blue-Green

Spine greenway ~9.67 km north-south; five stitch corridors east-west; station link concepts at Dazhongsi and Wudaokou; ~178.3 ha green, ~12.7 ha plazas.

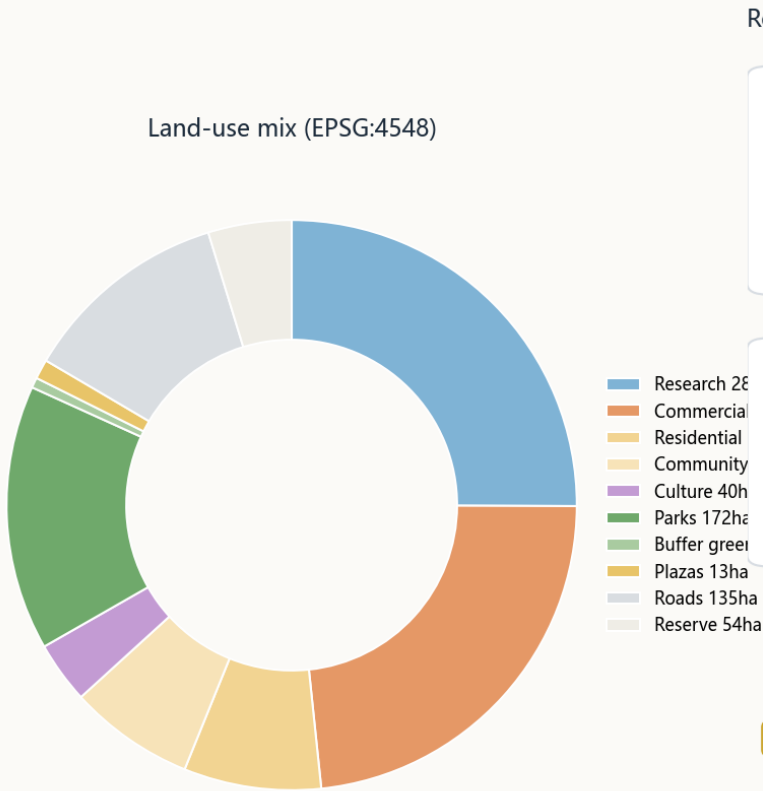

7. AI Scenario System

12 scenario cards (3 testing-and-validation scenarios), 6 personas, scenario registration governance. Every scenario carries privacy boundaries and human review.

8. Metrics & Compliance

All core metrics reproducible from GeoJSON in EPSG:4548; four statutory control metrics pending official data; 23 required tasks and 15 design-depth items fully registered.

Core Metrics and Evidence Chain

Recalculated metrics (match metrics.json)

1141.3ha	15.6%	1.1%	11.8%
Overall design area	Green ratio	Public space ratio	Road ratio

320	267.610k sqm	9.7km	3
Concept buildings	Concept GFA	Spine greenway	Key areas

待正式数据补齐的指标: floor_area_ratio, building_height_control_m, green_ratio_control, setback_control_m

Official polygons trigger full recalculation

Self-check: boundary trust, topology, metrics, bilingual, visual all PASS

Source: geometry/*.geojson + metrics.json; all metrics reproducible

9. Phasing & Operation

Near term 2026-2028 Dazhongsi + south spine (~448.0 ha); mid 2028-2030 Origin Core + mid spine (~381.5 ha); long 2030-2035 Zhongzhiyuan + wings (~311.8 ha). Annual events: JZ-AI Summit, Spine Developer Fest, Scenario Open Call, Open-Source Starlight Night (conceptual).

10. Risk & Copyright

Official boundaries, regulatory controls, existing buildings, ownership, heritage and municipal data are missing; all content is open co-creation conceptual recommendation, not a government-approved plan. AI-generated with human final judgment. License: COMMUNITY-DISPLAY-ONLY.

Core Metrics

Metric	Value	Status
总体设计范围面积 Overall design area (sqm)	11,412,815.14	known
绿地占比 Green ratio	0.156205	known
广场公共空间占比 Public space ratio	0.011105	known
道路用地占比 Road ratio	0.118095	known
概念建筑基底数 Concept buildings	320	known
概念总建筑面积 Concept GFA (sqm)	2,676,151.882	known
智脊绿道长度 Spine greenway (m)	9,669.1	known
重点区域数 Key areas	3	known
容积率 FAR	pending official data	unknown
建筑高度控制 Height control (m)	pending official data	unknown
绿地率控制 Green ratio control	pending official data	unknown
退线控制 Setback (m)	pending official data	unknown

Task Coverage Summary (23 registered)

1.3.1、 1.3.2、 1.3.3、 1.4.1、 1.4.2、 1.4.3、 1.5.1.1、 1.5.1.2、 1.5.2.1、 1.5.2.2、 1.5.2.3、 1.5.2.4、 1.5.2.5、 1.5.3.required、 1.5.3.1、 1.5.3.2、 1.5.3.3、 agent.1、 agent.2、 agent.3、 agent.4、 agent.5、 agent.6
