HUMAN AUTHORITY OVER AI

People understand, authorise, stop and review

A CITY SHOULD PRESERVE SHARED HISTORY—NOT EVERY TRACE OF EVERY PERSON.

PEOPLE CAN CROSS THE DISTRICT—AND THE INTELLIGENT SYSTEM

WHITE | NO-AI COMMONS

No registration; no face or individual trajectory recognition

BLUE | ANONYMOUS ASSIST

Edge processing; aggregate output; shortest retention

AMBER | CONTROLLED TEST

Explicit consent; stoppable; human supervision

A north-south memory spine + at least nine east-west stitches. Essential public services retain human, paper or telephone channels.
