

JingZhang Kernel

Centennial Jing-Zhang AI Innovation Belt · Open Call Proposal (Concept)

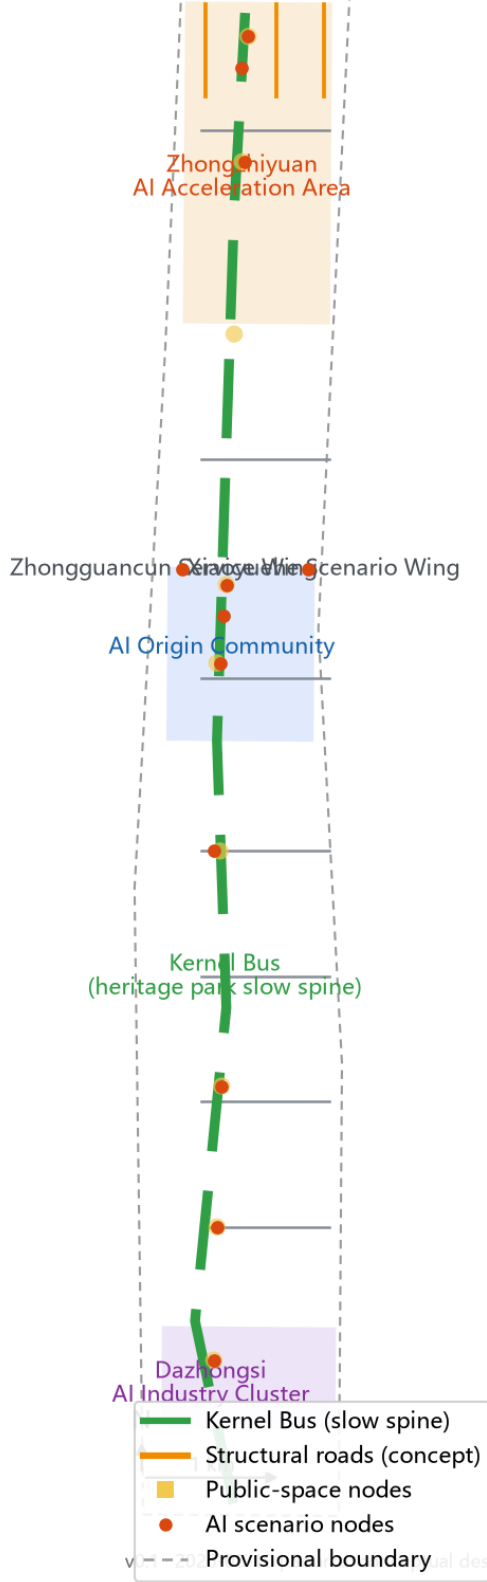

One Kernel Bus · Three Core Modules · Two Wings · Twelve Nodes

Submitted by LZY10367 · Generated by OpenAI Codex (GPT-5 family) · 2026-08-10

Conceptual presentation drawings; authoritative data remain in GeoJSON / metrics.json / matrices / self-check.

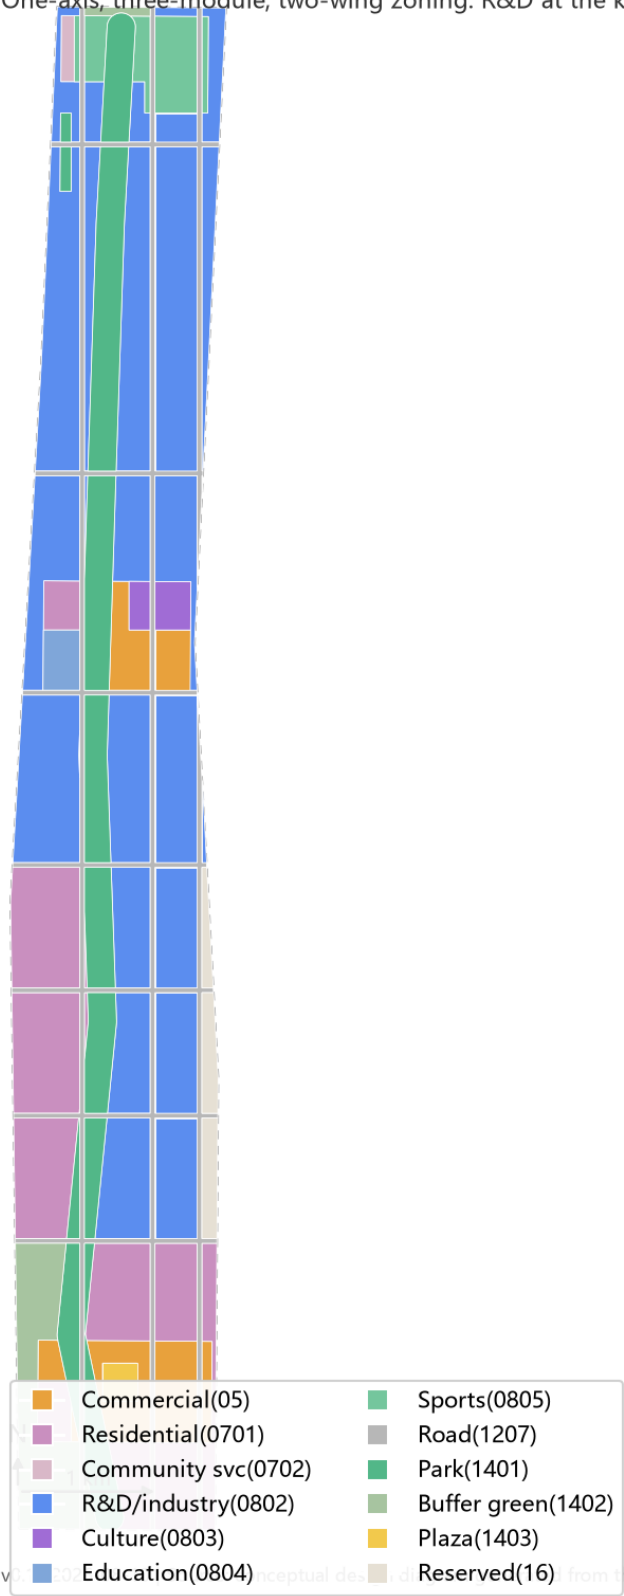

JINGZHANG KERNEL

One Kernel Bus : three core modules · two wings · node network

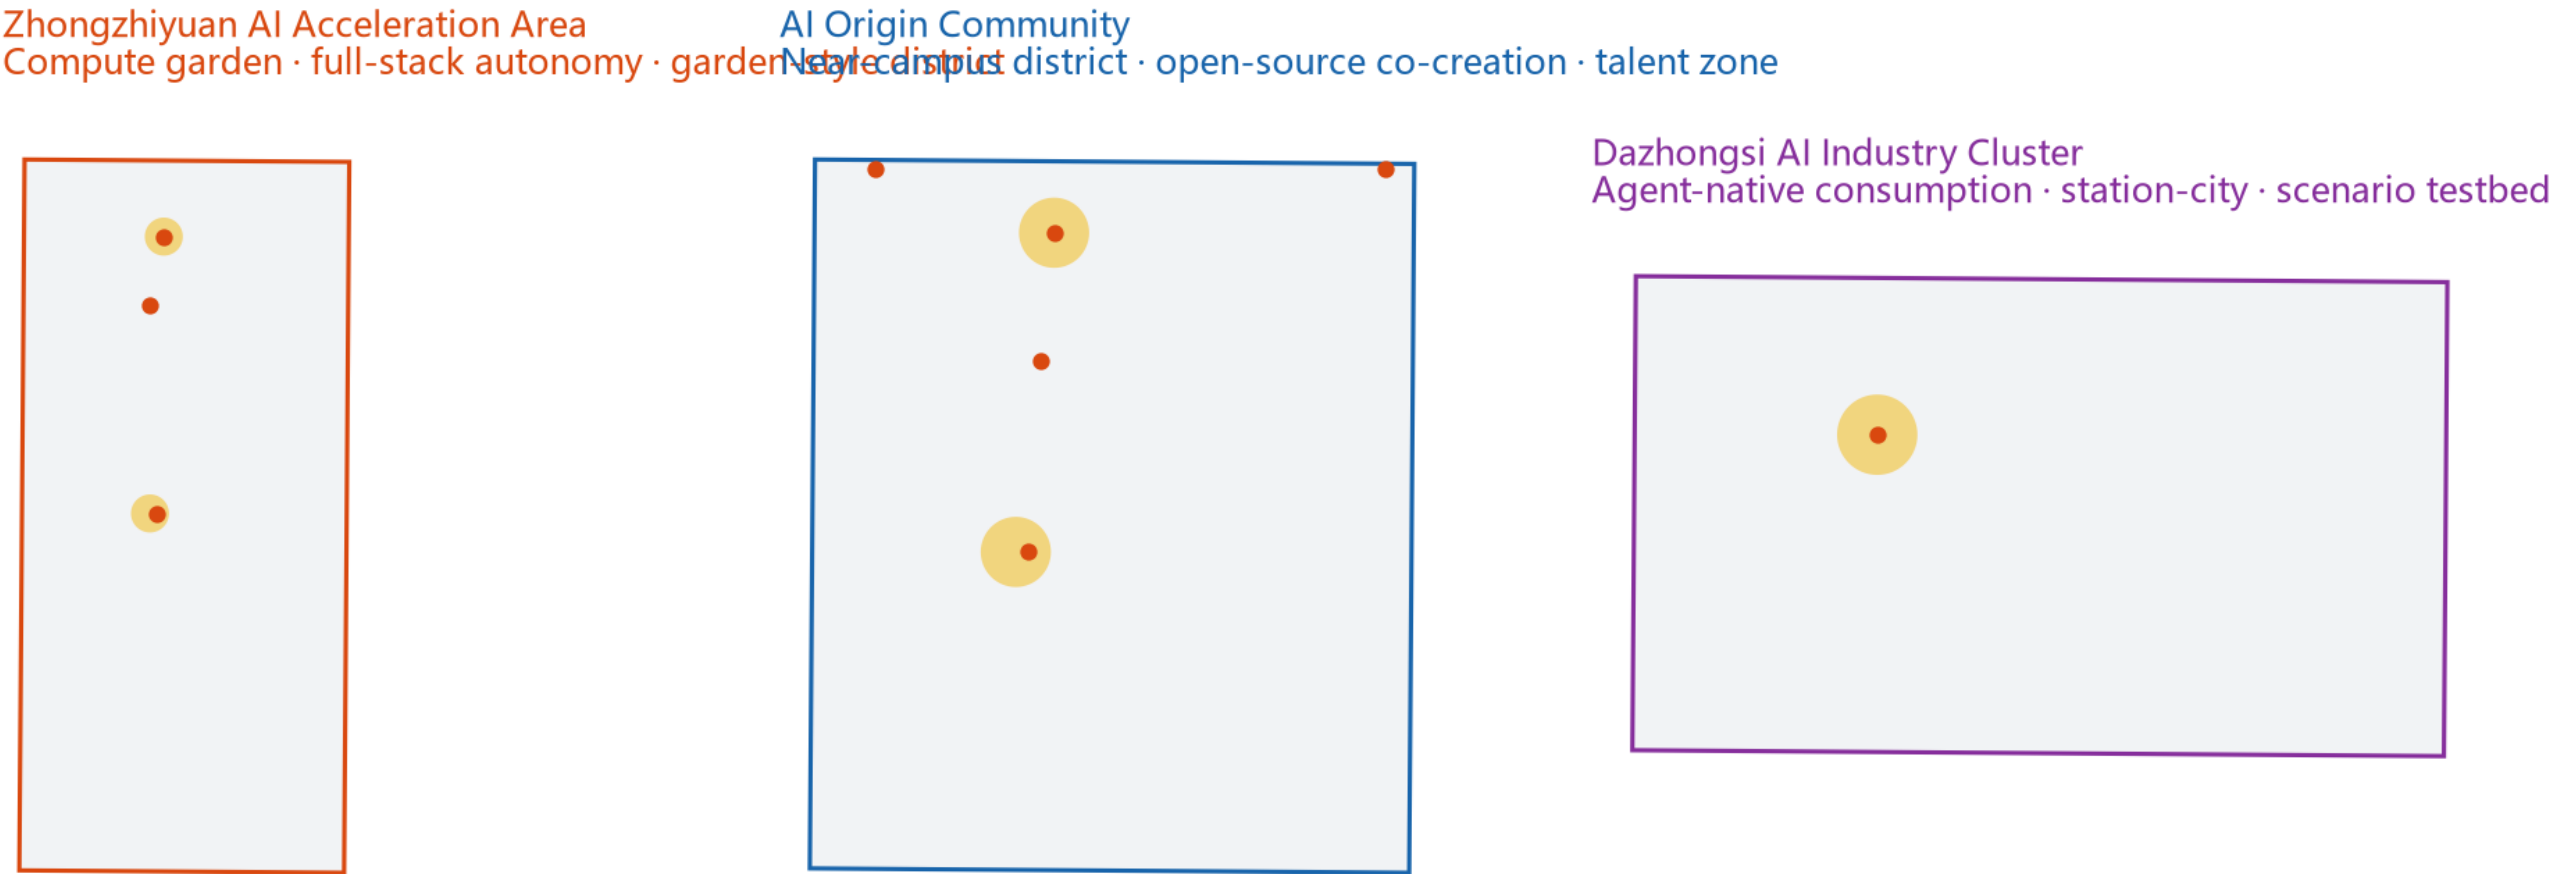

LAND-USE STRUCTURE

One-axis, three-module, two-wing zoning: R&D at the kernel, parks as the pulse, communities and commerce around

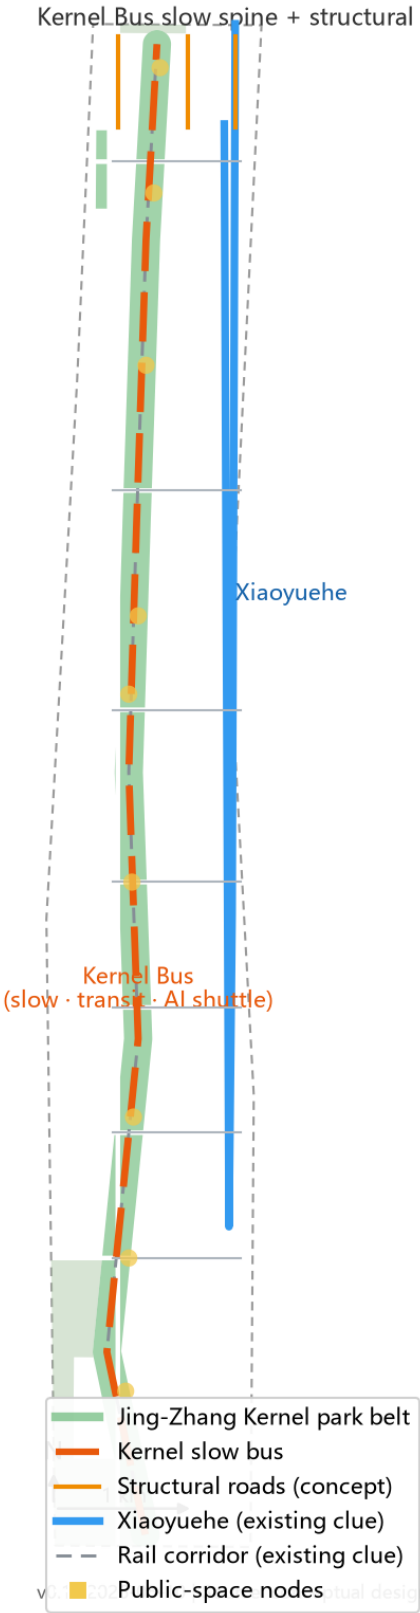

Conceptual design from the public notice and provisional rough boundaries; recalculate when official redlines are released. EPSG:4548 projection.

DETAILED DESIGN INDEX OF KEY AREAS

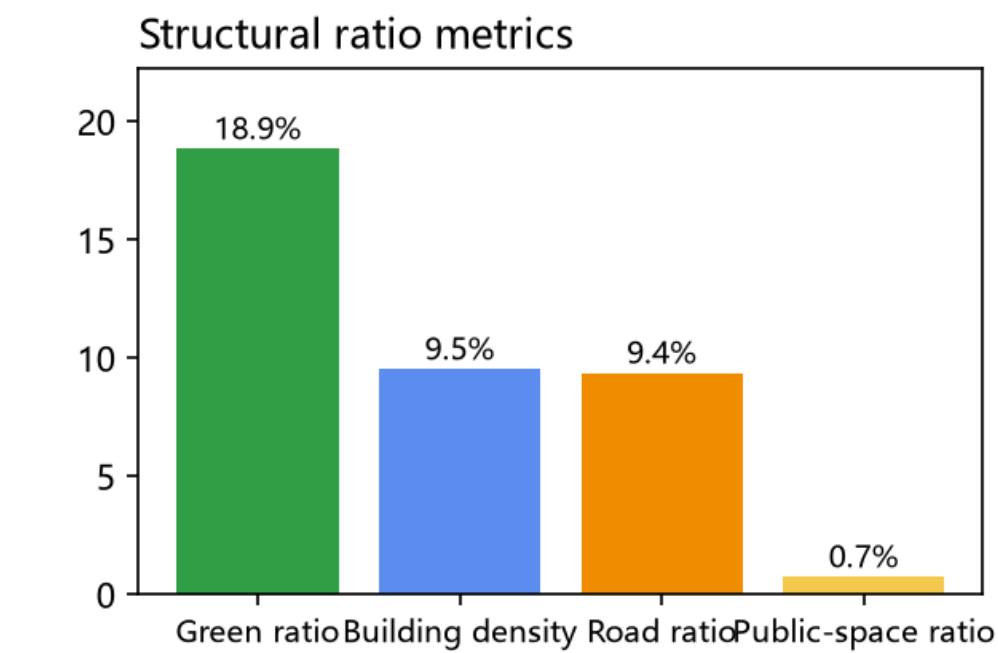

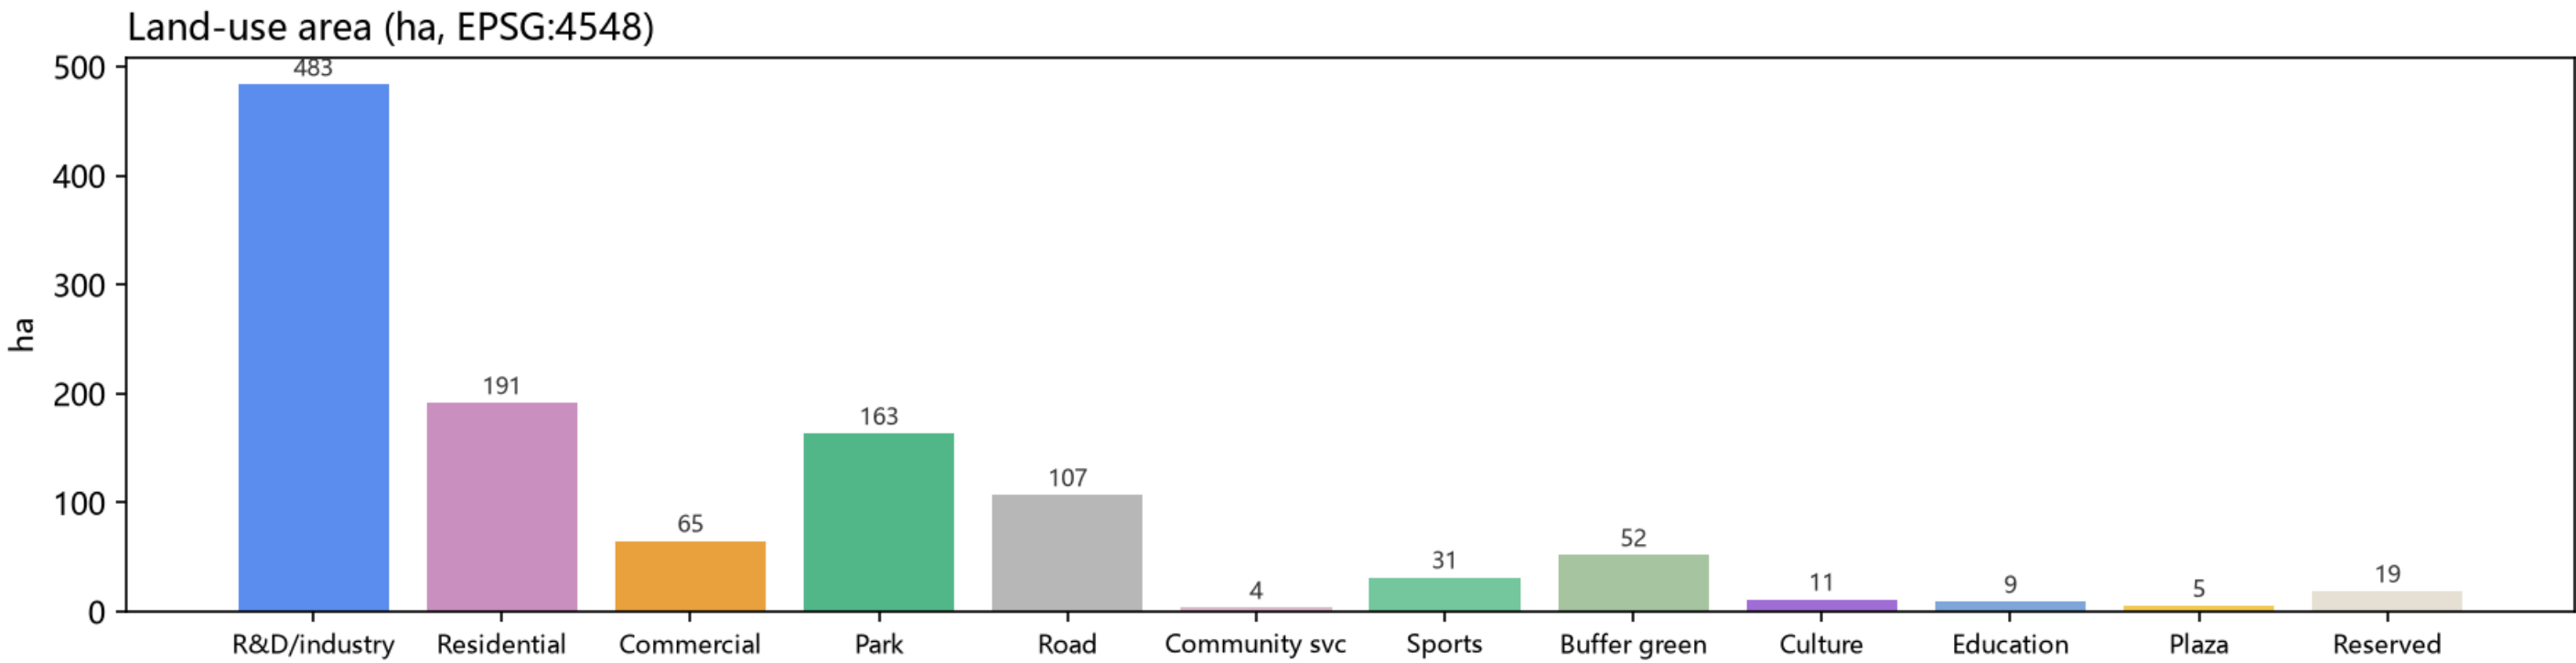

MOBILITY & BLUE-GREEN

Kernel Bus slow spine + structural road loops + Xiaoyuehe blue-green network

CORE METRICS & EVIDENCE CHAIN

Key indicator cards

Site area 11.41 km²
Building blocks 695
Concept roads 17.0 km
AI scenario nodes 12
Key areas 3
Pilgrimage landmarks 5

Evidence chain

- ① GeoJSON layers (9)
- ② metrics.json (EPSG:4548)
- ③ three matrices (compliance/standard/depth)
- ④ bilingual proposal.md
- ⑤ A3/A0 drawings + offline HTML
