

JING-ZHANG LOCAL URBAN UNITS

A north-south civic datum / wide, fine-grain and thick cross-corridor cities

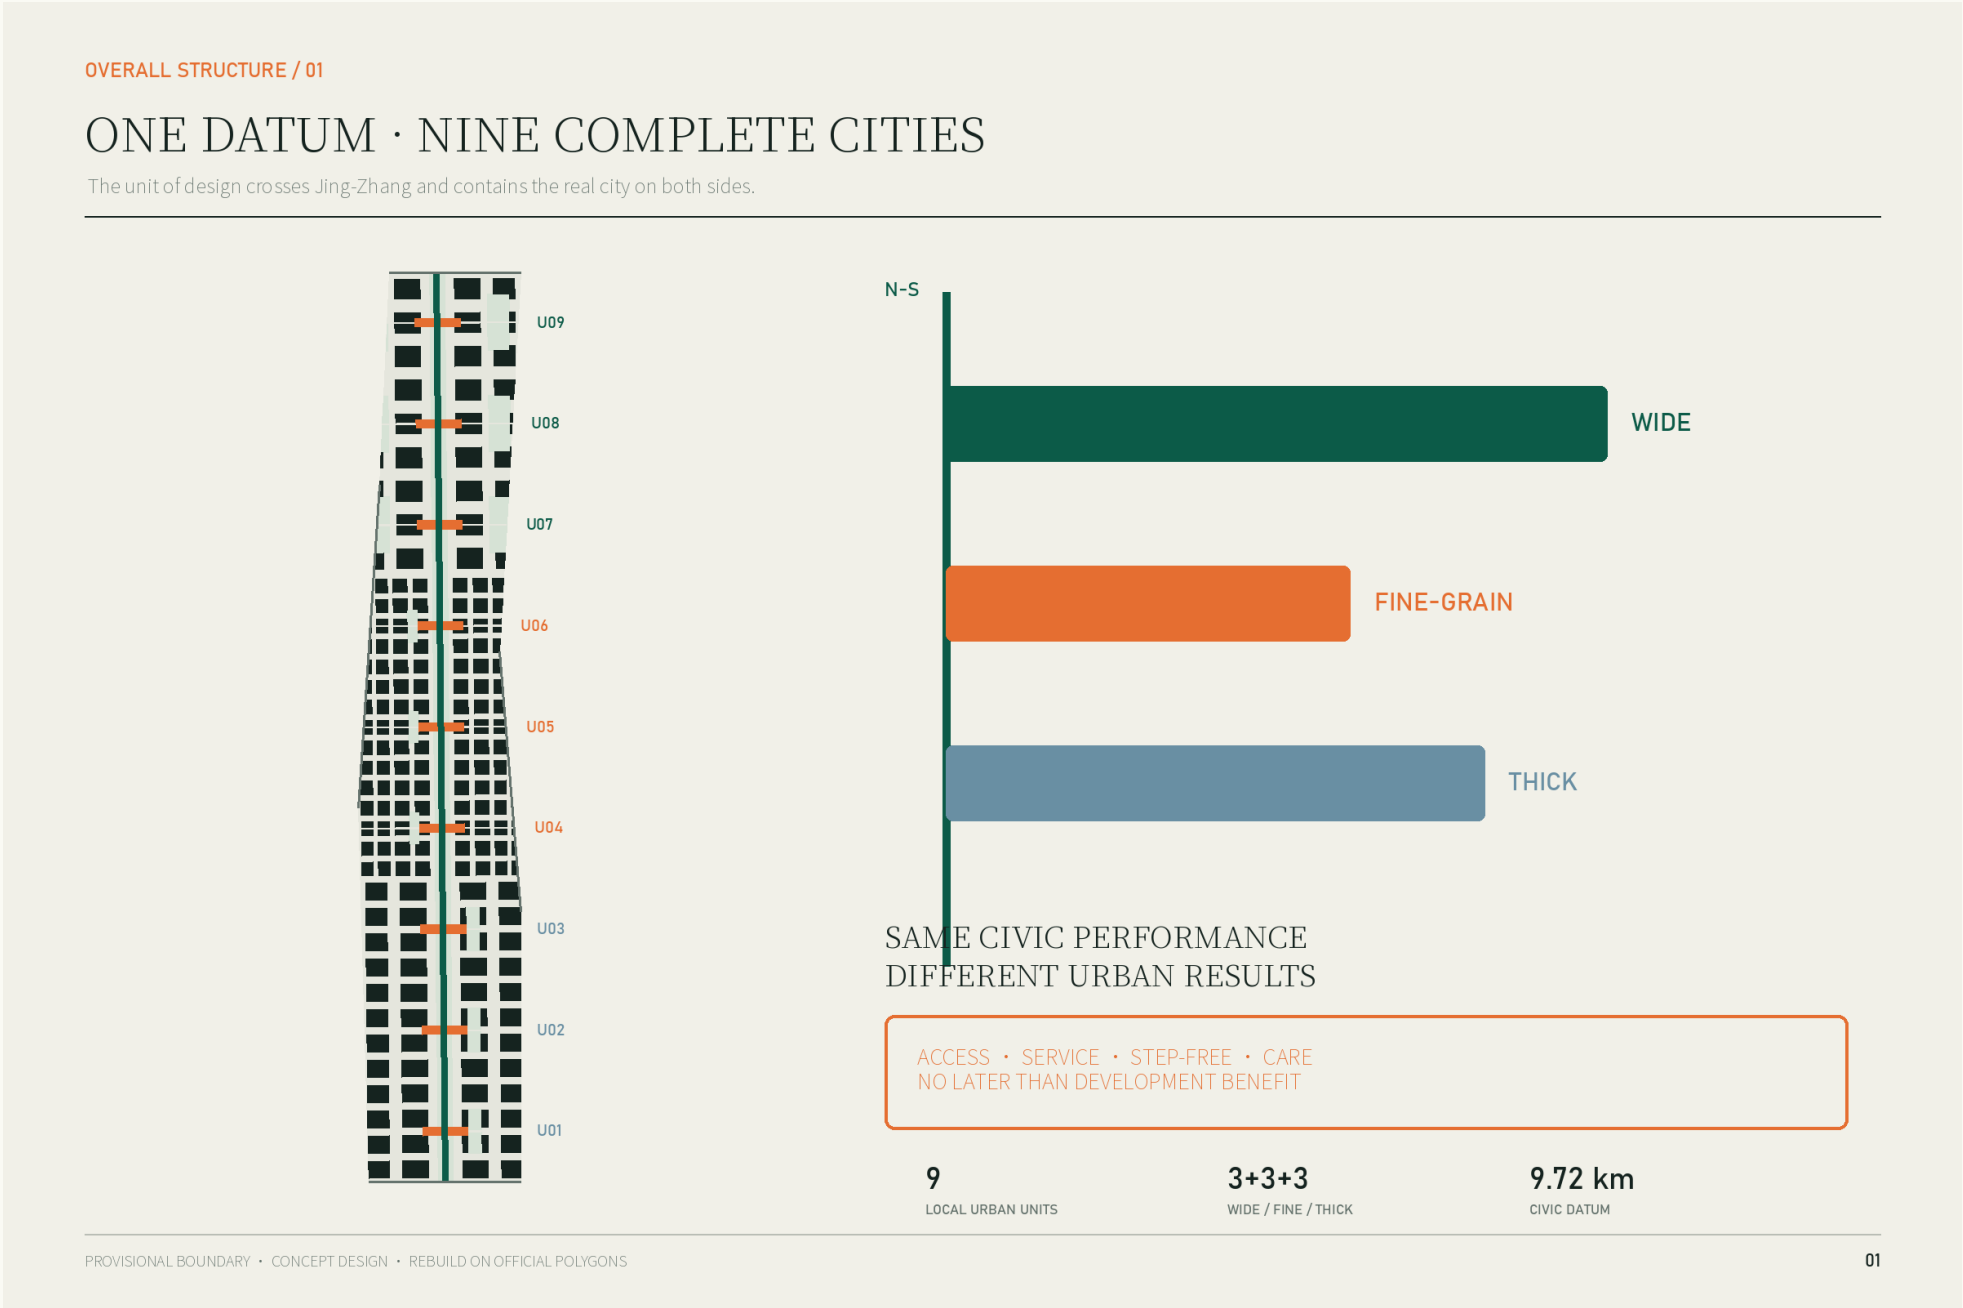

The masterplan unit is not a node on the corridor.
It is a complete piece of local city crossing Jing-Zhang.

xBefore + OpenAI Codex

One datum, nine complete pieces of city

Common civic performance. Different urban results.

9

local urban units

3+3+3

wide / fine / thick

9.72 km

north-south civic datum

PUBLIC OUTCOMES NO LATER THAN THE MAIN
DEVELOPMENT BENEFIT

Three scales and honest limits

Facts, provisional constraints, design propositions and unknowns remain separate.

43.6 km2

Research territory

Read university, park, community, station and river networks; do not draw every parcel.

11.4 km2

Masterplan territory

Use nine complete local units to organize land, ground floors, mobility, services and delivery.

368.4 ha

Three key areas

Zhongzhiyuan wide, AI Origin fine-grain and Dazhongsi thick as detailed prototypes.

REAL SITE EVIDENCE

- 01

Zhongzhiyuan is a district-scale comprehensive renewal group with parks, civic safety, commerce, utilities and rivers.
- 02

AI Origin is a dense existing ecosystem undergoing low-disruption public-realm renewal.
- 03

Dazhongsi is a cross-subdistrict comprehensive renewal area balancing public and commercial delivery over time.

UNKNOWN

Official redlines / controls / ownership / existing buildings / station and heritage constraints

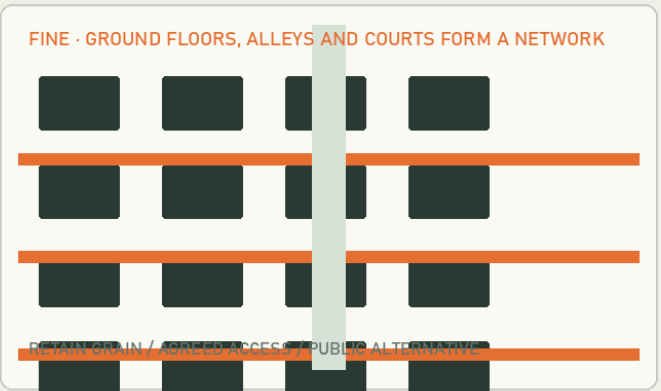

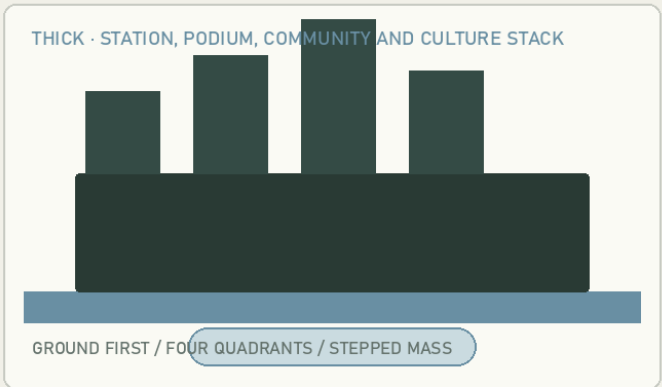

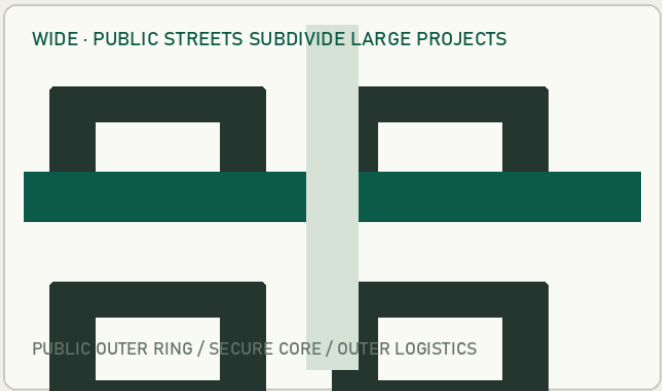

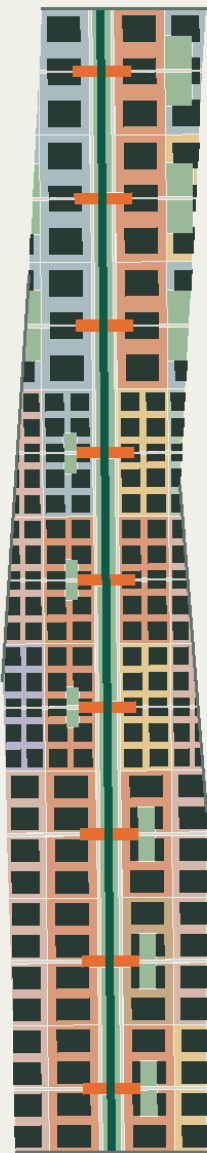

One principle, three spatial outcomes

The conceptual land-use partition has zero gap and zero overlap.

LAND + FORM / 02

ONE RULE · THREE SPATIAL RESULTS

Land, building grain and ground floors change with each local network.

- 科研 / R&D
- 商业 / MIX
- 居住 / HOUSING
- 服务 / SERVICE
- 绿地 / GREEN
- 道路 / STREET

LAND-USE TOPOLOGY

0 / 0

GAP / OVERLAP

CONCEPT PARTITION COVERS THE PROVISIONAL AREA; NOT A STATUTORY PLAN

02

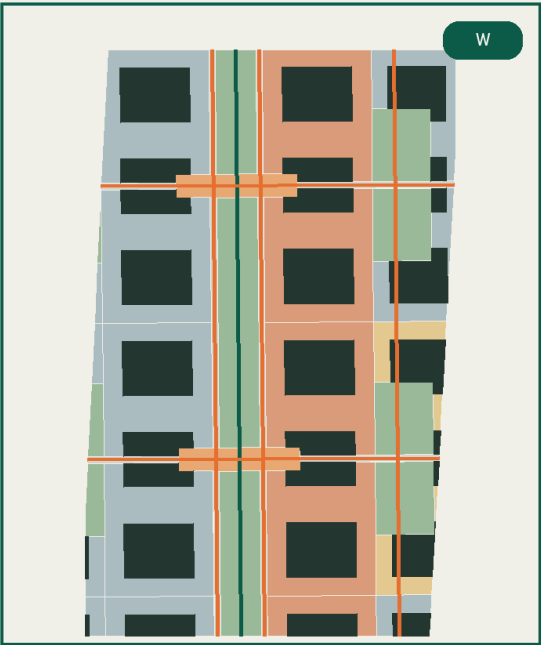

Zhongzhiyuan / turn large projects into city districts

Key-area polygons remain provisional; the proposal is conceptual detailed design.

THREE KEY AREAS / 03

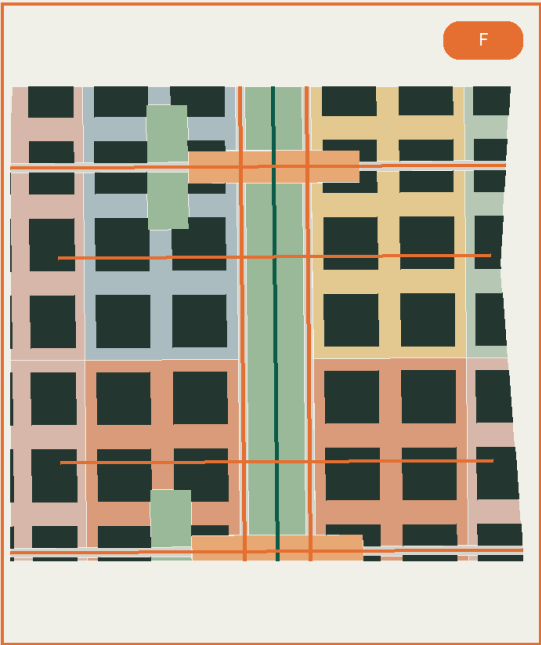

NORTH WIDE · MIDDLE FINE · SOUTH THICK

One civic datum and one gate produce three different urban-design instruments.

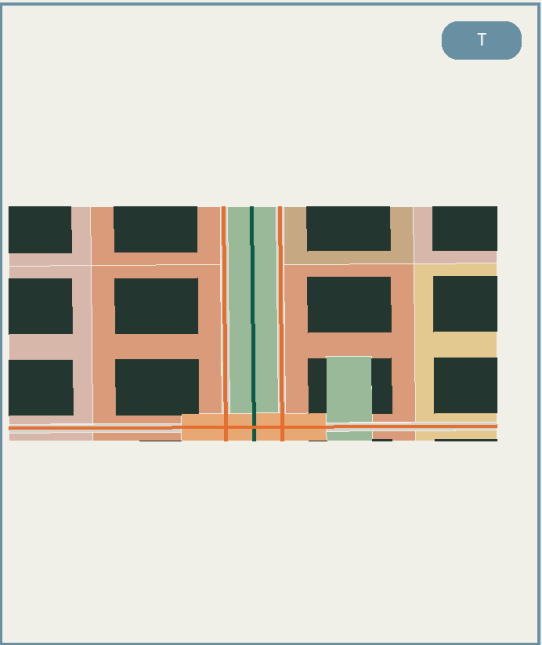

ZHONGZHIYUAN / WIDE

PUBLIC STREETS SUBDIVIDE LARGE PROJECTS
SECURE R&D CORE + CIVIC OUTER RING
LAND AND INFRASTRUCTURE CONDITIONS

AI ORIGIN / FINE

RETAIN GRAIN
GROUND FLOOR + FORECOURT + ALLEY + COURT
PERMIT AND ACCESS AGREEMENTS

DAZHONGSI / THICK

GROUND-LEVEL FOUR QUADRANTS FIRST
STATION + COMMUNITY + CULTURE + PODIUM
JOINT-DEVELOPMENT GATE

KEY-AREA POLYGONS REMAIN PROVISIONAL; CONCEPT DETAILED DESIGN, NOT ENGINEERING OR OWNERSHIP

03

01 Public streets and utilities first

02 Civic outer ring plus secure R&D core

03 Freight and back-of-house on outer edges

04 Land and infrastructure conditions

GATE-U08: two public routes, R&D commons, step-free access, drainage, lighting and maintenance first.

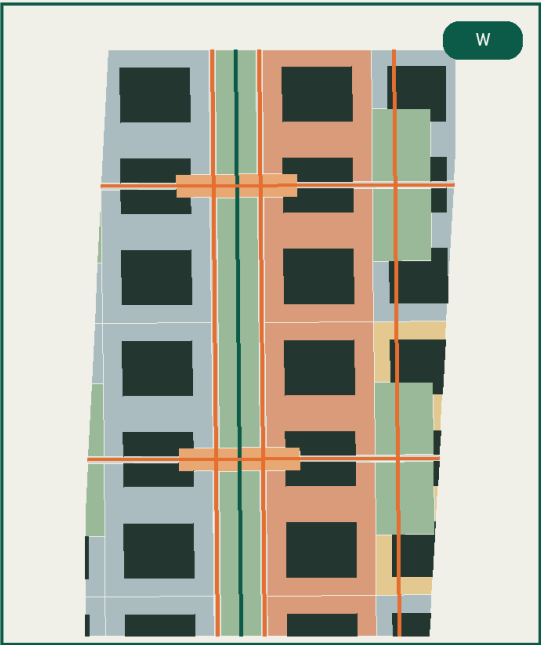

AI Origin / make existing ground floors a public network

Key-area polygons remain provisional; the proposal is conceptual detailed design.

THREE KEY AREAS / 03

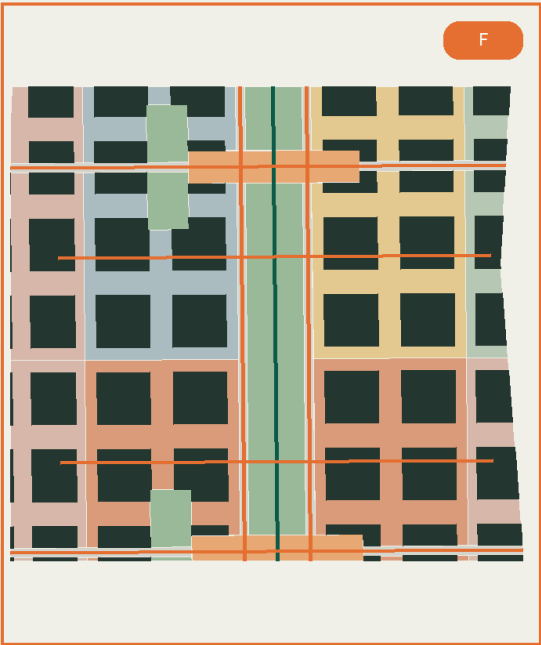

NORTH WIDE · MIDDLE FINE · SOUTH THICK

One civic datum and one gate produce three different urban-design instruments.

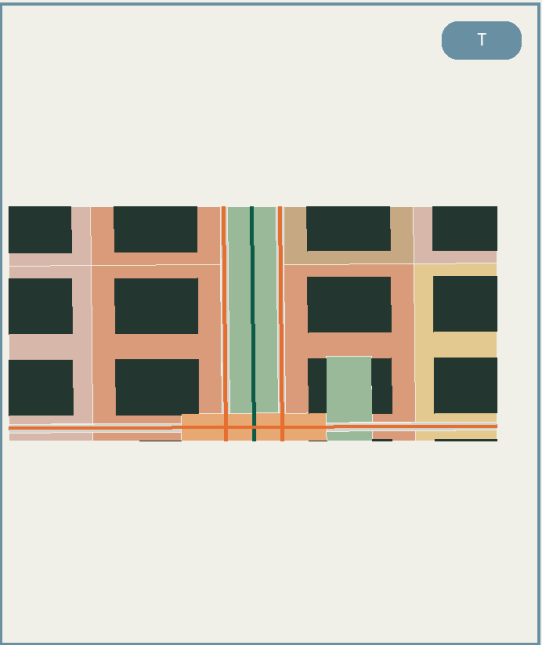

ZHONGZHIYUAN / WIDE

PUBLIC STREETS SUBDIVIDE LARGE PROJECTS
SECURE R&D CORE + CIVIC OUTER RING
LAND AND INFRASTRUCTURE CONDITIONS

AI ORIGIN / FINE

RETAIN GRAIN
GROUND FLOOR + FORECOURT + ALLEY + COURT
PERMIT AND ACCESS AGREEMENTS

DAZHONGSI / THICK

GROUND-LEVEL FOUR QUADRANTS FIRST
STATION + COMMUNITY + CULTURE + PODIUM
JOINT-DEVELOPMENT GATE

KEY-AREA POLYGONS REMAIN PROVISIONAL; CONCEPT DETAILED DESIGN, NOT ENGINEERING OR OWNERSHIP

03

01 Retain fine grain

02 Ground floor plus forecourt plus alley plus court

03 Never assume campus access

04 Renewal permits and access agreements

GATE-U06: two independent public routes and essential ground-floor services operating first.

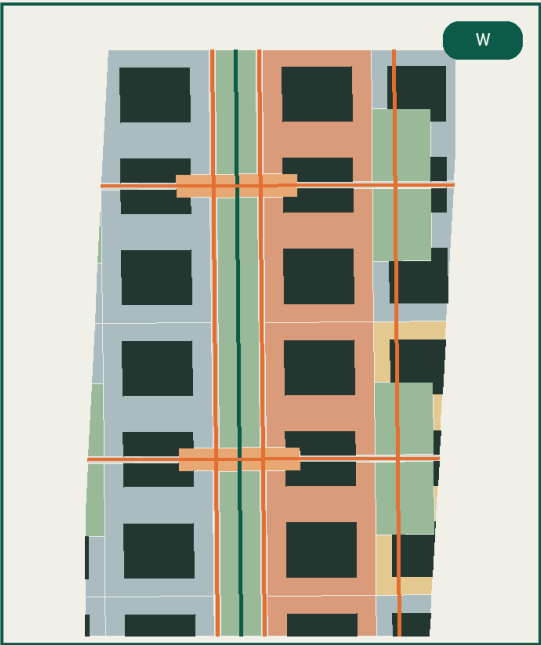

Dazhongsi / design station, community and development as one section

Key-area polygons remain provisional; the proposal is conceptual detailed design.

THREE KEY AREAS / 03

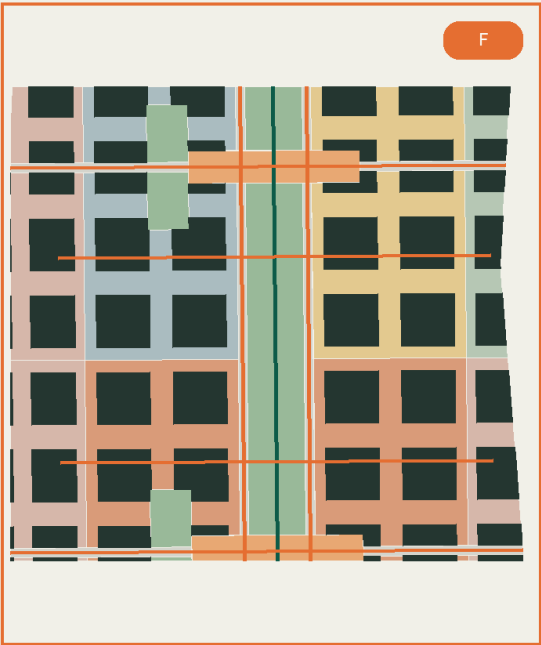

NORTH WIDE · MIDDLE FINE · SOUTH THICK

One civic datum and one gate produce three different urban-design instruments.

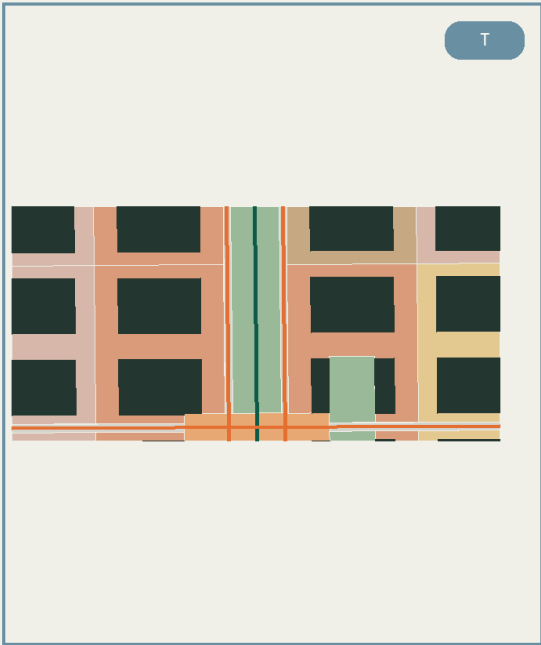

ZHONGZHIYUAN / WIDE

PUBLIC STREETS SUBDIVIDE LARGE PROJECTS
SECURE R&D CORE + CIVIC OUTER RING
LAND AND INFRASTRUCTURE CONDITIONS

AI ORIGIN / FINE

RETAIN GRAIN
GROUND FLOOR + FORECOURT + ALLEY + COURT
PERMIT AND ACCESS AGREEMENTS

DAZHONGSI / THICK

GROUND-LEVEL FOUR QUADRANTS FIRST
STATION + COMMUNITY + CULTURE + PODIUM
JOINT-DEVELOPMENT GATE

KEY-AREA POLYGONS REMAIN PROVISIONAL; CONCEPT DETAILED DESIGN, NOT ENGINEERING OR OWNERSHIP

03

01 Four-quadrant ground first

02 Station plus community plus culture plus mixed podium

03 Massing steps down to community and heritage

04 Station-city joint-development gate

GATE-U01: step-free four-quadrant ground and community services before main leasing or sale.

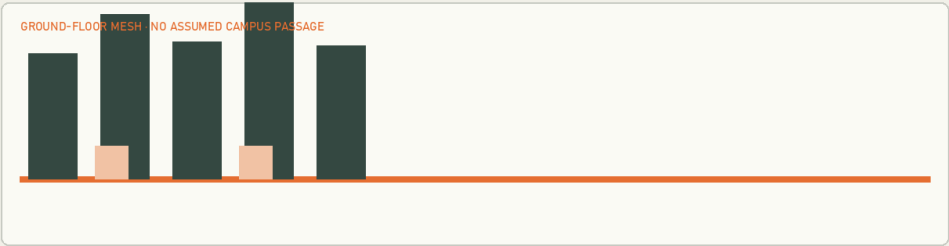

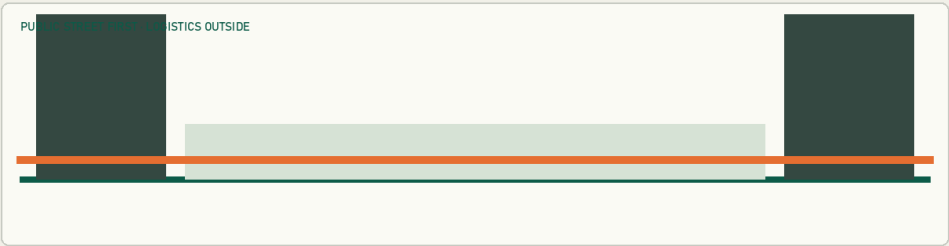

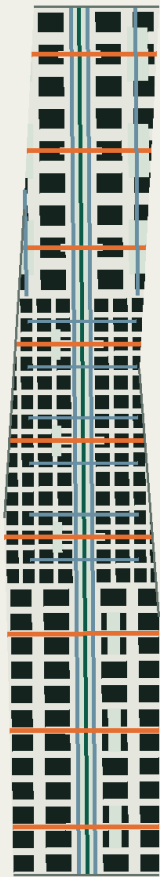

Six systems prove this is more than a crossing arrow

Land / buildings and ground floors / public space / mobility / services / delivery.

MOBILITY + BLUE-GREEN / 04

CONTINUOUS NORTH-SOUTH · COMPLETE EAST-WEST

One datum, nine complete streets and three locally different mobility/landscape sections.

公共基准 / DATUM 横街城市街 / CROSS-CITY STREET 局部连接 / LOCAL CONNECTION

CONCEPT ALIGNMENTS AND WIDTHS REQUIRE ROAD, RAIL, UTILITY AND OWNERSHIP REVIEW

04

LAND

complete land relations

GROUND

grain and active interfaces

PUBLIC

line - hall - room

MOBILITY

long continuity / complete crossings

SERVICE

public service at ground level

DELIVERY

one unit, one gate

AI enters only after space and public responsibility are clear

7 user groups / 12 scenarios / 7 validation pilots / human fallback.

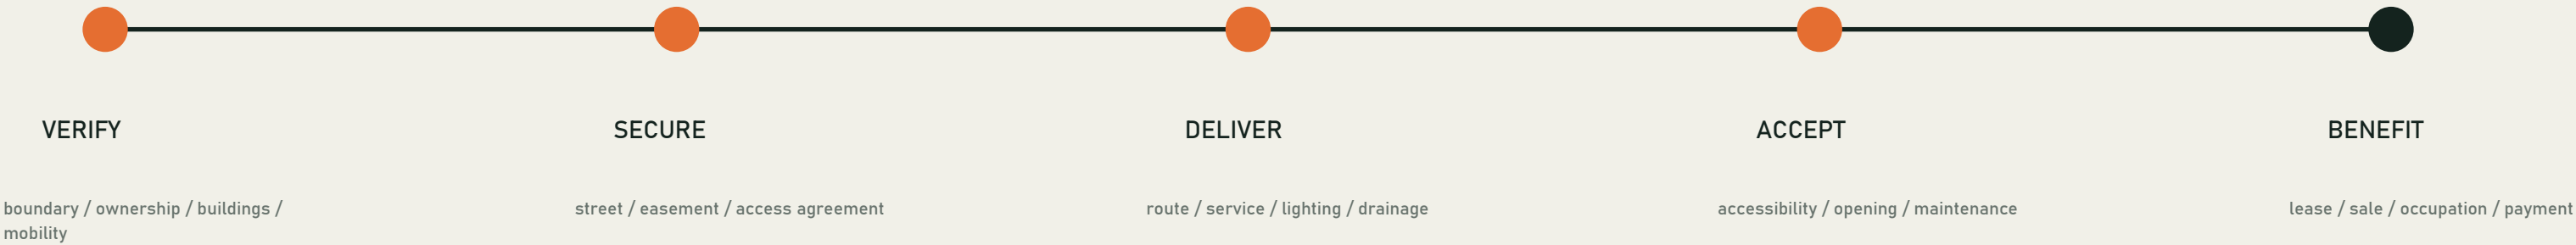

P01	P02	P03	P04
researchers	start-ups	students and faculty	long-term and older residents
P05	P06	P07	
disabled users	delivery and lab logistics	visitors and global talent	

SCN-01	SCN-02	SCN-03	SCN-04
shared equipment booking	safe low-speed delivery*	visible embodied validation*	model compliance clinic
SCN-05	SCN-06	SCN-07	SCN-08
step-free route assistant*	lifelong learning match	community service triage	reversible kerb schedule*
SCN-09	SCN-10	SCN-11	SCN-12
vacant-ground-floor match	four-quadrant transfer*	multilingual heritage guide	crowd and weather response*

* Validation pilots require separate safety/privacy review, human oversight and static fallback.

Public outcomes no later than main development benefit

One gate, different legal and project instruments in north, middle and south.

A USABLE, REACHABLE AND MAINTAINED CITY COMES BEFORE THE MAIN DEVELOPMENT BENEFIT

North: land and infrastructure conditions

Middle: permit plus access and maintenance agreement

South: station-city and comprehensive-renewal gate

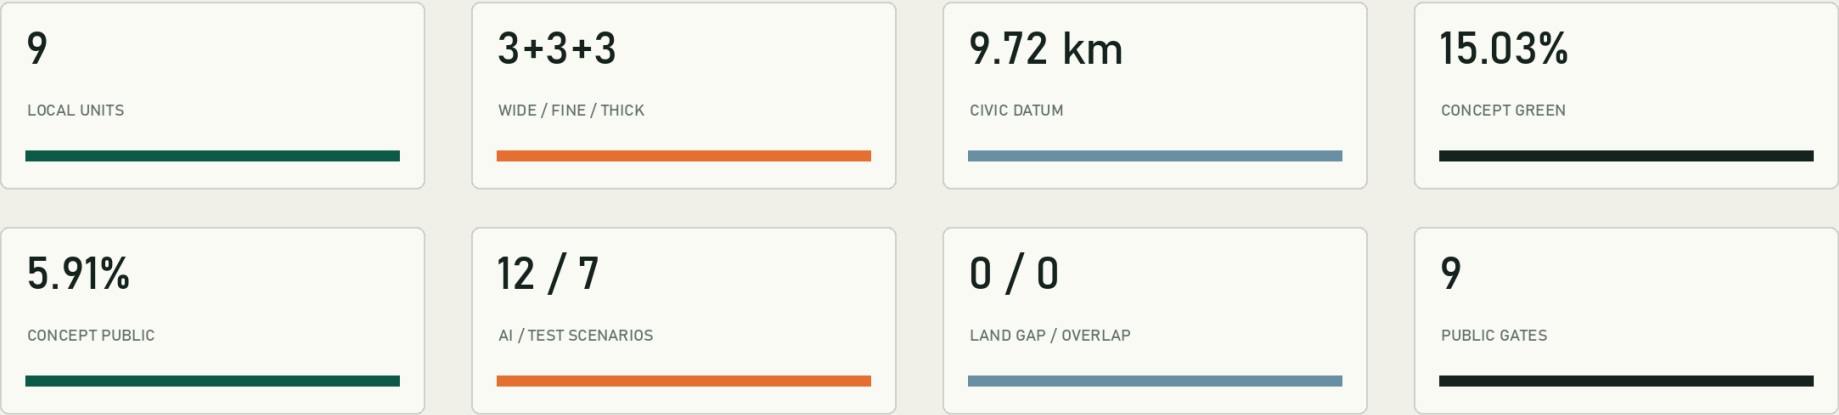

Recalculable space, enforceable gates

Known does not mean existing fact or approval; unknown values remain open.

METRICS + DELIVERY / 05

RECALCULABLE SPACE · ENFORCEABLE GATES

Known means computable from current design geometry; statutory and existing-data gaps remain unknown.

UNKNOWN / DATA GAPS

FAR · FLOOR AREA · HEIGHT · ROAD REDLINES · RETAIN/RENOVATE/DEMOLISH

AREAS RECALCULATED IN EPSG:4548; REBUILD THE CHAIN WHEN OFFICIAL DATA ARRIVE

05

15.03%

concept green

5.91%

concept public space

0 / 0

land gap / overlap

12 / 7

scenarios / validation

9

public delivery gates

UNKNOWN

FAR / floor area / height / road redlines / real retain-renovate-demolish counts

COMPLETE DESIGN. HONEST LIMITS.

01

Overall and key-area polygons remain provisional.

02

Conceptual footprints are not existing, ownership or demolition facts.

03

Road, station, heritage, utility and planning controls require professional review.

04

AI pilots require data, privacy, safety and human-fallback review.
