

JINGZHANG DUAL TRACK

Two equal service paths; no one left behind

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

-  AI express track
-  human/offline fallback
-  heritage and blue-green commons

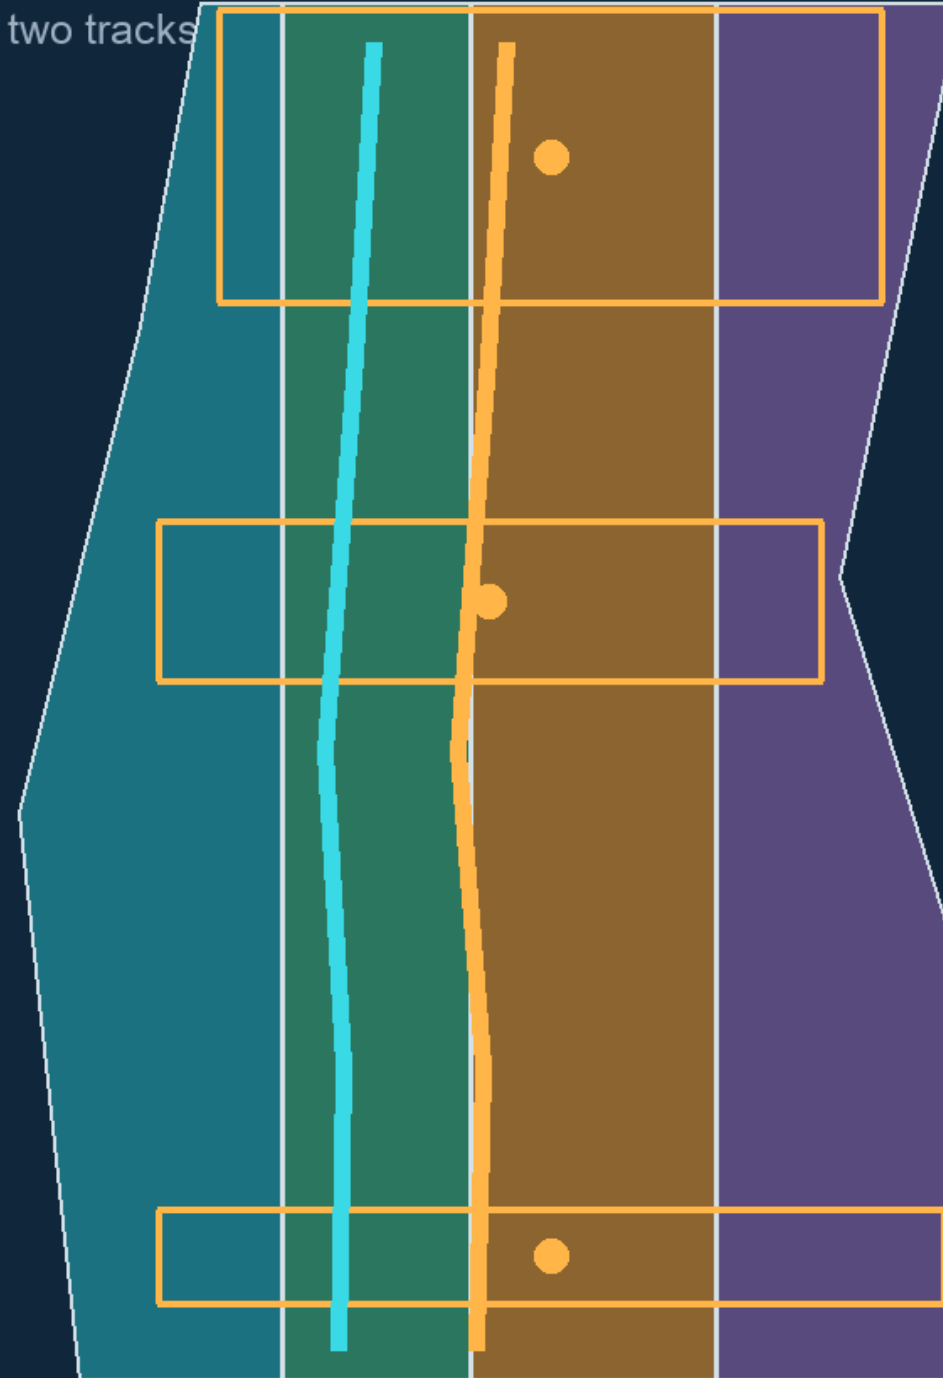

3 dual-track stations

12 scenario cards

100% fallback coverage

DUAL-TRACK SPATIAL STRUCTURE

One heritage spine, three stations, two tracks

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

DUAL-TRACK RULES

1. Choice at the same entrance
2. Equivalent outcome
3. Graceful degradation
4. Accountable human service

v1.1 · 2026-08-11

THREE STATIONS, THREE DUAL-TRACK

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

Provisional key areas are locators, not statutory boundaries

01

Zhongzhiyuan Responsible Test Station

model sandbox + staffed review desk

AIHUMAN / OFFLINE

same entry · equivalent result · switchable

02

AI Origin Co-learning Station

AI tutor + peer learning room

AIHUMAN / OFFLINE

same entry · equivalent result · switchable

03

Dazhongsi Civic Service Station

AI guidance + staffed service counter

AIHUMAN / OFFLINE

same entry · equivalent result · switchable

MOBILITY, BLUE-GREEN AND SERVICE TRACKS

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

Accessibility is spatial infrastructure, not an app setting

Heritage park and blue-green base

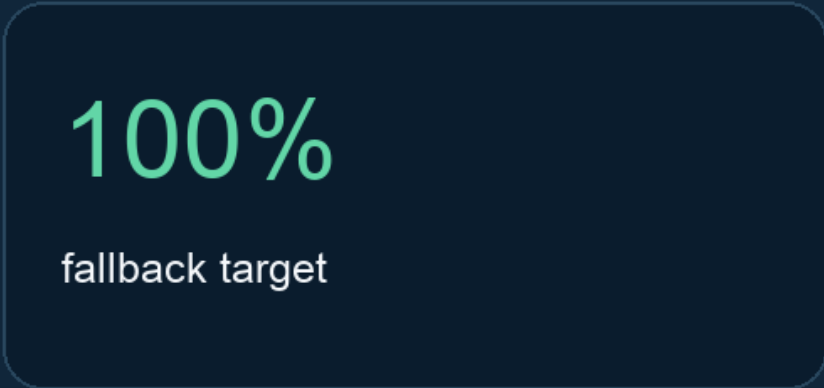

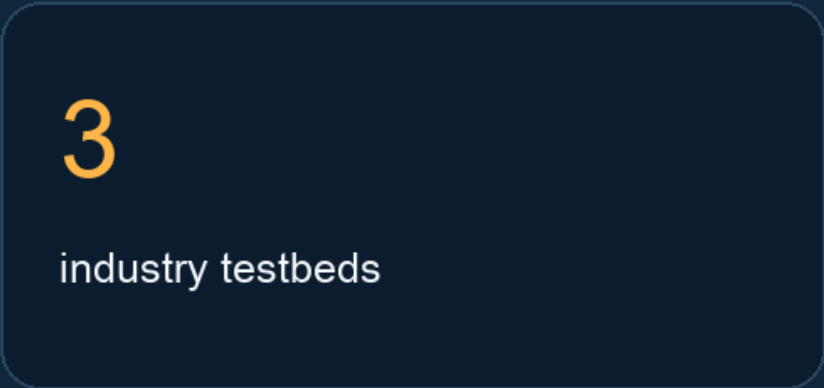

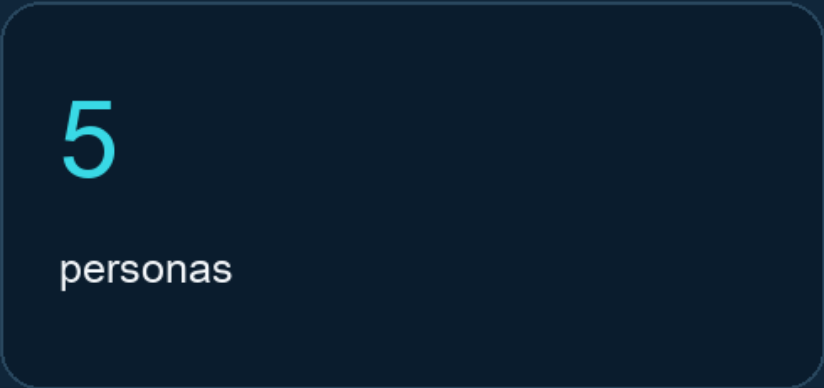

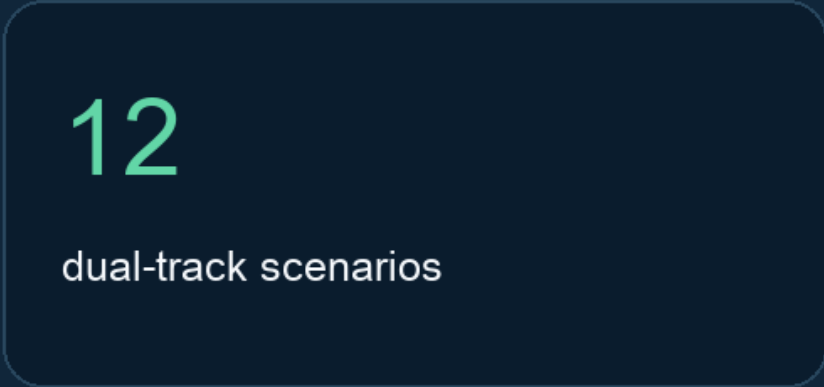

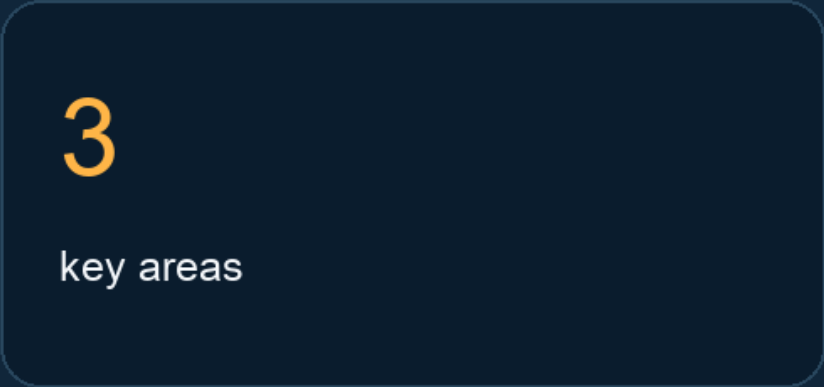

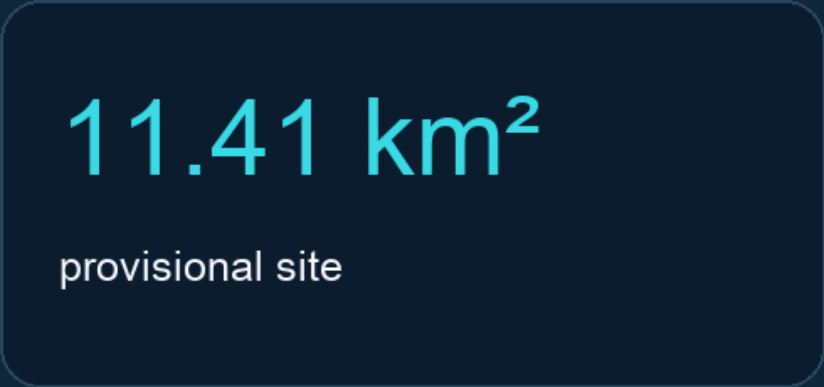

Public service remains usable during outages, low battery, language barriers or refusal to share data.

METRICS AND EVIDENCE CHAIN

PROVISIONAL BOUNDARY · CONCEPT AND REVIEW ONLY

Spatial metrics recompute; service commitments are testable; unknowns stay explicit

GeoJSON → metrics.json → figures / PDF / offline HTML → self-check

12 scenarios · 5 personas · 3 testbeds · 3 landmarks · 100% fallback-path target

Provisional boundary, not an official redline.

GeoJSON is authoritative for spatial data.

Implementation requires planning, transport, utilities, fire, accessibility and operational review.
