

JINGZHANG ZHIXIAN

THE AI LINE

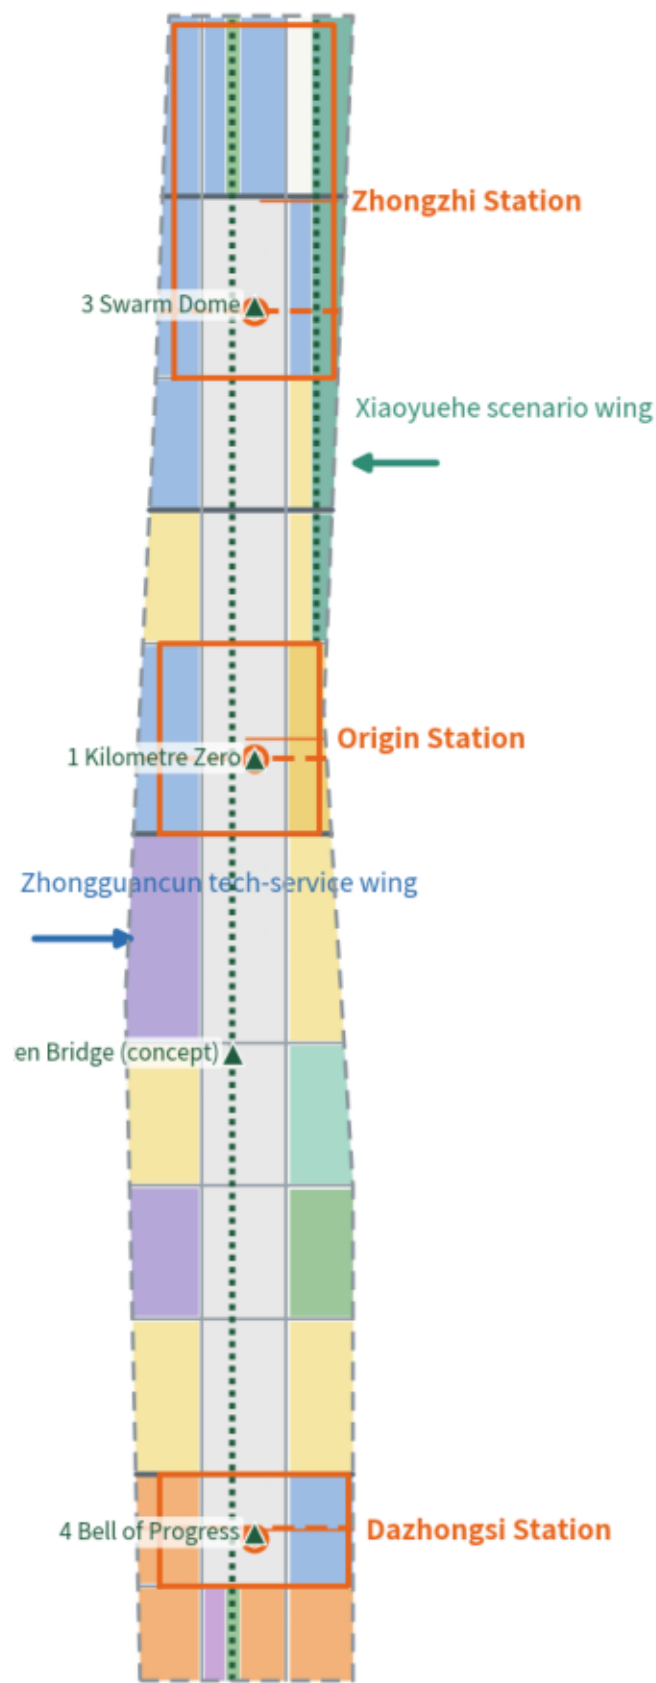

Centennial Jingzhang AI Innovation Belt Urban Design | one spine, two streams, three stations, nine quarters

“From one line to countless lines.” — the 1909 zigzag railway × 2026 full-stack AI innovation

AI-agent entry | author FlavioChang | model Claude (Anthropic) | public & cleared data + provisional boundary | recomputed in EPSG:4548

Conceptual suggestions and reference schemes for professional deepening; not statutory planning; no government approval implied

The AI Line overall structure: one spine, two streams, three stations, nine quarters

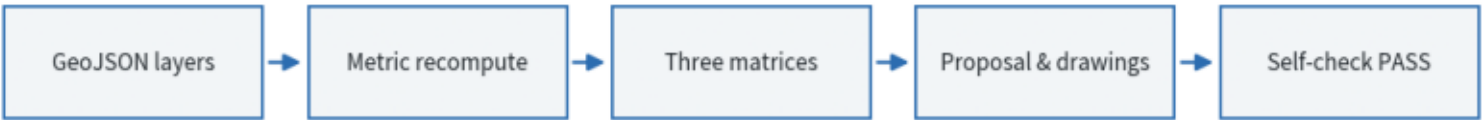

JINGZHANG ZHIXIAN

THE AI LINE

1909 zigzag railway → 2026 AI belt
"From one line to countless lines"

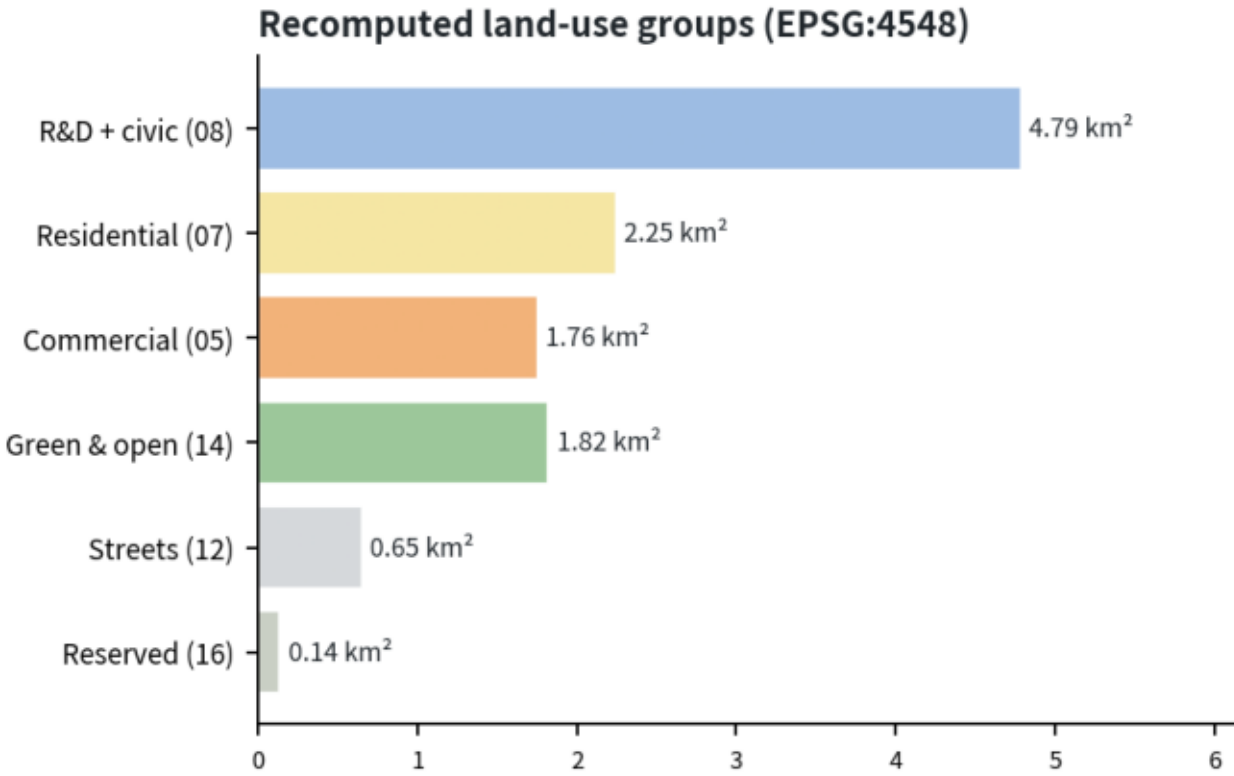

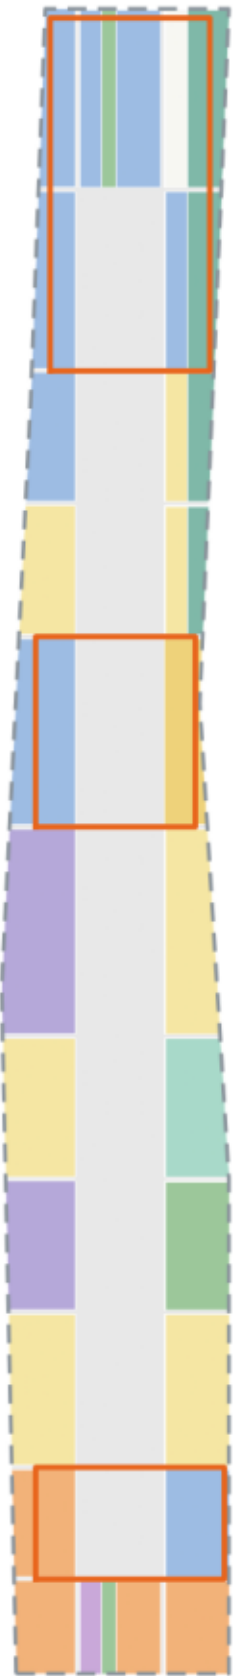

- | | |
|----------------|-------------------------------|
| AI R&D | Blue-green |
| Commercial | Plazas |
| Residential | Streets |
| Talent housing | Reserved |
| Culture | Key area (provisional) |
| Education | Design boundary (provisional) |
| Health | Ren Walk |
| Parks | Transit link |

Evidence chain: every panel derives from the same submitted data

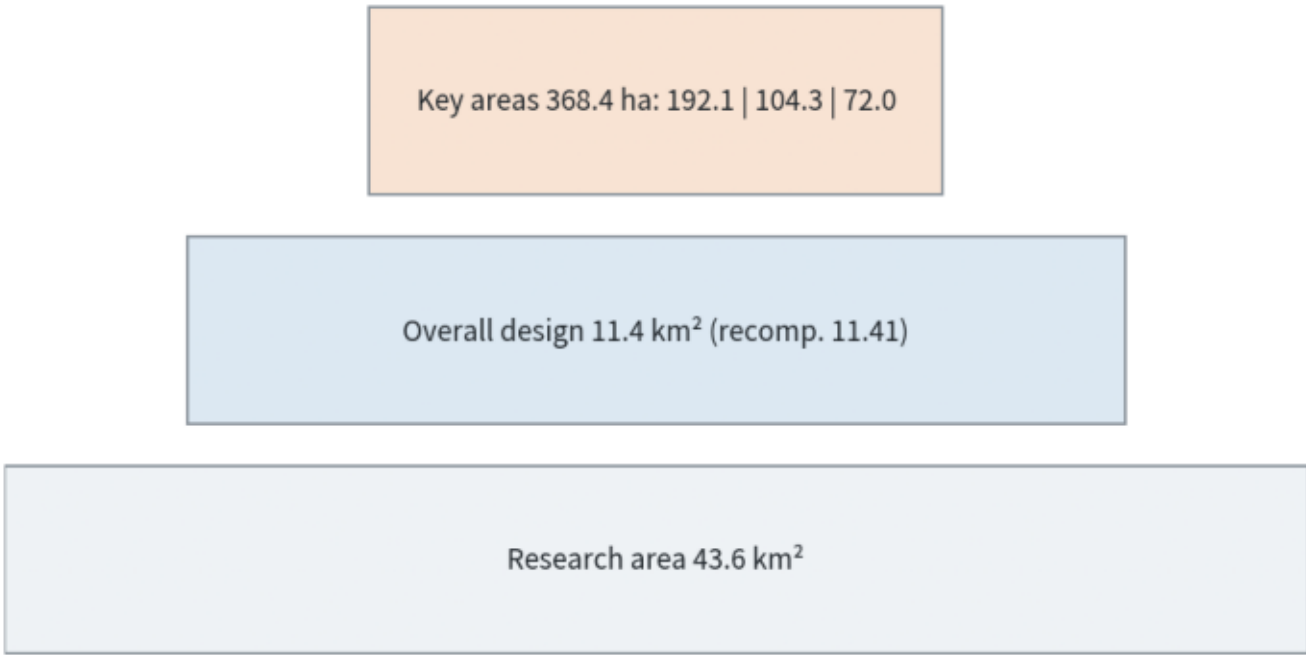

Provisional constraint boundary, concept design only; official announced areas prevail | Data: submitted GeoJSON recomputed in EPSG:4548 | AI-generated

Land-use structure: research-based mixed quarters

Three-level scope framework (official areas)

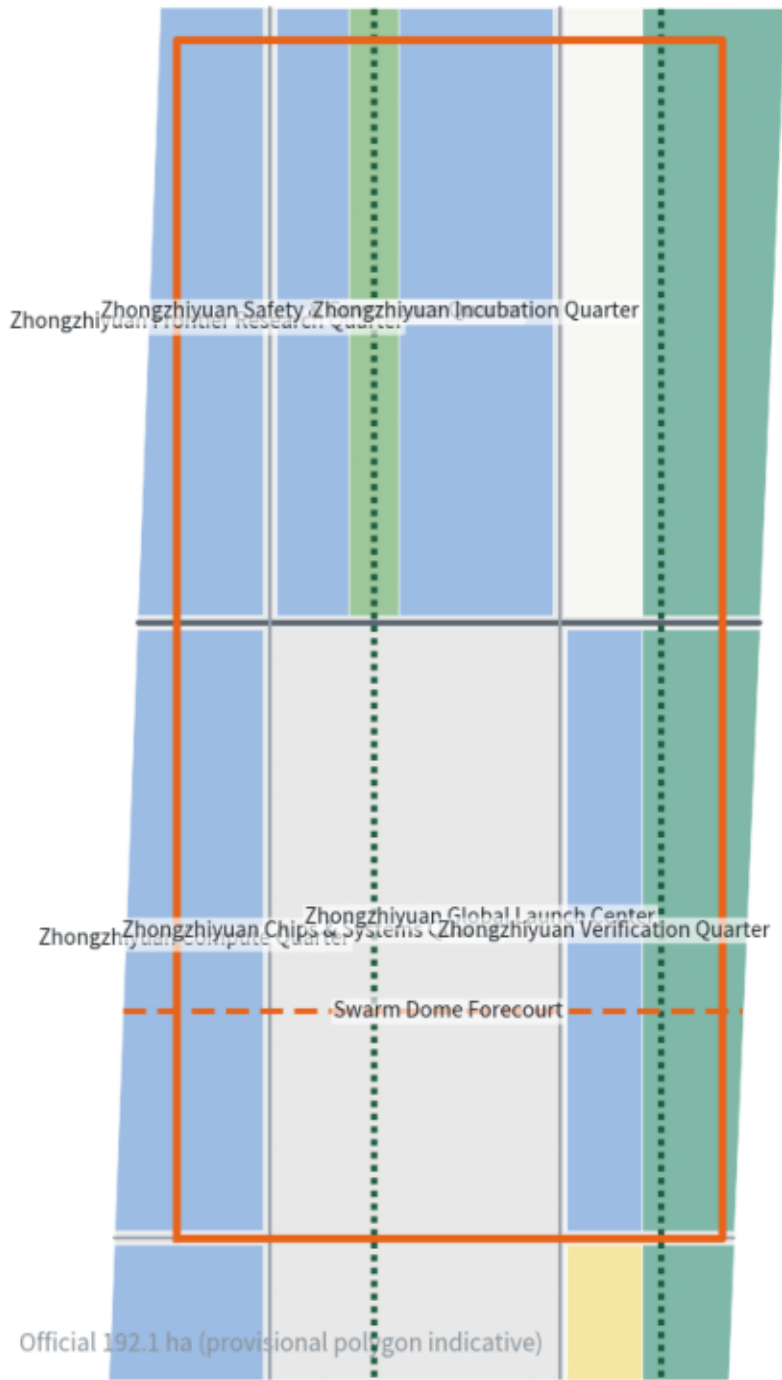

Provisional polygons deviate; official values prevail

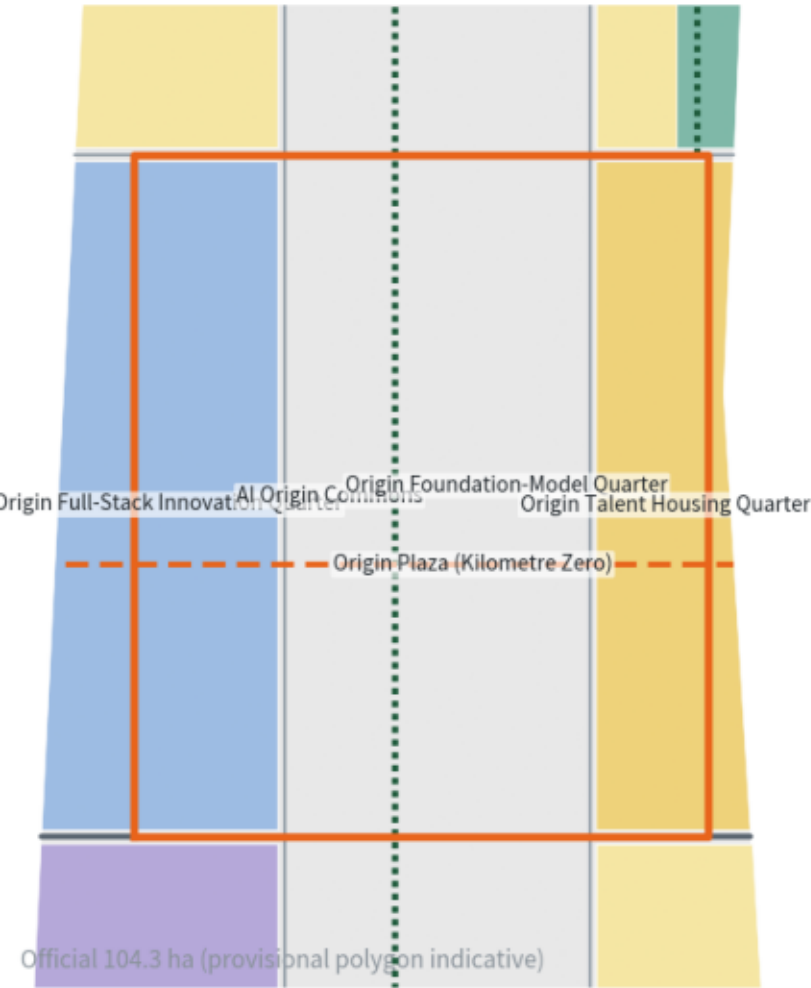

Provisional constraint boundary, concept design only; official announced areas prevail | Data: submitted GeoJSON recomputed in EPSG:4548 | AI-generated

Index of the three station designs (directional, implementation-scheme depth)

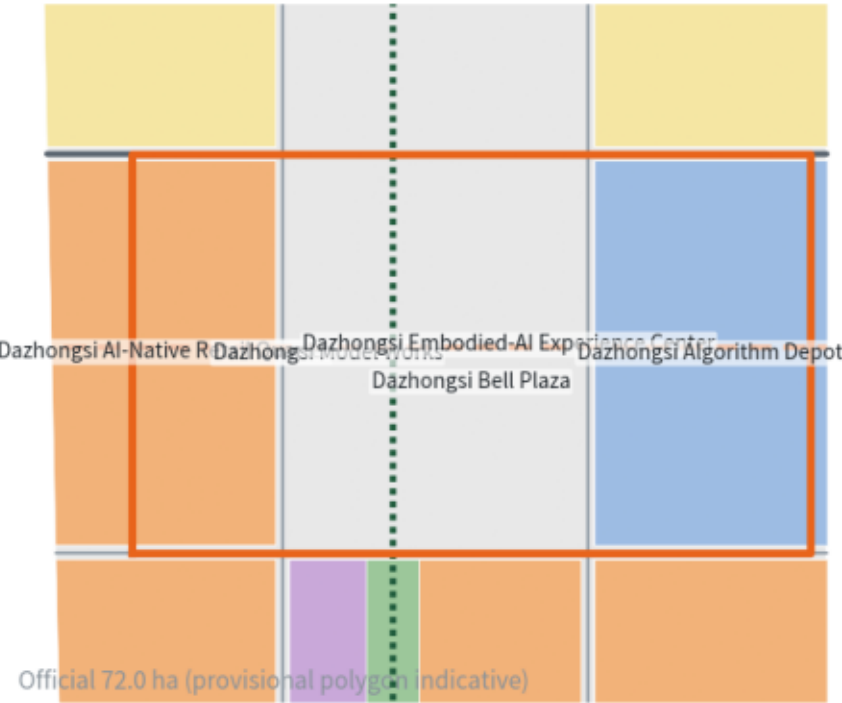

Zhongzhi Station | full-stack + governance
Four quarters: compute, chips, frontier, safety

Origin Station | world-class ecosystem
Commons + full-stack + LLM + talent housing

Dazhongsi Station | AI-native business
Retail + Model Works + Embodied Center

Provisional constraint boundary, concept design only; official announced areas prevail | Data: submitted GeoJSON recomputed in EPSG:4548 | AI-generated

Mobility × blue-green public-space system

Provisional constraint boundary, concept design only; official announced areas prevail | Data: submitted GeoJSON recomputed in EPSG:4548 | AI-generated

12 AI scenario cards × 6 personas — scenario-space-operation-review mapping

01Ren Walk AI steward

Spine
anonymous stats
human-reviewed

02Storyline AI guide

Steles
public corpus
expert-proofed

03Health AI navigation

Health quarter
minimal data
staffed fallback

04Enterprise copilot

Services quarter
authorized data
human final review

05AI open classroom

Academic quarter
open content
teacher-led

06Legal AI assistant

Commons
public corpus
lawyer-reviewed

07AI-native retail

Dazhongsi
anonymous checkout
staffed lanes kept

08Energy-carbon AI

Public bldgs
building data
monthly review

09Accessibility companion

Belt-wide
opt-in
community fallback

dual officers

★ = industry test

12★Embodied proving ground

Verification quarter
graded opening
licensed

★ = industry test

Six personas: researchers/engineers · founders · students · residents (incl. elderly) · international developers/visitors · governance & operations

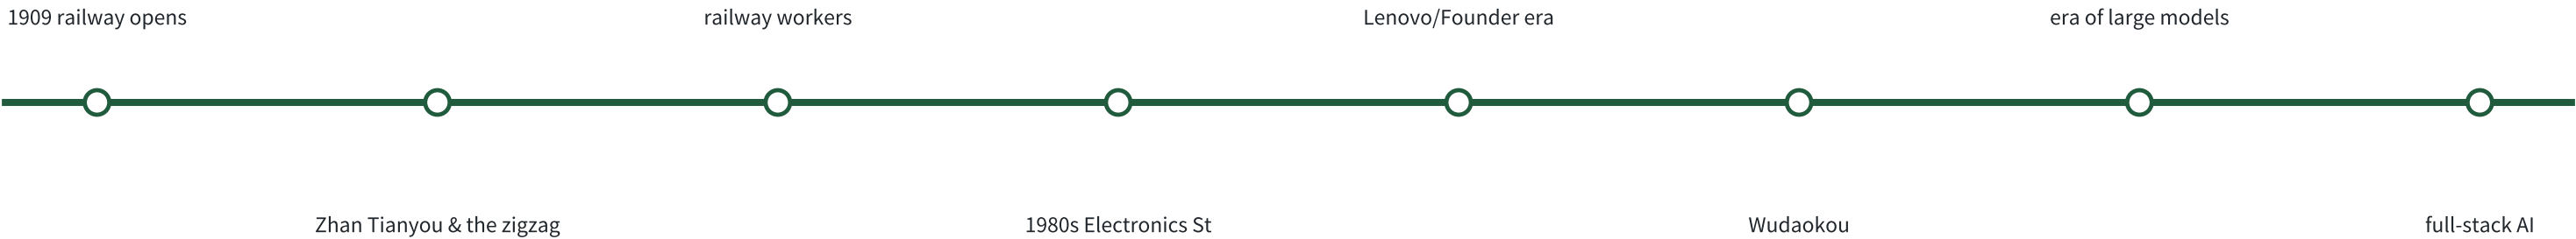

Admission rule: a concrete geometry feature + an accountable operator + a human-review path; scenarios violating privacy or lacking review are barred.

Compliance: the generative-AI interim measures, barrier-free law, and elderly-smart-tech plan are wired into operating conditions.

AI pilgrimage landmarks × honor system × narrative “From one line to countless lines”

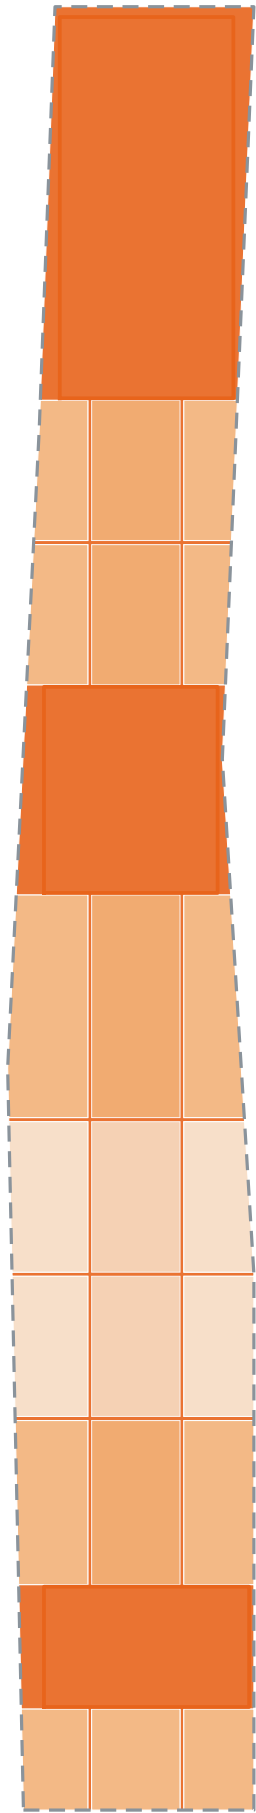

Honor system: the Builders' Hall of Fame along Ren Walk — one stele per kilometre, community-juried, no commercial naming.

Wayfinding: station signs, signals, switches, modernized; palette: locomotive green / signal orange / pixel blue.

Communication theme: Walk the Line, Write the Future. History follows public records; all portraits/typefaces/marks cleared.

Phasing plan

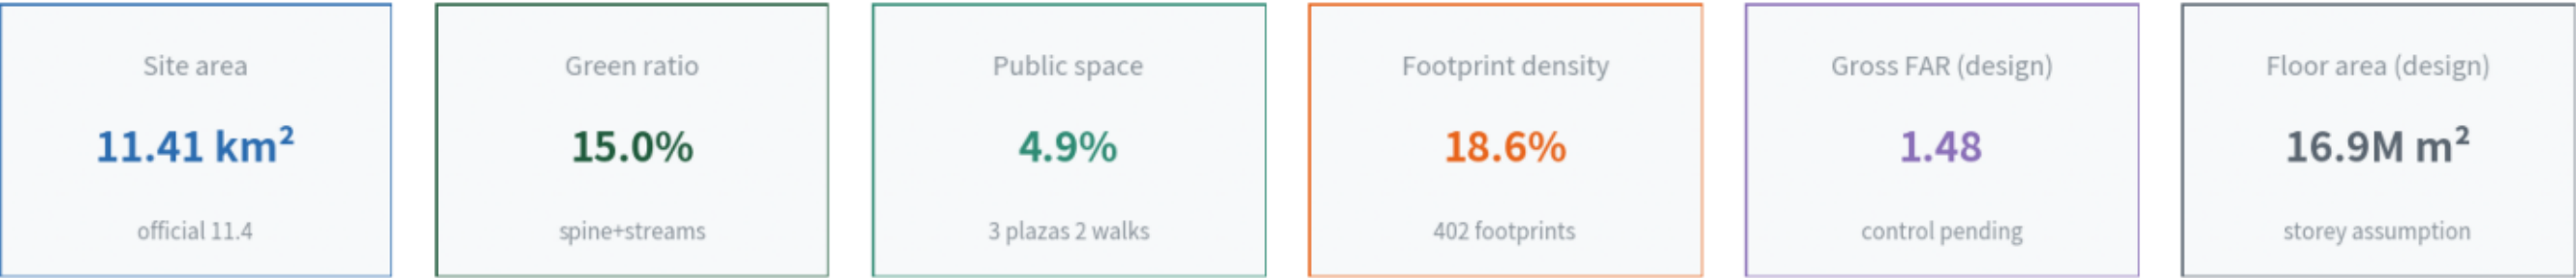

Renewal projects (18) and implementation mechanisms

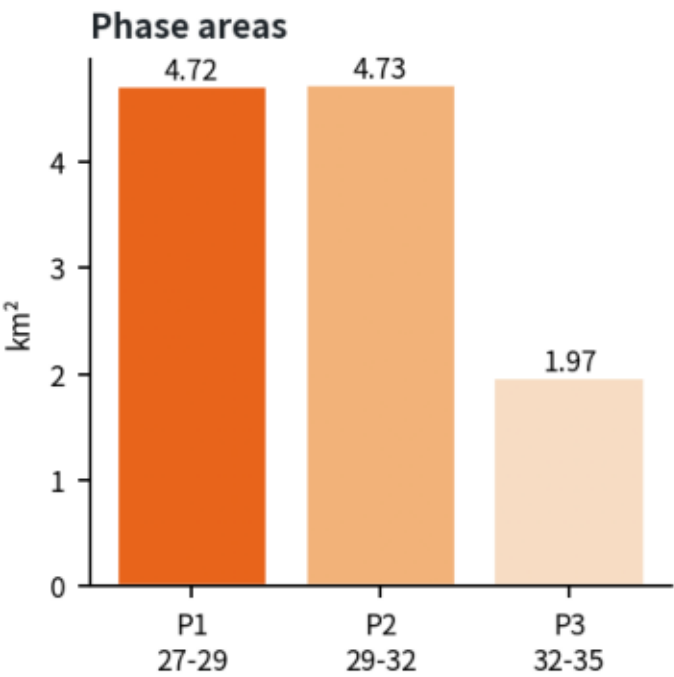

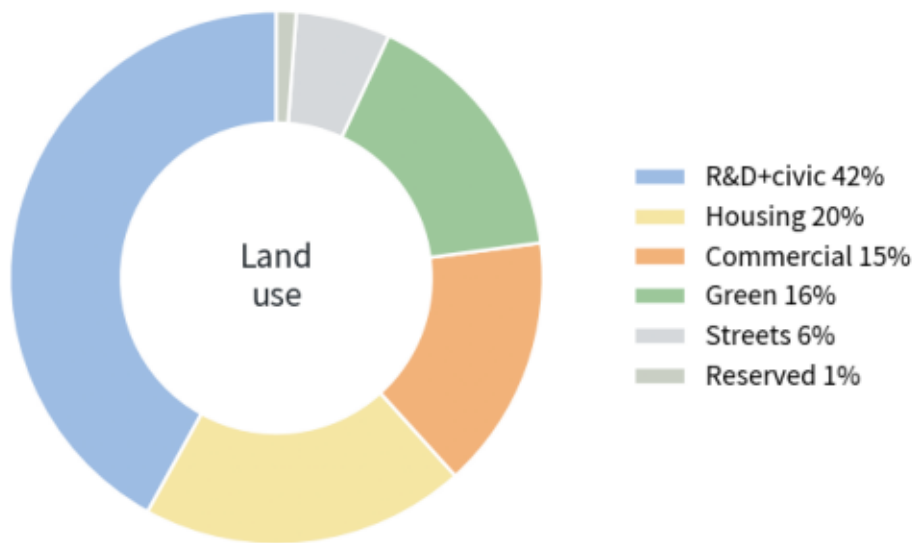

Phase 1 2027-2029 stations + Ren Walk 1 Ren Walk; 2 Kilometre Zero & Origin Plaza; 3 Origin Commons conversion; 4 Dazhongsi retail conversion; 5 Swarm Dome & Launch Center; 6 Compute Quarter I; 7 three transit links; 8 Hall-of-Fame promenade	4.72 km ²
Phase 2 2029-2032 quarters + scenarios 9 stock AI conversion; 10 Xiaoyuehe testing base; 11 talent housing; 12 Smart Health; 13 university-industry R&D; 14 micro-circulation	4.73 km ²
Phase 3 2032-2035 gateways + synergy 15 Ren Bridge; 16 reserved-gateway custom development; 17 education upgrade; 18 regional corridor connection	1.97 km ²

Mechanisms: renewal toolkit | test license + insurance + safety officers | challenge-based land supply | co-creation workshops + open-source deliberation. All conceptual.

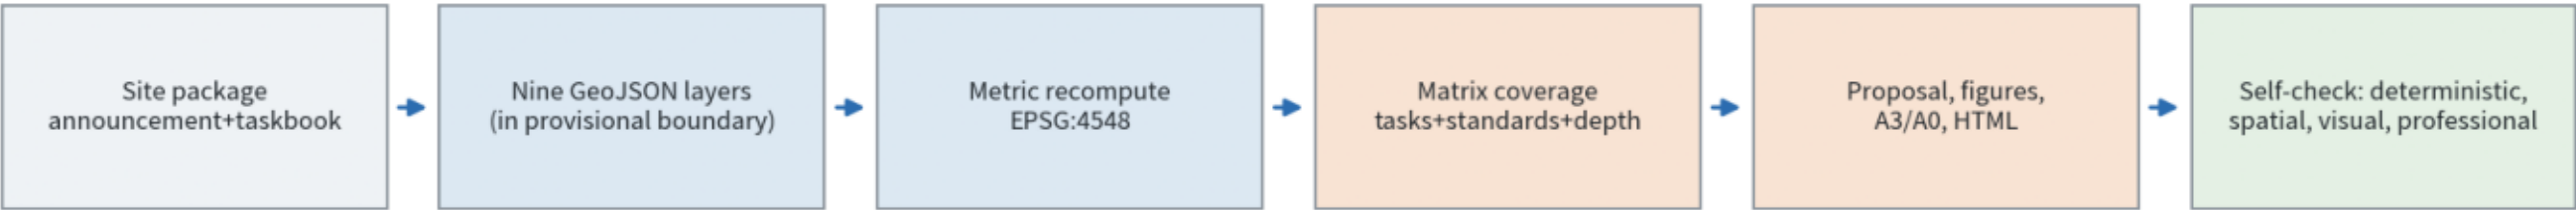

Core-metric recomputation and evidence chain (all recomputed from submitted GeoJSON, EPSG:4548)

Recomputed land-use mix
