
JINGZHANG CIVIC ETIQUETTE: Teaching Intelligence

DECLARE · ASK · YIELD · HANDOVER

01 DECLARE

02 ASK

03 YIELD

04 HANDOVER

Spatial claims begin with honest disclosure

Official polygons are absent and the organizer's provisional geometry remains unchanged.
Issues #846 and #1029 are logged. No site visit, interview or pilot was performed.

A CIVIC SPINE THAT EXPLAINS ENTRY BEFORE INTELLIGENCE

Relational diagram on provisional geometry — not a surveyed heritage-park alignment

- 1

DECLARE
明示
Identity, purpose, data, limits and owner are visible
- 2

ASK
征询
Choice before use; listen before planning
- 3

YIELD
让行
People, access and non-AI equivalents have priority
- 4

HANDOVER
交接
Escalate to people; leave maintainable exit assets

EVIDENCE LIMIT: official polygons absent; #846/#1029 logged; no site visit or interview.

CONCEPT · PROVISIONAL · PROFESSIONAL REVIEW PENDING

[sources.json](#) · [assumptions.json](#) · [metrics.json](#) · [GeoJSON](#)

Research network, overall design, key civic courts

43.6 km² frames industry and responsibility;
11.4 km² carries replaceable concept layers; the
three key areas use official approximate areas
and do not anchor stations or parcels to
temporary rectangles.

SIX DISCUSSION ENVELOPES × ONE OPEN CIVIC ROUTE

Full coverage without overlap; valid codes, not a regulatory-plan decision

PROGRAMME ENVELOPES

0802

DESIGN RULE

Inventory first, then reversible additions. Footprints are service prototypes, not demolition decisions.

CONCEPT · PROVISIONAL · PROFESSIONAL REVIEW PENDING

[sources.json](#) · [assumptions.json](#) · [metrics.json](#) · [GeoJSON](#)

Four courtesies are interface rules

Declare identity, purpose, data, limits and owner. Ask through informed choice and appeal. Yield to people, access and non-AI equivalents. Handover through human takeover, maintenance, stop and exit assets.

Three civic courts with continuous handover

Zhongzhiyuan hosts disclosure and controlled testing; AI Origin hosts consultation, translation and professional co-review; Dazhongsi hosts yielding and city adoption. Placement awaits official polygons and field verification.

THREE CIVIC COURTS: A CHAIN OF RESPONSIBILITY

Names and approximate areas are official; provisional rectangles do not anchor stations or parcels

01

ZHONGZHIYUAN · DECLARE

众智园 | 明示场

≈ 192.1 ha

- Model disclosure desk
- Embodied-AI yield yard
- Edge handover bench

Location awaits official polygons

02

AI ORIGIN · ASK

AI 原点 | 征询场

≈ 104.3 ha

- Campus-city handover
- Multilingual opt-in desk
- Professional referral

Location awaits official polygons

03

DAZHONGSI · YIELD

大钟寺 | 让行场

≈ 72.0 ha

- People-first transfer gate
- Returnable agent market
- Cycle/kerb assistant

Location awaits official polygons

ACROSS ALL COURTS: HANDOVER = human takeover + operator + stop condition + exit asset

CONCEPT · PROVISIONAL · PROFESSIONAL REVIEW PENDING

[sources.json](#) · [assumptions.json](#) · [metrics.json](#) · [GeoJSON](#)

Twelve minimum situations, not twelve tech exhibits

THREE CIVIC COURTS: A CHAIN OF RESPONSIBILITY

Names and approximate areas are official; provisional rectangles do not anchor stations or parcels

01

ZHONGZHIYUAN · DECLARE

众智园 | 明示场

≈ 192.1 ha

Model disclosure desk

Embodied-AI yield yard

Edge handover bench

Location awaits official polygons

02

AI ORIGIN · ASK

AI 原点 | 征询场

≈ 104.3 ha

Campus-city handover

Multilingual opt-in desk

Professional referral

Location awaits official polygons

03

DAZHONGSI · YIELD

大钟寺 | 让行场

≈ 72.0 ha

People-first transfer gate

Returnable agent market

Cycle/kerb assistant

Location awaits official polygons

ACROSS ALL COURTS: HANDOVER = human takeover + operator + stop condition + exit asset

Every card fixes problem, place, user, minimum data, operator, human review, non-AI path, acceptance metric, stop condition and exit asset. No operator and no stop condition means no field deployment.

CONCEPT · PROVISIONAL · PROFESSIONAL REVIEW PENDING

[sources.json](#) · [assumptions.json](#) · [metrics.json](#) · [GeoJSON](#)

Complete topology for discussion, never a control plan

SIX DISCUSSION ENVELOPES × ONE OPEN CIVIC ROUTE

Full coverage without overlap; valid codes, not a regulatory-plan decision

PROGRAMME ENVELOPES

0802 R&D validation 研发验证 明示 Declare	0804 Campus-city translation 校城转译 征询 Ask
0803 Heritage learning 文化学习 交接 Handover	0702 Community service 社区服务 让行 Yield
05 City adoption 城市采用 交接 Handover	1401 Blue-green testing 蓝绿试验 让行 Yield

DESIGN RULE

Inventory first, then reversible additions. Footprints are service prototypes, not demolition decisions.

Six valid land-use codes cover the provisional overall area. Eighteen footprints are reversible service pavilions; with no inventory, ownership, heritage or structural data, retain/renovate/demolish and total floor area remain unknown.

CONCEPT · PROVISIONAL · PROFESSIONAL REVIEW PENDING

[sources.json](#) · [assumptions.json](#) · [metrics.json](#) · [GeoJSON](#)

Keep the civic route
continuous; make courtesy
interfaces stoppable

OPEN CIVIC ROUTE · BOUNDED INTELLIGENCE

Connectivity and suggested widths only; redlines, capacity and station engineering remain unknown

OPEN CIVIC ROUTE

6 - 12 m suggested interface

Continuous, accessible, non-AI equivalent

COURTESY GATES

4 - 8 m suggested interface

Verify walking and cycling first

CLIMATE ROOMS

approx. 100 - 135 m concept buffer

Shade, water, rest; measure before fixing

HUMAN DESKS

paired with every AI service

Refuse, appeal and reach a person

STOP WHEN

Stop on near-miss, blocked access, failed human takeover, non-consensual collection, or two unresolved complaint cycles.

DECLARE · identity sign

ASK · choice control

YIELD · clear passage

HANDOVER · human desk

Suggested interfaces are 6–12 m for the open civic route and 4–8 m for courtesy gates, concept only. Road redlines, capacity, station engineering, drainage, flood and utilities await professional verification.

CONCEPT · PROVISIONAL · PROFESSIONAL REVIEW PENDING

[sources.json](#) · [assumptions.json](#) · [metrics.json](#) · [GeoJSON](#)

known / unknown / not run

EPSG:4548 makes submitted geometry reproducible; confidence remains medium because the input is provisional. FAR, height, density, parking, utilities and field baselines receive no invented values.

REPRODUCIBLE DOES NOT MEAN OFFICIALLY CONFIRMED

Separate known, unknown and not-run; never turn provisional geometry into field fact

Submitted area

11.413 km2

PROVISIONAL

Concept green ratio

11.09%

DESIGN

Concept public space

1.45%

DESIGN

Concept route length

16.30 km

DESIGN

UNKNOWN — AWAITS OFFICIAL / PROFESSIONAL DATA

FAR / total floor area

Height / density

Road redlines / parking

Utilities / heritage

Actual flow / comfort

NOT RUN — NOT PERFORMED IN THIS ITERATION

Site visit

Accessibility audit

Stakeholder interviews

Live AI pilot

Public consensus

RECALCULATION TRIGGER: official polygons → controls/inventory → fieldwork → permission → minimum pilot → independent review

CONCEPT · PROVISIONAL · PROFESSIONAL REVIEW PENDING

[sources.json](#) · [assumptions.json](#) · [metrics.json](#) · [GeoJSON](#)

Evidence gates replace calendar promises

P0 locks evidence; P1 adds official geometry, fieldwork and interviews; P2 runs one reversible minimum prototype per area; P3 independently reviews, hands over operations and publishes annually. Permission, access, privacy or takeover failure can stop any stage.

REPRODUCIBLE DOES NOT MEAN OFFICIALLY CONFIRMED

Separate known, unknown and not-run; never turn provisional geometry into field fact

Open does not mean boundaryless

The proposal uses
COMMUNITY-DISPLAY-ONLY; external cases are attributed background principles. AI services may not impersonate, collect personal data without consent, replace professional diagnosis or adjudication, or claim public consensus or government commitment.
