

# One Spine, Three Civic AI Gates

Public life rail | Innovation validation rail | Auditable governance rail

Rails of Intelligence | Concept proposal | Provisional boundary - recalculate with official data

## THREE OPERATIONS

**Validation Gate**  
Zhongzhiyuan | safety and standards

**Open-Source Gate**  
AI Origin | translation and talent

**Release Gate**  
Dazhongsi | roadshow and exchange

Public first. Reversible pilots. Scale after review.

# Three Districts, One Collaborative Loop

Each gate pairs a spatial prototype with governance and exit criteria

**01**  
ZHONGZHIYUAN  
**VALIDATION GATE**

- Model safety sandbox
- Low-carbon compute lab
- Standards workshop

Human review | Authorized data | Reversible

**02**  
AI ORIGIN  
**OPEN-SOURCE GATE**

- Open-source release hall
- Translation street
- Talent service interface

Human review | Authorized data | Reversible

**03**  
DAZHONGSI  
**RELEASE GATE**

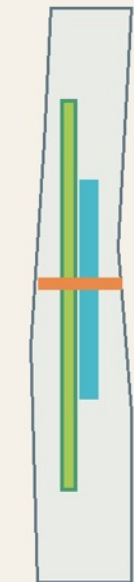

- International roadshow
- Compliant data commons
- AI life demonstration

Human review | Authorized data | Reversible

Rails of Intelligence | Concept proposal | Provisional boundary - recalculate with official data

# Blue-Green Base + Walking First + Low-Intrusion AI

Algorithms assist diagnosis; they do not replace transport review

Rails of Intelligence | Concept proposal | Provisional boundary - recalculate with official data

## THREE SERVICE LAYERS

**Base**  
Walking | cycling | accessibility

**Service**  
Explainable guidance | event support

**Trial**  
Supervised low-speed mobility

Road lines and rail interfaces require professional verification.

# Every Promise Returns to Data and Human Judgment

Machine-readable files are authoritative; boards and HTML explain them

**SITE**  
**11.41**  
km² provisional area

**GREEN**  
**12.3%**  
concept green ratio

**PUBLIC**  
**7.3%**  
concept public-space ratio

**GATES**  
**3**  
key civic AI gates

**01** GeoJSON

**02** EPSG:4548

**03** Matrix QA

**04** Human review

Limitation: provisional geometry is not an official redline or statutory-control basis.

Rails of Intelligence | Concept proposal | Provisional boundary - recalculate with official data

# A Shared-Edge, Mixed-Use Framework

Topology-stable design areas within the same provisional boundary

## FOUR INTERFACES

### AI Research

Research - test - release

### Parks and Open Space

Heritage and everyday life

### Industry and Commerce

AI-native services and exchange

### Community Services

Talent life and public services
