

京张智脉共生带 · 百年京张AI创新带

本方案以“京张智脉共生带”为总体概念，将百年京张文化带、都市AI生活体验带、AI融合创新带三带合一，构建三区两翼协同回路，提出不少于10张AI场景卡、3个AI朝圣地标

所有空间落地建议均为概念方案，不构成政府审定结论。

01 总览地图

总体设计范围与三处重点区域

Centennial Jingzhang AI Innovation Belt — overall design area & three key areas

Site Overview · 总览地图

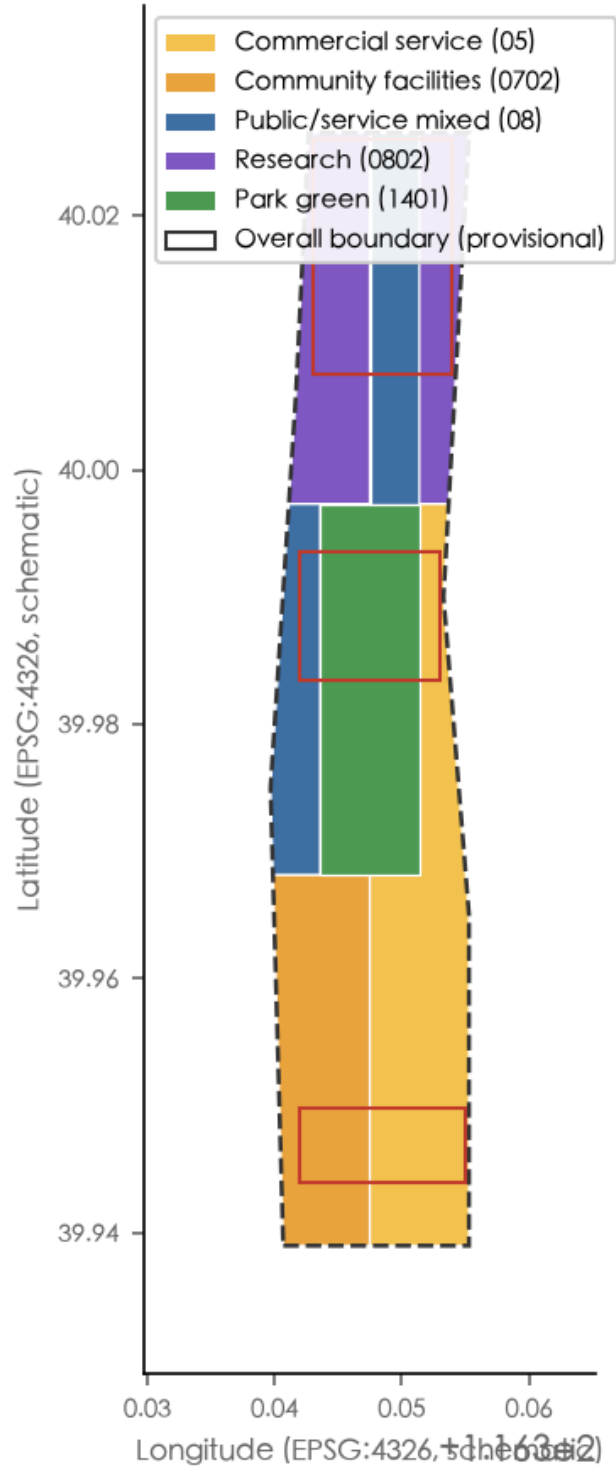

Source: brief/site-package/geometry/provisional_boundaries.geojson + agent-generated design layers.

Boundary status: provisional_constraint (PROV-SITE-001 / PROV-KEY-001..003). Not a statutory redline. | Figure: site-overview

02 用地分区

无缝 4×3 用地分区与三区两翼骨架

Seamless 4×3 partition of the overall boundary (agent-generated design)

Source: [brief/site-package/geometry/provisional_boundaries.geojson](#) + agent-generated design layers.

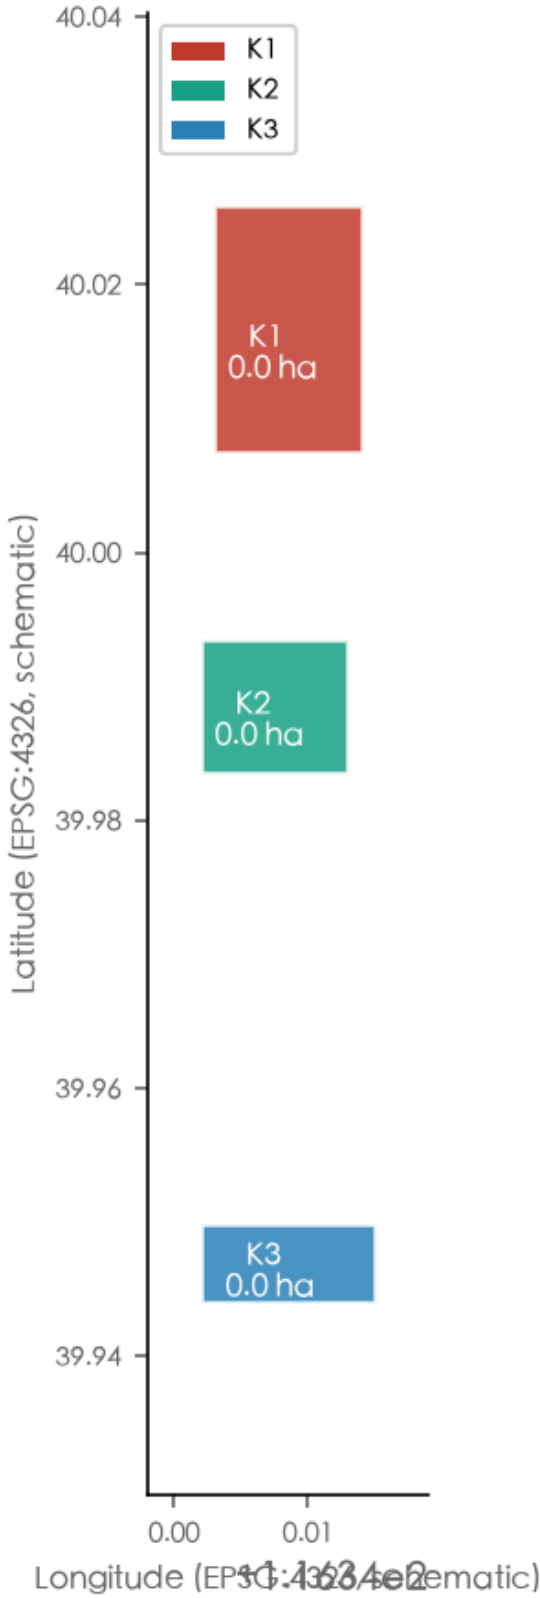

Boundary status: provisional_constraint (PROV-SITE-001 / PROV-KEY-001..003). Not a statutory redline. | Figure: land-use-structure

03 重点区域

众智园、AI原点社区、大钟寺详细设计概念

Key Areas · 重点区域详细设计

Three key detailed-design areas (provisional polygons)

Source: brief/site-package/geometry/provisional_boundaries.geojson + agent-generated design layers.

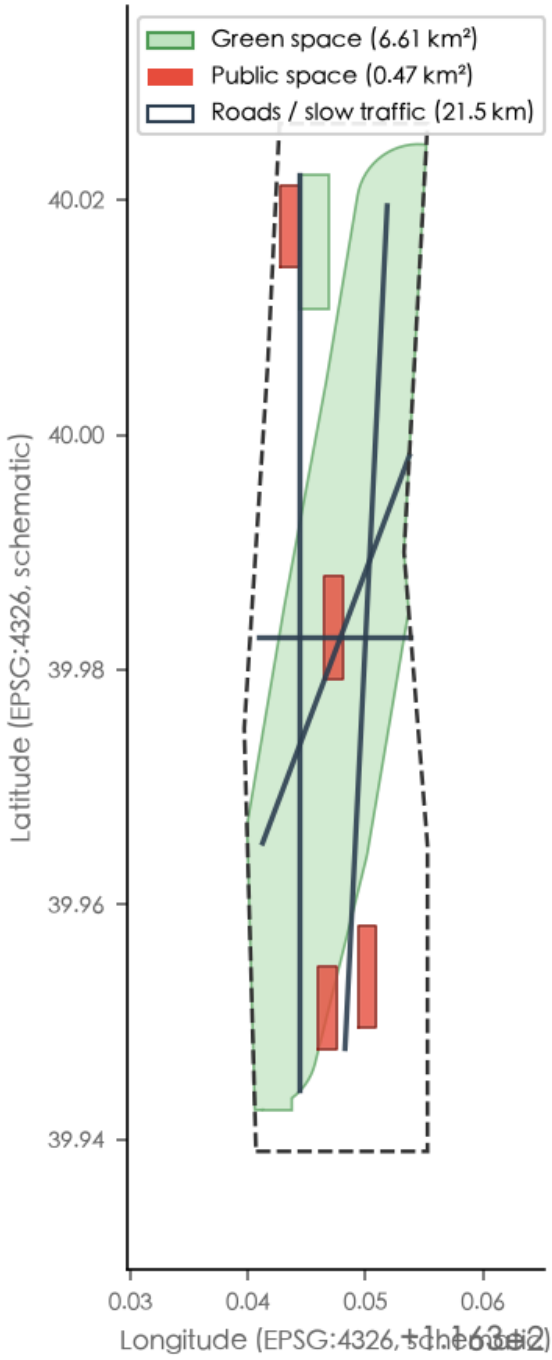

Boundary status: provisional_constraint (PROV-SITE-001 / PROV-KEY-001..003). Not a statutory redline. | Figure: key-areas

04 交通慢行与蓝绿公共空间

道路、绿地与广场复合系统

Mobility & Blue-Green Network · 交通慢行与蓝绿公共空间

Green space, public space, roads and slow traffic skeleton

Source: brief/site-package/geometry/provisional_boundaries.geojson + agent-generated design layers.

Boundary status: provisional_constraint (PROV-SITE-001 / PROV-KEY-001..003). Not a statutory redline. | Figure: mobility-bluegreen

05 核心指标复算

从 GeoJSON 复算的面积、比率与长度指标
