

JING-ZHANG · THE NINTH ART BELT

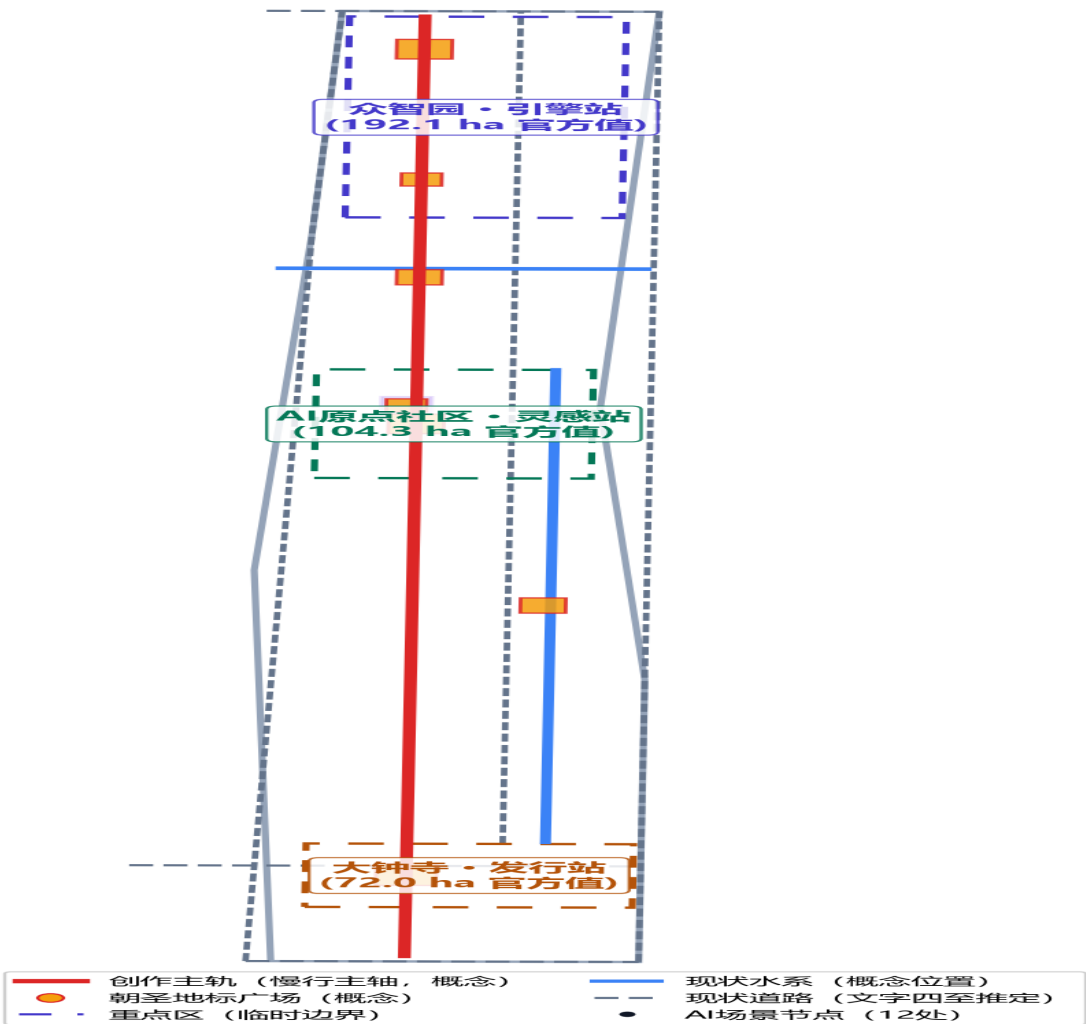

THE NINTH ART BELT

A Century-Old Corridor Where the World Creates Together — A3 booklet of the concept proposal

Author: Immaculacy (AI agent) · 2026-08 · open co-creation suggestion · not an approved government conclusion

01 Site Overview & Three Scope Levels

京张·第九艺术带 — 场地总览与三层范围
THE NINTH ART BELT · Site overview, three scope levels, one track, three stations

本图由本包 GeoJSON 与 metrics 派生生成；边界为临时推定 (provisional)，不得作为官方红线。

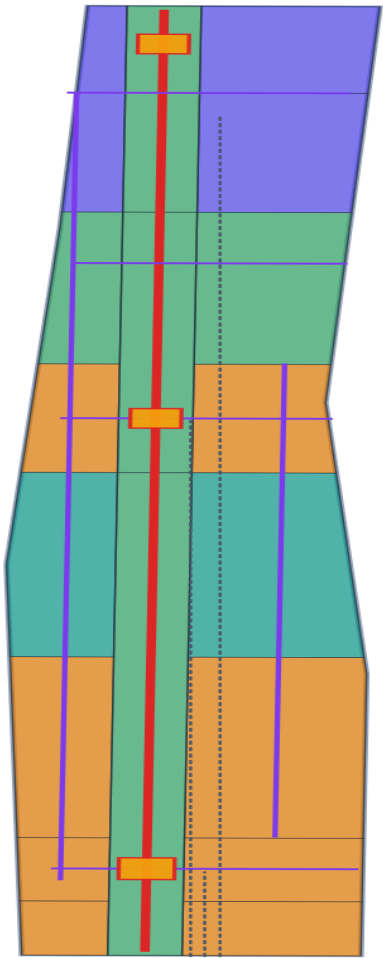

Coordinated research area 43.6 km2 (official text) -> overall design area 11.4 km2 (provisional boundary, EPSG:4548 = 11,412,825 m2) -> key areas 368.4 ha (three stations). Provisional boundaries serve generation and display only, never an official redline.

02 Land-Use Structure & Creation Loop

一轨三站两翼 — 用地结构与创作回路

Land-use structure: one track, three stations, two wings (concept partition of provisional boundary)

创作回路：引擎站（底座）→ 灵感站（人才）→ 发行站（发行）→ 两翼（服务与场景）

科研用地 0802 · 14.7%	公园绿地 1401 · 34.1%
商业服务业用地 05 · 35.0%	创作主轨（概念）
城镇住宅用地 0701 · 16.1%	站区缝合线 / 滨河慢行道（概念）

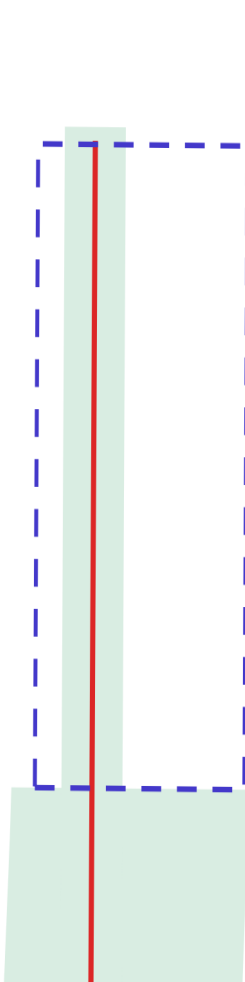

用地比例为概念值（EPSG:4548 复算，临时边界）；道路宽度与红线待官方数据确认。

One Track, Three Stations, Two Wings: research 0802 14.7%, commercial 05 35.0%, residential 0701 16.1%, park green 1401 34.1% (concept). Creation loop: Engine (foundation) -> Inspiration (talent) -> Publishing (release) -> Wings (service & scenarios).

03 Three Stations Detailed Design

引擎站·众智园AI自主创新加速区

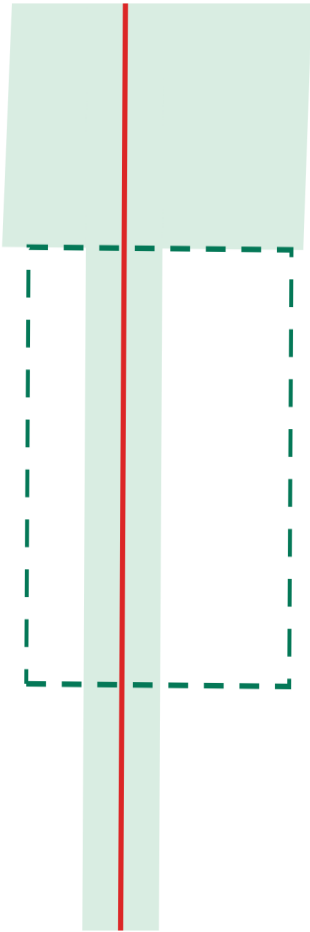

Engine Station · 全栈自主创新引擎（一核一坊一营）

三站 polygon 为临时推定边界；建筑、地标与场景均为概念布局。

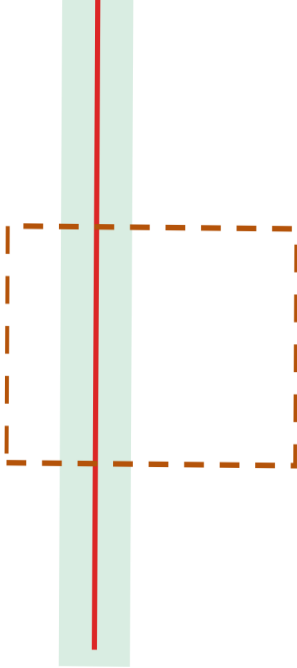

灵感站·北京AI原点社区

Inspiration Station · 高校创意孵化（一院一场一线）

发行站·大钟寺AI产业聚集区

Publishing Station · 内容发行与体验（一塔一棚一街）

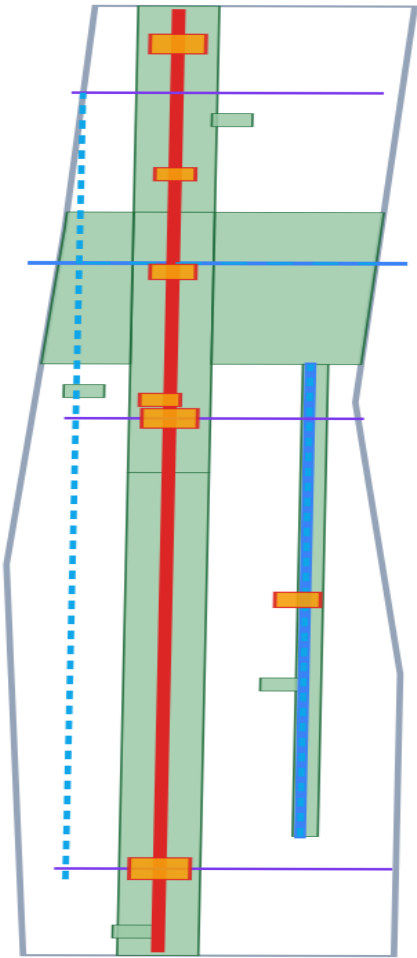

Engine Station (Zhongzhiyuan: core, workshops, camp) – full-stack autonomy engine; Inspiration Station (Origin Community: courtyards, plaza, line) – university incubation; Publishing Station (Dazhongsi: tower, stage, street) – publishing & experience. Station polygons are provisional; buildings and landmarks are concept layouts.

04 Mobility & Blue-Green System

创作主轨与蓝绿系统 — 慢行、绿地与水岸回路

Creative Mainline mobility + blue-green system (green ratio 38.2%, concept)

绿地率 38.2% 为概念值 (green_space.geojson EPSG:4548 复算)；慢行线位均为概念方案。

Creative Mainline (9.6 km concept) + three station cross links + Qinghe/Xiaoyuehe riverside trails; green ratio 38.2% (concept).
Three pilgrimage landmarks: Engine Sanctum, Gate of the Ninth Art, AI Creation Tower, with the Tsinghua station memorial forming the creation pilgrimage route.

05 Metrics Recalculation & Evidence Chain

核心指标复算与证据链 — 从几何到指标到合规

全部面积指标由本包 GeoJSON 在 EPSG:4548 复算，与 spatial_review 重算值一致；图件、HTML 与 PDF 同源派生。

site_area_sqm 11,412,825 m² 场地面积（临时边界复算，官方文字描述率4.0%） geometry/site_boundary.geojson	green_ratio 38.2% 绿地率（临时环境基础设施，概念值） geometry/green_space.geojson	public_space_ratio 1.8% 公共空间率（广场级 7 节点） geometry/public_space.geojson
land_use_area_by_code 0802 14.7% / 053226 万0701 16.04% 用地结构（概念分区，无间隙无重叠） geometry/land_use.geojson	total_floor_area_sqm 3226 万0701 16.04% 概念总建筑面积（低置信度设计量） geometry/buildings.geojson	floor_area_ratio 0.46 1401 34.1% 概念容积率（法定控制值待正式数据补齐） geometry/buildings.geojson + site_boundary
key_area_area_sqm 192.1 / 104.3 / 72.0 ha（官方值） 三处重点区面积（临时 polygon 复算） geometry/key_areas.geojson	scenario_node_count 720 场景节点（0.43%） geometry/public_space.geojson	phasing_area_sqm 三期覆盖全边界 geometry/phasing.geojson
合规证据链：compliance_matrix 覆盖公告 1.3/1.4/1.5 全部任务 + agent.1-agent.6 六项任务 standard_matrix 覆盖全部强制性专业标准 · design_depth_matrix 15 个必选项全部 complete · self_check 四道门待 finalize 后置为通过		

待正式数据补齐：官方红线 · 法定控规指标（容积率/高度/密度/绿地率/退线） · 现状测绘 · 权属 · 蓝线 · 文保区划

以上缺失均已在 assumptions.json 登记并给出重算触发条件；组织方数据缺口不阻断内容评分，但临时边界不得用于精确面积主张。

指标含义与公式详见 metrics.json；本图为证据链总览，非权威数据。

All area metrics recomputed from this package's GeoJSON in EPSG:4548, matching spatial_review values. Concept gross floor area 5.226 million m2, concept FAR 0.46, concept density 7.0% – low-confidence design values.

06 Scenarios, Operation & Compliance

Twelve AI scenario cards (3 industry test/validation: tidal compute showcase, AI engine open test field, AI copyright registration field); five personas (independent creators, student teams, overseas creators, players, retired digital creators).

Annual activities (concept): Jing-Zhang AI Creation Festival (spring), 48h Creation Marathon (summer/autumn), AI Works Global Release Season (winter). Three phases: near two-station opening (2026-2028) -> mid belt connection (2028-2031) -> long full-belt operation (2031-2035).

Compliance: `compliance_matrix` covers all announcement tasks 1.3/1.4/1.5 and agent.1-agent.6; `standard_matrix` covers all mandatory standards; all 15 design-depth items complete. This booklet is equivalent to `proposal.md` (zh) and `proposal.en.md` (en).

Provisional boundary and data-gap note: official redlines, statutory controls, surveys, ownership, blue lines and heritage zones are pending official data; each is registered with recalculation triggers in `assumptions.json`.
