

城市设计方案 / URBAN DESIGN PROPOSAL

A diagram showing a light blue rectangular area representing the Zhongguancun 7 top universities. Inside this area is a green rounded rectangle. Within the green rectangle is an orange rounded rectangle. An arrow points from the text 'Zhongguancun 7 top universities' to the orange rectangle. The orange rectangle contains the text '京张AI创新带' and '11.4 km²'. The green rectangle is labeled '海淀区' (Haidian District) and 'Zhongguancun 7 top universities'. The light blue area is labeled 'Beihang / national S&T center'.

The diagram illustrates the 'Three-levels, Three-ways, Three-connections' (三层次、三途径、三联系) framework for ecological civilization construction. It is organized into three horizontal layers, each with three components, connected by curved arrows indicating interactions.

- Top Layer (Teal):** 水涵养 (Water Conservation), 净化 (Purification), 回用 (Reuse).
- Middle Layer (Green):** 核算 (Calculation), 核证 (Verification), 交易 (Transaction).
- Bottom Layer (Blue):** 境连通 (Cross-boundary Connection), 物种回归 (Species Return), 生态服务 (Ecological Service).

Curved arrows connect the components within each layer and between adjacent layers, forming a network of interactions. Specifically, arrows connect the first, second, and third components of the top layer to those of the middle layer, and the middle layer to those of the bottom layer.

1	一带贯城 11.46m 绿脉公园带串联渭河+中夹村
2	三芯智督 众智督，AI原点，大钟寺三大重点片区
3	两翼协同 学院路创新翼+中关村产业翼
4	蓝绿织网 渭河+小月河修复，海绵城市 85%
5	慢行成网 AI 慢行专用道，绿色出行 >65%
6	智慧赋能 5G+AI 筑基，全核创新策源

近期 1-3年

- 绿脉公园示范带
- 众智园启动建设
- AI慢行示范道

中期 3-7年

- AI原点社区落点
- 大钟寺AI MALL
- 清河湿地修复

远期 7-15年

- 全线公园贯通
- 智慧运营中枢
- 区域创新联动
