

Centennial Jing-Zhang AI Innovation Belt — Overall Concept & Spatial Structure

FIG 1 / FIG 1

Centennial Jing-Zhang AI Innovation Belt — Overall Concept & Spatial Structure

One map, one story: concept / three areas two wings / one AI spine

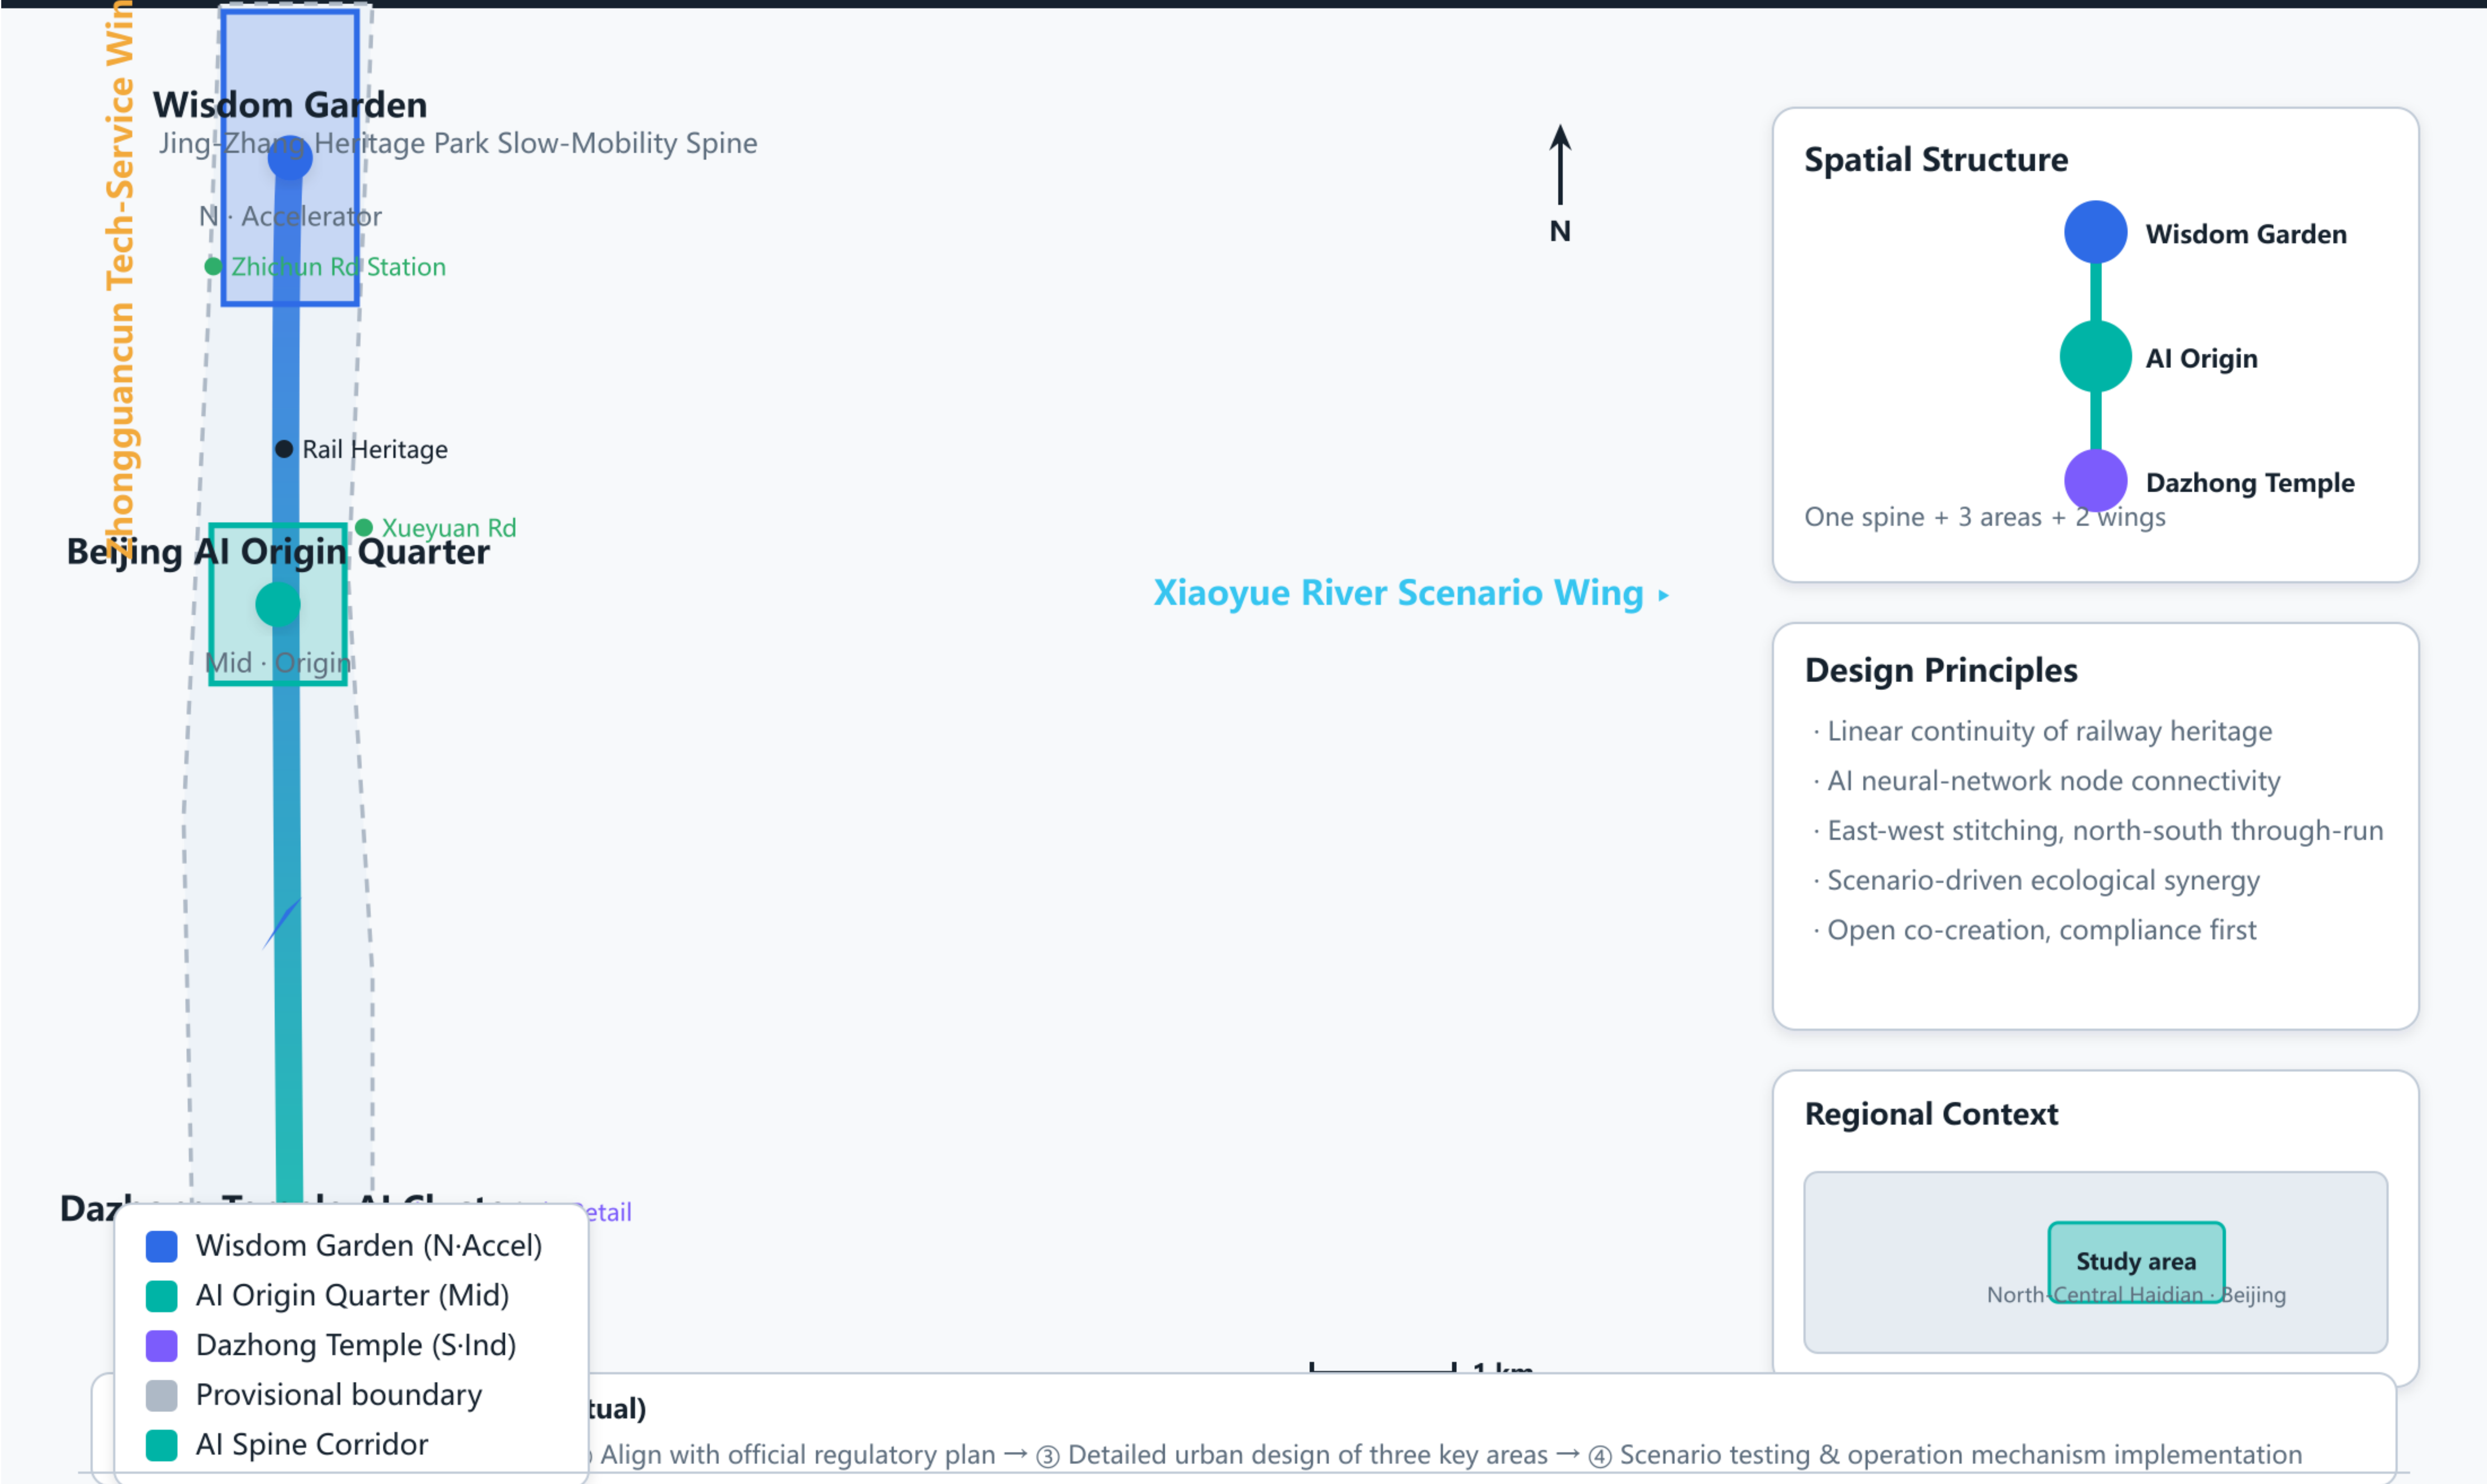

Fig 1 Overall scope & Three Areas + Two Wings structure (provisional boundary)

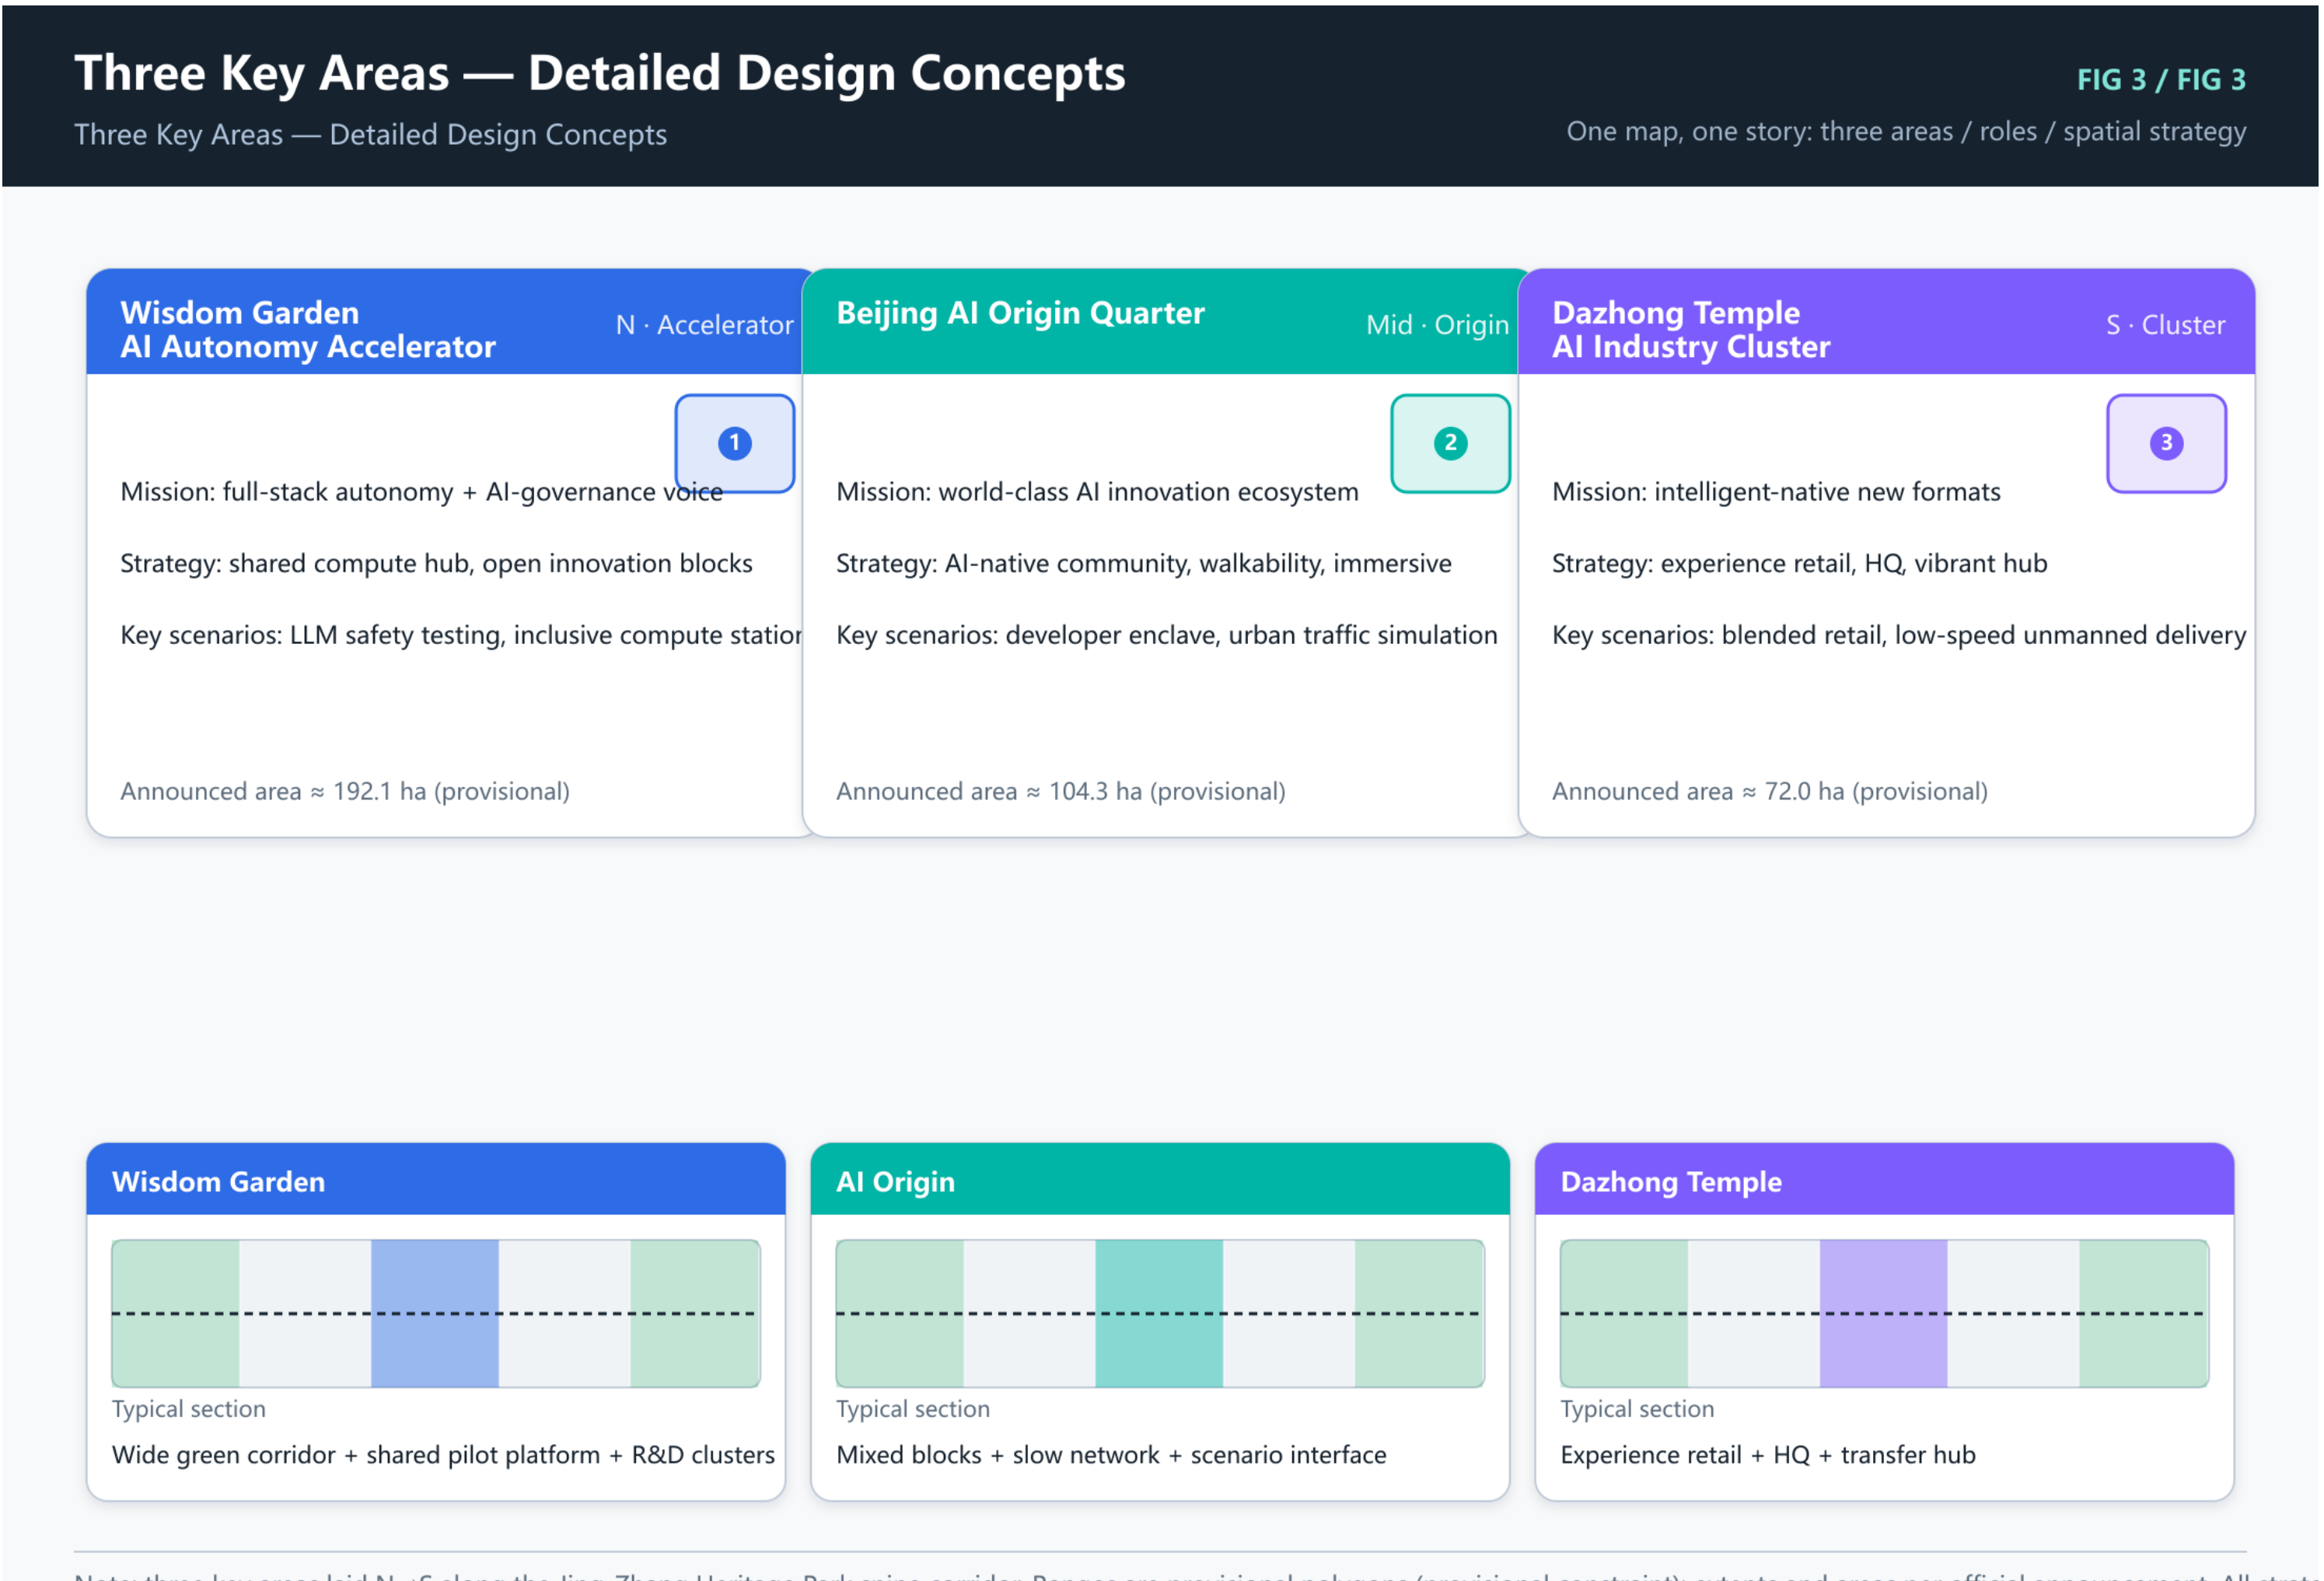

Fig 3 Detailed design concepts for three key areas (provisional extents)

Naming System & Synergy Loop

- Main name Jing-Zhang AI Spine: taking the Centennial Jing-Zhang Railway heritage as a spine to link AI innovation elements.
- Three Areas: Wisdom Garden AI Autonomy Accelerator · Beijing AI Origin Quarter · Dazhong Temple AI Industry Cluster.
- Two Wings: Zhongguancun Tech-Service Wing · Xiaoyue River Scenario-Empowerment Wing.
- Six tasks fully covered: overall concept / autonomous ecosystem / scenario empowerment / public-space landmarks / cultural narrative / long-term operation.
- Compliance: all content is open co-creation conceptual proposal, not a substitute for statutory planning or government approval; provisional geometry to be replaced by official data.

Metrics & Evidence Chain — Data Provenance
