

01 / CONCEPT

PROVISIONAL GEOMETRY · CONCEPT ONLY · RECOMPUTE WITH OFFICIAL DATA

THE NEXT RUN

VERIFY · LEARN · EARN — a paid reskilling corridor

AI innovation should first help people already at work keep up.

Before entering public space, every AI project files a Career Return Ticket: occupation, learning shift, practice place, human owner and exit.

1 SPINE · 3 YARDS · 6 GATES · 12 STATIONS · 2 WINGS

02 / STRUCTURE

PROVISIONAL GEOMETRY · CONCEPT ONLY · RECOMPUTE WITH OFFICIAL DATA

LAND USE & SPATIAL FRAMEWORK

Complete partition of the provisional polygon; concept names do not replace statutory classes

- ONE SPINE**  
ordinary movement, static wayfinding, rest and AI-off route
- THREE YARDS**  
VERIFY safety · LEARN openly · EARN through paid practice
- SIX GATES**  
link transit, campus, workplace, community and ground floor
- 12 STATIONS**  
each has a data boundary, human owner and exit
- TWO WINGS**  
technology services in; lived feedback out

03 / KEY AREAS

PROVISIONAL GEOMETRY · CONCEPT ONLY · RECOMPUTE WITH OFFICIAL DATA

THREE KEY AREAS

Three urban spaces on one career-transition chain

VERIFY

Zhongzhiyuan Skills Proving Works

synthetic faults · low-speed yard · edge interoperability · engineer release

MINIMUM PILOT one reversible space

HUMAN OWNER named professional

WITH AI OFF original bench & staffed service

LEARN

AI Origin Open Learning Junction

evening shifts · accessibility QA · open release · data stewardship · care

MINIMUM PILOT one reversible space

HUMAN OWNER named professional

WITH AI OFF original bench & staffed service

EARN

Dazhongsi Paid Practice Market

shop briefs · stated pay · human review · hiring appeal · global service

MINIMUM PILOT one reversible space

HUMAN OWNER named professional

WITH AI OFF original bench & staffed service

LANDMARKS · FIRST WRENCH · OPEN BADGE WALL · NEXT RUN HALL

04 / MOBILITY

PROVISIONAL GEOMETRY · CONCEPT ONLY · RECOMPUTE WITH OFFICIAL DATA

MOBILITY, GREEN SPINE & SKILLS GATES

The ordinary city works first; smart layers occupy removable side pockets only

FIXED SEQUENCE AT EACH GATE

01 PAPER JOBS & COURSES

02 STAFFED ADVICE & APPEAL

03 CYCLE PARKING

04 WATER, REST, ACCESS

05 OPTIONAL SMART NAVIGATION

No facial recognition, individual trajectory retention or automated enforcement. Paper work orders and staff continue offline.

# METRICS & EVIDENCE CHAIN

Known is recomputed from geometry; unknown is not filled with aspiration

PROVISIONAL GEOMETRY · CONCEPT ONLY · RECOMPUTE WITH OFFICIAL DATA

## CAREER RETURN TICKET: FIVE NON-COMPENSATING GATES

- PAY / PUBLIC RETURN
- NAMED HUMAN OWNER
- AI-OFF EQUIVALENCE
- MINIMISATION & RETENTION
- STOP · APPEAL · RESTORE

|                                                                                                |                                                                                                     |                                                                                            |                                                                                             |

## DELIVERY SEQUENCE

- 0

Phase 0: data, survey, ownership and co-design
- 1

Phase 1: three reversible minimum pilots
- 2

Phase 2: expand after independent review
- 3

Phase 3: permanent works only after approvals

## BOUNDARIES, RIGHTS & RESPONSIBILITY

All geometry is a rough provisional constraint. FAR, height, existing buildings, ownership, utilities, heritage, employment baselines and real pay remain unknown. AI cannot decide hiring, credentials, pay, benefits or public-service outcomes.

Evidence: proposal.md / proposal.en.md / sources.json / metrics.json / assumptions.json / self\_check.json / GeoJSON / offline HTML
