

AIC

Accessible Intelligence Corridor

Centennial Jingzhang AI Belt

Accessible Urban Design

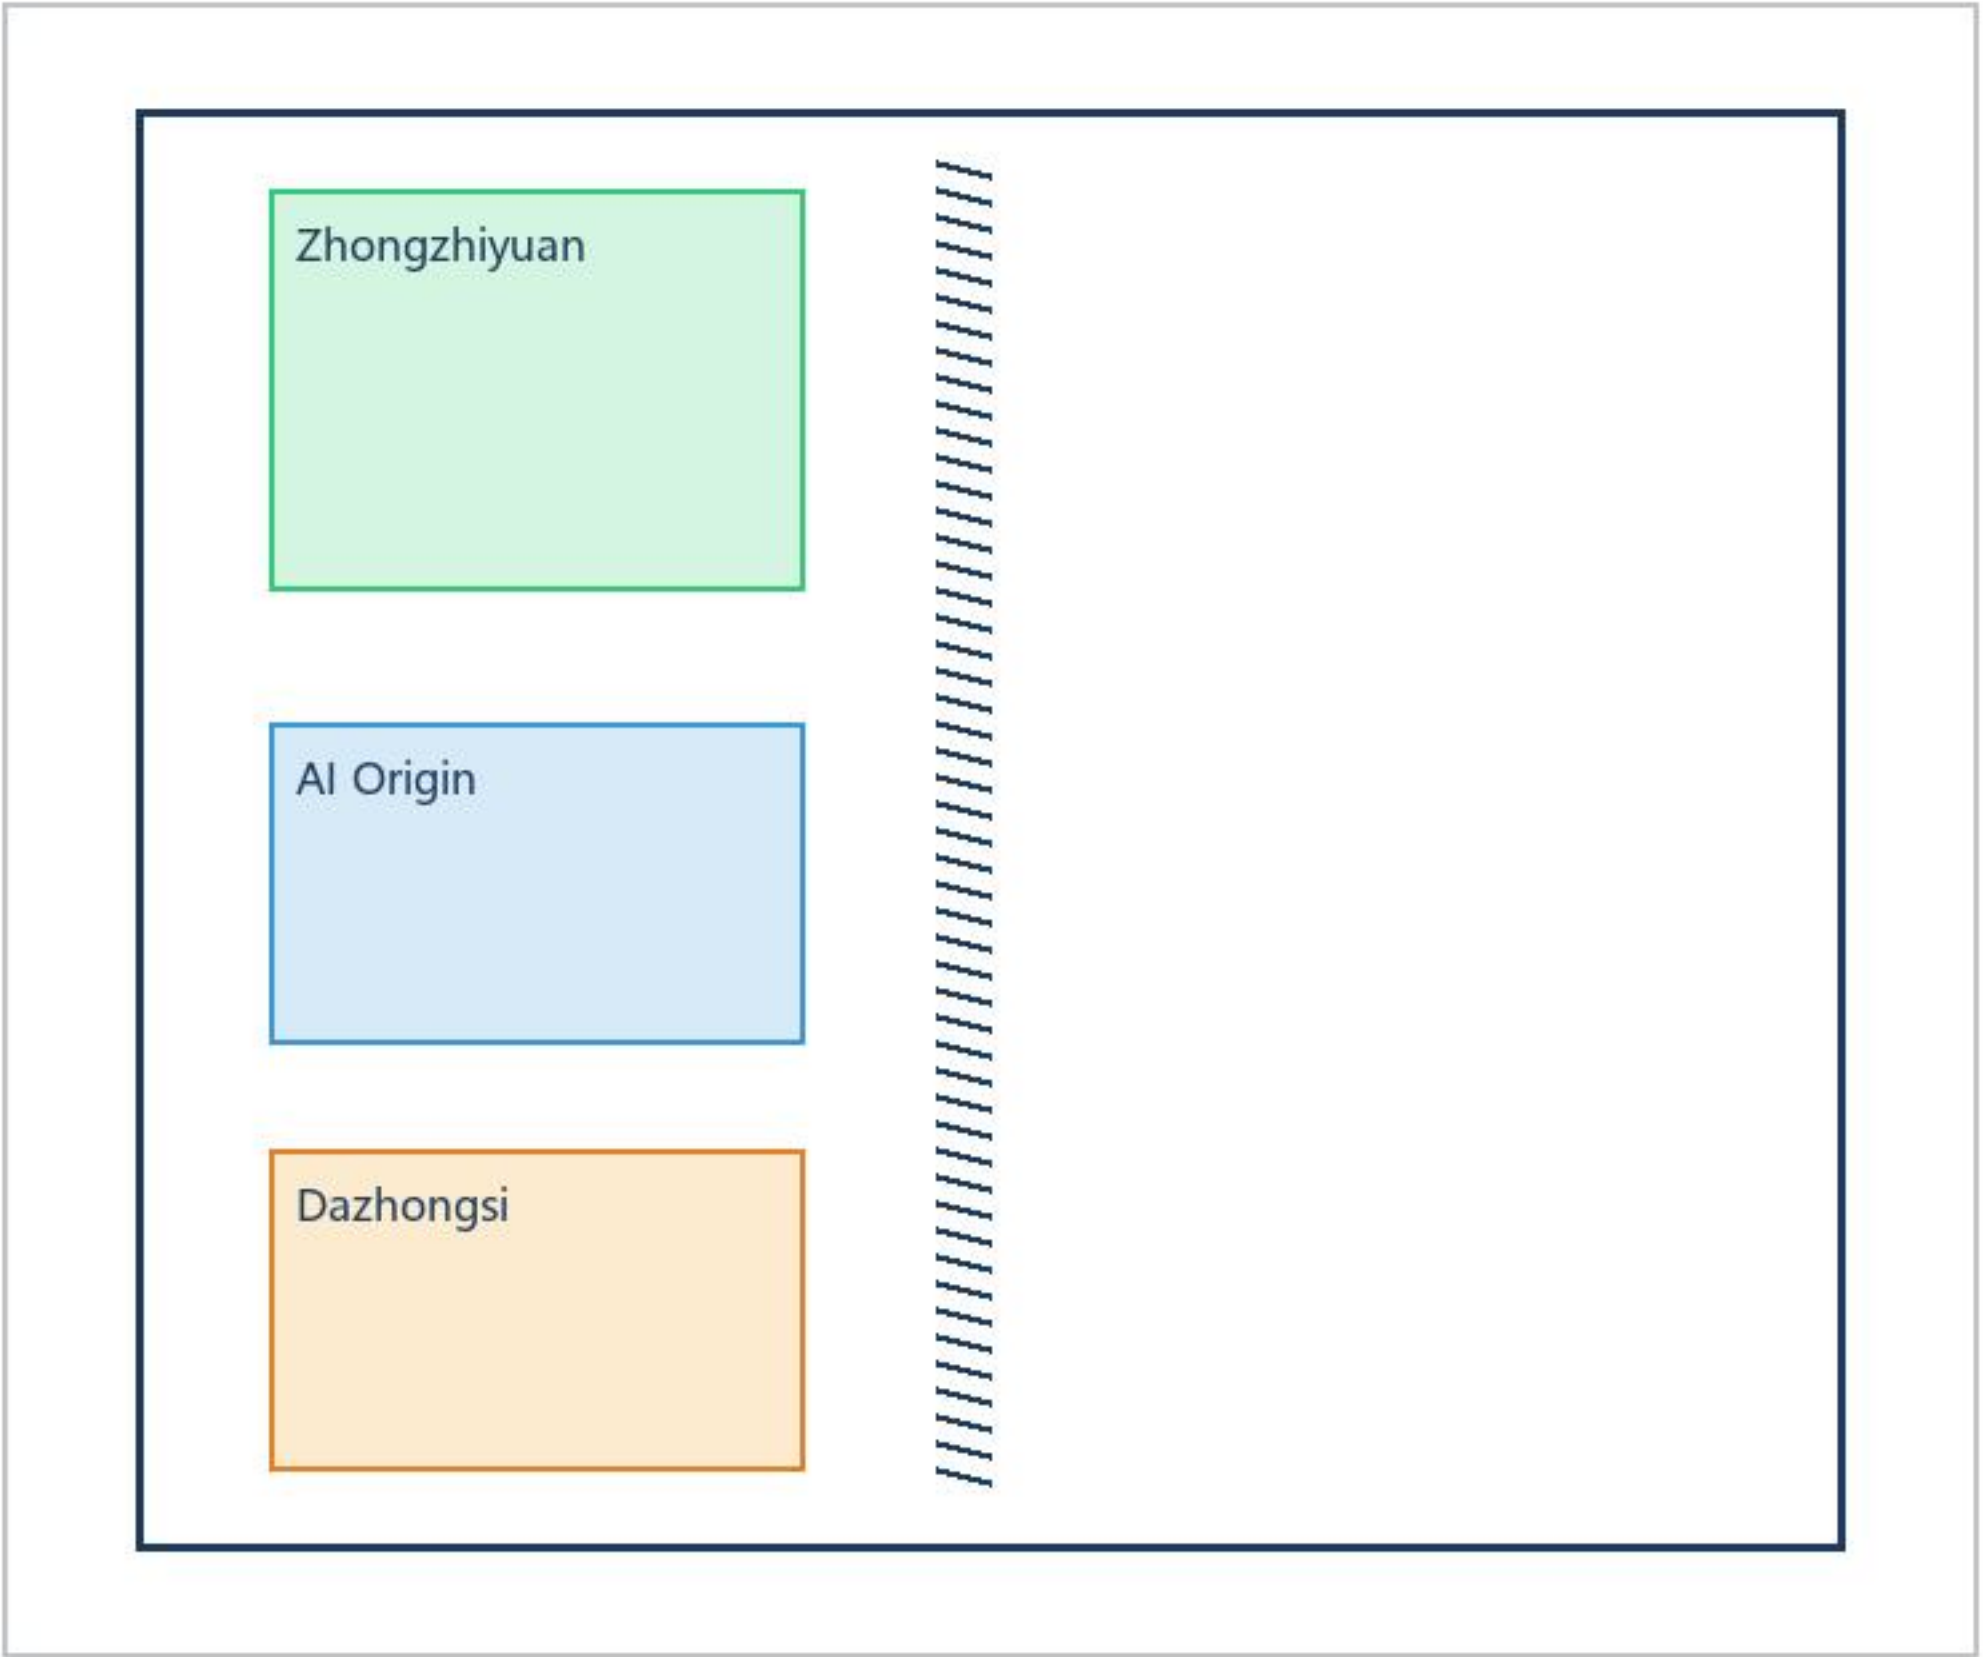

Author: bangx3363-bot / Claude Code

Tracks: AI+Traffic, AI+Public Svc, Youth Space

Five Accessibility Layers:

- Physical
- Sensory
- Cognitive
- Digital
- Linguistic

Spatial Overview

Three Areas Two Wings

- N: AI R&D + Testing
- C: Scenario Demo + Talent
- S: Industry + Consumption

AI Scenario Cards

AI Guide Blind

Tech: BLE Beacon+Audio

Users: Visually impaired

Privacy: Local processing

AI Sign Language

Tech: Gesture Recognition

Users: Hearing impaired

Privacy: Local processing

AI Wheelchair

Tech: LiDAR+Obstacle Avoid

Users: Mobility impaired

Privacy: Local processing

AI Multi-lang

Tech: 50+ Languages

Users: International

Privacy: Local processing

AI Cognitive

Tech: Simple UI+Voice

Users: Cognitive impaired

Privacy: Local processing

AI Env Monitor

Tech: Ramp/Elevator/Tactile

Users: All users

Privacy: Local processing

Landmarks & Phasing

-  Gate of Access
Dazhongsi - Spiral ramp building
-  Tower of Autonomy
Wudaokou - Ren-shape innovation
-  Garden of Senses
Qinghe - Sensory experience park

Phasing

	2026-2027 Foundation: Trail+Facilities+10 AI terminals
	2028-2030 Full deployment: 12 scenarios+Landmarks
	2031-2035 Maturity: International standard+Export
