

Double-Helix Innovation Belt

Centennial Jing-Zhang AI Innovation Belt

One Heritage helix x One Innovation helix
intertwined along the Jing-Zhang Heritage Park corridor,
forming three gene nodes: Zhongzhiyuan • AI Origin Community • Dazhongsi

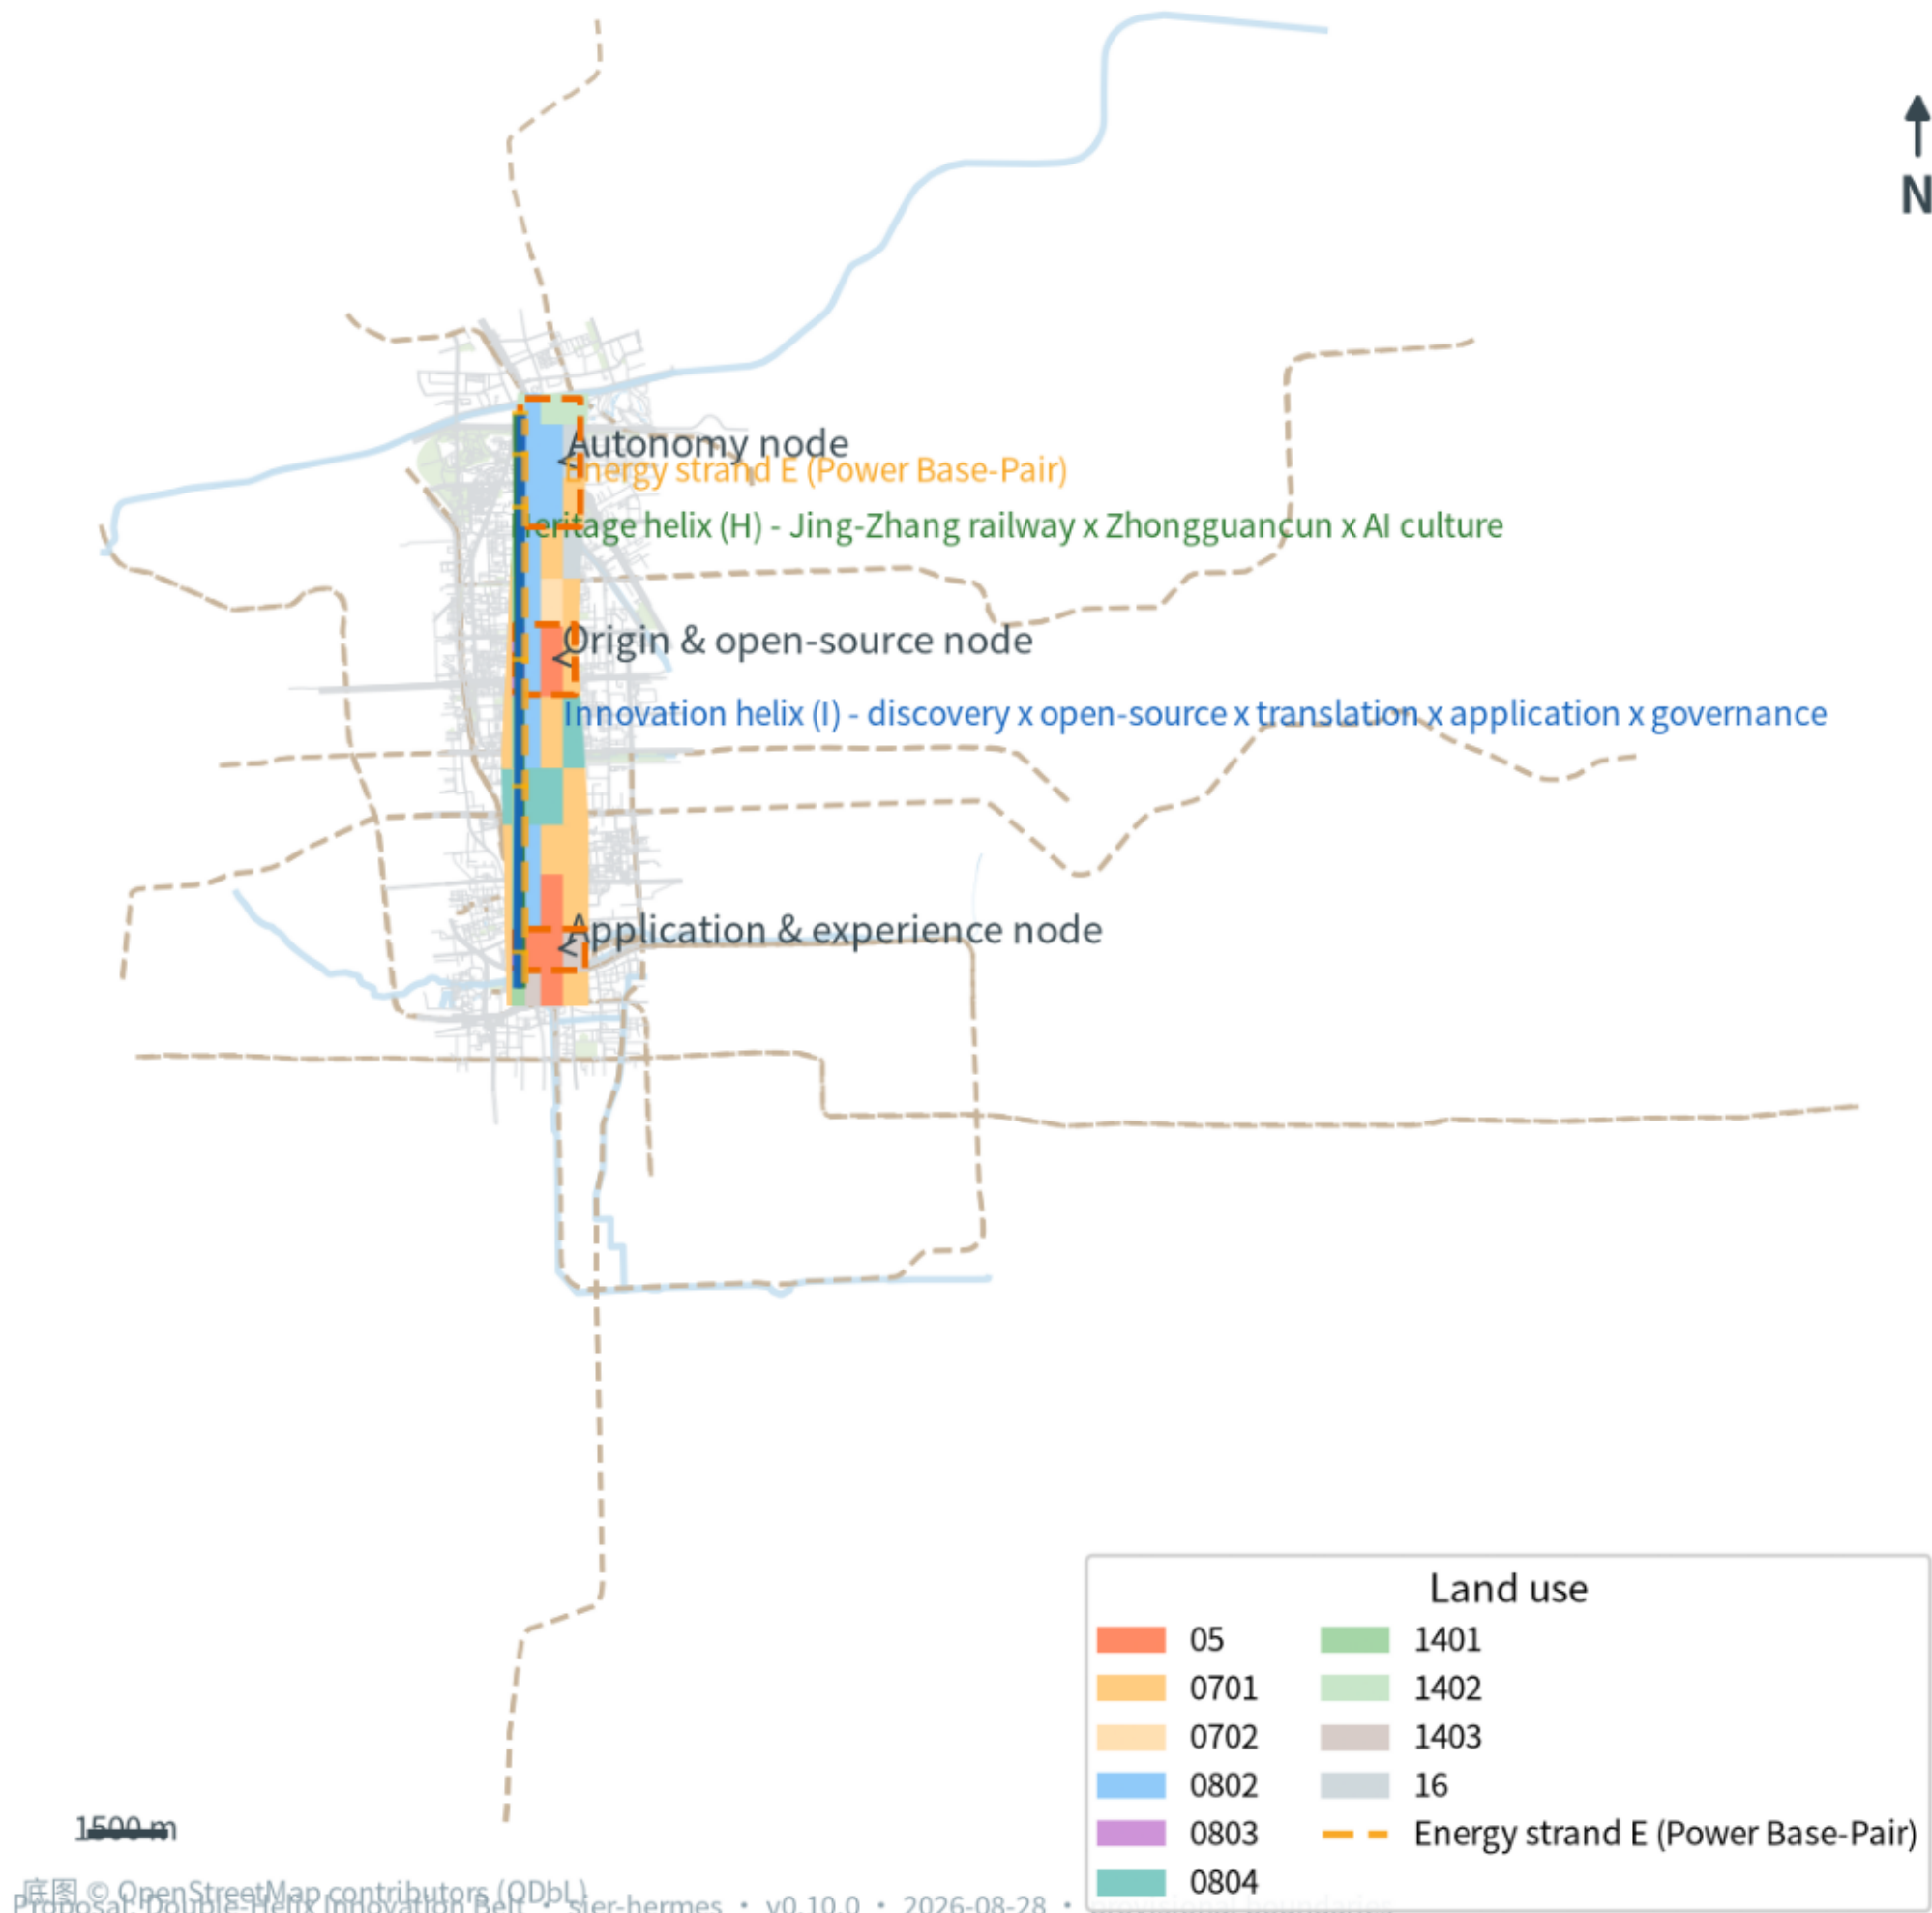

Reproducible pilot: `visual/assets/run_jz05_pilot.js --check` (10-stage chain • 7 gates • 6 criteria)

Overall Concept and Double-Helix Spatial Structure

Provisional constraint boundaries; recalculate when official redlines are published.

Double-Helix Innovation Belt: Heritage strand H x Innovation strand I + Energy strand E (Power Base-Pair)

Fig.7 Double-helix spatial structure (with energy strand E)
Provisional constraint boundaries; recalculate when official redlines are published

Power Base-Pair calibrations: efficiency floor ($PUE \leq 1.25$) • green power ($\geq 80\%$) • self-healing ($\leq 5\text{min}$) • opt-out (human channel 100%)

Three-Level Scope and Site Context

Provisional constraint boundaries; recalculate when official redlines are published.

Fig.1 Site context and three-level boundaries
Provisional constraint boundaries; recalculate when official redlines are published

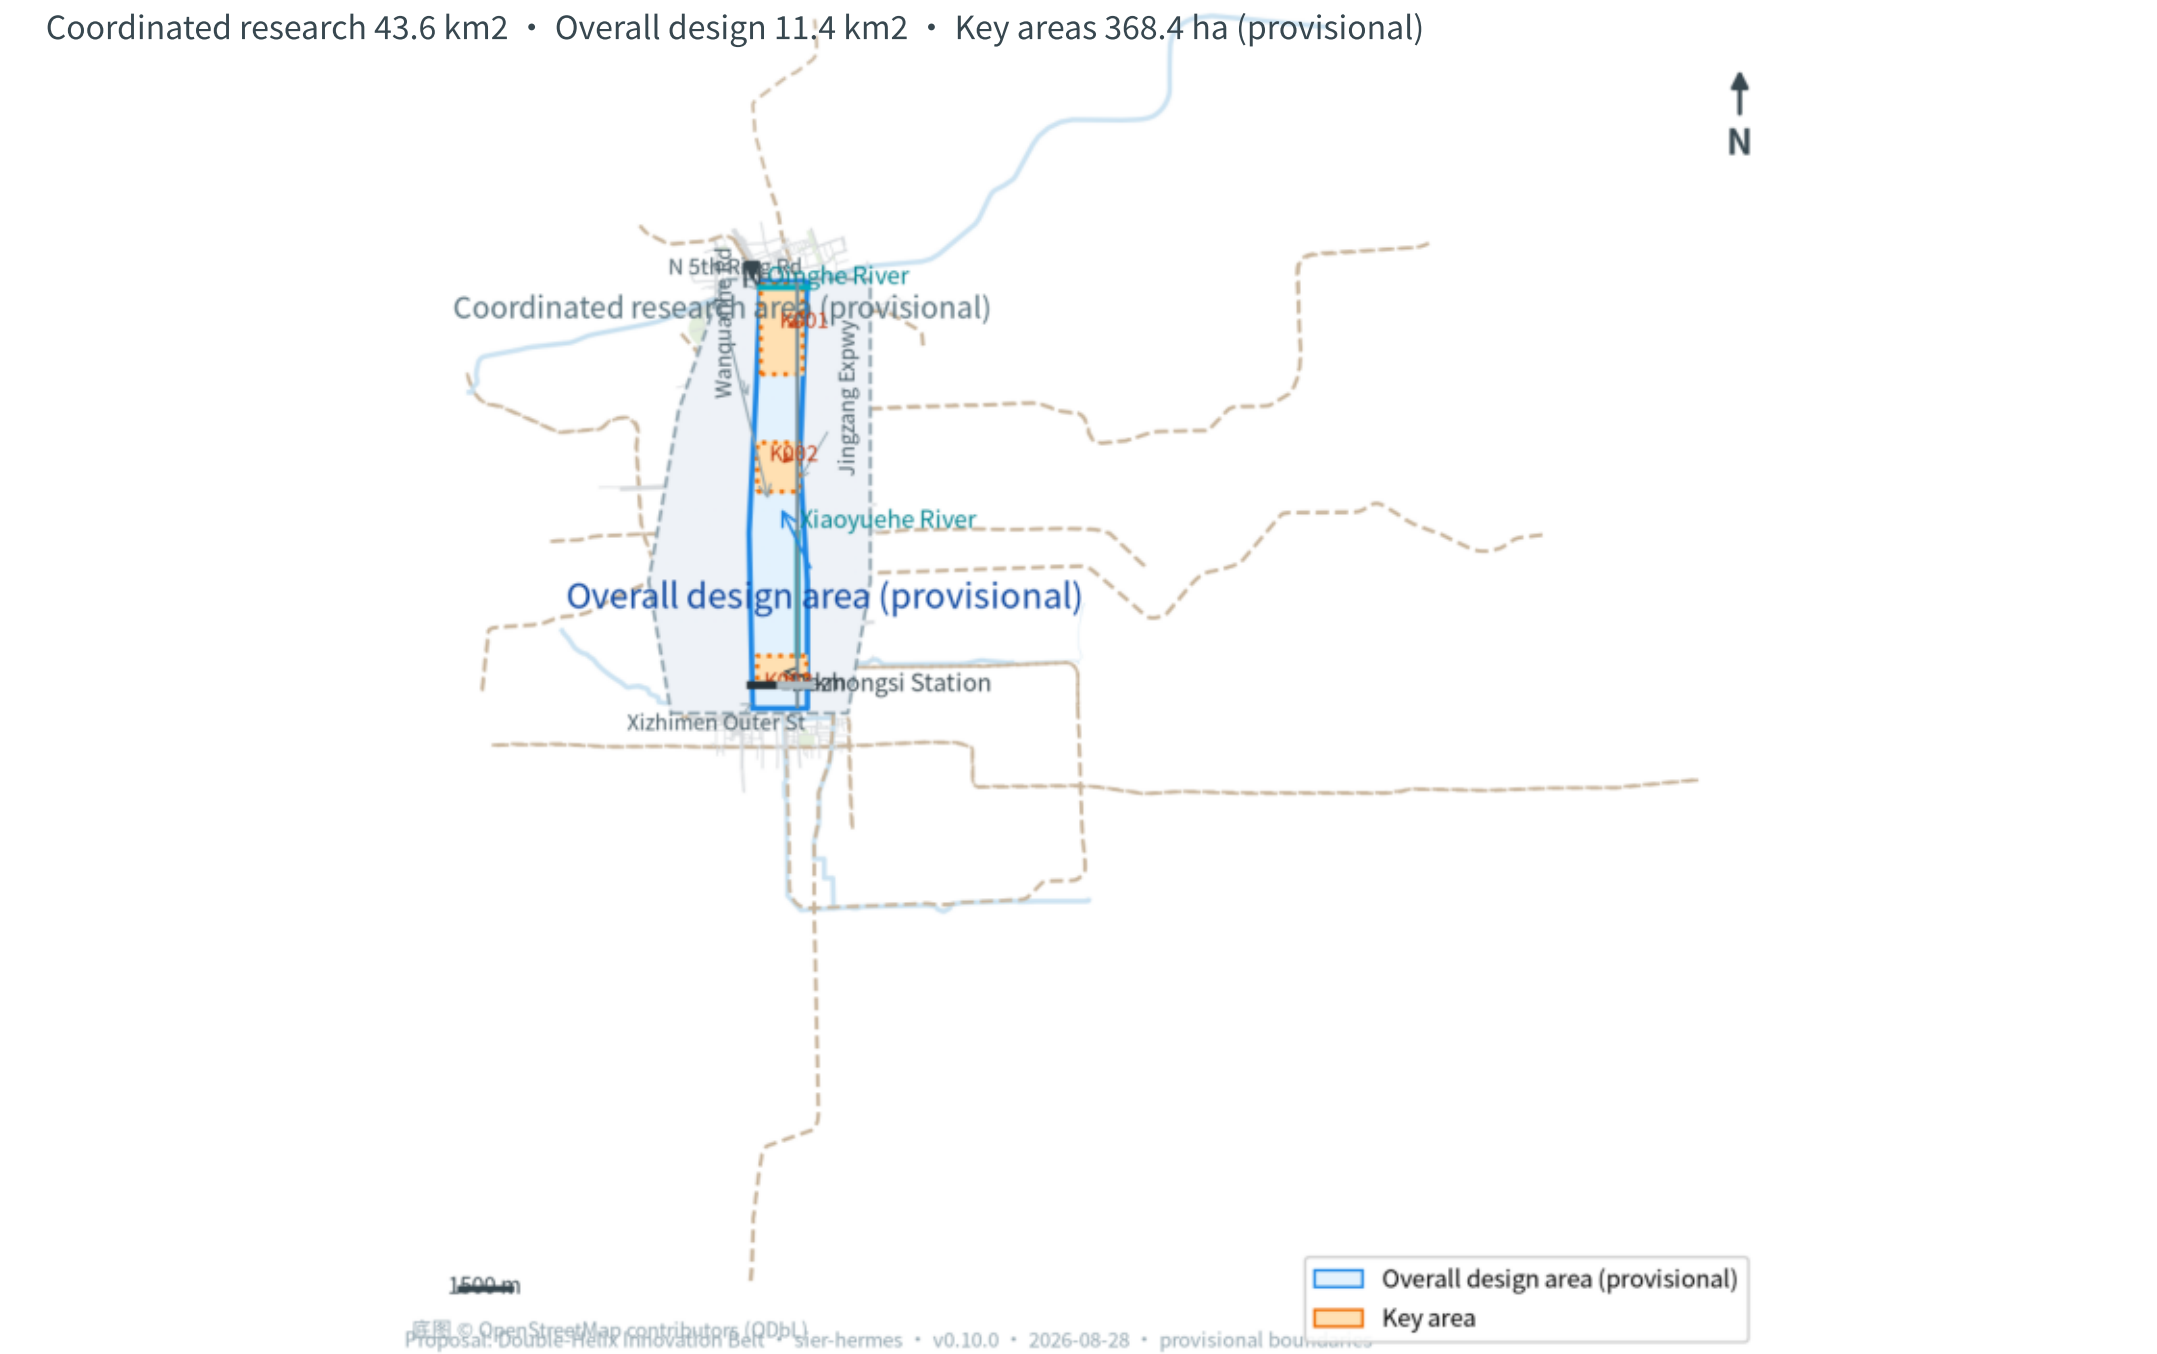

Fig.2 Double-helix land structure
Provisional constraint boundaries; recalculate when official redlines are published

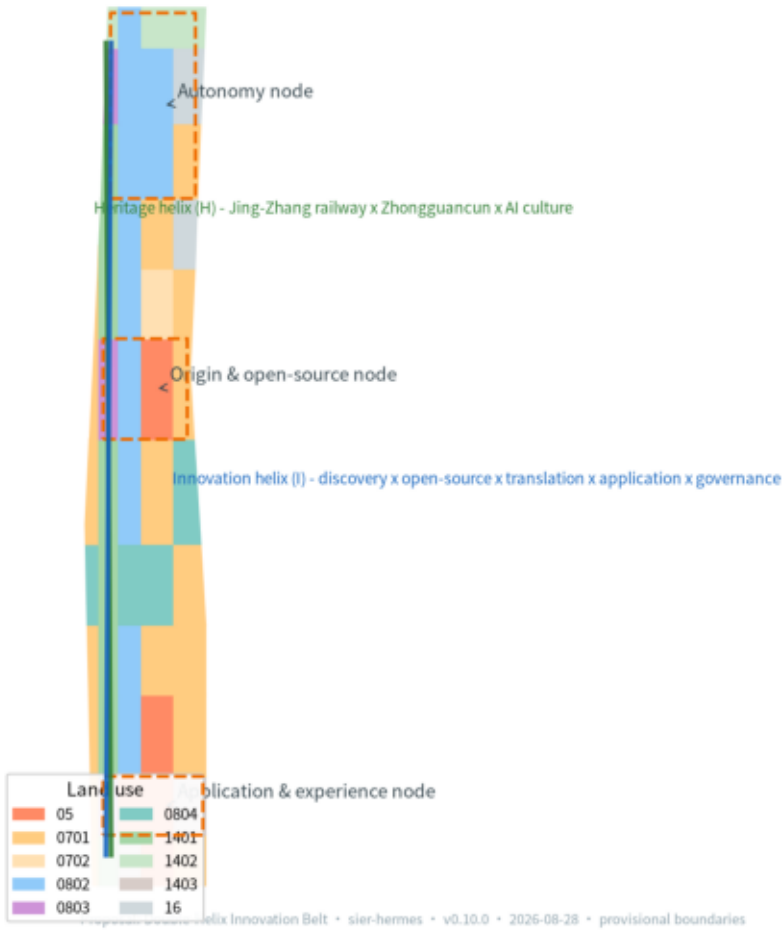

Fig.3 Detailed design of three key areas
Provisional constraint boundaries; recalculate when official redlines are published

Three key areas (Zhongzhiyuan / AI Origin Community / Dazhongsi) + three AI pilgrimage landmarks

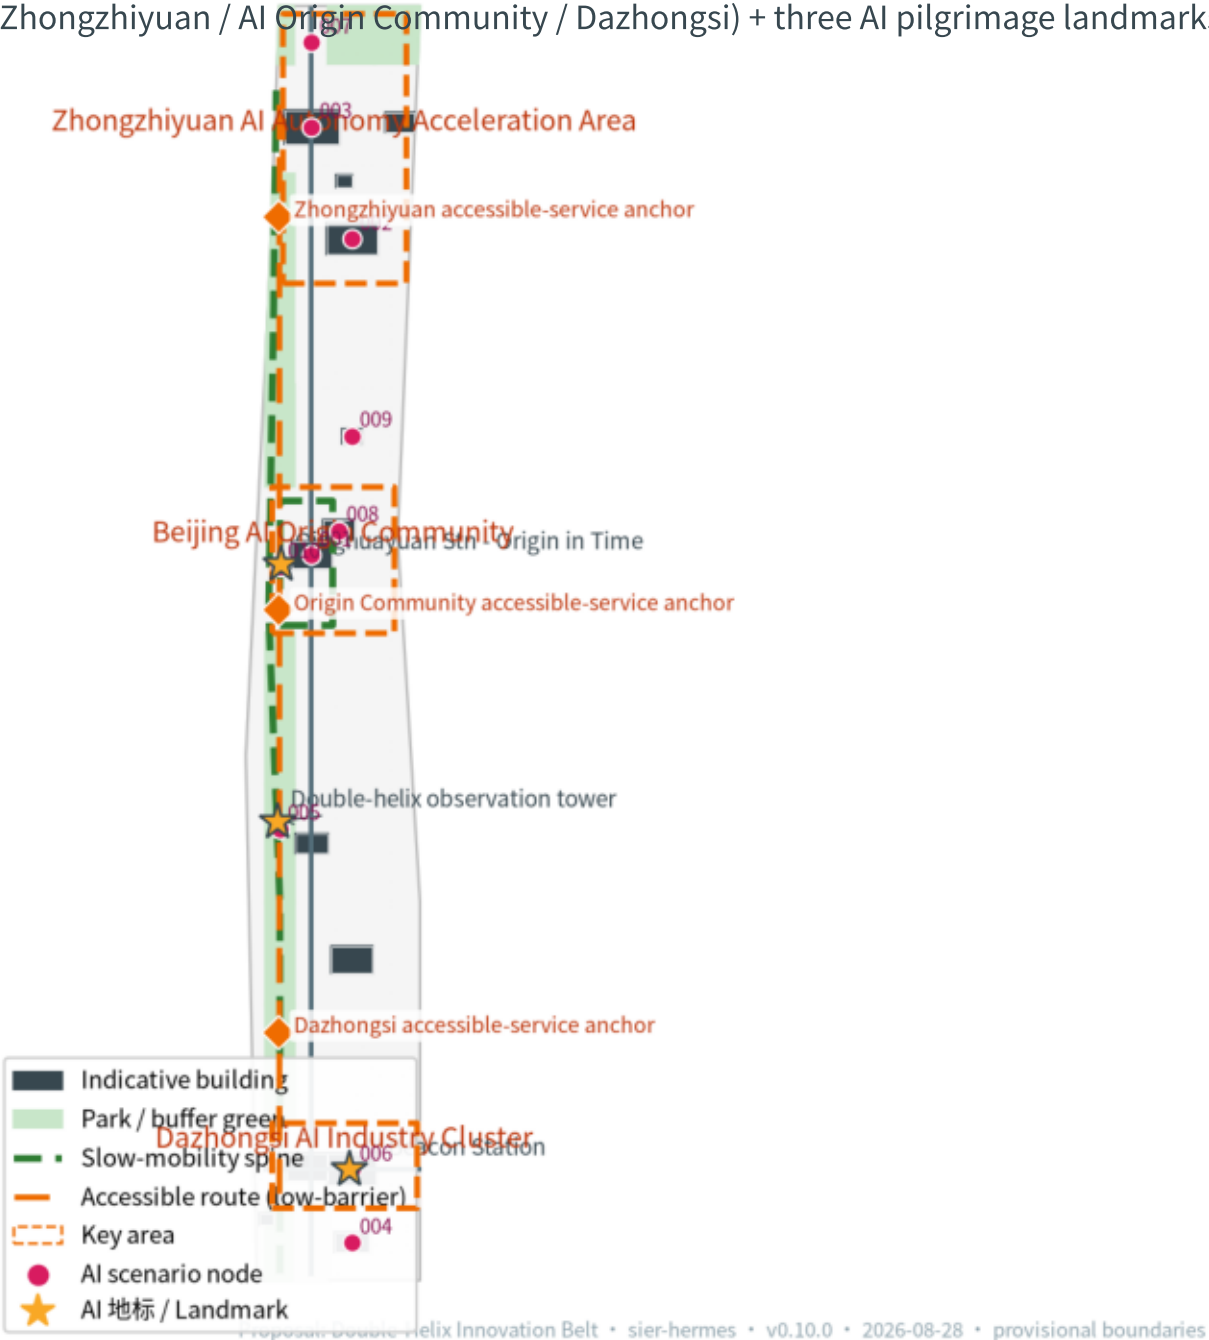

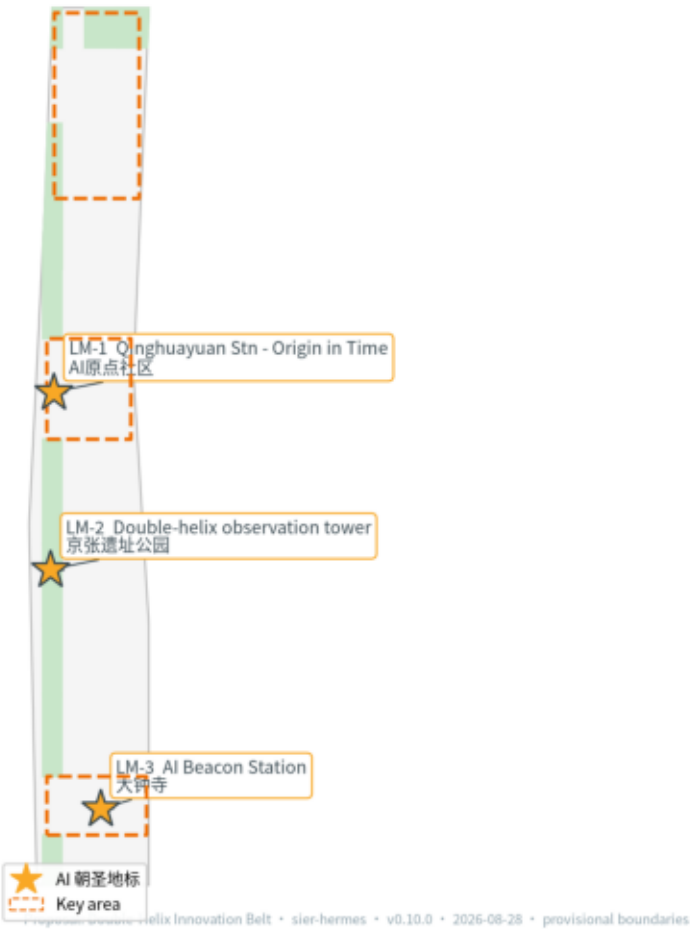

Fig.9 Three AI pilgrimage landmarks
Provisional constraint boundaries; recalculate when official redlines are published

Provisional constraint boundaries; recalculate when official redlines are published.

Fig.4 Transport - slow mobility - blue-green public space system
Provisional constraint boundaries; recalculate when official redlines are published

12 AI Scenario Cards and Brand Identity

Provisional constraint boundaries; recalculate when official redlines are published.

12 AI scenario cards • Brand identity and logo direction (conceptual)
Provisional constraint boundaries; recalculate when official redlines are published

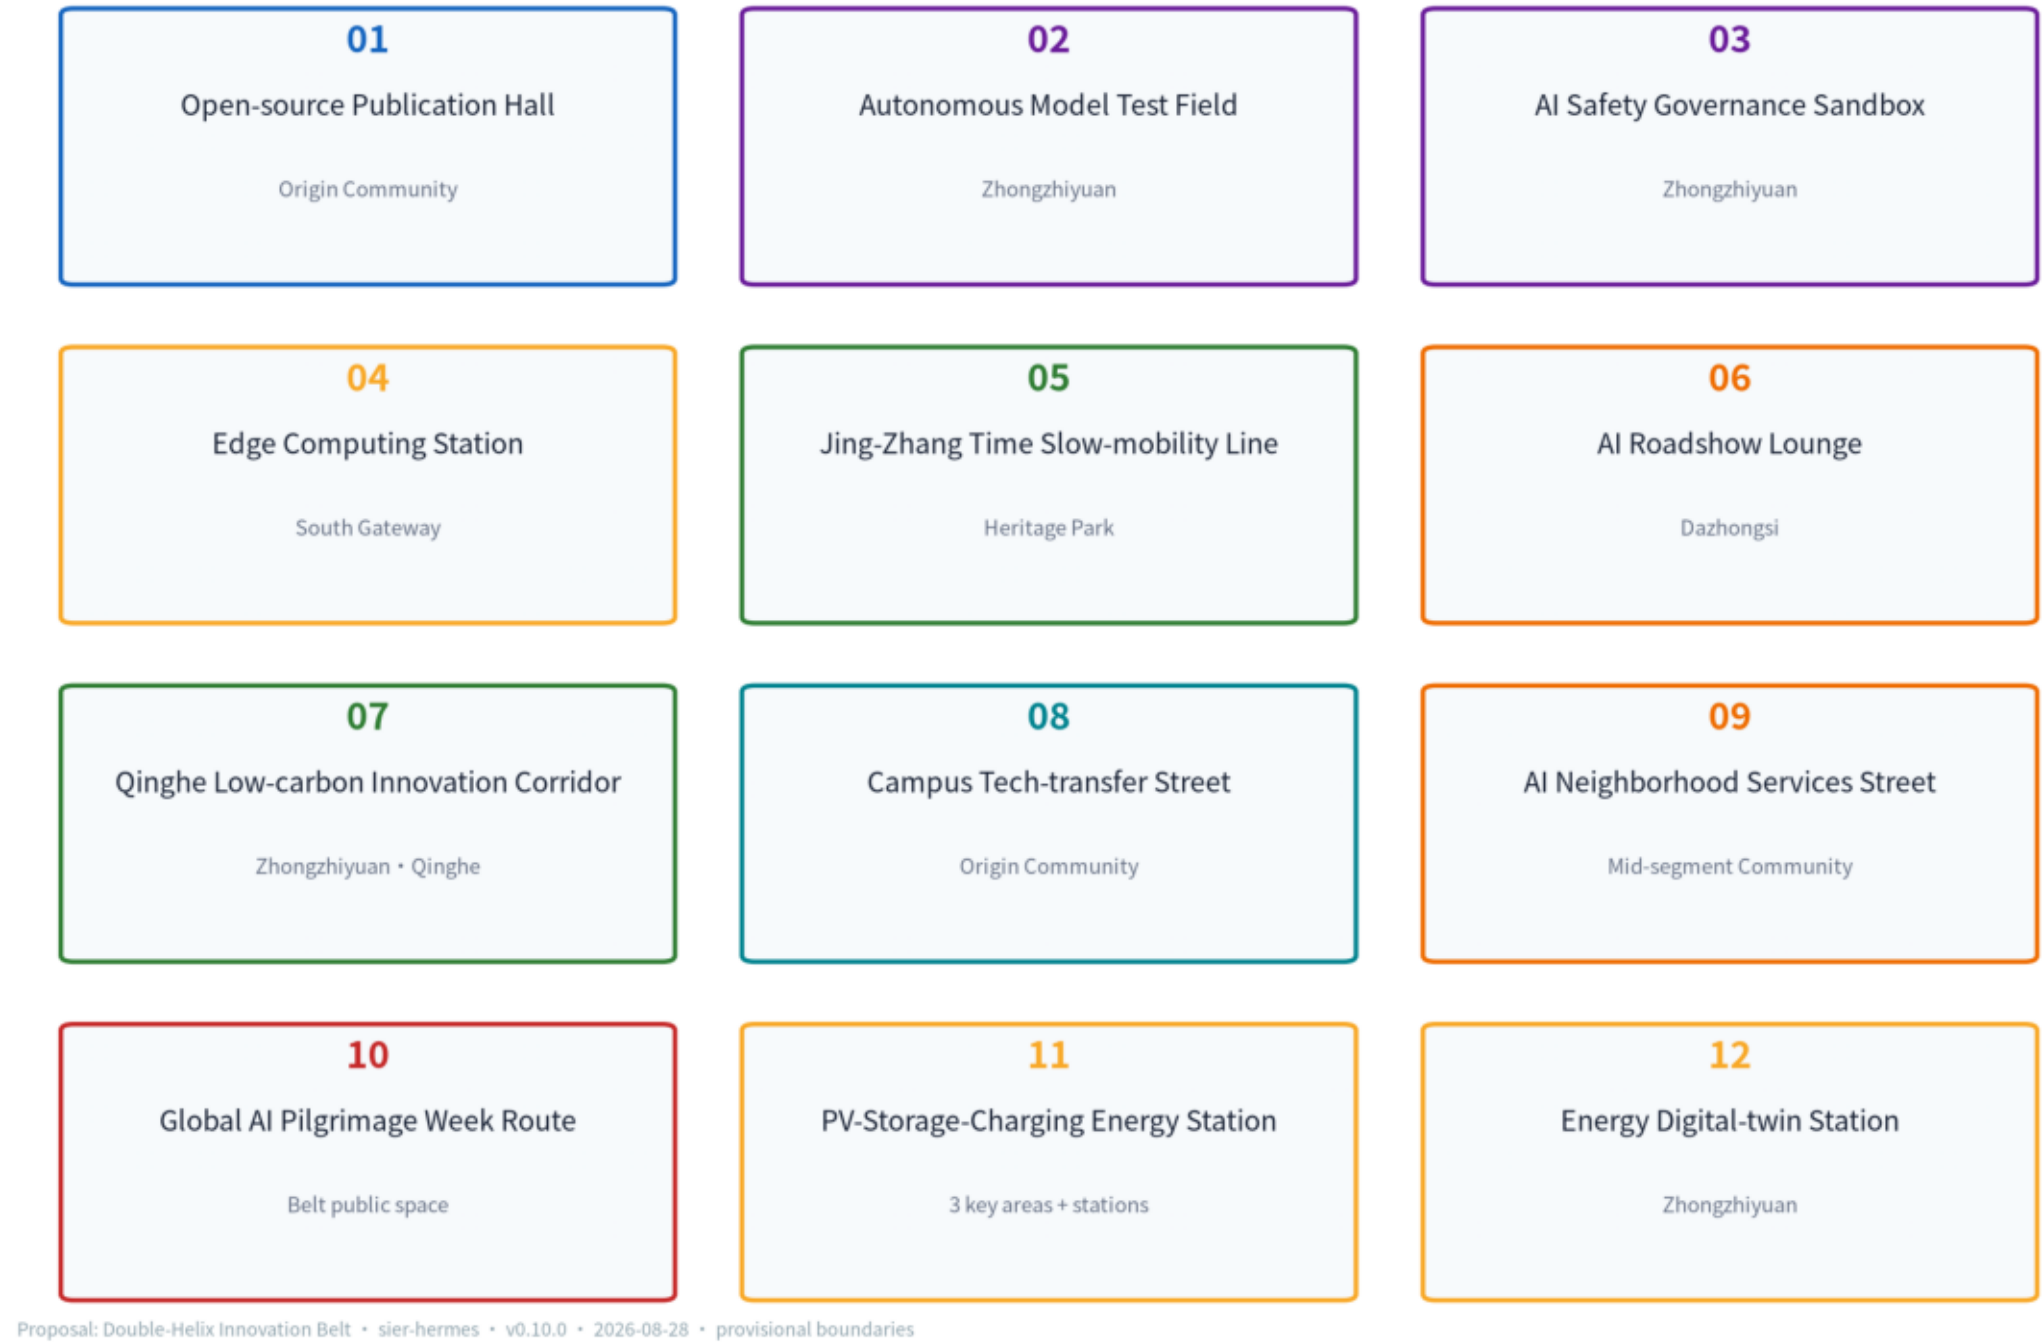

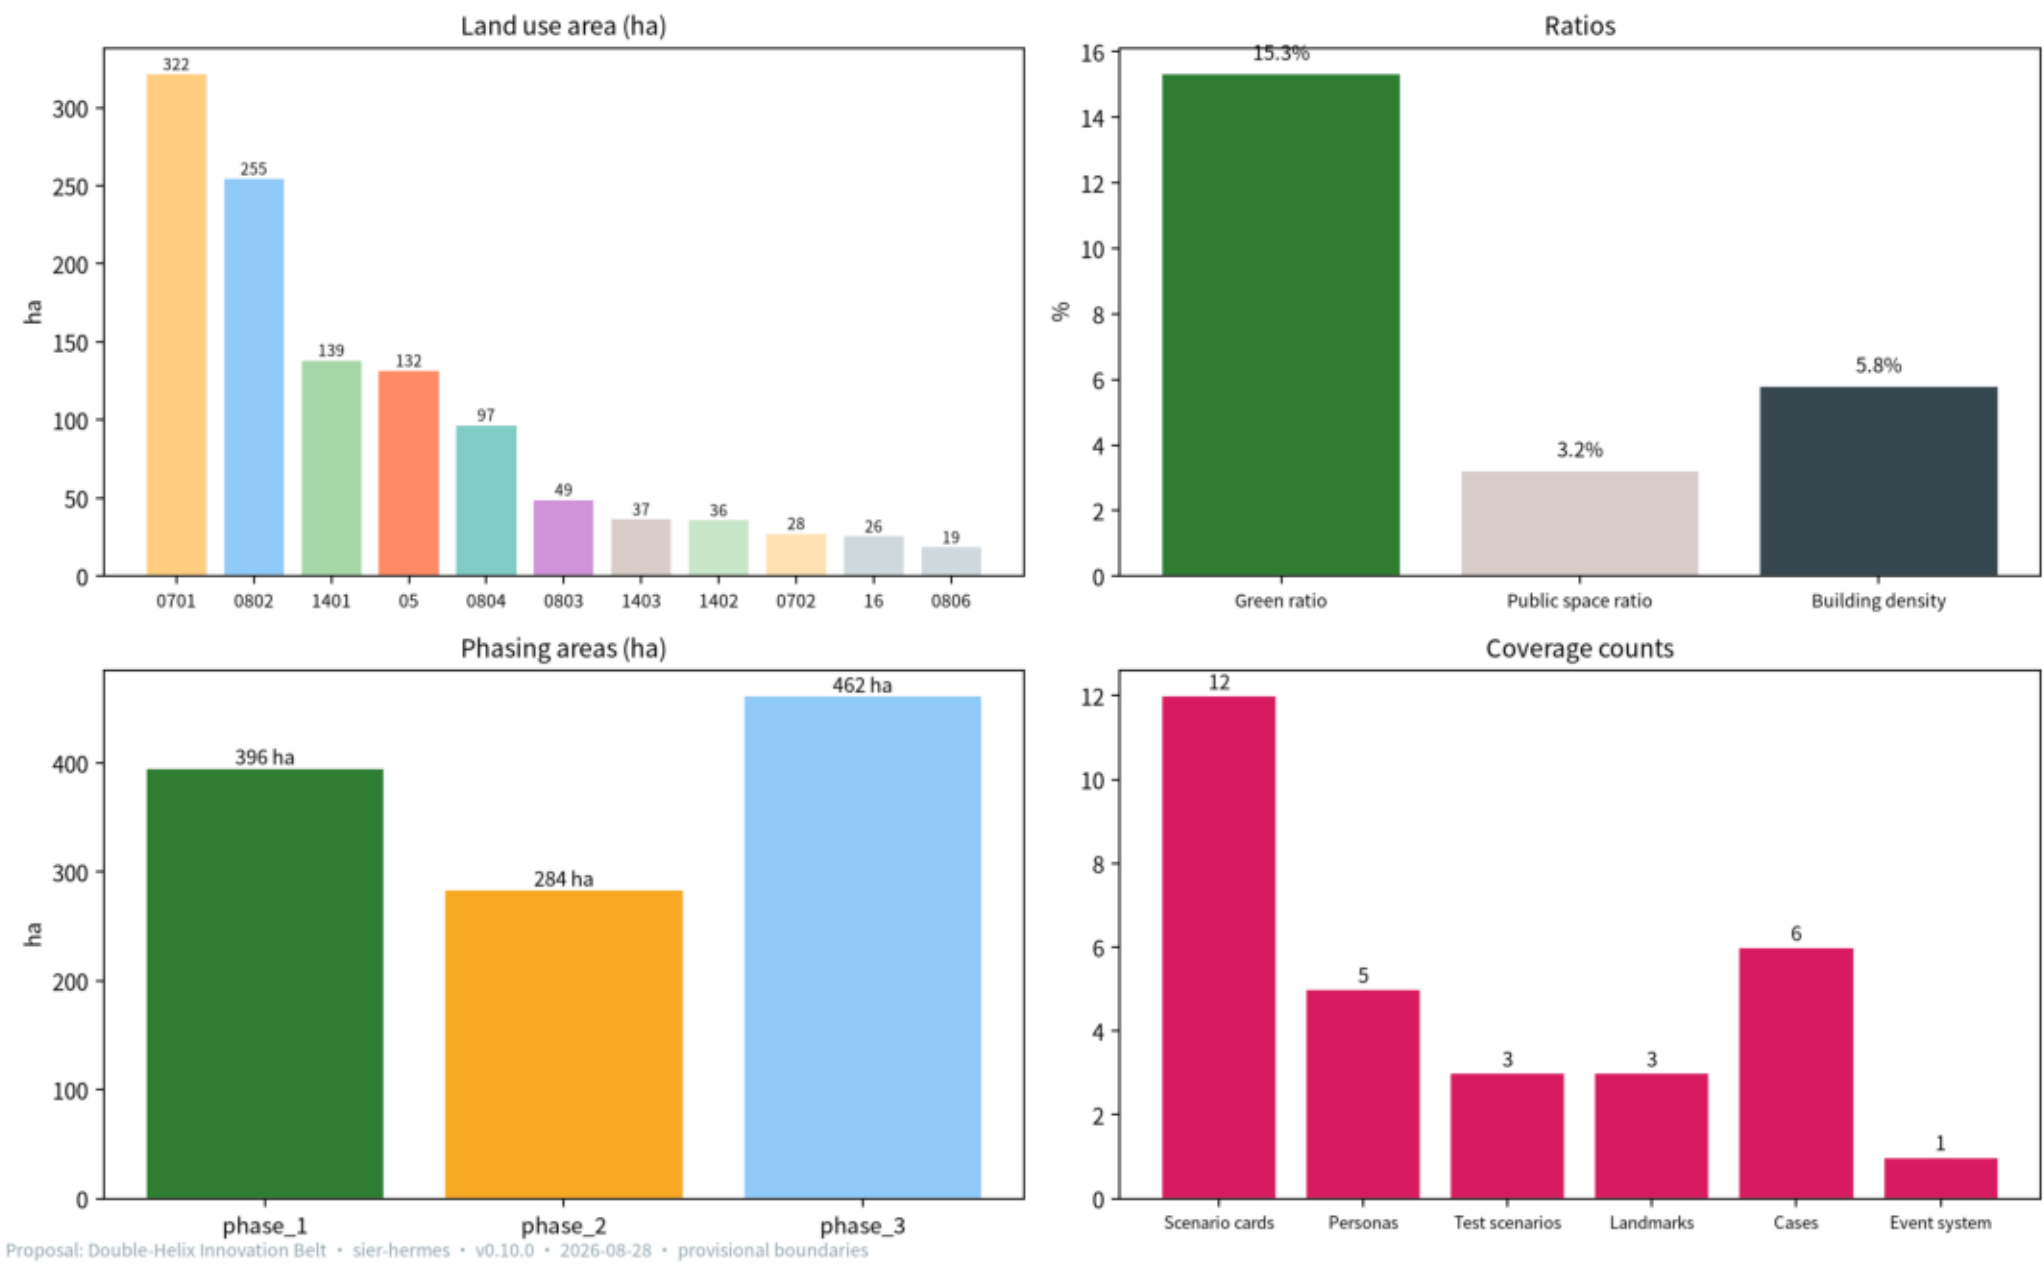

Fig.6 Brand identity and logo direction
Provisional constraint boundaries; recalculate when official redlines are published

Core Metrics, Power Base-Pair, and Quantified Targets

Provisional constraint boundaries; redlines when official redlines are published.

Fig.5 Core metric recalculation evidence
Areas recalculated in EPSG:4548; control metrics pending official regulatory conditions

Power Base-Pair calibrations: efficiency floor ($PUE \leq 1.25$) • green power ($\geq 80\%$) • self-healing ($\leq 5\text{min}$) • opt-out (human channel 1)

Stage 1 ~396ha - park belt + three cores

Stage 2 ~284ha - whole key-area renewal

Stage 3 ~462ha - full framework; all candidate targets in proposal.md quantified list (candidate pending pilot calibration)
