

THE LISTENING LINE v1.1

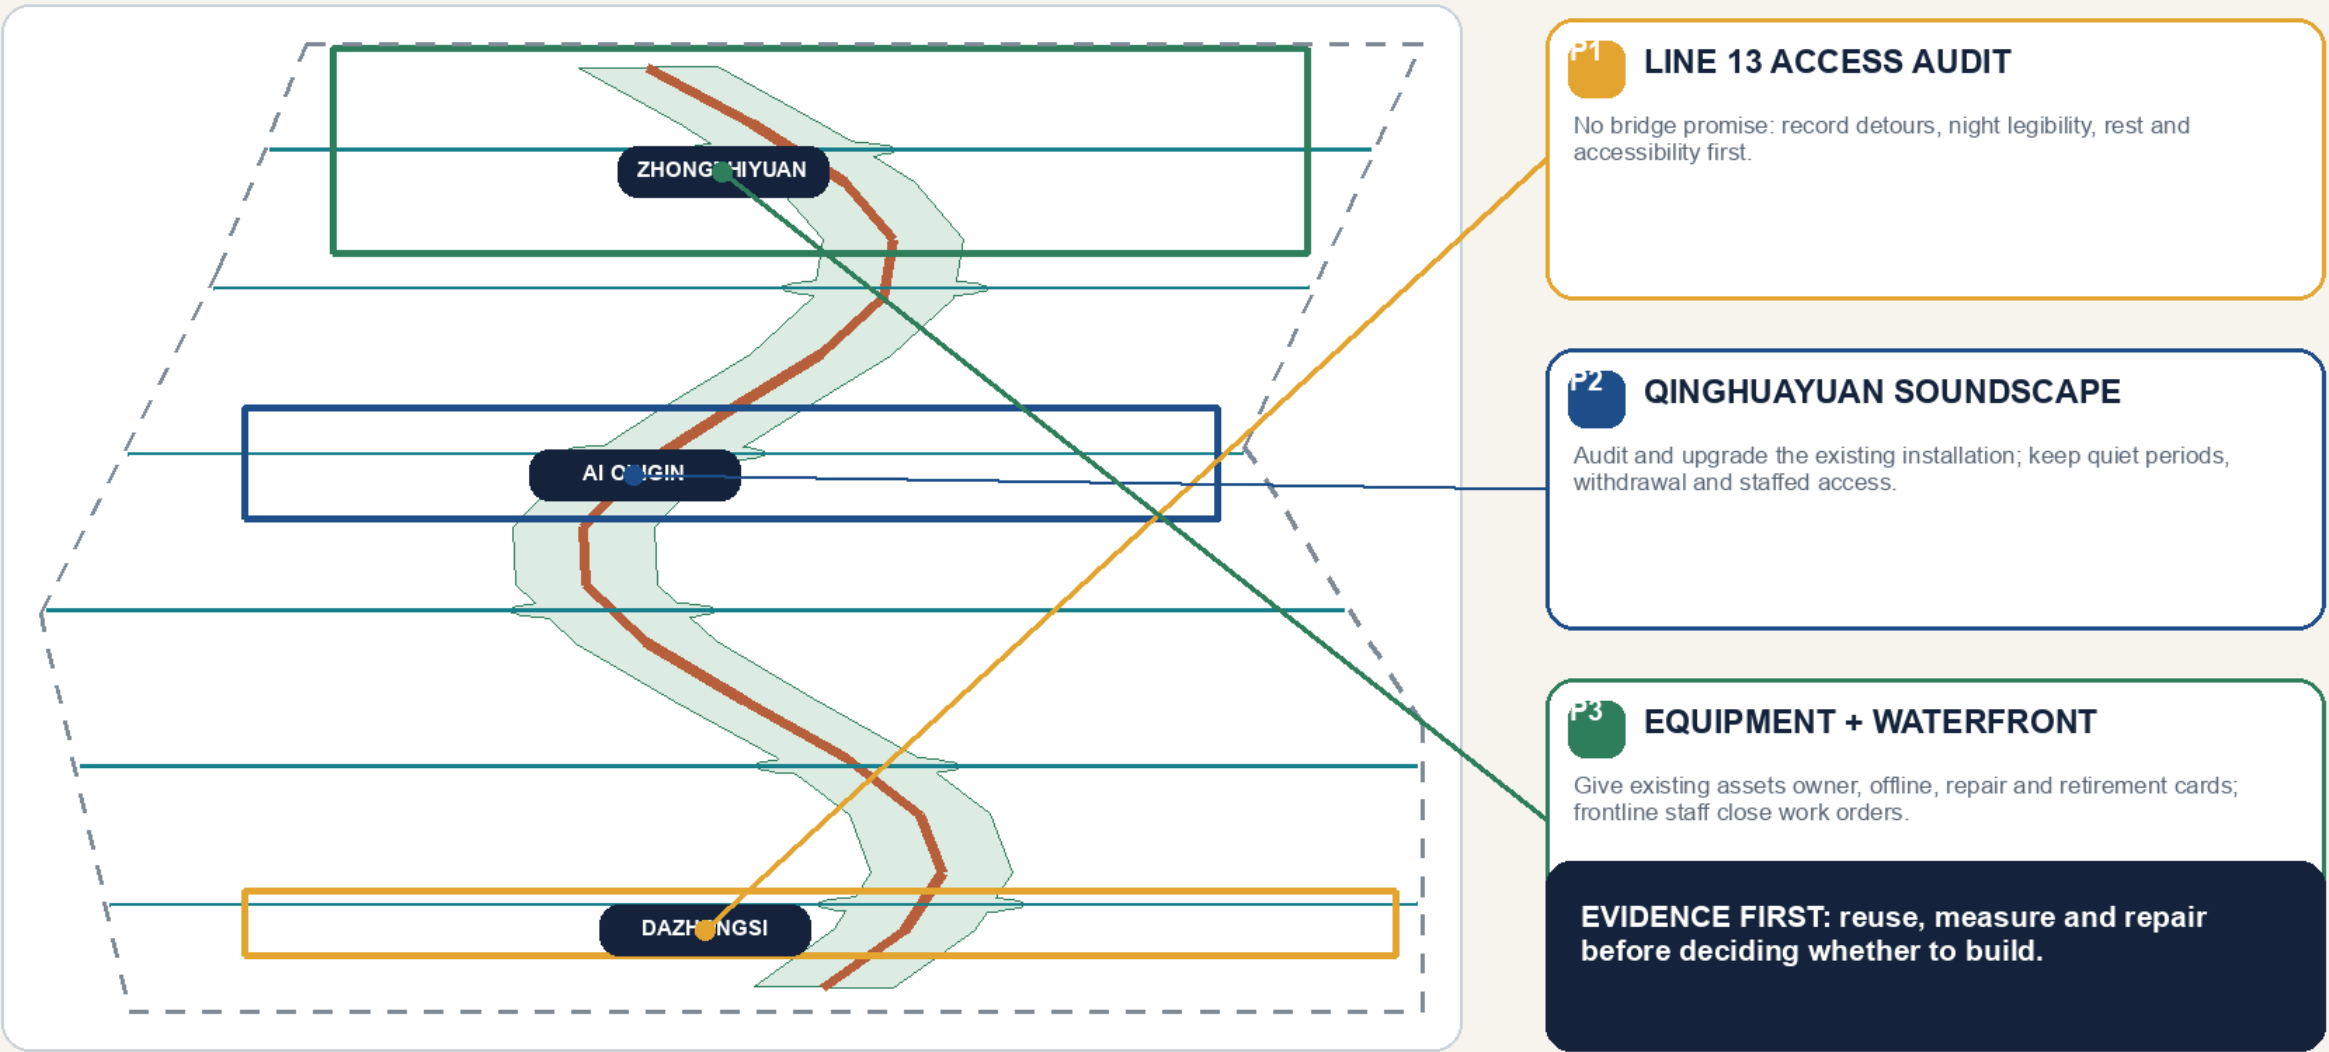

SOUNDSCAPE + PUBLIC REPAIR INFRASTRUCTURE

Listen to place, people and system failures—and turn response into repair.

01 / PLACE-BASED DIAGNOSIS

LISTEN TO THE REAL JING-ZHANG

Begin with public local evidence: an existing railway-sound installation, a Line 13 access barrier, existing AI facilities and the Qinghe/Xiaoyue waterfront.

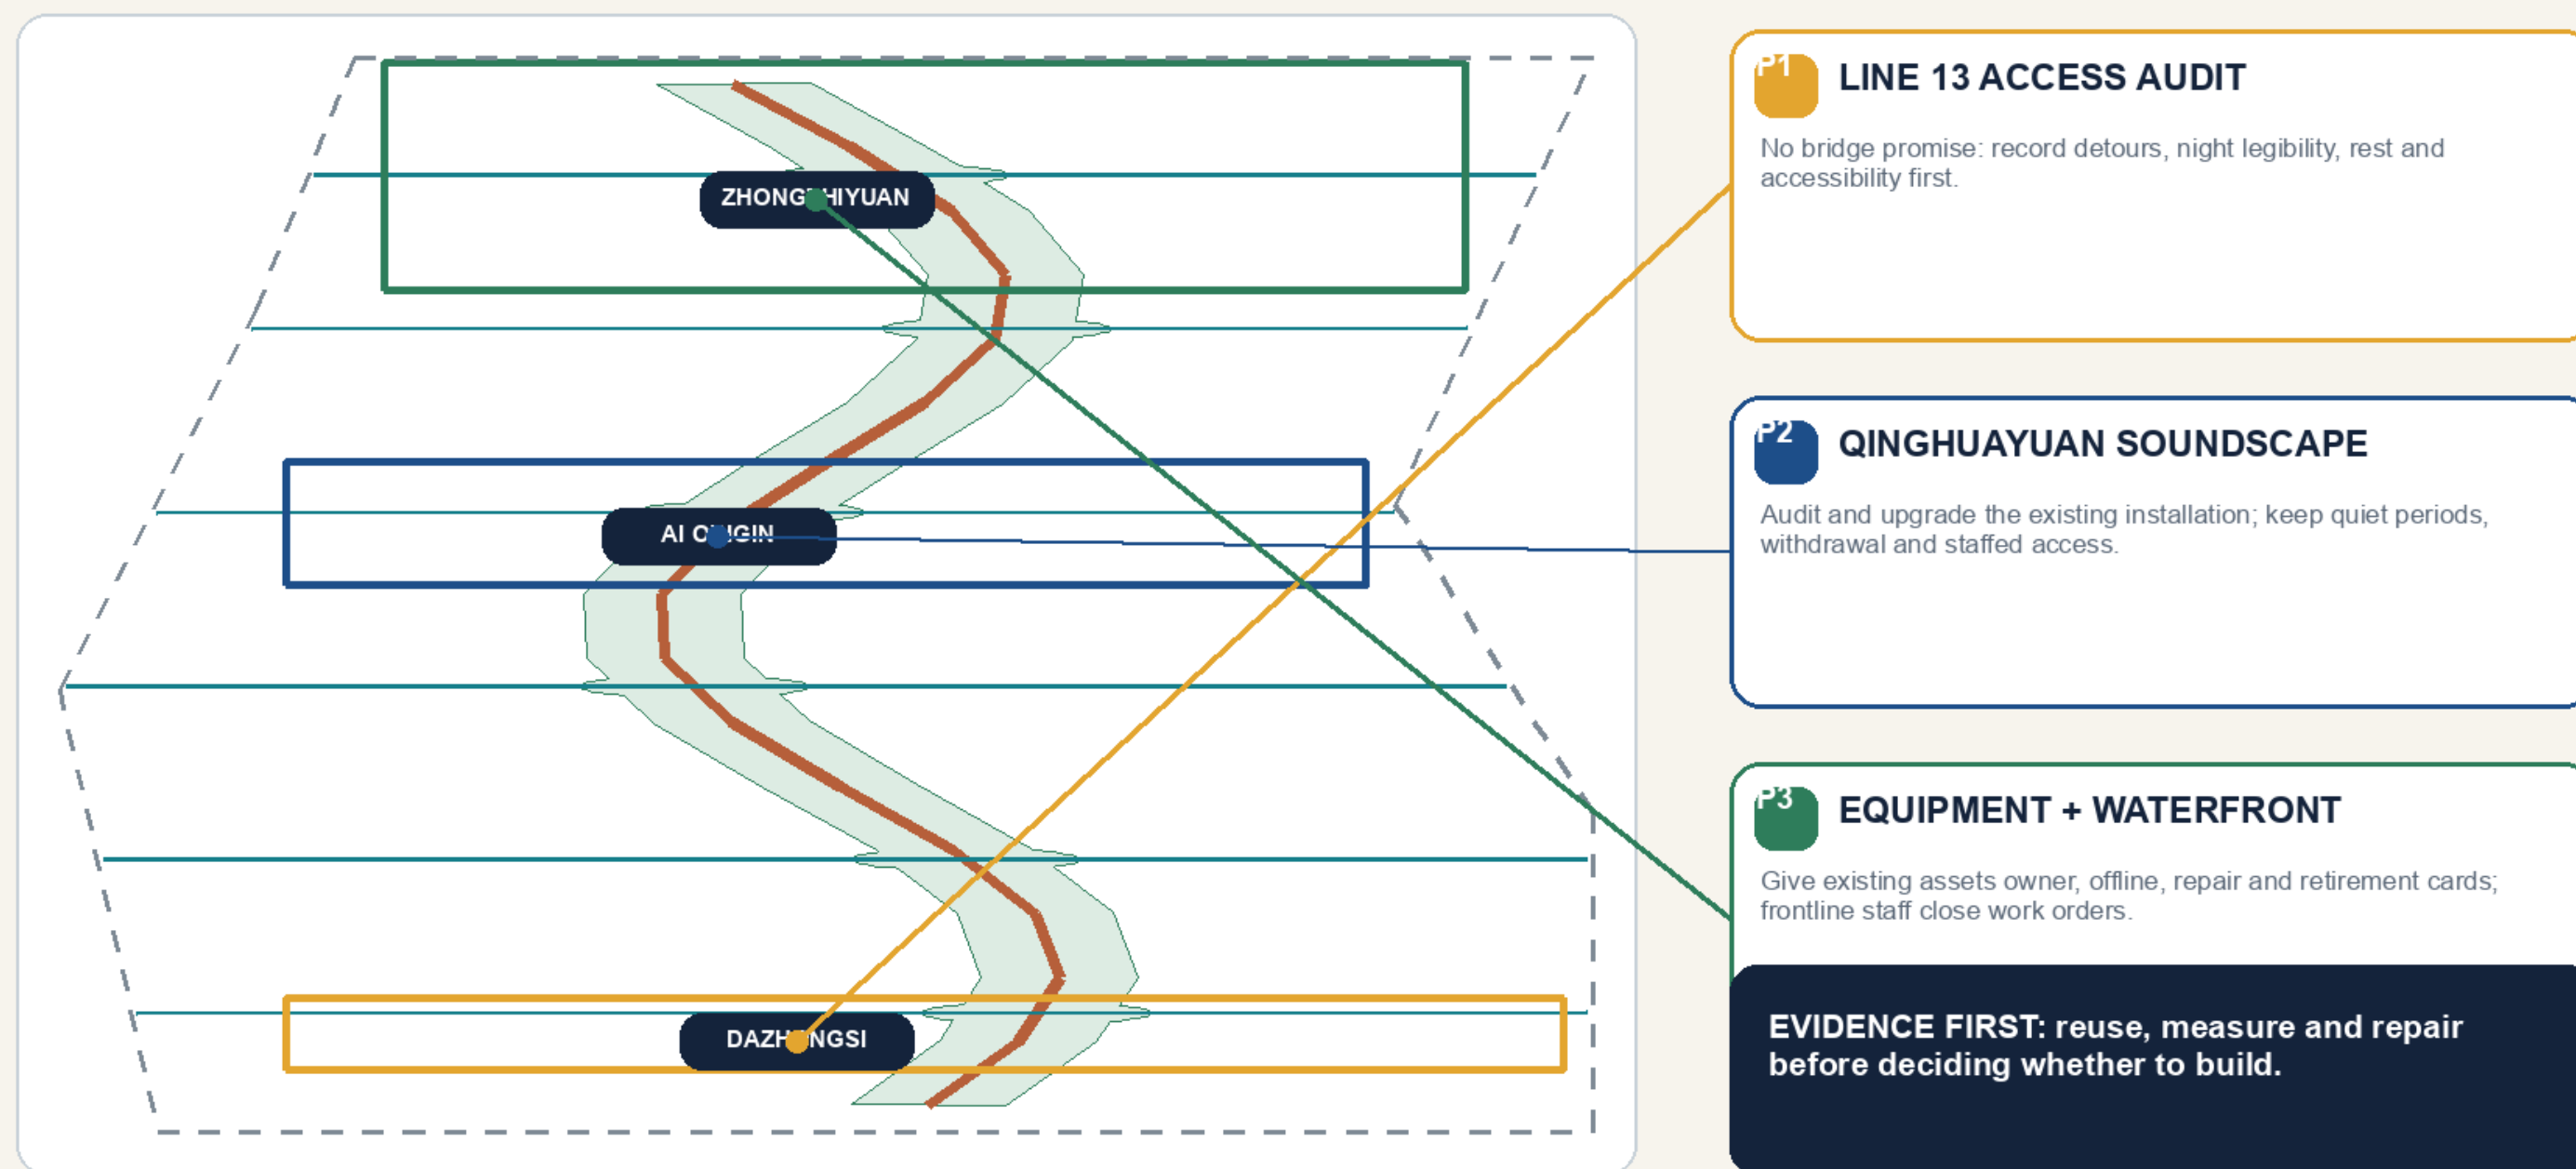

v1.1.1 RELEASE · DATA BOUNDARY: provisional geometry for concept review and package recalculation only; not an official boundary, engineering design or approval basis.

PLACE-BASED DIAGNOSIS

01 / PLACE-BASED DIAGNOSIS

LISTEN TO THE REAL JING-ZHANG

Begin with public local evidence: an existing railway-sound installation, a Line 13 access barrier, existing AI facilities and the Qinghe/Xiaoyue waterfront.

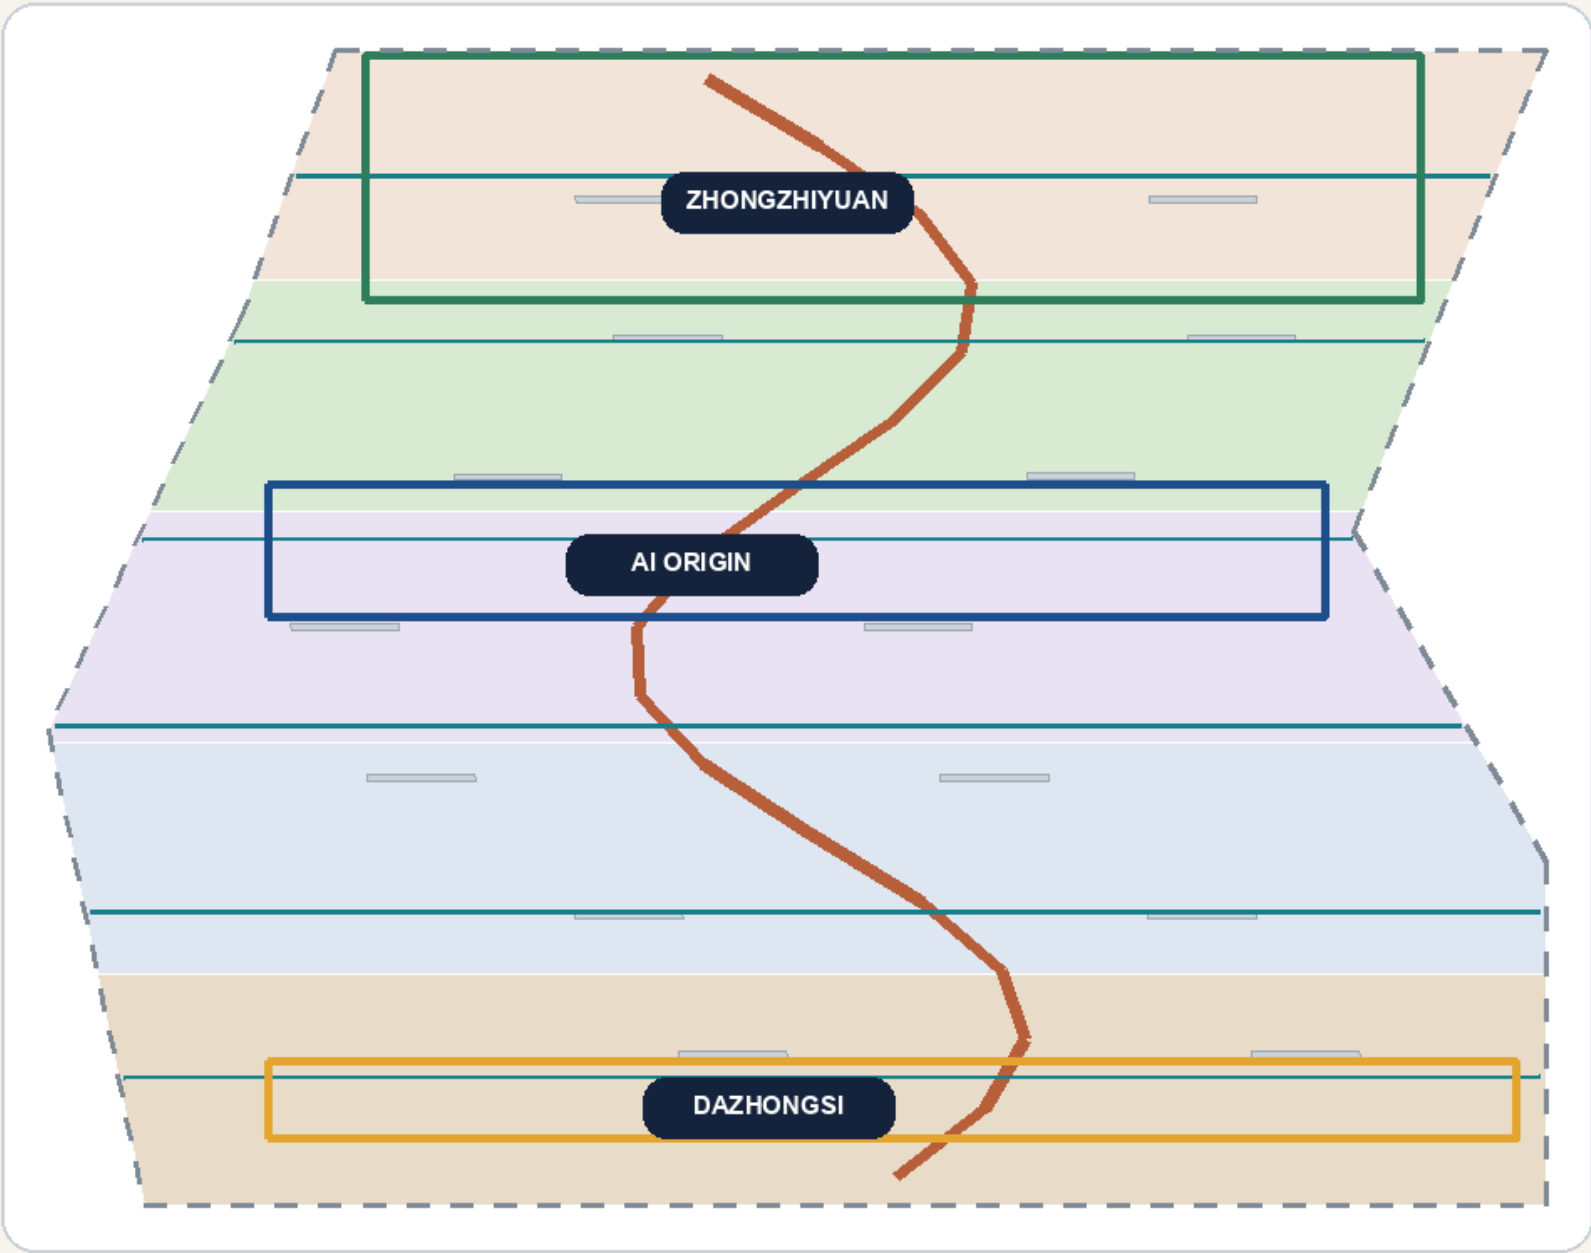

v1.1.1 RELEASE · DATA BOUNDARY: provisional geometry for concept review and package recalculation only; not an official boundary, engineering design or approval basis.

02 / SPATIAL + GOVERNANCE PROTOCOL

ONE LINE, THREE TRACKS, SIX STATES

The spatial structure and machine-readable Listening Contract 1.0 share one state language.

LISTEN TO PLACE
rail / bell / water / people

LISTEN TO PEOPLE
question / explanation / appeal / repair

LISTEN TO SYSTEMS
version / failure / takeover / retirement

LISTENING CONTRACT 1.0

- 01

ASKED
- 02

EXPLAINED
- 03

VERIFIED
- 04

APPEALED
- 05

REPAIRED
- 06

ARCHIVED / EXITED

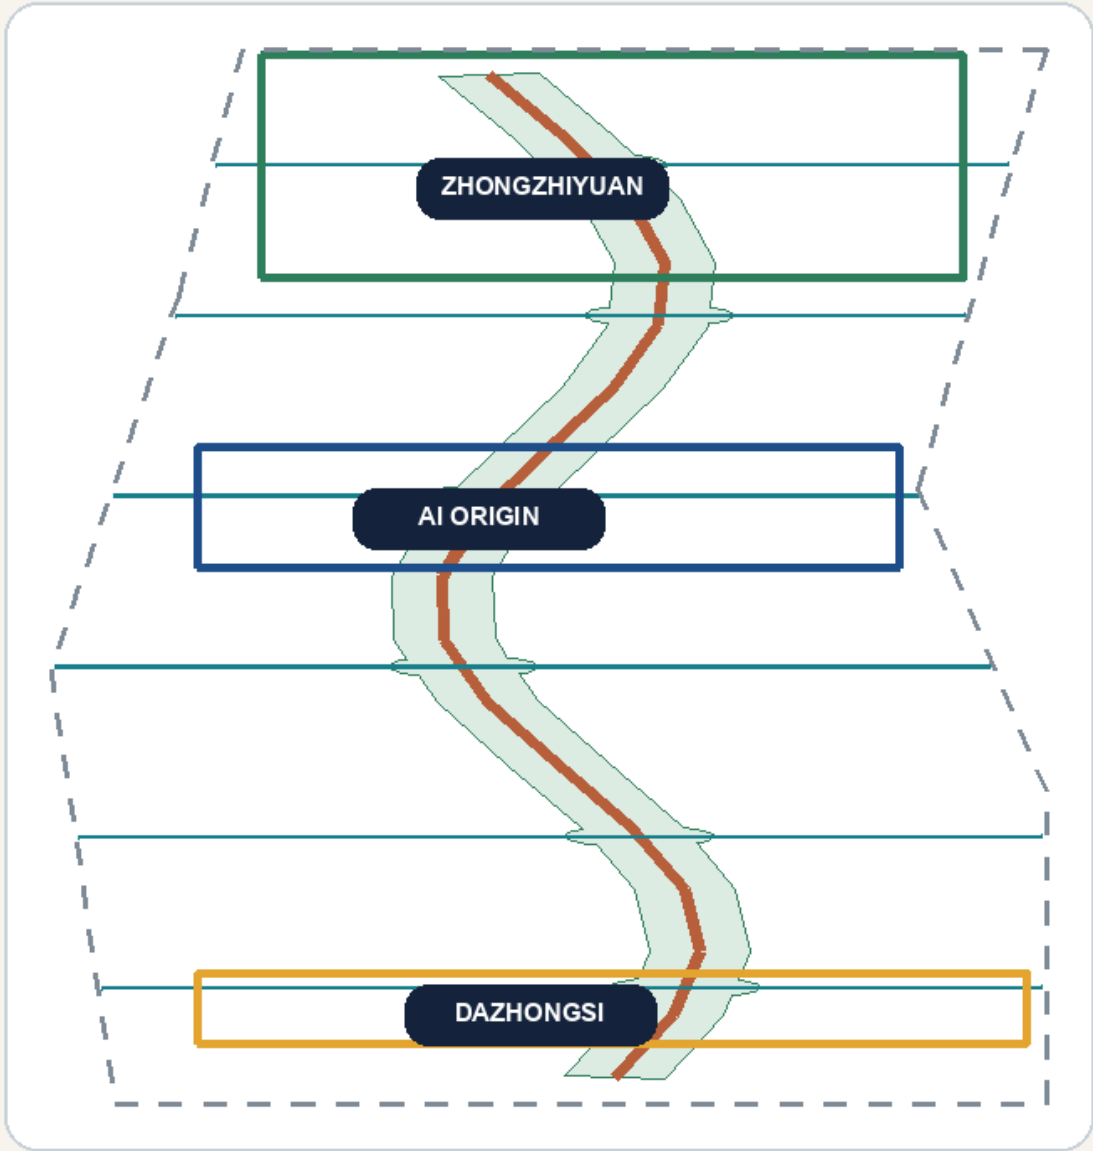

14 REQUIRED FIELDS · HUMAN OWNER · NON-AI ROUTE · STOP/ROLLBACK

THREE KEY AREAS + THREE PILOTS

03 / KEY AREAS + FIELD PILOTS

THREE ROOMS, NOT THREE ISLANDS

Each key area listens to a different subject—system failure, different people, or local culture—while sharing adopt-or-exit gates.

ZHONGZHIYUAN / VERIFY

SYSTEM FAILURE

contract desk · low-speed yard · public observation · human stop · failure archive

AI ORIGIN / TRANSLATE

DIFFERENT PEOPLE

outcome explanation · review table · problem clinic · developer room · multiple entry modes

DAZHONGSI / RESPOND

MOVEMENT + CULTURE

four-quadrant walking · staffed service · bell culture · low-disturbance night edge

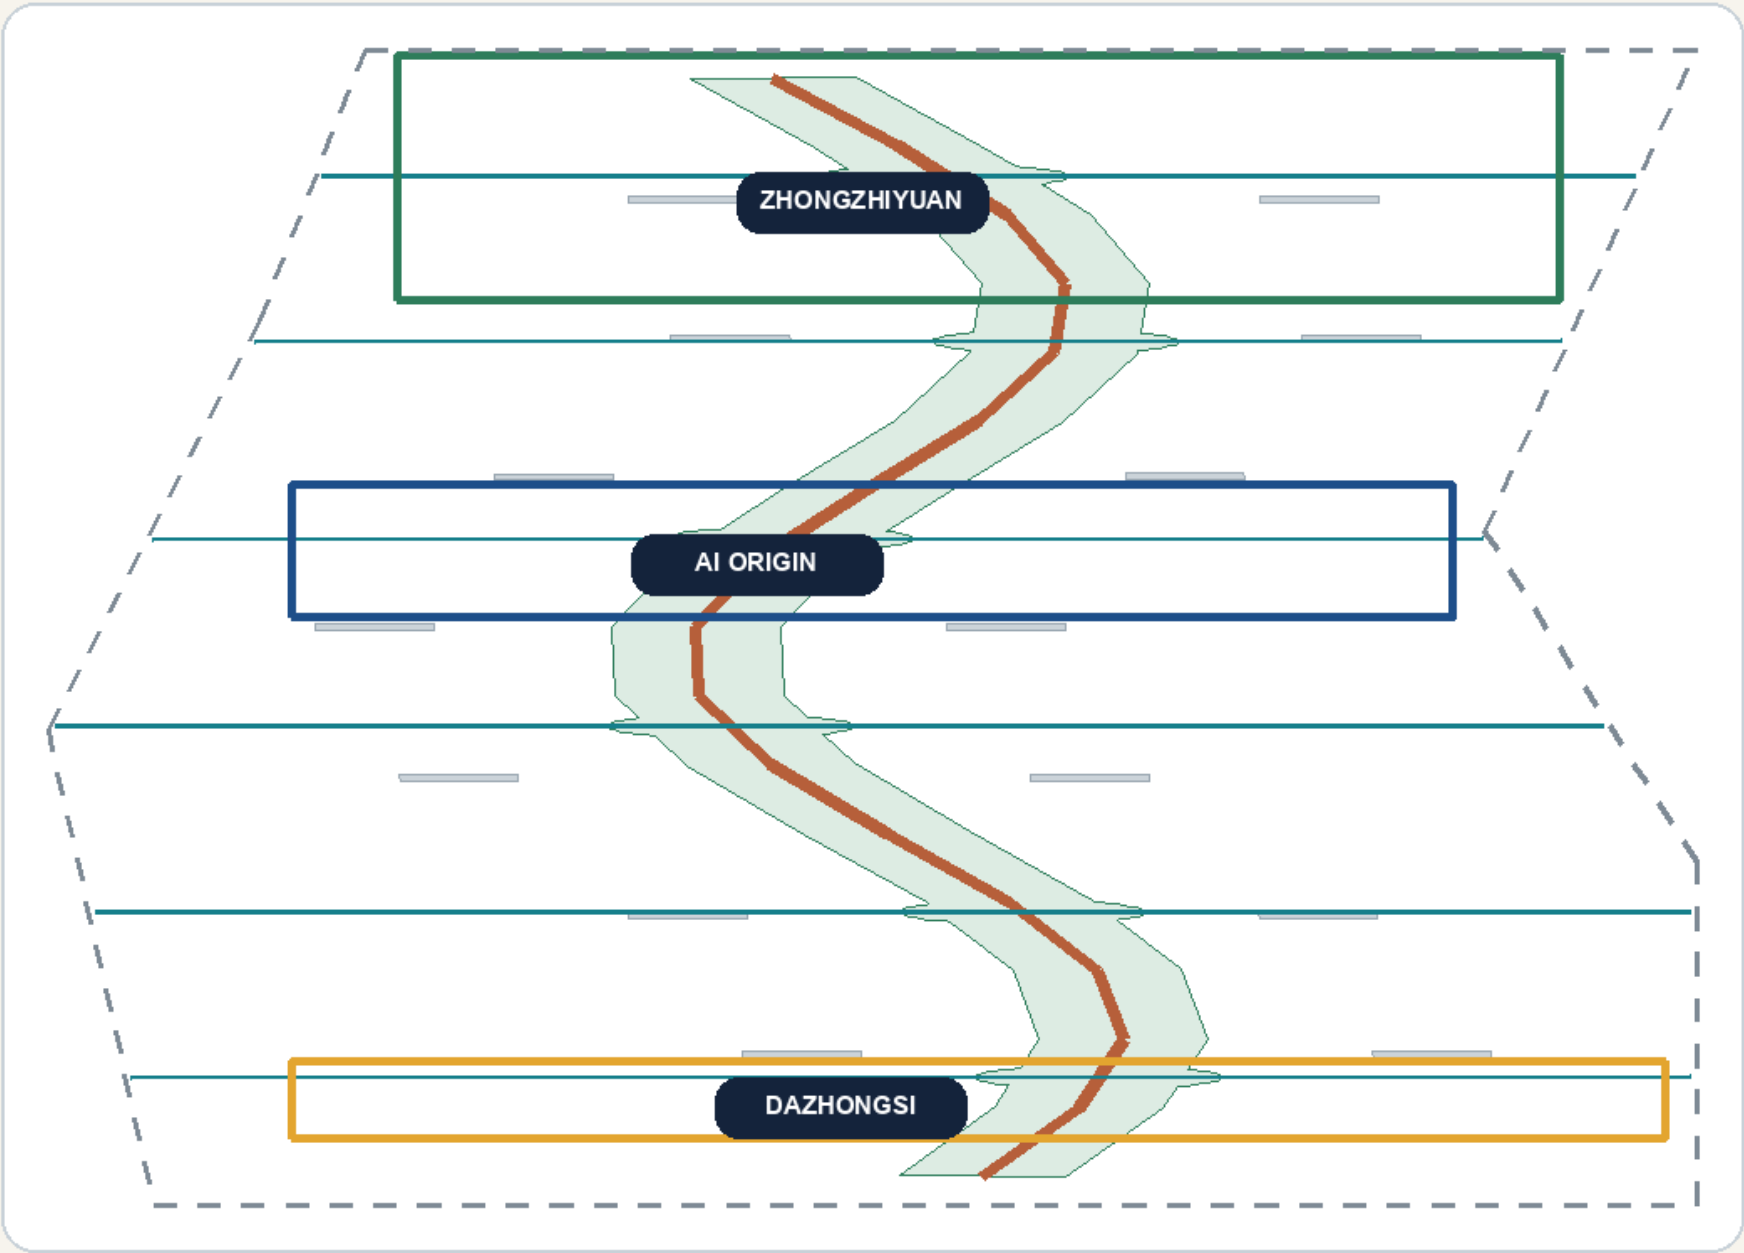

FIVE CONCEPTUAL SECTIONS

- Qinghuayuan: heritage—quiet—interpret
- AI Origin: campus—street—park
- Line 13: barrier—audit—entrance
- Waterfront: ecology—path—maintenance
- Dazhongsi: quadrants—bell—metro

04 / WALKING + BLUE-GREEN + MAINTENANCE

PEOPLE HAVE DEFAULT RIGHT OF WAY

Walking, soundscape, waterfront and asset responsibility become one public-service network.

FOUR LOCAL VOICES

- RAIL** independent engineering · heritage · stitching
- BELL** time · gathering · multilingual inscription
- WATER** season · habitat · maintenance
- PEOPLE** community · university · frontline operation

ASSET RESPONSIBILITY CARD

OWNER	PURPOSE
DATA	OFFLINE
MAINTAIN	RETIRE

05 / EVIDENCE + DECISION GATES

FEWER CLAIMS, UNBROKEN EVIDENCE

Public source → geometry/metric → Listening Contract → field pilot → adopt, revise or exit.

11.413 km² PROVISIONAL SITE	11.43% CONCEPT GREEN RATIO	0.55% CONCEPT PUBLIC SPACE
16.30 km CONCEPT WALKING NETWORK	14 + 6 CONTRACT FIELDS + STATES	3 × 3 FIELD PILOTS × STAGES

UNKNOWN ≠ 0

FAR, total floor area, height, official boundaries, road lines, heritage and utility capacity remain unknown. They await formal evidence rather than AI completion.

THREE PILOTS: PROVE BEFORE MAKING DURABLE

LINE 13 ACCESS AUDIT

Real detour/access baseline; no bridge or tunnel promise.

QINGHUAYUAN SOUNDSCAPE

Reuse existing installation; withdrawal, quiet and staffed access remain.

EQUIPMENT + WATERFRONT

Owner, offline, repair and retirement cards; frontline verification.

90 DAYS BASELINE → 1 YEAR LIMITED PILOT → YEAR 3 ADOPT / REVISE / EXIT

Conceptual learning gates; actors, budget, permits and schedule require separate agreement.

PROFESSIONAL HANDOFF: KNOW WHAT REMAINS UNKNOWN

BOUNDARY Provisional geometry supports content review, not precise planning, engineering or approval.

PRIVACY No continuous recording, face/emotion recognition or persistent personal trajectory by default.

HUMAN Planning, transport, medical, legal, education, safety and heritage judgment returns to accountable people.

EXIT No public-space access without human ownership, non-AI route, repair and retirement.

Listen to place, people and your own failure; explain, repair and know how to leave.
