

JING-ZHANG HANDOVER LINE

Intelligence moves. Responsibility stays visible.

Human takeover is not a fallback feature. It is civic infrastructure.

FULL COVERAGE, NO STATUTORY FICTION

Three scopes, topological land use and three yards / two wings

JZ / 02

FULL COVERAGE, NO STATUTORY FICTION

Topological land-use partition + three scopes + three yards / two wings

LAND USE

- 0802 R&D / validation
- 0804 Learning / open source
- 05 Tech services / business
- 0701 Talent living
- 0702 Community service
- 0803 Culture / civic service
- 1401 Continuous parkland

43.6 km² → **11.4 km²** → **3 YARDS**

RESEARCH **OVERALL DESIGN** **KEY AREAS**
Industry + future city *Spatial + delivery system* *Detailed validation*

Design recommendation: all zones recalculate when official boundaries arrive; no ownership or statutory land-use claim.

Data: land_use.geojson and site_boundary.geojson; codes from the public MNR subset

JING-ZHANG HANDOVER LINE / v1.0

THREE HANDOVER YARDS

Build→Verify / Verify→Share / Share→Serve

JZ / 03

THREE HANDOVER YARDS, THREE SHIFTS OF DUTY

Each key area links programme, space, scenario, human takeover and delivery gates

01

BUILD→VERIFY YARD

- Public validation street
- Model red team / robot sandbox
- Physical stop by safety staff

PROVISIONAL KEY AREA

02

VERIFY→SHARE YARD

- Public handover table
- Research relay / translation
- Licence, withdrawal, human desk

PROVISIONAL KEY AREA

03

SHARE→SERVE YARD

- Century logbook
- Oral history / AI-native service
- Non-commercial access / no-AI service

PROVISIONAL KEY AREA

Key-area geometry is provisional; detailed strategies are directions for professional development

JING-ZHANG HANDOVER LINE / v1.0

TWELVE REVERSIBLE AI SCENARIOS

Four controlled tests; every service retains human takeover and a no-AI equivalent

SCN-01 Model red-team desk Human review + paper risk log	SCN-02 Robot right-of-way sandbox Safety staff + physical stop	SCN-03 Edge energy test Manual shutdown + offline meter
SCN-04 Data-consent rehearsal Paper consent + deletion desk	SCN-05 Accessible-route copilot Tactile map + human direction	SCN-06 Public translation desk Human desk + multilingual paper
SCN-07 Campus research relay Human curation + open catalogue	SCN-08 Visible maintenance stop Phone report + human dispatch	SCN-09 Community care roster Staff telephone roster
SCN-10 Night-shift safety light Fixed light + human patrol	SCN-11 Oral-history booth Human guide + paper catalogue	SCN-12 Global Handover Week Fixed signs + volunteers

MOVEMENT AND BLUE-GREEN CIVIC GROUND

The smart layer is removable; ordinary access and human service remain

JZ / 04

ONE SPINE, EIGHT STITCH LINKS, TWELVE TAKEOVER POINTS

The smart layer is removable; basic access and human service stay available

MOVEMENT / SERVICE

- Continuous walk-cycle spine
- East-west connection intent
- Blue-green comfort ground
- Human takeover + AI scenario

- A OFFLINE BY DEFAULT**
Static signs, light, tactile maps and human help do not rely on a model.
- B GRADED TAKEOVER**
Low confidence, boundary breach, objection or outage calls the duty person.
- C EXIT IS RECORDED**
Shutdown cause, deletion and service continuity enter the public logbook.

Conceptual connectivity, not road redlines or engineering feasibility; lengths calculated in EPSG:4548

JING-ZHANG HANDOVER LINE / v1.0

BUILDING RENEWAL AND CONDITIONAL PHASING

Inventory, temporary use, then fixed work; no premature demolition decision

R / RETAIN

Continue use and complete the existing-condition record.

A / ADAPT

Prioritise fire safety, energy, accessibility and an open ground floor.

I / INSERT

Test demand with removable elements and temporary use.

D / INVESTIGATE

Await survey, structure, ownership, fire and heritage review; not demolition.

PHASE 01

RETURN TO BASELINE

Official data, inventory, basic wayfinding and low-risk human-led pilots

PHASE 02

OPEN HANDOVER YARD

Open ground floors, research relay and services after ownership and community review

PHASE 03

BELT OPERATIONS

Only after transport, utilities, heritage, privacy and safety conditions

CORE METRICS AND EVIDENCE CHAIN

Geometry — formula — assumption — human review

JZ / 05

EVERY NUMBER RETURNS TO GEOMETRY, FORMULA AND ASSUMPTION

Known values recalculate; statutory FAR and height remain unknown

11.413 *km²*

PROVISIONAL SITE

19.84 %

DESIGN GREEN

9.11 %

PUBLIC GROUND

9.50 *km*

HANDOVER SPINE

12 *nodes*

REVERSIBLE AI

4 *tests*

VALIDATION TESTS

EVIDENCE CHAIN

KEPT UNKNOWN: FAR, building height, ownership, road redlines, utility capacity, investment and output

metrics.json × geometry/*.geojson × assumptions.json; displayed values are rounded

JING-ZHANG HANDOVER LINE / v1.0

RISK, RIGHTS AND THE NEXT SHIFT

Open co-design, not statutory planning or professional approval

DATA BOUNDARY

Recalculate after official boundary, controls, ownership, roads, utilities, fire and heritage data arrive.

CIVIC BOUNDARY

People without smartphones, non-Chinese speakers, disabled and older people, and those declining AI retain equal basic service.

RIGHTS BOUNDARY

Original diagrams, text and layouts; external cases are paraphrased without copied images, marks or protected charts.

Intelligence can move. Responsibility must remain visible.
