

CENTENNIAL JINGZHANG AI INNOVATION BELT

Jingzhang Resonance: Co-evolving with AI

An offline evidence workspace for the original Jingzhang Open Loop.

[Overview map](#)[Three-level scope](#)[Key areas](#)[Land-use structure](#)[Walking and mobility](#)[Blue-green public space](#)[Buildings](#)[Renewal projects](#)[AI scenarios](#)[Core metrics](#)[Task coverage](#)[Self-check status](#)[Sources](#)[Assumptions](#)

Current geometry is provisional discussion data, not an official redline; recalculate after official data is released.

Jingzhang Open Loop

Read history

Railway heritage, source cards, and public interpretation

Run experiments

Bounded, reviewable, and opt-out AI scenarios

Return to public life

Return results to services, events, and next questions

Core metrics / Core Metrics

site_area_sqm

11412825.386

green_ratio

0.123423

public_space_ratio

0.073281

Task coverage / Task Coverage

Overview map

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Three-level scope

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Key areas

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Land-use structure

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Walking and mobility

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Blue-green public space

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Buildings

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Renewal projects

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

AI scenarios

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Core metrics

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Task coverage

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Self-check status

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Sources

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Assumptions

Evidence is linked to the proposal, GeoJSON, metrics, matrices, and self-check.

Evidence Figures

Overall map and Jingzhang Open Loop

CONCEPT MODEL / PROVISIONAL GEOMETRY — NOT AN OFFICIAL REDLINE

43.6 km² coordinated research | 11.4 km² overall design | 3 key areas

Boundary-dependent values must be recalculated when official geometry is supplied.

Overview map

Land-use structure

CONCEPT MODEL / PROVISIONAL GEOMETRY — NOT AN OFFICIAL REDLINE

Four conceptual layers — separate from statutory land-use classification

Boundary-dependent values must be recalculated when official geometry is supplied.

Land-use structure

Three key areas

CONCEPT MODEL / PROVISIONAL GEOMETRY — NOT AN OFFICIAL REDLINE

Three key areas / distinct roles / shared feedback loop

Boundary-dependent values must be recalculated when official geometry is supplied.

Key areas

Walking, mobility and blue-green space

CONCEPT MODEL / PROVISIONAL GEOMETRY — NOT AN OFFICIAL REDLINE

Walking spine + blue-green connectors + accessible transfer points

Red: public activity Teal: slow mobility Gold: transfer node

Boundary-dependent values must be recalculated when official geometry is supplied.

Walking and mobility / Blue-green public space

Core metrics and evidence definitions

CONCEPT MODEL / PROVISIONAL GEOMETRY — NOT AN OFFICIAL REDLINE

SITE AREA	11.4 km ²	provisional computed area
-----------	----------------------	---------------------------

GREEN RATIO	12.3%	green / submitted boundary
-------------	-------	----------------------------

PUBLIC SPACE	7.3%	public / submitted boundary
--------------	------	-----------------------------

KEY AREAS	3	provisional areas
-----------	---	-------------------

Boundary-dependent values must be recalculated when official geometry is supplied.

Core metrics / Task coverage

Self-check status / Self-check status

Local working draft: spatial and professional evidence gates pass; continue official deterministic, visual, and self-check gates before finalization.
