

JingZhang NewTrack — Concept Urban Design, Centennial Jing-Zhang AI Innovation Belt

Centennial Jing-Zhang AI Innovation Belt Concept Urban Design (Beijing Haidian) Three Tracks, One Pulse · One Belt, Three Cores / Two Wings, Seven Axes · Switchback Fallback (JZ-SWITCHBACK-001) NT-6 Service Contract · Four States (normal/degraded/paused/retired) · Switchback Windows SW-001/002/003 (v0.6) Concept Proposal (not statutory approval) · Boundaries are provisional rough extents (EPSG:4548 recomputed)

[PROVISIONAL CONSTRAINT & NON-OFFICIAL BOUNDARY NOTICE | provisional_constraint • official_boundary=false] All boundaries and polygons are provisional working assumptions and do not constitute statutory planning redlines or government approval. All metrics are recomputed in EPSG:4548 and must be recomputed upon official GIS release.

Overall Scope	Research Land	Green Ratio	Public Space	Road Length	Scenario Cards	Tabletop Runs
11.41 km²	4.82 km² (42.2%)	21.7% (≈2.48km²)	1.2% (≈13.7ha)	40.7 km (EPSG:4548)	12 (3 test sandboxes)	24 (8 accept / 16 reject)

01 Master Concept & Spatial Structure

JingZhang NewTrack — Master Concept & Spatial Structure Overview One Belt, Three Cores / Two Wings, Seven Axes

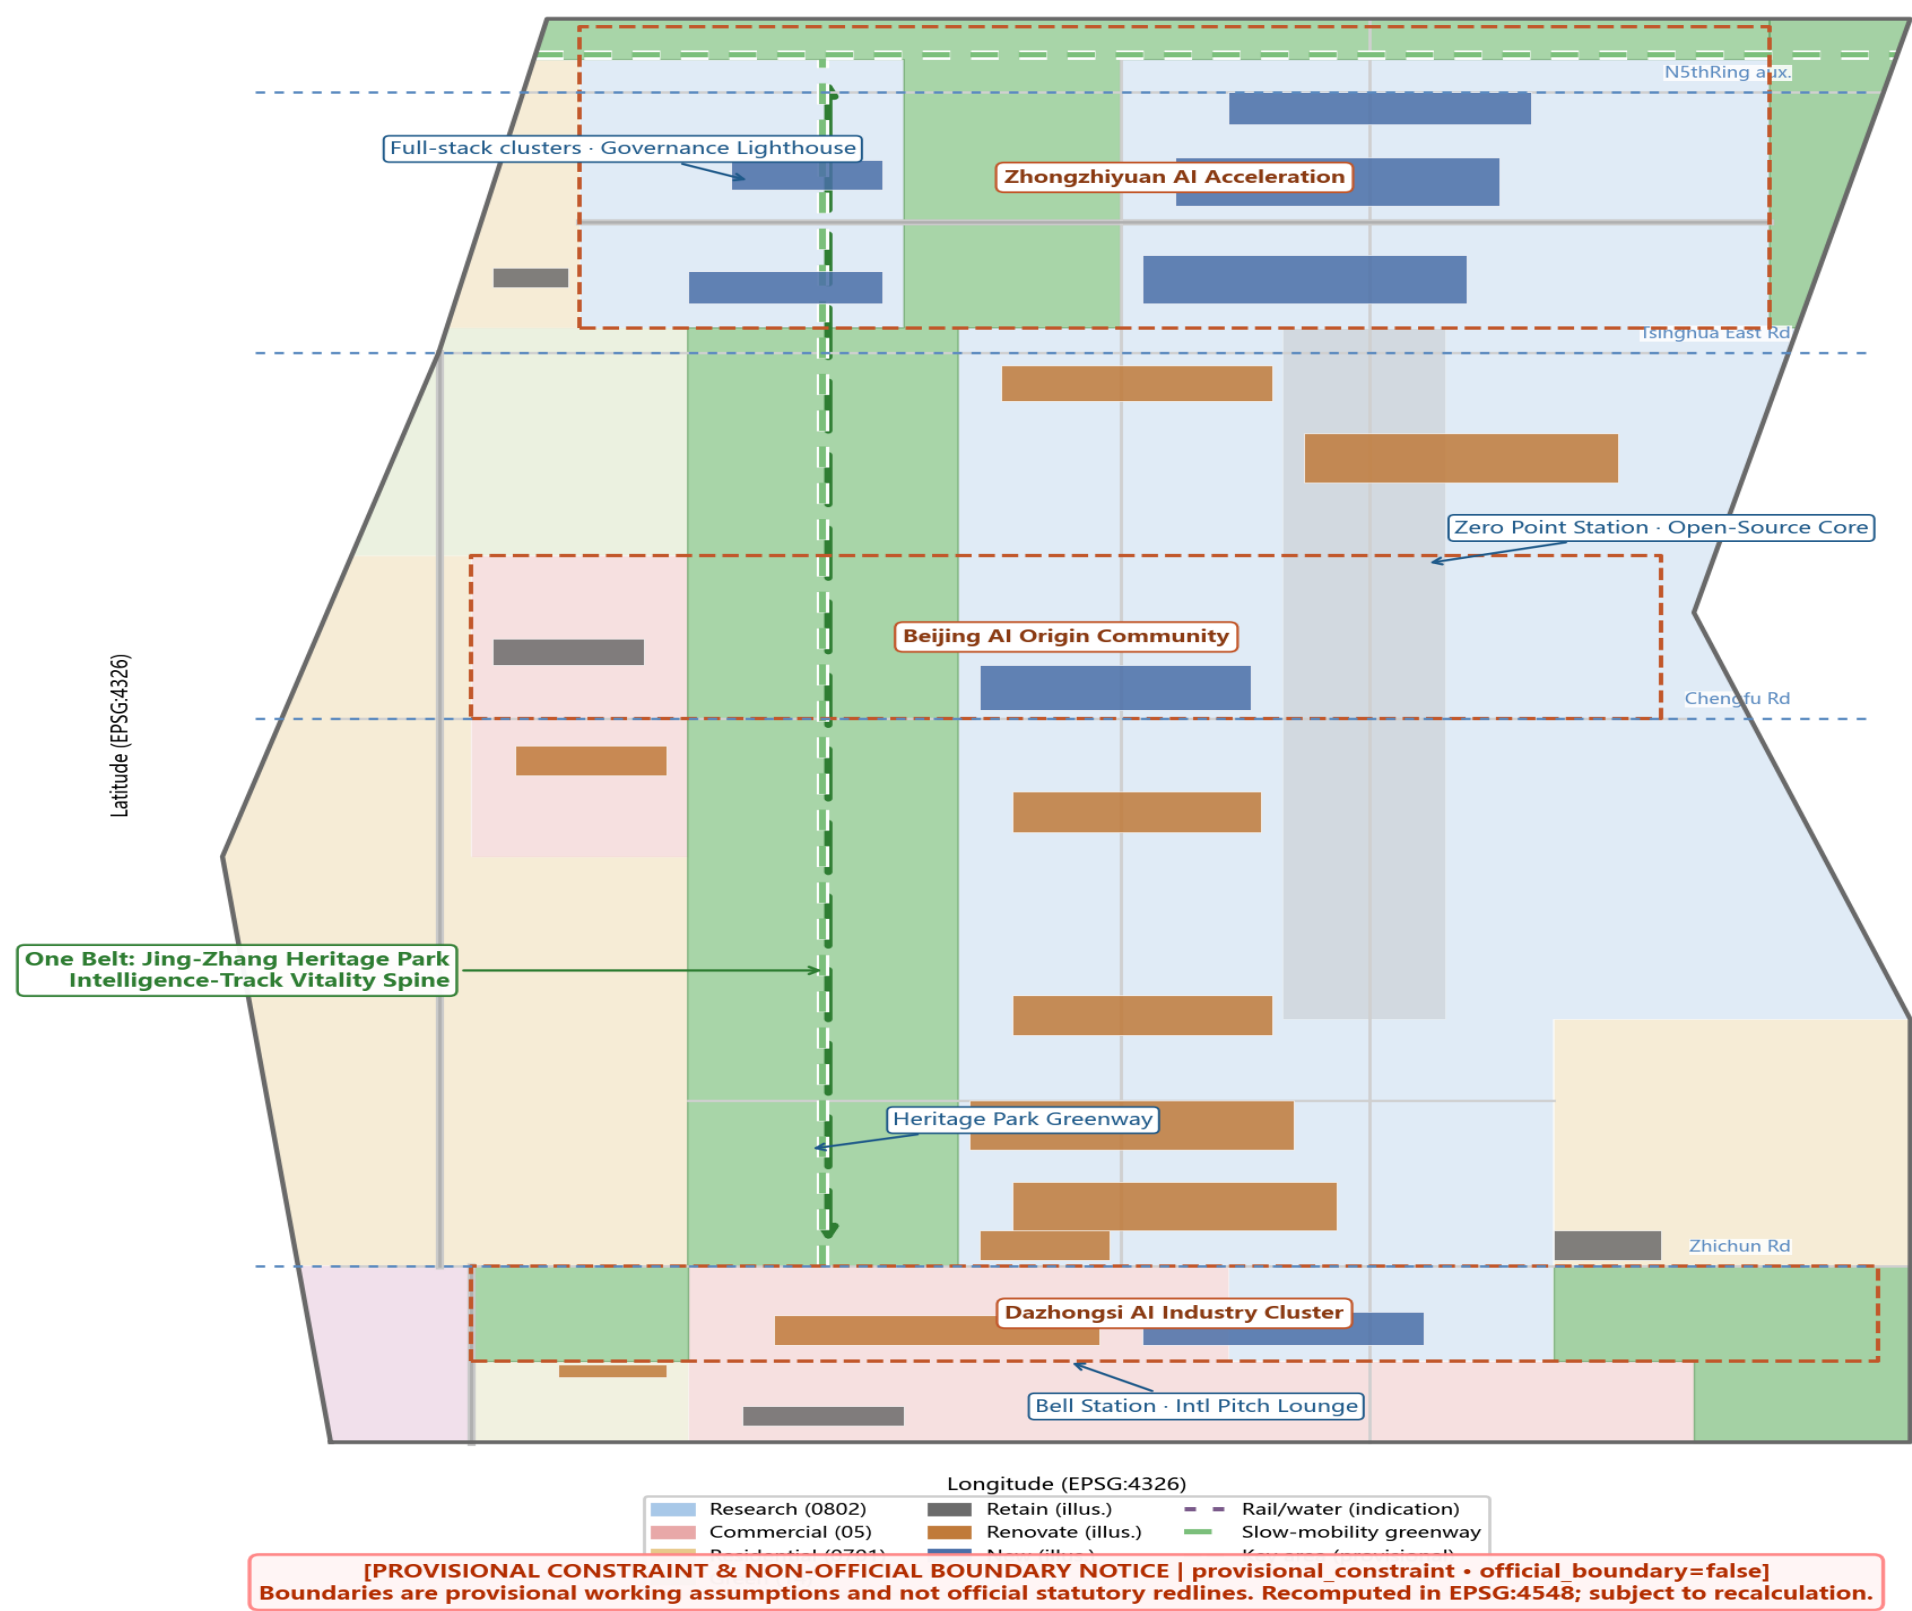

Fig 1: One Belt, Three Cores, Two Wings, Seven Axes; the green spine is the Jing-Zhang Heritage Park Intelligence-Track Vitality Belt. Boundaries are provisional rough extents.

JingZhang NewTrack — Land-Use Structure & Three Belts / Two Wings

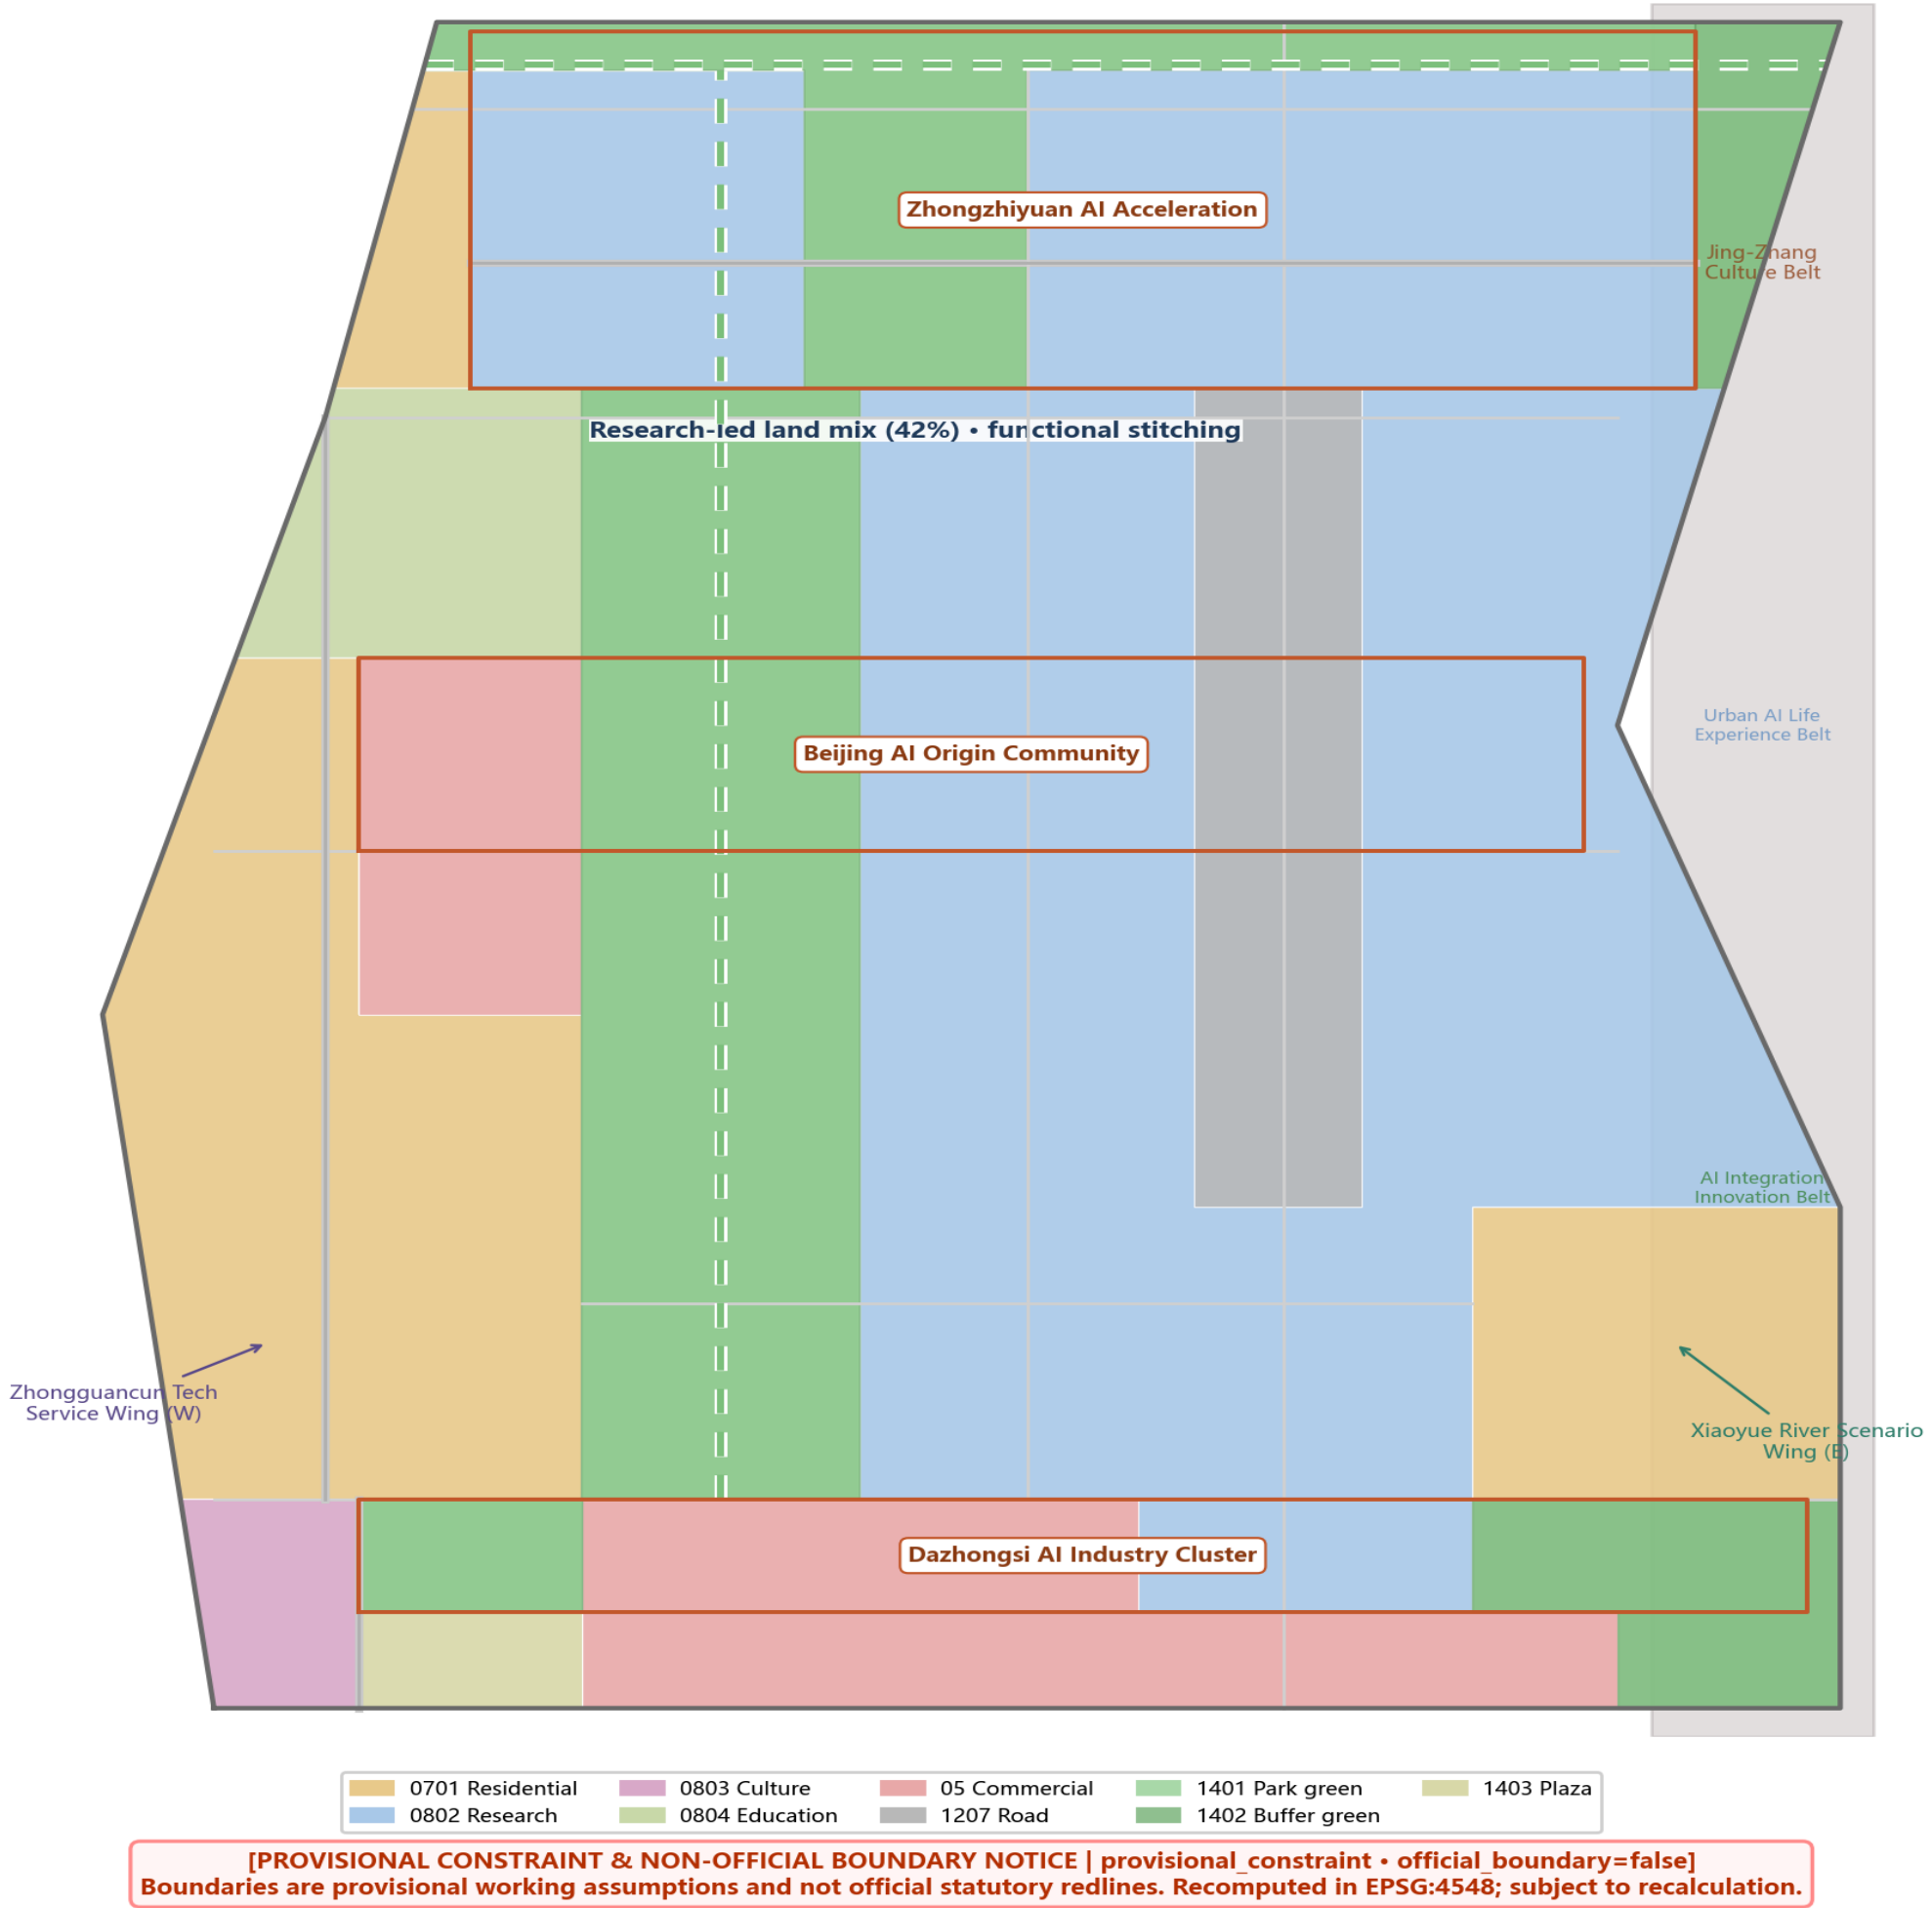

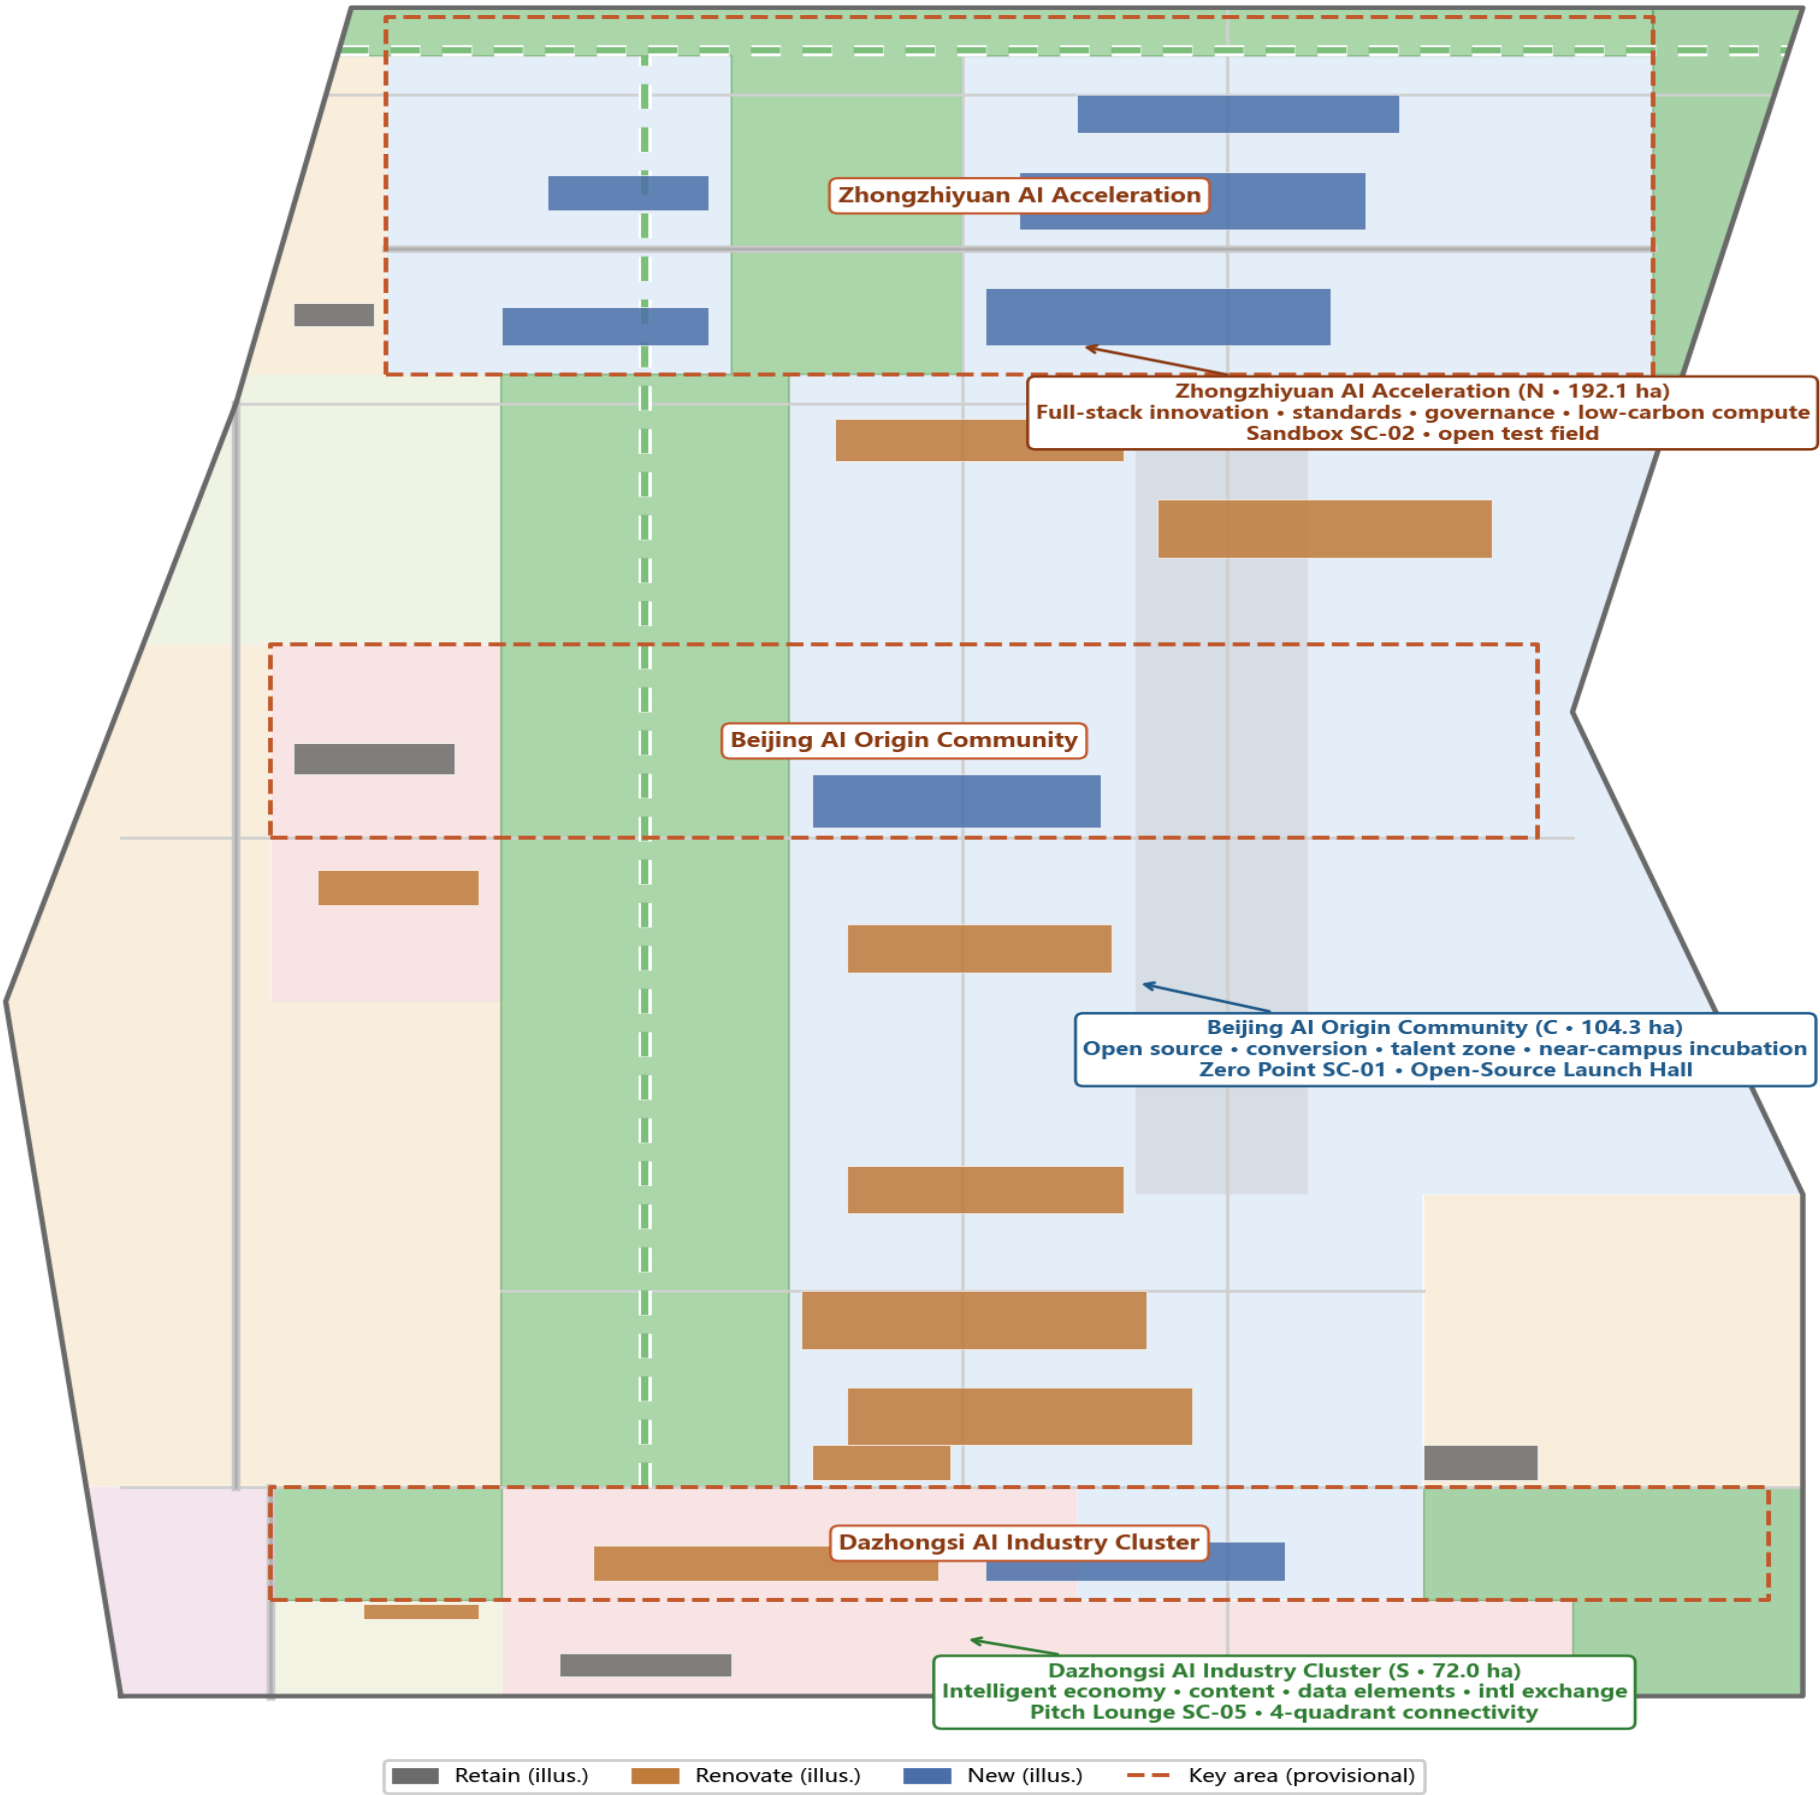

Fig 2: Seamless land-use partition; research-led mix (0802 accounts for 42.2%); right-hand overlay shows the three identity belts. Recomputed in EPSG:4548.

JingZhang NewTrack — Three Key Areas: Detailed-Design Task Index
position + space + AI scenarios + risks

[PROVISIONAL CONSTRAINT & NON-OFFICIAL BOUNDARY NOTICE | provisional_constraint • official_boundary=false]
Boundaries are provisional working assumptions and not official statutory redlines. Recomputed in EPSG:4548; subject to recalculation.

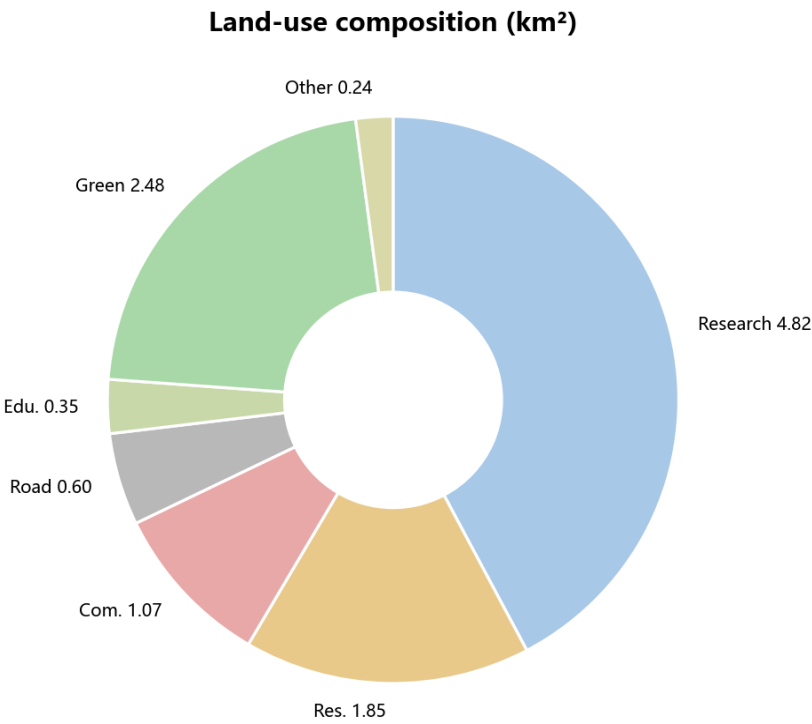

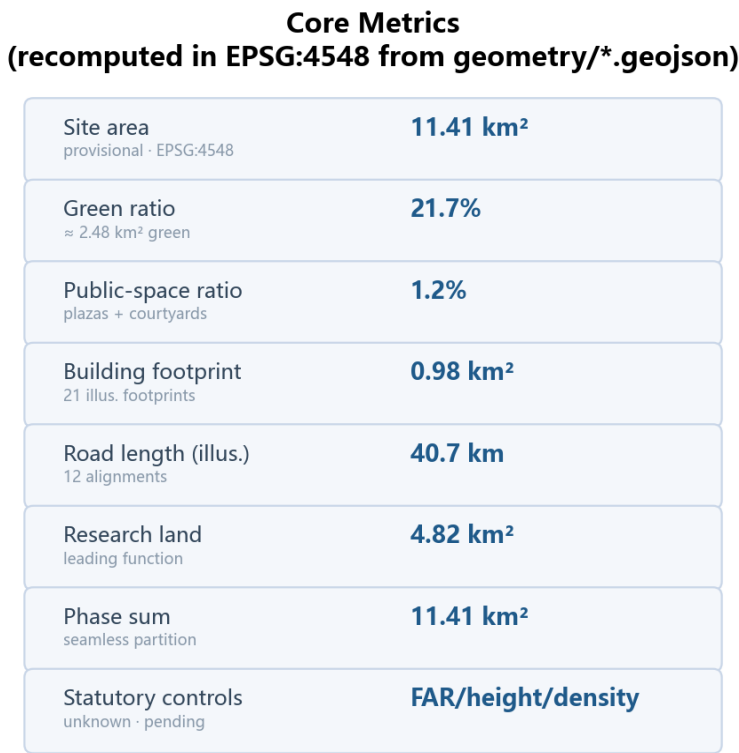

Fig 3: Zhongzhiyuan (N · 192.1ha), Origin Community (C · 104.3ha), Dazhongsi (S · 72.0ha) — position, spatial moves, AI scenarios, switchback pilot segments, and risks.

JingZhang NewTrack — Mobility & Slow-Mobility / Blue-Green Composite System

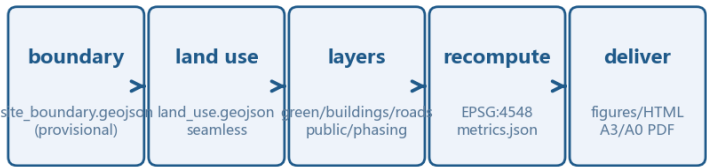

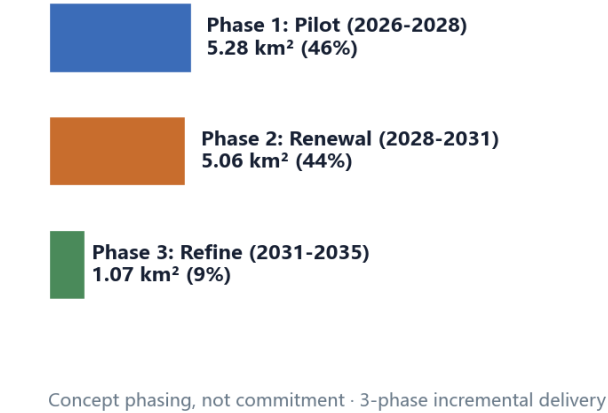

Fig 4: Slow-mobility greenway, Qing River frontage, stitch points, transit-station integration; road length 40.7 km (EPSG:4548); alignments are provisional.

JingZhang NewTrack — Core Metrics & Evidence Chain
(all values consistent with geometry/metrics.json)

Phasing (seamless partition)

Evidence chain

Mechanism evidence: NT-6 service contract · four states normal/degraded/paused/retired · windows SW-001/002/003

Minimal pilot SC-04: G0=not_run · G1=pending_authorization · G2=sandbox_only

Pending official data: redline · regulatory controls (FAR/height/density/setback) · existing buildings/ownership · municipal works

→ After official polygons: regenerate all layers/metrics/figures (assumptions.json A-RECALC-001)

Boundary: provisional_constraint · not official redline / precise-area basis

Fig 5: Metrics recomputed in EPSG:4548; statutory controls (FAR, height, redline) remain unknown pending official regulatory-plan conditions.
