

JingZhang Intellima · Dual-Axis (Rail to Optic)

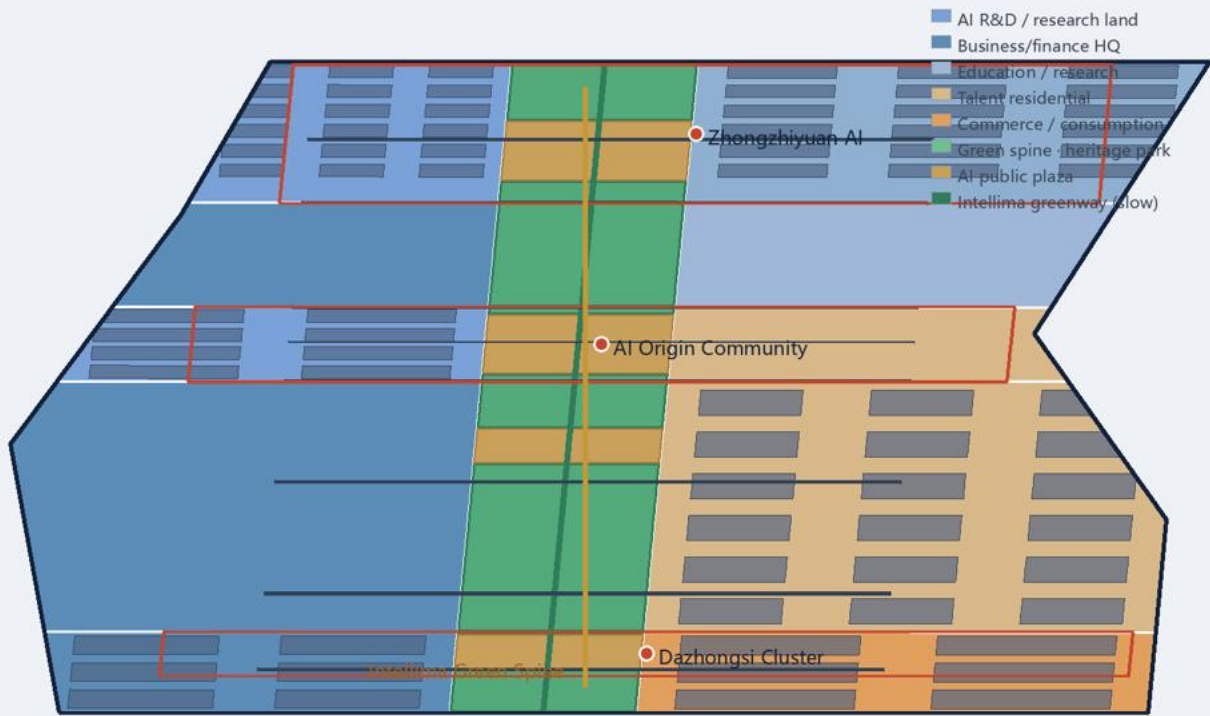

Centennial Jing-Zhang AI Innovation Belt — Overall Concept & Three Scopes

Primary name: JingZhang Intellima Belt; subtitle From Rail to Light; logo direction combines the 1435

JingZhang Intellima · Dual-Axis Rail-to-Optics Concept

Rail → Optics: heritage spine and AI innovation belt fused on one corridor

OVERVIEW

Sources: announcement textual extents and provisional_boundaries.geojson; boundary is provisional, not official redline. Areas recomputed in EPSG:4548.

Three-Level Scope and Land-Use Structure

Research 43.6km² → Overall 11.4km² → Key 368.4ha

LAND-USE

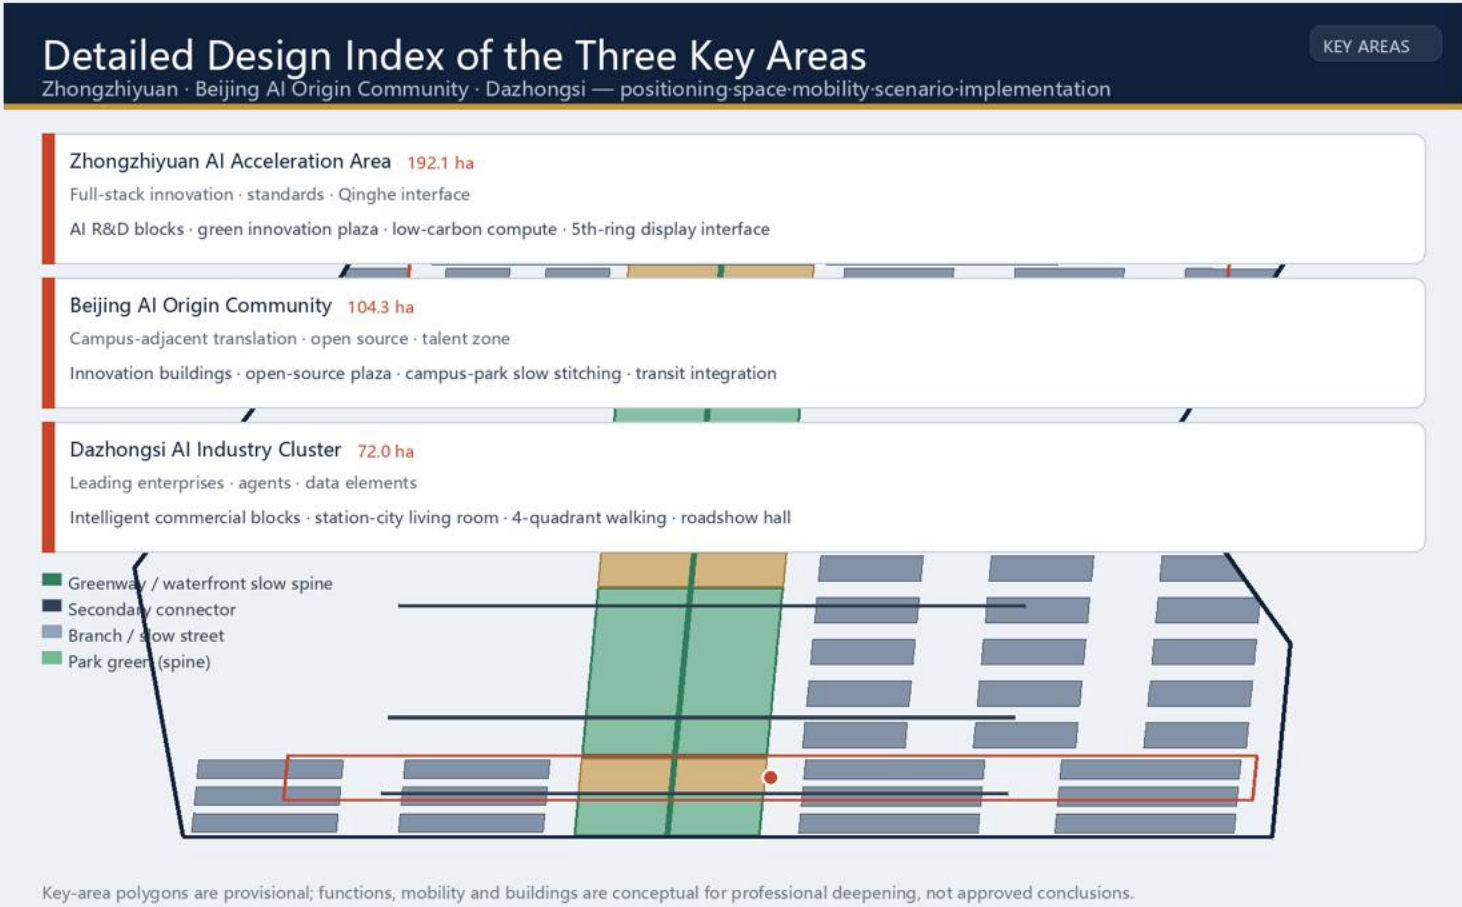

Land-use codes follow the MNR land-use classification; design suggestions within provisional boundary, to be recomputed after official boundary release.

Figures derived from submitted GeoJSON/metrics; provisional boundary for intake discussion only · AI

Detailed Design of the Three Key Areas

Zhongzhiyuan · Beijing AI Origin Community · Dazhongsi AI Industry Cluster

Zhongzhiyuan: garden-style full-stack innovation block, Qinghe interface, low-carbon compute. Orig

AI Scenarios · Mobility & Blue-Green · Metrics

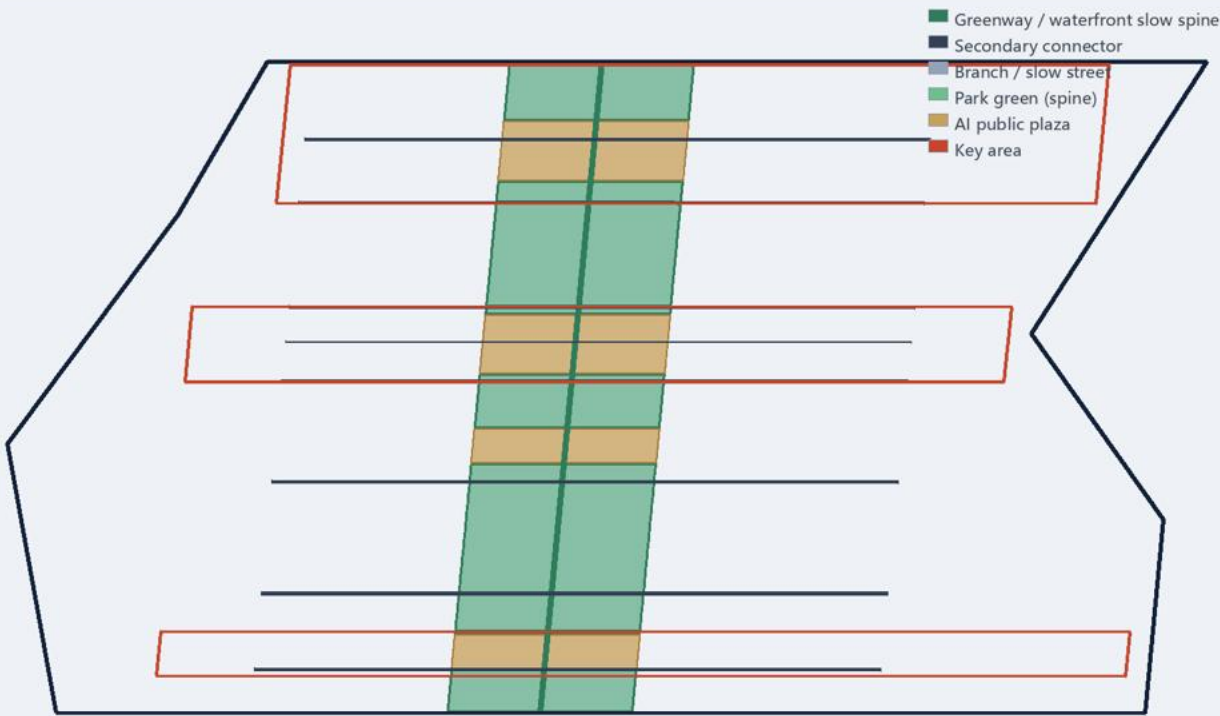

12 scenario cards (incl. 4 industry test/validation) · 15.5km Intellima Green Spine · geometry-derived metrics

Core metrics: area 11.41km2, green ratio 12.9%, public-space ratio 5.2%, building footprint 228.6ha.

Mobility, Slow-Traffic and Blue-Green Composite System

Intellima Green Spine links three cores · seven connectors stitch two wings · transit-station integration

MOBILITY-BLUE-GREEN

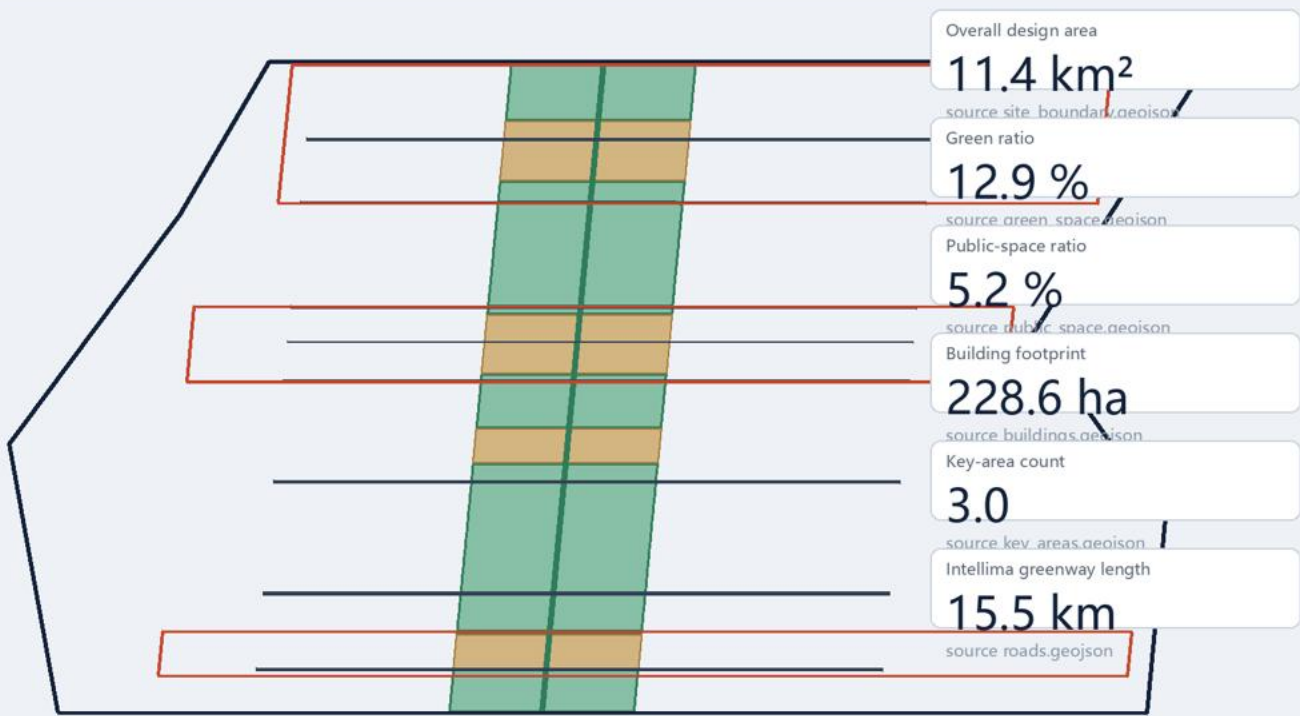

Roads are a conceptual network (not redlines); blue-green takes the Jing-Zhang heritage park belt as the backbone with Qinghe and Xiaoyuehe wings.

Core Metrics Recalculation and Evidence Chain

Recomputed from submitted GeoJSON in EPSG:4548; official control metrics pending data

METRICS

All metrics recomputable from submitted geometry; FAR, height etc. dependent on unpublished official controls remain unknown with a stated reason.
