

COMMON TIME

Public interfaces, field baselines, shared thresholds, full cost, independent review and official geometry must close separately.

CONCEPT PROPOSAL · PUBLIC ROLE INTERFACES ARE NOT PROJECT AUTHORITY · HOLD UNTIL DATA, SIGNATURES, BUDGET, APPOINTMENT AND OFFICIAL GEOMETRY

03 / THREE OVERLAYS

FROM FALSE PRECISION TO UNKNOWN + SPATIAL ROLES + OPERATING TIME

Three aligned layers; land-use codes support topology and are not regulatory recommendations.

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

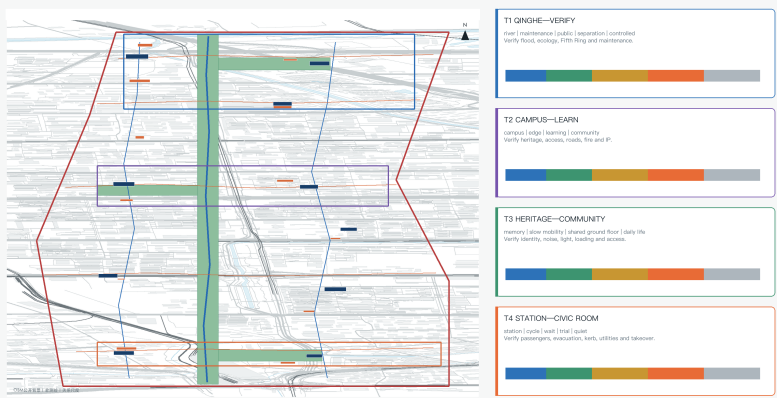

01 / OPERATING BASELINE

Public opening facts start the survey; four days, four bands and 24-hour acoustics are locked

05 / SYSTEMS + SECTIONS

NEGOTIATE MOBILITY, BLUE-GREEN, UTILITIES AND GROUND FLOOR TOGETHER

Candidate links register questions; sections expose sequences, conflict and professional handoff.

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

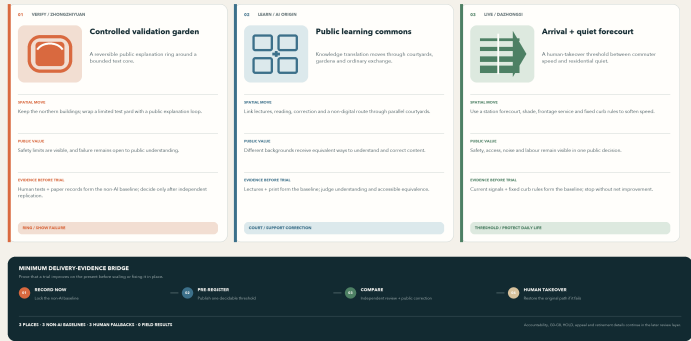

02 / FIELD + PROFESSIONAL GATES

Mobility, ecology, utilities, ground floor, labour and human takeover checked together

04 / SPATIAL VALUE + DELIVERY EVIDENCE BRIDGE

One shared clock. Three urban times.

All is not the landmark. Public space makes clear when to verify, when to learn and when to return to ordinary life — with every trial legible, comparable and reversible.

03 / IMPLEMENTATION CONTRACT

Shared thresholds, CAPEX/OPEX, independent review and recalculation remain auditable

THREE CLOSURES / FIELD · CONTRACT · INDEPENDENT REVIEW

01 / FIELD

MEASURE, DO NOT INFER

Four days, four bands, 15-minute bins, 24h acoustics, two-person review and hashes

02 / CONTRACT

SIGN + COST

Versioned thresholds, RACI, CAPEX/OPEX, procurement, restoration and retirement funds

03 / INDEPENDENT

SEPARATE + RECALCULATE

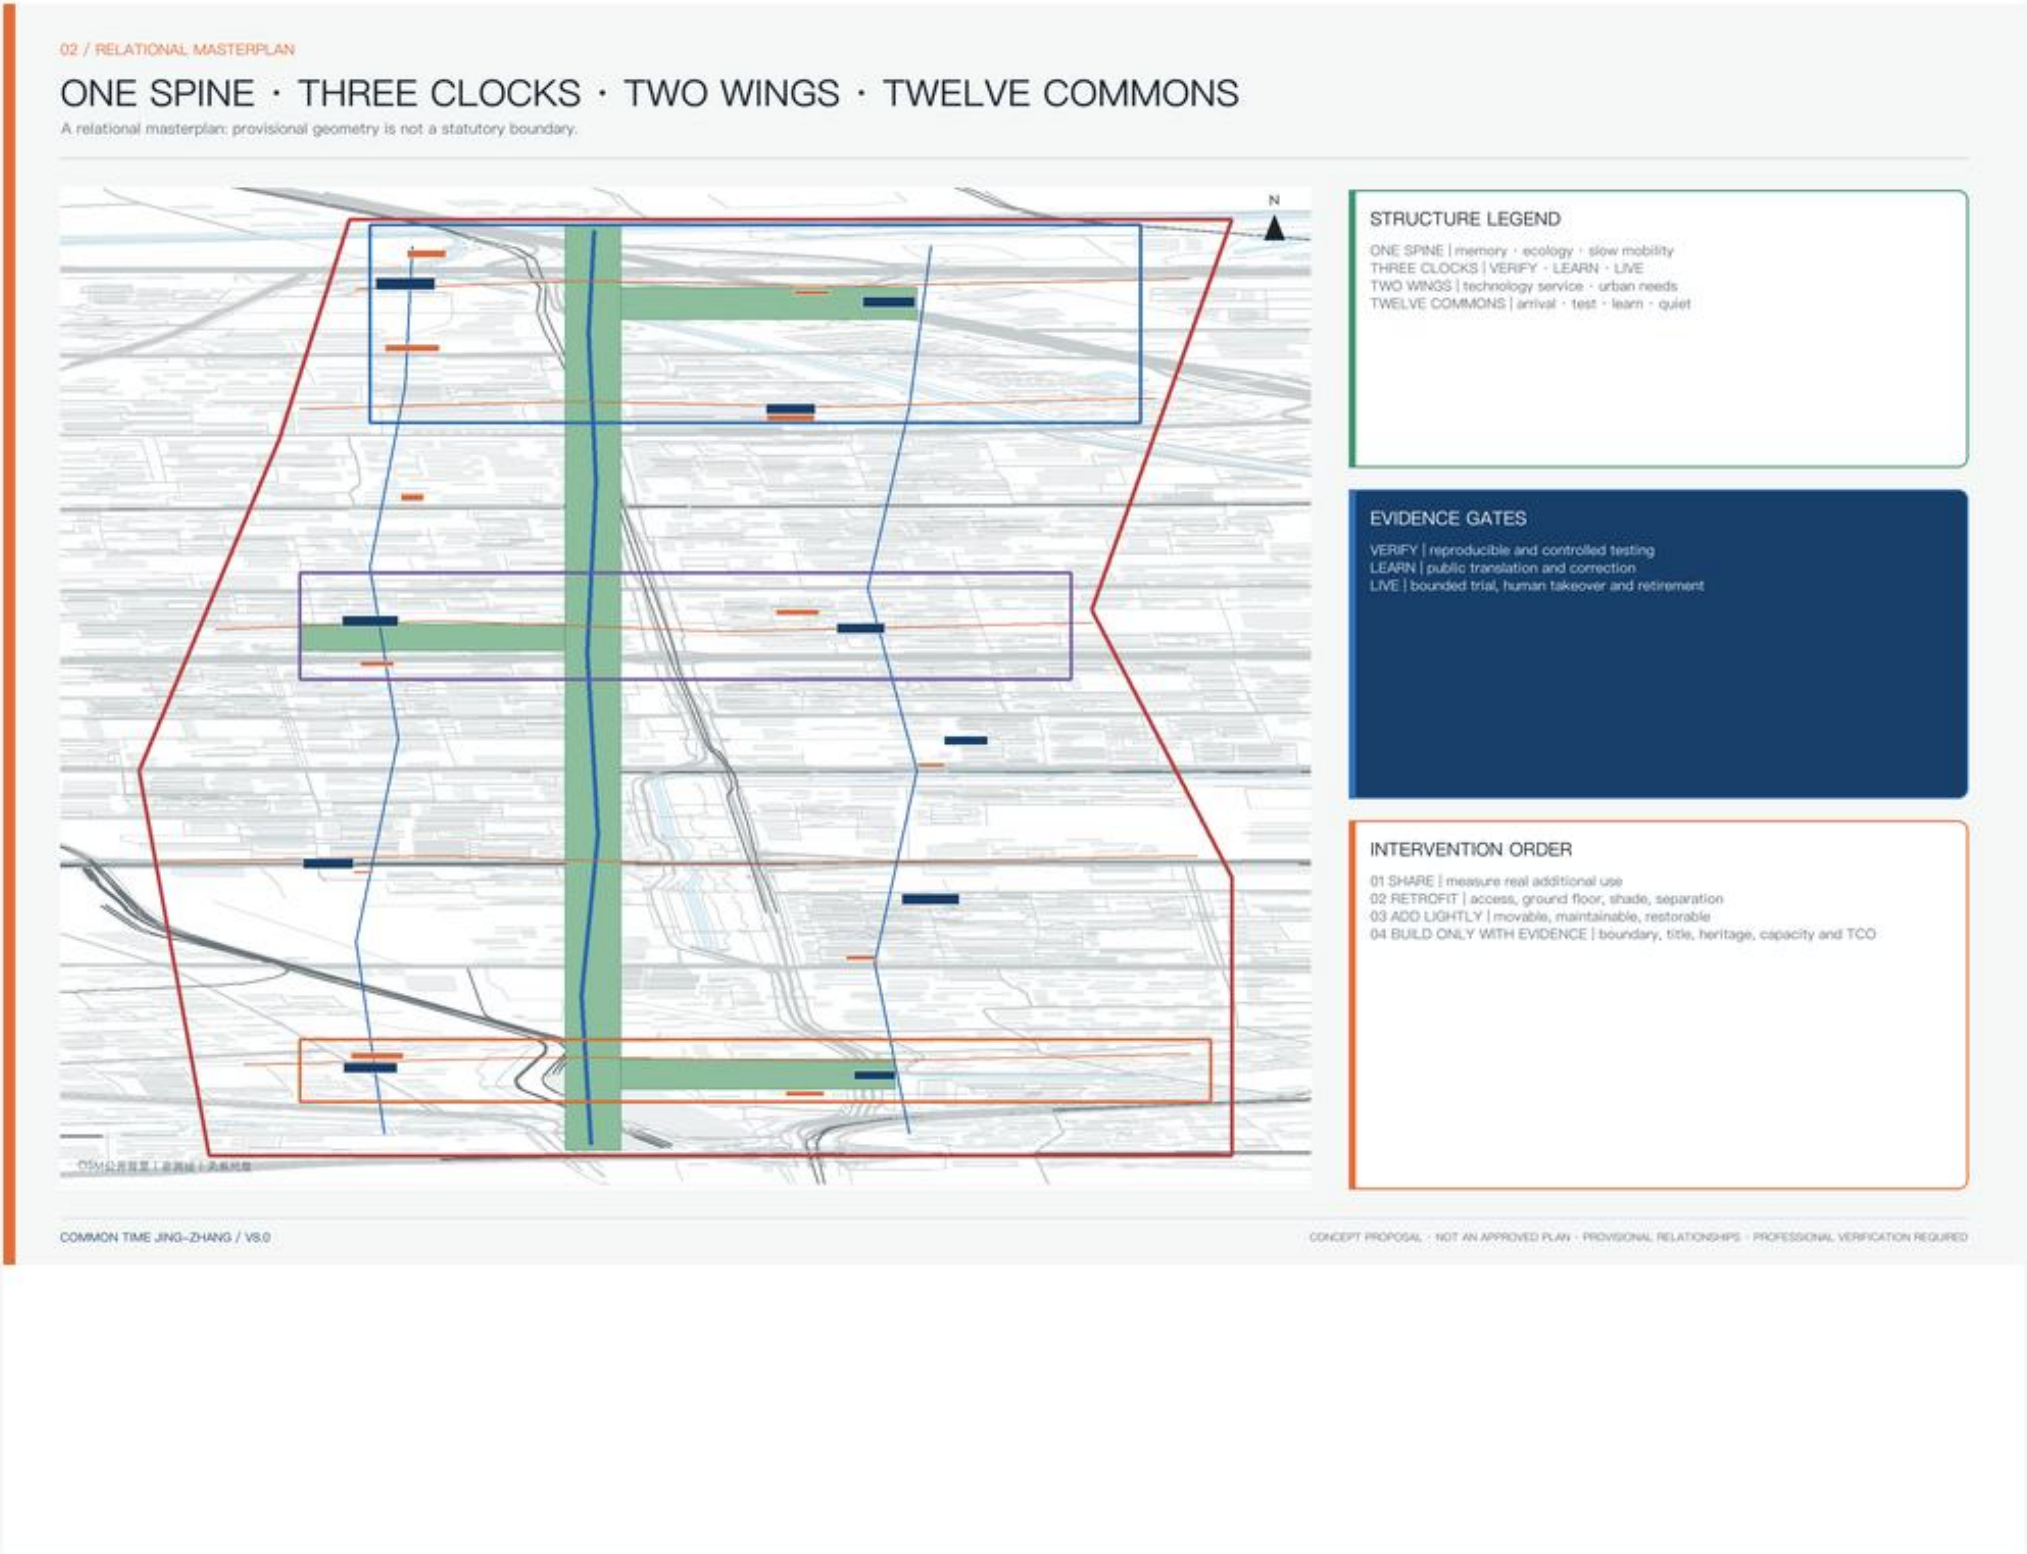

Seven roles, P0-P5, read-only snapshots and ten-step independent reproduction

SITE EVIDENCE AND UNKNOWNNS

Public photographs do not replace a 2026 survey; official boundaries, title, heritage GIS, capacity and cost remain unknown.

THREE-LEVEL SCOPE

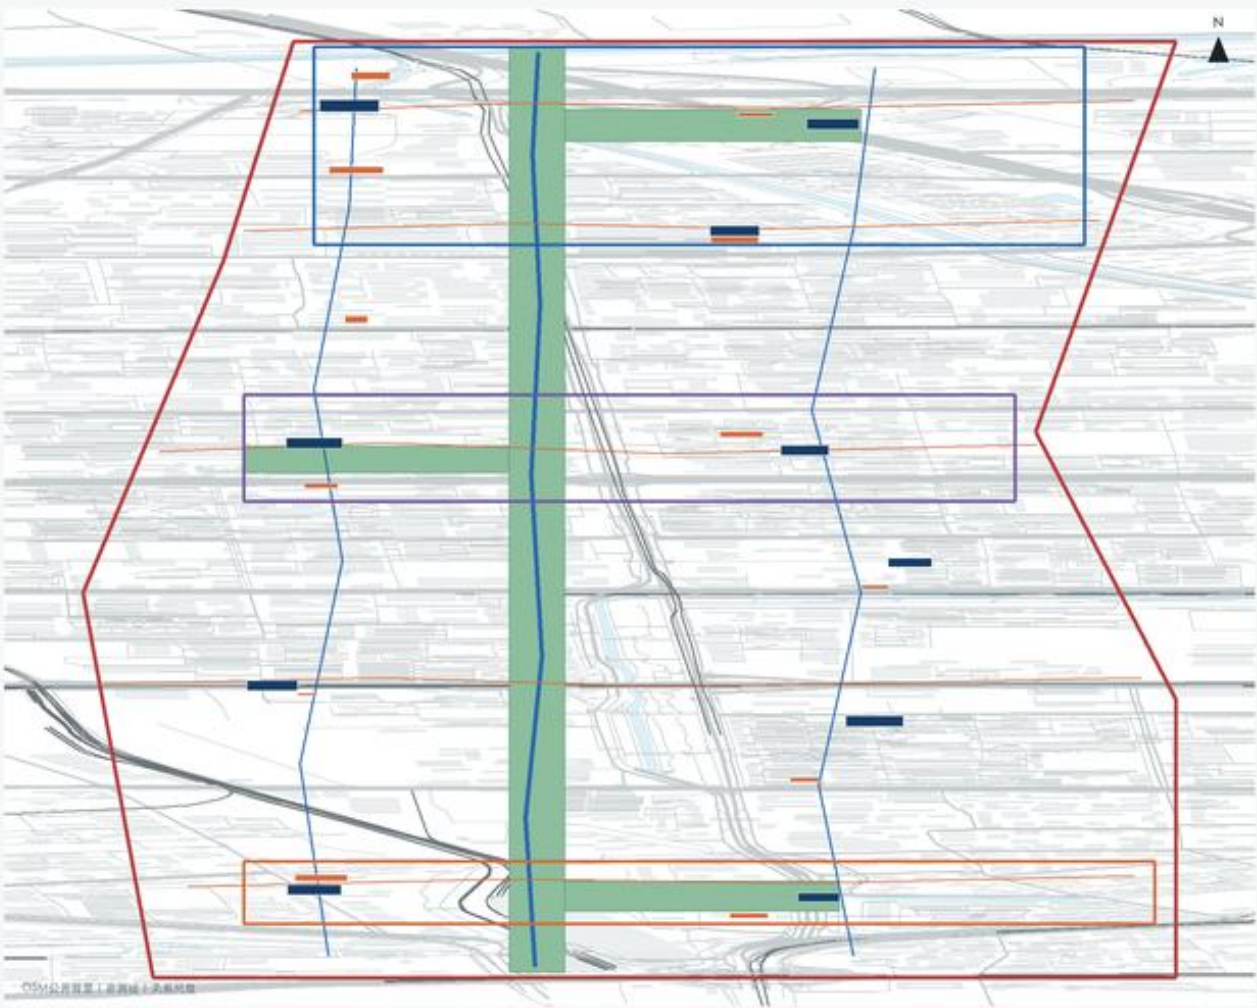

The research scope addresses industry circulation, the overall scope urban systems, and key areas prototype delivery.

RELATIONAL MASTERPLAN

02 / RELATIONAL MASTERPLAN

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan: provisional geometry is not a statutory boundary.

STRUCTURE LEGEND

ONE SPINE | memory · ecology · slow mobility
THREE CLOCKS | VERIFY · LEARN · LIVE
TWO WINGS | technology service · urban needs
TWELVE COMMONS | arrival · test · learn · quiet

EVIDENCE GATES

VERIFY | reproducible and controlled testing
LEARN | public translation and correction
LIVE | bounded trial, human takeover and retirement

INTERVENTION ORDER

01 SHARE | measure real additional use
02 RETROFIT | access, ground floor, shade, separation
03 ADD LIGHTLY | movable, maintainable, restorable
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

One spine, three clocks, two wings and twelve time commons.

THREE OVERLAYS

03 / THREE OVERLAYS

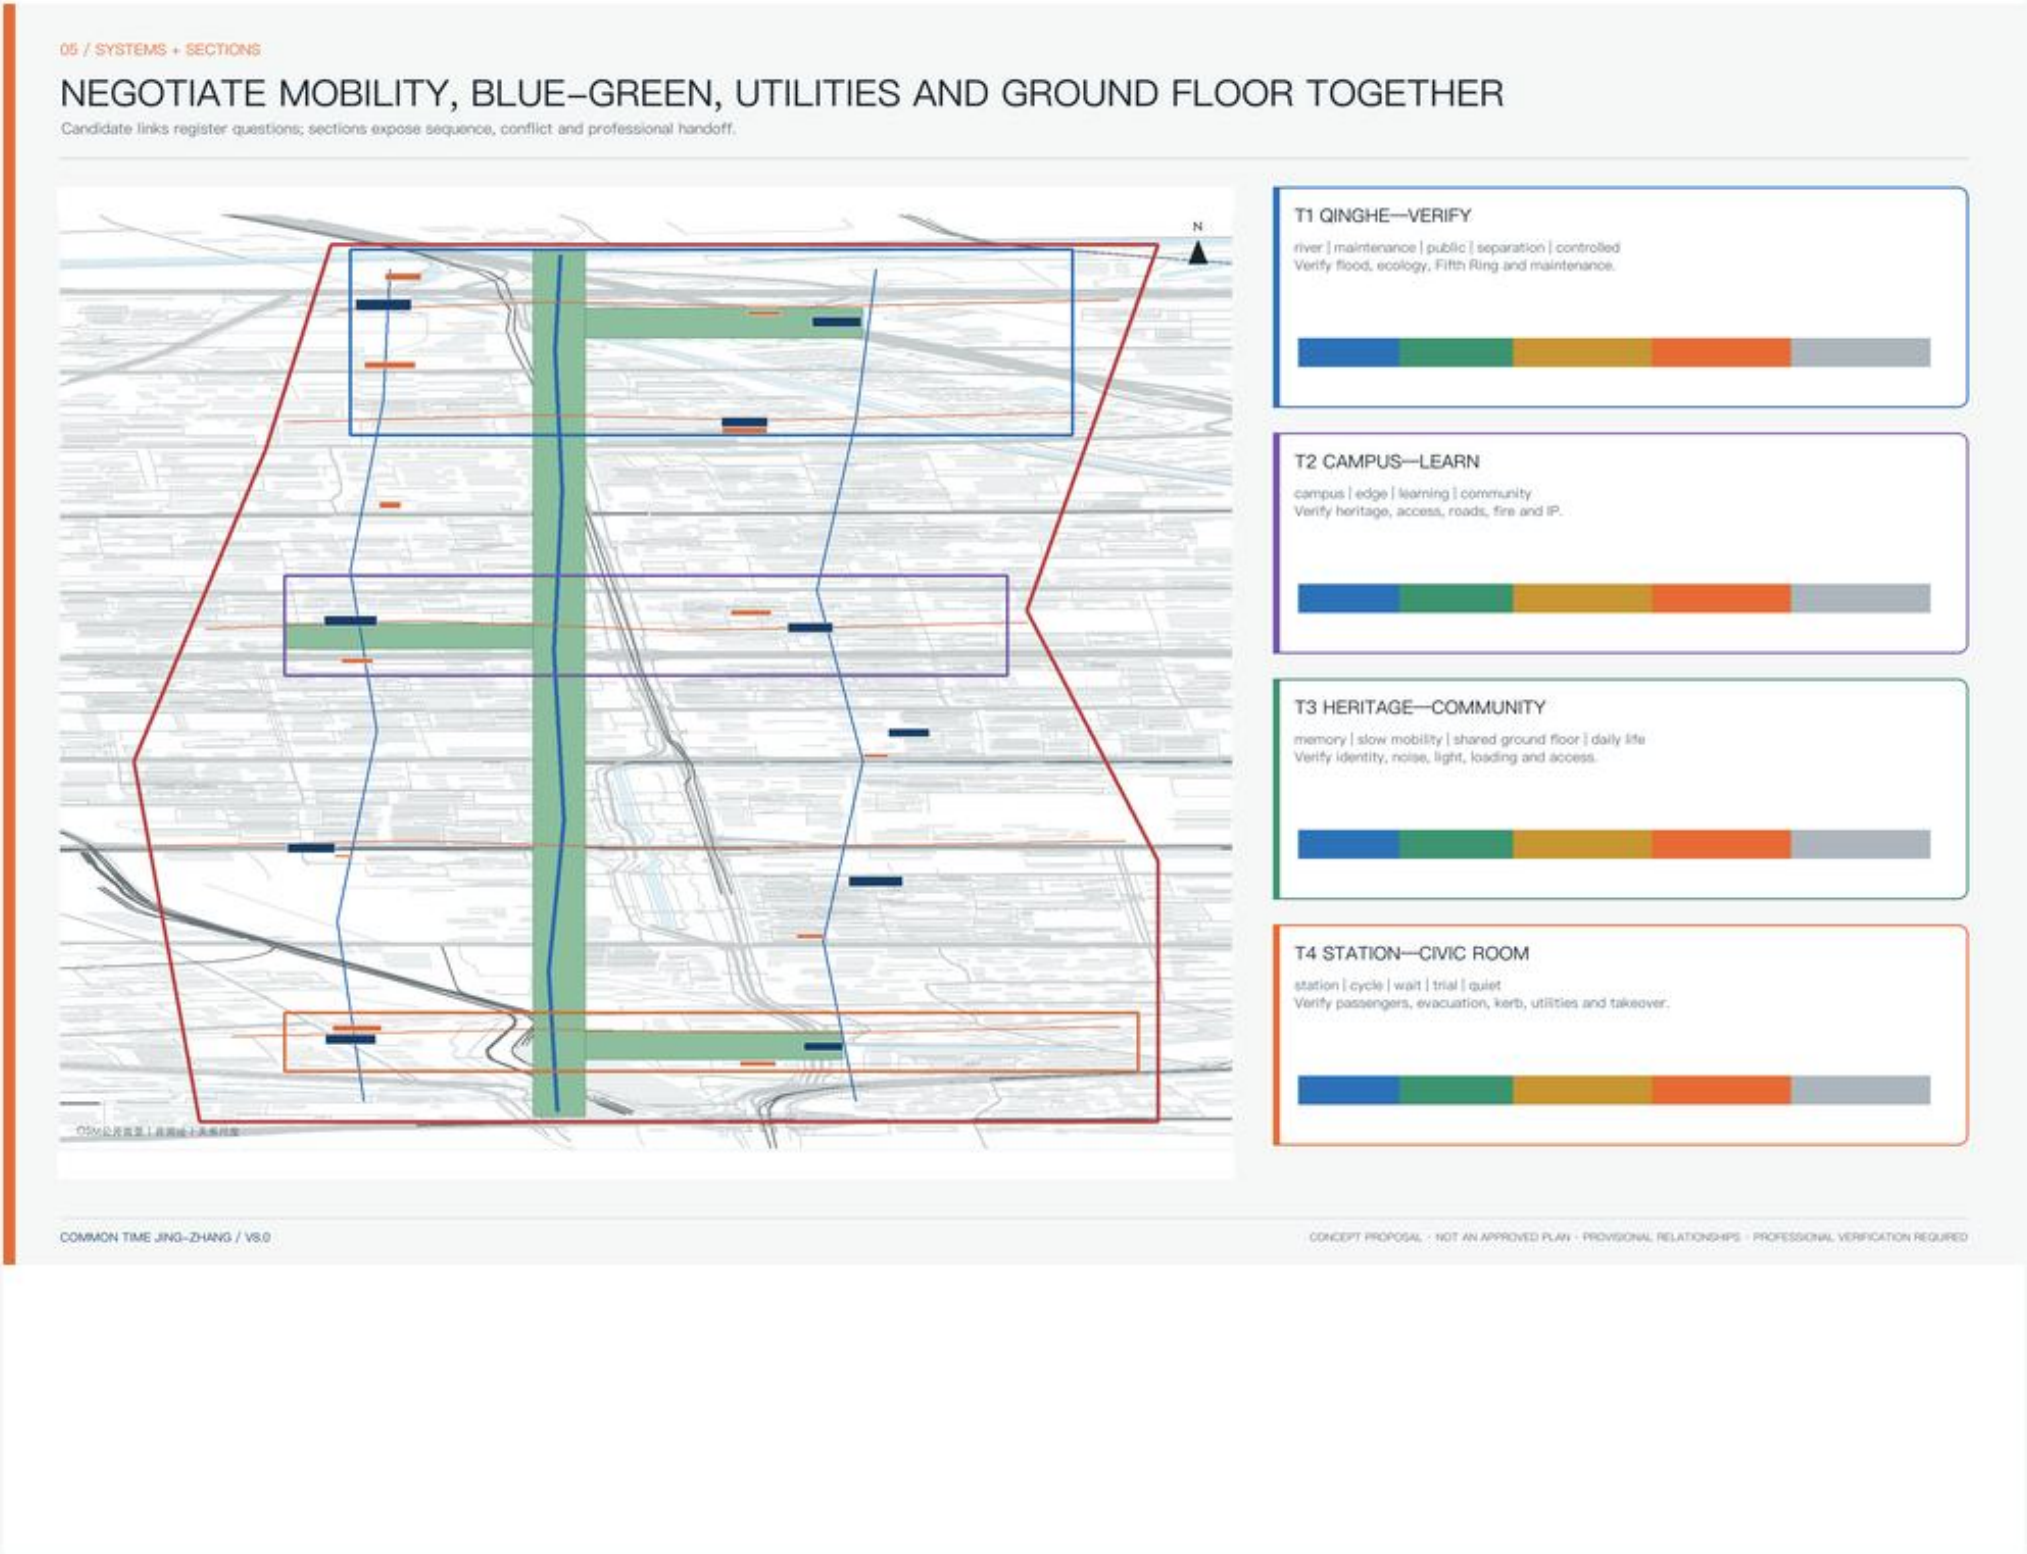

FROM FALSE PRECISION TO UNKNOWN + SPATIAL ROLES + OPERATING TIME

Three aligned layers; land-use codes support topology and are not regulatory recommendations.

Spatial roles are not statutory land use; time-sharing does not alter lawful use.

SYSTEMS AND SECTIONS

Mobility, blue-green systems, utilities and ground floors require joint verification.

众智园 VERIFY

Controlled core—public explanation forecourt—Qinghe ecological edge; logistics avoid the public garden.

北京 AI 原点 LEARN

Knowledge source—translation passage—learning court—community edge; no merged access—control profiles.

大钟寺 LIVE

Four-quadrant arrival—civic forecourt—service ground floor—quiet rear edge; algorithms do not change lawful right of way.

INNOVATION ADOPTION ECOSYSTEM

06 / DELIVERY + METRICS

SPACE, RESPONSIBILITY, FUNDING, OUTCOME AND EXIT PASS TOGETHER

Ten project contracts and nine gates; counts do not substitute for outcomes and unknowns stay visible.

SEPARATION OF DUTIES

problem owner ≠ supplier
supplier ≠ sole evaluator
operator ≠ appeal authority
procurement decision ≠ event popularity

CURRENT HOLD CONDITIONS

No construction or routine operation without official boundaries, real owners, professional approval, OPEX, equivalent human access and retirement funds.

05 / SYSTEMS + SECTIONS

NEGOTIATE MOBILITY, BLUE-GREEN, UTILITIES AND GROUND FLOOR TOGETHER

Candidate links register questions; sections expose sequence, conflict and professional handoff.

COMMON TIME JING-ZHANG / V8.0

T1 QINGHE—VERIFY

river | maintenance | public | separation | controlled
Verify flood, ecology, Fifth Ring and maintenance.

T2 CAMPUS—LEARN

campus | edge | learning | community
Verify heritage, access, roads, fire and IP.

T3 HERITAGE—COMMUNITY

memory | slow mobility | shared ground floor | daily life
Verify identity, noise, light, loading and access.

T4 STATION—CIVIC ROOM

station | cycle | wait | trial | quiet
Verify passengers, evacuation, kerb, utilities and takeover.

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

No ecological-corridor claim until ecology, thermal comfort, accessibility and maintenance pass.
