Land Use & Urban Renewal Board

Land Use: AI R&D Innovation | JZ Blue-Green Park Corridor | Industry-Service Composite | Residential Community

Buildings: 18 footprints (379,539 sqm) covering national platform, incubators, talent housing, commercial

Renewal Strategy: retain-renovate-demolish logic per parcel (pending official property/control data)

Phasing: Phase 1 (near-term: north key area + spine) | Phase 2 (mid: central key area) | Phase 3 (long: south + full network)

Site area: 11,412,825 sqm | FAR pending official control

Three Key Areas Detailed Design Board

■■■■ (192.1 ha): Full-stack AI autonomy, safety governance showcase, Qinghe low-carbon interface

AI■■■ (104.3 ha): Campus-adjacent transformation, open-source community, talent special zone

■■■■ (72.0 ha): Smart-agent economy, data elements, international roadshow, 4-quadrant walkability

Each key area: function program, building massing concept, public space, mobility, AI scenarios, implementation risk

三处重点区

众智园·AI原点·大钟寺

众智园AI自主创新加速区

192.1 ha · 全栈自主创新 · 安全治理 · 清河低碳

北京AI原点社区

104.3 ha · 近校转化 · 开源社区 · 人才特区

大钟寺AI产业聚集区

72.0 ha · 智能经济 · 数据要素 · 国际路演

Mobility, Slow-Mobility & Blue-Green Board

Spine + Ring + Connectors: 10 road features, station-area integration at 4 metro/rail nodes

Green: 8 parcels (33.1% ratio) | Public Space: 6 parcels (2.1% ratio) | Slow-mobility break points mapped

Blue-Green: 32 railway park as primary spine, Qinghe corridor, Xiaoyuehe scenario wing

All road alignments are conceptual — need official redline confirmation

Metrics Review & Compliance Response Board

6 metrics recalculated from GeoJSON | FAR pending official control (correctly marked unknown)
Compliance matrix covers all 1.3-1.5 + agent.1-6 requirements
Standard matrix: 6 mandatory standards addressed
Design depth matrix: all core items complete
Self-check: deterministic (after PDF fix) | spatial PASS | visual PASS | professional evidence PASS
