PROVISIONAL | NOT STATUTORY

01 ZHONGZHIYUAN | SOLVE + VERIFY

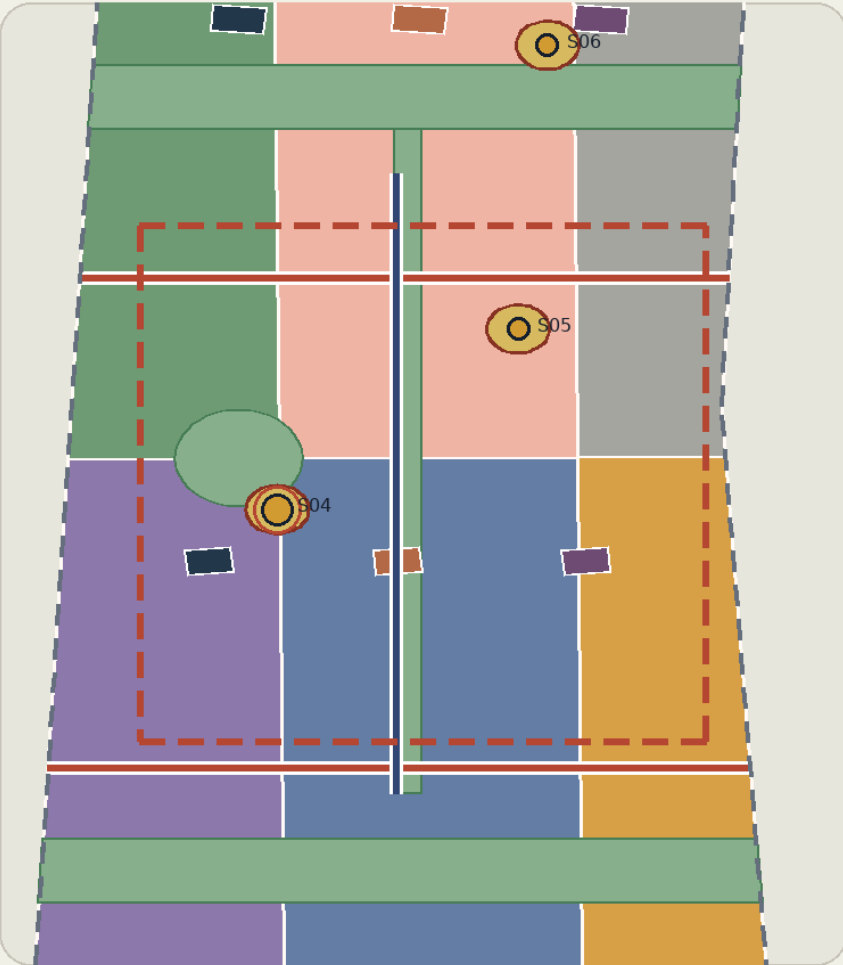

02 AI ORIGIN | POSE + TEAM

03 DAZHONGSI | REVIEW + ADOPT

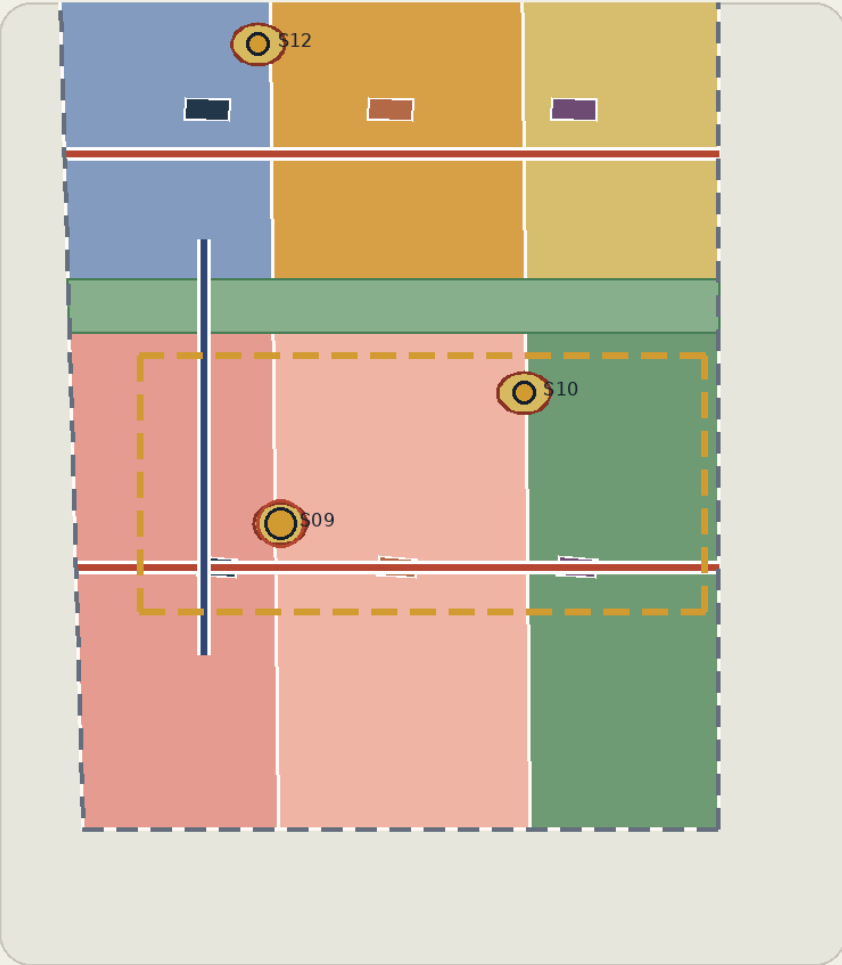

1.93 km²

Highest technical depth and lowest public exposure: open model exams, shadow twins, embodied-AI safety and governance.

1.04 km²

Highest knowledge exchange and talent density: sourced research assistants, open residencies and cross-institution teams.

0.72 km²

Strongest public contact and market feedback: product passports, civic evidence review and SME studios.

SITE-001 and all three key areas are provisional_rough. Values support package consistency only and must be replaced when official data arrives.
