

CENTENNIAL JING-ZHANG AI INNOVATION BELT • OPEN-SOURCE URBAN DESIGN

JING-ZHANG HOMEBASE

A CITY WHERE PEOPLE CAN STAY

Research, housing, care, learning, and maintenance become shared urban infrastructure.

1 spine • 3 courts • 2 wings

6 everyday essentials

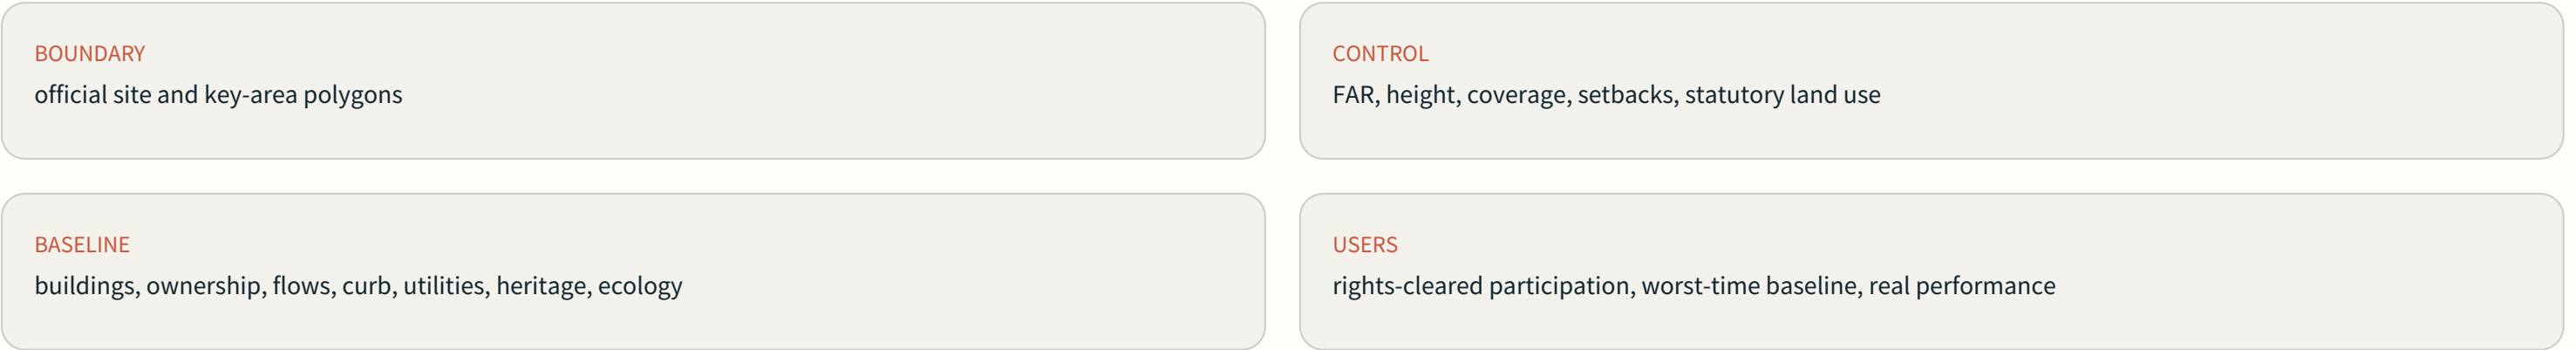

12 scenarios • 3 TVS

DEFINE WHAT IS KNOWN BEFORE DESIGNING

The announcement defines approximate areas and tasks; official polygons, controls, existing conditions, ownership, and engineering data remain pending.

The repository provisional site is for intake, topology, and conceptual relationships only. The background audit in Issue #846 reports no overlap with the OSM-mapped heritage park and a nearest distance of about 412.5 m; OSM does not replace an official polygon either. When formal data arrives, the full chain—GeoJSON, metrics, figures, HTML, PDFs, and matrices—must be recomputed.

ONE EVERYDAY-BASELINE SPINE, THREE HOMEBASE COURTS, TWO SUPPORT WINGS

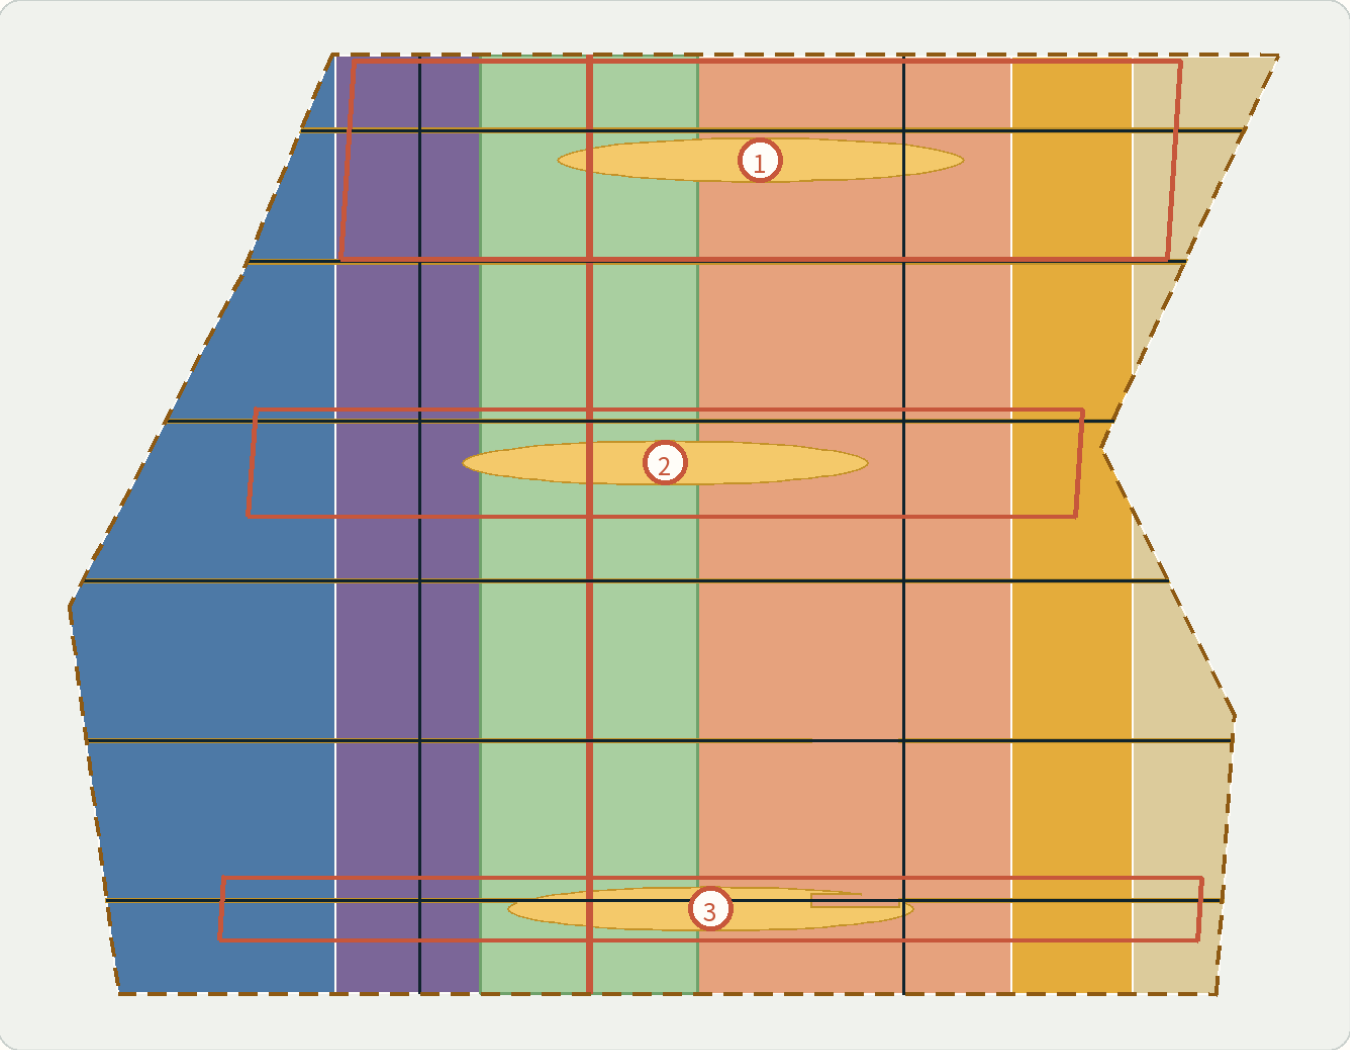

Not another technology corridor: everyday services that make staying possible are woven into innovation space.

 JING-ZHANG HOMEBASE

PROVISIONAL BOUNDARY • CONCEPTUAL RECOMMENDATION • RECALCULATE WHEN OFFICIAL POLYGONS ARRIVE

JING-ZHANG HOMEBASE: AN AI DISTRICT WHERE PEOPLE CAN STAY

One Everyday Baseline Spine • Three Homebase Courts • Two support wings • Six essentials • Twelve human-overridable scenarios

DESIGN JUDGMENT

A world-class AI district begins not with project counts, but with whether researchers, families, existing residents, and service workers can stay.

SIX EVERYDAY ESSENTIALS

WALK

SIT

DRINK

TOILET

ASK

REPAIR

01

MAKER HOMEBASE

Zhongzhiyuan: stay • make • test

02

LEARNING HOMEBASE

AI Origin: live • learn • translate

03

ARRIVAL HOMEBASE

Dazhongs: arrive • settle • adopt

MIXED, WITHOUT FALSE PRECISION

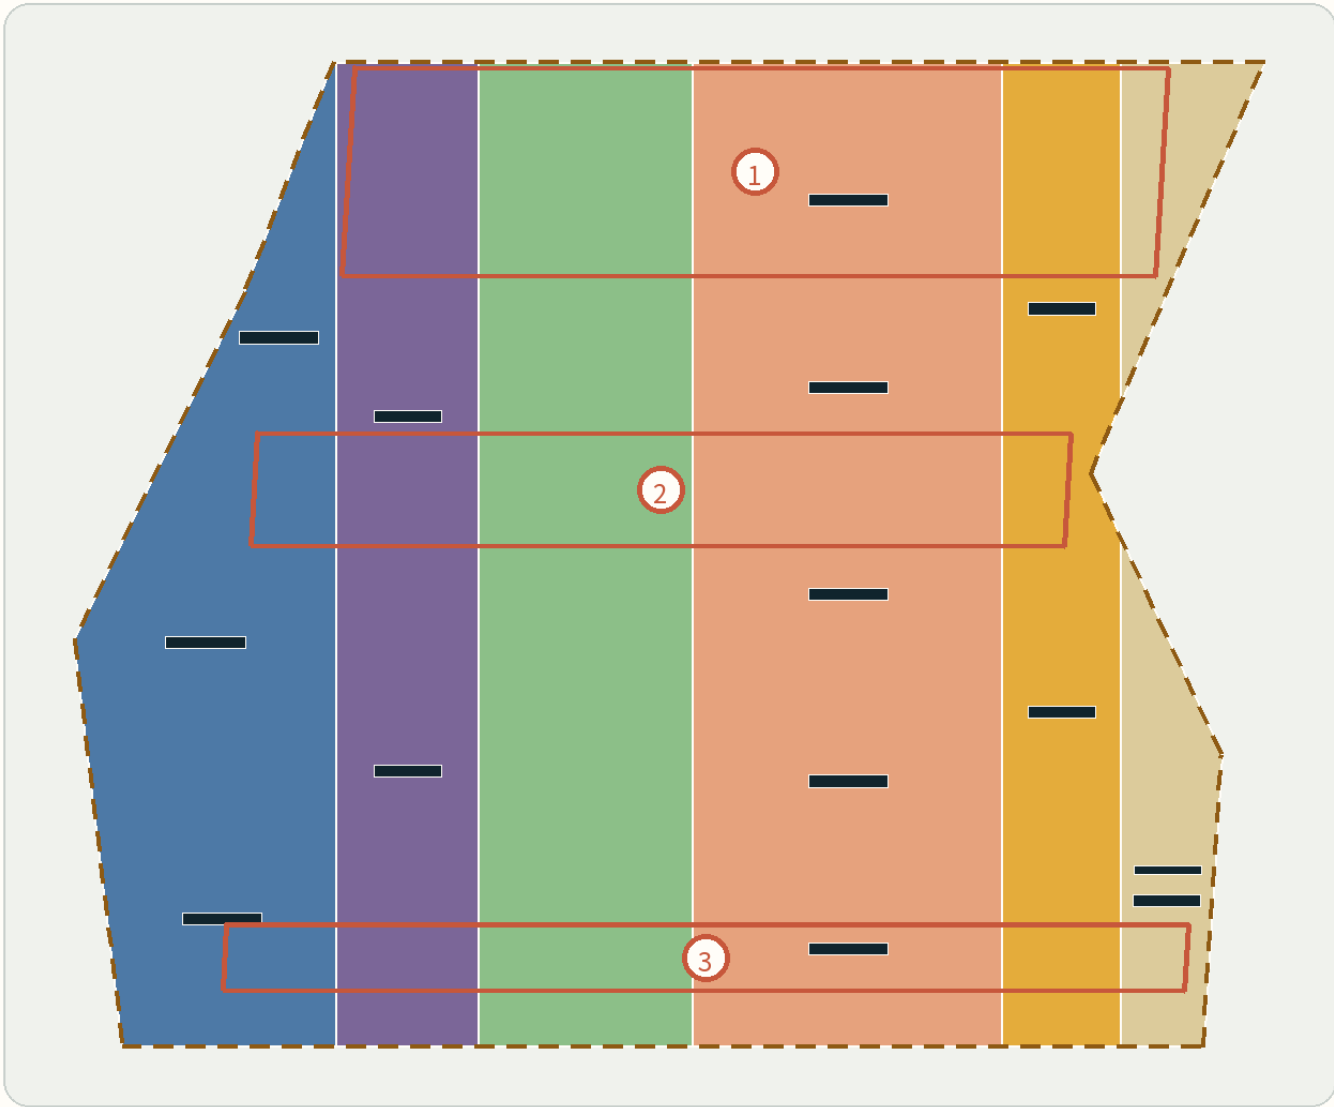

Six uses cover the provisional polygon. Fifteen building prototypes express capacity and frontage only; DRR and intensity await formal data.

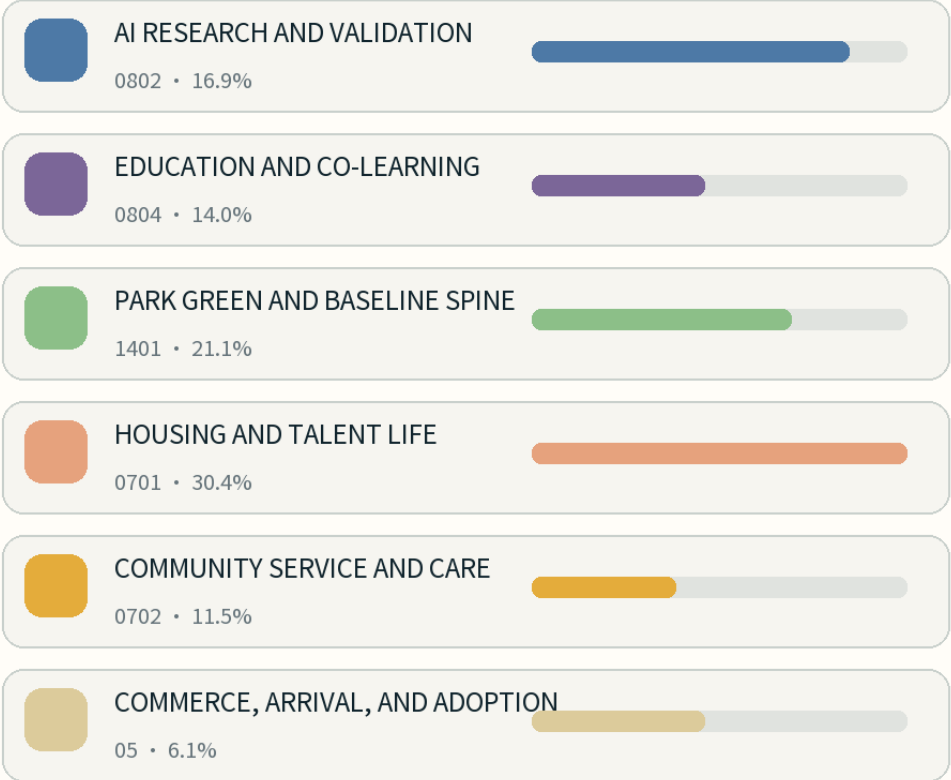

PROVISIONAL BOUNDARY • CONCEPTUAL RECOMMENDATION • RECALCULATE WHEN OFFICIAL POLYGONS ARRIVE

MIXED LAND USE IS A CONDITION FOR STAYING, NOT A RATIO GAME

Six conceptual uses are cut from one provisional boundary: complete and non-overlapping, but not approved planning controls.

SIX SPATIAL USES

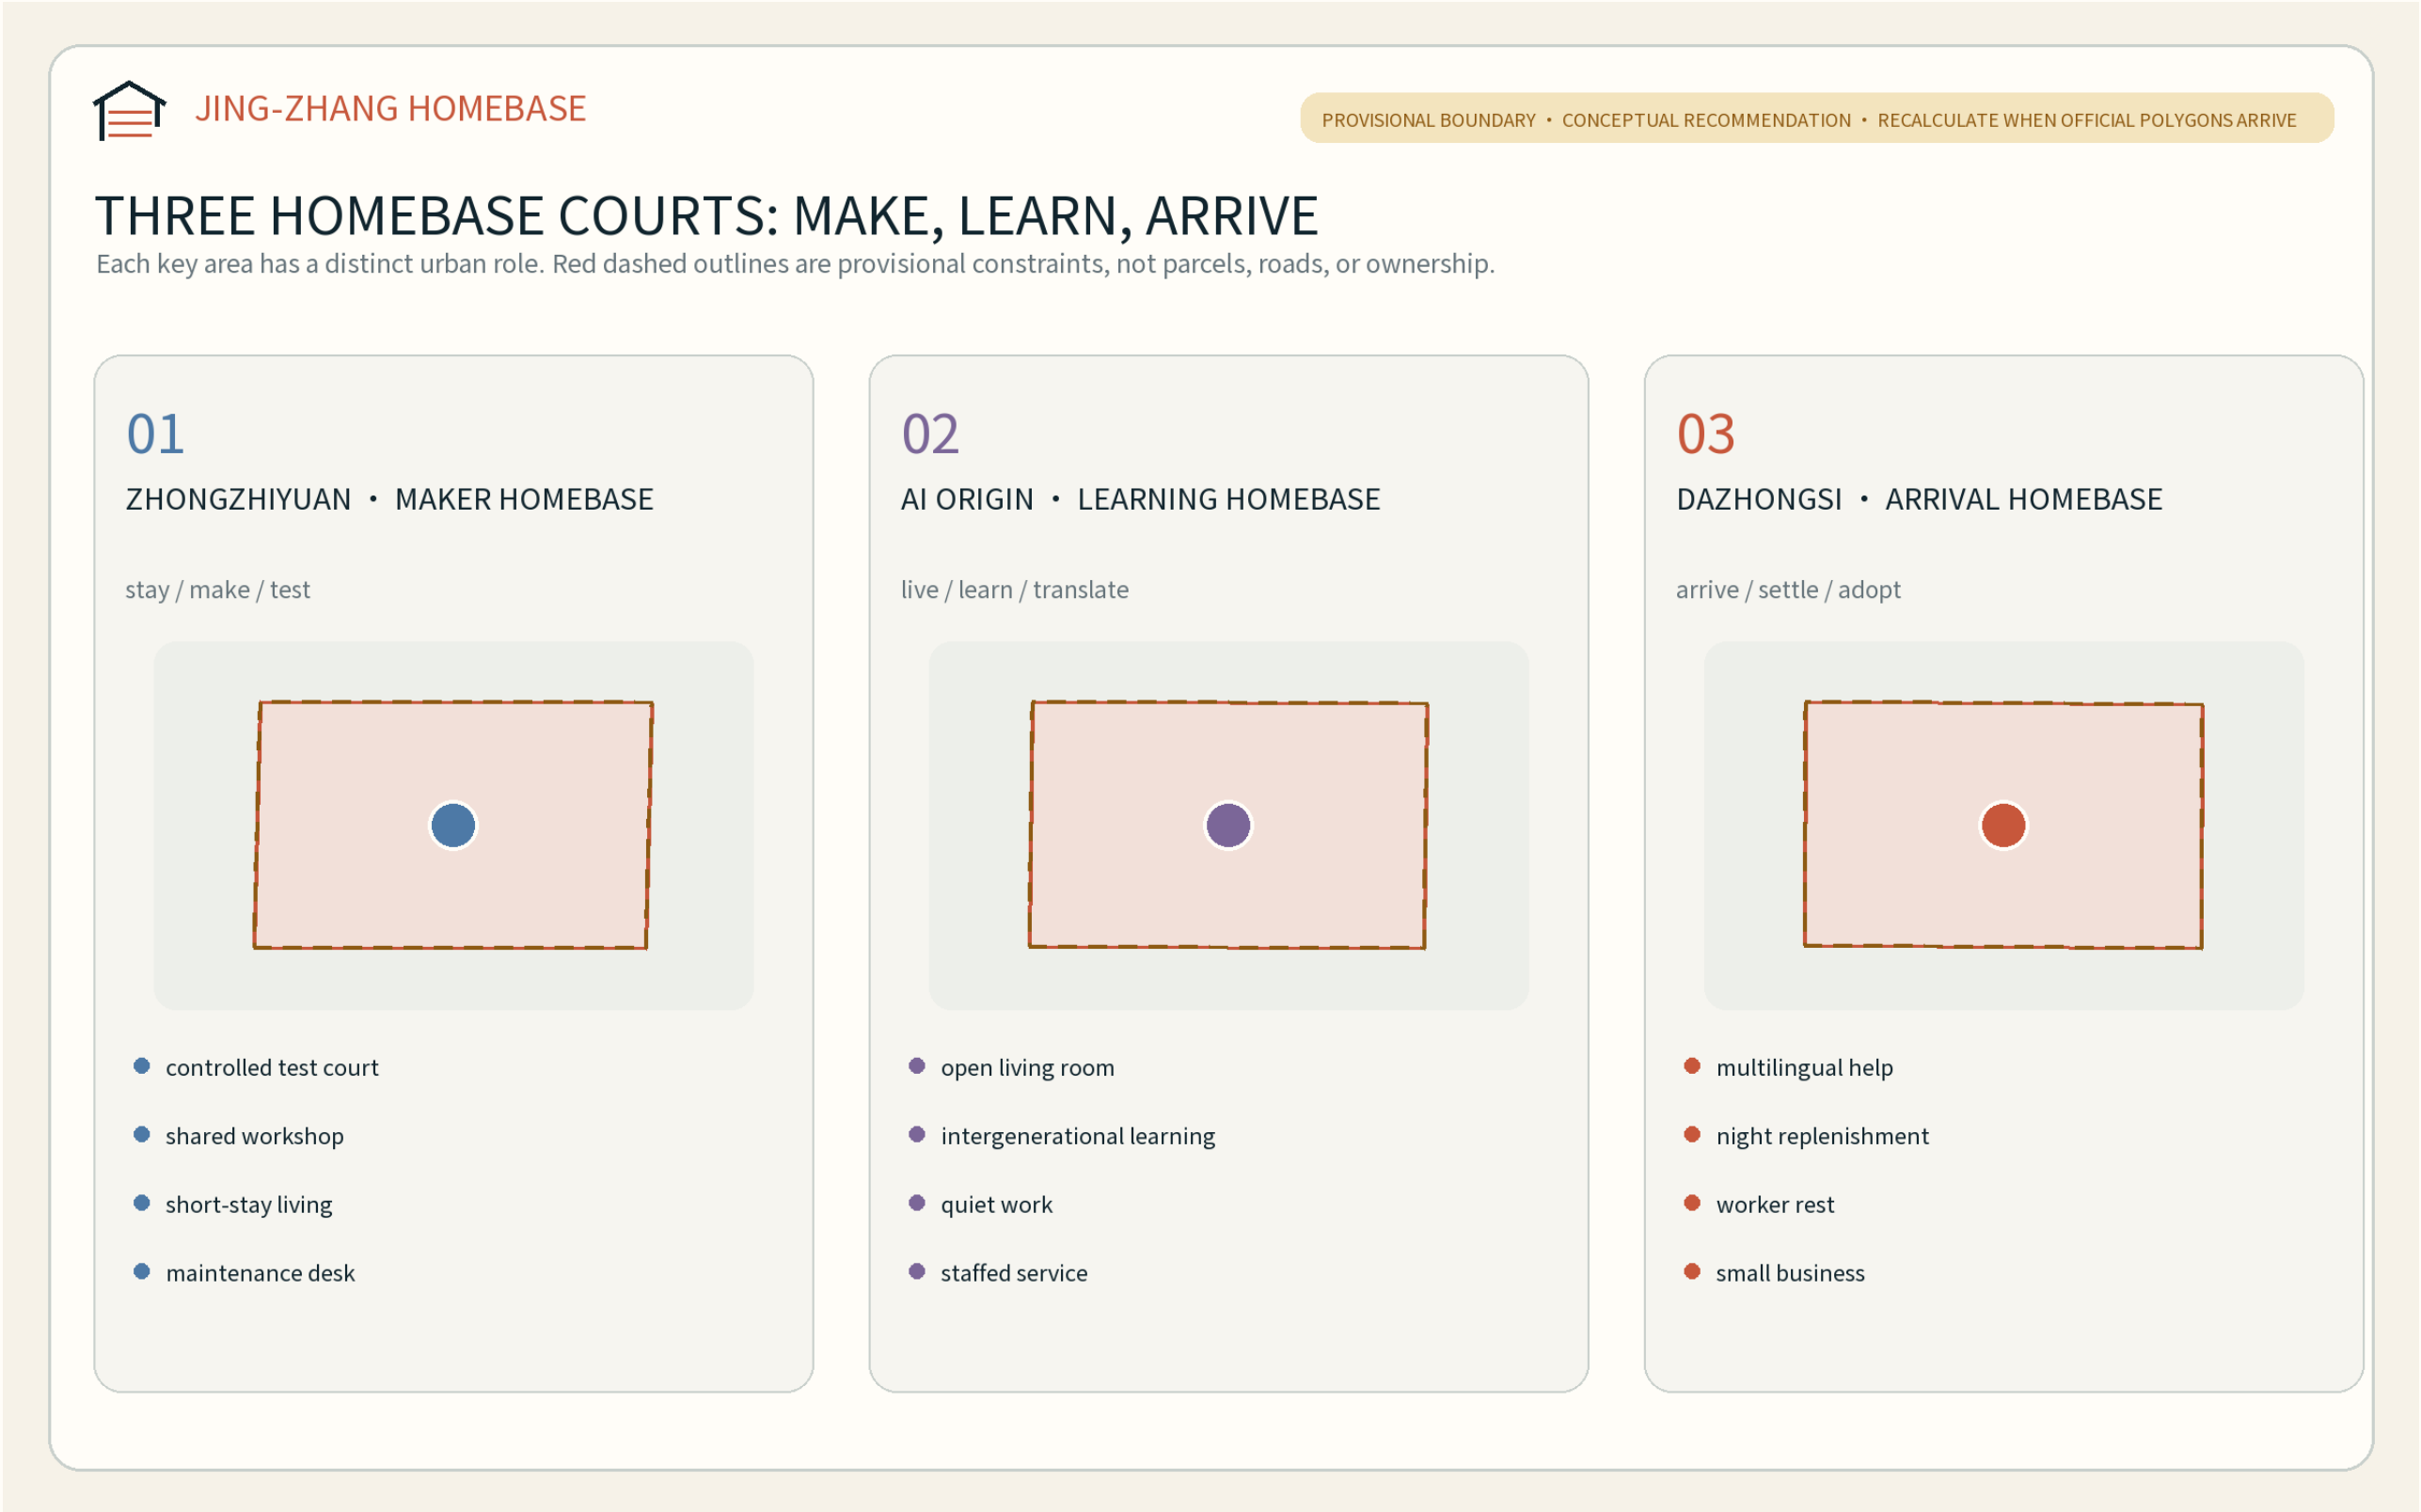

HOMEBASE STACK

mixed space → everyday baseline → controlled testing → human service → long-term care

MAKE, LEARN, ARRIVE: THREE WAYS TO STAY

Each key area uses a low-volume, reversible, service-first Homebase Court for different people and times.

START WITH THE WORST TIME, NOT THE AVERAGE EXPERIENCE

Personas are needs hypotheses, not invented interviews. Real outcomes await rights-cleared participation, field measurement, and public verification.

8 岁儿童 / CHILD

caregiver-visible, no-phone completion, rain-safe continuity

72 岁长者 / OLDER RESIDENT

staffed counter, seating, legible text, human explanation

夜班维护者 / NIGHT MAINTAINER

lighting, toilet, repair, reachable spares, safe handover

携幼研究者 / CAREGIVING RESEARCHER

affordable home, childcare, short commute, co-learning

轮椅访客 / WHEELCHAIR USER

continuous route, verified gradient, accessible toilet, human help

国际创业者 / INTERNATIONAL FOUNDER

multilingual arrival, plain contracts, civic entry, local support

走 / WALK

坐 / SIT

饮 / DRINK

厕 / TOILET

问 / ASK

修 / REPAIR

AI MOVES BACKSTAGE; HUMAN TAKEOVER STAYS ON SITE

The first three are industry testing-and-validation scenarios; nine serve everyday life. Every card binds minimum data, a non-digital route, a stop gate, and an accountable role.

HB-01

Accessible domestic-robot sandbox

HUMAN • OFFLINE • STOP

HB-02

Edge energy and comfort control

HUMAN • OFFLINE • STOP

HB-03

Human-AI handover and accessibility lab

HUMAN • OFFLINE • STOP

HB-04

Multilingual arrival assistant

HUMAN • OFFLINE • STOP

HB-05

Night guidance without facial recognition

HUMAN • OFFLINE • STOP

HB-06

Child-friendly co-learning route

HUMAN • OFFLINE • STOP

HB-07

Dual-channel service for older residents

HUMAN • OFFLINE • STOP

HB-08

Tactile, audio, and low-vision navigation

HUMAN • OFFLINE • STOP

HB-09

Public-facility repair dispatch

HUMAN • OFFLINE • STOP

HB-10

Heat/rain everyday-baseline guidance

HUMAN • OFFLINE • STOP

HB-11

Fair booking for shared spaces

HUMAN • OFFLINE • STOP

HB-12

Plain-language home/work contract assistant

HUMAN • OFFLINE • STOP

EVERYDAY CONTINUITY BEFORE AUTOMATION

Walking, cycling, seating, shade, drinking water, toilets, help, and repair form the base layer. The AI layer can stop without collapsing basic service.

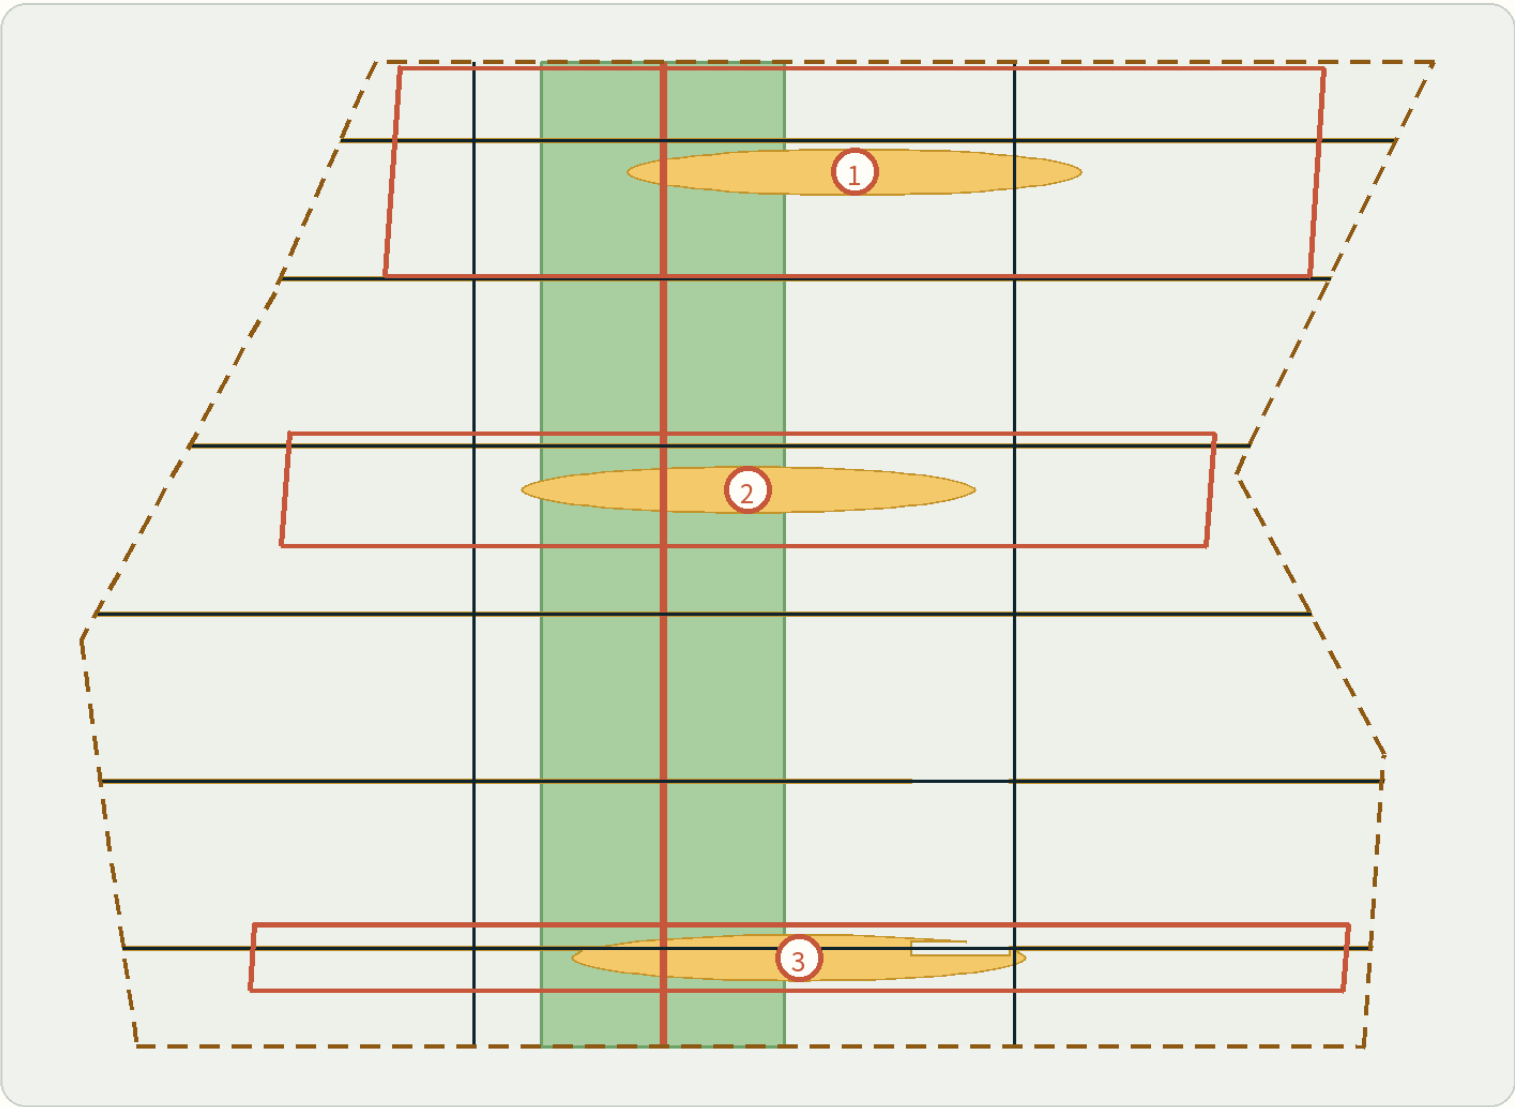

JING-ZHANG HOMEBASE

PROVISIONAL BOUNDARY • CONCEPTUAL RECOMMENDATION • RECALCULATE WHEN OFFICIAL POLYGONS ARRIVE

EVERYDAY BASELINE SPINE: TECHNOLOGY BACKSTAGE, SERVICES ALWAYS AVAILABLE

One spine, two support lines, six Home Links; walk, sit, drink, toilet, ask, and repair are checked in normal, night, heat/rain, and offline states.

FOUR OPERATING STATES

- NORMAL
- NIGHT
- HEAT / RAIN
- OFFLINE

MINIMUM SERVICE PROMISE

- | | |
|-------------------------|---------------------------|
| WALK continuous access | SIT places to rest |
| DRINK water available | TOILET easy to find |
| ASK staff can take over | REPAIR traceable response |

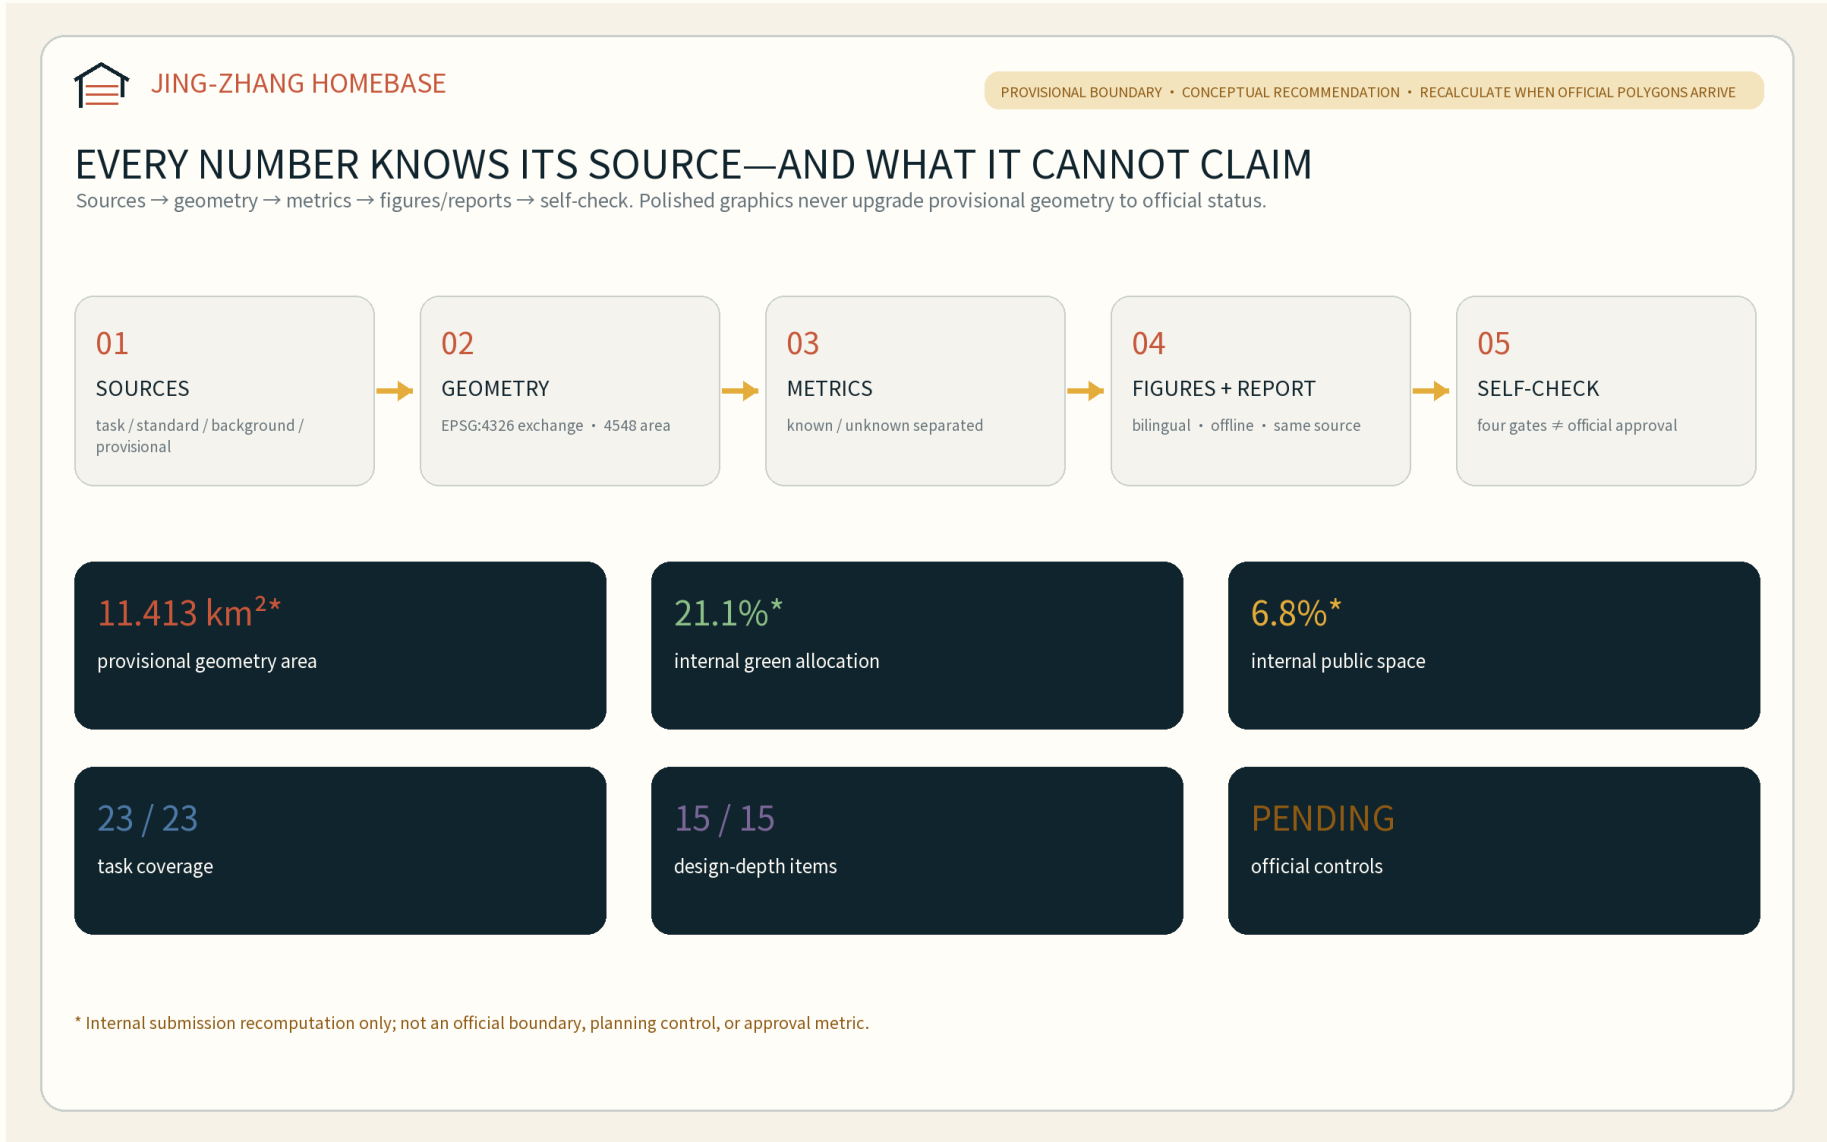

EVIDENCE VERIFICATION AND EVERYDAY BASELINES ARE PHASE ONE, NOT AN APPENDIX

Nine actions put responsibility, evidence dependencies, and stop conditions before form. Each phase can be delivered and reviewed on its own.

P01 Boundary + field-baseline verification PHASE 01	P02 Six-essentials audit PHASE 01	P03 Kilometre-Zero Maintenance Desk PHASE 01
P04 Open Intergenerational Living Room PHASE 02	P05 World Arrival Hall PHASE 02	P06 Six Home Links PHASE 02
P07 Three industry validation pilots PHASE 02	P08 HOMEBASE annual program PHASE 03	P09 Data + copyright handover PHASE 03

RECOMPUTE KNOWN NUMBERS; DO NOT INVENT UNKNOWN ONES

Spatial metrics share one EPSG:4548 geometry chain. Statutory controls and real-world outcomes remain unknown until evidence and measurement exist.

GeoJSON → metrics → matrices → manifest/self-check → proposal

Bilingual proposal, figures, HTML, A3/A0 share one source

No remote maps, scripts, external photos, or commercial marks

Noto Sans SC • SIL Open Font License 1.1

Scoring, display, selection, implementation, and endorsement are distinct states

NEXT HUMAN GATE: verify authorship, licensing, and formal-data limits; only then push the fork and open a PR.
