

Overall Concept & Scope

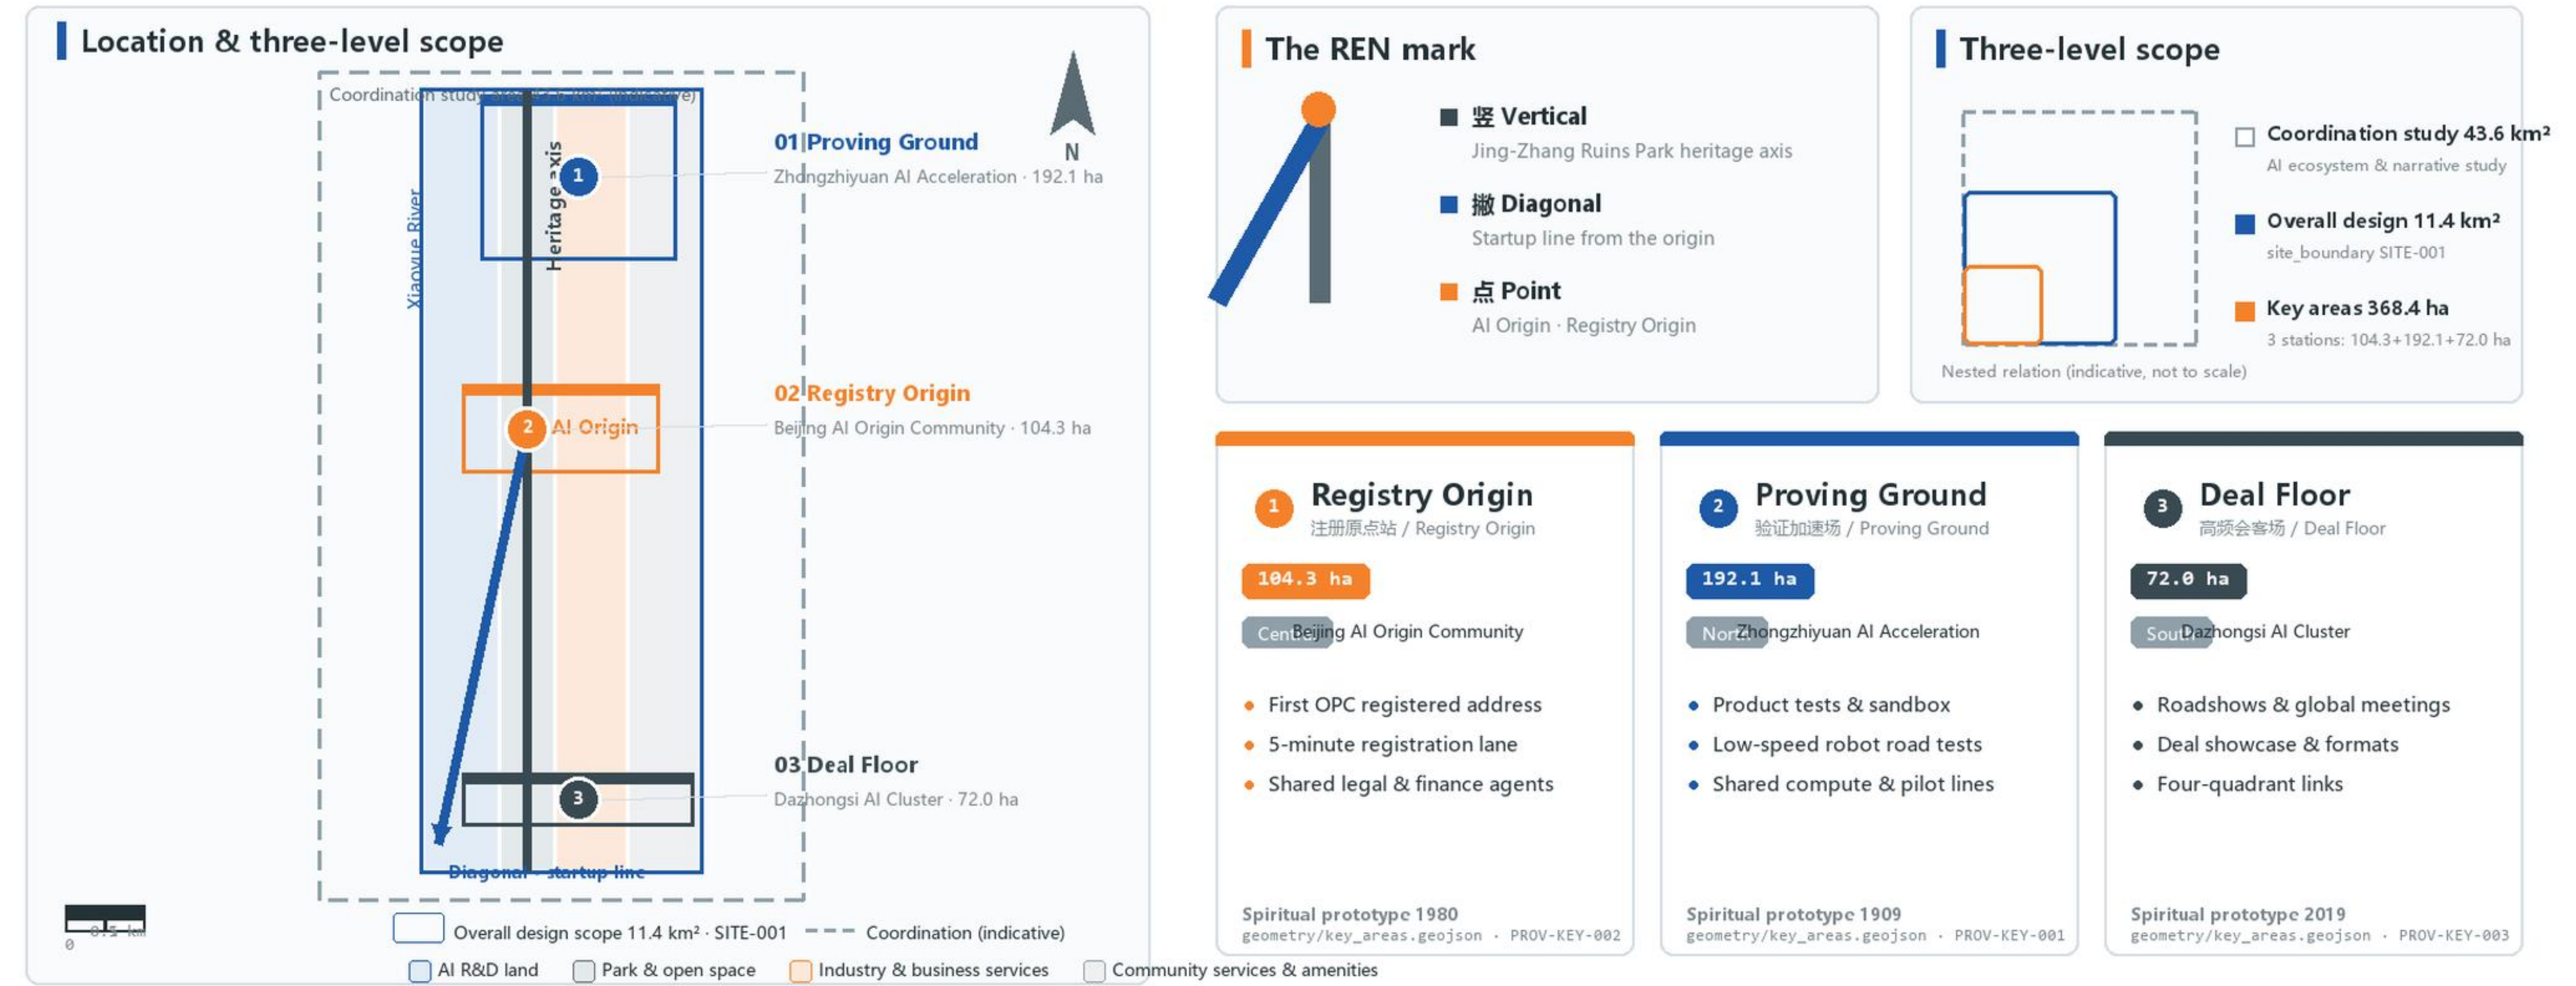

Jing-Zhang belt · three-level scope (43.6 km² / 11.4 km² / 368.4 ha) · one belt, three stations, two wings

FIG 01

Overall Scope & the REN-Mark Structure

Jing-Zhang belt location · three-level scope (43.6 km² / 11.4 km² / 368.4 ha) · vertical & diagonal strokes meeting at the AI Origin

Schematic diagram, not an engineering drawing · provisional boundary (intake display)

geometry/*_geojson · metrics.json | FIG 01

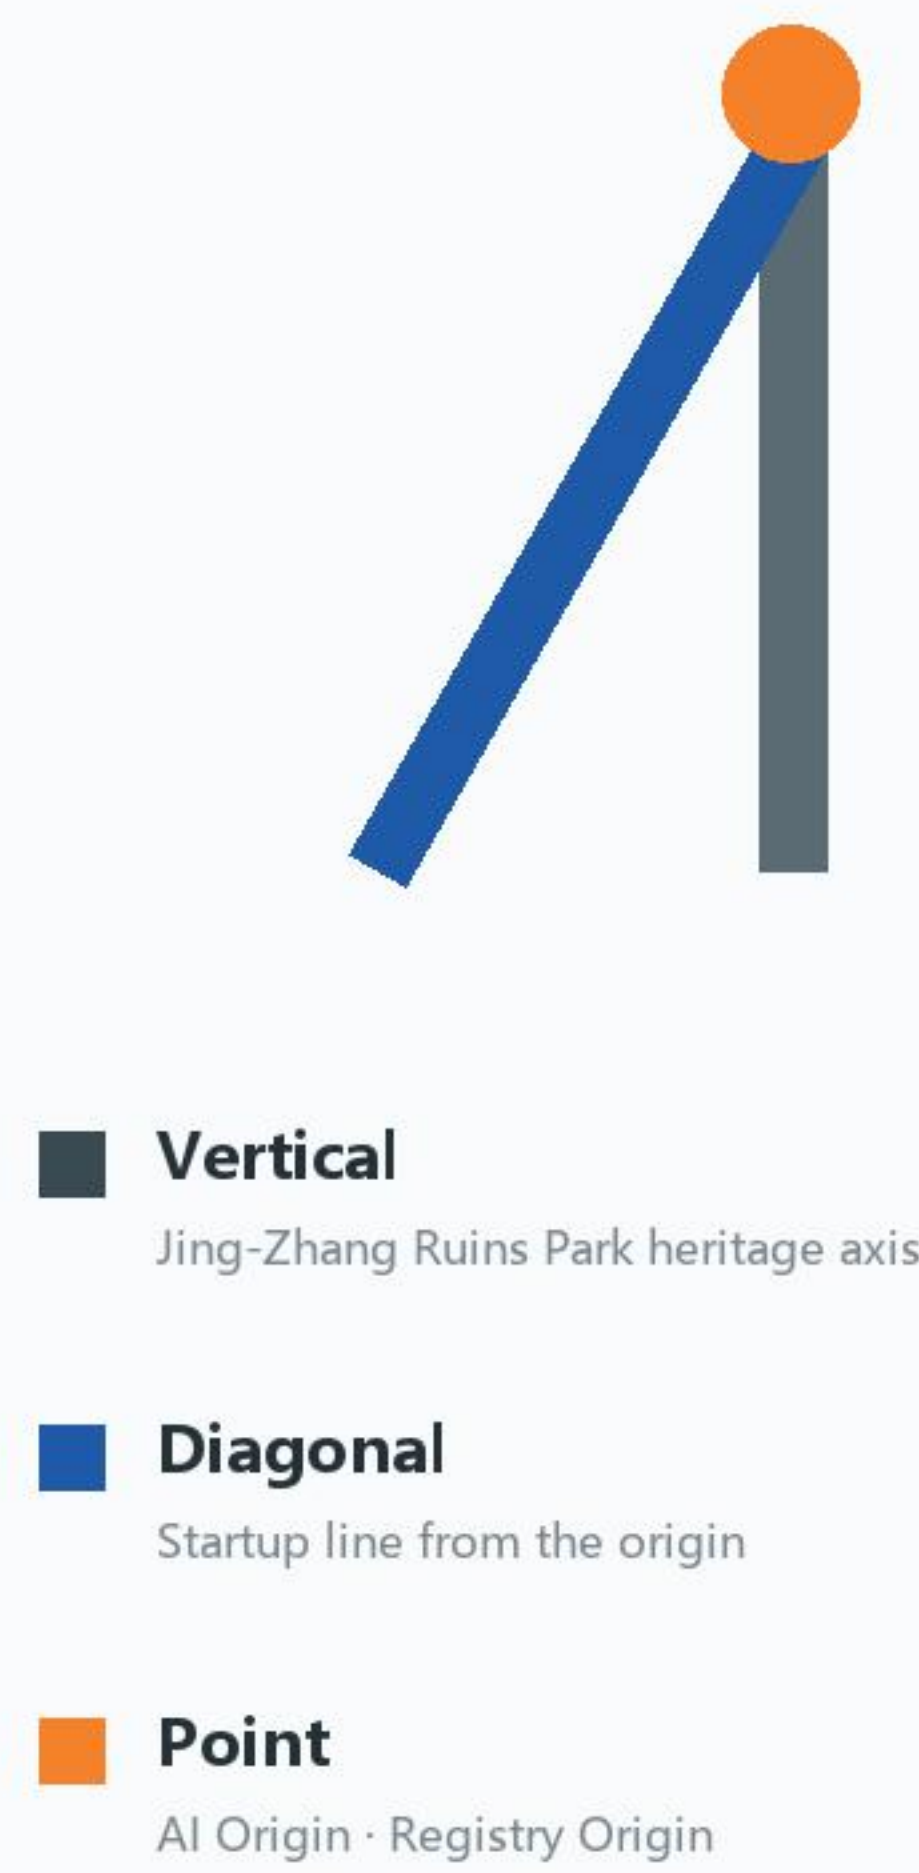

▲ Overall scope & REN-mark structure · assets/figures/site-overview.en.png · schematic, not an engineering drawing

Three-level scope

Nested relation (indicative) · compliance_matrix.json maps announcement clauses 1.3 / 1.4 / 1.5

The REN mark

The REN of the switchback is the person of the OPC — brand colours: rail grey / Zhongguancun blue

1 Proving Ground

Zhongzhiyuan AI Acceleration · 192.1 ha

- Standards sandbox & product tests
- Low-speed robot test loop
- Shared compute & pilot lines

prototype 1909

2 Registry Origin

Beijing AI Origin Community · 104.3 ha

- First address · 5-minute lane
- Shared legal & finance agents
- Campus-adjacent first office

prototype 1980

3 Deal Floor

Dazhongsi AI Cluster · 72.0 ha

- Roadshows & global meetings
- Deal showcase & first stores
- Four-quadrant walkability

prototype 2019

The centennial Jing-Zhang line wrote 'individual wisdom achieving great things' three times — 1909, 1980, and today's AI super-individuals.

We translate it into a railway for one-person companies: the full track of registration, proving, deal-making and daily life —

one belt, three stations, two wings, one blue-green loop.

一人公司的铁路——注册、验证、会客、生活的全套轨道。

Three Stations & Scenario System

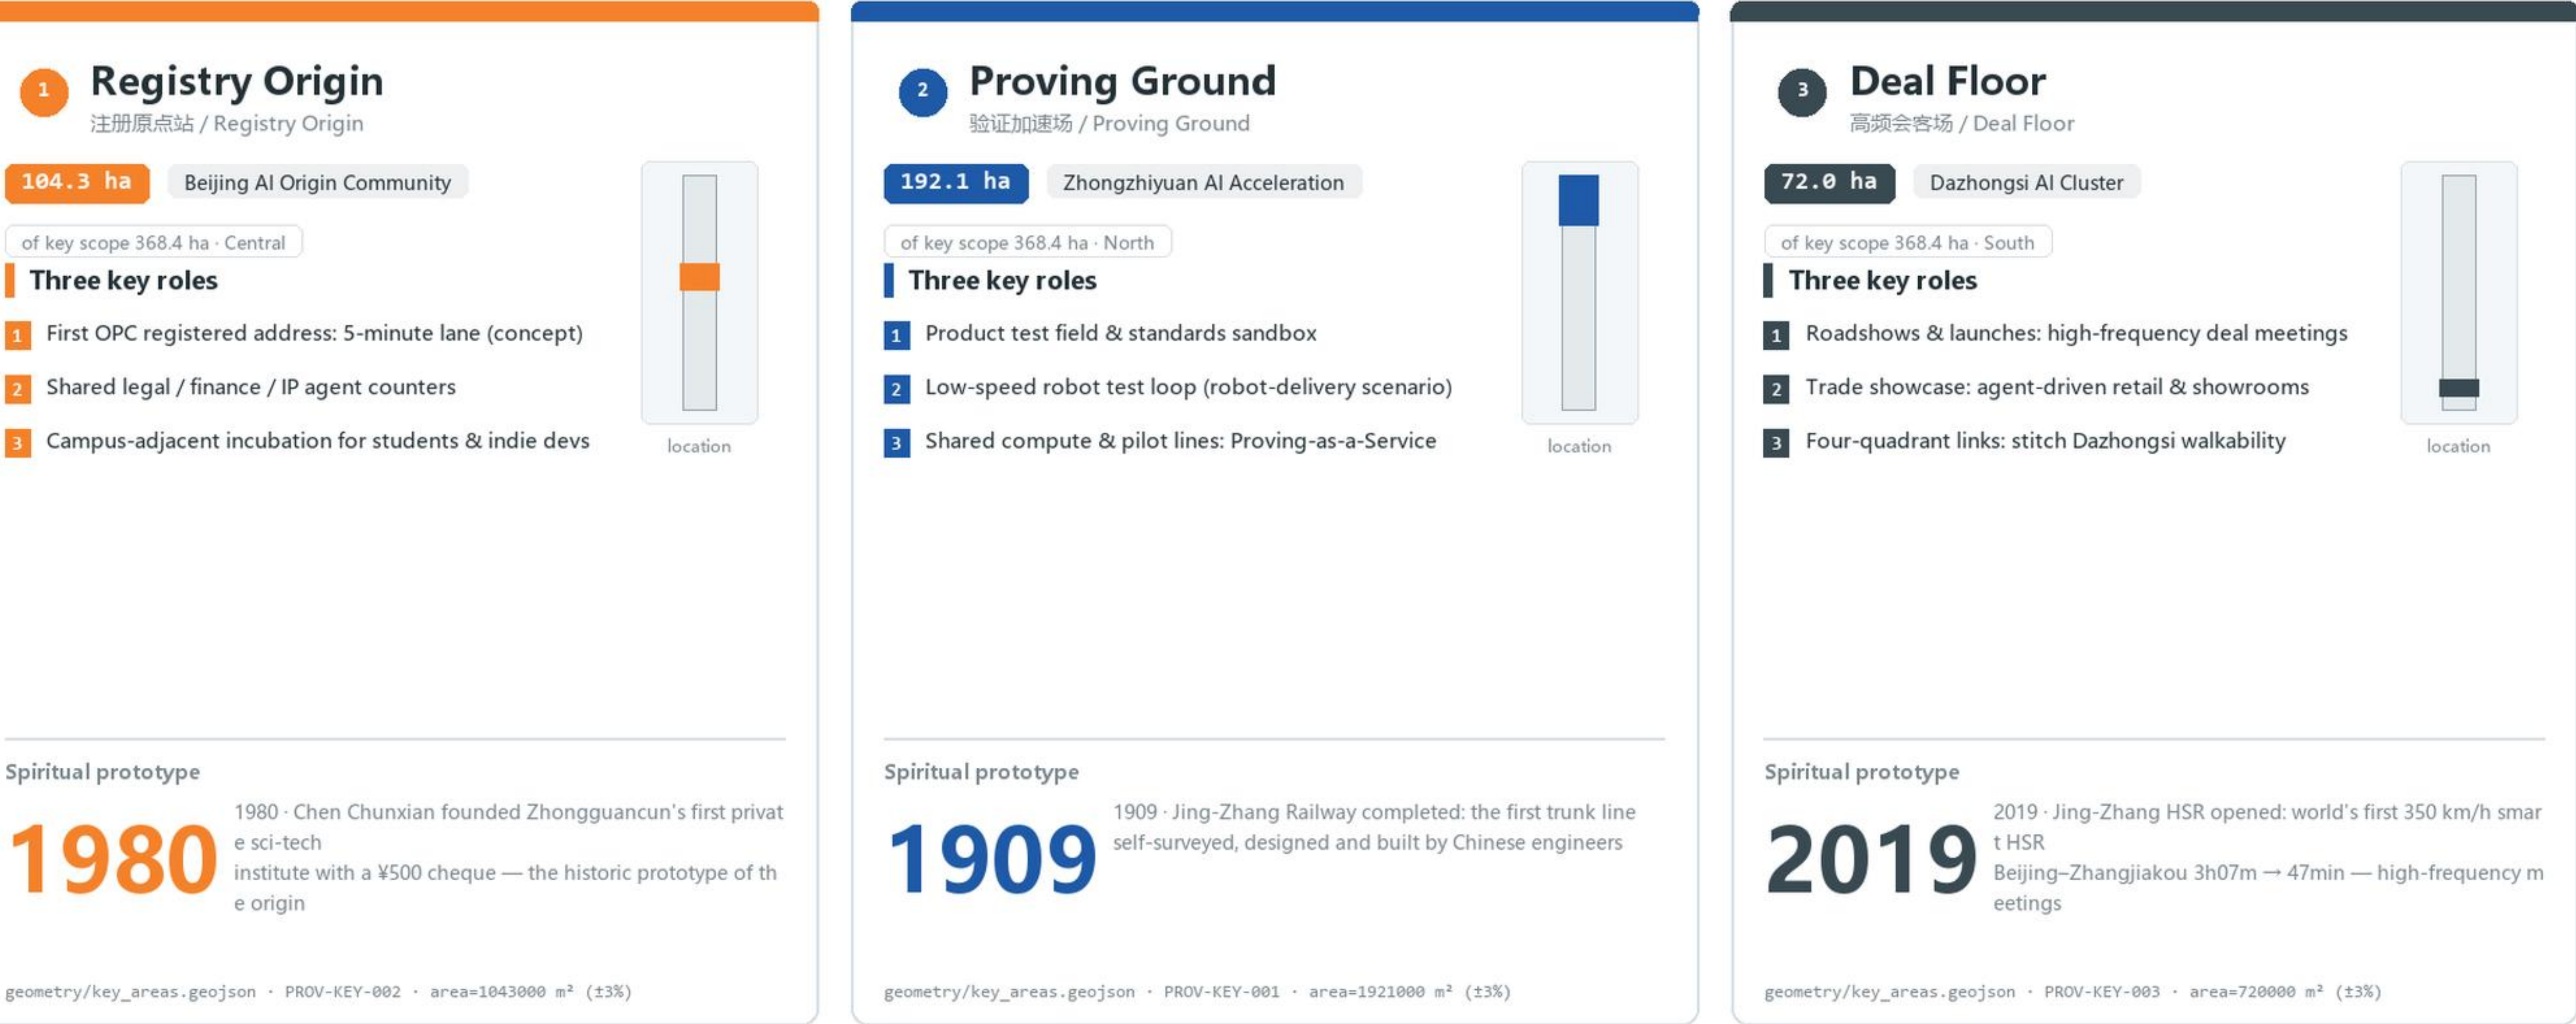

Key areas 368.4 ha · 12 scenario cards as a founder's day · five OPC space types

FIG 03

Key Areas — the Three Stations

Key scope 368.4 ha = Registry Origin 104.3 ha + Proving Ground 192.1 ha + Deal Floor 72.0 ha · prototypes 1980 / 1909 / 2019

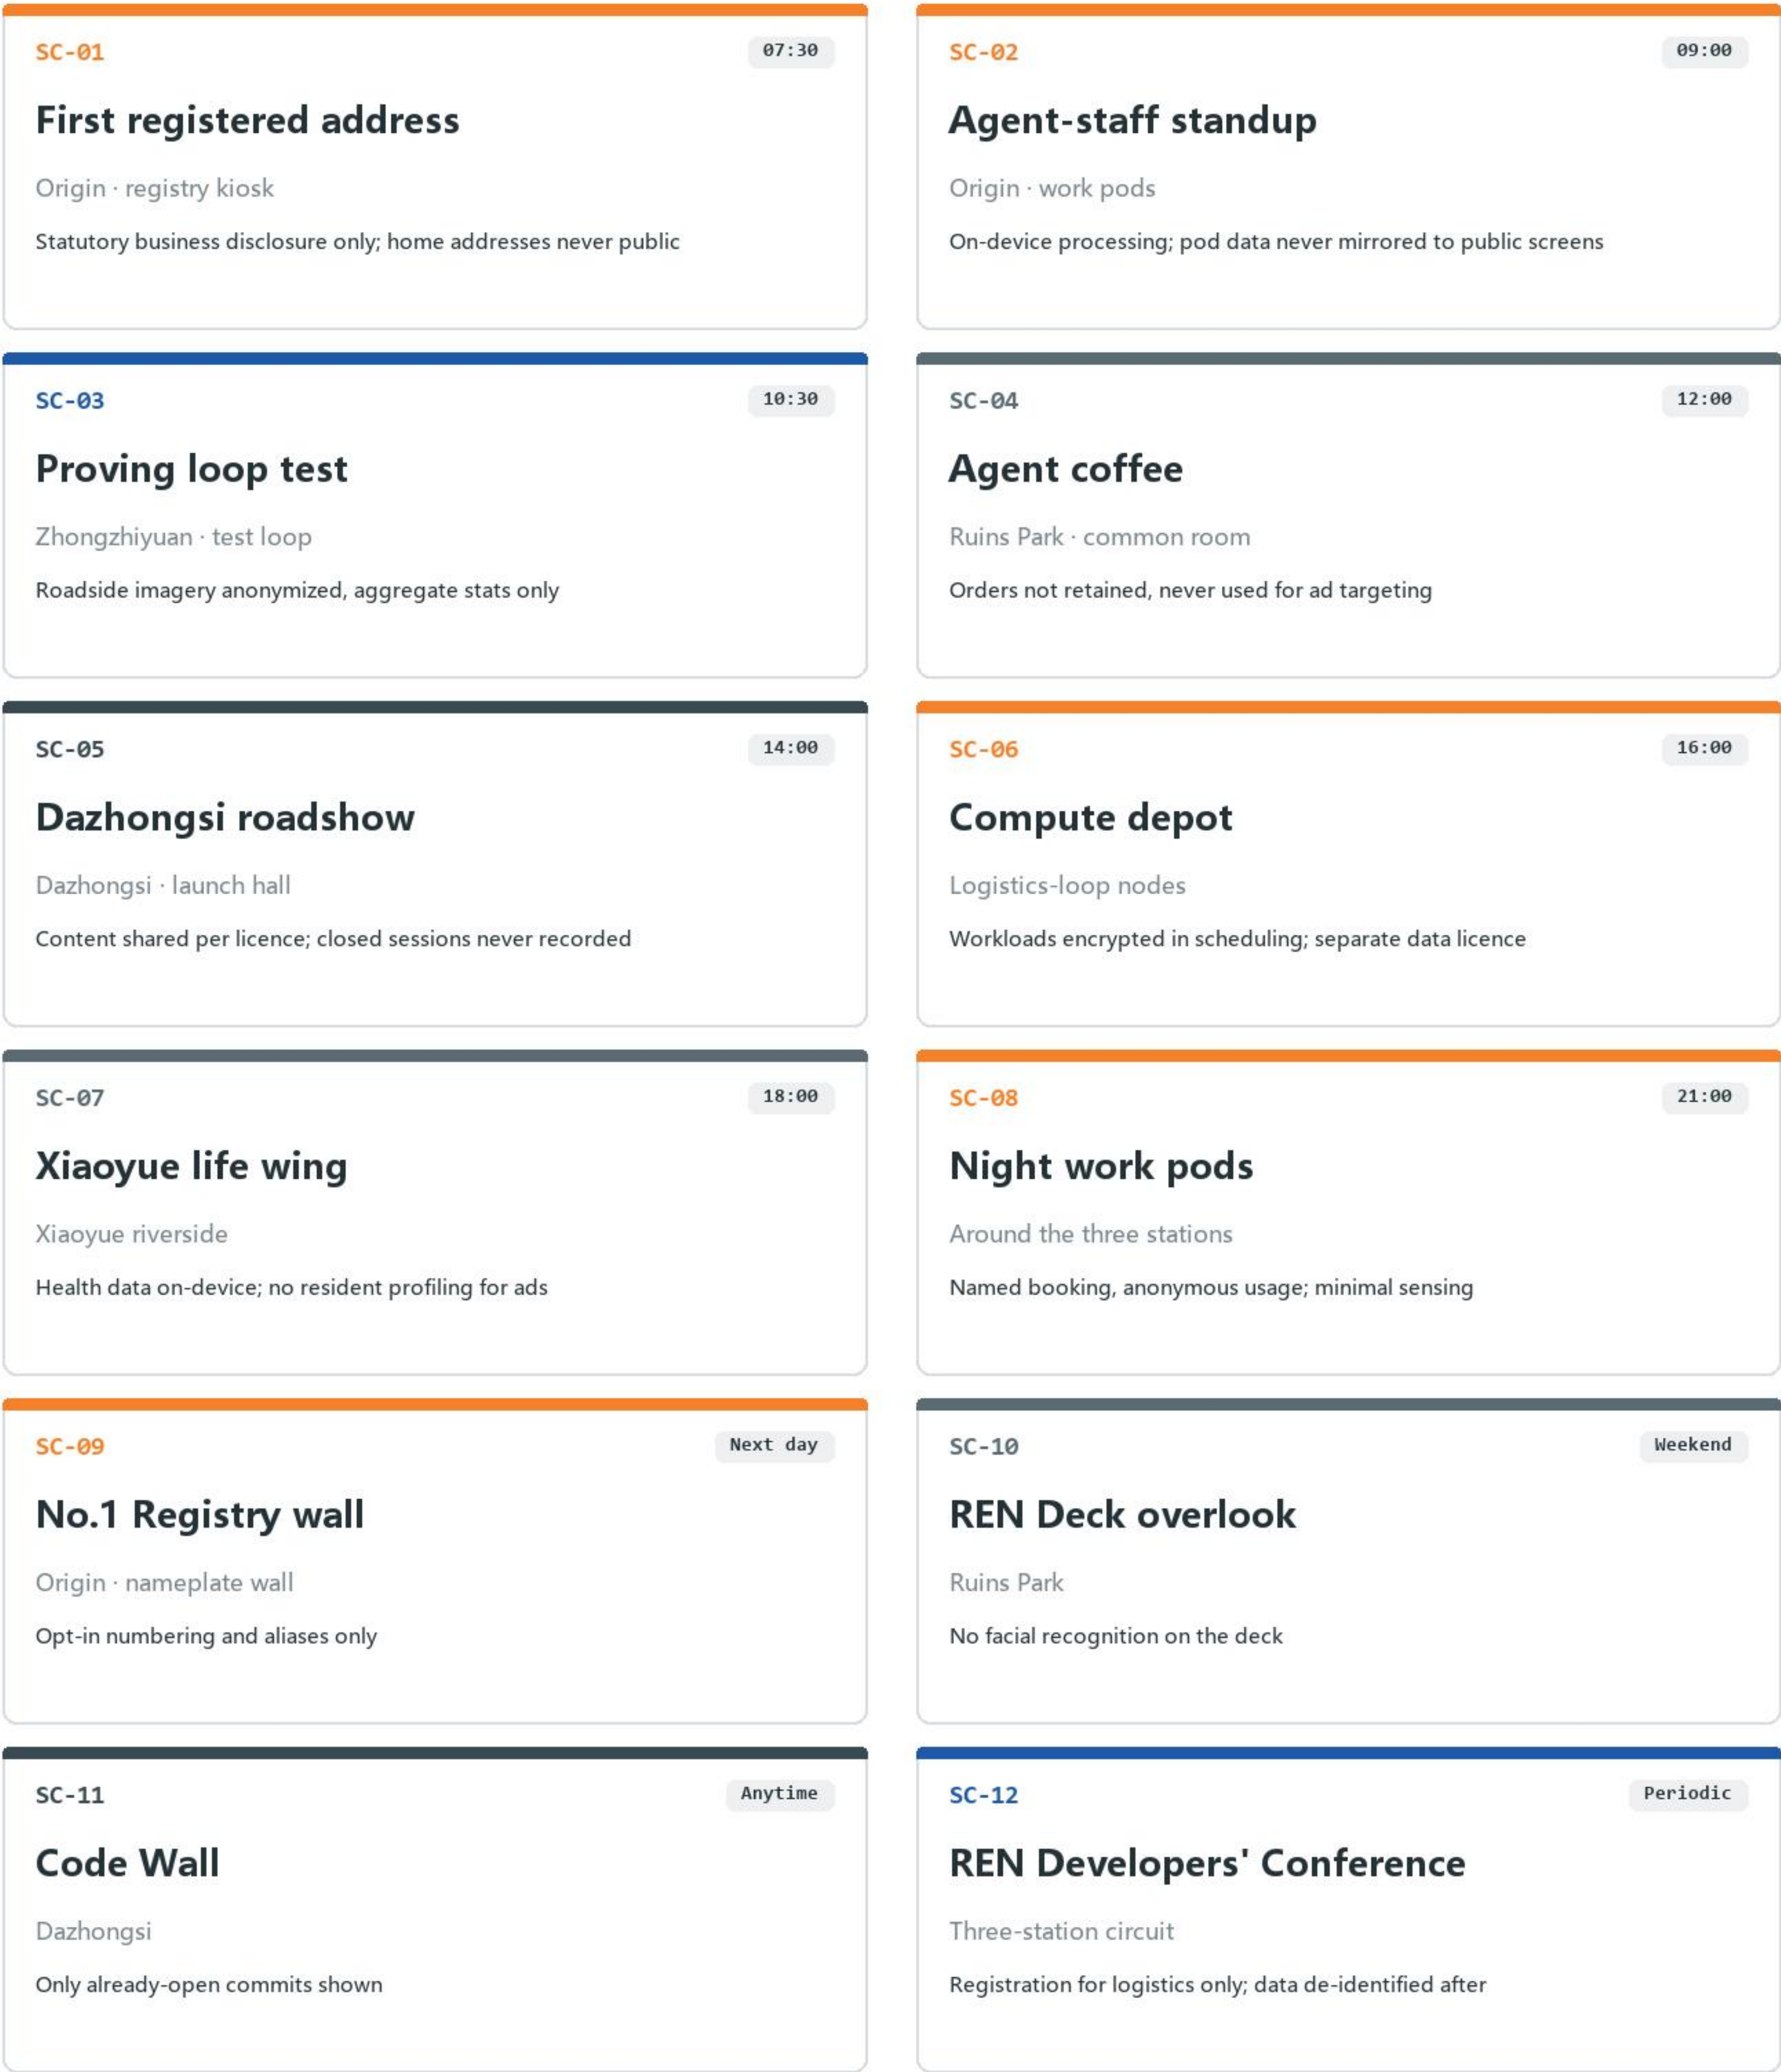

Schematic diagram, not an engineering drawing · provisional boundary (intake display)

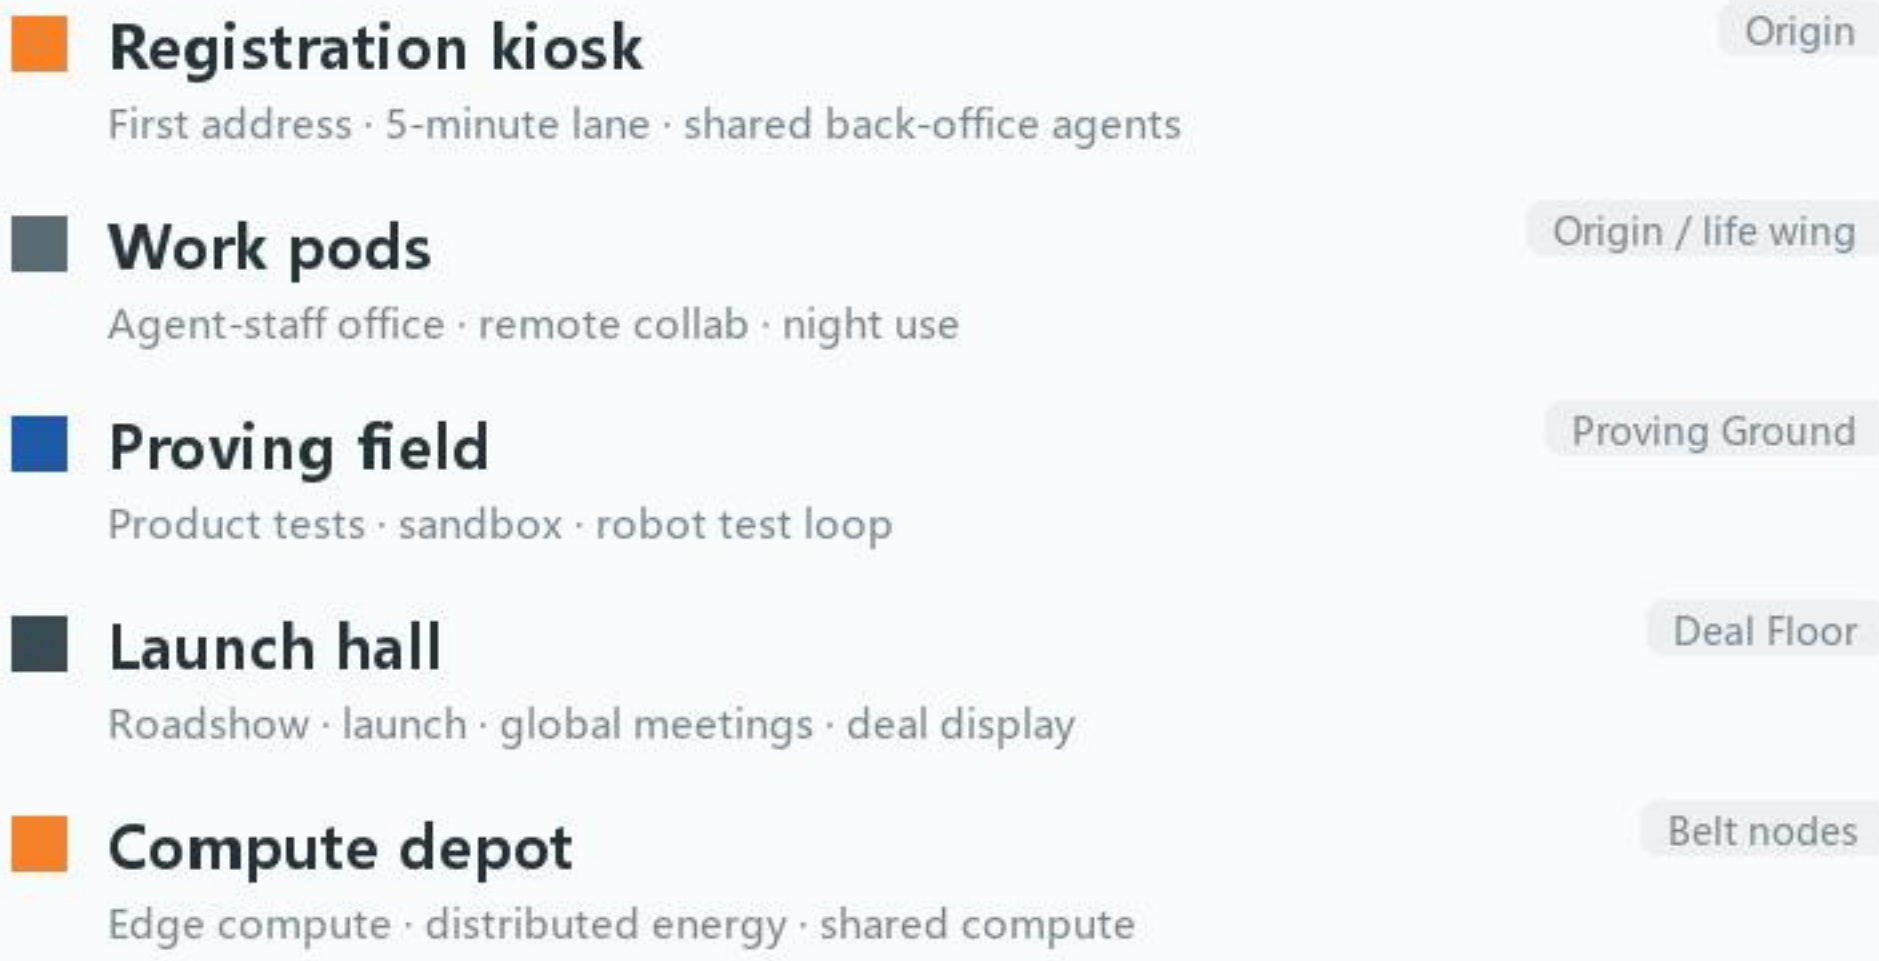

geometry/*_geojson · metrics.json | FIG 03

▲ The three stations · assets/figures/key-areas.en.png · geometry/key_areas.geojson PROV-KEY-001...003 (provisional)

12 scenario cards • a founder's day

Five OPC space types

Two wings

Industrial test scenarios ×3

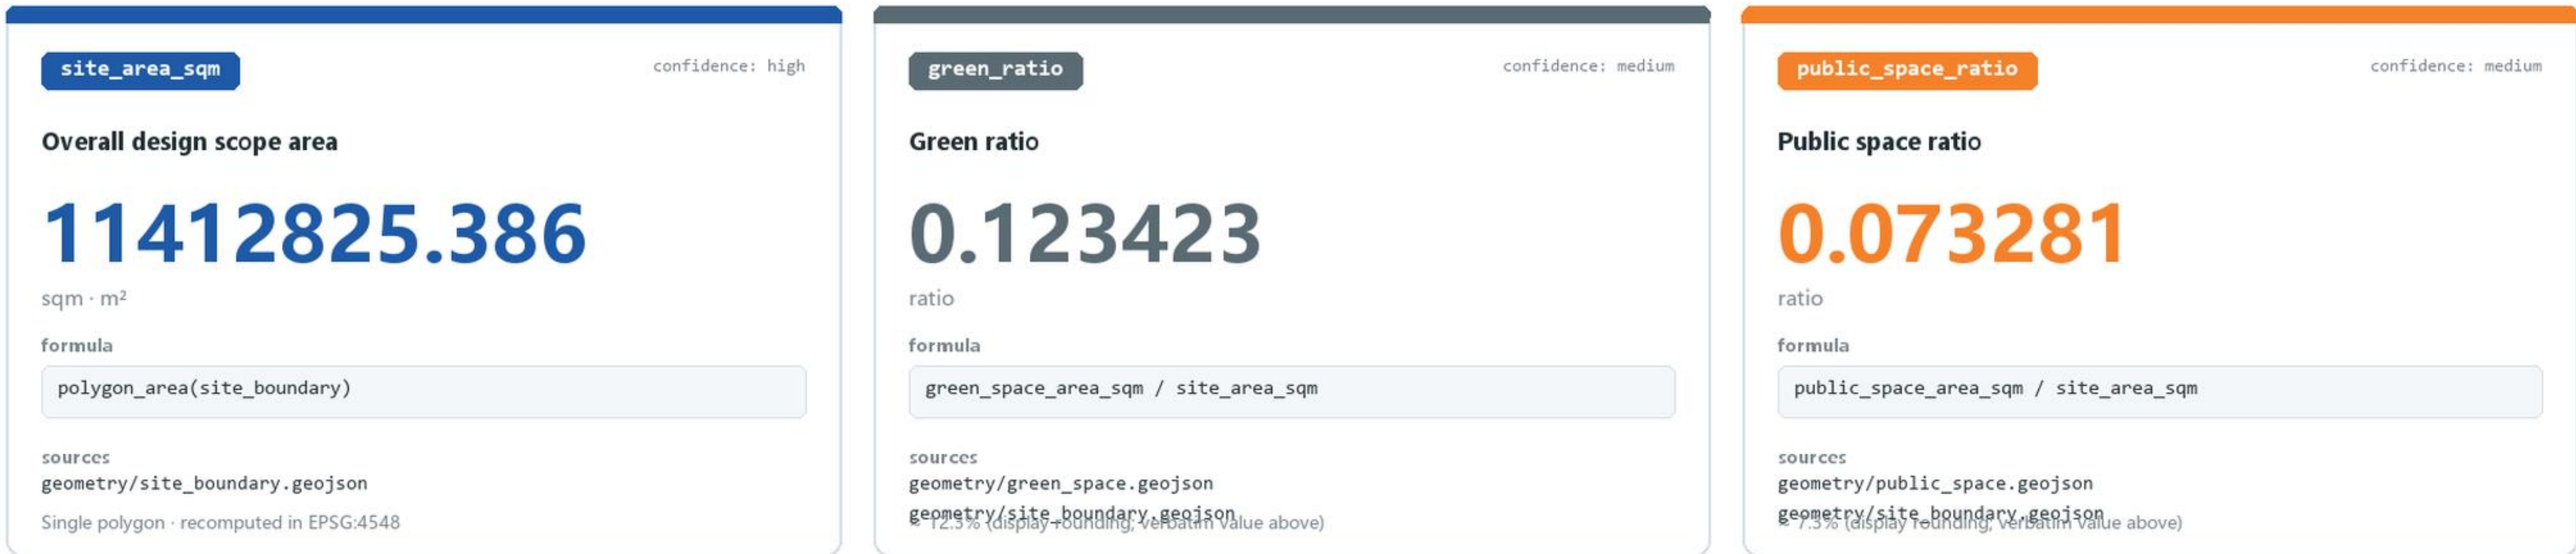

FIG 05

Metrics Evidence Chain

Three core metrics: value · formula · source file paths (verbatim from metrics.json) · floor_area_ratio kept unknown

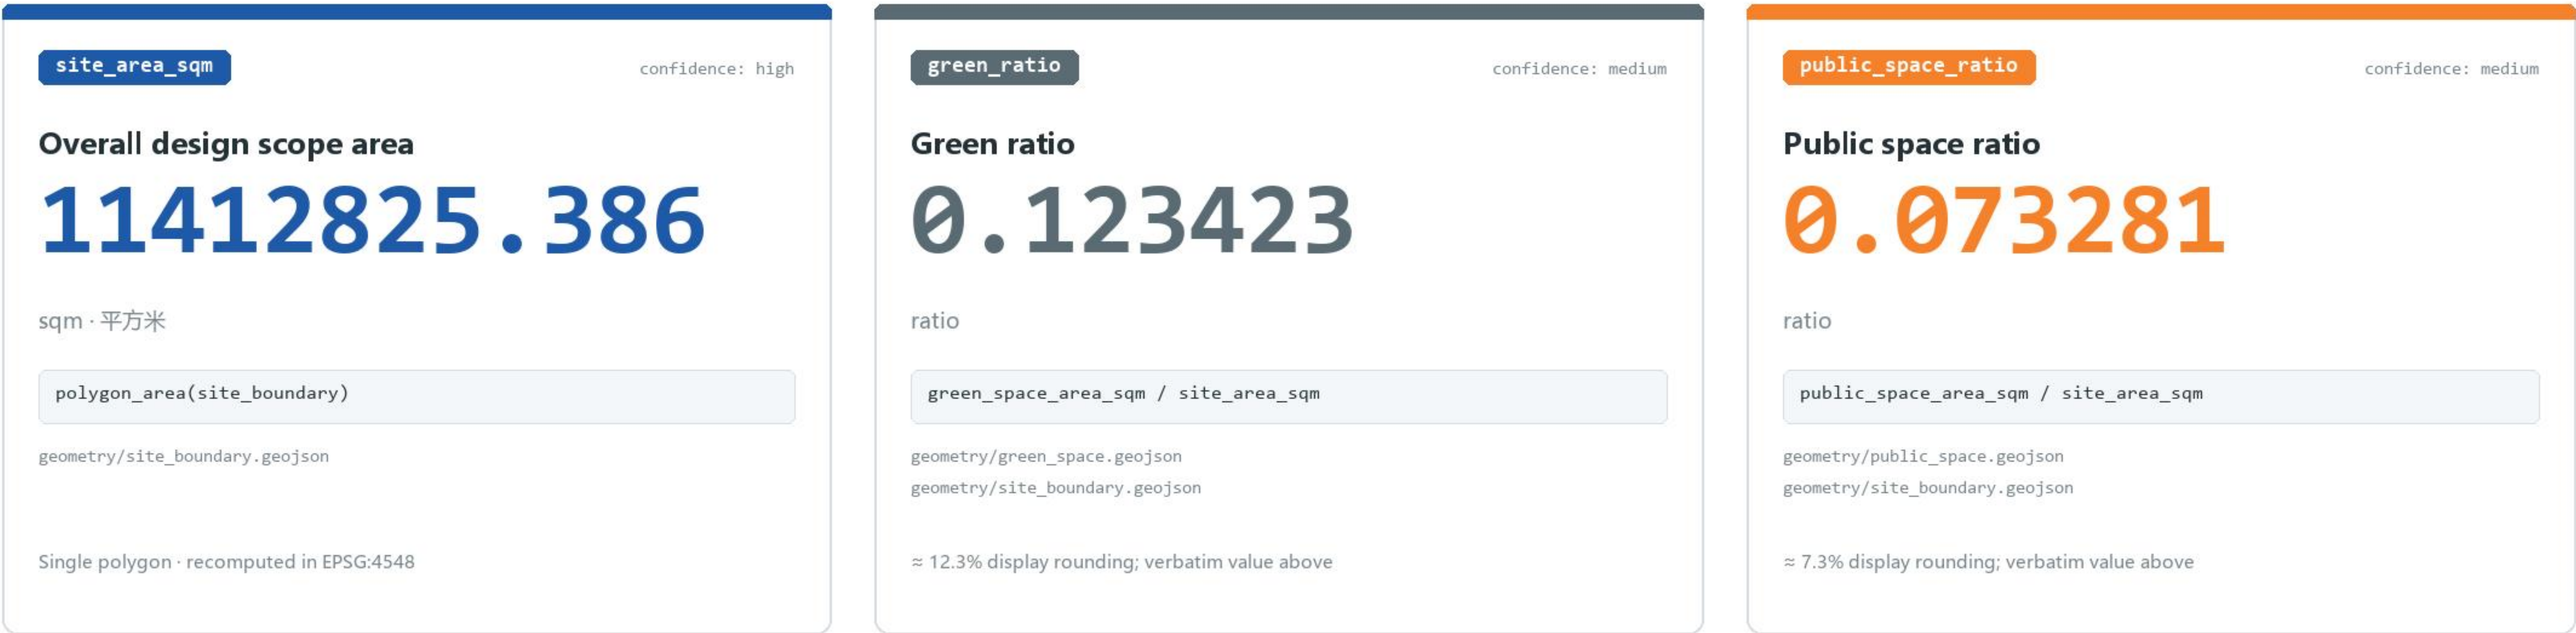

Evidence chain (three-way sync: geometry ↔ metrics.json ↔ visual data-value, 1ppm)

Schematic diagram, not an engineering drawing · provisional boundary (intake display)

geometry/* .geojson · metrics.json | FIG 05

▲ Evidence chain · assets/figures/metrics-evidence.en.png · values verbatim from metrics.json

Renewal project list JZ-01...06

JZ-01	REN-axis slow-traffic stitching	Public space / traffic	depends: road red lines, under-bridge space, traffic review
JZ-02	Origin registry-hall retrofit	Urban renewal / services	depends: campus edge, property rights, ground-floor mix
JZ-03	Zhongzhiyuan proving field	Blue-green / display	depends: river blue line, ecology & flood conditions
JZ-04	Dazhongsi hall & 4-quadrant links	Rail integration / walkability	depends: station, junctions, utility lines
JZ-05	Compute depot network	New infra / public service	depends: energy, compute, safety, operator model
JZ-06	REN Developers' Conference route	Operations / brand	depends: permits, event safety, IP clearance

Phasing & delivery

- Near-term pilots

Light infrastructure first: green-lane study, open-days, compute pilots, REN Deck folly.
- Mid-term renewal

JZ-01...05 proceed once statutory plan, utility, traffic and property conditions are confirmed
- Long-term governance

Conference system, OPC honor wall and data governance in steady-state operation.
- The 100-day solicitation cycle is not implementation phasing; light projects first, controls follow formal conditions.

All boundaries & metrics use the provisional intake basis; the official boundary prevails in formal review.

floor_area_ratio = unknown — no approved FAR controls; no numeric conclusion is drawn.
