

Jingzhang Resonance Loop: Heritage-Park Innovation for a Human-Centred AI City

Centennial railway × Zhongguancun culture × AI culture | public validation line | offline civic returns

Lasting returns: what remains after a digital service pauses?

Mobility return

shade, seating, ground cues and offline route map

Knowledge return

physical guide, attribution, public worktable and withdrawal route

Care return

static wayfinding, access point, night cues and on-site reporting

Resonance Protocol: understand, choose, take over, review

01 众智园 / Zhongzhiyuan

Test Return Court: explanation, shade, seating and staffed inquiry.

02 AI原点 / AI Origin

Knowledge Return Gallery: guide, worktable, attribution and withdrawal.

03 大钟寺 / Dazhongsi

Daily Return Gate: wayfinding, access, night cues and inquiry.

THREE PROFESSIONAL HANDOFFS

Heritage-park mobility return

walk observation | wayfinding sketch | rest-point list

landscape / municipal / accessibility / park operations

Campus-edge knowledge return

rights notice | project-card template | worktable principles

adaptive reuse / operations / transfer / IP service

Station-city daily return

peak observation | static-wayfinding priorities | service card

transport / accessibility / district operations / merchants

THREE ANCHORS, ONE DAY: MOVE — COLLABORATE — REVIEW

Commute peak | movement / staffed entry

main route, physical guide, access and station service first

Daytime | legible collaboration

non-production test, project cards, worktable and staffed Q&A

Evening | public review

reduce test, publish revision/withdrawal and retain staff

PLACE — SERVICE — RETAINED BENEFIT — MAINTAINER — REVIEW DATE

If any condition is absent, the service remains small, returns to staffed entry or stops.

总体结构 / Overall structure

THREE-STAGE RESONANCE ROADMAP: PAUSE, LOOK BACK, RETAIN

A See and calibrate

walk observation | printed guide | staffed inquiry

publish: observe / stay small / do not enter

keep: issue map, offline route, staffed hours

B Reversible pilot + collaborate

detail kits | non-production test | static guide

publish: retain / revise / withdraw

keep: layout, service card, consent, night review

C Retain + annual review

specialist delivery | culture line | care loop

publish: expand / small / people / exit

keep: place—service—benefit—maintainer—date

Expansion is not the default: ordinary movement, staffed help, a maintained benefit and feedback that changes a decision remain.

This is not an investment, delivery or approval promise; related matters follow their own procedures.

CLIMATE–SPACE–SERVICE CARE LOOP: BLUE-GREEN SPACE SERVES RESILIENCE FIRST

Sun / heat

SPACE: shade, stopping, permeable ground, walking | SERVICE: printed compute explanation + staff | FAIL: remove exhibit taking shade/route

Rain / ponding

SPACE: drainage check, detour, staff | SERVICE: human-reviewed route state | FAIL: stop outdoors, use offline guide

Evening / night

SPACE: light, crossing, access rest | SERVICE: night walk + staffed desk | FAIL: reduce activity, restore normal service

THREE-ANCHOR BENEFITS: Zhongzhiyuan = shade/seat/compute explanation | AI Origin = physical information + rain detour | Dazhongsi = night guide/access/staff.

Without utilities, drainage, flood, power, fire and ownership information, no engineering method, capacity or performance value is assumed.
