

# Jing-Zhang AI Spine: Urban Design Proposal

A0 board • Overall structure and key areas

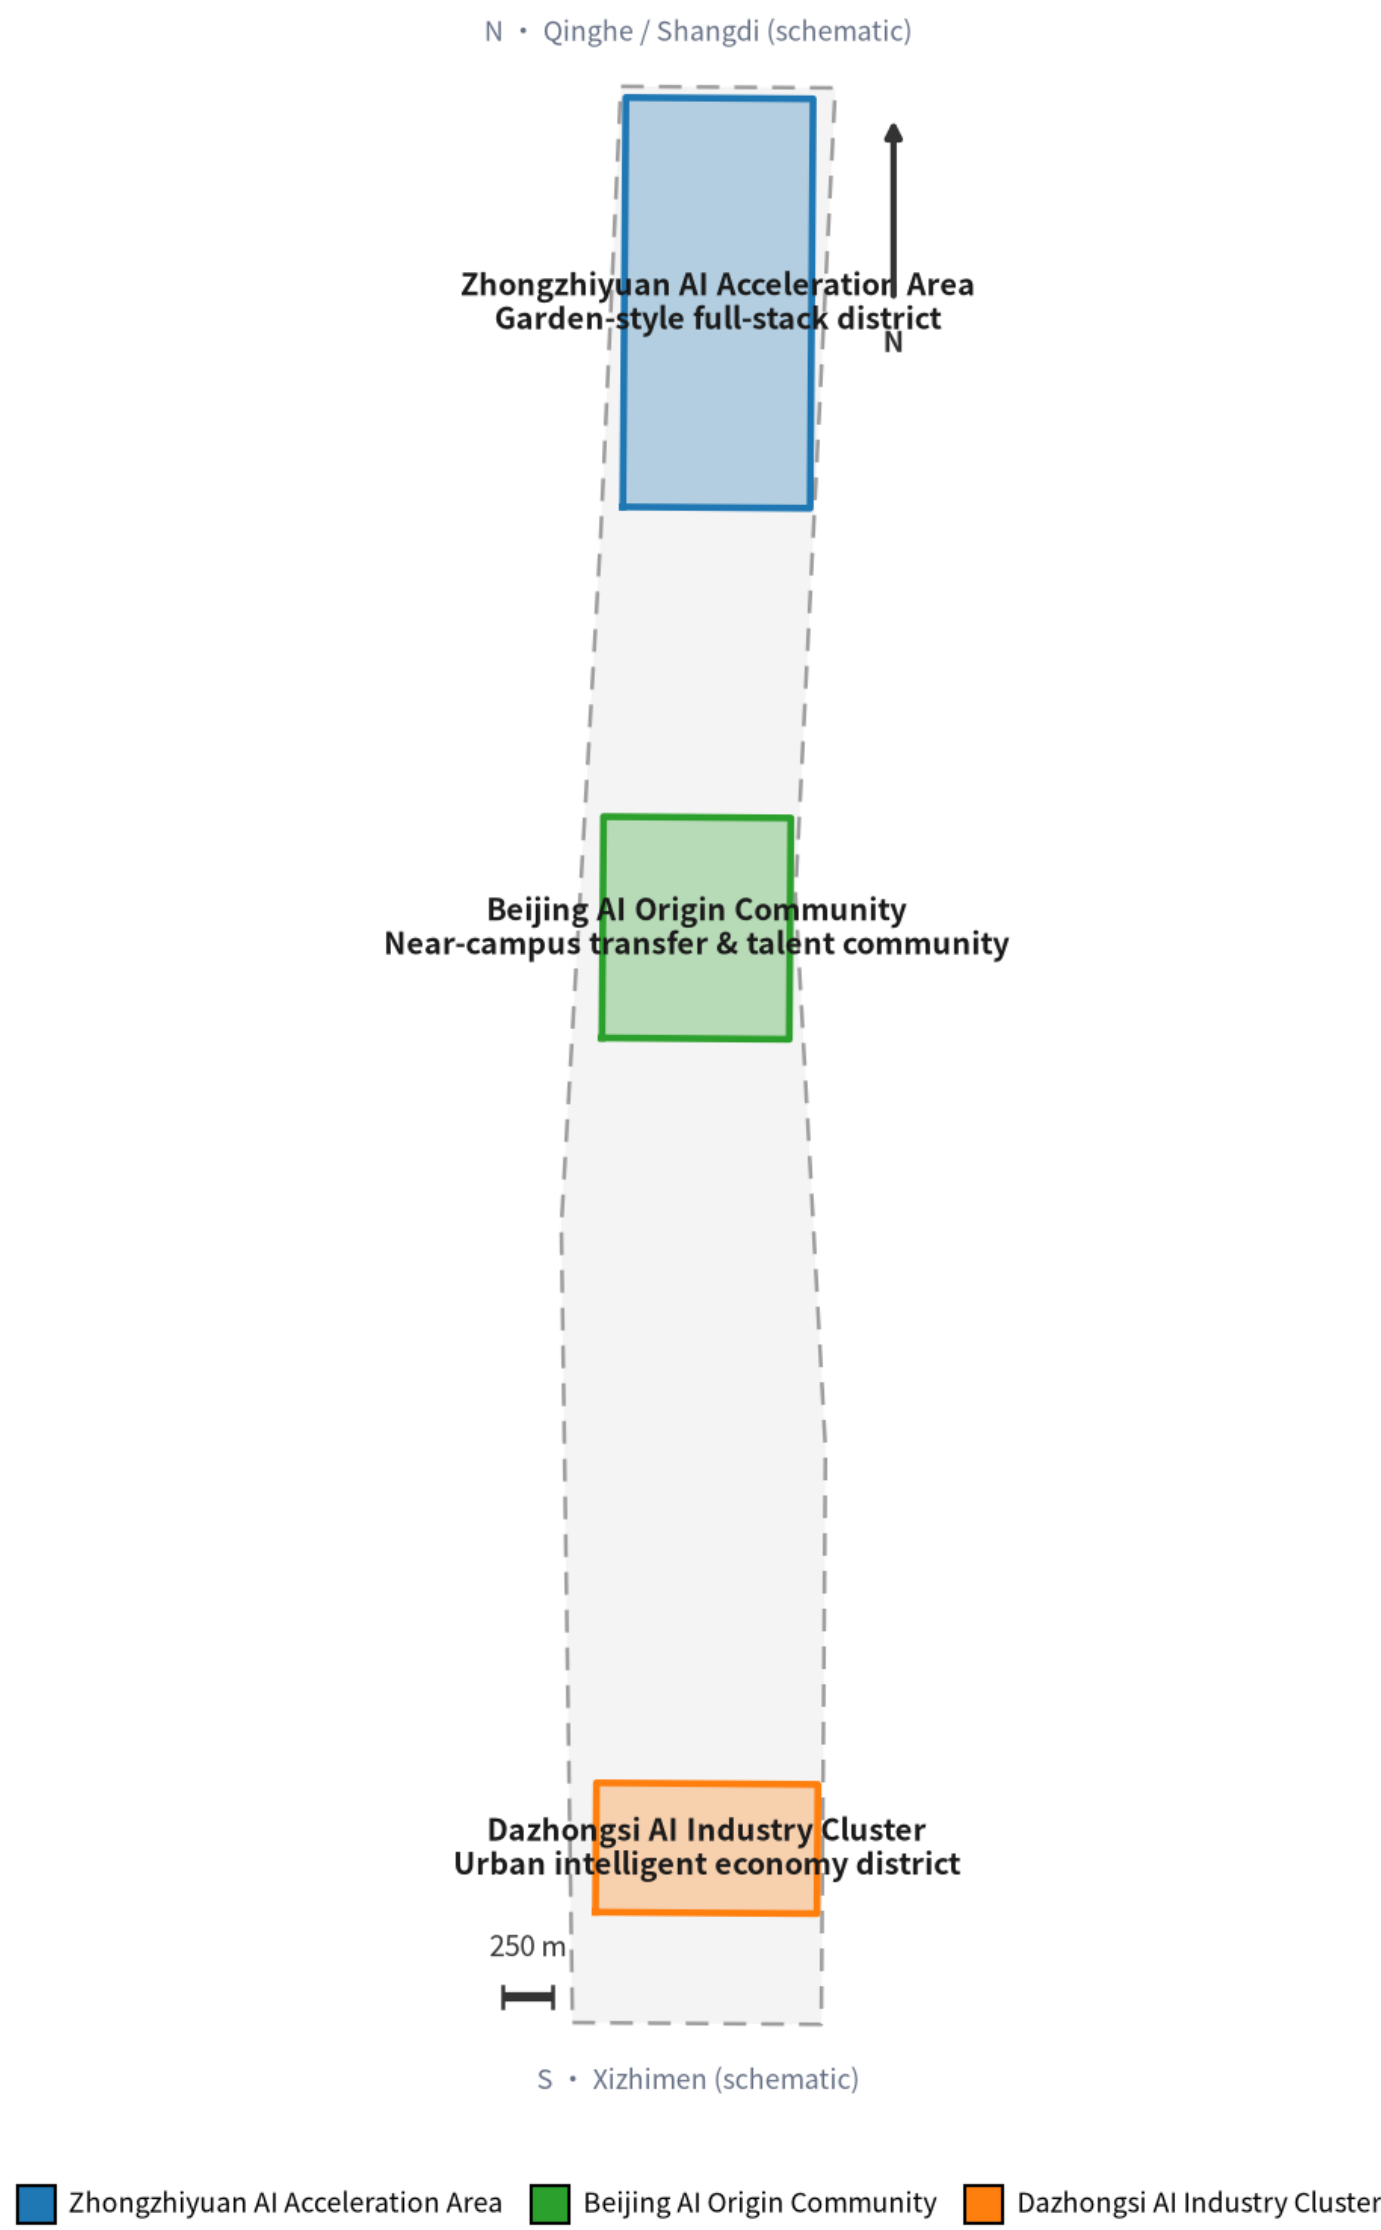

## Jing-Zhang AI Spine: Overall Concept and Three Cores

Source: geometry/" .geojson (agent-generated design layers); site/key\_areas are provisional constraints, not an official redline.

Overall concept and three cores

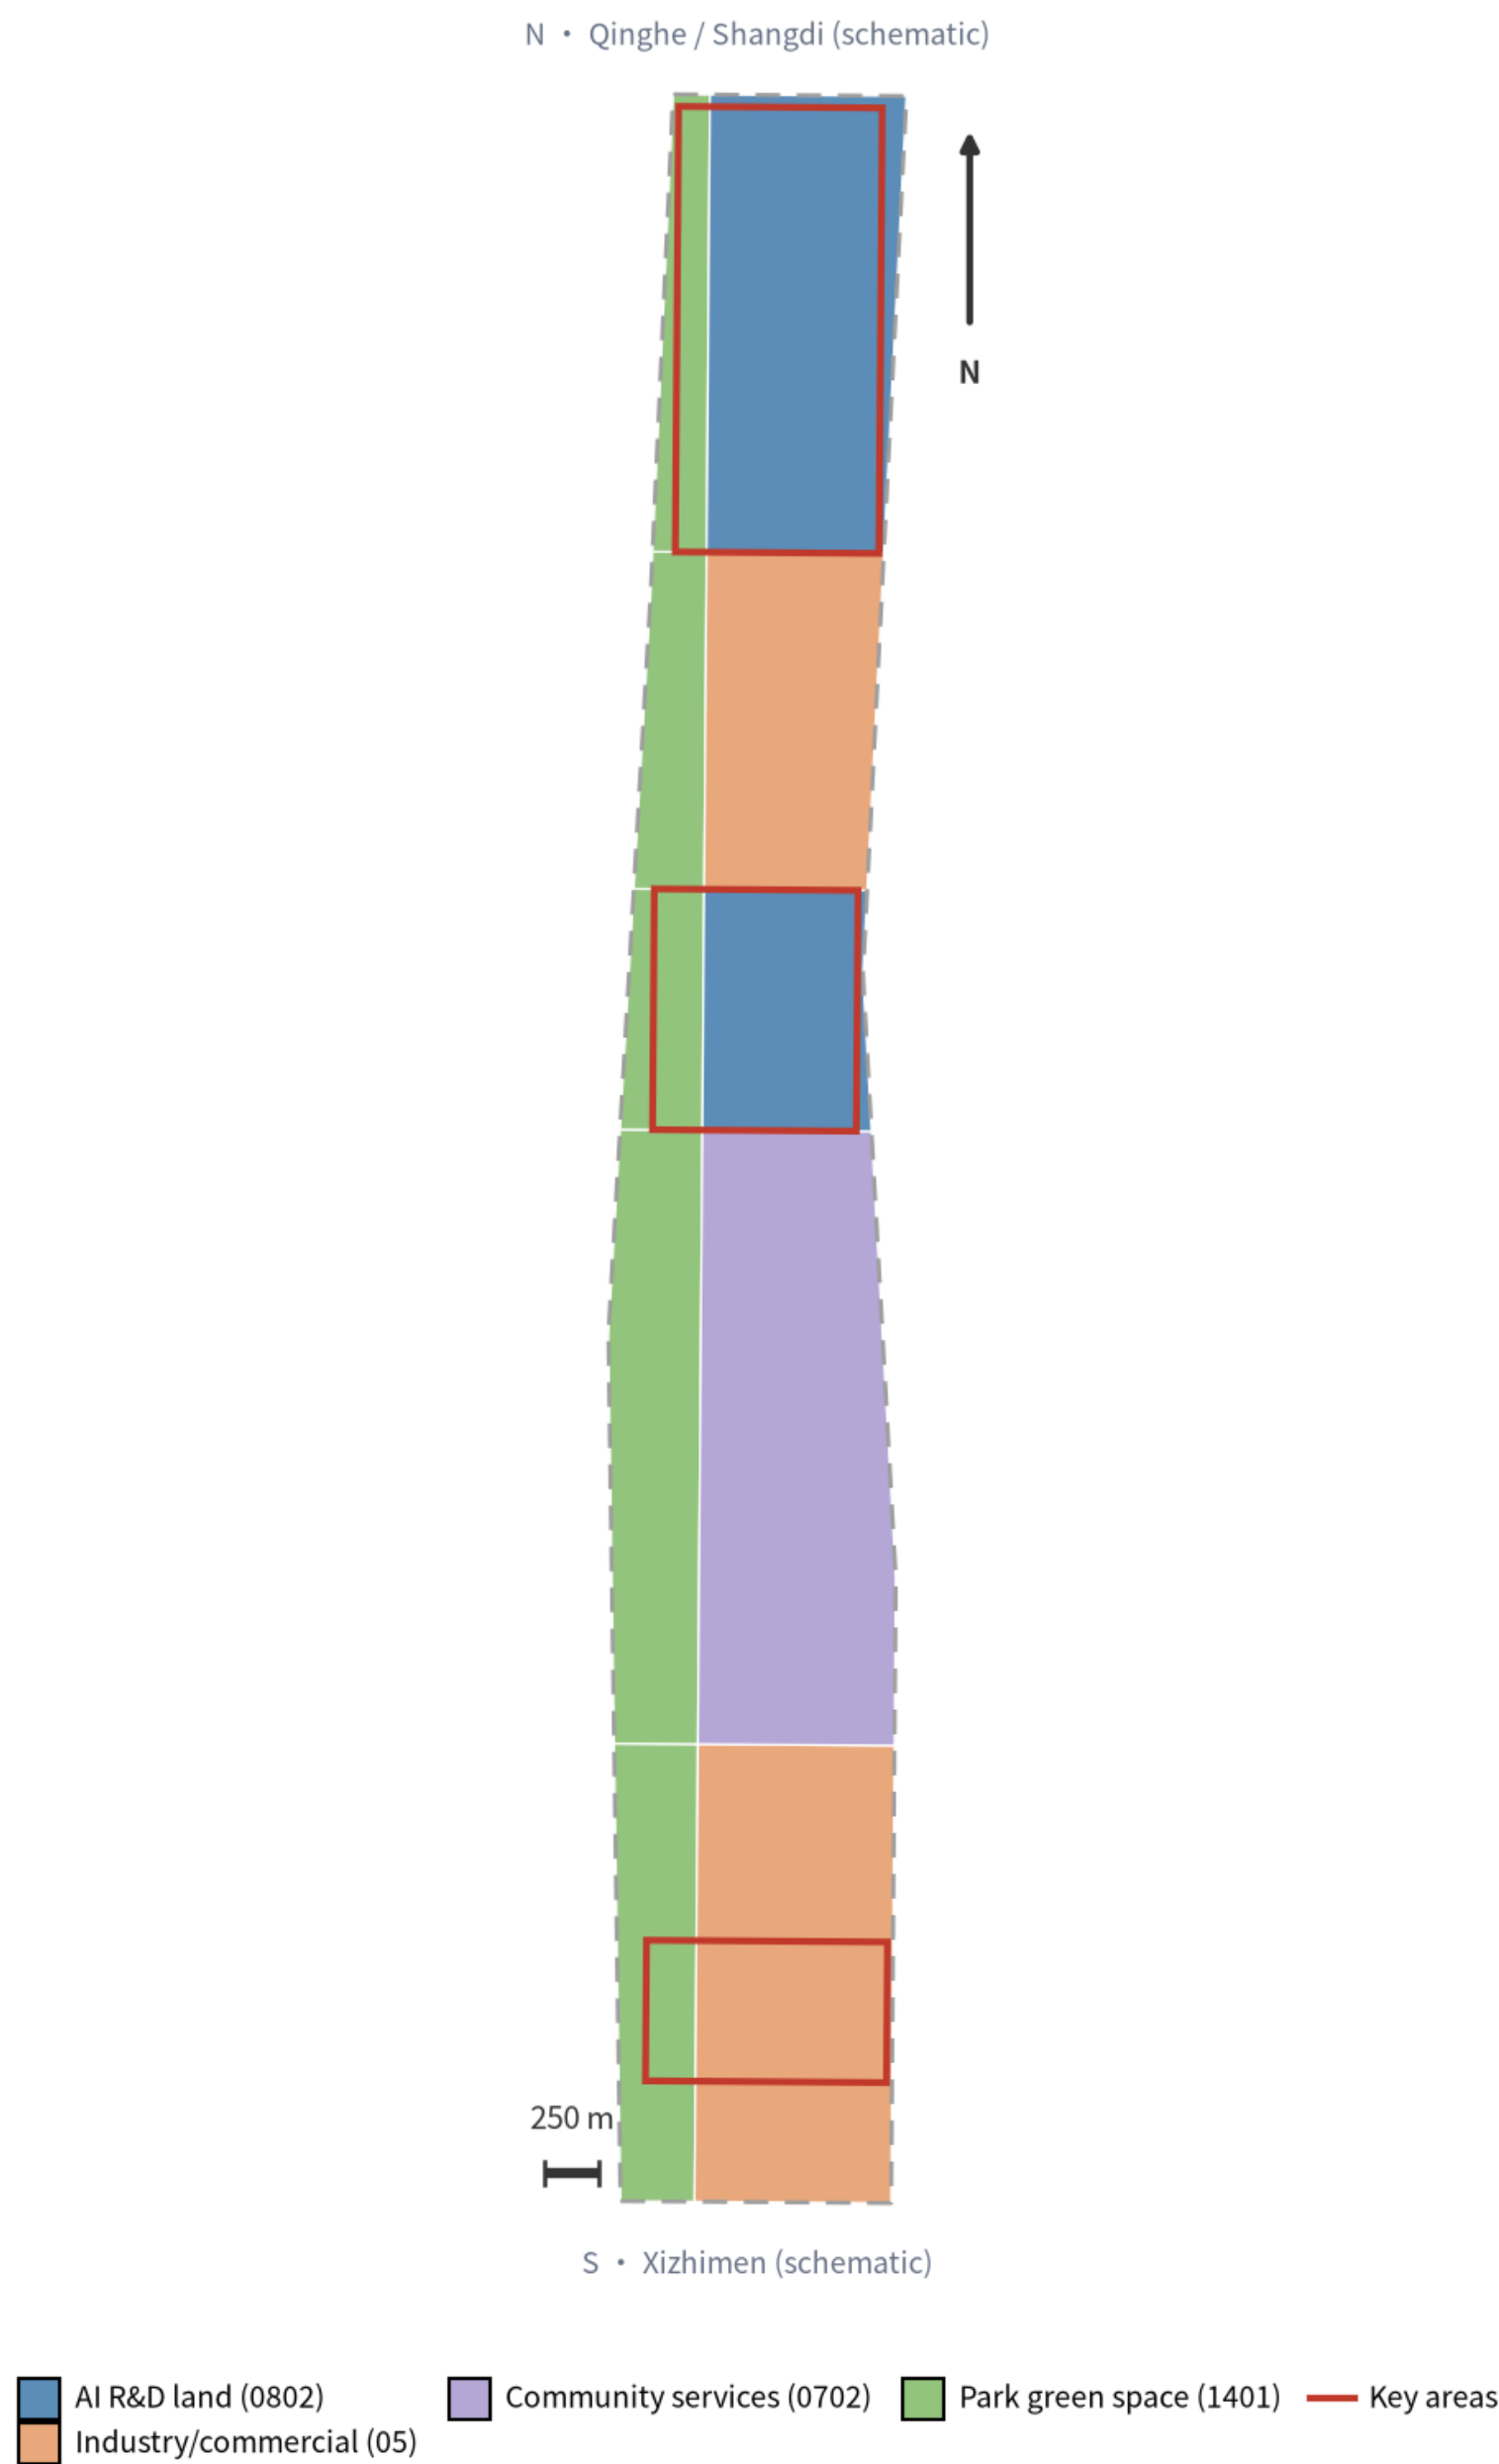

## Three Key Areas: Detailed Design Index

Source: geometry/key\_areas.geojson; key areas are provisional constraints, areas are directional only.

Three key areas

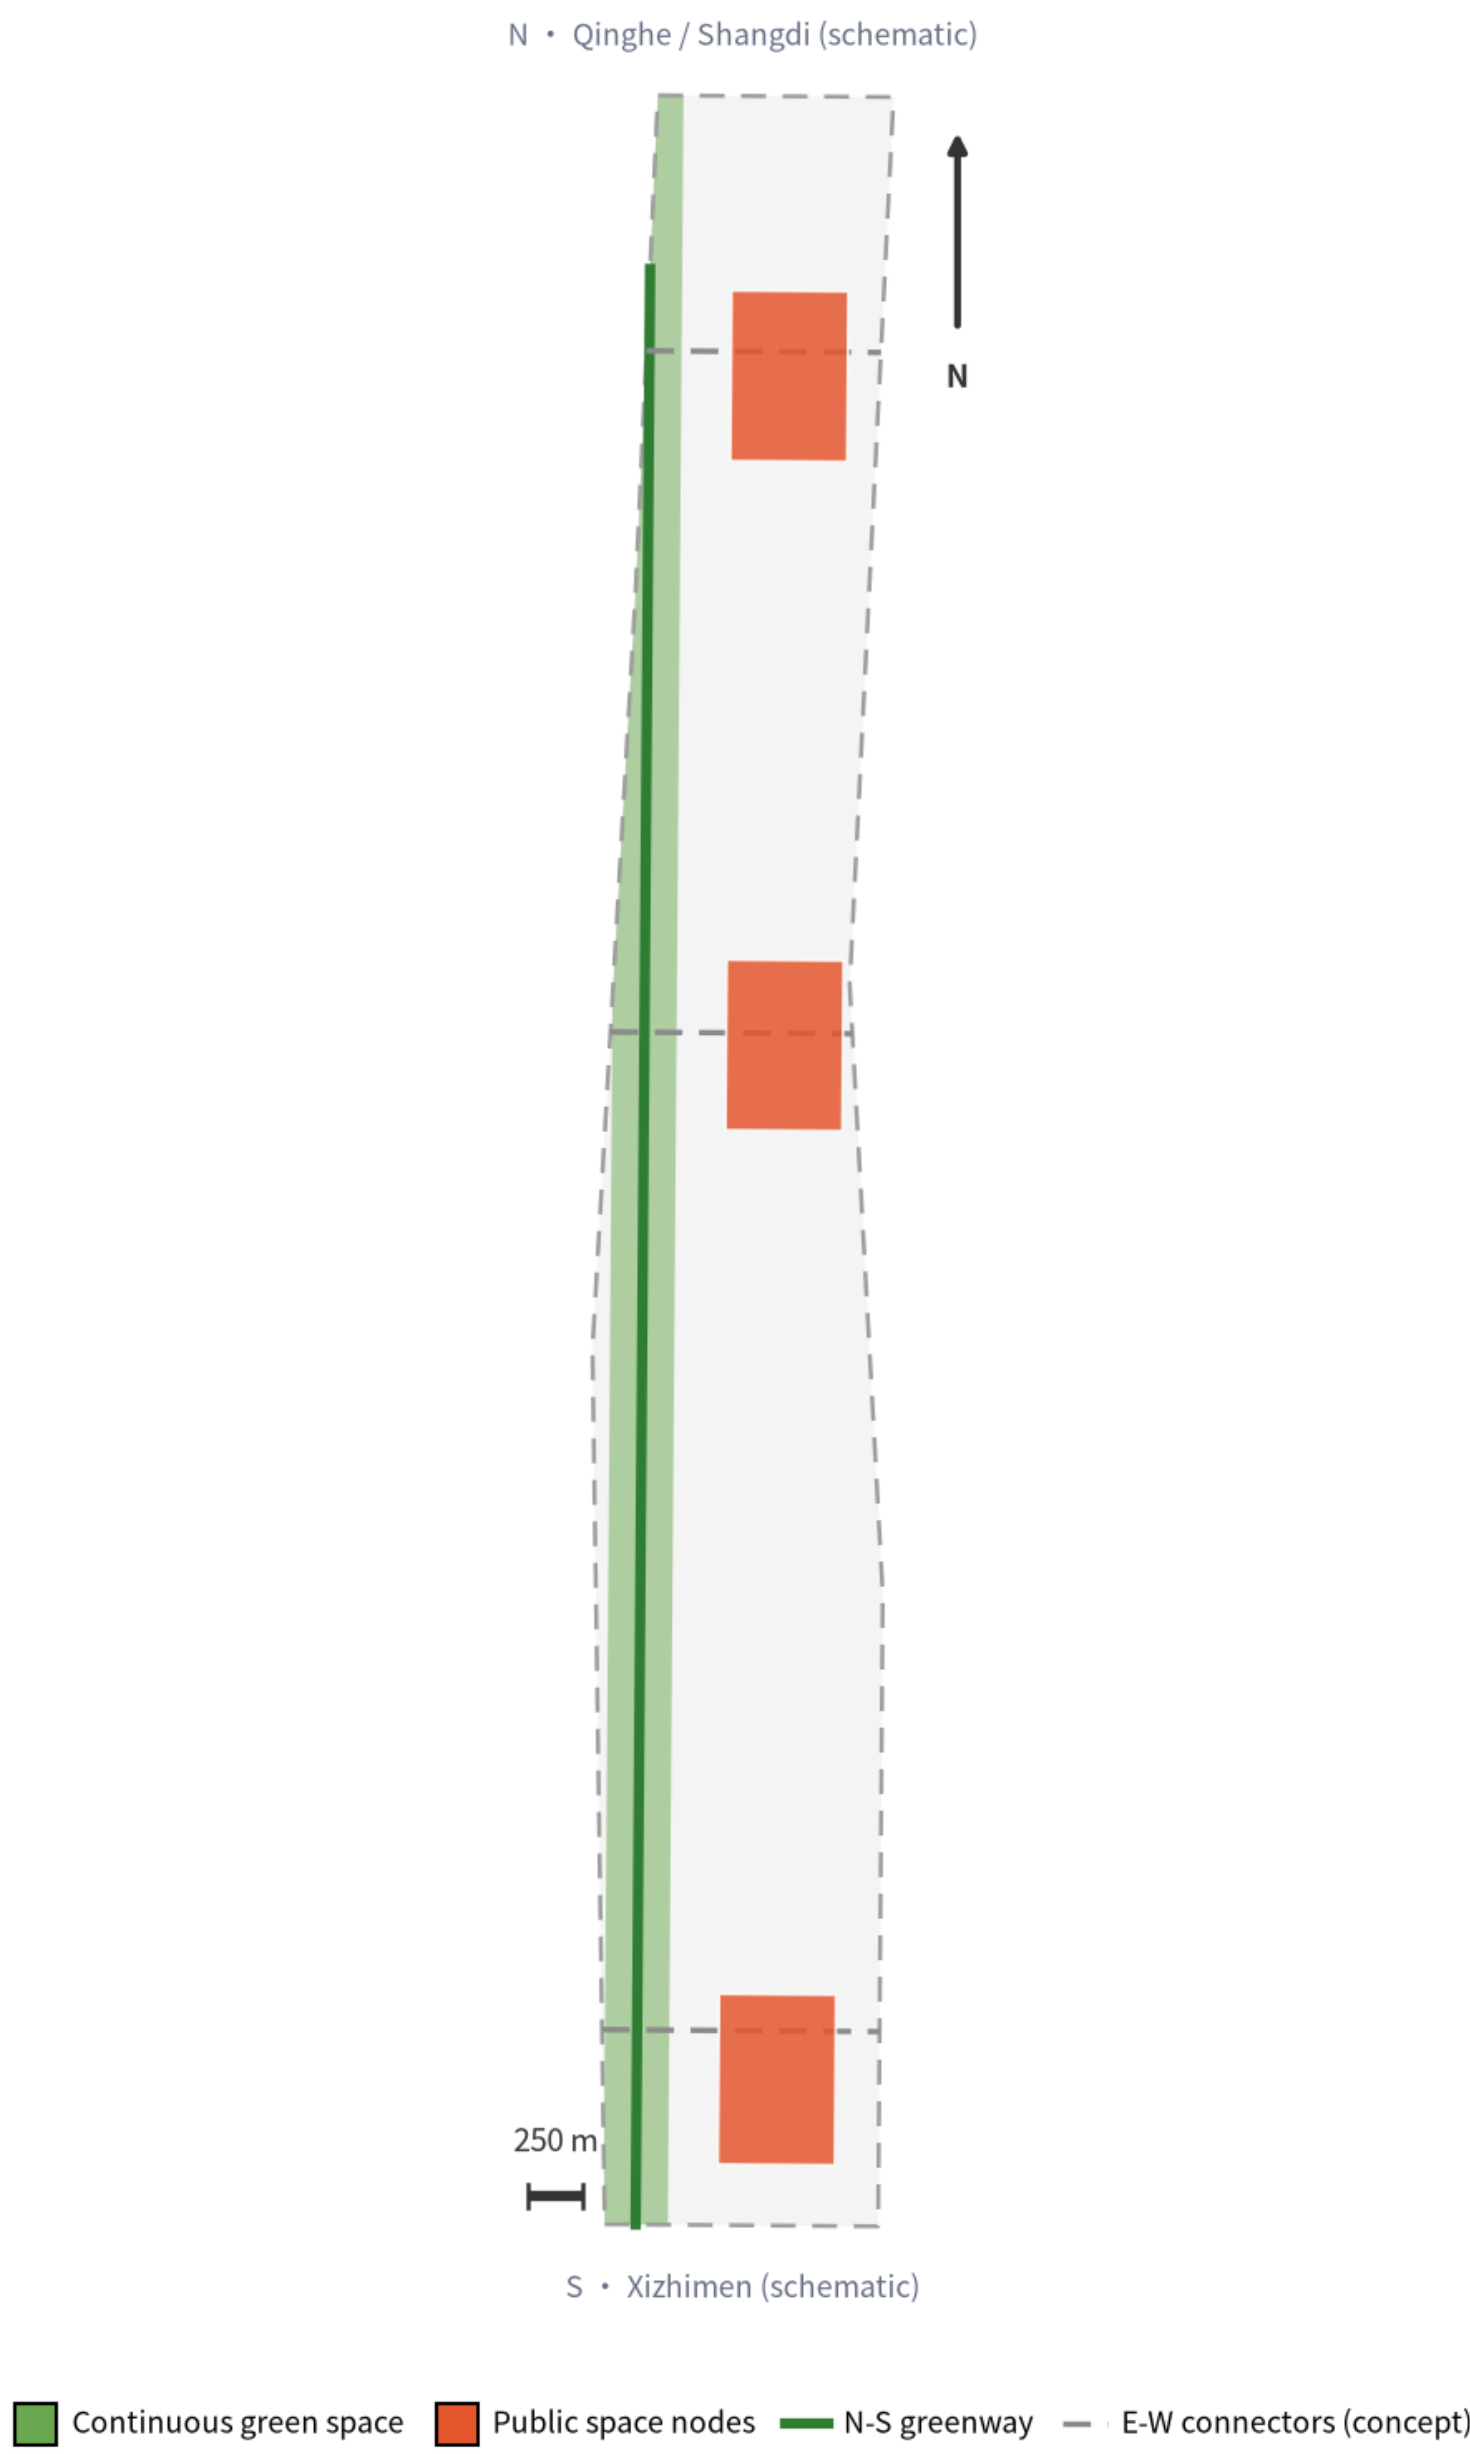

## Land-Use Structure and East-West Stitching

Source: geometry/land\_use.geojson (agent-generated, land\_use\_code per public classification); site is a provisional constraint.

Land-use structure and E-W stitching

## Mobility and Blue-Green Public Space System

Source: geometry/roads.geojson, green\_space.geojson, public\_space.geojson (agent-generated).

Mobility and blue-green system

## Core metrics (provisional recalculation, rounded)

Overall design area 11,412,825  
Green ratio ≈0.216  
Public space ratio ≈0.109  
Building footprint 427,895

## Renewal project implementation table (JZ-01–JZ-06)

| ID    | Project                                              | Type                                | Lead roles                                     | Prerequisites                                    | Cost / window     | KPI                                     | Fallback / governance                |
|-------|------------------------------------------------------|-------------------------------------|------------------------------------------------|--------------------------------------------------|-------------------|-----------------------------------------|--------------------------------------|
| JZ-01 | Jing-Zhang heritage park slow-mobility gap stitching | Public space / transport            | District housing + park operator + subdistrict | Road redline, under-bridge space, traffic review | Low-mid • 1-2 yr  | Continuity rate, gaps closed            | Detour plan + barriers + lighting    |
| JZ-02 | Zhongzhiyuan Qinghe innovation interface             | Blue-green / industry display       | Park operator + water authority                | River blue line, ecology, flood control          | Mid • 2-3 yr      | Waterfront reachability, showcase count | Flood alert + timed opening          |
| JZ-03 | Origin Community near-campus result-transfer street  | Urban renewal / industry service    | Campus + operator + subdistrict                | Campus boundary, ownership, ground-floor mix     | Mid • 2-5 yr      | Transfer projects, occupancy            | Professional review + phased opening |
| JZ-04 | Dazhongsi station four-quadrant connectivity         | Rail integration / slow mobility    | Rail group + transport + subdistrict           | Station, intersection, utilities                 | Mid-high • 3-5 yr | Quadrant connectivity, transfer time    | Temporary underpass + signage        |
| JZ-05 | AI public services and edge-computing nodes          | New infrastructure / public service | Operator + energy authority                    | Energy, compute, safety, operator                | Mid • phased      | Compute utilization, service reach      | Data minimization + human review     |
| JZ-06 | Global AI activity week public route                 | Operation / brand                   | Brand operator + public space                  | Public-space permit, safety, IP clearance        | Low • annual      | Participation, international reach      | Reservation + safety plan            |
